Sample Quarterly Status Report

Sample 91 Express Lanes Quarterly Status Report

NOTE: Some data has been redacted.

Attached is the 91 Express Lanes Quarterly Status Report for the First Quarter of OCTA's Fiscal Year 2018-19; July 1 through September 30, 2018.

The following information is provided in this report:

1. OPERATIONS

1.1 Quarterly Operations Overview

1.1a Trip and Revenue Statistics for the First Quarter of FY2018-19

1.1b Multi Agency Trip and Revenue Statistics

1.2 Operations Highlights

1.2.1 Customer Accounts and Transponder Distribution

1.2.2 Traffic Volumes

1.2.3 Incidents and Accidents

1.2.4 On-road Maintenance

1.2.5 Customer Service and Violation Processing

1.2.6 ETTM Status

1.2.7 Information Technology

2. FINANCIAL PERFORMANCE

3. OTHER ACTIVITIES AND ISSUES

3.1 Traffic Volume and Associated Potential Revenue

3.2 Active Accounts and Transponders Assigned

91 EXPRESS LANES QUARTERLY STATUS REPORT

FIRST QUARTER - OCTA FISCAL YEAR 2018-19

July 1 through September 30, 2018

1. OPERATIONS

1.1 Quarterly Operations Overview

Total traffic volume on the 91 Express Lanes for the first quarter of Fiscal Year 2018-19 was 4,467,727; representing a daily average of 48,562. This is an increase of 1.3% in total traffic volume from the previous quarter's total of 4,408,575. Potential toll revenue for the first quarter is \$13,172,688; an increase of 1.7% from the previous quarter's total of \$12,947,640. Traffic volume for the first quarter of FY 2018-19 was up 7.7% compared to the first quarter of FY 2017-18. Potential revenue for the same period was 7.0% above that of FY 2017-18. Carpool percentage for the first quarter was 26.6%, compared to 25.9% in the previous quarter. The first quarter traffic and revenue data compared to Stantec projections are summarized below.

Please note that the trip and revenue statistics table 1.1a represents all trips taken on the OCTA portion of the 91 Express Lanes and associated potential revenue. The Multi Agency Trip and Revenue statistics table 1.1b represents all trips taken on the 91 Express Lanes and associated revenue by Agency segments.

1.1a Trip and Revenue Statistics for the First Quarter of FY 2018-19

(FY2016-17 and FY2017-18 data is for July 1 through September 30, 2018)

Trips	FY 2018-19 1st Qtr	Stantec 1st Qtr Projected	# Variance	% Variance	FY 2017-18 1st Qtr	Yr-to-Yr % Variance

McKinley	1,143,437	747,215	65%	\$ 3,665,596

1.2 Operations Highlights

1.2.1 Customer Accounts and Transponder Distribution

During the first quarter of FY2018-19, the 91 Express Lanes opened a daily average of 53 new accounts per 7-day week. Total active customer accounts at the end of the first quarter numbered 143,301 with 218,136 transponders assigned. As of the end of the first quarter, full-toll paying accounts made up approximately 92% of all active accounts. Full-toll paying accounts include all accounts except discount-toll accounts (3+Carpool, zero emission vehicles, disabled person, disabled veteran, and motorcycle) and non-toll accounts (Caltrans, CHP).

1.2.2 Traffic Volumes

Combined Facility (SR91 general-purpose lanes plus OCTA 91 Express Lanes) global demand data is compiled at the mid-point of the OCTA Express Lanes between Imperial Hwy and Weir Canyon using Caltrans' loops; therefore, traffic volumes are only a representation of throughput in the 91 Corridor and may differ from traffic volumes obtained through OCTA's TollPlus system.

During the first quarter, weekday peak-hour global demand averaged 94,096 vehicles per weekday (excluding holidays). During peak traffic hours the OCTA 91 Express Lanes captured 38% of the eastbound evening commuter traffic and 21% of the westbound morning commuter traffic, with overall capture rate of 29%.

1.2.3 Incidents and Accidents

OCTA Customer Assistance Specialists responded to an average of 4 calls per day during the first quarter. The majority of these calls continue to be debris removal and assisting stalled vehicles.

There were 38 accidents reported during the first quarter; of the 38 accidents reported, 23 originated in the OCTA 91 Express Lanes and 15 originated in the general purpose lanes.

1.2.5 Customer Service and Violation Processing- REDACTED

Activity	Response	Performance Standard
Call Wait Times		
Abandon Rate		
Total Calls		
Calls Handled by Customer Service Reps		
Calls Handled by IVR (automated system)		
Transponder Distribution		
Processing Response Time		

During the fourth quarter, Violation Processing processed 151,145 OCTA transactions (vehicles without transponder-reads or valid accounts). These violations are pursued in accordance with state toll-evasion enforcement procedures and OCTA policy.

First-quarter and year-to-date collection efforts are summarized in the following table:

COLLECTION EFFORTS	Q1		FY 2018-19 To-Date	
	Records	Recovered	Records	Recovered
COFIROUTE RECOVERED				
Customer Violations				
Non-customer Violations				
Cofiroute Collection Totals:				
COLLECTIONS AGENCY RECOVERED

TOTAL COLLECTION:				

*Note: Data is based on activity quarter when collected. Additional data may be received after the date of this report.

1.2.6 ETTM

Cofiroute USA completed maintenance on the ETTM equipment at lane level. Coordinated efforts were made with vendors to perform maintenance on generators, A/C units, and UPS units. Damaged cameras were replaced and sent out for repairs. Quarterly Vault inspections were completed. Various OCTA equipment was bench tested to insure proper functionality before installation in the field. Failed Equipment was replaced with spare units in the lanes and sent to vendors for replacement. Failed sign equipment was replaced with vendor provided spares. Crosstown re-terminated the connection to the OCTA 55NB info sign switch.

1.2.7 Information Technology

During the first quarter, routine IT operations including hardware maintenance, security patches, and updates were performed on schedule. Migration from WhatsUp Gold to Solarwinds has been completed for system monitoring as well. New Virtual Machine group was installed and configured on Nimble. All NetApp VMs were successfully migrated to the new Nimble VM farm. Quarterly and monthly system checks were also completed on schedule.

On July 24, 2018, in the late evening, the Barracuda Web Filter became unresponsive and required a power cycle to regain functionality.

2. FINANCIAL PERFORMANCE

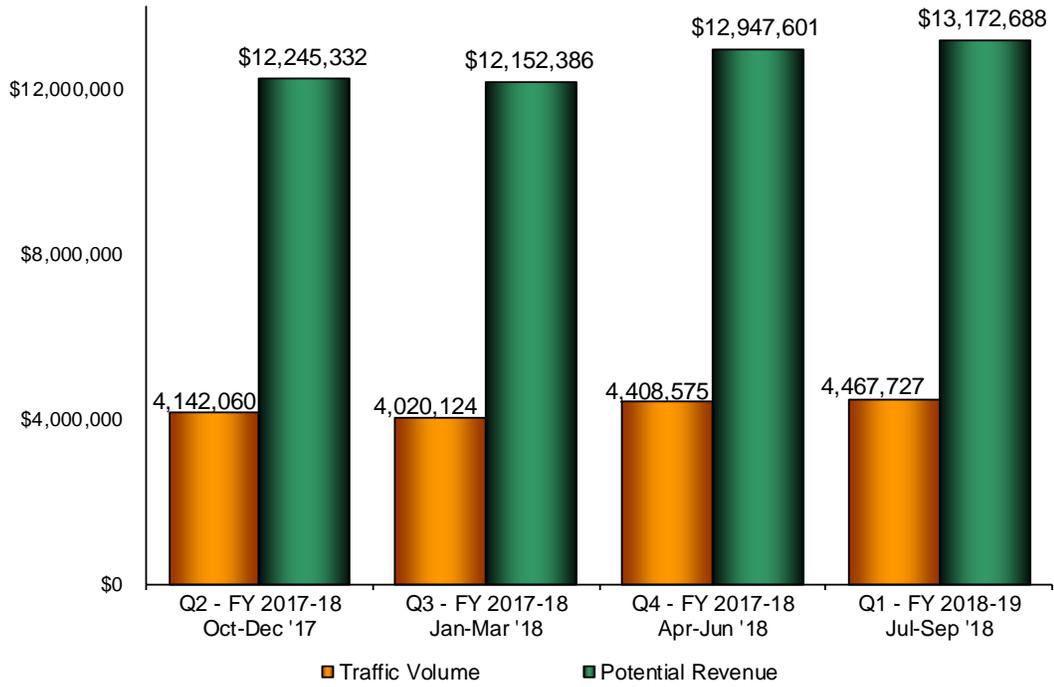

Traffic and revenue statistics for the first quarter of FY 2018-19 are detailed in Section 1.1 of this report. OCTA prepares the consolidated financials for the 91 Express Lanes. On a monthly basis, Cofiroute USA provides OCTA with financial data regarding certain revenue and expenditure categories and line items under Cofiroute USA control.

Cofiroute USA continues to provide OCTA with the required financial information on or before the required date each month.

OCTA WEEKDAY PEAK VOLUMES FOR DETERMINING TOLL ADJUSTMENTS

Week Ending January 12, 2019
OCTA FY 2018-19 - Week 28

- CR = Congestion-relief Adjustment in place - 6-month freeze on any increase
- COLA = Cost of Living Adjustment implemented July 1 each FY. No freeze on future adjustments.
- Week containing a Holiday toll adjustment
- Week containing a traffic anomaly, major incident or accident
- 12-week period selected for Congestion-relief Adjustment at beginning of next Quarter
- Most recent 12-consecutive-week period (excluding weeks containing Holidays or Traffic Anomalies)

- Traffic volume > 3,128 is flagged for review. When flagged hours occur 6 or more times during the most recent 12-week period and the average flagged-volume is > 3,128, the toll for that day and time will be increased as follows
- to or < 2,720 previously adjusted hour flagged for possible .50¢ toll reduction
 - 2,721 through 3,127 not flagged for adjustment
 - to or > 3,128 flag for qualifying hours for possible toll increase
 - 3,200 - 3,299 Eligible for .75¢ increase
 - to or > 3,300 Eligible for \$1.00 increase

- FY 2018-19 Congestion-relief Toll Adjustments
- July 1, 2018 Hours received a COLA adjustment for this Quarter
 - October 1, 2018 5 Hours received adjustments for this Quarter
 - January 1, 2019 4 Hours received adjustments for this Quarter
 - April 1, 2019

Attachment D: Sample KPI Calculations

Table D-1: Sample BOS Performance Measure Scenario: KPI 1

Scenario	The BOS is not available for CSRs to access accounts when the call center is open for a total of three (3) hours in a month.
----------	--

Downtime Hours (Priority 1 event)	3
-----------------------------------	---

Total Penalty	\$2,500
---------------	----------------

		KPI 1
	Days	30
	Hours	24
	Minutes	60
	Total Minutes	43200
	Availability %	99.80%
	Total Available Minutes	43113.6
	Allowable Downtime Minutes	86.4
	Downtime Minutes	180
	Actual Availability %	99.58%
	Penalty Percentage	1.00%
	Monthly Invoice Amt	\$250,000
	Total Penalty	\$2,500

Table D-2: Sample BOS Performance Measure Scenario: KPI 3 and 4

Scenario	System update causes error with ETTM System-BOS interface that interrupts exchange of data and sending of scheduled files to the OCTA ETTM System and acknowledgements of files sent from the ETTM System.	
Number of Data/File Exchange Errors (ETTM)	10	
Number of Acknowledgement Errors (ETTM)	5	
Combined / Stacked Penalty	\$3,750	
	KPI 3	KPI 4
Total Errors	10	5
Penalty per Increment	\$250	\$250
Penalty	\$2,500	\$1,250

Table D-3: Sample Performance Measure Scenario: KPI 7

Scenario	On two separate occasions, BOS Software jobs are completed after the expected time. Jobs Process Event #1 is completed 90 minutes after the expected time and Jobs Process Event #2 is completed 45 minutes after the expected time.
----------	--

Number of Job Process events	2
Job Process Event #1 Delay (minutes)	90
Job Process Event #2 Delay (minutes)	45

Combined / Stacked Penalty	\$600
----------------------------	--------------

KPI 7	
Job Process Event #1 Penalty	\$250
Job Process Event #2 Penalty	\$250
Penalized Job Process Event #1 hours	1
Job Process Event #1 Delay Penalty	\$100
Penalized Job Process Event #2 hours	-
Job Process Event #2 Delay Penalty	\$0
Total Penalty	\$600

Table D-4: Sample BOS Performance Measure Scenario: KPI 9 and 10

Scenario	Customer contact information is unavailable for seven (7) Calendar Days which stops all customer correspondence (email, text, and USPS) until corrections are made to make contact information available.
----------	---

Number of Days without Notifications	7
--------------------------------------	---

Combined / Stacked Penalty	\$5,500
----------------------------	----------------

	KPI 9	KPI 10
Total Days without Notifications	7	7
Allowable delay without Penalty (hours)	0.25	NA
Allowable delay without Penalty (days)	NA	3
Penalty Increments (days)	7	4
Penalty per Increment (\$)	\$500	\$500
Penalty	\$3,500	\$2,000

Table D-5: Sample BOS Performance Measure Scenario: KPI 14 & 15

Scenario	Authority audit discovers two (2) instances where Contractor does not follow the Approved change management process and eight (8) BOS failures that were not accurately logged within PMMS.
----------	---

Number of Change Mgt Events	2
Number of BOS failures not logged	8

Combined / Stacked Penalty	\$12,000
----------------------------	-----------------

	KPI 14	KPI 15
Total Events	2	8
Penalty per Increment	\$5,000	\$250
Penalty	\$10,000	\$2,000

Table D-6: Sample BOS Performance Measure Scenario: KPI 16-19

Scenario	BOS failure occurs at noon. Contractor acknowledges failure at 3:00 PM, repairs Priority 1 failure at 5pm, Priority 2 failure at midnight, and Priority 3 failure seven (7) days following initial BOS failure.
----------	---

Acknowledgement Time (hours)	3
Time to Repair Priority 1 failure (hours)	5
Time to Repair Priority 2 failure (hours)	12
Time to Repair Priority 3 failure (days)	7

Combined / Stacked Penalty	\$3,500
----------------------------	----------------

EXHIBIT D: PRICE PROPOSAL AND INSTRUCTIONS

PRICE PROPOSAL

REQUEST FOR PROPOSALS (RFP) 0-2690

PLEASE REFER TO THE ATTACHED PRICING SHEETS AND INSTRUCTIONS FOR GUIDANCE ON COMPLETING THE PRICING SHEETS.

THE ACKNOWLEDGMENT BELOW MUST BE SIGNED AND SUBMITTED WITH BOTH THE TECHNICAL AND PRICE PROPOSALS.

-
1. I acknowledge receipt of RFP No. 0-2690 and Addenda No.(s) _____
 2. This offer shall remain firm for _____ days from the date of Proposal
(Minimum 210)

1. How to Complete the Pricing Sheets – General Instructions

Offerors shall complete the Price Proposal Forms in accordance with the following instructions:

1. Offerors shall submit their Price Proposals on the Price Proposal Forms included in this Exhibit D. Price Proposals shall be sealed and submitted separately from the Technical Proposal in the quantities and manner identified in Section 1 of the RFP.
2. The Price Proposal Forms shall constitute the full and complete Price Proposal for compensation for performance of the Contractor's Work. Offerors must complete the Price Proposal Forms in their entirety.
3. The Price Proposal includes summary sheets 1 - 6 and associated back-up sheets. The back-up sheets are labeled to identify the corresponding summary sheet; for example, Sheet 2-1 is a back-up sheet to Sheet 2. Back-up sheets are located immediately after their associated summary sheet. The sheets are as follows:
 - a. Project Cost Summary - Sheet 1
 - b. BOS Implementation Cost - Sheet 2 Series:
 - i. Sheet 2: Base Contract and Optional Items BOS Implementation Cost Summary
 - ii. Sheet 2-1: Back-up Base Contract and Optional Items BOS Implementation Cost Detail
 - iii. Sheet 2-2: Back-up BOS Implementation Cost Staff Rates and Hours
 - c. Base Contract and Optional Extensions BOS Administration, Maintenance and Support Services Cost - Sheet 3 Series:
 - i. Sheet 3: Base Contract and Optional Extensions, including Optional Items, BOS Administration, Maintenance and Support Services Cost Summary
 - ii. Sheet 3-1: Back-up Monthly Trip Fee Cost
 - iii. Sheet 3-1a: Back-up Monthly Trip Fee Year 1 Base Contract Monthly Direct Cost Detail
 - iv. Sheet 3-1b: Back-up Trip Fee Year 1 Base Contract Staff Rates and Hours
 - v. Sheet 3-2: Back-up Per Item Pricing
 - vi. Sheet 3-3: Back-up Annual ROV Lookup
 - d. Base Contract and Optional Extensions CSC Operations Cost - Sheet 4 Series:
 - i. Sheet 4: Base Contract and Optional Extensions CSC Operations Cost Summary
 - ii. Sheet 4-1: Back-up Base Contract and Optional Extensions CSC Operations Cost Monthly Variable Costs
 - iii. Sheet 4-2: Back-up CSC Operations Costs Year 1 Base Contract Monthly Schedule of Direct Cost

- iv. Sheet 4-3: Back-up CSC Operations Cost Year 1 Base Contract Staff Rates and Hours
 - e. Transition and Succession Cost Summary - Sheet 5 - Standalone Sheet-*no back-up*
 - f. Additional Services Rates Cost - Sheet 6 Series:
 - i. Sheet 6: Base Contract and Optional Extensions Additional Rate Services Cost Summary
 - ii. Sheet 6-1: Back-up Additional Services Rates
 - g. Base Contract and Optional Extensions Estimated Pass-Through Cost Summary - Sheet 7 - Standalone Sheet-*no back-up*
 - h. Milestone Payment Schedule - Sheet 8 - Standalone Sheet-*no back-up*
4. Offerors shall not fill in any grayed-out cells on the Price Proposal Forms, nor shall the Offeror make any other entry on or alteration to the Price Proposal Forms other than in accordance with these Price Proposal Instructions.
 5. The Authority may waive or correct any error appearing in the Offeror's completed Price Proposal Forms if the correct amount can be clearly ascertained from the information provided; however, the Authority is under no obligation to do so. The Authority reserves the right to reject Price Proposals that are not completed in accordance with the instructions set forth herein. In the event of an inconsistency between the amount stated in numbers and the amount stated in written words, the amount stated in written words will control. In the event of a mathematical miscalculation, the correct sum will control.
 6. All elements of the Price Proposal must be completed. If zero (0) quantities are included in the Proposal, do not enter anything and a zero (0) is assumed. In addition, all items identified by the Authority in the price sheets will be assumed to be included in the Offeror's submitted Price Proposal and shall be considered to be compliant to (e.g., inclusive of all Requirements) Exhibit B, Scope of Work and Requirements.
 7. The Price Proposal shall be inclusive of all costs, including (without limitation) all Contractor management, administrative and support labor costs, as well as all direct costs associated with BOS. The total price shall include (without limitation) all overhead, burden, profit, taxes, duties, fees, warranties, Equipment, supplies, Software, parts and materials, Contractor-acquired permits, licenses, and all other items necessary to meet the Contractor contractual requirements associated with the BOS and necessary to meet the all requirements of the Project as described in the RFP, including, but not limited to Exhibit B, Scope of Work and Requirements.
 8. All labor rates provided are to include overhead, burden and profit ("Loaded Labor Rate").
 9. No price escalation will be allowed above the costs provided on the Price Proposal Forms to complete the Work, except as specifically identified herein.
 10. The electronic copies of the Price Proposal Form are password protected. Only those cells in which Offerors may enter data are unlocked for Offerors to enter data. Offerors shall not unlock or otherwise alter the spreadsheets.
 11. On most sheets, there are formulas that are automatically calculated based on data entered from elsewhere in the sheet or work book. Font and background colors are used to differentiate different types of input/cells as follows:

- Black font – Indicates the cell cannot be altered by Offeror.
 - Light red background with red font – Indicates the Offeror must enter data for all non-zero data. All such cells must be completed accordingly.
 - Light yellow background – Indicates optional text input allowed, if Offeror needs to provide additional detail.
 - Light yellow background with red font – Indicates Offeror must enter data for any applicable item.
 - Light green background – Indicates that data has been entered into the cell by the Offeror. Light red and light yellow background will change to light green when any non-zero data is entered. The background for any cells where the Offeror enters zero (0) will not change colors in this manner.
 - Grayed-out cells – Offerors shall not fill in or alter any grayed-out cells under any circumstances.
12. For the purposes of determining the amount of the performance and payment bonds, Offeror should do the following:
- Implementation Phase: Use the BOS Implementation Costs shown on Sheet 1 Project Cost Summary (Cell C5).
 - Operations and Maintenance Phase: A table has been provided on Sheet 4 that automatically calculates the amounts to be bonded for each year based on Offeror's Price Proposal. The Projected Bonds Amounts presented include the value of both Operations and Maintenance.
 - Note that the bonded amount shall exclude the estimated value of pass-through costs which should not be included in the bonded amount.
13. While the Authority has made every effort to ensure the Price Proposal Forms contain accurate formulas and calculation, Offerors are required to independently verify that formulas and calculations are being performed correctly.
14. An officer of the Offeror who is authorized to bind the Offeror to the Contract or an individual otherwise authorized in writing by an officer of the Offeror must sign; date; enter the authorized officer's name, title, address and phone number; and enter the price written out in words for Sheet 1 Project Cost Summary in the appropriate place as identified.

