Discussion Items

8. Back-Office System/Customer Service Center Update

Kirk Avila, General Manager, Orange County Transportation Authority, 91 Express Lanes

In November 2019, the Orange County Transportation Authority Board of Directors and Riverside County Transportation Commission Board of Directors approved the selection of Cofiroute, USA to provide operating services for the 91 Express Lanes in Orange and Riverside counties. Staff will provide an update on the progress since the selection and the upcoming schedule for transition to the new back-office system.

9. 91 Express Lanes 6C Transponder Status

Jennifer Crosson, Toll Operations Manager, Riverside County Transportation Commission, 91 Express Lanes

Staff will be providing an update on the transition to 6C transponders for 91 Express Lanes customers. Distribution of new welcome kits and 6C sticker transponders have commenced and will continue to take place over the next several months.

10. 91 Express Lanes Eastbound County Line Access Restriping

David Thomas, Toll Project Manager, Riverside County Transportation Commission, 91 Express Lanes

Over the coming weeks, the eastbound 91 Express Lanes will be restriped at the ingress and egress location. This will require approximately 20 hours of closures in Orange and Riverside counties. Staff will provide an update on the project.

11. State Route 91 Corridor Projects Status Update

Dan Phu, Program Manager, Orange County Transportation Authority.

Staff will provide an update on State Route 91 Corridor projects.

4. Draft 2019 State Route 91 Implementation Plan

Anne Mayer, Executive Director, Riverside County Transportation Commission (RCTC), provided opening comments and introduced Kia Mortazavi, Executive Director of Planning, Orange County Transportation Authority (OCTA), who provided a PowerPoint presentation on this item as follows:

- SR-91 Implementation Plan (Draft Plan);
- Culmination Efforts:
- Guiding Principles;
- Orange County Projects;
- Riverside County Projects;
- Bi-County Projects;
- SR-91 Corridor Operations Project (91 COP)
- SR-241/91 Express Lanes Connector (241/91 Connector);
- Project Implementation; and
- Recommendation/Next Steps.

4. (Continued)

Public comments were heard from:

<u>Mike Kraman</u>, Chief Executive Officer (CEO), Transportation Corridor Agencies (TCA), who provided comments as follows:

- Referenced the first paragraph of Page 4 of the staff report and Page 22 of the Draft Plan. Without supporting technical analysis or stakeholder coordination, the wording alludes to project sequencing prior to the implementation of the 241/91 Connector.
- TCA supports the Interstate 15 (I-15)/SR-91 Express Lanes Connector (15/91 Connector) project and agrees that the 241/91 Connector should not be completed until the 15/91 Connector is done.
- TCA's traffic analysis does not show any relationship to the timing of RCTC's two other priority projects the: 91 COP and SR-73/SR-91 Interchange.
- TCA is working with the California Department of Transportation (Caltrans), RCTC, and OCTA to understand the 91 COP analysis to ensure that the modified design for the westbound (WB) 91 COP accommodates projects in the Draft Plan.
- Slide 12 of the PowerPoint presentation noted concerns with coordination of projects as it relates to construction fatigue, community impacts, and throwaway costs.
- TCA wants to ensure that the 241/91 Connector is in coordination with all impacted agencies.

<u>Trevor O'Neil</u>, Anaheim City Council Member, who provided comments as follows:

- The SR-91 corridor is both a lifeline and a nightmare for Anaheim Hills constituents.
- Expressed appreciation to OCTA and RCTC for having the SR-91 Advisory Committee working together to better the SR-91 corridor.
- Supportive of TCA's work done to provide north/south traffic relief to his community.
- RCTC and OCTA need to work cooperatively with TCA on the 241/91 Connector, as this is a critical project for its constituents and for the cities of Orange and Yorba Linda.
- Reviewed the draft traffic analysis by Stantec, and there are significant benefits with the added throughput; however, the Draft Plan does not reflect those benefits.
- Agrees there should be some sequencing for all these projects; however, he has not seen a technical basis for that sequencing.

June 7, 2019 Page 3 of 13

Special State Route 91 Advisory Committee Meeting

4. (Continued)

- Concerned about the following:
 - OCTA and RCTC do not consider the 241/91 Connector to be an important project.
 - Traffic back-up along the SR-241 and traffic weaving/cut-through in the City of Anaheim to the SR-91.
 - The 91 COP taking away the existing median where the 241/91 Connector would have its merging lane.
 - Proposal of an additional lane and the WB 91 COP expansion does not consider 241/91 Connector.

Wes Speake, City of Corona (Corona) Council Member, who provided comments as follows:

- Residents of Corona suffer every morning and afternoon and cannot access the freeway.
- In order for commuters to access the freeway daily from Green River Road (Green River), they must sit in their vehicle for about 30+ minutes.
- Supports the 91 COP that will provide commuters to Orange County an option and will minimize traffic cutting through city streets.
- He believes the 241/91 Connector should be sequenced and will address the WB SR-91 traffic issues.
- The traffic analysis for the 241/91 Connector eastbound (EB) shows more vehicles going onto Green River in the afternoons.
- Commuters exit the freeway where there is a path of least resistance, and the 91 COP will help traffic flow from Green River into the SR-91.
- Opposed to increasing the tolls if the 241/91 Connector goes in too early.

Dean Stamp, Corona resident, who provided comments as follows:

- Lives a few blocks from the SR-91, between the Maple Street and Serfas Club Drive on-ramps, and every weekday the street is used by hundreds of commuters as a cut-through street to the Serfas Club Drive on-ramp.
- His street is used by parents to walk their children to the area schools, and highlighted concerns about the street traffic endangering the residents.
- Would like the construction of the 91 COP and SR-91 traffic to move faster.
- Supports the 91 COP and would like it to be built as soon as possible in order to protect families in the neighborhood.

Special State Route 91 Advisory Committee Meeting

4. (Continued)

Michelle Wentworth, Greater Corona Traffic Alliance (GCTA), who provided comments as follows:

- There are many Corona residents at the meeting today to remind the TCA, OCTA, and Caltrans, how the residents streets are collateral damage to any improvements made on the SR-91.
- The WB ramp at Green River has the same throughput previous to the RCTC 91 Corridor Improvement Project (91 CIP) being built; yet, the demand has increased.
- Green River is important to residents because that on-ramp is not functioning how it should be and has only one lane allowing one car to merge in at a time.
- RCTC has worked with the community to address the traffic weaving into the toll lanes and freeway, which creates a bottleneck.
- Served on the 91 citizens task force that supports the 241/91Connector.

Matt Olsen, Corona resident, who provided comments as follows:

- Displayed a map, on the overhead projector, the SR-91 where the RCTC projects are being considered.
- Highlighted this morning's SR-91 traffic conditions that occurs daily.
- The 91 COP is not a new project; instead, it is finishing up a project that was part of the original 91 CIP, and absolutely needs to be completed.

Jim Steiner, Corona Council Member, who provided comments as follows:

- Represent Corona's District 4, which is the area around Green River and Serfas Club Drive.
- Highlighted the road rage issues, length of time to access the freeway from his District's area, and lack of capacity on the SR-91.
- He receives complaints of the results of cut-through traffic on the city streets because the SR-91 corridor cannot handle the capacity.
- Encouraged TCA, OCTA, RCTC, and Caltrans to work together to minimize the delays in building these projects so there is no further collateral damage to citizens.
- Welcomes the four projects between the SR-241 and I-15; however, it feels with all the growth occurring in his region, the projects are still just band aids solutions.
- Transportation leaders and elected officials, at all levels of government, need to come together to find alternative solutions.

Special State Route 91 Advisory Committee Meeting

4. (Continued)

Karen Alexander, Corona resident, who provided comments as follows:

- Thanked the public for coming together to stress and emphasize the traffic impacts to the local community.
- The throughput on the WB SR-91 is a priority.
- The 91 COP is essential and supports it.
- The biggest aspect that to consider is traffic and community impacts.
- Concerns about traffic cut-through on city streets which impacts residents who must take their kids to school or need to run errands.
- Throughput and maximizing circulation are regional that impacts Corona.
- Make the 91 COP a priority (part of the \$600 million that was cut out of the original 91 CIP).
- The connection to the SR-241 would greatly improve the throughput.

<u>Don Fuller</u>, Corona resident, who provided comments as follows:

- Echoed and supports the previous comments about cut-through traffic and insufficient throughput.
- All the money spent, and work done over the past few years to improve the freeway has made things worse, especially since the completion of the 91 CIP.
- The white plastic delineators that divide the 91 Express Lanes from the general-purpose lanes are useless and very dangerous.
- Provided examples of vehicle accidents due to cutting through the delineators.
- Predicts that there will be many lawsuits if this problem is not fixed.

<u>Joe Morgan</u>, resident of Corona, who provided comments as follows:

- The money spent on the 91 CIP has made things worse.
- Many segments were pulled from the 91 CIP, and the 91 COP is a continuation of the 91 CIP that was not completed.
- All the weaving, traffic, accidents, and issues with the delineators are a result of all the segments taken out of the 91 CIP.
- Residents need the rest of the 91 CIP completed, and the lanes, connectors, and interchanges need to be continued as originally planned.
- The SR-91/Green River improvement needs to happen now.

June 7, 2019 Page 6 of 13

Special State Route 91 Advisory Committee Meeting

4. (Continued)

- In the 1970's there were two on-ramps on Green River, and now there is one lane.
- Felt there is no coordinated plan and it is time for people to get their act together and consider this as a regional plan.
- Unless done correctly, the 241/91 Connector will make traffic weaving worse.
- Corona residents need the remaining 91 CIP to be completed as originally intended.

Sharon Carriedo, Corona resident, who provided comments as follows:

- Agrees that the 241/91 Connector needs to be done; however, it needs to wait until the current problems are fixed.
- Lives on the other side of Corona in the Eagle Glen community and they have their own set of issues with the SR-91 and I-15.
- Going through a job transition and will not be driving on the SR-91 until it is fixed.
- With the additional houses being built, the traffic back-up will increase even more to the I-15 and will cause additional traffic cut-throughs to the arterials.
- Questioned the decision to remove some segments of the 91 CIP that are needed.
- Hopes that everyone gets together to review the traffic issues, from the perspective of the commuters that drive every single day, and how it causes a traffic situation and bad drivers.

<u>Creiselda Terpoorten</u>, Corona resident, who provided comments as follows:

- She is a local mental health advocate and is seeing an uptick of folks being impacted by their daily commute.
- Traffic can be a trigger and does not want to have one of her clients or other commuters release their trauma onto somebody else because they cut them off on the freeway.
- Commuting stressors are a trickledown effect on the commuter's family, employer, etcetera.
- Family separation is an issue, with one parent or two parents working in Orange County working while their children are in the Corona area, and if something were to happen, how does the commuter get to their family members as soon as possible.
- Concerned with commuter fatigue and construction fatigue having a major effect on quality of life.

June 7, 2019 Page 7 of 13

Special State Route 91 Advisory Committee Meeting

4. (Continued)

Michelle Demora, Corona resident, who provided comments as follows:

- She drives this SR-91 everyday, has lived in Corona her whole life, and conditions have gotten worse since the completion of the 91 CIP.
- Her bank accounts are a lot less because she uses the toll road in order to try to make her life better.
- Asked everyone to drive the SR-91 during the early morning hours from 5:20 a.m. 6:30 a.m.
- Highlighted her driving challenges and how she drives around the SR-91 traffic by using the arterials.
- Concerned with the EB 91 Express Lanes ingress/egress, and thinks it is very dangerous.
- Her commute does not add anything to quality of life, it adds stress, and affects folks every single day.

Maddy Paxton, Corona resident, who provided comments as follows:

- Is a retired resident of Corona. She drives the SR-91 for medical appointments, and echoed Ms. Demora's remarks to drive the SR-91 during the early morning hours.
- Used to work in Irvine that was a two-hour round-trip commute.
- Concerned about getting home in an emergency and provided an example of when her husband was ill for several months.
- She would listen to the news every morning, without a doubt, there was a
 joke about the SR-91 corridor.
- Take into consideration people's entitlement on the freeway and continuously weaving in and out of lanes.
- Some folks come from the SR-241 to Green River and are driving on the emergency lane to get home quicker which can cause major accidents.

