RE: City of Anaheim Master Plan of Arterial Highways Amendment Request – 2025
General Plan Update

Dear Ms. Casey:

The City of Anaheim (City) would like to request initiation of the Orange County Transportation Authority's (OCTA) Master Plan of Arterial Highways (MPAH) amendment process to implement proposed Circulation Element changes which have been identified as part of the City's 2025 General Plan Update.

More specifically, the City would like to request OCTA's approval of the following proposed MPAH change.

- Remove the Weir Canyon Extension (from Blue Sky Road to State Route 241).

Based upon the attached traffic modeling results, which were developed for the 2025 General Plan Update, these proposed MPAH modification will not result in negative impacts to the MPAH system or the City's Circulation network.

Therefore, the City would like to respectfully request that OCTA initiate the MPAH amendment process for this change. Thank you for your assistance with this matter. We look forward to working with OCTA on processing this important MPAH change in support of the City's General Plan Update efforts.

Should you have any questions regarding this MPAH amendment request, please feel free to contact Rafael Cobian, City Traffic Engineer, at (714) 765-4991.

Sincerely,

Rudy Emami, P.E.
Director of Public Works

c. Rafael Cobian, City Traffic Engineer