2. How to Complete Each Pricing Sheet – Detailed Instructions

2.1. Project Summary – Sheet 1

The Offeror's price for the Total Base Contract and Optional Extensions Project Costs shall be the aggregate of all costs (excluding pass-through costs) included in Project Summary Sheet 1. Sheet 1 Project Summary will automatically summarize the costs and pricing detailed in Sheet 2 BOS Implementation Cost Summary, Sheet 3 Base Contract and Optional Extensions BOS Administration, Maintenance and Support Services Cost Summary Sheet 4 Base Contract and Optional Extensions CSC Operations Cost Summary, Sheet 5 End of Contract Succession and Transition Cost Summary, Sheet 6 Base Contract and Optional Extensions

Additional Rate Services Cost Summary, and Sheet 7 Base Contract and Optional Extensions Estimated Pass-Through Cost Summary.

Estimated Pass-Through Costs presented on Sheet 1 are provided for Authority's budgeting purposes only and do not represent actual costs to be invoiced by the Contractor.

2.2. BOS Implementation Cost Summary - Sheets 2, 2-1 and 2-2

The Offeror's total price for the BOS Implementation Cost Summary shall be the aggregate of all costs included in Sheet 2 BOS Implementation Cost Summary. Sheet 2 covers all costs associated with the implementation of the BOS.

To complete Sheets 2, 2-1 and 2-2 do the following:

1. Begin with Sheet 2-1. This sheet provides the back-up Base Contract, including Optional Items, BOS Implementation Cost detail. In the description of items columns (A/B), a number of pre-populated cost categories are included. The Offeror should enter additional detail in the rows under each cost category, using as many rows as needed. If there is a category that is not pre-populated enter that category under the "Other" category. Starting in column (C), enter the number of units or months for each Implementation price component (e.g., use "4" to represent four units of an item or "1" to represent a lump sum). In column (D) enter the unit cost. Total unit costs will be calculated automatically in column (E). In column (F), enter the labor costs associated with each of the price components. The costs for each sub-component (the sum of columns (E) and (F)) will then automatically be calculated in column (G) and the sum of all lines for each category will automatically be sub-totaled. A total for the sheet will be calculated at the bottom of the sheet.
2. Next, move down sheet 2-1 and complete the same information for the Optional Items categories. The costs for each sub-component (the sum of columns (E) and (F)) will then automatically be calculated in column (G) and the sum of all lines for each category will automatically be sub-totaled.
3. Sheet 2 is automatically populated from Sheet 2-1.
4. Move to Sheet 2-2. This sheet provides the back-up BOS Implementation Costs for staffing, including rates and hours. Enter names for each of the positions at the top of the list (highlighted in light red) identified as Key Team Personnel position on the project. Next, enter specific loaded labor rate for the position, including burden and profit, in the loaded labor rate column (D) and their number of hours in column (E).
5. Next, move down sheet 2-2 and complete the same information for positions that are pre-populated by position type in column C. Column B is greyed out and staff names are not required for these additional positions. Additional space below is provided for Offerors to enter position types if they are not covered under the pre-populated categories above.
6. The total loaded labor dollars will be automatically calculated in column (F) for each staff person and labor category and a grand total will be calculated. *This labor dollar grand total must match the total labor dollars total on Sheet 2-1.* A labor check cell is provided on sheet 2-1 to assist Offerors with verifying that the two (2) labor totals are equal.

2.3. Base Contract and Optional Extensions, including Optional Items BOS Administration, Maintenance and Support Services Cost Summary - Sheets 3, 3-1, 3-1a, 3-1b, 3-2 and 3-3

The Offeror's total price for Base Contract and Optional Extensions BOS Administration, Maintenance and Support Services Cost shall be the aggregate of all costs included in Sheet 3.

To complete Sheets 3, 3-1, 3-1a, 3-1b, 3-2, and 3-3 do the following:

1. Begin with Sheet 3-1. In the Monthly Trip Fee Cost (Based on Assumed Volumes) worksheet for the Base Contract and Optional Extensions, including Optional Items.
 - a. The Contractor shall be paid a monthly fixed fee based on the actual total volume of trips processed for the month. Only trips generated on the 405 Express Lanes and provided to the BOS by the OCTA I-405 ETTM System Contractor shall be used in calculating the monthly fixed fee.
 - b. Enter trip "from/to" values for three (3) tiers of volumes (Level 1 through 3) that represent Offeror's volume pricing break points associated with Total Trips Processed. The tiers cover an overall range of up to a maximum number of Total Trips per month.
 - c. Next, enter the lump sum monthly fee associated with each of the three (3) levels for the Base Contract (Maintenance Years 1-6) and Optional Extensions (Maintenance Years 7-11). The fee amounts entered represent the monthly payment that the Offeror will receive if the actual total volume of trips falls within that tier level. Fees are not cumulative in that the Contractor will be only paid based on which level the Total Trips Processed fall into.
 - d. Next, enter the lump sum monthly fee associated with each of the two (2) Optional Items for the Base Contract (Maintenance Years 1-6) and Optional Extensions (Maintenance Years 7-11). The fee amounts entered represent the monthly incremental increase that the Offeror will receive if the Optional Item is selected.
 - e. Moving down the sheet note that the next two tables, Monthly Assumed Trip Volumes for Evaluation Purposes and Monthly Trip Fee Cost Based on Assumed Trip Volumes for Evaluation Purposes, do not require any entries by the Offerors. This sheet applies Offerors' volume pricing to assumed monthly volumes of Total Trips Processed established by the Authority for evaluation purposes only. There are no guaranteed trip volumes for any given year or month.
 - f. Sheet 3 is automatically populated from Sheet 3-1.
2. Move to Sheet 3-1a. This sheet provides back-up information on the breakdown of the monthly fee-based Maintenance costs entered on Sheet 3-1, based on the assumed trip volumes shown in Sheet 3-1. Costs shall be provided for Year 1 only. Do not include peripheral costs or any facility costs associated with CSC Operations cost which are to be included in Sheet 4. In the description of items column (A), a number of pre-populated cost categories and sub-categories are included. The Offeror may enter additional detail in the rows under each cost category, using as many rows as needed. Starting in column (B), enter the number of units or months for each price component (e.g., use "4" to represent four units of an item or "1" to represent a lump sum). The costs for each sub-component will then automatically be calculated in column (D) and the sum of all lines for each component will automatically be sub-totaled. A total for the sheet will be calculated at the bottom of the sheet.

3. Move to Sheet 3-1b. This sheet provides the trip fee back-up Year 1 Base Contract Maintenance Cost for staffing rates and hours. Enter names for each of the positions at the top of the list identified as Key Team Personnel positions on the project. Then enter specific loaded labor rate for the position, including burden and profit, in the loaded labor rate column (D) and their number of hours in column (E).
4. Next, move down sheet 3-1b and complete the same information for positions that are pre-populated by position type in column C. Column B is greyed out and staff names are not required for these additional positions. Additional space below is provided for Offerors to enter position types if they are not covered under the pre-populated position categories above.
5. The total monthly labor cost (Sheet 3-1b total divided by 12) plus the total monthly direct cost (Sheet 3-1a) will be automatically calculated and will populate the Year 1 Monthly Cost Check cell on Sheet 3-1. The monthly grand total must match the total direct cost and labor dollars total on Sheet 3-1. A cost check cell is provided on the bottom of the sheet to assist Offerors with verifying that the two (2) totals are equal.
6. Move to Sheet 3-2. In the Printing and Handling Notifications Section, the Offeror shall enter the per piece costs for each of the types of printing and handling listed for the Base Contract and Optional Extension period. Pricing shall include all costs for delivery of the mail to the post office, all presort costs, NCOA related costs, all commercial permits, inserting, stuffing, assembling the mailing, etc. The costs entered will be multiplied by the annual volumes which have been provided by the Authority for evaluation purposes only. There are no guaranteed per item volumes for any given year or month.
7. Total Annual Per Item Pricing will be calculated automatically at the bottom of the sheet. Sheet 3 is automatically populated from Sheet 3-2.
8. Move to Sheet 3-3. This sheet provides the Annual ROV Lookup (Blended Rate Per Successful ROV Lookup, Based on Assumed Volumes) evaluation cost. A Successful ROV lookup is defined as receiving an address capable of receiving USPS mail. The Offeror shall provide the blended rate unit price for Successful ROV Lookups for each year. The Contractor shall be paid for Successful ROV Lookups only. The blended rate shall take into account that the Contractor shall not be reimbursed for the cost of lookups for any jurisdiction where a no-cost lookup is provided for via an agreement between the Authority and the jurisdiction (for example, California). The volumes provided are for budgeting and price evaluation purposes only and are not guaranteed. The blended rate provided shall be fixed, and the rate is not subject to volume adjustments.
9. Total Annual Evaluation Cost will be automatically calculated. Sheet 3 is automatically populated from Sheet 3-3

2.4. Base Contract and Optional Extensions CSC Operations Cost Summary - Sheets 4, 4-1, 4-2, and 4-3

The Offeror's total price for Base Contract and Optional Extensions CSC Operations Cost shall be the aggregate of all costs included in Sheet 4.

Offerors shall input per-item unit costs for each of the operations cost categories as follows:

- Per Active Account per month – Includes all Active Accounts with at least one financial transaction within the last six months. For example, research by the CSR or the opening or resolution of a Case do not qualify an account as Active.

- For all account correspondence, Notices of Toll Evasion Violations, Initial CSC Operations Collections Attempts, and Invoices (Optional Item), Offeror costs shall exclude postage and skip tracing fees, which would be paid for as pass-through costs (see Section 2.8). Offeror costs shall also exclude mail handling fees, which would be paid for as per-item costs (see Section 2.3).
 - Per Notice of Toll Evasion Violation mailed – Includes all Notice of Toll Evasion Violation generated and successfully mailed during the applicable month, regardless of whether or not a Notice of Delinquent Toll Evasion Violation is mailed. No additional CSC Operations payment will be made for Notices of Delinquent Toll Evasion Violation mailed.
 - Per Initial CSC Operations Collections Attempt (prior to a Collections Placement) – Per pre-Collections Placement and includes all Initial CSC Operations Collections Notices generated and successfully mailed and/or outbound calls placed (based on DMV and/or skip-trace information) during the applicable months and based on the Offeror’s approach described in the Contractor’s proposal.
 - Per Invoice mailed (Optional Item) – Includes all Invoices and Notices of Toll Evasion Violation generated and successfully mailed during the applicable month. The Offeror’s cost per Invoice shall be the incremental cost (increase, decrease, or net zero change) to manage the mailing of Invoices as part of the Violation Notice process.
- Per Hearing – Includes the cost of providing an Administrative Hearing Officer for each Administrative Hearing conducted or not cancelled by the prior Business Day.

Offerors should apply pricing in a manner that is reflective of the Offeror’s actual costs related to that cost category. The Authority does not plan to invoice; however, costs will be captured for a possible future change in toll policy.

To complete Sheets 4, 4-1, 4-2, and 4-3 do the following:

1. Begin with Sheet 4-1. The sheet contains four (4) Monthly Variable Fees types and levels for each year for Active Accounts, Notices of Toll Evasion Violation, Initial Collections Notices, and Invoices (Optional Item). The cells for category type and the monthly evaluation number of units (for evaluation purposes) for each category have already been populated by the Authority and should not be altered or deleted. The Authority does not guarantee that the evaluation quantities shown will be the actual quantities that occur during the Operations Phase.
2. In columns (D) and (E) provide proposed minimum and maximum volumes for each tier for each of the three categories. The Contractor will be compensated for each category based on the actual volumes experienced during the month and the levels in which those volumes fall. Note that the Level 1 volume begins with 1 transaction already entered in for each of the categories and a maximum value for Level 3 is also provided.
3. Next, enter the proposed unit cost for each category type and level for each year. Resulting Monthly Fees are *cumulative* in that the Contractor shall be paid for the volumes that fall within each of the monthly categories at the unit prices proposed for that level. For example, if the total volumes are at or below the Level 1 maximum established by the Contractor, the Contractor shall only be paid based on Level 1 pricing. Alternatively, if total volumes fall within the Level 3 range, the Contractor shall be paid based on the actual volumes that fall within each of the three levels.
4. Moving down the sheet, enter the Per Hearing cost.

5. The Total Monthly Cost for each category/level where applicable, excluding Optional Items, will then automatically calculate based on evaluation volumes and the total monthly cost summary will be shown in the appropriate line item on Sheet 4.
6. Move to Sheet 4-2, which provides for other direct cost (non-labor) back-up information for Sheet 4-1. Sheet 4-2 provides the monthly back-up details *for Year 1 only*. There are three cost categories with cost items provided under each category. Enter monthly unit quantities and unit costs for the identified cost item. If the item is provided as a lump sum the quantity should be entered as 1. Space is also provided for the Offeror to enter additional cost items. Total monthly unit costs and total direct costs for each sub-category will then automatically calculate and summarized.
7. Sheet 4-3 provides labor back-up information for Sheet 4-1 *for Year 1 only*. Enter names for each of the positions at the top of the list identified as Key Team Personnel positions on the project. Then enter specific loaded labor rate for the position, including burden and profit, in the loaded labor rate column (D) and their number of hours in column (E).
8. Next, move down sheet 4-3 and complete the same information for positions that are pre-populated by position type in column C. Column B is greyed out and staff names are not required for these additional positions. Additional space below is provided for Offerors to enter position types if they are not covered under the pre-populated position categories above.
9. The total labor dollars will be calculated and shown under column (F) for each staff person and labor category and a grand total will be calculated.

NOTE: The total amounts from Sheet 4-2 and Sheet 4-3 (annual cost divided by 12 months) shall equal Sheet 4-1 Sub-total for Year 1 Base Contract Monthly Variable CSC Operations Cost. A Year 1 monthly cost check cell is provided on Sheet 4-1 to assist Offerors with verifying that the two totals are equal.

10. The annual costs for each price element on Sheet 4 will automatically be calculated.
11. The Projected Bond Amounts table included on Sheet 4 is provided for Offeror to determine the O&M performance bond value that will be the basis for costs to be entered on Sheet 3-1a and Sheet 4-2. Offeror should allocate the respective proportional cost of the O&M bond to Maintenance on Sheet 3-1a and Operations on Sheet 4-2.

2.5. Transition and Succession Cost Summary – Sheet 5

The Offeror's total price for Transition and Succession Costs shall be the aggregate of all costs included in Sheet 5. Sheet 5 covers all costs to be paid by the Authority for end of contract Transition and Succession requirements identified in Exhibit B Scope of Work and Requirements.

To complete Sheet 5 do the following:

1. Provide a cost for each End of Contract Succession and Transition component identified in column (B). The Offeror may add items below the components listed as needed, including as much detail as space allows. Starting in column (C), enter the number of units for each component (e.g., use "4" to represent 4 units of an item or "1" to represent a lump sum). In column (D) enter the unit cost. Include all non-labor costs required for each price component. Total unit costs will be calculated automatically in column (E).
2. In column (F), enter the labor hours associated with each of the Transition required positions. In column (G) enter the specific Operations and Maintenance year 6 loaded labor rate, including burden and profit. Total labor costs will be calculated automatically in column (H). The costs for

each component (the sum of columns (E) and (H)) will then automatically be calculated in each line in column (I), with the sum of all lines for this sheet automatically calculated and totaled in the bottom row. If Transition occurs after Operations and Maintenance year 5 (i.e., during Operations and Maintenance option term years) adjustment to the price shall be made in accordance with Section 2.9.

3. The total costs will automatically be shown in the appropriate line item on Sheet 1 Project Summary.

2.6. Additional Services Rates - Sheets 6 and 6-1

The Offeror's total price for Base Contract (Operations and Maintenance Years 1-6) and Optional Extensions (Operations and Maintenance Years 7-11) for Additional Services shall be the aggregate of all costs included in Sheet 6.

To complete Sheets 6 and 6-1 do the following:

1. The Offeror's shall provide 2022 fully loaded hourly labor rates, including burden and profit, for the staff shown in Sheet 6-1. All changes to the Contract involving labor shall use the hourly labor rates provided by the Offeror in this table for the Implementation Phase and for each year of Operations and Maintenance (Years 1-11).
2. For changes during the Implementation Phase the labor rates shown for 2022 shall apply with no escalation regardless of the point in Implementation.
3. For changes in the Operations and Maintenance Phase the labor rates shown will be escalated from 2022 using the CPI as further described in Section 2.9.
4. Hours are entered on Sheet 6-1 for evaluation purposes only. These are estimates and are not a guarantee of Work.
5. An annual labor rate escalation percentage of 3% has been included for evaluation purposes only for Operations and Maintenance Years 1-11. Actual hourly labor rates beginning in Year 1 of Operations and Maintenance shall be adjusted based on changes to the CPI as provided in Section 2.9 below.
6. The total loaded labor evaluation dollars will be automatically calculated for each staff position and labor category and an annual total will be calculated.
7. Sheet 6 is automatically populated from Sheet 6-1. The annual cost for Total Additional Services will then automatically be calculated.

2.7. Pass-Through Costs - Sheet 7

The Contractor will be allowed to expense some cost items as pass-through costs. The Authority have included annual estimated pass-through costs in Sheet 7, Base Contract and Optional Extensions Estimated Pass-Through and Cost Summary for all Offerors. These estimates do not imply actual costs to be invoiced by the Contractor, but rather are for the Authority's budgeting purposes only. The pass-through costs shall be paid based on actual costs incurred by the Contractor and pre-Approved by the Authority and invoiced without markup. The allowable pass-through costs are detailed in the Scope of Services.

2.8. Milestone Payment Schedule – Sheet 8

The Milestone Payment Schedule sheet applies the total proposed BOS Implementation Phase cost to the actual payment milestones. The sheet takes the Offeror's BOS Implementation price shown on Sheet 2 and multiplies it by the percentage associated with each payment milestone. The result is a dollar amount to be paid for each milestone based on the actual Proposal.

2.9. CPI Actual Cost Adjustments

Prices for Transition and Succession Cost (Sheet 5) described above in Section 2.5, and Additional Services Rates (Sheet 6-1) described above in Section 2.6, may be adjusted up or down from the Proposal pricing using the following Bureau of Labor Statistics' Employment Cost (CPI) index:

CPI: CUUR0400SA0 Consumer Price Index - All Urban Consumers; West Urban All Items

NOTE: The above index names and numbers were obtained from the Bureau of Labor Statistics (BLS) and were current as of the date this RFP was written. In the event that the BLS updates an index name or number, the Authority shall consult the BLS web site to determine the new name and number of the index. More information about these indices can be found on the U.S. Bureau of Labor's website: <http://www.bls.gov/ppi/> and <http://www.bls.gov/ncs/ect>.

Adjustments will be made as follows:

1. For the Additional Services (Sheet 6-1), the annual adjustment shall be the change in the index for the latest previous 12-month period available at the time of the anniversary date of Operations and Maintenance, up to a maximum change of three (3%) percent, subject to the following:
 - The first applicable year of cost adjustment shall be year 1 of Operations and Maintenance. Cost adjustment shall be made based on the index change that occurs from the month/year of NTP to the commencement of year 1 of Operations and Maintenance up to a maximum change of three (3%) percent, regardless of the duration of time between NTP and the start of Operations and Maintenance.
 - Annual adjustment to rates subsequent to year 1 of Operations and Maintenance shall be made on the anniversary date of the Operations and Maintenance Phase, based for the previous 12-month period available.
2. For end of Contract Transition and Succession (Sheet 5), CPI applies only if End of Contract occurs after year 6 of Operations and Maintenance (i.e., during the Operations and Maintenance optional extensions period). The basis for the adjustment shall be the change in the CPI for the latest previous 12-month period available at the time of the anniversary date of Operations and Maintenance from year 6 (e.g., using year 6 CPI as the base) to the year in which the Contract Transition occurs, up to a maximum change of three (3%) percent for each year.
3. The following is an example of how the index change will be measured (as provided by the Bureau of Labor Statistics):

Table 1: CPI Change Calculation Example*

	CPI
Current Period Index	267.370
Previous Period Index	260.994
Index Point Change*	6.376
Divided by Previous Period Index	6.376/260.994
CPI Percent Change*	2.44%*
<i>*Note-capped at 3% per year</i>

PROPOSED AGREEMENT NO. C-0-2690

BETWEEN

ORANGE COUNTY TRANSPORTATION AUTHORITY

AND

THIS AGREEMENT is effective as of this _____ day of _____, 2021 ("Effective Date"), by and between the Orange County Transportation Authority, 550 South Main Street, P.O. Box 14184, Orange, CA 92863-1584, a public entity (hereinafter referred to as "AUTHORITY"), _____, _____, _____ (hereinafter referred to as "CONTRACTOR") each individually known as "Party" and collectively known as the "Parties".