June 7, 2019 Page 8 of 13

Special State Route 91 Advisory Committee Meeting

4. (Continued)

A lengthy discussion ensued as follows:

- The correspondence from TCA suggested there was no funding for the three RCTC projects, while the email from RCTC suggested there is funding, and requested for RCTC to clarify.
- RCTC clarified that the three projects are high-priority, funding information and current status of each project was provided, the deferred projects from the original 91 CIP, and the priority projects are on schedule to be delivered by 2023.
- RCTC supports the 241/91 Connector. RCTC's issue is with adding more traffic in the EB direction where traffic is already backed-up, and additional traffic being pushed into the 91 Express Lanes will only push more traffic into the general-purpose lanes and onto local arterials.
- The EB capacity needs to be addressed, and the I-15 Express Lanes Connector be built before the 241/91 Connector.
- Downstream EB commute between County line and the I-15, there is usually a one to two-mile back up before McKinley Street.
- Caltrans District 8 agrees that the 2023 delivery timeline is realistic and working very closely with RCTC on the projects.
- Stakeholder concurrence is important, and currently, there is no stakeholder concurrence.
- OCTA and RCTC have a partnership to run the SR-91 corridor and 91 Express Lanes, and one of the fundamental agreements both agencies reached early on was "do no harm," and with that basis, both OCTA and RCTC tried to come to an agreement with the TCA.
- Committee Members expressed appreciation to the public who attended today's meeting and expressed their concerns.
- Today's public comments were very accurate, and Corona has had the burden of construction.
- The input from the GCTA and others, led the 91 COP to move forward.
- Questions raised as to why the TCA was pushing the 241/91 Connector so hard, if it was because of fear of the environmental document becoming stale or loss of funding?
- The SR-91 Corridor operates great when the SR-241 was closed due to wildfires.
- The WB SR-91 to southbound SR-241 connector would be a great solution right now, but not in the opposite direction (northbound SR-241 to EB SR-91).
- Construction impacts must be considered, the SR-91 Corridor is either a lifeline or nightmare for the drivers, and sequencing is the key.

June 7, 2019 Page 9 of 13

Special State Route 91 Advisory Committee Meeting

4. (Continued)

- Agreements that the 241/91 Connector is important and will be a benefit; however, that benefit will not come until the other projects are complete.
- Everyone should work together to find a solution.
- The entire 30-Member RCTC Board agrees to fix what was started and needs to be completed on the SR-91 corridor.
- Construction of the 91 COP will help alleviate some of the traffic, and if the 241/91 Connector is built too early, it will create additional traffic bottleneck.

Syed Raza, Caltrans District 8 representative, read a message on behalf Member Beauchamp recommending deferring the action on the Draft Plan to a later time to allow Caltrans to better understand how it fits into planning for the region.

Mr. Kraman, CEO, TCA, stated that the TCA absolutely supports the three RCTC projects. He added that his comment on the Draft Plan was that the language that seeks to tie the 241/91 Connector with the need for downstream capacity seems premature when the previous commitments for analysis and cooperative meetings between the agencies have not occurred.

Mr. Kraman added that the Draft Plan does not identify the funding for the three RCTC projects and states the funding is pending. He added that the TCA welcomes the opportunity to be at the table with Caltrans, OCTA, and RCTC to find the right technical solution with the maximum improvements, as quickly as possible. Mr. Kraman added that the TCA is looking at the 2023 timeframe for its project.

Member Chamberlain stated that a letter will be forthcoming with a "united" message from Caltrans. He added that Caltrans has not had sufficient opportunity to review the Draft Plan.

Committee Vice Chairman Magee directed Ms. Mayer, RCTC, Executive Director, to agendize an item for the next RCTC Board of Directors (Board) meeting to fully understand why Caltrans recommended deferring the action on the "Draft 2019 State Route 91 Implementation Plan".

A motion was made by Member Spiegel, seconded by Member Hennessey, and following a roll call vote, declared passed 7-0 by those present, to receive and file as an information item.

Discussion Items

5. 91 Express Lanes Customer Service Center

Anne Mayer, Executive Director, RCTC, provided opening comments and introduced Jennifer Crosson, Toll Operations Manager, RCTC, who provided a PowerPoint presentation on this item as follows:

- Relocated March 11th;
- Customer Service Center;
- Video of the Customer Service Center (CSC); and
- Joint 91 and 15 Express Lanes Walk-in Center (Spring 2020).

No action was taken on this information item.

6. General Manager's Report – Orange County Transportation Authority

Kirk Avila, General Manager, OCTA, 91 Express Lanes, reported on the following:

Back-Office System and CSC:

- On April 22, 2019, the request for proposals for operating services, which
 includes the back-office system and customer service center was jointly
 released by OCTA and RCTC, and proposals are due in mid-July.
- The Evaluation Committee is scheduled to make a recommendation to the OCTA and RCTC Boards in October 2019.
- The current agreement between OCTA, RCTC, and Cofiroute expires in June 2021. This is another example of both agencies collaborating.

Customer Satisfaction Survey:

- OCTA and RCTC will conduct a survey in the coming months.
- The last survey was performed in 2014.
- The survey results will be presented at a future SR-91 Advisory Committee meeting.

Monthly Reports:

- Item 3 on today's agenda included the monthly joint operations reports from January through April 2019. For the OCTA segment, traffic volumes continue to increase in May.
- Since the RCTC segment opened two years ago, traffic volumes have increased steadily on the Orange County side.
- Average daily traffic has increased from 37,000 in fiscal year 2017 (pre-RCTC opening) to 47,000 for fiscal year 2019.

6. (Continued)

Cost-of-Living Adjustment (COLA):

- Beginning July 1, 2019, OCTA and RCTC agencies will apply COLA to the toll rates for the 91 Express Lanes.
- The COLA adjustment is imposed annually to the toll rates that have not been increased over the past year.

7. Toll Program Director's Report – Riverside County Transportation Commission

Committee Chairman Shaw announced that Michael Blomquist, Toll Program Director, RCTC, was not present at the meeting and deferred the item to Anne Mayer, Executive Director, RCTC. Ms. Mayer announced that there were no items to report.

8. Committee Members' Reports

Committee Vice Chairman Magee and Members Hennessey and Spiegel thanked the public speakers for their comments.

Committee Vice Chairman Magee expressed being extremely shocked by the last-minute announcement from Caltrans District 8, as noted under today's agenda Item 4, and requested a detailed explanation.

Committee Vice Chairman Magee asked Ms. Mayer, RCTC, Executive Director, to convey his request, to RCTC's Board Chairman, for an agenda item at the next RCTC Board meeting the reason for Caltrans District 8's request.

Committee Chairman Shaw asked when the Draft Plan will go forward to OCTA and RCTC Board.

The Draft Plan will go forward to the OCTA Board on July 8, 2019 and the RCTC Board on June 12, 2019.

Subject: Joint 91 Express Lanes Status Reports

Overview

The 91 Express Lanes status reports for the months of April 2019 through December 2019 have been prepared for State Route 91 Advisory Committee review. The reports highlight operational and financial activities for both the Orange County Transportation Authority and Riverside County Transportation Commission segments of the 91 Express Lanes.

Recommendation

Receive and file the 91 Express Lanes Status Reports for the months of April 2019 through December 2019.

Background

The joint monthly status reports are prepared to document 91 Express Lanes activities and are provided for State Route 91 Advisory Committee review.

Discussion

With the exception of June 2019 and August 2019, gross potential toll revenue and traffic volume in the 91 Express Lanes for the Orange County Transportation Authority segment exceeded prior year's performance for the months of April 2019 through December 2019, with fiscal year (FY) 2018-19 traffic volume and gross potential toll revenue as of the end of June 2019 both increasing by 4.9 percent and 4.4 percent, respectively. As of the end of December 2019, the 2019-20 fiscal year-to-date traffic volume increased by 1.9 percent while gross potential toll revenue increased by 3.8 percent.

For the Riverside County Transportation Commission segment, with the exception of June 2019, traffic volume and gross potential toll revenue continue to exceed prior year's performance with FY 2018-19 traffic volume and gross potential toll revenue exceeding by 4.3 percent and 19.3 percent, respectively. As of the end of December 2019, the 2019-20 fiscal year-to-date traffic volume increased by 3.3 percent and gross potential toll revenue increased by 21.1 percent.

Staff will continue to closely monitor traffic and revenue data and report back to the State Route 91 Advisory Committee regularly.

Summary

The 91 Express Lanes status reports for the months of April 2019 through December 2019 are provided for review. The report highlights operational and financial activities.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 120 calls during the month of April. Of those calls, 104 were to assist disabled vehicles and 7 calls to remove debris. The CAS provided assistance to 9 accidents in the Express Lanes and 1 of those accidents originated from the SR91 general-purpose lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. In April, Kapsch has developed several project plans and documentations and held weekly coordination meetings with OCTA and Cofiroute in preparation for the transition to the new lane system. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Following RCTC's completion of their lane system installation on the 91 Express Lanes, OCTA will commence installation on the Orange County segment. It is anticipated the OCTA lane system equipment at the gantries will be replaced in summer 2019.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is

anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

California Highway Patrol Agreement

Staff is currently in discussion with the California Highway Patrol (CHP) for a new agreement to provide enforcement services on the OCTA 91 Express Lanes. As a requirement of the Franchise Agreement, OCTA is required to use CHP for enforcement services. Staff will be bringing forth the agreement for Board approval in May 2019.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the RCTC 91 Express Lanes for April 2019 was 1,345,641. This represents a daily average of 44,855. This is a 5.3% increase in total traffic volume from the same period last year when traffic levels totaled 1,277,507. Potential toll revenue for the month was \$5,365,382 which represents an increase of 20% from the prior year's total of \$4,471,413. Carpool percentage for the month was 25.05% as compared to the previous year's rate of 22.90%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of April 2019.

The chart below reflects the total trips broken down between Full Toll lanes and HOV3+ lanes for FY 2018-19 on a monthly basis.

The chart below reflects the gross potential revenue breakdown between Full Toll lanes and HOV3+ lanes for FY 2018-19 on a monthly basis.

RCTC PEAK-HOUR VOLUMES

RCTC regularly evaluates traffic volumes for peak period hours where Express Lanes performance is degraded and either increases or decreases tolls. Toll rates were adjusted once in April to improve the level of service in the peak hours where demand exceeded capacity. Hours highlighted in green were increased and hours highlighted in red were decreased. Hours that are highlighted in yellow were flagged for continued evaluation.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 76 calls during the month of April. Of those calls, 55 were to assist disabled vehicles, 7 were to remove debris, 7 were for traffic breaks, and 7 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane system will be upgraded over a series of weekends with completion of that work expected by summer of 2019. The new sticker transponders have been received and are being prepared for distribution. Changes to the back-office system to process the new transponders and make changes to the customer account plan are being finalized and will be released to the customer once both the RCTC and OCTA lane system upgrades are performed. A series of customer communication has been prepared to facilitate the process for providing the new transponders to customers.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 120 calls during the month of May. Of those calls, 81 were to assist disabled vehicles and 23 calls to remove debris. The CAS provided assistance to 16 accidents in the Express Lanes and 5 of those accidents originated from the SR91 general-purpose lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Following RCTC's completion of their lane system installation on the 91 Express Lanes, OCTA will commence installation on the Orange County segment. It is anticipated the OCTA lane system equipment at the gantries will be replaced in summer 2019.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the RCTC 91 Express Lanes for May 2019 was 1,356,283. This represents a daily average of 43,751. This is a 6.1% increase in total traffic volume from the same period last year when traffic levels totaled 1,278,127. Potential toll revenue for the month was \$5,360,495 which represents an increase of 15.6% from the prior year's total of \$4,637,229. Carpool percentage for the month was 25.63% as compared to the previous year's rate of 22.84%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of May 2019.

The chart below reflects the total trips broken down between Full Toll lanes and HOV3+ lanes for FY 2018-19 on a monthly basis.

The chart below reflects the gross potential revenue breakdown between Full Toll lanes and HOV3+ lanes for FY 2018-19 on a monthly basis.

RCTC PEAK-HOUR VOLUMES

RCTC regularly evaluates traffic volumes for peak period hours where Express Lanes performance is degraded and either increases or decreases tolls. There were no toll rates adjusted in May to improve the level of service in the peak hours where demand exceeded capacity. Hours that are highlighted in yellow were flagged for continued evaluation.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 70 calls during the month of May. Of those calls, 45 were to assist disabled vehicles, 11 were to remove debris, 6 were for traffic breaks, and 8 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane system will be upgraded over a series of weekends with completion of that work expected by summer of 2019. The new sticker transponders have been received and are being prepared for distribution. Changes to the back-office system to process the new transponders and make changes to the customer account plan are being finalized and will be released to the customer once both the RCTC and OCTA lane system upgrades are performed. A series of customer communication has been prepared to facilitate the process for providing the new transponders to customers.