WITNESSETH:

WHEREAS, AUTHORITY requires assistance from CONTRACTOR to design, implement, install and maintain a Back Office System (BOS) and to operate a Customer Service Center (CSC) for the planned 405 Express Lanes (the "Project"); and

WHEREAS, the Work necessary to implement the Project cannot be performed by the regular employees of AUTHORITY; and

WHEREAS, CONTRACTOR has represented that it has the requisite personnel and experience, and is capable of performing the Work; and

WHEREAS, CONTRACTOR wishes to perform the Work; and

WHEREAS, AUTHORITY has entered into a cooperative agreement with the State of California, acting by and through its Department of Transportation ("Caltrans"), AUTHORITY AGREEMENT No. C-4-1847, for, among other things, the development of a new tolled express facility on Interstate 405 generally between State Route 73 and Interstate 605 ("405 Express Lanes"); and

WHEREAS, pursuant to Streets and Highways Code § 143, AUTHORITY has entered into a Toll Operating Agreement with Caltrans wherein AUTHORITY will, among other things, lease the 405 Express

/

1 Lanes for a term of 40 years and operate and maintain a toll collection system on the 405 Express Lanes;
2 and

3 **WHEREAS**, AUTHORITY has entered into a contract with OC 405 Partners, Joint Venture
4 ("Design-Build Contractor"), to design and construct the 405 Express Lanes pursuant to AUTHORITY
5 Contract No. C-5-3843 (the "Design-Build Contract"); and

6 **WHEREAS**, AUTHORITY has entered into a contract with Kapsch TrafficCom USA, Inc. for the
7 405 Express Lanes Electronic Toll and Traffic Management System; and

8 **WHEREAS**, AUTHORITY will enter into a procurement for a roadside service contractor for the
9 I-405; and

10 **WHEREAS**, The Parties intend for this AGREEMENT to be a comprehensive agreement
11 obligating CONTRACTOR to perform all Work, as more particularly described in the AGREEMENT and
12 all attached documents; and

13 **WHEREAS**, the AUTHORITY's Board of Directors authorized this AGREEMENT on_____.

14 **NOW, THEREFORE**, it is mutually und understood and agreed by AUTHORITY and
15 CONTRACTOR as follows:

16 **ARTICLE 1. COMPONENTS OF AGREEMENT/INTERPRETATION**

17 A. AGREEMENT: This AGREEMENT, including all attached documents, as defined in the
18 attached Exhibit A, entitled "Acronyms & Definitions", constitutes the complete and exclusive statement
19 of the terms and conditions of the agreement between AUTHORITY and CONTRACTOR for the Work
20 and supersedes all prior representations, understandings and communications. The invalidity in whole
21 or in part of any term or condition of this AGREEMENT shall not affect the validity of other terms or
22 conditions. Terms capitalized herein shall, unless otherwise defined herein, have the same meaning as
23 set forth in Exhibit A. Where this AGREEMENT uses the term "including" it shall mean including but not
24 limited to, unless otherwise specifically indicated.

25 B. AGREEMENT Interpretation: This AGREEMENT and each of the attached documents
26 are an essential part of the Parties' agreement and should be interpreted in a manner which harmonizes

1 their provisions. However, if an actual conflict exists, the following descending order of precedence shall
2 apply:

- 3 1. AGREEMENT amendments adopted in accordance with this AGREEMENT;
- 4 2. This AGREEMENT, including Exhibit A attached hereto;
- 5 3. Exhibits B-F attached hereto;
- 6 4. RFP 0-2690, which is incorporated herein by reference;
- 7 5. The CONTRACTOR Proposal dated XXX yy, 2021 which is incorporated herein
8 by reference; and
- 9 6. Other documents incorporated by reference under this AGREEMENT.

10 C. In the case of conflict, and notwithstanding the order of precedence, the most stringent
11 requirement as determined by the AUTHORITY shall govern, unless otherwise agreed-to in writing by
12 the AUTHORITY.

13 D. Performance by Parties: A Party's failure to insist in any one or more instances upon the
14 other Party's performance of any terms or conditions of this AGREEMENT shall not be construed as a
15 waiver or relinquishment of that Party's right to such performance by the defaulting Party or to future
16 performance of such terms or conditions and that Party's obligation in respect thereto shall continue in
17 full force and effect. Changes to any portion of this Agreement shall not be binding upon AUTHORITY
18 except when specifically confirmed in writing by an authorized representative of the AUTHORITY by way
19 of a written amendment to this Agreement and issue in accordance with the provisions of this Agreement

20 E. CONTRACTOR shall only commence work covered by an amendment after the
21 amendment is executed and notification to proceed has been provided by AUTHORITY.

22 **ARTICLE 2. AUTHORIZED DESIGNEES**

23 A. The Chief Executive Officer of AUTHORITY, or designee, shall have the authority to act
24 for and exercise any of the rights of AUTHORITY as set forth in this AGREEMENT.

25 B. In its letter of transmittal accompanying CONTRACTOR's Proposal, the CONTRACTOR
26 designated [name] _____ as an officer of the CONTRACTOR, who

1 shall be authorized to sign this AGREEMENT and any amendments to this AGREEMENT and to speak
2 for and make commitments on behalf of the CONTRACTOR.

3 **ARTICLE 3. SCOPE OF WORK AND REQUIREMENTS**

4 A. CONTRACTOR shall perform the Work in accordance with the attached Exhibit B, entitled
5 "Scope of Work and Requirements", in a manner satisfactory to AUTHORITY.

6 B. In performing this AGREEMENT, CONTRACTOR shall be responsible for developing,
7 operating, and maintaining a BOS that handles the funds of others, documents, and processes financial
8 transactions, and maintains the integrity of customer personal information and financial records. With
9 respect to its obligations under this paragraph B, the CONTRACTOR shall have a fiduciary duty to
10 AUTHORITY, its customers, and to the users of the BOS. The CONTRACTOR shall exercise its
11 responsibilities prudently and shall institute all appropriate mechanisms for the custody and administration
12 of funds and records.

13 C. CONTRACTOR shall provide all resources, personnel, Equipment, Software and supplies
14 necessary to perform the Work. The CONTRACTOR shall provide the Work in a competent and
15 professional manner, in conformance with the highest industry standards, to the satisfaction of
16 AUTHORITY. AUTHORITY shall be entitled to full and prompt cooperation by CONTRACTOR in all
17 aspects of the Work. The AUTHORITY shall have the right to inspect the performance of such Work at
18 any time, and CONTRACTOR shall fully and promptly cooperate with the AUTHORITY in the execution
19 of such inspections.

20 **ARTICLE 4. CONTRACTOR'S PERSONNEL**

21 A. Non-Key Personnel:

22 1. CONTRACTOR agrees that it will at all times employ, maintain and assign a
23 sufficient number of competent and qualified professionals and other personnel to perform the Work in a
24 timely manner.

25 /

26 /

1 2. CONTRACTOR warrants and represents that its staff personnel and
2 Subcontractors have the proper skill, training, background, knowledge, experience, rights, authorizations,
3 integrity, character, and licenses necessary to perform the Work in a competent and professional manner.

4 B. At the request of AUTHORITY, in its sole discretion, CONTRACTOR shall promptly
5 remove from assignment to the performance of Work pursuant to this AGREEMENT any employee,
6 Subcontractor, or any other person performing Work hereunder. AUTHORITY's request to remove an
7 employee or Subcontractor shall have no bearing on CONTRACTOR's decision to retain the employee
8 or Subcontractor for work outside of this AGREEMENT. AUTHORITY shall bear no responsibility for any
9 such decision by CONTRACTOR.

10 C. Key Team Personnel:

11 1. CONTRACTOR's Project Manager identified in the Proposal is a "Key Team
12 Personnel" and shall act as the primary point of contact in all matters on behalf of CONTRACTOR. The
13 Project Manager shall assign other individuals as contacts with regard to specific functional areas of the
14 Work, subject to the Approval of the AUTHORITY.

15 2. CONTRACTOR shall provide the personnel listed below, which are hereby
16 designated as Key Team Personnel under this AGREEMENT:

Name	Function

17 3. Exhibit B, Scope of Work and Requirements, identifies certain other job categories
18 as Key Team Personnel for the AGREEMENT. CONTRACTOR identified Key Team Personnel assigned
19 to this Project in its Proposal, who shall be Approved as part of the Project Management Plan.
20 CONTRACTOR acknowledges that the award of this AGREEMENT to CONTRACTOR was based in
21 significant part on the qualifications of such Key Team Personnel and CONTRACTOR's representation
22 that they will be made available to perform the Work to completion, which availability is a material term of
23 /

1 this AGREEMENT. Key Team Personnel shall be required to work in the position indicated in the
2 Proposal and in the Approved Project Management Plan.

3 4. No Key Team Personnel shall be removed or replaced by CONTRACTOR, or
4 have any significant change in function or any significant reduction in the level of commitment, without
5 the prior written consent of AUTHORITY. Should AUTHORITY determine during the Term of the
6 AGREEMENT that the list of Key Team Personnel does not include personnel essential to the successful
7 performance of the Work, the AUTHORITY may require the CONTRACTOR to add any existing job
8 category/function to such list.

9 5. If AUTHORITY becomes dissatisfied with the performance of any person
10 designated as Key Team Personnel, AUTHORITY shall notify CONTRACTOR in writing. Within fourteen
11 (14) Business Days of receipt of such Notice, the CONTRACTOR shall either propose a replacement
12 person for evaluation and Approval by AUTHORITY or present to AUTHORITY a thirty (30) Calendar
13 Day plan for correcting the incumbent's performance deficiencies. If AUTHORITY rejects the
14 replacement person for evaluation, then CONTRACTOR shall propose another replacement person
15 within fourteen (14) Business Days, which process shall be followed until CONTRACTOR proposes a
16 replacement person acceptable to AUTHORITY. If AUTHORITY rejects the plan of correction, or
17 Approves the plan of correction, but the incumbent's performance deficiencies are not corrected to
18 AUTHORITY's satisfaction within thirty (30) Calendar Days of AUTHORITY's Approval of the correction
19 plan, then the CONTRACTOR shall, propose to AUTHORITY a replacement person for evaluation and
20 Approval by AUTHORITY within the time and manner set forth above.

21 6. Should the services of any Key Team Personnel become no longer available to
22 CONTRACTOR, CONTRACTOR shall, within one (1) Business Day from the day CONTRACTOR
23 becomes aware that the Key Team Personnel is or will no longer be available, provide Notice to
24 AUTHORITY. The resume and qualifications of the proposed replacement shall be submitted to
25 AUTHORITY for Approval as soon as possible, but in no event later than fourteen (14) Business Days
26 after CONTRACTOR becomes aware that the Key Team Personnel is or will not be available.

1 AUTHORITY will respond to CONTRACTOR within seven (7) Business Days following receipt of these
2 qualifications concerning Approval of the replacement. As used in this paragraph, "no longer available
3 to CONTRACTOR" means that the Key Team Personnel is no longer employed by CONTRACTOR or is
4 otherwise physically unable to perform as required by this AGREEMENT for reasons such as health, for
5 a period of more than thirty (30) Calendar Days. In the event a Key Team Personnel member was
6 rendered physically unable to perform, but later is physically able to perform, CONTRACTOR shall notify
7 AUTHORITY and may return such Key Team Personnel to his or her position, subject to the
8 AUTHORITY's reasonable Approval. CONTRACTOR inability to provide a suitable replacement for a
9 period of more than thirty (30) Calendar Days whatever the reason, shall trigger the liquidated damages
10 for Unavailability set forth in Article 18.C.2 or 18.C.3, depending upon the position.

11 7. Reassignment by CONTRACTOR of a Key Team Personnel member without the
12 express Approval of AUTHORITY will automatically trigger liquidated damages for Unavailability set forth
13 in Article 18.C. 2 or 18.C.3, depending upon the position.

14 **ARTICLE 5. TERM OF AGREEMENT**

15 A. Initial Term: This AGREEMENT shall commence upon the Effective Date, and shall
16 continue in full force and effect for a period of up to nine (9) years through _____ ("Initial Term"),
17 unless earlier terminated or extended as provided in this AGREEMENT. The Initial Term is composed of
18 an Implementation Phase, and an Operations and Maintenance (O&M) Phase, beginning at Go-Live, of
19 six (6) years.

20 B. Extensions: AUTHORITY, at its sole discretion, may elect to extend the Initial Term of
21 this AGREEMENT up to an additional thirty-six months (36) months or any portion thereof ("Option Term
22 1"), and thereupon require CONTRACTOR to provide the Work and otherwise perform in accordance
23 with the Scope of Work and Requirements, and at the rates set forth in Exhibit D, entitled "CONTRACTOR
24 Price Proposal." AUTHORITY, at its sole discretion, may elect to extend the Initial Term, as extended by
25 Option Term 1, up to an additional twenty-four (24) months or any portion thereof ("Option Term 2"), and
26 thereupon require CONTRACTOR to continue to provide Work and otherwise perform in accordance with

1 the Scope of Work and Requirements and at the rates set forth in Exhibit D, CONTRACTOR Price
2 Proposal. The Initial Term and any extensions thereof shall be referred to as "Term" in this
3 AGREEMENT.

4 C. Extensions Not Constituting Waiver: AUTHORITY's election to extend the Initial Term
5 under Option Term 1 and/or Option Term 2, shall not diminish its right to terminate the AGREEMENT for
6 AUTHORITY's convenience or CONTRACTOR's default as provided elsewhere in this AGREEMENT.
7 The maximum Term of this AGREEMENT shall be thirteen (13) years from the Effective Date.

8 **ARTICLE 6. TIME AND SCHEDULE/COMPLETION DATES**

9 A. Schedule and Submittals:

10 1. CONTRACTOR's Submittal requirements and Submittal schedule shall be as set
11 out in CONTRACTOR's Approved Project Management Plan and CONTRACTOR's Approved Baseline
12 Implementation Schedule, in accordance with the Scope of Work and Requirements.

13 2. AUTHORITY's written Approval will be required for Submittals.

14 3. Within fifteen (15) Calendar Days from the Effective Date CONTRACTOR shall
15 submit a Baseline Implementation Schedule in a format acceptable to AUTHORITY for AUTHORITY's
16 review and Approval. The Preliminary Implementation Schedule at the time of the execution of the
17 AGREEMENT, included as Exhibit C, shall be the basis for the development of CONTRACTOR's
18 submitted Baseline Implementation Schedule. The Baseline Implementation Schedule shall propose
19 dates by which CONTRACTOR will (a) submit required permits, documents, applications, and design;
20 and (b) develop; deliver; install; test, and implement the required BOS, including all necessary
21 documents, Submittals, and Deliverables in support thereof. Sufficient information shall be shown on the
22 Baseline Implementation Schedule to enable proper control and monitoring of the tasks and subtasks in
23 the Scope of Work and Requirements.

24 4. Upon completion of the Baseline Implementation Schedule by the
25 CONTRACTOR to the satisfaction of AUTHORITY, the AUTHORITY will Approve the schedule, and it
26 will thereafter be deemed the Approved Baseline Implementation Schedule and will constitute the

1 schedule for the submittals set forth in paragraph 5 of this Article 6.

2 5. Progress of Work shall be measured against the Approved Baseline
3 Implementation Schedule and submitted to AUTHORITY monthly until the Project Implementation Phase
4 has been completed. Submission of monthly progress updates to the schedule shall not release or relieve
5 CONTRACTOR from full responsibility for completing the Work within the time set forth in the Approved
6 Baseline Implementation Schedule.

7 6. CONTRACTOR shall furnish sufficient resources to ensure the performance of
8 the Work in accordance with the Approved Baseline Implementation Schedule. If CONTRACTOR falls
9 behind in the performance of the Work as indicated in the Approved Baseline Implementation Schedule,
10 CONTRACTOR shall take such steps as may be necessary to improve its progress to ensure its
11 performance in accordance with the Approved Baseline Implementation Schedule. CONTRACTOR shall
12 manage the risks to the Approved Baseline Implementation Schedule to avoid any potential delays or
13 make every effort to work around any potential delays and mitigate the impact of delay.

14 7. CONTRACTOR shall be responsible for all delays in the Approved Baseline
15 Implementation Schedule, except delays in Approvals caused by Force Majeure events. However,
16 nothing in this section relieves CONTRACTOR of its responsibility to provide complete and accurate
17 Submittals and Deliverables that meet the requirements of the Scope of Work and Requirements.
18 Submittals rejected by AUTHORITY due to the CONTRACTOR's failure to meet the requirements of the
19 Submittal or Deliverable or to address the previous comments provided by AUTHORITY are not Force
20 Majeure events or otherwise excused events and CONTRACTOR shall be held responsible for all
21 associated delays.

22 8. If comments forms are established in the Project Management Plan to be used for
23 the resolution of questions and issues on a Submittal, the Submittal shall not be considered Approved
24 until all written comments are addressed to the satisfaction of the AUTHORITY. Such lack of Approval
25 shall be considered a rejection until such time as the comments are fully resolved.

26 /

1 B. Guaranteed Completion Dates:

2 In executing this AGREEMENT CONTRACTOR is guaranteeing that the BOS will be fully
3 operational by the following specified dates, "Guaranteed Completion Dates", subject to any extensions
4 thereof Approved by AUTHORITY in accordance with this AGREEMENT:

5 1. The BOS shall have achieved Commencement of Ramp-up/Customer Services
6 as determined by AUTHORITY, within thirty (30) Calendar Days of Notice to Proceed for Ramp-
7 up/Customer Services, with such Notice to Proceed provided by AUTHORITY no earlier than one
8 hundred twenty (120) days prior to Go-Live date Approved by the AUTHORITY.

9 2. The 405 Express Lanes BOS shall have achieved Readiness for Go-Live as
10 determined by AUTHORITY, within seven hundred thirty-eight (738) Calendar Days from the Effective
11 Date.

12 3. In addition to all other rights and remedies available to AUTHORITY, if
13 CONTRACTOR fails to meet a Guaranteed Completion Date, as such Guaranteed Completion Date may
14 be extended pursuant to this AGREEMENT, the CONTRACTOR shall be subject to liquidated damages
15 as specified in Article 18, Liquidated Damages.

16 C. Delays:

17 1. If at any time CONTRACTOR fails to complete any activity by the completion date
18 in the Approved Baseline Implementation Schedule, unless previously excused by AUTHORITY in
19 writing, CONTRACTOR will be required, within seven (7) Calendar Days of AUTHORITY's request, to
20 submit to AUTHORITY a statement as to how it plans to return to compliance, including a recovery
21 schedule if directed by AUTHORITY.

22 2. If CONTRACTOR fails or refuses to implement measures sufficient to bring its
23 Work back into conformity with the Approved Baseline Implementation Schedule, it shall be considered
24 an Event of Default and AUTHORITY may exercise all rights provided herein therefor, including permitting
25 CONTRACTOR to proceed under specified conditions required by AUTHORITY.

26 /

1 3. No AUTHORITY review or Approval of a schedule submitted by CONTRACTOR
2 shall release or relieve CONTRACTOR from full responsibility for the accurate, complete and timely
3 performance of the Work, including the accuracy and completeness of the schedules, or any other duty,
4 obligation or liability imposed on it by this AGREEMENT. AUTHORITY's Approval of a schedule shall
5 not constitute a representation by AUTHORITY that CONTRACTOR will be able to proceed or complete
6 the Work in accordance with the dates contained in said schedule.

7 **ARTICLE 7. START AND PHASES OF WORK**

8 A. Implementation Phase: The Implementation Phase shall commence upon the Effective
9 Date and shall continue until Final Acceptance. CONTRACTOR shall not begin performing Work until the
10 Effective Date and shall not be entitled to any compensation for any Work performed or costs incurred
11 prior to the Effective Date.

12 B. Conditions precedent to AUTHORITY executing the AGREEMENT are CONTRACTOR
13 furnishing the Form I, Performance Bond, Form J, Payment Bond, and applicable certificates of insurance
14 and endorsements thereof as required by this AGREEMENT. CONTRACTOR shall furnish said
15 documents within ten (10) Business Days after notification of award of this AGREEMENT from
16 AUTHORITY.

17 C. O&M Phase: The O&M Phase shall commence upon achieving commencement of Ramp-
18 up/Customer Services and shall continue through the end of the Term.

19 D. The AUTHORITY may change the Go-Live date shown in the Approved Baseline Project
20 Implementation Schedule by up to ninety (90) Calendar Days prior to, or ninety (90) Calendar Days after,
21 the date in the Approved Baseline Project Implementation Schedule with no impact to Contractor price or
22 performance and not subject to an equitable adjustment. The AUTHORITY shall give at least one hundred
23 twenty (120) Calendar Days' Notice of such change from the then current Approved Go-Live Date or the
24 new Go-Live date, whichever date is earlier. If such schedule change is made by the AUTHORITY, the
25 new Go-Live date shall become the Guaranteed Completion Date for Readiness for Go-Live in
26 accordance with the terms of Article 6. Any change to the Go-Live date made under this sub-paragraph

1 D will also apply to the Notice to Proceed for Ramp-up/Customer Services with an equal adjustment to
2 the Guaranteed Completion Date thereof. For example, if the Go-Live date is moved forward by thirty
3 (30) Calendar Days, the Notice to Proceed for Ramp-up/Customer Services will also be moved forward
4 by thirty (30) Calendar Days.

5 **ARTICLE 8. PAYMENT**

6 A. Payment of AUTHORITY Maximum Obligation: AUTHORITY shall pay to
7 CONTRACTOR up to its Maximum Obligation amount, for CONTRACTOR's full and complete
8 performance of its obligations under this AGREEMENT on a fixed and variable unit price basis in
9 accordance with the following provisions set forth in paragraphs B through M of this Article 8.

10 B. Payments for Implementation Phase: Payments to CONTRACTOR for the
11 Implementation Phase will be in the amounts and percentages as indicated in the CONTRACTOR Price
12 Proposal, and Exhibit E, Milestone Payment Schedule. Payments for BOS design, development,
13 integration and testing, installation and other Deliverables will be made using fixed prices for completed
14 and Approved Deliverables as provided in the Milestone Payment Schedule and the CONTRACTOR
15 Price Proposal.

16 C. Payments for Maintenance: Payments for Maintenance will be made on a monthly basis,
17 based on variable unit prices in accordance with the CONTRACTOR Price Proposal. Adjustments to
18 these payments may be made for CONTRACTOR performance which falls below required Performance
19 Measures as further set forth in the Scope of Work and Requirements.

20 D. Payments for Operations: Payments for Operations will be made on a monthly basis,
21 based on variable unit prices and Approved pass-through costs, in accordance with the CONTRACTOR
22 Price Proposal. Adjustments to these payments (excluding pass-through costs) may be made for
23 CONTRACTOR performance which falls below required Performance Measures as further set forth in
24 the Scope of Work and Requirements.

25 E. Full and Complete Compensation: All Work performed by CONTRACTOR in meeting the
26 requirements of the AGREEMENT shall be paid under one of the above payment methods, which shall

1 constitute full compensation for the Work, including but not limited to: (a) the cost of all insurance and
 2 bond premiums, home office, job site and other overhead, and profit relating to CONTRACTOR's
 3 performance of the Work; (b) the cost of performance of each and every portion of the Work (including all
 4 costs of all Work provided by Subcontractor(s) and third-party licenses and Software; (c) the cost of
 5 obtaining all governmental approvals; (d) all costs of compliance with and maintenance of such
 6 governmental approvals; (e) all risk of inflation, unless otherwise noted, currency risk, interest and other
 7 costs of funds associated with the payment terms for the Work as provided herein; and (f) payment of
 8 any taxes, duties, permits and other fees and/or royalties imposed with respect to the Work and any
 9 Equipment, materials or labor included therein.

10 F. Schedule of Fixed Payment for Implementation: The following schedule shall establish
 11 the firm fixed payment to CONTRACTOR by AUTHORITY for the Implementation Phase set forth in the
 12 Scope of Work and Requirements:

TYPE OF PAYMENT	PAYMENT AMOUNT (\$)
Fixed Price	\$0.00
Total Implementation Phase	\$0.00

16 The total firm fixed price (lump sum) as specified in Paragraph F of this Article shall not be exceeded,
 17 unless authorized by an amendment to this Agreement.

18 G. Schedule of variable price, fixed Transition and Succession Costs, and pass-through
 19 payment for O&M: The following schedule shall establish the basis for payment to CONTRACTOR by
 20 AUTHORITY for the O&M Phase set forth in the Scope of Work and Requirements. The schedule also
 21 shows the Maximum Obligation of AUTHORITY for the combined Implementation and Operation and
 22 Maintenance Phases,

23 /

24 /

25 /

26 /

TYPE OF PAYMENT	PAYMENT AMOUNT (\$)
Variable Costs Based on Unit Prices	\$0.00
Fixed Transition and Succession Costs	\$0.00
Pass through Costs	\$0.00
Total O&M Phase	\$0.00
MAXIMUM OBLIGATION FOR IMPLEMENTATION AND O&M PHASES	\$0.00

The amount due for Fixed Transition and Succession Costs is payable to CONTRACTOR only under the circumstances detailed elsewhere in this Agreement.

H. CONTRACTOR shall not commence performance of work or services until this Agreement has been approved by AUTHORITY and notification to proceed has been issued by AUTHORITY. No payment will be made prior to approval of any work, or for any work performed prior to approval of this Agreement.

I. For personnel subject to prevailing wage rates as described in the California Labor Code, all salary increases, which are the direct result of changes in the prevailing wage rates are reimbursable

J. During the Implementation Phase: CONTRACTOR shall invoice AUTHORITY on a monthly basis for payments corresponding to the Work actually completed by CONTRACTOR and Approved by AUTHORITY and in accordance with the payment methods as set forth in paragraph B of this Article 8.

K. Invoice requirements following commencement of Ramp-up/Customer Services and Go-Live: CONTRACTOR shall invoice AUTHORITY in accordance with the payment methods as set forth in paragraphs C and D of this Article 8. Such payments shall be monthly in arrears, beginning one month after commencement of Ramp-up/Customer Services.

L. Deliverables completed and Approved by AUTHORITY and Work performed shall be documented in a monthly progress report prepared by CONTRACTOR, which shall accompany each invoice submitted by CONTRACTOR. At its sole discretion, AUTHORITY may decline to make full payment for any Deliverable or Work performed until such time as CONTRACTOR has documented to

1 AUTHORITY's satisfaction, that CONTRACTOR has completed all Work required under the invoice.
2 AUTHORITY's payment in full for any task or Deliverable completed shall not constitute AUTHORITY's
3 Final Acceptance of CONTRACTOR's Work under such invoice.

4 M. As partial security against CONTRACTOR's failure to satisfactorily fulfill all its obligations
5 under this Agreement, AUTHORITY shall retain ten percent (10%) of the amount of each invoice
6 submitted for payment by CONTRACTOR, and shall make prompt and regular incremental acceptances
7 of portions/milestones/tasks, as determined by AUTHORITY, of the Agreement work, and pay retainage
8 to CONTRACTOR based on these acceptances. The CONTRACTOR, or subcontractor, shall return all
9 monies withheld in retention from a subcontractor within thirty (30) calendar days after receiving payment
10 for work satisfactorily completed and accepted including incremental acceptances of
11 portions/milestones/tasks of the Agreement work by the AUTHORITY. CONTRACTOR shall invoice
12 AUTHORITY for the release of the retention in accordance with this Article.

13 L. The prime CONTRACTOR, or subcontractor, shall return all monies withheld in retention
14 from a subcontractor within thirty (30) days after receiving payment for work satisfactorily completed and
15 accepted. Any subcontract entered into as a result of this Agreement shall contain all of the provisions
16 of this section. Federal law, CFR Title 49, Part 26.29, requires that any delay or postponement of payment
17 over thirty (30) days may take place only for good cause and with the AUTHORITY's prior written
18 approval. Any violation of this provision shall subject the violating prime CONTRACTOR or subcontractor
19 to the penalties, sanctions and other remedies specified in Section 7108.5 of the Business and
20 Professions Code. These requirements shall not be construed to limit or impair any contractual,
21 administrative, or judicial remedies, otherwise available to the prime CONTRACTOR or subcontractor in
22 the event of a dispute involving late payment or nonpayment by the prime CONTRACTOR, deficient
23 subcontractor performance, or noncompliance by a subcontractor. This provision applies to both DBE
24 and non-DBE CONTRACTOR and subcontractors.

25 M. All retained funds shall be released by AUTHORITY and shall be paid to CONTRACTOR
26 within sixty (60) calendar days of payment of final invoice, unless AUTHORITY elects to audit

1 CONTRACTOR's records in accordance with Article 17 entitled "Audit and Inspection of Records", of this
2 Agreement. If AUTHORITY elects to audit, retained funds shall be paid to CONTRACTOR within thirty
3 (30) calendar days of completion of such audit in an amount reflecting any adjustment required by such
4 audit. During the term of the Agreement, at its sole discretion, AUTHORITY reserves the right to release
5 all or a portion of the retained amount based on CONTRACTOR's satisfactory completion of certain
6 portions/milestones/tasks. CONTRACTOR shall invoice AUTHORITY for the release of the retention in
7 accordance with this Article.

8 N. Submission of Invoices: Invoices shall be submitted by CONTRACTOR in duplicate to
9 AUTHORITY's Accounts Payable office. CONTRACTOR may also submit invoices electronically to
10 AUTHORITY's Accounts Payable at vendorinvoices@octa.net. Each invoice shall be accompanied by
11 the monthly progress report specified in paragraph J of this Article, and the Scope of Work and
12 Requirements. AUTHORITY shall remit payment within thirty (30) Calendar Days of the receipt and
13 Approval of each invoice. Each invoice shall include the following information:

- 14 1. AGREEMENT No. C-0-2690;
- 15 2. The specific phase number for which payment is being requested;
- 16 3. BOS generated reports to validate quantities for the unit priced items, where
17 applicable;
- 18 4. AUTHORITY Project Manager's Approval of the payment request;
- 19 5. Identification of the relevant line item price in the CONTRACTOR Price Proposal,
20 and if milestone payment, identification of the milestone name, number, and amount in the Payment
21 Schedule;
- 22 6. The time period covered by the invoice;
- 23 7. Total monthly invoice (including Project-to-date, cumulative invoice amount) and
24 retention for the time period covered by the invoice and cumulative retention held, if applicable;
- 25 8. Monthly Progress Report and Approved Baseline Implementation Schedule
26 during Implementation Phase or, Monthly Operations Report during the O&M Phase;

1 9. Weekly certified payroll for personnel subject to prevailing wage requirements, if
2 applicable;

3 10. Certification signed by the CONTRACTOR that a) The invoice is a true, complete
4 and correct statement of reimbursable costs and progress; b) The backup information included with the
5 invoice is true, complete and correct in all material respects; c) All payments due and owing to
6 Subcontractors and Suppliers have been made; d) Timely payments will be made to Subcontractors and
7 Suppliers from the proceeds of the payments covered by the certification and; e) The invoice does not
8 include any amount which CONTRACTOR intends to withhold or retain from a Subcontractor or Supplier
9 unless so identified on the invoice; and

10 11. Any other information as agreed or requested by AUTHORITY to substantiate the
11 validity of an invoice.

12 O. Failure to comply with AUTHORITY's direction: CONTRACTOR shall not be entitled to
13 have any invoices processed or to have any payment made for Work performed if it has failed to comply
14 with any lawful or proper direction from AUTHORITY concerning the Work, following receipt of Notice
15 from AUTHORITY that the CONTRACTOR has failed to comply and that the AUTHORITY will exercise
16 its right to withhold payment of invoices within five (5) Business Days of the date of such Notice, unless
17 and until such time as compliance is achieved.

18 **ARTICLE 9. MAXIMUM OBLIGATION**

19 Notwithstanding any provisions of this AGREEMENT to the contrary, AUTHORITY and
20 CONTRACTOR mutually agree that AUTHORITY's maximum cumulative payment obligation (including
21 obligation for CONTRACTOR's profit) for all Work during the Initial Term shall be _____ Dollars
22 (\$____.00) (the "Maximum Obligation"). This is based on fixed and variable price components and
23 includes, but is not limited to, all amounts payable by AUTHORITY to CONTRACTOR for its subcontracts,
24 leases, pass-throughs, materials and costs arising from, or due to termination of, this AGREEMENT and
25 as further set forth in Article 8, Payment.

26 /

1 **ARTICLE 10. PROMPT PAYMENT CLAUSE**

2 A. AUTHORITY has adopted a prompt payment provision on all U.S. DOT-assisted contracts to
3 facilitate timely payment to all Subcontractors in accordance with regulatory mandates. Pursuant to 49
4 CFR Part 26.29, AUTHORITY will include the following clause in each U.S. DOT-assisted contract:

5 B. "CONTRACTOR agrees to pay each Subcontractor under this AGREEMENT for satisfactory
6 performance of its contract no later than seven (7) days from the receipt of each payment CONTRACTOR
7 receives from AUTHORITY. CONTRACTOR agrees further to return retainage payments to each
8 Subcontractor within thirty (30) days after receiving payment for Work satisfactorily completed and
9 accepted including incremental acceptances of portions of the AGREEMENT Work by AUTHORITY. Any
10 delay or postponement of payment from the above referenced time frame may take place only for good
11 cause and with AUTHORITY's prior Approval." CONTRACTOR shall incorporate this clause verbatim,
12 set forth above, in all subcontract, broker, dealer, vendor, supplier, purchase order or other source
13 agreements issued to both DBE and non-DBE firms.

14 C. Any violation of the provisions listed above shall subject the violating CONTRACTOR to the
15 penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and
16 Professions Code. This requirement shall not be construed to limit or impair any contractual,
17 administrative or judicial remedies otherwise available to CONTRACTOR or Subcontractor in the event
18 of a dispute involving late payment or nonpayment by CONTRACTOR; deficient Subcontractor
19 performance and/or noncompliance by a Subcontractor.

20 D. Failure to comply with this provision without prior Approval from AUTHORITY will constitute
21 noncompliance, which may result in the application of appropriate administrative sanctions, including, but
22 not limited to, a penalty of two percent (2%) of the invoice amount due per month, for every month that
23 full payment is not made.

24 **ARTICLE 11. NOTICES**

25 All Notices hereunder and communications regarding the interpretation of the terms of this
26 AGREEMENT, or changes thereto, shall be effected by delivery of said Notices in person or by depositing

1 said Notices in the U.S. mail, registered or certified mail, returned receipt requested, postage prepaid or
 2 sent by electronic e-mail; provided that the recipient of the electronic Notice acknowledges receipt of such
 3 transmission by email. Personal or courier delivery shall be deemed given upon actual delivery to the
 4 intended recipient at the designated address. Mailed Notices shall be deemed given upon the date of
 5 the actual receipt as evidenced by the return receipt. Electronic e-mail Notices shall be deemed given
 6 upon the date the email is acknowledged as received by the recipient; provided that if acknowledgement
 7 is received after 5 p.m., delivery shall be deemed received as of 8 a.m. the following Business Day. Any
 8 Notice shall be sent, transmitted or delivered, as applicable, to the applicable Party the following address:

To: CONTRACTOR	To: Orange County Transportation Authority
	550 South Main Street P.O. Box 14184 Orange, CA 92863-1584

	Email: rwebb@octa.net ; elee@octa.net

ARTICLE 12. INDEPENDENT CONTRACTOR

21
 22 A. CONTRACTOR's relationship to AUTHORITY in the performance of this AGREEMENT is
 23 that of an independent contractor. CONTRACTOR's personnel performing Work under this
 24 AGREEMENT shall at all times be under CONTRACTOR's exclusive direction and control and shall be
 25 employees of CONTRACTOR and not employees of AUTHORITY. CONTRACTOR shall pay all wages,
 26 salaries and other amounts due its employees in connection with this AGREEMENT and shall be

1 responsible for all reports and obligations respecting them, such as social security, income tax
2 withholding, unemployment compensation, workers' compensation and similar matters.

3 B. Should CONTRACTOR's personnel or a state or federal agency allege claims against
4 AUTHORITY involving the status of AUTHORITY as employer, joint or otherwise, of said personnel, or
5 allegations involving any other independent contractor misclassification issues, CONTRACTOR shall
6 defend and indemnify AUTHORITY in relation to any allegations made.

7 **ARTICLE 13. BONDS**

8 A. All bonds required by this AGREEMENT shall be issued by sureties authorized to do
9 business in the State of California with an A.M. Best Rating of A-, Class VIII, or better, or as otherwise
10 Approved by AUTHORITY in its sole discretion, referred to hereinafter as "Eligible Surety".
11 Notwithstanding any other provision set forth in this AGREEMENT, performance by a surety of any
12 obligations of CONTRACTOR shall not relieve CONTRACTOR of any of its obligations under this
13 AGREEMENT.

14 B. As partial security against CONTRACTOR's failure to satisfactorily fulfill all Work and
15 obligations under this AGREEMENT, CONTRACTOR shall submit and keep in place until both 1) Go-
16 Live and 2) CONTRACTOR provision of applicable Operations and Maintenance Bond (hereinafter
17 referred to as an "O&M Bond") as described in paragraphs C and D below, a Performance Bond, and a
18 Payment Bond referred to hereinafter as "Bonds", in the forms respectively set forth in Forms I and J, and
19 attached to this AGREEMENT. The Bonds shall each be in the sum of one-hundred (100%) percent of
20 the Total BOS Implementation Costs (as shown in Sheet 1 of the CONTRACTOR Price Proposal entitled
21 Project Summary, cell C5, BOS Implementation Costs. If the Total BOS Implementation Costs are
22 increased in connection with an Amendment, AUTHORITY may, in its sole discretion, require a
23 corresponding increase in the amount of the Bonds or new Bonds covering the Amendment.

24 C. An O&M Bond shall be required for the BOS in the form of Form K, attached to this
25 AGREEMENT, as a condition of Go-Live Approval. The initial bonding level for the O&M Phase shall be
26 /

1 provided at one-hundred (100%) percent of Years 1 to 3 of O&M (not including pass-through costs) as
2 shown on CONTRACTOR Price Proposal Sheet 4, Projected Bond Amounts Table (cell C25).

3 D. The O&M Bond (not including pass-through costs) shall be renewed each year at the
4 anniversary date of Go-Live through the end of the Term. For subsequent years after the first year of
5 O&M, the renewed O&M Bond shall be submitted to AUTHORITY at least fifteen (15) Business Days
6 prior to the anniversary date of Go-Live. Upon Approval thereof, AUTHORITY will release the prior year's
7 Bonds.

8 E. The value of the O&M Bond for years 2 through 6 and shall be determined as follows:

9 1. Year 2 O&M Bond = Estimated total combined cost of O&M for years 2 and 3 (not
10 including pass-through costs) as shown on Sheet 4, Projected Bond Amounts table (cell C26).

11 2. Each of Years 3 through 6 O&M Bond = Estimated cost of total combined cost of
12 O&M for upcoming year only as provided on Sheet 4, Project Bond Amounts Table for the respective
13 upcoming year (cells C27, C28, C29, C30, as applicable).

14 F. The estimated value of the O&M costs for any given year with regard to bonded amount
15 shall be based on the value presented in the CONTRACTOR Price Proposal for total O&M costs for the
16 referenced year(s) as provided in paragraph E of this article, as adjusted for any Approved change orders
17 that have affected these Price Proposal cells and any updates in the estimated O&M volumes for the
18 year(s) provided by AUTHORITY at its sole determination.

19 G. If any Bond previously provided becomes ineffective, or if the Eligible Surety that provided
20 the Bond no longer meets the AGREEMENT requirements, CONTRACTOR shall provide a replacement
21 Bond in the same form issued by an Eligible Surety within five (5) Business Days of CONTRACTOR's
22 knowledge of same. CONTRACTOR shall provide Notice to AUTHORITY promptly following such Bond
23 being rendered ineffective or when such Bond's surety is no longer an Eligible Surety, in no case later
24 than three (3) Business Days thereafter.

25 H. Additionally, the Performance Bond shall meet the following requirements:

26 /

1 1. Identify AUTHORITY and AGREEMENT No. C--0-2690 for which the
2 Performance Bond is provided; and

3 2. Upon Notice by AUTHORITY that CONTRACTOR has defaulted under this
4 AGREEMENT, the Eligible Surety will have ten (10) Business Days to make a determination on the claim
5 and to notify AUTHORITY accordingly.

6 **ARTICLE 14. INDEMNIFICATION**

7 A. CONTRACTOR shall indemnify, defend and hold harmless AUTHORITY, Caltrans,
8 FHWA, and their officers, directors, employees and agents, (hereafter, the "Indemnitees") from and
9 against any and all claims (including attorneys' fees and reasonable expenses for litigation or settlement)
10 for any loss or damages, bodily injuries, including death, damage to or loss of use of property caused by
11 the negligent acts, omissions or willful misconduct by CONTRACTOR, its officers, directors, employees,
12 agents, Subcontractors or Suppliers in connection with or arising out of the performance of this
13 AGREEMENT. In addition to any other defense and indemnity obligations that CONTRACTOR has
14 assumed under this AGREEMENT, CONTRACTOR shall defend, indemnify and hold harmless the
15 Indemnitees from and against any and all liabilities, actions, suits, claims, and legal expenses, including
16 attorneys' fees, which arise out of any claim asserting a cause of action for trespass, inverse
17 condemnation or any other unlawful entry onto property by CONTRACTOR, its Subcontractors, agents
18 or employees. Any monies owed may be deducted from any monies due or to become due to
19 CONTRACTOR hereunder or under any other agreement between CONTRACTOR and AUTHORITY.

20 B. Intellectual Property:

21 1. CONTRACTOR shall be liable and responsible without limitation for any and all
22 claims made against AUTHORITY for infringement of Intellectual Property rights, by the use or supplying
23 of any Equipment or Software in the course of performance or completion of, or in any way connected
24 with, the Work, or AUTHORITY's continued use of such Equipment or Software. The CONTRACTOR
25 shall indemnify AUTHORITY against and save it harmless from all loss and expense incurred in the
26 defense, settlement or satisfaction of any claims in the nature of Intellectual Property infringement arising

1 out of or in connection with AUTHORITY's use, pursuant to this AGREEMENT, of the Equipment and
2 Software.