OPERATIONS OVERVIEW OCTA

TRAFFIC AND REVENUE STATISTICS FOR OCTA

Total traffic volume on the OCTA 91 Express Lanes for June 2019 was 1,478,052. This represents a daily average of 49,268. This is a 0.1% decrease in total traffic volume from the same period last year, which totaled 1,480,114. In June 2019, there were four Fridays as compared to five Fridays in June 2018. In addition, in June of this year, there were two Caltrans maintenance closures as compared to one in the prior year. These factors could attribute to the decrease in traffic volume. Potential toll revenue for the month was \$4,152,162, which represents a decrease of 2.3% from the prior year's total of \$4,251,983. Carpool percentage for the month was 28.91% as compared to the previous year's rate of 26.85%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the OCTA 91 Express Lanes and associated potential revenue for the month of June 2019.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 113 calls during the month of June. Of those calls, 95 were to assist disabled vehicles and 13 calls to remove debris. The CAS provided assistance to 5 accidents in the Express Lanes with none of those accidents originating from the SR91 general-purpose lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Following RCTC's completion of their lane system installation on the 91 Express Lanes, OCTA will commence installation on the Orange County segment. It is anticipated the OCTA lane system equipment at the gantries will be replaced in summer 2019.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the RCTC 91 Express Lanes for June 2019 was 1,199,215. This represents a daily average of 39,974. This is a 6.1% decrease in total traffic volume from the same period last year, which totaled 1,276,808. The decrease is due to the weekend closures for the toll system upgrade. Potential toll revenue for the month was \$4,675,291, which represents an increase of 6.2% from the prior year's total of \$4,402,632. Carpool percentage for the month was 26.76% as compared to the previous year's rate of 24.31%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of June 2019.

The chart below reflects the gross potential revenue breakdown between Full Toll lanes and HOV3+ lanes for FY 2018-19 on a monthly basis.

RCTC PEAK-HOUR VOLUMES

RCTC regularly evaluates traffic volumes for peak period hours where Express Lanes performance is degraded and either increases or decreases tolls. There were no toll rates adjusted in June to improve the level of service in the peak hours where demand exceeded capacity. Hours that are highlighted in yellow were flagged for continued evaluation.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 78 calls during the month of June. Of those calls, 54 were to assist disabled vehicles, 10 were to remove debris, 7 were for traffic breaks, and 7 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane systems have been upgraded. The new sticker transponders have been received and will be distributed after OCTA completes the upgrade of their lane system. Changes to the back-office system to process the new transponders and make changes to the customer account plan are being finalized and will be released to the customer once both the RCTC and OCTA lane system upgrades are performed. A series of customer communication has been prepared to facilitate the process for providing the new transponders to customers.

¹Unaudited

 $^{^2}$ Actuals are preliminary amounts for FY 2018–19. Final numbers will be shown in the audited financial statements.

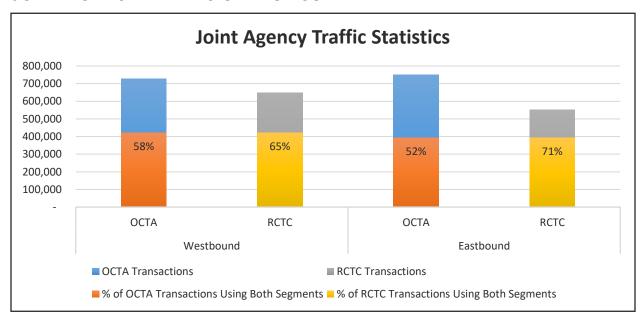

³ Gain (loss) on sale of capital assets - Loss on sale of capital assets reflects the loss on sale of excess land purchased for the SR-91 Project. Loss on sale is not a cash-related item and not included in the FY18/19 budget.

⁴ Depreciation is not a budgeted expense

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 106 calls during the month of July. Of those calls, 91 were to assist disabled vehicles and 8 calls to remove debris. The CAS provided assistance to 7 accidents in the Express Lanes with 3 of those accidents originating from the SR91 general-purpose lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Following RCTC's completion of their lane system installation on the 91 Express Lanes, OCTA will commence installation on the Orange County segment. OCTA's lane system equipment at the gantries will be replaced by October 2019.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the RCTC 91 Express Lanes for July 2019 was 1,315,090. This represents a daily average of 42,422. This is a 2.5% increase in total traffic volume from the same period last year, which totaled 1,283,491. Potential toll revenue for the month was \$5,257,301, which represents an increase of 17.1% from the prior year's total of \$4,489,258. Carpool percentage for the month was 26.96% as compared to the previous year's rate of 25.34%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of July 2019.

The chart below reflects the gross potential revenue breakdown between Full Toll lanes and HOV3+ lanes for FY 2019-20 on a monthly basis.

RCTC PEAK-HOUR VOLUMES

RCTC regularly evaluates traffic volumes for peak period hours where Express Lanes performance is degraded and either increases or decreases tolls. Toll rates were adjusted once in July to improve the level of service in the peak hours where demand exceeded capacity. Hours highlighted in green were increased and hours highlighted in red were decreased. Hours that are highlighted in yellow were flagged for continued evaluation.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 102 calls during the month of July. Of those calls, 63 were to assist disabled vehicles, 18 were to remove debris, 9 were for traffic breaks, and 12 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane systems have been upgraded. The new sticker transponders have been received and will be distributed after OCTA completes the upgrade of their lane system. Changes to the back-office system to process the new transponders and make changes to the customer account plan are being finalized and will be released to the customer once both the RCTC and OCTA lane system upgrades are performed. A series of customer communication has been prepared to facilitate the process for providing the new transponders to customers.

OPERATIONS OVERVIEW OCTA

TRAFFIC AND REVENUE STATISTICS FOR OCTA

Total traffic volume on the OCTA 91 Express Lanes for August 2019 was 1,545,731. This represents a daily average of 49,862. This is a 1.4% decrease in total traffic volume from the same period last year, which totaled 1,567,485. The decrease is attributable to the 54-hour weekend and overnight closures in the westbound direction for the electronic toll and traffic management system upgrade. Potential toll revenue for the month was \$4,671,161, which represents a decrease of 0.8% from the prior year's total of \$4,709,712. Carpool percentage for the month was 26.63% as compared to the previous year's rate of 25.91%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the OCTA 91 Express Lanes and associated potential revenue for the month of August 2019.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 115 calls during the month of August. Of those calls, 86 were to assist disabled vehicles and 18 calls to remove debris. The CAS provided assistance to 11 accidents in the Express Lanes with 5 of those accidents originating from the SR91 general-purpose lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Utilizing a full weekend and several overnight closures, Kapsch replaced the westbound in-lane system at the gantries in late August. The eastbound equipment installation is scheduled for early October.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the RCTC 91 Express Lanes for August 2019 was 1,402,081. This represents a daily average of 45,228. This is a 2.5% increase in total traffic volume from the same period last year, which totaled 1,367,738. Potential toll revenue for the month was \$5,633,523, which represents an increase of 14.2% from the prior year's total of \$4,933,154. Carpool percentage for the month was 25.77% as compared to the previous year's rate of 23.68%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of August 2019.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 103 calls during the month of August. Of those calls, 84 were to assist disabled vehicles, 7 were to remove debris, 12 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane systems have been upgraded. The new sticker transponders have been received and will be distributed after OCTA completes the upgrade of their lane system. Changes to the back-office system to process the new transponders and make changes to the customer account plan are being finalized and will be released to the customer once both the RCTC and OCTA lane system upgrades are performed. A series of customer communication has been prepared to facilitate the process for providing the new transponders to customers.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 91 calls during the month of September. Of those calls, 77 were to assist disabled vehicles and 7 call to remove debris. There were 7 accidents in the Express Lanes and 1 of those accidents originated in the SR91 general-purpose lanes that affected the Express Lanes.

Electronic Toll and Traffic Management System Project Update

An agreement with Kapsch TrafficCom USA, Inc., (Kapsch) was executed in June 2018 to provide toll lane system integrator services for the design, installation, operations, and maintenance of the electronic toll and traffic management system for the 91 Express Lanes. This new lane system will be able to read the new 6C protocol as well as the current Title 21 protocol. Following RCTC's completion of their lane system installation on the 91 Express Lanes, OCTA completed installation of the lane system on the westbound gantries during a 55-hour closure on the weekend of August 23rd. The eastbound lane system installation is targeted for the weekend of October 4th.

6C Transition Update

In addition to the lane system replacement, the back-office system will need to be modified in order to process the new transponders and changes to the customer account plans. Modification to the back-office system will commence when the lane system installations for both OCTA and RCTC have been completed. Distribution of the new 6C transponders to customers will begin after the back-office system changes have been made. OCTA and RCTC have prepared a series of customer communication to be provided to customers to facilitate the transition to the new protocol and changes to the account plans.

Amendment to the Three-Party Operating Agreement

As referenced above, due to the back-office system changes, an amendment to the OCTA, RCTC, Cofiroute USA (CUSA) Operating Agreement is required. Staff from both OCTA and RCTC have been in negotiations with CUSA for the amendment. It is anticipated there will be no change to the maximum obligation of the contract. The amendment is expected to be finalized in the next few months.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 85 calls during the month of September. Of those calls, 71 were to assist disabled vehicles, 6 were to remove debris, and 8 were in response to accidents.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane systems have been upgraded. Changes to the back-office system to process the new transponders and make changes to the customer account plans are being finalized and will be released to the customer along with the new sticker transponders in December of this year. A series of customer communication has been developed and will be mailed or emailed to customers over a period of several months.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 123 calls during the month of October. Of those calls, 100 were to assist disabled vehicles and 15 to remove debris. There were 8 accidents in the Express Lanes and 2 of those accidents originated in the SR91 general-purpose lanes that affected the Express Lanes.

Electronic Toll and Traffic Management System Project Update

In October, Kapsch TrafficCom USA, Inc., (Kapsch), the toll lanes system integrator for the 91 Express Lanes, completed the replacement of the Electronic Toll and Traffic Management (ETTM) system at the current toll gantries. This new lane system will read the new 6C transponder protocol as well as the current Title 21 protocol. The next phase of the project, which begins next calendar year, entails the replacement of the closed-circuit television cameras along the corridor. New toll gantries will be constructed at the three entrances of the OCTA 91 Express Lanes after which Kapsch will install new ETTM equipment on the entrance gantries.

6C Transition Update

In December and over the course of several months, the 91 Express Lanes will be sending letters to customers notifying them of the transition to the new 6C protocol, as well as changes to the account plans, user agreement and privacy policy. A new welcome kit, which includes mounting instructions, has been designed and developed and will be sent with the new sticker transponders commencing January 2020. It is envisioned the distribution of the new transponders to all the customers will take place over several months.

The chart below reflects the gross potential revenue breakdown between Full Toll lanes and HOV3+ lanes for FY 2019-20 on a monthly basis.

RCTC PEAK-HOUR VOLUMES

RCTC evaluates traffic volumes for peak period hours where Express Lanes performance is degraded quarterly and either increases or decreases tolls. Hours highlighted in green were increased and hours highlighted in red were decreased. Hours that are highlighted in yellow were flagged for continued evaluation.

The next quarterly adjustment is scheduled for January 1, 2020.

There were 17 accidents in the Express Lanes and 1 accident originating in the SR91 general-purpose lanes that affected the Express Lanes.

6C Transponder Technology

Planning for the transition to the new transponder technology is underway. The lane systems have been upgraded. Changes to the back-office system to process the new transponders and make changes to the customer account plans are being finalized and will be released to the customer along with the new sticker transponders in January of 2020. A series of customer communication has been developed and will be mailed or emailed to customers over a period of several months.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 103 calls during the month of November. Of those calls, 83 were to assist disabled vehicles and 13 calls to remove debris. There were 7 accidents in the Express Lanes and 2 of those accidents originated in the SR91 general-purpose lanes that affected the Express Lanes.

Electronic Toll and Traffic Management System Project Update

Kapsch TrafficCom USA, Inc., (Kapsch), the toll lanes system integrator for the 91 Express Lanes, completed the replacement of the Electronic Toll and Traffic Management (ETTM) system at the current toll gantries. This new lane system is reading both the new 6C transponder protocol as well as the legacy Title 21 protocol. The next phase of the project, which begins next calendar year, entails the replacement of the closed-circuit television cameras along the corridor. New toll gantries will be constructed at the three entrances of the OCTA 91 Express Lanes after which Kapsch will install new ETTM equipment on the entrance gantries.

6C Transition Update

Changes to the back-office system to incorporate the new 6C transponder protocol is underway. Beginning in December, the 91 Express Lanes will be sending letters to customers notifying them of the transition to 6C, as well as changes to the account plans, user agreement and privacy policy. A new welcome kit will be sent with the new sticker transponders commencing January 2020. It is envisioned the distribution of the new transponders to all the customers will take place over several months.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 83 calls during the month of November. Of those calls, 61 were to assist disabled vehicles, 8 calls to remove debris and 14 were in response to accidents in the Express Lanes

6C Transponder Technology

In December and over the course of several months, the 91 Express Lanes will be sending letters to customers notifying them of the transition to the new 6C protocol, as well as changes to the account plans, user agreement and privacy policy. A new welcome kit, which includes mounting instructions, has been designed and developed and will be sent with the new sticker transponders commencing January 2020. It is envisioned the distribution of the new transponders to all the customers will take place over several months.