3 2. Without limiting any other rights or remedies available to AUTHORITY under the
4 AGREEMENT, in law and/or equity, in the event that any Intellectual Property, Equipment or Software
5 employed to provide Work pursuant to this AGREEMENT, or portion thereof, is held to constitute an
6 infringement and its use is or may be enjoined, the CONTRACTOR shall have the obligation at
7 AUTHORITY's option to do one or more of the following:

8 a. Require CONTRACTOR to, at its own expense, supply, temporarily or
9 permanently, replace the Intellectual Property, Equipment or Software of similar quality and function
10 which is not subject to such an infringement or injunction;

11 b. Require CONTRACTOR to, at its own expense, remove all such
12 Intellectual Property, Equipment and Software and refund to AUTHORITY the cost thereof or equitably
13 adjust compensation;

14 c. Take such steps as is necessary to ensure compliance by AUTHORITY
15 with such injunction;

16 d. Modify, or require that the applicable Subcontractor or Supplier modify, the
17 alleged infringing Intellectual Property at its own expense, without impairing in any respect the
18 functionality or performance thereof that is non-infringing; and/or

19 e. Procure for AUTHORITY, at CONTRACTOR's expense, the rights
20 provided under this AGREEMENT to use the infringing Intellectual Property, Equipment or Software.

21 3. CONTRACTOR shall be solely responsible for determining and informing
22 AUTHORITY whether a prospective Supplier or Subcontractor is a party to any litigation involving
23 Intellectual Property infringement or misappropriation or any injunction related thereto, or arising out of
24 any Intellectual Property, Equipment and/or Software provided hereunder. The CONTRACTOR shall
25 enter into agreements with all Suppliers and Subcontractors at its own risk. AUTHORITY may reject any
26 Intellectual Property, Equipment or Software, which it believes to be the subject of any such litigation or

1 injunction, or if, in AUTHORITY's judgment, use thereof does not meet the objectives of Work, restricts
2 or impairs AUTHORITY's rights in any Intellectual Property, or is unlawful.

3 **ARTICLE 15. INSURANCE**

4 A. CONTRACTOR shall procure at its own expense and maintain during the Term of this
5 AGREEMENT or longer as provided herein, insurance coverage as specified in this Article 15 or as
6 otherwise agreed to by AUTHORITY. CONTRACTOR shall provide the following insurance coverage:

7 1. Commercial General Liability at least as broad as Insurance Services Office
8 Commercial General Liability Coverage (occurrence form CG 0001 or equivalent) with a minimum limit of
9 \$5,000,000.00 per occurrence and \$10,000,000.00 general aggregate. and is acceptable to
10 AUTHORITY;

11 2. Automobile Liability at least as broad as Insurance Services Office Business Auto
12 Coverage (form CA 0001, code 1, any auto, or equivalent), with a minimum combined single limit of
13 \$5,000,000.00 per occurrence and is acceptable to AUTHORITY;

14 3. Workers' Compensation insurance as required by the State of California and
15 Employer's Liability Insurance. Employer's liability limits shall be no less than \$1,000,000 each accident,
16 each employee for bodily injury, and policy limit for bodily injury. The policy shall be endorsed to waive
17 the insurer's right of subrogation against the AUTHORITY and its respective officers, directors,
18 employees and agents;

19 4. Commercial Crime with limits no less than \$5,000,000 per claim and in the
20 aggregate to include: Employee dishonesty, Forgery & Alteration, Monies & Securities, Computer
21 Crime; and

22 5. Technology Errors & Omissions Including Privacy and Network Security- covering
23 liability for errors or omissions in rendering computer or information technology services including 1)
24 systems analysis 2) systems programming 3) data processing 4) systems integration 5) outsourcing
25 development and design 6) systems design, consulting, development and modification 7) training
26 services relating to computer Software or Hardware 8) management, repair and maintenance of computer

1 products, networks and systems 9) marketing, selling, servicing, distributing, installing and maintaining
2 computer Hardware or Software 10) data entry, modification, verification, maintenance, storage, retrieval
3 or preparation of data output, and 11) Privacy and Network Security (Cyber Liability) insurance covering
4 liability arising from a) hostile action, or a threat of hostile action (“ransomware”), b) “malware” including
5 computer viruses, Trojan horses, worms and any other type of malicious or damaging code c) dishonest,
6 fraudulent, malicious, or criminal use of a computer system by a person, whether identified or not, and
7 whether acting alone or in collusion with other persons, d) denial of service for which the insured is
8 responsible that results in the degradation of or loss of access to internet or network activities or normal
9 use of a computer system e) loss of service that results in the inability of a third-party, who is authorized
10 to do so, to access a computer system and conduct normal activities. The policy limit shall be not less
11 than fifteen million dollars (\$15,000,000) per claim and annual aggregate.

12 B. Proof of such coverage, in the form of a certificate of insurance, a copy of the insurance
13 policy and/or an insurance company issued policy endorsement shall be provided to AUTHORITY. Proof
14 of insurance coverage and endorsements evidencing the requirements for additional insureds must be
15 received by AUTHORITY within ten (10) Calendar Days from notification of award of this AGREEMENT.
16 Such insurance shall be primary and non-contributory to any insurance or self-insurance maintained by
17 AUTHORITY. AUTHORITY reserves the right to request certified copies of all related insurance policies.

18 C. CONTRACTOR shall include on the face of the Certificate of Insurance the AGREEMENT
19 Number and AUTHORITY’S Contract Administrator’s Name, Robert Webb, Principal Contracts
20 Administrator.

21 D. AUTHORITY and the California Department of Transportation, their officers, directors,
22 employees and agents (the “Indemnitees”) must be named as additional insured on Commercial General
23 Liability and Automobile Liability Certificates and on the insurance policy endorsement with respect to
24 performance hereunder.

25 E. CONTRACTOR shall also include in each subcontract the requirement that
26 Subcontractors shall maintain appropriate insurance coverage in the amounts as required by

1 CONTRACTOR and include the Indemnitees as additional insureds on general and automobile liability
2 policies. Such coverage shall be in effect at all times that a Subcontractor is performing Work under the
3 AGREEMENT. CONTRACTOR shall have responsibility to enforce Subcontractor compliance with these
4 or similar insurance requirements provided that CONTRACTOR shall upon AUTHORITY'S request
5 provide acceptable evidence of insurance for any Subcontractor. The CONTRACTOR shall assume all
6 responsibility for risks or casualties of every description, for any and all damage, loss or injury, to persons
7 or property arising out of the nature of the Work, including but not limited to the negligence or failure of
8 its Subcontractors (as well as CONTRACTOR's employees) to comply with this AGREEMENT.

9 F. CONTRACTOR shall be required to immediately notify AUTHORITY of any modifications
10 or cancellation of any required insurance policies.

11 G. CONTRACTOR shall at all times during the Term of this AGREEMENT maintain
12 insurance in such form as is satisfactory to AUTHORITY, and will furnish AUTHORITY with continuing
13 evidence of insurance as provided below. All insurance policies shall be issued by companies licensed
14 to do business in the State of California, with an A.M. Best Rating of A-, Class VII, or better, or as
15 otherwise approved by AUTHORITY. CONTRACTOR shall at all times comply with the terms of such
16 insurance policies, and all requirements of the insurer under any such insurance policies, except as they
17 may conflict with existing California laws or this AGREEMENT.

18 H. CONTRACTOR shall provide AUTHORITY with certificates showing the required
19 coverage to be in effect and a copy of the insurance policy or endorsements evidencing the requirements
20 for the additional insureds. Such policies shall provide that the insurance shall not be materially modified
21 or cancelled except upon thirty (30) Calendar Days prior written Notice to AUTHORITY. Copies of all
22 insurance policies and endorsements shall be provided to AUTHORITY upon request.

23 I. AUTHORITY reserves the right to review all insurance coverage and amounts of
24 insurance coverage on an annual basis and to require the CONTRACTOR to adjust the insurance
25 coverage and amounts of insurance coverage based on industry standards for contracts of this size and
26 type. CONTRACTOR shall timely pay all premiums and deductibles when due for all insurance coverage

1 required herein. The above insurance shall not contain a self-insurance retention (SIRs) unless Approved
2 by AUTHORITY.

3 J. Pertaining to the above paragraphs regarding professional liability, technology errors and
4 omissions, and cyber liability insurance, if coverage is written on a claims made basis, such insurance
5 shall be maintained in force at all times during the Term and for a period of three (3) years thereafter for
6 Work completed during the Term. Additionally, if a sub-limit applies to any elements of coverage, the
7 policy endorsement evidencing the coverage above must specify the coverage section and the amount
8 of the sub-limit.

9 K. Providing and maintaining adequate insurance coverage described herein is a material
10 obligation of the CONTRACTOR and is of the essence for this AGREEMENT. The limits of coverage
11 under each insurance policy maintained by CONTRACTOR shall not be interpreted as limiting the
12 CONTRACTOR's liability and obligations under the AGREEMENT.

13 L. Subcontractors' Insurance: CONTRACTOR shall either require each Subcontractor to
14 obtain and maintain Workers' Compensation Insurance, Commercial General Liability, Business
15 Automobile Liability and Professional Liability coverage similar to those required above in this section for
16 the CONTRACTOR, or any other coverage deemed necessary to the successful performance of the
17 AGREEMENT, or cover Subcontractors under the CONTRACTOR's policies. Such coverage shall be in
18 effect at all times that a Subcontractor is performing Work under the AGREEMENT. The CONTRACTOR
19 shall have responsibility to enforce Subcontractor compliance with these or similar insurance
20 requirements; provided the CONTRACTOR shall upon AUTHORITY's request provide acceptable
21 evidence of insurance for any Subcontractor. The CONTRACTOR shall assume all responsibility for risks
22 or casualties of every description, for any and all damage, loss or injury, to persons or property arising
23 out of the nature of the Work, including but not limited to the negligence or failure of its Subcontractors
24 (as well as CONTRACTOR's employees) to comply with this AGREEMENT.

25 M. Waivers: AUTHORITY and CONTRACTOR waive all rights against each other, against
26 each of their agents and employees and their respective members, directors, officers, employees, agents

1 and consultants for any claims to the extent covered by insurance obtained pursuant to this Article 15,
2 except such rights as they may have to the proceeds of such insurance. CONTRACTOR shall require all
3 Subcontractors to provide similar waivers in writing in favor of AUTHORITY and its respective officers,
4 officials, employees and volunteers except as otherwise agreed to by AUTHORITY.

5 **ARTICLE 16. CHANGES**

6 A. By written Notice or order, AUTHORITY may, from time to time, order Work suspension,
7 add or deduct Work and/or make changes in the general Scope of Work and Requirements of this
8 AGREEMENT hereinafter collectively referred to as "Changes". Changes include, but are not limited to,
9 the Work furnished to AUTHORITY by CONTRACTOR as described in the Scope of Work and
10 Requirements.

11 B. Any such Changes to Work that are considered by AUTHORITY to be a Change(s) to the
12 current Scope of Work and Requirements shall result in the issuance of an Amendment signed by both
13 AUTHORITY and the CONTRACTOR. No Change shall be compensated or time extensions therefore
14 permitted, except pursuant to an Approval. A Work suspension issued by AUTHORITY, via a stop notice,
15 which results in an increase or decrease to the maximum obligation due CONTRACTOR, will require an
16 Amendment.

17 C. Any Change considered by AUTHORITY to be within the current Scope of Work but that
18 has not been specifically tasked or separately identified in CONTRACTOR Price Proposal, will not require
19 a Contract Amendment and will be identified as an Additional Work Order, subject to Approval by
20 AUTHORITY.

21 D. If any such suspension of Work or Change causes an increase or decrease in the price
22 of this AGREEMENT or in the time required for its performance, CONTRACTOR shall promptly notify
23 AUTHORITY thereof and assert its claim for adjustment within ten (10) Calendar Days after the Change
24 or Work suspension is ordered, and an equitable adjustment shall be negotiated. However, nothing in
25 this clause shall excuse CONTRACTOR from proceeding immediately with the requested Change.

26 /

1 E. In determining additional compensation to be paid for Change, the Parties shall use the
2 labor, Equipment, unit and material costs and rates included in the CONTRACTOR Price Proposal for
3 labor and material only where deemed appropriate and Approved by the AUTHORITY in preparing the
4 Amendment. Labor rates shall be calculated in accordance with the Price Instructions, Section 2.6
5 Additional Service Rates and Section 2.9 CPI Actual Cost Adjustments. For Equipment, applications,
6 tools and/or materials not covered in the Price Proposal or covered in the Price Proposal but not deemed
7 appropriate or Approved by the AUTHORITY, a catalog or market price of a commercial product sold in
8 substantial quantities shall be used as the basis for proposed costs.

9 F. If the cost of Change cannot be established on this basis or on the basis of prices set by
10 the AGREEMENT, law or regulation, CONTRACTOR shall submit detailed cost breakdowns, including
11 information on Equipment, Software, labor and materials costs and other direct costs.

12 G. CONTRACTOR agrees that it will accept as full compensation for the Change, in the case
13 of paragraph B, a price mutually agreed upon in writing, via an Amendment by the AUTHORITY and
14 CONTRACTOR or in the case of paragraph C, an Additional Work Order by the AUTHORITY and
15 CONTRACTOR.

16 H. If the CONTRACTOR disagrees with the amount of compensation or time extension
17 proposed by AUTHORITY in the Amendment, AUTHORITY may issue a Work Directive. CONTRACTOR
18 shall submit a written dispute to AUTHORITY within fifteen (15) Calendar Days after the receipt of the
19 Work Directive. Notwithstanding CONTRACTOR'S disagreement, CONTRACTOR shall proceed
20 diligently with performance if directed by AUTHORITY. The dispute shall state the points of disagreement
21 and, if possible, the AGREEMENT Scope of Work and Requirements references, quantities and costs
22 involved. If a written dispute is not submitted within the above period, payment will be made as set forth
23 in the Work Directive and such payment shall constitute full compensation for all Work included therein
24 or required thereby. An undisputed Work Directive will be considered as executed Amendment.

25 I. CONTRACTOR shall promptly notify AUTHORITY in writing when it receives direction,
26 instruction, interpretation or determination from any source other than AUTHORITY that may lead to or

1 cause change in the Work. AUTHORITY shall Approve before CONTRACTOR acts on said direction,
2 instruction, interpretation or determination.

3 J. CONTRACTOR shall only commence Work covered by an Amendment after the
4 Amendment is executed by AUTHORITY, or it is considered an executed Amendment under the terms
5 of paragraph H, or if a Work Directive has been issued.

6 **ARTICLE 17. DISPUTES**

7 A. Except as otherwise provided in this AGREEMENT, when a dispute arises between
8 CONTRACTOR and AUTHORITY, the project managers shall meet to resolve the issue. If project
9 managers do not reach a resolution, the dispute will be decided by AUTHORITY's Director of Contracts
10 Administration and Materials Management (CAMM), who shall reduce the decision to writing and mail or
11 otherwise furnish a copy thereof to CONTRACTOR. The decision of the Director, CAMM, shall be the
12 final and conclusive administrative decision.

13 B. Pending final decision of a dispute hereunder, CONTRACTOR shall proceed diligently with
14 the performance of this AGREEMENT and while awaiting the decision of AUTHORITY's Director, CAMM.
15 Nothing in this AGREEMENT, however, shall be construed as making final the decision of any
16 AUTHORITY official or representative on a question of law, which questions shall be settled in
17 accordance with the laws of the State of California, with venue in Orange County, CA. In lieu of litigation
18 the Parties may upon terms agreed to by the Parties, elect mediation or arbitration, binding or otherwise.

19 **ARTICLE 18. LIQUIDATED DAMAGES**

20 A. If CONTRACTOR fails to: (1) complete the Work by the Guaranteed Completion Dates or
21 any Approved extension thereof, or (2) provide Key Team Personnel in accordance with the
22 AGREEMENT, or (3) meet the O&M Performance Measures of the AGREEMENT established in the
23 Scope of Work and Requirements, the actual damage to AUTHORITY will be difficult or impossible to
24 determine. Therefore, the Parties have agreed to stipulate to the amount payable to the AUTHORITY
25 as liquidated damages in order to fix and limit CONTRACTOR's costs and to avoid later disputes over
26 what amount of damages are proper. The Parties agree that the amount of liquidated damages are

1 reasonable in light of the anticipated or actual damage to the AUTHORITY and do not constitute a penalty.

2 Liquidated damages may be assessed at the AUTHORITY's sole discretion as follows:

3 B. Implementation Phase Delays:

4 1. In the event that CONTRACTOR has not completed the Work required for Ramp-
5 up/Customer Services by the Guaranteed Completion Date, CONTRACTOR shall be assessed per
6 Calendar Day on a cumulative basis, commencing the day following the Guaranteed Completion Date as
7 follows:

- 8 • 1-30 Calendar Days following Guaranteed Completion Date: \$2,300 per Calendar Day
- 9 • 31-60 Calendar Days following Guaranteed Completion: \$5,700 per Calendar Day
- 10 • Greater than 60 days following the Guaranteed Completion Date: \$11,400 per Calendar
11 Day

12 2. In the event that CONTRACTOR has not completed the Work required for
13 Implementation of the 405 BOS and has not achieved Readiness for Go-Live by the Guaranteed
14 Completion Dates, CONTRACTOR shall be assessed \$45,000 per Calendar Day, commencing the day
15 following the Guaranteed Completion Date, but not to exceed sixty (60) Calendar Days or \$2,700,000.
16 Upon commencement of assessment of the liquidated damages for not achieving Readiness for Go-Live
17 under this paragraph B. 2, any liquidated damages provided for in B. 1 for not meeting the Guaranteed
18 Completion Date for Ramp-up/Customer Services shall cease to continue to accrue; however, any
19 cumulative Ramp-up/Customer Services' liquidated damages incurred prior to that date in accordance
20 with the above sub-paragraph B-1 shall still be in effect.

21 C. Key Team Personnel:

22 1. CONTRACTOR acknowledges that the award of this AGREEMENT by
23 AUTHORITY was based in significant part on the qualifications and experience of the Key Team
24 Personnel listed in CONTRACTOR's Proposal and representation that they would be available to
25 perform the Work.

26 /

2. In the event that CONTRACTOR Project Manager and/or other Personnel identified in Table below become Unavailable to perform the Work, subject to the conditions set forth in Article 4, CONTRACTOR’s Personnel, AUTHORITY may assess CONTRACTOR liquidated damages for each occasion of such Unavailability as follows:

Key Team Personnel Liquidated Damages

POSITION	LIQUIDATED AMOUNT
Project Manager – Implementation Phase	\$ 150,000
Project Manager - O&M Phase	\$150,000
Operations Manager	\$ 50,000
Installation Manager	\$ 25,000

3. In addition to the amounts payable for positions identified in the above table, CONTRACTOR shall pay AUTHORITY a further liquidated amount of \$20,000, if any other Key Team Personnel is Unavailable.

4. The amounts payable under this Article 18 for Unavailability apply for each occasion of Unavailability for each of the Key Team Personnel.

D. Failure to Meet Performance Measures:

1. Performance Measures establish a minimum level of service for O&M Phase Work. These Performance Measures include compliance with Security Standards identified in the Scope of Work and Requirements, including but not limited to data security, payment card industry (PCI), and Personally Identifiable Information (PII) standards.

2. Failure to meet such Performance Measures shall result in the assessment of liquidated damages in the form of Adjustments as set forth in the Scope of Work and Requirements. These Adjustments shall result in a reduction of the amount of the monthly fee AUTHORITY would otherwise pay to CONTRACTOR for the Work. Standard reports shall be developed by CONTRACTOR to measure whether the Performance Measures have been met. The format and

1 content of such reports shall be Approved during the design period, shall be generated by the BOS,
2 and shall be run on a scheduled basis by CONTRACTOR and provided to AUTHORITY on a monthly
3 basis, unless another frequency is otherwise specified in the Scope of Work and Requirements or as
4 otherwise directed by AUTHORITY.

5 E. AUTHORITY may deduct liquidated damages from any monies due or that may become
6 due to CONTRACTOR under the AGREEMENT. AUTHORITY is not obligated, however, to make such
7 a deduction or to provide notice thereof. If such deducted monies are insufficient to recover the liquidated
8 damages owing, CONTRACTOR or CONTRACTOR's Surety shall pay to AUTHORITY any deficiency
9 prior to Final Acceptance of Implementation Phase or closeout of O&M Phase, as applicable, or upon
10 termination of this AGREEMENT.

11 F. The failure of AUTHORITY to assess any liquidated damages authorized under this Article
12 18 shall not constitute a waiver of AUTHORITY's right to assess such Adjustments or liquidated damages
13 at a future date. Further, failure to impose liquidated damages does not constitute a waiver of
14 CONTRACTOR's obligations to perform in accordance with the AGREEMENT and Scope of Work and
15 Requirements.