OCTA OPERATIONAL HIGHLIGHTS

On-road Operations

OCTA Customer Assistance Specialists (CAS) responded to 69 calls during the month of December. Of those calls, 60 were to assist disabled vehicles, eight calls to remove debris and one call was in response to an accident in the Express Lanes.

Electronic Toll and Traffic Management System Project Update

Kapsch TrafficCom USA, Inc., (Kapsch), the toll lanes system integrator for the 91 Express Lanes, completed the replacement of the Electronic Toll and Traffic Management (ETTM) system at the current toll gantries. This new lane system is reading both the new 6C transponder protocol as well as the legacy Title 21 protocol. The next phase of the project, which begins next calendar year, entails the replacement of the closed-circuit television cameras along the corridor. New toll gantries will be constructed at the three entrances of the OCTA 91 Express Lanes after which Kapsch will install new ETTM equipment on the entrance gantries.

6C Transition Update

Changes to the back-office system to incorporate the new 6C transponder protocol is underway. In December, the 91 Express Lanes began sending letters to customers notifying them of the transition to 6C, as well as changes to the account plans, user agreement and privacy policy. In the upcoming weeks, distribution of the new welcome kit and sticker transponders will commence. It is envisioned the distribution of the new transponders to all the customers will take place over several months.

OPERATIONS OVERVIEW RCTC

TRAFFIC AND REVENUE STATISTICS FOR RCTC

Total traffic volume on the 91 Express Lanes for December 2019 was 1,254,586. This represents a daily average of 40,471 vehicles. This is a 4.7% increase in total traffic volume from the same period last year, which totaled 1,198,578. Potential toll revenue for the month was \$5,277,144, which represents an increase of 21.9% from the prior year's total of \$4,327,741. Carpool percentage for December was 24.66% as compared to the previous year's rate of 25.69%.

Month-to-date traffic and revenue data are summarized in the table below. The following trip and revenue statistics tables represent all trips taken on the RCTC 91 Express Lanes and associated potential revenue for the month of December 2019.

RCTC OPERATIONAL HIGHLIGHTS

On-road Operations

RCTC Freeway Service Patrol (FSP) responded to 64 calls during the month of December. Of those calls, 54 were to assist disabled vehicles, 6 calls to remove debris and 4 were in response to accidents in the Express Lanes

6C Transponder Technology

In December, the 91 Express Lanes began sending letters to customers notifying them of the transition to the new 6C protocol, as well as changes to the account plans, user agreement and privacy policy. A new welcome kit, which includes mounting instructions, has been designed and developed and will be sent with the new sticker transponders in the upcoming weeks. It is envisioned the distribution of the new transponders to all the customers will take place over several months.

91 Express Lanes Fund Financial Statements

Overview

Crowe LLP, an independent accounting firm, has completed the annual audit of the Orange County Transportation Authority 91 Express Lanes financial statements for fiscal year 2018-19 and has issued its independent auditor's opinion. A copy of the audited financial statements is attached for the State Route 91 Advisory Committee review.

Recommendation

Receive and file the Orange County Transportation Authority Fiscal Year 2018-19 91 Express Lanes Annual Financial Statements.

Background

The Orange County Transportation Authority (OCTA) prepares the financial statements for the 91 Express Lanes Fund, which present the results of operations during the preceding fiscal year (FY) and the financial position at year end. In addition, OCTA is required to obtain an independent auditor's opinion on the financial statements. The audit was conducted by Crowe LLP (Crowe), an independent accounting firm, to obtain reasonable assurance as to whether the financial statements are free of material misstatement.

Discussion

Crowe has completed its annual audit and has issued its opinion of the OCTA 91 Express Lanes financial statements for the FY ended June 30, 2019. The audits were conducted in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. The auditors have issued an unmodified opinion on the financial

statements, indicating that the statements present fairly, in all material aspects, the financial position of the 91 Express Lanes Fund, at June 30, 2019. A copy of the audited financial statements is included as Attachment A.

Summary

Crowe LLP, an independent accounting firm, has audited the OCTA 91 Express Lanes financial statements and has issued its unmodified opinion as to the fair presentation on the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors Orange County Transportation Authority Orange, California

Report on the Financial Statements

We have audited the accompanying financial statements of the 91 Express Lanes Fund (91 EL), a major enterprise fund of the Orange County Transportation Authority (OCTA), as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the 91 EL's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the 91 EL, a major enterprise fund of OCTA, as of June 30, 2019, and the changes in its financial position and its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the 91 EL and do not purport to, and do not, present fairly the financial position of OCTA as of June 30, 2019, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the 91 EL's financial statements. The management's discussion and analysis, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements. The information has not been subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2019 on our consideration of OCTA's internal control over financial reporting, as it relates to the 91 EL, and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering OCTA's internal control over financial reporting and compliance, as it relates to the 91 EL.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Orange County Transportation Authority Orange, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the 91 Express Lanes Fund (91 EL), a major enterprise fund of the Orange County Transportation Authority (OCTA), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the 91 EL's financial statements, and have issued our report thereon dated October 29, 2019. As discussed in Note 1, the financial statements present only the 91 EL and do not purport to, and do not, present fairly the financial position of OCTA, the changes in its financial position, or where applicable, its cash flows in conformity with accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered OCTA's internal control over financial reporting and compliance (internal control), as it relates to the 91 EL, to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of OCTA's internal control, as it relates to the 91 EL. Accordingly, we do not express an opinion on the effectiveness of OCTA's internal control, as it relates to the 91 EL.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the 91 EL's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

91 Express Lanes Fund Management's Discussion and Analysis (unaudited) For the Year Ended June 30, 2019

As management of the 91 Express Lanes Fund (91 EL), an enterprise fund of the Orange County Transportation Authority, we offer readers of the 91 EL financial statements this narrative overview and analysis of the 91 EL's financial activities for the fiscal year ended June 30, 2019. We encourage readers to consider the information on financial performance presented in conjunction with the financial statements that begin on page 10.

Financial Highlights

- At the end of fiscal year 2018-19, the total net position of the 91 EL was \$248,906,949 and consisted of net investment in capital assets of \$37,799,192; restricted net position of \$14,028,731; and unrestricted net position of \$197,079,026. Net position increased \$42,049,650 during fiscal year 2018-19, which represents an increase of 20.3% from the fiscal year 2017-18 ending net position. The increase is primarily due to operating revenues in excess of operating expenses offset by bond interest expense.
- In fiscal year 2018-19, total operating revenues decreased by \$198,595, which represents a 0.3% decrease from the fiscal year 2017-18. The decrease in operating revenue is primarily due to a decrease in violation collections. At the end of fiscal year 2018-19, nonoperating revenues relating to investment earnings increased by \$6,510,116 primarily due to market performance.
- Total operating expenses decreased by \$1,217,345, which represents a 6.2% decrease from fiscal year 2017-18, primarily due to a decrease in fees related to patrol services and fees paid for collection services.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the 91 EL's financial statements. The financial statements are comprised of the fund financial statements and notes to the financial statements.

The statement of net position presents information on all of the 91 EL's assets, deferred outflows of resources, deferred inflows of resources and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the 91 EL is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how the 91 EL's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The 91 EL fund financial statements can be found on pages 10-13 of this report.

Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 14-28 of this report.

91 Express Lanes Financial Analysis

As noted previously, net position may serve over time as a useful indicator of the 91 EL's financial position. At June 30, 2019, the 91 EL's net position was \$248,906,949, an increase of \$42,049,650 or 20.3% from June 30, 2018. Our analysis below focuses on net position (Table 1) and changes in net position (Table 2) of the 91 EL's financial activities.

| | | |

In fiscal year 2018-19, total assets increased by \$38,024,772 which represents an increase of 11.7% from fiscal year 2017-18, due to an increase in cash, investments and receivables. Refer to note 4 for changes in capital assets. Total liabilities decreased by \$4,694,440 or 3.7% primarily due to principal payments during the fiscal year.

The 91 EL's net investment in capital assets was \$37,799,192 compared to \$34,866,854 in fiscal year 2017-18. The 91 EL's net position reflects its investment in capital assets (i.e., intangible assets; improvements; communications equipment; computer hardware and software; equipment, furniture and fixtures; and transponders), less any related outstanding debt used to acquire these assets. The 91 EL uses these capital assets to provide improved mobility for 91 EL customers and commuters along the State Route (SR) 91 corridor. The increase of \$2,932,338 in net investment in capital assets was primarily due to a reduction in related outstanding debt used to acquire capital assets in addition to an increase in capital assets offset by depreciation and amortization of assets.

Restricted net position, representing resources subject to external restrictions on how they may be used, represented 5.6% of the total net position at June 30, 2019. The \$506,674 increase in restricted net position is related to investment activity in bond reserve accounts.

91 Express Lanes Fund Management's Discussion and Analysis

Unrestricted net position represents the portion of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements. Unrestricted net position changed from \$158,468,388 at June 30, 2018 to \$197,079,026 at June 30, 2019. This increase of \$38,610,638 was primarily due to operating revenues in excess of operating expenses.

The analysis in Table 2 focuses on the changes in net position.

The 91 EL's total operating revenues decreased by 0.3%, while total operating expenses decreased by 6.2%. Total traffic volume on the 91 EL during fiscal year 2018-19 was 17,546,304 trips reflecting an increase of 4.9% in comparison to fiscal year 2017-18. The decrease in operating revenues is primarily due to a decrease in violation collections in fiscal year 2018-2019 in comparison to fiscal year 2017-2018. The decrease in operating expenses is mainly attributable to a decrease of \$2,030,058 in professional services primarily due to fees related to collection services and patrol services provided by California Highway Patrol (CHP).

Capital Assets

As of June 30, 2019, the 91 EL had \$125,364,052 net of accumulated depreciation and amortization, invested in a broad range of capital assets including: the toll facility franchise, construction in progress, improvements, computer hardware and software, transponders, and equipment, furniture and fixtures (Table 3). The total decrease in the 91 EL's capital assets for fiscal year 2018-19 was \$1,990,037, which was primarily due to the amortization of the toll facility franchise.

The 91 EL has outstanding capital expense commitments, the most significant of which is \$7,244,516 for electronic toll and traffic management (ETTM) system. Major capital asset addition during 2019 included \$1,444,292 primarily due to the purchase of ETTM System and improvements to the Customer Service Center in Corona. More detailed information about the 91 EL's capital assets is presented in note 4 to the financial statements.

Debt Administration

As of June 30, 2019, the 91 EL had \$97,795,000 in tax-exempt bonds outstanding compared to \$103,605,000 at June 30, 2018. The reduction is due to principal payments in fiscal year 2018-19 in the amount of \$5,810,000. Additional information on long-term debt can be found in note 5 to the financial statements.

Economic and Other Factors

The 91 EL makes up \$66,126,000 or 4.3% of OCTA's fiscal year 2019-20 revenue budget. In fiscal year 2019-20, toll revenue is forecasted to increase by 6.9% over the fiscal year 2018-19 budgeted value. This increase is due to a forecasted increase in trips due to the extension of the Express Lanes into Riverside County. The average long term rate of growth for toll road revenues beyond fiscal year 2018-19 is 3.4%.

The majority of expenses related to the 91 EL within the fiscal year 2019-20 budget are on-going general costs related to day to day operations of the toll facility. Since the 91 EL is a fully electronic toll facility, motorists pay tolls through the convenient use of windshield mounted FasTrak® transponders that automatically deduct toll charges from a prepaid account. At the end of fiscal year 2018-19, there were

91 Express Lanes Fund Management's Discussion and Analysis

148,054 active customer accounts, with 225,621 transponders assigned to those accounts, which represents an increase of 7,360 and 11,628 respectively from fiscal year 2017-18.

OCTA, in concert with Caltrans and RCTC, issued an annual SR-91 Implementation Plan to establish a program of projects eligible for funding by potential excess 91 EL toll revenue and other funds. The projects are presented in the following groups: Orange County Projects, Riverside County Projects and Bi-County Projects. The Orange County Projects have a total cost of approximately \$600 million. The projects include improvements to the SR-91 between SR-57 and SR-55, Anaheim Canyon Metrolink station improvements, Placentia Metrolink rail station, and Fairmont Boulevard improvements. The Riverside County projects have a total cost of approximately \$337 million. The improvements include 15/91 Express Lanes Connection, the SR-71/SR-91 interchange, and the SR-91 improvements east of Interstate 15. The Bi-County projects benefit both Orange and Riverside Counties, with total projects exceeding \$225 million.

1. Reporting Entity

On January 3, 2003, the Orange County Transportation Authority (OCTA) purchased from the California Private Transportation Company (CPTC) its interest in a Franchise Agreement for the 91 Express Lanes. See note 4 for further information on this transaction.

These financial statements include only the activities of the 91 Express Lanes Fund, an enterprise fund of OCTA. These financial statements are not intended to present the activities of OCTA.

2. Summary of Significant Accounting Policies

The accounting policies of the 91 Express Lanes Fund are in conformity with generally accepted accounting principles (GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

Basis of Accounting

The financial statements of the 91 Express Lanes Fund are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, consisting substantially of tolls and fees, are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Toll amounts are collected from customers on a prepaid basis, and unearned tolls are reported as unearned revenue. Toll revenue is recognized when the customers utilize the toll road facility.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the 91 Express Lanes Fund are charges to customers for use of the toll facility and are presented net of discounts and allowances. Operating expenses for the 91 Express Lanes Fund include the cost of services, administrative expenses, and depreciation and amortization on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the 91 Express Lanes Fund's policy to use restricted resources first and then unrestricted resources as they are needed.

Cash and Investments

The 91 Express Lanes Fund participates in OCTA's Commingled Investment Pool. OCTA maintains cash and investments in accordance with an Investment Policy (Policy) adopted initially by OCTA's Board of Directors (Board) on May 8, 1995, and most recently amended on June 10, 2019. The Policy complies with, or is more restrictive than, the California Government Code (Code). At June 30, 2019, the investment portfolios were maintained at MUFG Union Bank, N.A. as custodial bank. OCTA's Commingled Investment Pool is managed by four private sector investment managers. Separate investment manager accounts are maintained for the proceeds of bond issues, with the earnings for each bond issue accounted for separately. Cash from other OCTA revenue sources is commingled for investment purposes in the OCTA Commingled Investment Pool, with investment earnings allocated to the different accounts based on average daily account balances.

OCTA holds investments that are measured at fair value on a recurring basis. OCTA categorizes the fair value measurements of its investments based on the hierarchy established by GAAP. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are inputs-other than quoted prices included in Level 1-that are observable including quoted prices for similar assets in active markets and quoted prices for identical or similar assets in markets that are not active; Level 3 inputs are unobservable inputs. Refer to the OCTA Comprehensive Annual Financial Report (CAFR) for details on valuation techniques and fair value hierarchy.

Investments in U.S. government and U.S. agency securities, medium-term notes, repurchase agreements, variable and floating rate securities, mortgage and asset-backed securities and corporate notes are carried at fair value based on quoted prices of similar assets, except for money market investments and participating interest-earning investment contracts with a remaining maturity of one year or less at purchase date, which are carried at amortized cost which approximates fair value.

The Policy requires that assets in the portfolio consist of the following investments, with maximum permissible concentrations based on book value, and may be more restrictive than applicable state statutes for the following investment types: OCTA notes and bonds, U.S. treasuries, federal instrumentality securities, federal agencies, municipal debt, banker's acceptance, commercial paper, negotiable certificates of deposit, repurchase agreements, medium-term notes, money market funds and mutual funds, mortgage or asset-backed securities, supranationals, investment pools, variable and floating rate securities, bank deposits and derivatives. Investment agreements are also allowed for bond issues.

All investments are subject to a maximum maturity of five years, unless specific direction to exceed the limit is given by the Board and as permitted by the Code. OCTA policy is to invest only in high quality instruments as permitted by the Code, subject to the limitations of the Policy.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, OCTA considers all short-term investments with an initial maturity of three months or less to be cash equivalents. All deposits, commercial paper, money market funds, certificates of deposit, and the 91 Express Lanes Fund's share of the OCTA Commingled Investment Pool represent cash and cash equivalents for cash flow purposes.

Restricted Cash and Investments

Investments set aside in the Senior Lien Reserve Fund, Major Maintenance Reserve Fund, and Operating Reserve Fund are pursuant to the terms of the 2013 Indenture for the \$124,415,000 Toll Road Revenue Refunding Bonds and their use is limited by applicable debt covenants.

Permitted investments per the debt covenants include: government obligations, State of California and local agency obligations, banker's acceptances, commercial paper, negotiable certificates of deposit, repurchase agreements, money market funds, other mutual funds, investment agreements, and variable and floating rate securities.

Receivables

Violations receivables include an estimate for outstanding unpaid violations that the 91 Express Lanes Fund anticipates to collect. For violations less than or equal to 90 days old, the receivable is based on a 12-month average of violations collected, and is recorded net of an allowance for uncollectible accounts of \$1,158,703 at June 30, 2019. For unpaid violations in excess of 90 days, the receivable is estimated using a three-year average of violations collected and is recorded net of uncollectible accounts as the majority is not considered probable of collection.

Other receivables include amounts due from other California toll road agencies related to their customers' use of the 91 Express Lanes, as well as amounts owed from customers, net of an allowance for uncollectible accounts of \$486,982 at June 30, 2019.

An estimated \$17,415,800 of violation and customer receivables are not expected to be collected within one year. The 91 Express Lanes utilizes an outside collection agency to assist in the recovery of unpaid customer balances and violations exceeding 90 days.

Due from other Governments

Due from other governments include receivables due from other government agencies.

Other Assets

Other assets include prepaid expenses and refundable deposits.

Capital Assets

Capital assets include toll facility franchise, construction in progress, improvements, equipment, computer hardware, software, furniture and fixtures, and transponders. Capital assets are defined by the 91 Express Lanes Fund as assets with an initial, individual cost of more than \$5,000 and a useful life in excess of one year. It is also the 91 Express Lanes Fund's policy to capitalize transponder purchases, as they are considered a significant class of assets even though individually under \$5,000. Such assets are recorded at historical cost. The costs of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Capital Asset Type | Useful Life |
|-----------------------------------|-------------|
| Improvements | 10-30 years |
| Equipment, furniture and fixtures | 3-10 years |
| Computer hardware and software | 3-5 years |
| Transponders | 5-7 years |

OCTA purchased the interest in the Franchise Agreement for the toll facility from CPTC on January 3, 2003. The toll facility franchise is amortized over the remaining life of the Franchise Agreement through December 2065.

Deferred Outflows

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. As of June 30, 2019, the 91 Express Lanes Fund only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Due to other Governments

Due to other governments include payables due to other government agencies.

Risk Management

The 91 Express Lanes Fund purchases commercial property insurance including business interruption, earthquake and flood coverage related to the toll facility. Additionally, the

91 Express Lanes Fund participates in OCTA's self-insurance general liability program. Liability claims are resolved by OCTA and are an expense of the 91 Express Lanes Fund. There were no settlements in excess of the insurance coverage in any of the three prior fiscal years.

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources and is classified into three categories:

- Net investment in capital assets Reflects net position of the 91 Express Lanes Fund invested in capital assets and the intangible asset net of related debt. This net position is not accessible for other purposes.
- Restricted net position Represents net position not accessible for general use, with the use subject to restrictions enforceable by third parties. The net position has been restricted by the 2013 Toll Road Revenue Refunding Bonds Master Indenture of Trust for debt service, capital, and operating expenses.
- Unrestricted net position Represents net position available for general use.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures during the reporting period. As such, actual results could differ from those estimates.

New Effective Accounting Pronouncements

In fiscal year 2018-19, OCTA implemented the following GASB Statements for the 91 Express Lanes Fund:

GASB Statement No. 83

In November 2016, GASB issued Statement No. 83, <u>Certain Asset Retirement Obligations</u>. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital asset should recognize a liability based on the guidance in this Statement. This Statement also requires disclosure of information about the nature of a government's ARO, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. This Statement is effective for the

91 Express Lanes Fund fiscal year ending June 30, 2019. There was no current effect on the financial statements of the 91 Express Lanes Fund as a result of the implementation of this Statement.

GASB Statement No. 88

In April 2018, GASB issued Statement No. 88, <u>Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements.</u> The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement is effective for the 91 Express Lanes Fund fiscal year ending June 30, 2019. See note 5.

GASB Statement No. 89

In June 2018, GASB issued Statement No. 89, <u>Accounting for Interest Cost Incurred before the End of a Construction Period.</u> The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement is effective for the 91 Express Lanes Fund fiscal year ending June 30, 2021. The 91 Express Lanes Fund, however, has early adopted this Statement in this fiscal year. There was no current effect on the financial statements of the 91 Express Lanes Fund as a result of the implementation of this Statement.

Portfolio Weighted Average

2.00

As of June 30, 2019, the 91 Express Lanes Fund had \$187,934,639 invested in the OCTA's Commingled Investment Pool (CIP). OCTA's CIP investments are carried at fair value except for money market investments and participating interest-earning investment contracts with a remaining maturity of one year or less at purchase date carried at amortized cost which approximates fair value.

Deposits and withdrawals in the OCTA's CIP are made on the basis of \$1.00 (cost basis) and not fair value. Accordingly, the 91 Express Lanes Fund's investment in the OCTA's CIP at June 30, 2019 is uncategorized, not defined as a Level 1, Level 2, or Level 3 input.

Refer to the OCTA CAFR for fiscal year 2018-19 for details on valuation techniques, fair value hierarchy, interest rate risk, variable rate notes and custodial credit risk related to the OCTA's CIP underlying investments.

Credit Risk

The Policy sets minimum acceptable credit ratings for investments from any of the three nationally recognized rating services: Standard & Poor's Corporation (S&P), Moody's Investors Service (Moody's), and Fitch Ratings (Fitch). For an issuer of short-term debt, the rating must be no less

^{*}Money market funds and commercial paper are measured at amortized cost which approximates fair value.

than A-1 (S&P), P-1 (Moody's), or F1 (Fitch), while an issuer of long-term debt must be rated no less than an "A" by two of the three rating services. OCTA's CIP is not rated.

The following is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of fair value of the 91 Express Lanes Fund's portfolio at June 30, 2019. (NR means Not Rated):

| Investments | S&P | Moody's | % of 91 Express |

Concentration of Credit Risk

At June 30, 2019, OCTA did not exceed the Policy maximum concentrations as stated below:

Issuer/Counter-Party Diversification Guidelines for All Securities Except U.S. Treasuries and U.S. Government Agency Securities

• Any one corporation, bank, local agency, special purpose vehicle or other corporate issuer name for one or more series of securities shall not exceed 5% of the portfolio.

Issuer/Counter-Party Diversification Guidelines for OCTA's Debt

OCTA can purchase all or a portion of the Orange County Transportation Authority's
debt, including notes and bonds payable solely out of the revenues from a revenueproducing property owned, controlled or operated by OCTA or by a department, board,
agency or authority of OCTA which may bear interest at a fixed or floating rate, providing
the purchase does not exceed 25% of the Maximum Portfolio and when authorized by the
Internal Revenue Service.

The following is a summary of the concentration of credit risk by issuer as a percentage of the fair value of the 91 Express Lanes Fund's portfolio at June 30, 2019:

| | | % of 91 Express |
|--------------------------|---------------|-----------------|

On January 3, 2003, OCTA purchased from the California Private Transportation Company (CPTC) its interest in a Franchise Agreement for a toll facility on a 10-mile segment of the Riverside Freeway/State Route (SR) 91 between the Orange/Riverside County line and the Costa Mesa Freeway/SR-55. The purchase was enabled by State Assembly Bill (AB) 1010 (Correa), passed by the California legislature and signed by the governor in September 2002. The legislation provided the authority for OCTA to collect tolls and pay related financing costs until 2030, and eliminated non-compete provisions in the Franchise Agreement for needed improvements on the SR-91. The Franchise Agreement with the State of California's Department of Transportation (Caltrans) had granted CPTC the right to develop and construct the toll facility and to operate it for 35 years under a lease arrangement. Caltrans retains legal title to the real property components of the toll facility.

In September 2008, the Governor of California approved Senate Bill (SB) 1316 (Correa) as an update to the provisions of AB 1010. SB 1316 authorized OCTA to assign its franchise rights, interests and obligations in the Riverside County portion to the Riverside County Transportation Commission (RCTC), thereby allowing RCTC to add two toll lanes and a regular lane in each direction on the SR-91 from the Orange County line to Interstate 15. In addition, the bill authorized the terms of the franchise to expire no later than December 31, 2065. SB 1316 also required OCTA and RCTC to enter into an agreement providing for the coordination of their respective tolling facilities if RCTC was to construct and operate the toll facilities on the Riverside County portion of the SR-91 franchise.

In December 2011, the Board approved the assignment of OCTA's franchise rights, interests and obligations in the Riverside County portion of the SR-91 franchise to RCTC. The Board also approved the extension of the expiration date to 2065 and a cooperative agreement between OCTA and RCTC that details the joint operation for the 91 Express Lanes extension.

5. Bonds Payable

Taxable Senior Secured Bonds

On January 3, 2003, as part of the purchase agreement, the 91 Express Lanes Fund assumed \$135,000,000 of taxable 7.63% Senior Secured Bonds. On November 12, 2003, the taxable bonds were refunded as noted below. As required by the tax-exempt bond indenture, OCTA paid a \$26,428,197 Yield Maintenance Premium in connection with the defeasance of the Senior Secured Bonds, which is amortized over the life of the Series 2003 tax-exempt bonds on the straight line basis.