16 G. Liquidated damages are separate and cumulative and are not in lieu of Actual Damages
17 covered under Article 19, Actual Damages.

18 **ARTICLE 19. ACTUAL DAMAGES**

19 A. During the O&M Phase, CONTRACTOR shall reimburse AUTHORITY for lost revenue
20 which AUTHORITY or CONTRACTOR identifies as having been lost due to the fault of the
21 CONTRACTOR. Lost revenue includes, but is not limited to, such events as processing errors, lost
22 transactions, lost images, unprocessed transactions, lost data, revenue lost due to data security breach,
23 and transactions that are not able to be collected due to failures or delays in transaction processing. If
24 actual data is available for the affected time period, such data will be considered in the calculation of
25 actual damages as applicable. If AUTHORITY does not have actual transactional, financial, or other
26 relevant operational data from the affected period, such actual damages shall be calculated based on a

1 determination of a comparable period made by AUTHORITY, and shall consider the day, month, time of
2 day, location, season, whether the day is a weekday, weekend or Holiday, and such other factors as are
3 reasonable. AUTHORITY may choose, in its sole discretion, to recover such lost revenue from the
4 CONTRACTOR by deducting such amounts from payments otherwise due and owing from AUTHORITY
5 to the CONTRACTOR.

6 B. In addition to other actual damages, CONTRACTOR shall be responsible for all
7 additional costs associated with any PII, PCI, data or security breach associated with CONTRACTOR's
8 provision of Work, including but not limited to, special mailings notifying customers of a mistake in their
9 monthly statements due to inaccurate reporting of information by CONTRACTOR and providing credit
10 monitoring services to customers.

11 **ARTICLE 20. RISK OF LOSS**

12 A. CONTRACTOR shall bear all risk of damage or loss to the BOS except to the extent the
13 damage and loss is caused by the sole negligence or willful misconduct of AUTHORITY or Force Majeure.

14 B. In the case of damage or loss that AUTHORITY agrees was caused by the sole
15 negligence or willful misconduct of AUTHORITY or Force Majeure, CONTRACTOR shall promptly
16 replace the damaged or lost portions of the System at CONTRACTOR's cost after such cost is pre-
17 Approved by AUTHORITY, and submit the amount(s) thus expended to AUTHORITY for reimbursement
18 as a clearly identified, separate item on its next invoice to AUTHORITY.

19 **ARTICLE 21. DEFAULT**

20 A. Event of Default:

21 1. An "Event of Default" shall mean a material breach of this AGREEMENT by the
22 CONTRACTOR. Without limiting the generality of the foregoing and in addition to those instances
23 referred to elsewhere in this AGREEMENT as a breach, an Event of Default shall include the following:

24 a. CONTRACTOR fails to timely remit or credit revenues due AUTHORITY
25 pursuant to this AGREEMENT;

26 /

1 b. CONTRACTOR fails to timely deliver and/or maintain Deliverables to
2 AUTHORITY, which Deliverables include, but are not limited to, all insurance, bonds or other performance
3 security required by this AGREEMENT or to maintain in force and effect any such insurance, bonds or
4 performance security;

5 c. CONTRACTOR fails to promptly perform the Work following Effective
6 Date of AGREEMENT; to diligently perform the Work in accordance with the Approved Baseline
7 Implementation Schedule; suspends or otherwise ceases to perform the Work (excepting therefrom
8 excused suspensions directed by AUTHORITY or due to Force Majeure); or promptly resume
9 performance of the Work which have been suspended as directed by AUTHORITY;

10 d. CONTRACTOR fails to perform the Work in accordance with this
11 AGREEMENT, including, but not limited to, the Scope of Work and Requirements;

12 e. CONTRACTOR fails to supply enough properly skilled workers or proper
13 materials to perform the Work required under this AGREEMENT;

14 f. CONTRACTOR fails to make prompt payment to Subcontractors or
15 Suppliers in accordance with this AGREEMENT absent a valid dispute as between the CONTRACTOR
16 and its Subcontractors or Suppliers;

17 g. CONTRACTOR fails to make any payment due AUTHORITY under this
18 AGREEMENT, including but not limited to, liquidated damages;

19 h. CONTRACTOR commences any suit or any suit is commenced against
20 CONTRACTOR, under any bankruptcy, insolvency or similar law to liquidate, reorganize or dissolve
21 CONTRACTOR, or which seeks the appointment of a receiver, trustee, custodian or other similar official
22 to attach, execute or such similar process for any substantial part of CONTRACTOR's assets; or
23 CONTRACTOR assigns the proceeds received from this AGREEMENT for the benefit of its creditors, or
24 it has taken advantage of any insolvency statute or debtor/creditor law or if the CONTRACTOR's property
25 or affairs have been put in the hands of a receiver; or any of the foregoing events occur with respect to
26 any Surety, which Surety is not promptly replaced by CONTRACTOR;

1 i. CONTRACTOR fails to obtain the Approval of AUTHORITY where
2 required by this AGREEMENT;

3 j. CONTRACTOR fails to provide adequate assurances as required under
4 paragraph 2. below;

5 k. CONTRACTOR has failed in the representation of any warranties stated
6 herein;

7 l. Any person authorized to act on CONTRACTOR's behalf makes a
8 statement to any person authorized to act on AUTHORITY's behalf, indicating that CONTRACTOR
9 cannot or will not perform any one or more of its obligations under this AGREEMENT;

10 m. CONTRACTOR has a pattern of repeated failures to provide the Work and
11 meet the Scope of Work and Requirements of this AGREEMENT;

12 n. CONTRACTOR fails to remedy Pervasive Defects; or

13 o. The suspension or revocation of any license, permit, or registration
14 necessary for the performance of the CONTRACTOR's obligations under this AGREEMENT.

15 2. When, in the opinion of AUTHORITY, reasonable grounds for uncertainty exist
16 with respect to the CONTRACTOR's ability to perform the Work or any portion thereof, AUTHORITY may
17 request that the CONTRACTOR, within the time frame set forth in AUTHORITY's request, provide
18 adequate assurances to AUTHORITY, in writing, of CONTRACTOR's ability to perform in accordance
19 with the terms of this AGREEMENT. Until AUTHORITY receives such assurances, AUTHORITY may
20 suspend all payments or portions thereof to CONTRACTOR. In the event that CONTRACTOR fails to
21 provide to AUTHORITY the requested assurances within the prescribed time frame, AUTHORITY may:

22 a. Treat such failure as an Event of Default;

23 b. Resort to any remedy for breach provided herein or at law or equity,
24 including, but not limited to, taking over the performance of the Work or any part thereof either by itself or
25 through others;

26 /

1 c. Remove all technical documentation deposited with the Escrow Agent
2 pursuant to the Escrow Agreement executed in accordance with Article 25, Intellectual Property, and
3 Article 26, Intellectual Property Escrow, with the purpose of competitively procuring any Equipment or
4 Software or providing any Work based on such documentation; and

5 d. Terminate CONTRACTOR's performance hereunder.

6 3. The enumeration in this Article or elsewhere in this AGREEMENT of specific rights
7 or remedies of AUTHORITY shall not be deemed to limit any rights or remedies which AUTHORITY
8 would have in the absence of such enumeration and no exercise by AUTHORITY of any right or remedy
9 shall operate as a waiver of any other of AUTHORITY's rights or remedies not inconsistent therewith or
10 to stop AUTHORITY from exercising such other rights or remedies.

11 B. Notice of Default - Chance to Cure:

12 If, in the determination of AUTHORITY, an Event of Default has occurred, AUTHORITY will
13 notify CONTRACTOR by delivery of a Notice hereinafter referred to as "Default Notice" specifying the
14 default claimed, and advising the CONTRACTOR that such default must be cured as set forth therein
15 or this AGREEMENT may be terminated. Prior to declaring an Event of Default AUTHORITY shall
16 allow the CONTRACTOR to cure the default to AUTHORITY's reasonable satisfaction within fifteen
17 (15) Calendar Days, or such shorter time if the default requires it; provided that AUTHORITY is not
18 required to issue a Default Notice if there is an Event of Default which by nature cannot be cured.
19 Failure to provide a Default Notice shall not preclude AUTHORITY from exercising other available
20 remedies short of termination. AUTHORITY may extend the opportunity to cure beyond the fifteen
21 (15) Calendar Day period if the default is one AUTHORITY agrees requires additional time to cure, so
22 long as the CONTRACTOR has commenced curing such default and is effectuating a cure with
23 diligence and continuity during such fifteen (15) Calendar Day period extension thereof which
24 AUTHORITY prescribes.

25 /

26 /

C. Remedies in the Event of Default:

1. If CONTRACTOR does not cure the Event of Default within the time prescribed or the default is not subject to cure, AUTHORITY may declare an Event of Default, which shall be in writing and provided to CONTRACTOR, and, as appropriate the Surety. In addition to all other rights and remedies under this AGREEMENT and/or the bonds, AUTHORITY shall, upon declaration of an Event of Default, have the right to terminate this AGREEMENT, in whole or in part, pursuant to issuance of a Notice of Termination for Cause, specifying the effective date thereof and/or perform or cause to be performed the Work or any portion thereof, which are required of CONTRACTOR. In exercising such rights, AUTHORITY may immediately take possession of, and CONTRACTOR shall deliver, all applicable Equipment, Software and data, and facilities that house such items as AUTHORITY may direct. AUTHORITY shall also have the right to complete the Work with CONTRACTOR's Subcontractors as AUTHORITY directs and CONTRACTOR shall assign such subcontracts as AUTHORITY directs. AUTHORITY, as part of its right to complete the Work, may take possession of and use, and CONTRACTOR shall be required to deliver to AUTHORITY, any or all of the materials, plants, tools, Equipment, Hardware, supplies, and property of every kind, provided, purchased, maintained, leased, owned, or rented by CONTRACTOR, including but not limited to all technical specifications, drawings, source code, and object code placed into Escrow. AUTHORITY may make available such escrowed materials to third parties; third party licenses and Software, and/or procure other materials, plant, tools, Equipment, Hardware, and supplies. AUTHORITY may charge CONTRACTOR and the CONTRACTOR shall be liable to AUTHORITY for the expense of said labor, materials, plant, tools, Equipment, Hardware, supplies and property reasonably necessary in performing or completing the Work.

2. If AUTHORITY declares an Event of Default, CONTRACTOR shall be liable for those damages provided herein resulting from the default, including but not limited to:

- a. Losses as defined in Article 20, Risk of Loss;

/

/

1 b. The difference between the actual costs incurred by AUTHORITY in
2 completing the Work and the compensation AUTHORITY would otherwise have paid CONTRACTOR
3 under this AGREEMENT for completing such Work;

4 c. Liquidated damages; and

5 d. Actual damages.

6 The CONTRACTOR shall remain liable for any other liabilities and claims related to
7 CONTRACTOR's default. All damages and costs may be deducted and paid out of any monies due
8 from AUTHORITY to CONTRACTOR.

9 D. If an Event of Default occurs, CONTRACTOR and any Surety shall be jointly and
10 severally liable to AUTHORITY for all losses and damages incurred by AUTHORITY. Upon the
11 occurrence of an Event of Default and for so long as it occurs, AUTHORITY may withhold all of any
12 portion of further payments to CONTRACTOR until the date that AUTHORITY accepts the Project as
13 complete at which time AUTHORITY will determine if CONTRACTOR is entitled to any further
14 payments. AUTHORITY will deduct, from any moneys due or which become due to CONTRACTOR
15 or its Surety, all costs and charges incurred by AUTHORITY, including attorneys, accountants and
16 expert witness fees and costs. If AUTHORITY's losses or damages exceed payments owing
17 CONTRACTOR, then the CONTRACTOR and its Surety shall be liable and pay such amount to
18 AUTHORITY within ten (10) Calendar Days of AUTHORITY's written demand. If CONTRACTOR or
19 its Surety fail to pay such demand within such timeframe, AUTHORITY may collect interest thereon
20 at the lesser of 10% per annum or the maximum rate allowed under State law from the date of the
21 written demand.

22 E. In the event that it is later determined that the AGREEMENT was terminated upon
23 grounds which did not justify a termination for Event of Default, such termination shall be deemed a
24 termination for convenience pursuant to Article 22, Termination for Convenience.

25 F. Performance by Surety: Upon receipt of a demand from AUTHORITY requiring Surety
26 to complete the Work, Surety shall diligently and promptly take charge of the Work and complete this

1 AGREEMENT pursuant to its terms at its own expense, receiving the balance of the funds due
2 CONTRACTOR, minus any permissible deductions under this AGREEMENT. In the event
3 AUTHORITY undertakes to complete the Work with its own forces or by way of contract, all costs
4 incurred by AUTHORITY shall be deducted from the amounts due or may become due to
5 CONTRACTOR. If such expense exceeds the sum payable under this AGREEMENT, then
6 CONTRACTOR and Surety shall be jointly and severally liable for the amount of the excess expense
7 up to the amount of the Performance Bond in existence at the time this AGREEMENT is terminated.

8 **ARTICLE 22. TERMINATION FOR CONVENIENCE**

9 A. AUTHORITY may terminate this AGREEMENT for its convenience at any time in whole or in
10 part, by giving CONTRACTOR written Notice thereof. AUTHORITY shall terminate by delivering to
11 CONTRACTOR a written Notice of Termination for Convenience specifying the extent of termination and
12 its effective date. Upon termination, CONTRACTOR shall discontinue performance of all or that portion
13 of Work, as set forth in such Notice and AUTHORITY shall pay CONTRACTOR its allowable costs
14 incurred to date of that portion terminated. The rights, duties and obligations of the parties shall be
15 construed in accordance with the applicable provisions of CFR Title 48, Chapter 1, Part 49, of the
16 Federal Acquisition Regulation (FAR) and specific subparts and other provisions thereof applicable to
17 termination for convenience. If AUTHORITY sees fit to terminate this AGREEMENT for convenience,
18 said notice shall be given to CONTRACTOR in accordance with the provisions of the FAR referenced
19 above and Article 11, Notices, herein. Upon receipt of said notification, CONTRACTOR shall immediately
20 proceed with all obligations, regardless of any delay in determining or adjusting any amounts due under
21 this Article, and agrees to comply with all applicable provisions of the FAR pertaining to termination for
22 convenience. Thereafter, CONTRACTOR shall have no further claims against AUTHORITY under this
23 AGREEMENT.

24 B. Upon termination, AUTHORITY shall be entitled to all work, including but not limited to,
25 reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed
26 to that date, whether completed or not.

1 C. AUTHORITY may temporarily suspend this Agreement, at no additional cost to
2 AUTHORITY, provided that CONTRACTOR is given written notice of temporary suspension. If
3 AUTHORITY gives such notice of temporary suspension, CONTRACTOR shall immediately suspend its
4 activities under this Agreement. A temporary suspension may be issued concurrent with the notice of
5 termination.

6 **ARTICLE 23. ACCEPTANCE**

7 A. **BOS Acceptance of Implementation Phase:**

8 1. The phases of the Project are set forth in Article 7, Start and Phases of Work.

9 2. AUTHORITY, in its sole discretion, may grant BOS Acceptance of the
10 Implementation Phase if it deems that the Work on the Implementation Phase is substantially complete,
11 and the following conditions have been met:

12 a. CONTRACTOR has passed the On-Site Installation and Commissioning
13 Test, and Go-Live has been Approved in accordance with the Scope of Work and Requirements;

14 b. CONTRACTOR has substantially passed and has been given
15 conditional Approval of the BOS Acceptance test; and

16 c. CONTRACTOR has committed to completing remaining punch list items
17 and provided proof to AUTHORITY's satisfaction thereof.

18 3. AUTHORITY shall issue a written Notice of BOS Acceptance for the
19 Implementation Phase upon satisfaction of the conditions listed above in items 2a through 2c. The
20 occurrence of BOS Acceptance shall not relieve CONTRACTOR of any of its continuing obligations
21 hereunder.

22 B. **Final Acceptance of Implementation Phase:**

23 Final Acceptance of an Implementation Phase shall be deemed to have occurred when all of the
24 following conditions have been met:

25 1. CONTRACTOR has provided a Final Acceptance letter certification to close out
26 the Implementation Phase. The certification shall include but not be limited to: total costs associated with

1 the Implementation Phase, date of Work completion for that phase and any additional required
2 information contained in items 2 through 8 below:

3 2. Any and all punch list items have been satisfactorily completed and Approved by
4 AUTHORITY and final Approval of the Acceptance Test, has been granted by AUTHORITY;

5 3. Escrowed Software has been delivered to AUTHORITY in accordance with the
6 Escrow Agreement;

7 4. CONTRACTOR has delivered and AUTHORITY has Approved all Deliverables,
8 including As-Built Documentation/Drawings, as defined in the Scope of Work and Requirements;

9 5. An affidavit has been delivered to AUTHORITY signed by the CONTRACTOR,
10 stating all debts and claims of Suppliers and Subcontractors have been paid and/or settled;

11 6. All CONTRACTOR claims for the Implementation Phase are deemed to be
12 resolved by AUTHORITY, and the CONTRACTOR has submitted a statement that no such requests or
13 disputes will be applied for; any and all claims under this AGREEMENT are resolved, and that no such
14 claims will be made;

15 7. All of CONTRACTOR's other obligations, including payment of liquidated
16 damages under the Implementation Phase, shall have been satisfied in full or waived in writing by
17 AUTHORITY; and

18 8. AUTHORITY shall have delivered to the CONTRACTOR a Notice of Final
19 Acceptance for the phase.

20 C. Closeout of O&M Phase:

21 Closeout of the O&M Phase shall be deemed to have occurred when all of the following conditions
22 have been met:

23 1. The CONTRACTOR shall have provided a letter certification to close out the O&M
24 Phase. The certification shall include but not be limited to: total costs associated with the phase, date of
25 phase completion and any additional required information contained in items 2 through 10 below:

26 /

1 2. Delivery by the CONTRACTOR and Approval by AUTHORITY of all Deliverables,
2 including As-Built Documentation/Drawings, as required in the Scope of Work and Requirements;

3 3. The CONTRACTOR has met all transition and succession requirements pursuant
4 to the Scope of Work and Requirements;

5 4. All licenses and leases subject to transfer or assignment to AUTHORITY have
6 been transferred or assigned;

7 5. Any and all CONTRACTOR action items associated with the phase have been
8 satisfactorily completed and Approved by AUTHORITY;

9 6. An affidavit has been delivered to AUTHORITY signed by CONTRACTOR, stating
10 all debts and claims of Suppliers and Subcontractors have been paid and/or settled;

11 7. All CONTRACTOR claims for the phase are deemed to be resolved by
12 AUTHORITY, and CONTRACTOR has submitted a statement that no such requests or disputes will be
13 applied for; any and all claims under this AGREEMENT are resolved, and that no such claims will be
14 made;

15 8. The CONTRACTOR shall provide AUTHORITY with all required materials,
16 fixtures, furnishings, Equipment and Software; documentation and manuals, either owned by or licensed
17 to AUTHORITY, pursuant to this AGREEMENT. All such materials have been verified by AUTHORITY
18 to be in good working order;

19 9. All of CONTRACTOR's other obligations under the O&M Phase, including
20 liquidated damages, shall have been satisfied in full or waived in writing by AUTHORITY; and

21 10. AUTHORITY shall have delivered to CONTRACTOR a Notice of Closeout for the
22 phase.

23 D. AUTHORITY's beneficial use of the Deliverables during any phase prior to AGREEMENT
24 closeout shall not constitute Acceptance of any Deliverable, nor shall such use give rise to a claim for
25 equitable adjustment.

26 /

1 **ARTICLE 24. INSPECTION**

2 A. All Work, Sites, and Facilities shall be subject to inspection and testing by AUTHORITY
3 at all reasonable times. Any inspection, test or Approval is for the sole benefit of AUTHORITY and shall
4 not relieve CONTRACTOR of the responsibility of providing Quality Control measures to assure that the
5 Work strictly complies with requirements of this AGREEMENT. No inspection or test or Approval by
6 AUTHORITY or its representative shall be construed as constituting or implying Acceptance unless all
7 criteria for Acceptance have been met in accordance with Article 23, Acceptance. Inspection or test or
8 Approval shall not relieve CONTRACTOR of responsibility for damage to or loss of the material prior to
9 Acceptance, nor in any way affect the continuing rights of AUTHORITY after Acceptance of the completed
10 Work.

11 B. CONTRACTOR shall furnish promptly, without additional charge, all facilities, labor,
12 Equipment and material reasonably needed for performing inspection and testing in a safe and
13 convenient manner as may be required by AUTHORITY and as further set forth in the Scope of Work
14 and Requirements. All inspections and tests by AUTHORITY shall be performed in such manner as to
15 not unnecessarily delay the Work. AUTHORITY reserves the right to charge to CONTRACTOR any
16 additional cost of inspection or test when material or workmanship is not ready at the time specified by
17 CONTRACTOR for inspection or test or when re-inspection or retest is necessitated by prior rejection.