Toll Road Revenue Refunding Bonds

On November 12, 2003, OCTA issued \$195,265,000 in Toll Road Revenue Refunding Bonds (91 Express Lanes) Series 2003-A, Series 2003-B-1 and Series 2003-B-2 to refund the \$135,000,000 taxable 7.63% Senior Secured Bonds and to reimburse OCTA for a portion of its payment of the costs of acquiring the Toll Road and certain other property and interests associated with the Toll

Road. The \$95,265,000 Series 2003-A Bonds were issued as fixed rate bonds. The \$75,000,000 Series 2003-B-1 Bonds and the \$25,000,000 Series 2003-B-2 Bonds (collectively the "Series 2003-B Bonds") were issued as adjustable rate bonds.

On November 24, 2008, OCTA remarketed the \$100,000,000 Series 2003-B Bonds, which were purchased by the Orange County Investment Pool (OCIP). In connection with the mandatory tender of the Series 2003-B Bonds required by the Indenture, the interest rate was converted to a Long Term Interest Rate equal to the OCIP Rate. On December 20, 2010, OCTA entered into a new transaction with OCIP for the Series 2003-B Bonds at a 1.55% rate. The Series 2003-B Bonds had a mandatory tender date of August 15, 2013.

On July 30, 2013, OCTA issued \$124,415,000 in Senior Lien Toll Road Revenue Refunding Bonds (91 Express Lanes) Series 2013 to refund the outstanding Toll Road Revenue Refunding Bonds (91 Express Lanes) Series 2003-A, Series 2003-B-1 and Series 2003-B-2. OCTA refunded the outstanding Series 2003-A Bonds to reduce its total debt service payments over the life of the bonds and refunded the Series 2003-B-1 and Series 2003-B-2 Bonds to address the mandatory tender date of August 15, 2013 for the existing private placement with the OCIP. The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$4,366,861. The transaction resulted in a reduction of debt service payments of \$26,916,929 over 18 fiscal years and an economic gain (difference between the present values of the debt service payments of the original 2003 and 2013 debt) of \$19,271,945. The Series 2013 Bonds were issued as fixed rate bonds. The transaction closed on August 8, 2013.

The OCTA's outstanding debt obligations related to Toll Road Revenue Refunding Bonds contain a provision that in an event of default, bondholders have the right to sue in order to force OCTA to cure the event of default, which may result in finance related consequences.

A summary of the terms of the Toll Road Revenue Refunding Bonds is as follows:

| Issuance date | 07/30/2013 |
|------------------------------|----------------|
| Closing date | 08/08/2013 |
| Original issue amount | \$124,415,000 |
| Cash reserve requirements | \$22,779,500 * |
| Cash reserve balance | \$24,827,256 |
| Interest rate | 2%-5% |
| Maturity | December 2030 |
| Principal payment date | August 15 |
| Balance as of 06/30/19 | \$97,795,000 |
| Unamortized premium | \$7,378,446 |
| Deferred amount on refunding | \$(7,672,061) |

The Toll Road Revenue Refunding Bonds have ratings of "A1" by Moody's, "A+" from Fitch, and "AA-" by Standard & Poor's.

*Pursuant to the 2013 Toll Road Revenue Refunding Bonds Master Indenture of Trust, three reserve funds are maintained with required balances as follows: Senior Lien Reserve Fund \$9,779,500; Major Maintenance Reserve Fund \$10,000,000; and Operating Reserve Fund \$3,000,000. At June 30, 2019, all reserve requirements have been satisfied.

Annual debt service requirements on the tax-exempt bonds to maturity are as follows:

| Year ending June 30, | Principal | Interest | Total |
|----------------------|------------------|------------------|-------------------|
| 2020 | \$ 6,110,000 | \$ 4,688,325 | \$ 10,798,325 |

Changes in Long-Term Obligations

Long-term liabilities activity for the year ended June 30, 2019, was as follows:

| | Beginning | | | | Ending | Due within |
|----------------------|---------------|-----|---------|---------------|---------------|-------------|
| | Balance | Ado | ditions | Reductions | Balance | One Year |
| Tax-exempt bonds | \$103,605,000 | \$ | - | \$(5,810,000) | \$ 97,795,000 | \$6,110,000 |
| Unamortized premium | 8,022,383 | | - | (643,937) | 7,378,446 | |
| Total long-term debt | \$111,627,383 | \$ | - | \$(6,453,937) | \$105,173,446 | \$6,110,000 |
| | | | | | | |

Pledged Revenue

The 91 Express Lanes debt issuance outstanding is repaid and secured by the pledging of certain revenues, as defined in the debt agreement. The amount and term of the remainder of this commitment is indicated in the debt service to maturity table. The purpose for which the proceeds of the debt issuance were utilized is disclosed in the debt description. Pursuant to the 2013 Toll Road Revenue Refunding Bonds Master Indenture of Trust, the 91 Express Lanes Fund will covenant to fix and prescribe toll rates for each type of vehicle and each time of day sufficient to produce adjusted net toll revenues for each fiscal year at least equal to 1.3 times annual debt service on Senior Lien Bonds and Parity Obligations and at least equal to 1.0 times annual debt service on all bonds. Adjusted net toll revenues includes tolls and investment earnings on specified reserve accounts minus operating expenses, excluding depreciation and interest expense.

Pledged revenue for the year ended June 30, 2019, was as follows:

| | Annual Amount of Net | Annual Debt Service | Pledged Revenue | Required Debt |
|---|----------------------|---------------------|-----------------|---------------|
| Pledged Revenue | Pledged Revenue | Payments | Coverage | Coverage |
| 91 Express Lanes Net Toll Road Revenue | \$ 49,624,103 | \$10,796,325 | 4.60 | 1.30 |

6. Commitments and Contingencies

Operator Agreement

In connection with the purchase of the toll facility interest, OCTA entered into an operating agreement with Cofiroute Global Mobility, subsequently Cofiroute USA, LLC (Cofiroute), to provide operating services in the annual amount of \$4,994,000 plus inflation for three initial years with two one-year extension options, subject to Board of Directors approval. The agreement was in effect from January 3, 2003 through January 2, 2006. On January 6, 2006, OCTA entered into a second operating agreement with Cofiroute, effective January 3, 2006 through January 2, 2011. The annual amount of the base contract is \$5,448,768 plus inflation adjustments after the first year. The agreement carried two two-year extension options through January 2, 2015. On June 27, 2011, the OCTA Board of Directors approved a subsequent amendment to the operating agreement with Cofiroute, which authorized the addition of two five-year extension options beginning July 1, 2011 through June 30, 2016 for the first extension term and beginning July 1, 2016 through June 30, 2021 as the second extension term. The second extension term was approved on May 9, 2016. Cofiroute is responsible for the day-to-day operations of the toll facility.

On May 24, 2013 OCTA completed a three-party agreement expiring on June 30, 2021, with Riverside County Transportation Commission (RCTC) and Cofiroute for operations of the 91 Express Lanes. This will help ensure streamlined consistent inter-county travel for motorists on the original 10-mile span of the 91 Express Lanes and the new eight miles extension into Riverside County.

Purchase Commitments

The 91 Express Lanes has various outstanding contracts. Total purchase commitments at June 30, 2019 were \$56,163,810, the most significant are with Cofiroute and RCTC for the operations of the 91 Express Lanes, with Kapsch TrafficCom for toll lanes integrator services and California Highway Patrol (CHP) for patrol services.

Lease Commitments

The 91 Express Lanes Fund is committed under two non-cancelable leases for office space. These leases are considered for accounting purposes to be operating leases. Lease expenses for the year ended June 30, 2019 were \$467,083.

Future minimum payments for these leases approximate the following:

| \$ 383,681 |
|-----------------|
| 394,833 |
| 405,986 |
| 417,750 |
| 429,535 |
| 2,327,901 |
| 527,974 |
| \$ 4,887,660 |
| |

On April 13, 2015 the Board approved a 15-year lease extension for the 91 Express Lanes Anaheim office. On May 23, 2018, the Board approved the relocation of the 91 Express Lanes Customer Service Center in Corona and a ten-year lease agreement with RCTC for the facility. Both leases are shared equally with RCTC per agreement between OCTA and RCTC, entered into in December 2011.

7. Effect of New Pronouncements:

GASB Statement No. 84

In January 2017, GASB issued Statement No. 84, <u>Fiduciary Activities</u>. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. This Statement is effective for OCTA's fiscal year ending June 30, 2020. OCTA has not determined the effect of this Statement.

GASB Statement No. 87

In June 2017, GASB issued Statement No. 87, <u>Leases</u>. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease

accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for OCTA's fiscal year ending June 30, 2021. OCTA has not determined the effect of this Statement.

GASB Statement No. 90

In August 2018, GASB issued Statement No. 90, <u>Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61.</u> The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement is effective for OCTA's fiscal year ending June 30, 2020. OCTA has not determined the effect of this Statement.

GASB Statement No. 91

In May 2019, GASB issued Statement No. 91, <u>Conduit Debt Obligations</u>. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This Statement is effective for OCTA's fiscal year ending June 30, 2022. OCTA has not determined the effect of this Statement.

STAFF RECOMMENDATION:

This item is for the Committee to receive and file the Fiscal Year (FY) 2018/19 Riverside County Transportation Commission (RCTC) 91 Express Lanes Fund audited financial statements.

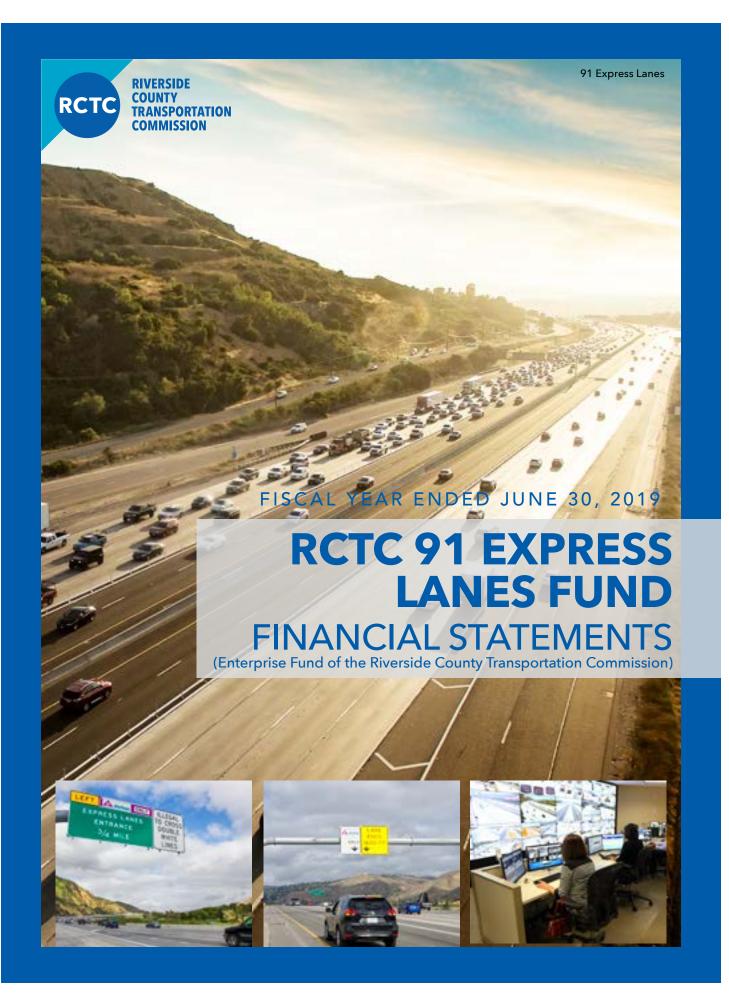

BACKGROUND INFORMATION:

RCTC prepares the financial statements for the 91 Express Lanes Fund, an enterprise fund of RCTC. The financial statements present the results of operations and cash flows for the fiscal year and the financial position at the fiscal year end. In accordance with the United States Department of Transportation TIFIA Loan Agreement for the SR-91 Corridor Improvement Project, RCTC is required to obtain an independent auditor's opinion on the financial statements. Macias Gini & O'Connell LLP (MGO), an independent accounting firm, conducted the audit for FY 2018/19 to obtain reasonable assurance about whether the financial statements are free from material misstatement.

MGO completed its annual audit and issued its opinion of the RCTC 91 Express Lanes Fund financial statements for FY 2018/19. The audit was conducted in accordance with auditing standards generally accepted in the United States of America. MGO issued an unqualified opinion on the financial statements, indicating that the financial statements present fairly, in all material respects, the financial position of the RCTC 91 Express Lanes Fund as of June 30, 2019, and the changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The FY 2018/19 audited financial statements for the RCTC 91 Express Lanes Fund present the second full year of operations for the RCTC 91 Express Lanes and are included as an attachment.

Independent Auditor's Report

Board of Commissioners Riverside County Transportation Commission Riverside, California

We have audited the accompanying financial statements of the RCTC 91 Express Lanes Fund (the Fund), an enterprise fund of the Riverside County Transportation Commission (the Commission), as of and for the year ended June 30, 2019, and the related notes to the financial statements, as listed in the table of contents

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the RCTC 91 Express Lanes Fund of the Commission, as of June 30, 2019, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the RCTC 91 Express Lanes Fund and do not purport to, and do not present fairly the financial position of the Commission as of June 30, 2019, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion & Analysis

As management of the RCTC 91 Express Lanes Fund (the Fund), an enterprise fund of the Riverside County Transportation Commission, we offer readers of the Fund financial statements this narrative overview and analysis of the Fund's financial activities for the fiscal year ended June 30, 2019. We encourage readers to consider information on financial performance presented in conjunction with the financial statements that begin on page 9.

Financial Highlights

- At the end of fiscal year (FY) 2018/19, the total net position (deficit) of the Fund was (\$274,596,300) and consisted of net investment in capital assets of (\$299,852,425) and restricted net position of \$25,256,125.
- Net position of (\$274,596,300) during FY 2018/19 reflects the second full year of toll operations. The eight-mile stretch between Interstate 15 and the Orange/Riverside County line and a tolled direct connector reached substantial completion and opened to motorists on March 20, 2017.
- In FY 2018/19, total operating revenues of \$58,423,461 include toll, violation penalty, and account fee revenues and Orange County Transportation Authority (OCTA) reimbursements. Total operating expenses of \$23,375,043 include roadway and toll systems maintenance, customer service, back office operations, other support costs, and depreciation and amortization.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Fund's financial statements. The financial statements are comprised of the Fund financial statements and notes to the financial statements.

The statement of net position presents information on all of the Fund's assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Fund is improving or deteriorating.

The statement of revenues, expenses and changes in fund net position presents information showing how the Fund's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

The statement of cash flows presents information on the cash flows related to operating, noncapital financing, capital and related financing, and investing activities.

The Fund financial statements can be found on pages 9-12 of this report.

Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 13-25 of this report.

91 Express Lanes Financial Analysis

As noted previously, net position may serve over time as a useful indicator of the Fund's financial position. At June 30, 2019, the Fund's net position reflected a deficit of \$274,596,300. Our analysis below focuses on net position and changes in net position of the Fund's financial activities.

FY 2018/19 represents the second full year of toll operations for the Fund. Total assets and deferred outflows of resources increased \$54,715,760, or 14%, due to increases in cash and investments and receivables. Total liabilities and deferred inflows of resources increased \$51,544,726, or 8%, primarily due to increases in deferred violation revenues and toll supported long-term debt related to accreted and compounded interest.

The Fund's net investment in capital assets reflects a deficit of \$299,852,425 and represents (109.2%) of the total net position (deficit) in FY 2018/19. The Fund's net position reflects its investment in capital assets (i.e., land and land improvements; buildings; toll infrastructure; equipment, furniture and fixtures; transponders; and intangible assets), less any related outstanding debt used to acquire these assets. The Fund uses these capital and intangible assets to provide improved mobility for the Fund customers and commuters along the State Route (SR)-91 corridor.

Restricted net position, representing resources subject to external restrictions on how they may be used, was \$25,256,125 and represents 9.2% of the total net position at June 30, 2019.

The analysis below focuses on the changes in net position.

The Fund's total operating revenues increased \$7,976,637, or 16%, due to an increase in trips and toll rate changes as well as non-toll revenues. Total operating expenses increased \$1,414,492, or 6%, due to increases in operations costs, professional services, and depreciation. Nonoperating expenses increased \$1,375,580, or 5%, primarily due to increased investment income offset by the loss on the sale of excess land purchased for the 91 Project. Net transfers from the Commission decreased by \$17,927,037 as a result of the prior year's transfer of capital and intangible assets related to the 91 Project. Total traffic volume on the RCTC 91 Express Lanes Fund during FY 2018/19 was approximately 37,900,600 trips compared to 36,103,800 trips in FY 2017/18.

Capital and Intangible Assets

Capital Assets

As of June 30, 2019, the Fund had \$56,054,070, net of accumulated depreciation, invested in a broad range of capital assets including: land and land improvements; buildings; toll infrastructure comprised of communication equipment and computer hardware and software; equipment, furniture and fixtures; and transponders. The decrease of \$9,185,485, or 14%, was primarily due to the sale of excess land and the depreciation of the Fund's toll infrastructure.

More detailed information about the Fund's capital assets is presented in note 4 to the financial statements.

Intangible Assets

The information below is a summary of the Commission's intangible assets, net of accumulated amortization:

RCTC 91 Express Lanes Fund Intangible Assets, Net of Amortization

| | 2019 | 2018 |
|-----------------------------|-------------------|-------------------|
| Total intangible asset, net | \$ 239,801,144 | \$ 244,045,820 |

The decrease of \$4,244,676, or 2%, is primarily a result of the current year amortization. More detailed information about the Fund's intangible assets is presented in note 5 to the financial statements.

Debt Administration

As of June 30, 2019, the Fund had \$669,294,571 outstanding in toll revenue bonds, including a toll revenue bond in the form of a Transportation Innovation Finance and Infrastructure Act (TIFIA) loan. The increase of \$20,791,535, or 3%, is due to the compounded and accreted interest on the toll-supported long-term debt.

Additional information on long-term debt can be found in note 7 to the financial statements.

Economic and Other Factors

The Fund makes up \$41,869,400 or 6% of Commission's FY 2019/20 revenue budget. In FY 2019/20, toll and non-toll revenues are forecasted to increase by 13% over the FY 2018/19 budget. This increase is based on estimated toll transactions and current traffic and revenue data. The RCTC 91 Express Lanes have exceeded initial expectations and the Commission's traffic consultant updated the investment grade and traffic and revenue study in December 2018. The average projected long-term rate of growth for toll road revenues beyond FY 2019/20 is 4.8%.

The majority of expenses related to the Fund within FY 2019/20 budget are on-going general costs related to day-to-day operations of the toll facility. As a fully electronic toll facility, motorists pay tolls through the convenient use of FasTrak® transponders that automatically deduct toll charges from a prepaid account.

Under a cooperative agreement entered into with OCTA in December 2011, the RCTC 91 Express Lanes are jointly operated with the OCTA 91 Express Lanes and collectively referred to as the 91 Express Lanes. The Commission and OCTA agreed on the use of the same initial operator, cost and revenue sharing, toll policies, business rules, interoperability of technology, and shared marketing activities. The joint operation allows for the sharing of costs and a seamless customer experience.

Note 1. Reporting Entity

After more than a decade of work, which includes approximately three years of construction, the Riverside County Transportation Commission (Commission) achieved substantial completion on the SR-91 Corridor Improvement (91 Project) on March 20, 2017, including express lane and general purpose lane improvements. In achieving substantial completion, the RCTC 91 Express Lanes opened to traffic and tolling commenced. The RCTC 91 Express Lanes cover an eight-mile stretch on State Route 91 (SR-91) between Interstate 15 (I-15) and the Orange/Riverside County line and a tolled direct connector.

The RCTC 91 Express Lanes Fund (Fund) is reported as a major enterprise fund in the Commission's basic financial statements. The accompanying financial statements present the net position, changes in net position, and cash flows of the Fund only. They do not purport to, and do not, present the overall financial position of the Commission or its changes in net position as of June 30, 2019.

Note 2. Summary of Significant Accounting Policies

The accounting policies of the Fund are in conformity with generally accepted accounting principles applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

Basis of Accounting: The financial statements of the Fund are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues consisting substantially of tolls and fees, are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Toll revenue is recognized when the customers utilize the toll road facility.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with an enterprise fund's principal and ongoing operations. The principal operating revenues of the Fund are charges to customers for use of the toll facility. Operating expenses for the Fund include the cost of services, administrative expenses, and depreciation and amortization on capital and intangible assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Cash and investments: The Commission maintains cash and investments in accordance with the Investment Policy adopted by the Board of Commissioners in March 2019. The Investment Policy complies with the California Government Code (Code). Investments of bond proceeds as permitted by the applicable debt documents are maintained with U.S. Bank as trustee. Separate investment accounts are maintained for the proceeds of bond issues, with the earnings for each bond issue accounted for separately. The Fund participates in the Riverside County Pooled Investment Fund (RCPIF). Cash from other Commission revenue sources is commingled for investment purposes in the RCPIF, with investment earnings allocated to the different accounts based on average daily account balances.

The Commission holds investments that are measured at fair value on a recurring basis. Investments in U.S. Treasury obligations, U.S. agency securities, corporate notes, mortgage and asset-backed securities, and municipal bonds are carried at fair value based on quoted market prices, except for money market investments, which are carried at amortized cost which approximates fair value. The RCPIF is carried at fair value based on the value of each participating dollar as provided by RCPIF.

Cash and cash equivalents: For the purpose of the statement of cash flows, the Commission considers all short-term investments with an initial maturity of three months or less to be cash equivalents. All deposits, commercial paper notes, money market funds, negotiable certificates of deposit, and the Fund's share of the RCPIF represent cash and cash equivalents for cash flow purposes.

Note 2. Summary of Significant Accounting Policies, Continued

Restricted cash and investments: Investments set aside in the Senior Lien Obligations Reserve Fund, Senior Lien Capitalized Interest Fund, Residual Fund Scheduled Retained Balance Fund, and Toll Revenue Fund are pursuant to the terms of the 2013 Indenture and their use is limited by applicable debt terms and conditions.

Permitted investments per the debt indentures include government obligations, State of California and local agency obligations, banker's acceptances, commercial paper notes, negotiable certificates of deposit, repurchase agreements, money market funds, other mutual funds, investment agreements, RCPIF, and variable and floating rate securities.

Receivables: Violations receivables include uncollected violation tolls and penalties. Unpaid violations of \$53,146,325 as of June 30,2019 are not recognized as revenue until payment is received and therefore are reflected as unearned revenue. If violations and penalties remain owed for more than 90 days, they are turned over to the collection agency. Unpaid violations remain recorded for a period of four years in accordance with the statute of limitations, at which time, they will be deemed uncollectible.

Accounts receivables include amounts due from other California toll road agencies related to their customers' use of the RCTC 91 Express Lanes, as well as amounts owed from the Orange County Transportation Authority (OCTA) in accordance with a cooperative agreement.

Capital assets: Capital assets include land and land improvements; toll infrastructure; buildings; equipment, furniture and fixtures; and transponders. Capital assets are defined by the Fund as assets with an initial, individual cost of more than \$5,000 and a useful life in excess of one year. It is also the Fund's policy to capitalize transponder purchases, as they are considered a significant class of assets even though individually under \$5,000. Such assets are recorded at historical cost. The costs of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Asset Type | Useful Life |
|-----------------------------------|---------------|
| Buildings | 10 years |
| Equipment, furniture and fixtures | 3 to 5 years |
| Toll infrastructure | 5 to 10 years |
| Transponders | 5 years |

Intangible assets: In May 2012 the Commission entered into a toll facility agreement with California's Department of Transportation (Caltrans) and obtained authority to toll the SR-91 from the Orange County/Riverside County line to I-15 for 50 years commencing as of the first day on which the RCTC 91 Express Lanes open for public use and toll operations. The RCTC 91 Express Lanes opened on March 20, 2017.

Deferred outflows of resources: In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. As of June 30, 2019, the Fund has deferred outflows of resources related to pension and other post-employment benefits (OPEB).

Note 2. Summary of Significant Accounting Policies, Continued

Due to other Commission funds: During the course of operations, transactions occur between Commission governmental funds involving goods provided and services rendered.

Compensated absences: Vacation hours accumulated and not taken at year-end is reported as a long-term liability, net of current portion, in the Fund.

Sick leave is recorded as an expense when taken by the employee. Employees with continuous five years of service have the option of being paid for sick leave accumulated in excess of 240 hours at a rate of 50% (i.e., one hour's pay for every two hours in excess of 240). Any sick leave in excess of 240 hours is accrued at fiscal year-end, and a liability is reported in the Fund.

Pensions: For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Commission's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deduction from Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Post-employment benefits other than pensions: For purposes of measuring the net OPEB asset, deferred outflows/inflows of resources related to the OPEB asset and OPEB expense, information about the fiduciary net position of the Commission's OPEB plan, and additions to/deductions from the OPEB fiduciary net position have been determined on the same basis as they are reported by California Employers' Retiree Benefit Trust administered by CalPERS. For this purpose, benefit payments are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value, except for money markets and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which is reported at cost.

Deferred inflows of resources: In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources, or revenue, until then. The Fund has deferred inflows of resources related to pension and other post-employment benefits.

Risk management: The Fund purchases commercial property insurance including business interruption, earthquake, and flood coverage related to the toll facility.