18 **ARTICLE 25. INTELLECTUAL PROPERTY**

19 A. Project Intellectual Property:

20 1. CONTRACTOR acknowledges and agrees that all Intellectual Property
21 authored, created, and invented under this AGREEMENT and/or for the purposes of the Project, in
22 any medium, is either owned by AUTHORITY or specially ordered or commissioned by AUTHORITY
23 including works made for hire in accordance with Section 101 of the Copyright Act of the United States
24 (“Project Intellectual Property”), CONTRACTOR hereby irrevocably and exclusively assigns to
25 AUTHORITY, immediately upon creation, authorship, development or invention of the Project
26 Intellectual Property and without any restriction or condition precedent, (i) all rights, title and interest

1 in and to such Intellectual Property and (ii) physical possession and all rights, title and interest in any
2 executable code and all Source Code, programmer notes, and other documentation and other relevant
3 Software (collectively, the "IP Materials"). To perfect or register AUTHORITY Intellectual Property
4 rights under this Section, CONTRACTOR agrees to execute such further documents and to do such
5 further acts as may be necessary to perfect, register, or enforce AUTHORITY ownership of such rights,
6 in whole or in part. If CONTRACTOR fails or refuses to execute any such documents, CONTRACTOR
7 hereby appoints AUTHORITY as CONTRACTOR's attorney-in-fact (this appointment to be irrevocable
8 and a power coupled with an interest) to act on CONTRACTOR's behalf and to execute such documents.
9 AUTHORITY hereby grants to CONTRACTOR a limited, non-exclusive license to use, exploit,
10 manufacture, distribute, reproduce, adapt and display AUTHORITY Intellectual Property developed and
11 owned by AUTHORITY independently of this AGREEMENT ("AUTHORITY Intellectual Property") and
12 Project Intellectual Property, solely in connection with and limited to: (a) incorporation of relevant
13 Intellectual Property into the Project or Work; (b) performance, provision, furnishing and discharge of the
14 Work; and (c) licensing to other entities (to the extent required for Interoperability). Except as provided in
15 this Article 25, no Intellectual Property rights of AUTHORITY, including the AUTHORITY's name and
16 other trademarks, are granted to CONTRACTOR and all other rights are reserved to AUTHORITY. All
17 rights granted in this Article shall terminate at the expiration of the Term.

18 2. CONTRACTOR shall deliver to AUTHORITY all AUTHORITY Materials,
19 documents, results and related materials created in the development of Project Intellectual Property as
20 soon as (i) incorporated into Project, or any Deliverable, Work, service(s), and/or Software, including any
21 Upgrades, Updates or Enhancements, (ii) required by the AGREEMENT or Scope of Work and
22 Requirements, or (iii) reasonably practicable, provided that all such IP Materials, shall be delivered to
23 AUTHORITY not later than the effective termination date of this AGREEMENT, including expiration date
24 of the Term.

25 /

26 /

1 B. CONTRACTOR Intellectual Property:

2 1. CONTRACTOR hereby grants to AUTHORITY an irrevocable, perpetual, non-
3 exclusive, transferable (solely to an AUTHORITY assignee or successor in interest), fully paid-up right
4 and license to use, distribute, reproduce, adapt and display, and prepare derivative works of the
5 CONTRACTOR Intellectual Property solely for the Project or any Deliverable, Work, service(s), and/or
6 Software, including any Upgrades, Updates or Enhancements. CONTRACTOR Intellectual Property shall
7 mean Intellectual Property authored, created or invented by CONTRACTOR either (a) prior to the
8 Effective Date or (b) independently of the AGREEMENT. The rights granted herein shall survive the
9 termination, expiration or cancellation of this AGREEMENT or any rights related thereto.

10 2. CONTRACTOR shall identify and disclose all CONTRACTOR Intellectual
11 Property required by, incorporated in or integrated into the Project, or any Deliverable, Work,
12 service(s), and/or Software, including any Upgrades, Updates or Enhancements, including (when
13 reasonably available): full and specific information detailing Intellectual Property claimed, date of
14 authorship, creation and/or invention, date of application(s), application number(s) and registering
15 entity(ies), date of registration(s), registration number(s) and registering entity(ies), if any, and owner
16 including person or entity name and address. Subject to the Intellectual Property deposit requirements
17 of Article 27, CONTRACTOR shall not be required to identify or disclose CONTRACTOR Intellectual
18 Property only to the extent that doing so would eliminate or substantially limit the legal protections for
19 such Intellectual Property.

20 C. Third-Party Intellectual Property:

21 1. CONTRACTOR shall secure license(s) in the name of AUTHORITY to use,
22 execute, perform, sublicense, distribute, reproduce, adapt, display, and prepare derivative works of
23 Third-Party Intellectual Property in connection with or any Deliverable, Work, Service(s), and/or
24 Software, including any Upgrades, Updates or Enhancements, including a representation and
25 warranty that the Third-Party Intellectual Property does not infringe the rights, including Intellectual
26 Property rights, of any other person or entity. Third-Party Intellectual Property shall mean Intellectual

1 Property owned by any person or entity unrelated to CONTRACTOR which is incorporated into the
2 Project, Work or services. AUTHORITY shall review and Approve, in its sole discretion, any license(s)
3 pursuant to this Article and in no event shall CONTRACTOR incorporate Third-Party Intellectual
4 Property into the Project, or any Deliverable, Work, service(s), and/or Software, including any
5 Upgrades, Updates or Enhancements without first securing such licenses and subject to
6 AUTHORITY's prior review and Approval.

7 2. CONTRACTOR shall Identify and disclose to AUTHORITY all Third-Party
8 Intellectual Property contained, or included, i) in the Project Intellectual Property, including (when
9 reasonably available): or (ii) in the Project, or any Deliverable, Work, service(s), and/or Software, including
10 any Upgrades, Updates or Enhancements, including (when reasonably available): full and specific
11 information detailing Intellectual Property claimed; date of authorship, creation and/or invention; date of
12 application(s); application number(s) and entity(ies); date of registration(s), registration number(s) and
13 registering entity(ies), if any, and owner, including person or entity name and address.

14 3. CONTRACTOR shall obtain from each owner of the Third-Party Intellectual
15 Property prior consent to have the relevant Third-Party Intellectual Property deposited into an Escrow in
16 accordance with Article 26, Intellectual Property Escrows, or, to the extent the owner of the relevant Third-
17 Party Intellectual Property has not provided such consent, obtain AUTHORITY's prior written Approval
18 for a waiver of this requirement.

19 4. CONTRACTOR shall not incorporate Third-Party Intellectual Property into the
20 Project without first obtaining (a) the licenses described in Article 25.C.1 and (b) consent for the delivery
21 or deposit of IP Materials from each owner of the Third-Party Intellectual Property, or unless such
22 requirement is waived by AUTHORITY in accordance with Article 25.C.3. The rights granted in Article
23 25.C.1 shall survive the termination, expiration or cancellation of this AGREEMENT or any rights related
24 thereto.

25 /

26 /

1 D. Delivery of IP Materials: CONTRACTOR shall deliver CONTRACTOR and Third-Party IP
2 Materials into Escrow in accordance with Article 26, Intellectual Property Escrow and Article 27, Escrow
3 Agreement Dates.

4 E. Payments Inclusive: CONTRACTOR acknowledges and agrees that the payments
5 provided for in Article 8 include all royalties, fees, costs and expenses arising from or related to the Project
6 Intellectual Property, including without limitation any fees pursuant to Articles 25, 26, and 27.
7 CONTRACTOR acknowledges that AUTHORITY is a public agency subject to state laws, including the
8 California Public Records Act (California Government Code §6250, et seq.) (the "Public Records Act").
9 Notwithstanding any designation or communication by CONTRACTOR that any CONTRACTOR
10 information or materials provided under this AGREEMENT may be confidential or proprietary,
11 CONTRACTOR consents in advance to AUTHORITY's disclosure of the same if AUTHORITY
12 determines that it is required by law to disclose. Such disclosure shall not constitute a breach of this
13 AGREEMENT. AUTHORITY will provide reasonable notice to CONTRACTOR of any request for
14 disclosure of information or materials identified by CONTRACTOR as "confidential", "trade secret" or
15 "proprietary" or otherwise considered confidential under this AGREEMENT. If CONTRACTOR wishes to
16 oppose any such disclosure, CONTRACTOR shall assume the opposition to such disclosure(s) or shall
17 indemnify AUTHORITY for all costs incurred (including attorneys' fees and court costs) in connection with
18 any opposition to such disclosure.

19 **ARTICLE 26. INTELLECTUAL PROPERTY ESCROW**

20 A. CONTRACTOR acknowledges that AUTHORITY must be ensured access to
21 CONTRACTOR and Third-Party IP Materials at any time and must be assured that such IP Materials are
22 delivered to Escrow pursuant to Article 26 and Articles 27.

23 B. CONTRACTOR or an owner of Third-Party Intellectual Property shall deposit the IP
24 Materials with an Escrow Agent. AUTHORITY and CONTRACTOR shall: (a) mutually select an escrow
25 company ("Escrow Agent") engaged in the business of receiving and maintaining escrows of software
26 source code and/or other intellectual property; (b) establish an Escrow (with the Escrow Agent on terms

1 and conditions substantially similar to terms and conditions of the Form of Intellectual Property Escrow
2 AGREEMENT, Form H), for the deposit, retention, upkeep, authentication, confirmation and release of
3 IP Materials to AUTHORITY pursuant to this AGREEMENT; (c) adhere to the deposit dates set forth in
4 Article 27 and (c) determine a process for releasing from Escrow the IP Materials to be delivered to
5 AUTHORITY pursuant to this AGREEMENT. Intellectual Property Escrows also may include Affiliates
6 as parties and may include deposit of their Intellectual Property.

7 C. CONTRACTOR shall be responsible for the fees and costs of establishing and
8 maintaining the Escrow Agent for the Term. AUTHORITY shall be responsible for all costs arising in
9 connection with the maintenance of the Escrow referred to in this Article beyond the Term.

10 D. The Escrow shall survive expiration or earlier termination of this AGREEMENT regardless
11 of the reason.

12 E. The IP Materials shall be released and delivered to AUTHORITY in any of the following
13 circumstances:

- 14 1. This AGREEMENT is terminated for any reason including expiration of the Term;
- 15 2. A voluntary or involuntary bankruptcy or insolvency of CONTRACTOR occurs;
- 16 3. CONTRACTOR is dissolved or liquidated; and
- 17 4. CONTRACTOR or any third party, pursuant to a license under Article 25.C.2, (a)
18 fails or ceases to provide services as necessary to permit continued use of any such Intellectual Property
19 or (b) otherwise ceases to engage in the ordinary course of the business of manufacturing, supplying,
20 maintaining and servicing the software, product, part or other item containing the IP Materials pursuant
21 to a license or any sublicense thereof.

22 F. Any CONTRACTOR Intellectual Property released and delivered to AUTHORITY under
23 the terms of this AGREEMENT shall be deemed confidential and not disclosed or distributed to any third
24 party without a non-disclosure agreement to ensure such confidentiality. Without limiting the license
25 grants provided in this Article and subject to the confidentiality obligations of this section, any and all rights
26 to CONTRACTOR Intellectual Property granted to AUTHORITY pursuant to paragraph B of Article 25

1 shall include the right to sublicense and disclose such CONTRACTOR Intellectual Property to
2 AUTHORITY employee, agent, representative, vendor, assignee or affiliate in its sole discretion.

3 **ARTICLE 27. ESCROW AGREEMENT**

4 A. Within forty-five (45) Calendar Days from the Effective Date, AUTHORITY, an Escrow
5 Agent, and CONTRACTOR shall enter into an Escrow AGREEMENT substantially as set forth in Article
6 26.

7 B. AUTHORITY may at its sole discretion require an initial deposit of the complete
8 CONTRACTOR IP Materials within sixty (60) Calendar Days of AGREEMENT Effective Date.

9 C. Additional deposits shall be made to the Escrow within ten (10) Calendar Days of Go-Live
10 and within ten (10) Calendar Days of BOS Acceptance.

11 D. In the event CONTRACTOR updates, revises or supplements any of the IP Materials
12 deposited or revises, supplements or creates additional information, CONTRACTOR shall deposit a
13 complete set of such revised, supplemented, or additional information with the Escrow Agent as soon as
14 reasonably practicable, but in no event more than thirty (30) Calendar Days after such revision,
15 supplement or addition and shall indicate with each deposit what information and which documents and
16 pages have been revised, supplemented or added since the last deposit.

17 E. CONTRACTOR shall make deposits of the complete set of IP Materials current at the time
18 of deposit, at a minimum of semi-annually if no deposits provided for in paragraph D have occurred within
19 the relevant preceding six-month period.

20 **ARTICLE 28. WARRANTIES**

21 A. CONTRACTOR warrants the following:

22 1. All guarantees and warranties made herein are fully enforceable by AUTHORITY
23 acting in its own name.

24 2. The Equipment, Hardware, and Software CONTRACTOR installs and places into
25 operation will not result in any damage to existing facilities, walls or other parts of adjacent, abutting or
26 /

1 overhead buildings, railroads, bridges, roadway, structures, surfaces, or cause any physical or mental
2 injury to any person.

3 3. All provided Hardware and Equipment is new unless otherwise specifically
4 Approved by AUTHORITY.

5 B. BOS Warranty:

6 The CONTRACTOR shall provide a full BOS warranty on all System Equipment, Hardware, and
7 Software beginning from the date of Readiness for Go-Live through the end of the O&M Phase hereinafter
8 referred to as "BOS Warranty Period", warranting that the full System shall be as set forth in the Scope
9 of Work and Requirements. During the BOS Warranty Period, AUTHORITY shall not be charged for any
10 Maintenance or Software Support Services performed on the BOS, other than Maintenance payments
11 identified in the CONTRACTOR Price Proposal. In the period after installation and prior to the
12 commencement of the O&M Phase, all Maintenance and Software Support Services shall also be at
13 CONTRACTOR's sole expense. Further, at all times during the Term, CONTRACTOR shall promptly
14 repair or replace, at its own cost or expense, including, the cost of removal, installation and transportation,
15 any unit of Equipment, Hardware, or Software, or part or component thereof, which proves defective or
16 otherwise fails to comply with Exhibit B, Scope of Work and Requirements, such that it complies with the
17 Scope of Work and Requirements. All fees associated with restocking cancelled or returned orders shall
18 be the responsibility of CONTRACTOR.

19 C. Software Warranties:

20 CONTRACTOR warrants that the Software needed to operate the BOS shall be as set forth in
21 the Scope of Work and Requirements, and that commencing upon Go-Live, and for the Term, the
22 Software and each module or component and function thereof shall:

- 23 1. Be free from defects in materials and workmanship under normal use;
- 24 2. Remain in good working order, be free from viruses; trap doors; disabling devices;
25 Trojan horses; disabling codes; back doors; time bombs; drop-dead devices; worms, and any other type
26 of malicious or damaging code or other technology or means which has the ability to interfere with the

1 use of the BOS by AUTHORITY or its designees, or permit access to AUTHORITY's computing systems
2 without its knowledge or contrary to its system connectivity policies or procedures;

3 3. Not interfere with toll collection;

4 4. Operate and function fully, properly and in conformity with the warranties in this
5 AGREEMENT;

6 5. Operate fully and correctly in the operating environment identified in the Scope of
7 Work and Requirements, including by means of the full and correct performance of the Software, and all
8 Updates, Upgrades, Enhancements, or new releases of the Software, on or in connection with the
9 Equipment, any Updates, Upgrades, Enhancements, or new releases to such Equipment, and any other
10 Software used by or in connection with any such Equipment;

11 6. Be fully compatible and Interface completely and effectively with the Equipment,
12 including other Software programs provided to AUTHORITY hereunder, such that the Software and other
13 Equipment combined will perform and continuously attain the standards identified in the Scope of Work
14 and Requirements; and

15 7. Accurately direct the operation of the BOS, as required by the Scope of Work and
16 Requirements, and the descriptions, specifications and documentation set forth therein and herein.

17 D. Software Maintenance Services:

18 During the Term, CONTRACTOR shall, at its own cost and expense, provide Maintenance and
19 Software Support Services to keep the Software in good working order and free from defects such that
20 the BOS shall perform in accordance with this AGREEMENT, including Scope of Work and
21 Requirements.

22 1. The CONTRACTOR shall provide technical support and shall, at its own cost and
23 expense, timely remedy any failure, malfunction, defect or non-conformity in Software, in accordance with
24 Scope of Work and Requirements.

25 /

26 /

1 2. CONTRACTOR shall provide AUTHORITY the most current release of all
2 Software available on the date of delivery of the BOS Software to maintain optimum performance
3 pursuant to this AGREEMENT.

4 3. CONTRACTOR shall promptly provide Notice to AUTHORITY in writing of any
5 defects or malfunctions in the Software, regardless of the source of information. CONTRACTOR shall
6 promptly correct all defects or malfunctions in the Software or documentation discovered and shall
7 promptly provide AUTHORITY with corrected copies of same, without additional charge. If Software can
8 only be corrected in conjunction with additional or revised Hardware, CONTRACTOR shall provide such
9 Hardware to AUTHORITY, and the cost of such Hardware shall be borne by CONTRACTOR, and not be
10 reimbursable by AUTHORITY.

11 a. No Updates, Upgrades, or Enhancements shall adversely affect the
12 performance of the BOS, in whole or in part, or result in any failure to meet any Requirements of the
13 Scope of Work and Requirements.

14 b. The CONTRACTOR shall ensure continued satisfactory performance by
15 the current operating system of the Software in accordance with all provisions of this Article.

16 c. In the event that the Software does not satisfy the conditions of
17 performance set forth in the Scope of Work and Requirements, the CONTRACTOR is obligated to
18 promptly repair or replace such Software at the CONTRACTOR's sole cost and expense or, if expressly
19 agreed to in writing by AUTHORITY, provide different Software, and perform Work required to attain the
20 performance Requirements set forth in the Scope of Work and Requirements.

21 d. In the event of any defect in the media upon which any tangible portions
22 of the Software are provided, the CONTRACTOR shall provide AUTHORITY with a new copy of the
23 Software.

24 e. Without releasing the CONTRACTOR from its obligations for warranty
25 (during an applicable warranty period), support or Maintenance of the Software, AUTHORITY shall have
26 the right to use and maintain versions of the Software provided by the CONTRACTOR which are one or

1 more levels behind the most current version of such Software and to refuse to install any Updates,
2 Upgrades or Enhancements if, in AUTHORITY's discretion, installation of such Updates, Upgrades or
3 Enhancements would interfere with its Operations. CONTRACTOR shall not, however, be responsible or
4 liable for the effect of any error or defect in the version of the Software then in use by AUTHORITY that
5 occurs after the CONTRACTOR has both (i) offered, by written Notice to AUTHORITY, a suitable
6 correction (by way of Update, Upgrade, Enhancement, or otherwise) of such error or defect and (ii)
7 provided AUTHORITY a reasonable opportunity to implement such existing correction, provided that the
8 CONTRACTOR establishes that neither the implementation nor the use of such correction would limit,
9 interfere with, adversely affect, or materially alter the interoperability, functionality or quality of the BOS.

10 E. Third-Party Warranties

11 CONTRACTOR shall assign to AUTHORITY, and AUTHORITY shall have the benefit of, any and
12 all Subcontractors' and Suppliers' warranties and representations with respect to the BOS and Work
13 provided hereunder. The CONTRACTOR's agreements with Subcontractors, Suppliers and any other
14 third parties shall require that such parties (a) consent to the assignment of such warranties and
15 representations to AUTHORITY, (b) agree to the enforcement of such warranties and representations by
16 AUTHORITY in its own name, and (c) furnish to AUTHORITY, the warranties set forth herein. The
17 CONTRACTOR shall obtain maintenance agreements for third-party Software. CONTRACTOR shall
18 secure such maintenance agreements for the same duration and upon the same terms and conditions
19 as the Maintenance provisions between the CONTRACTOR and AUTHORITY. At AUTHORITY's
20 request, CONTRACTOR shall provide supporting documentation which confirms that these warranties
21 are enforceable in AUTHORITY's name.

22 F. Data Accuracy

23 CONTRACTOR acknowledges and understands that the data and/or information it collects,
24 processes and/or provides to AUTHORITY will be relied upon by AUTHORITY and other persons or
25 entities that are now or will in the future be under agreement with AUTHORITY in accordance with the
26 Scope of Work and Requirements. Should CONTRACTOR become aware that information derived and

1 provided by CONTRACTOR is inaccurate and may cause AUTHORITY to incur damages or additional
2 expenses, the CONTRACTOR shall immediately place any applicable insurance carrier on notice of a
3 potential claim. This provision shall survive termination of this AGREEMENT, and the CONTRACTOR
4 agrees to waive any applicable limitation periods consistent with enforcement of this provision.

5 G. Neither Final Acceptance of the Implementation Phase of the BOS and Work or payment
6 therefor, nor any provision in this AGREEMENT, nor partial or entire use of the BOS and Work by
7 AUTHORITY shall constitute Approval of Work not performed in accordance with this AGREEMENT or
8 relieve the CONTRACTOR of liability for any express or implied warranties or responsibility for faulty
9 materials or workmanship.