Net position: Net position represents the difference between assets plus deferred outflow of resources and liabilities plus deferred inflow of resources and is classified into two categories:

- Net investment in capital assets consists of capital and intangible assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets and excludes unspent debt proceeds.
- Restricted net position represents restricted assets less liabilities related to those assets. Restricted assets are recorded when there are limitations imposed by creditors (such as through debt covenants). The statement of net position includes restricted net position for the portion of net toll revenues restricted by the 2013 Master Indenture for toll operations

The deficit in net investment in capital assets will be reduced by future toll revenues for the payment of outstanding toll obligations.

Note 2. Summary of Significant Accounting Policies, Continued

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumption that affect certain reported amounts and disclosures during the reporting period. As such, actual results could differ from those estimates.

Note 3. Cash and Investments

| Cash and investments are comprised of the following at June 30, 2019: | |
|---|-------------------|
| Cash in bank | \$ 484,511 |
| Investments | |
| With RCPIF | 24,718,714 |

| Unrestricted cash and investments | \$ 25,203,225 |
| Restricted cash and investments | 76,380,134 |
| Total cash and investments | \$ 101,583,359 |

Fair Value Hierarchy: The Commission categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are based on similar observable assets either directly or indirectly, which may include inputs in markets that are not considered to be active; and Level 3 inputs are significant unobservable inputs (the Commission does not value any of its investments using Level 3 inputs).

Note 3. Cash and Investments, Continued

The following is a summary of the fair value hierarchy of the fair value of investments of the Fund as of June 30, 2019:

| Total investments | \$ | <u> 101,098,848</u> | _ | | | | |

Investments classified in Level 1 of the value hierarchy, valued at \$19,470,332 are valued using quoted prices in active markets.

Mortgage and asset-backed securities totaling \$22,604,143, money market mutual funds totaling \$17,110,412,U.S. agency securities totaling \$8,733,428, corporate notes totaling \$6,687,359, commercial paper notes totaling \$1,074,440, negotiable certificates of deposit totaling \$500,020, and municipal bonds totaling \$200,000, classified in Level 2 of the fair value hierarchy, are valued using matrix pricing techniques maintained by various pricing vendors. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the custodian bank.

Note 3. Cash and Investments, Continued

As of June 30, 2019, the Fund has the following investments:

| Total Investments | \$101,098,848 | \$100,841,975 | <u>.</u> | | |
| Portfolio weighted average | | | | | 5.044 |

The weighted average maturity is calculated using the investment's effective duration weighted by the investment's fair value.

As of June 30, 2019, mortgage and asset-backed securities totaled \$22,604,143. The underlying assets are consumer receivables that include credit cards, auto/equipment, and home loans. The securities have a fixed interest rate and are rated Aaa/AA+ at least two of the three nationally recognized statistical rating organizations.

Deposits and withdrawals in the RCPIF are made on the basis of \$1.00 (cost basis) and not fair value. Accordingly, the Fund's investment at June 30, 2019 is uncategorized, not defined as Level 1, Level 2, or Level 3 input.

Interest rate risk: While the Commission does not have a formal policy related to the interest rate risk of investments, the Commission's investment policy follows the Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. In accordance with the Commission's investment policy, restricted investments are invested in accordance with the maturity provisions of the specific bond indenture, which may extend beyond five years.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Commission's investment policy requires that a third party bank trust department hold all securities owned by the Commission. All trades are settled on a delivery versus payment basis through the Commission's safekeeping agent.

The Fund has deposits with a bank balance of \$484,511 with a financial institution; bank balances over \$5,000,000 are swept daily into a money market account. Of the bank balance, up to \$250,000 is federally insured under the Federal Depository Insurance Corporation with balances in excess of

Note 3. Cash and Investments, Continued

\$250,000 collateralized in accordance with the Code; however, the collateralized securities are not held in the name of the Commission.

Credit risk: The Commission's investment policy as well as the specific bond indentures set minimum acceptable credit ratings for investments from any of the three nationally recognized statistical rating organizations. The following table is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of each category's fair value at June 30, 2019; securities denoted as NR are not rated by one of the nationally recognized statistical rating organizations.

Concentration of credit risk: The Commission's investment policy places a limit of 10% on the amount of investment holdings with any one non-U.S. Government or non-federal agency issuer. As of June 30, 2019, the Commission did not have investments in any one issuer that represents more than 5% of the Commission's total investments.

Note 5. Intangible Assets and Service Concession Arrangements

On May 14, 2012, the Commission entered into a toll facilities agreement with Caltrans providing the Commission with authorization to toll the SR-91 from Orange/Riverside County line to I-15 for 50 years commencing as of the first day on which the RCTC 91 Express Lanes open for public use and toll operations. The agreement also set forth the Commission's leasehold rights to Caltrans' right of way and Caltrans' oversight role in the operations and maintenance of the RCTC 91 Express Lanes.

In July 2010, the Commission authorized the issuance and sale of not to exceed \$900 million of toll revenue bonds related to the 91 Project.

2013 Toll Revenue Bonds, Series A (Current Interest Obligation):

Outstanding

In July 2013, the Commission issued \$123,825,000 principal amount of serial current interest bonds (CIBs) at a discount of \$2,433,315 to fund a portion of the 91 Project, pay capitalized interest during construction, fund a debt service reserve fund, fund an initial amount for an operations and maintenance fund, and pay costs of issuance. The CIBs consist of a serial bond maturing on June 1, 2044 in the amount of \$39,315,000 at an interest rate of 5.75% and a term bond due on June 1, 2048 in the amount of \$84,510,000 with annual sinking funds payments of \$42,255,000 on June 1, 2047 and June 1, 2048 at an interest rate of 5.75%.

\$123,825,000

In accordance with the bond maturity schedule, annual debt service requirements to maturity for the 2013 Toll Revenue Bonds CIBs payable throughout the term of the bonds are as follows:

Note 7. Long-Term Obligations, Continued

2013 Toll Revenue Bonds, Series B (Capital Appreciation Obligation):

Outstanding

Iln July 2013, the Commission issued \$52,829,600 principal amount of serial capital appreciation bonds (CABs) to fund a portion of the 91 Project, pay capitalized interest during construction, fund a debt service reserve fund, fund an initial amount for an operations and maintenance fund, and pay costs of issuance. The CABs will not pay current interest as interest will be compounded commencing December 2013 semiannually and paid at maturity. Therefore, the CABs will increase in value, or accrete, by the accumulation of such compounded interest from its initial principal amount to the maturity value in installments ranging from \$3,440,000 to \$34,220,000 on various dates from June 1, 2022 through June 1, 2043. Interest rates and yield to maturity range from 5.30% to 7.15%. During 2019, the accretion amount was \$4,828,668. During 2019, the accretion amount was \$4,828,668; the aggregate accretion through June 30, 2019 is \$24,770,681.

\$ 77,600,284

In accordance with the bond maturity schedule, annual debt service requirements to maturity for the 2013 Toll Revenue Bonds CABs payable throughout the term of the bonds are as follows:

| Year Ending June 30 | Principal | Accreted Interest | Total | |
|---------------------|------------------|-------------------|-------------------|--|
| 2022 | \$ 2,396,700 | \$1,423,300 | \$ 3,820,000 | |

TIFIA Loan Agreement: Outstanding

In July 2013, the Commission executed a TIFIA loan of up to \$421,054,409, which proceeds financed a portion of the costs for the 91 Project. During construction and for a period of up to five years following substantial completion, interest is compounded and added to the initial TIFIA loan. The TIFIA loan requires mandatory debt service payments at a minimum and scheduled debt service payments to the extent additional funds are available. TIFIA debt service payments are expected to commence on December 1, 2021, which is five years after substantial completion of the 91 Project, through June 1, 2051. The interest rate of the TIFIA loan is 3.47%.

\$469,870,660

The TIFIA loan is a toll revenue bond that is subordinate to the senior toll revenue bonds.

In accordance with the TIFIA loan maturity schedule, the approximate mandatory annual debt service requirements to maturity for the TIFIA loan payable throughout the term of the loan are as follows:

In connection with the issuance of the 2013 Toll Revenue Bonds consisting of the CIBs and CABs, a debt service reserve of \$17,665,460 and an operations and maintenance fund of \$3,137,666 were established. Additionally, the toll indenture and TIFIA loan agreement require the Commission to establish a subordinate obligations reserve fund of \$20,000,000 no later than July 1, 2019. The \$20,000,000 reserve was funded in June 2019 from the proceeds of the sale of excess properties on the SR-91 and surplus revenues.

Note 8. Commitments and Contingencies

Cooperative agreements: The RCTC SR-91 Express lanes are jointly operated with the existing OCTA 91 Express Lanes and collectively referred to as the 91 Express Lanes.

Under the Orange-Riverside Cooperative Agreement, which was entered into in December 2011, the Commission and OCTA agreed on the use of the same initial toll operator, cost and revenue sharing, toll policies, business rules, interoperability of technology, and marketing activities as well as OCTA review of design plans and construction activities for the 91 Project.

In May 2013 the Commission entered into a three-party agreement with OCTA and the third-party toll operator, for the operations of the 91 Express Lanes. This will ensure streamlined and consistent intercounty travel for motorists on the OCTA 91 Express Lanes in Orange County and RCTC 91 Express Lanes in Riverside County. The third-party operator provides operating services to the Commission in the annual amount of \$6,942,600 plus inflation for three initial years with two one-year extension options, subject to Board of Commissioners approval. The third-party operator is responsible for the day-to-day operations of the toll facility; another contractor is responsible for maintaining the roadside toll collection system under a separate agreement with the Commission. The agreement with the third-party operator expires on December 31, 2021, as amended in September 2019.

Purchase commitments: The Fund has entered into other agreements in the ordinary course of business with companies and other governmental agencies related to operations and maintenance. These agreements, which are significant, are funded with available and future revenues.

Note 9. Pensions and Other Post-Employment Benefits Other Than Pensions

The Fund participates in the Commission's cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System and the Commission's OPEB. Employees of the Fund are employees of the Commission as a whole. The required note disclosures regarding pension plans and OPEB are included in the Commission's financial statements. Please see those financial statements for information about the pension plans and OPEB as a whole.

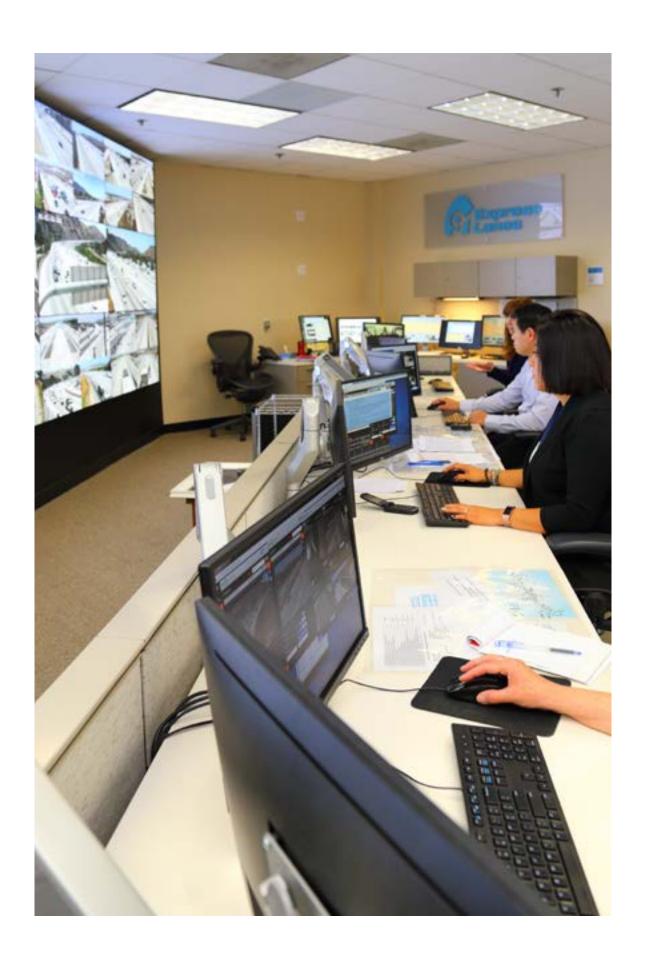

The net pension liability of \$537,539 and net OPEB asset of \$2,578, reported by the Fund, represent the Fund's proportional share of the Commission's net pension liability of \$8,340,905 and net OPEB asset of \$40,000. The Fund's net pension liability and net OPEB asset each represent 6.44% of the Commission's net pension liability and net OPEB asset, respectively.

Note 10. Pronouncements Issued, Not Yet Effective

The GASB pronouncements issued prior to June 30, 2019 that have an effective date that may impact future financial presentations include:

- GASB Statement No. 87, Leases, effective for fiscal years beginning after December 15, 2019;
- GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, effective for fiscal years beginning after December 15, 2019;