10 H. The obligations set forth in this Article shall be in addition to any other warranty obligations
11 set forth in this AGREEMENT. All provisions of this Article, referring or relating to obligations to be
12 performed pursuant to an applicable warranty period that extends beyond the Term, shall survive the
13 expiration, cancellation or earlier termination of this AGREEMENT.

14 **ARTICLE 29. ADDITIONAL CONTRACTOR WARRANTIES**

15 A. CONTRACTOR warrants that it is fully experienced and properly qualified, licensed,
16 equipped, organized and financed to perform all the Work.

17 B. CONTRACTOR warrants that all Work will be provided in accordance with this
18 AGREEMENT.

19 C. CONTRACTOR warrants that (1) all Work performed and all Equipment, Software,
20 Hardware and other material provided under this AGREEMENT by CONTRACTOR or any of its
21 Subcontractors or Suppliers conforms to the requirements herein and is free of any defects; and (2)
22 Equipment, Software, and Hardware furnished by CONTRACTOR or any of its Subcontractors or
23 Suppliers at any tier, shall be of modern design, in good working condition, and fit for use of its intended
24 purpose. For any Equipment, Software, or Hardware purchased within twelve (12) months of the end of
25 the Term, such warranty shall continue for a period of one (1) year from the end of the Term or for the
26 manufacturer's standard warranty, whichever is longer.

1 **ARTICLE 30. DEFECTS/FAILURE**

2 A. Upon discovery of any defect or failure in the Software, Equipment or Hardware,
3 CONTRACTOR shall promptly provide AUTHORITY notice thereof and repair or replace same at its sole
4 cost and expense. If expressly agreed to in writing by AUTHORITY, CONTRACTOR may provide
5 different Software, Equipment or Hardware. In the event of any defect in the media upon which any
6 tangible portions of the Software are provided, the CONTRACTOR shall provide AUTHORITY with a new
7 copy of the Software. In addition, CONTRACTOR shall remedy at its own expense any damage to
8 AUTHORITY owned or controlled real or personal property, when that damage arises out of such defects.

9 B. In the event AUTHORITY determines there is a defect or failure in the Software,
10 Equipment or Hardware or damage to AUTHORITY property, AUTHORITY shall notify CONTRACTOR
11 in writing within a reasonable time after the discovery of same. CONTRACTOR has seven (7) Calendar
12 Days from receipt of notice from AUTHORITY to respond and indicate how CONTRACTOR will remedy
13 the failure, defect, or damage. If AUTHORITY is not satisfied with CONTRACTOR'S proposed remedy,
14 CONTRACTOR and AUTHORITY shall, within three (3) Business Days, meet and mutually agree when
15 and how CONTRACTOR shall remedy such violation. In the case of an emergency requiring immediate
16 corrective action, CONTRACTOR shall implement such action necessary to remedy the defect, failure or
17 damage as required by AUTHORITY.

18 C. Should CONTRACTOR fail to remedy any failure, defect or damage within a reasonable
19 time to the reasonable satisfaction of AUTHORITY, AUTHORITY shall have the right with its own forces
20 or other contractors, to replace, repair or otherwise remedy such failure, defect or damage at
21 CONTRACTOR's expense. In addition, CONTRACTOR shall be liable for all damages arising out its
22 failure to promptly remedy the defect, failure or damage.

23 D. CONTRACTOR agrees to promptly remedy, at no cost to AUTHORITY, any defects
24 determined by AUTHORITY to be Pervasive, such that if AUTHORITY determines that any Equipment,
25 Hardware, component, sub-component or Software is experiencing continued or repetitive failure that
26 requires constant replacement or repair, CONTRACTOR agrees that a "Pervasive Defect" shall be

1 deemed to be present in such affected types of Equipment, Hardware, or Software. CONTRACTOR shall
2 perform an investigation of the issues and prepare a report that includes a reason for the failure and its
3 plan for resolution. This report and a resolution plan shall be produced by CONTRACTOR and submitted
4 to AUTHORITY within seven (7) Calendar Days of notification by AUTHORITY of the Pervasive Defect.
5 The report and plan shall include the investigation results, remediation steps performed to-date, and a
6 plan and schedule to complete the Pervasive Defect resolution. Such resolution shall be in a manner
7 satisfactory to AUTHORITY and that permanently addresses the problem and corrects the defect so that
8 such defect does not continue to occur. The status shall be updated and briefed in weekly meetings until
9 resolution is complete. Notwithstanding the foregoing, AUTHORITY does not waive any of their other
10 rights enumerated in paragraphs A through C of this Article.

11 E. The obligations set forth in this Article shall be in addition to any warranty obligations set
12 forth in this AGREEMENT. The provisions of this Article shall survive the expiration or earlier termination
13 of this AGREEMENT.

14 F. All Subcontractors, manufacturers, and Suppliers' warranties, expressed or implied,
15 respecting any Work, Equipment, Software or Hardware furnished hereunder, shall, at the direction of
16 AUTHORITY, be enforced by CONTRACTOR for the benefit of AUTHORITY.

17 G. If directed by AUTHORITY, CONTRACTOR shall require any such warranties to be
18 executed in writing to AUTHORITY.

19 H. The obligations and remedies specified in this Article shall not limit AUTHORITY's rights
20 and remedies provided elsewhere in this AGREEMENT.

21 **ARTICLE 31. COORDINATION WITH OTHER CONTRACTORS**

22 A. During the course of this AGREEMENT, AUTHORITY may undertake or award other
23 agreements for additional work, including but not limited to separate agreements with different contractors
24 related to the Scope of Work and Requirements, including the Electronic Toll and Traffic Management
25 (ETTM) System Contractor, the Design-Build Contractor for the 405 Improvement Project, and the
26 Roadway Service Contractor for the I-405. It is critical that close coordination with interfacing contractors

1 occurs throughout the Term. CONTRACTOR shall fully cooperate with AUTHORITY and the parties to
2 all other contracts and carefully integrate and schedule its own Work with said contractors.

3 B. CONTRACTOR shall be required to perform Work in the AUTHORITY's CSC Facility(ies).
4 CONTRACTOR shall be subject to and shall comply with the terms of any associated leases and shall
5 coordinate with the landlord in all aspects of its occupancy and operations at the Facility(ies).

6 C. Should problems in coordination with other contractor(s) occur, the
7 CONTRACTOR shall make AUTHORITY aware of these problems immediately and shall take
8 steps to address the problems and mitigate any delays or additional costs.

9 D. CONTRACTOR shall cooperate with such other contractors or forces performing
10 construction or work of any other nature within or adjacent to the Sites specified in order to avoid
11 any delay or hindrance to such other contractors or forces. AUTHORITY reserves the right to
12 perform other or additional work at or near the Site (including material sources) at any time, by
13 the use of other forces.

14 E. CONTRACTOR shall be responsible to other contractor(s) for all damage to work,
15 to persons or property caused by CONTRACTOR, its Subcontractor(s), or its Suppliers, and
16 losses caused by unnecessary delays or failure to finish the Work within the time specified for
17 completion. Any damage to Work, persons or property of CONTRACTOR by other contractors
18 shall be the responsibility of other contractor(s) and CONTRACTOR shall have no claim against
19 AUTHORITY or Caltrans.

20 F. Upon Approval of the design, including Project infrastructure, construction, or
21 installation design, CONTRACTOR shall assume responsibility for the design to the extent that if
22 the Work is installed as designed and the BOS or CSC does not meet the Performance
23 Measurements of this AGREEMENT, the CONTRACTOR shall be responsible for the costs of
24 redesign, civil rework, and additional Equipment costs and any other costs associated with the
25 sub-standard performance.

26 /

1 **ARTICLE 32. INSPECTION OF SITE**

2 CONTRACTOR acknowledges that it has investigated and satisfied itself as to the conditions
3 affecting the Work including, but not restricted to, building locations, Facilities, conditions, size, layout,
4 parking, transportation, disposal, availability of labor, roads, and other similar physical conditions at the
5 Sites, and the character of Equipment and Facilities needed preliminary to and during prosecution of the
6 Work. Any failure by CONTRACTOR to acquaint itself with the available information will not relieve it
7 from responsibility for the difficulty or cost of successfully performing the Work. AUTHORITY assumes
8 no responsibility for any conclusions or interpretations made by CONTRACTOR on the basis of the
9 information made available by AUTHORITY.

10 **ARTICLE 33. REQUIREMENTS FOR REGISTRATION OF DESIGNERS**

11 All design and engineering Work furnished by CONTRACTOR shall be performed by or under the
12 supervision of persons licensed to practice architecture, engineering or surveying (as applicable) in the
13 State of California, by personnel who are careful, skilled, experienced and competent in their respective
14 trades or professions, who are professionally qualified to perform the Work in accordance with the
15 AGREEMENT documents and who shall assume professional responsibility for the accuracy and
16 completeness of the design documents and construction documents prepared or checked by them.

17 **ARTICLE 34. SEISMIC SAFETY REQUIREMENTS**

18 CONTRACTOR agrees to ensure that all Work performed under this AGREEMENT including
19 work performed by a Subcontractor is in compliance with the standards required by the Seismic Safety
20 Regulations.

21 **ARTICLE 35. ASSIGNMENTS AND SUBCONTRACTS**

22 A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual
23 relation between AUTHORITY and any Subcontractor(s), and no subcontract shall relieve
24 CONTRACTOR of its responsibilities and obligations hereunder. CONTRACTOR agrees to be
25 as fully responsible to AUTHORITY for the acts and omissions of its Subcontractor(s) and of
26 persons either directly or indirectly employed by any of them as it is for the acts and omissions of

1 persons directly employed by CONTRACTOR. CONTRACTOR's obligation to pay its
2 Subcontractor(s) is an independent obligation from AUTHORITY's obligation to make payments
3 to the CONTRACTOR.

4 B. Neither this AGREEMENT nor any interest herein nor claim hereunder may be
5 assigned by CONTRACTOR either voluntarily or by operation of law, nor may all or any part of
6 this AGREEMENT be subcontracted by CONTRACTOR, without the prior written consent of
7 AUTHORITY. Consent by AUTHORITY shall not be deemed to relieve CONTRACTOR of its
8 obligations to comply fully with all terms and conditions of this AGREEMENT.

9 C. CONTRACTOR shall perform the Work contemplated with resources available
10 within its own organization; and no portion of the Work pertinent to this AGREEMENT shall be
11 subcontracted without written authorization by AUTHORITY's Contract Administrator, except that,
12 which is expressly identified in the Approved Price Proposal.

13 D. CONTRACTOR shall pay its Subcontractors within seven (7) Calendar Days from
14 receipt of each payment made to CONTRACTOR by AUTHORITY.

15 E. All subcontracts in excess of \$25,000 entered into as a result of this AGREEMENT
16 shall contain all of the provisions stipulated in this AGREEMENT to be applicable to
17 Subcontractors.

18 F. Any substitution or addition of Subcontractor(s) must be Approved in writing by the
19 AUTHORITY's Contract Administrator, prior to the start of work by the Subcontractor(s).

20 G. AUTHORITY hereby consents to CONTRACTOR's subcontracting portions of the Scope
21 of Work and Requirements to the parties identified below with their subcontract function described below.
22 CONTRACTOR shall include in the subcontract agreement the stipulation that CONTRACTOR, not
23 AUTHORITY, is solely responsible for payment to the Subcontractor for the amounts owing, and that the
24 Subcontractor shall have no claim, and shall take no action, against AUTHORITY, its officers, directors,
25 employees or sureties for nonpayment by CONTRACTOR.

26 /

Subcontractor Name/Addresses	Subcontractor Function

H. CONTRACTOR shall engage the Collection Agency(ies) and Merchant Services Providers identified above as Subcontractors. The subcontracts between CONTRACTOR and such Collection Agency(ies) and Merchant Service Provider(s) shall name the AUTHORITY as an intended third-party beneficiary or alternatively as a party to the subcontract, as determined by AUTHORITY, and shall incorporate requirements for Collection Agency(ies) and Merchant Services Provider(s) set forth in the Scope of Work and Requirements. Notwithstanding paragraph G of this Article, payment to the Collections Agency(ies) and Merchant Services Provider(s) shall be as set forth in the subcontracts for this Work.

I. AUTHORITY shall have the right to Approve all of the terms and conditions of the Collection Agency(ies) and the Merchant Service Provider(s) agreements prior to execution.

ARTICLE 36. TRANSITION AND SUCCESSION

A. CONTRACTOR acknowledges that the Work and Scope of Work and Requirements are vital to AUTHORITY and must be continued without interruption. Upon termination of the AGREEMENT, a successor(s) (AUTHORITY or a new contractor(s)) may be responsible for providing this Work. The CONTRACTOR agrees to exercise its best efforts and cooperation to affect an orderly and efficient transition to a successor(s).

B. Upon expiration of the Term or termination of the AGREEMENT, whether for cause or convenience, CONTRACTOR shall have accomplished a complete transition of the Work being terminated from CONTRACTOR and any Subcontractors to the successor(s) without any interruption of or adverse impact on the Work or any other services provided by third parties (the "Disentanglement"). CONTRACTOR shall cooperate with AUTHORITY and any successor(s) and otherwise promptly take all

1 steps required to assist AUTHORITY in effecting a complete Disentanglement. CONTRACTOR shall
2 provide all information regarding the Work or as otherwise needed for Disentanglement, including data
3 conversion, files, interface specifications, training staff assuming responsibility, and related professional
4 services, to the successor(s), all included as a part of the CONTRACTOR Price Proposal.
5 CONTRACTOR shall provide for the prompt and orderly conclusion of all Work, as AUTHORITY may
6 direct, including completion or partial completion of projects, documentation of Work in process, and other
7 measures to assure an orderly transition to the successor(s). All Work related to Disentanglement as
8 may reasonably be requested by AUTHORITY shall be deemed a part of the base Work and shall be
9 performed by CONTRACTOR at no additional cost to AUTHORITY. CONTRACTOR's obligation to
10 provide the Work shall not cease until Disentanglement is satisfactory to AUTHORITY, including the
11 performance by CONTRACTOR of all asset-transfers and other obligations of CONTRACTOR provided
12 in this Article, has been completed.

13 C. The Disentanglement process shall begin on any of the following dates: (i) the date prior
14 to end of AGREEMENT, which AUTHORITY has provided in its Notice that CONTRACTOR should
15 commence Disentanglement (ii) the date, prior to the end of any initial or extended term when
16 AUTHORITY provides Notice to CONTRACTOR that AUTHORITY elected not to extend pursuant to the
17 AGREEMENT, or (iii) the date at which any Termination Notice is delivered, if AUTHORITY elects to
18 terminate any or all of the Work pursuant to this AGREEMENT.

19 D. CONTRACTOR and AUTHORITY shall discuss in good faith a plan for executing
20 CONTRACTOR's Disentanglement obligations and for the transfer of Work in accordance with the Scope
21 of Work and Requirements, however, CONTRACTOR's obligation under this AGREEMENT to provide
22 all Work necessary for Disentanglement shall not be lessened in any respect. CONTRACTOR shall
23 develop with the new provider and/ or AUTHORITY staff, an End of Agreement Transition Plan as set
24 forth in the Scope of Work and Requirements describing the nature and extent of transition Work required.
25 An updated End of Agreement Transition Plan and dates for transferring responsibilities for each division
26 of Work shall be submitted within thirty (30) Calendar Days of Notice provided under Paragraph C of this

1 Article. Upon completion of AUTHORITY review, all parties will meet and resolve any additional
2 requirements/differences. CONTRACTOR shall be required to perform its Disentanglement obligations
3 on an expedited basis, as determined by AUTHORITY, if AUTHORITY terminates the AGREEMENT for
4 cause.

5 E. Specific Obligations

6 The Disentanglement shall include the performance of the following specific obligations:

7 1. Third-Party Authorizations:

8 Without limiting the obligations of CONTRACTOR pursuant to any other clause herein,
9 CONTRACTOR shall, subject to the terms of any third-party contracts and licenses provided by
10 CONTRACTOR, procure at no charge to AUTHORITY any third-party authorizations necessary to grant
11 AUTHORITY the use and benefit of any third-party contracts and licenses between CONTRACTOR and
12 third-party contractors used to provide the Work, pending their assignment to AUTHORITY.

13 2. Transfer of Assets:

14 CONTRACTOR shall convey to AUTHORITY all AUTHORITY assets in
15 CONTRACTOR's possession and other CONTRACTOR Project assets as AUTHORITY may select, or
16 dispose of such assets in accordance with the Article 42, Disposition of BOS as a Service.

17 3. Transfer of Leases, Licenses, and Contracts:

18 CONTRACTOR, at its expense, shall convey or assign to AUTHORITY such leases,
19 licenses, and other contracts used by CONTRACTOR, AUTHORITY, or any other person in connection
20 with the Work, as AUTHORITY may select. CONTRACTOR's obligation described herein, shall include
21 CONTRACTOR's performance of all obligations under such leases, licenses, and other contracts to be
22 performed by it with respect to periods prior to the date of conveyance or assignment and CONTRACTOR
23 shall reimburse AUTHORITY for any losses resulting from any claim that CONTRACTOR did not perform
24 any such obligations. CONTRACTOR shall also obtain for AUTHORITY the right, upon Disentanglement,
25 to obtain maintenance (including all Enhancements , Updates, and Upgrades) and support with respect
26 to the assets that are the subject of such leases and licenses at the price at which, and for so long as,

1 such maintenance and support is made commercially available to other customers of such third parties
2 whose consent is being procured hereunder. CONTRACTOR shall transfer Intellectual Property in
3 accordance with Articles 25, 26, and 27.

4 4. Delivery of Documentation:

5 CONTRACTOR shall deliver to AUTHORITY all documentation and data related to
6 AUTHORITY, including AUTHORITY data held by CONTRACTOR. CONTRACTOR shall retain all data
7 necessary to comply with the requirements for record retention and audit established in this
8 AGREEMENT.

9 5. Hiring of CONTRACTOR Employees:

10 CONTRACTOR shall cooperate with (and shall cause its Subcontractors to cooperate
11 with) AUTHORITY in offering employment, at the sole discretion of AUTHORITY, to any or all skilled or
12 specially trained CONTRACTOR employees (and to any or all employees of CONTRACTOR's
13 Subcontractors) that are substantially involved in the provision of Work whether such offers are made at
14 the time of, after, or in anticipation of expiration or termination of the AGREEMENT Term.

15 6. Maintenance of Assets:

16 CONTRACTOR shall maintain all Hardware, Software, Systems, networks, technologies,
17 and other assets utilized in providing Work to AUTHORITY (including leased and licensed assets) in good
18 condition and in such locations and configurations as to be readily identifiable and transferable to
19 AUTHORITY or its designees in accordance with the provisions of this AGREEMENT; additionally,
20 CONTRACTOR shall insure such assets in accordance with this AGREEMENT.

21 7. Continued Provision of Staffing:

22 CONTRACTOR shall provide sufficient experienced personnel in each division of Work
23 during the entire transition period to ensure that the Work is maintained at the level of proficiency required
24 by the AGREEMENT.

25 F. CONTRACTOR shall remain obligated to provide Work at AUTHORITY's request for up
26 to twelve (12) months after completion and Approval of the Disentanglement Work enumerated above,

1 and AUTHORITY shall pay for this Work at the rates set forth in the AGREEMENT for additional services.

2 This paragraph F expressly survives the Term.

3 **ARTICLE 37. CONFLICT OF INTEREST**

4 A. CONTRACTOR agrees to avoid organizational conflicts of interest. An organizational
5 conflict of interest means that due to other activities, relationships or contracts, CONTRACTOR is unable,
6 or potentially unable to render impartial assistance or advice to AUTHORITY; CONTRACTOR's
7 objectivity in performing the Work identified in the Scope of Work and Requirements is or might be
8 otherwise impaired; or CONTRACTOR has an unfair competitive advantage or is engaging in activities
9 that AUTHORITY considers adverse to the 405 Express Lanes. CONTRACTOR is obligated to fully
10 disclose to AUTHORITY in writing Conflict of Interest issues as soon as they are known to
11 CONTRACTOR. All disclosures must be submitted in writing to AUTHORITY pursuant to the Notice
12 provision herein. This disclosure requirement is for the entire Term of this AGREEMENT.

13 **ARTICLE 38. PROHIBITION**

14 A. The firm, including all Subcontractors (at any tier), regardless of the level of service
15 provided by said Subcontractor(s), awarded the program management services contract for the Highway
16 Delivery Department, may not perform Work under this AGREEMENT.

17 B. The firm, including all Subcontractors (at any tier), regardless of the level of service
18 provided by said Subcontractor(s), awarded the program management consultant contract for the I-405
19 Improvement Project, may not perform Work under this AGREEMENT.

20 C. The evaluation of team composition with regards to conflicts of interest will be done on a
21 case-by-case basis.

22 **ARTICLE 39. CODE OF CONDUCT**

23 CONTRACTOR agrees to comply with AUTHORITY's Code of Conduct as it relates to third-
24 party contracts, which is hereby referenced and by this reference is incorporated herein.
25 CONTRACTOR agrees to include these requirements in all of its subcontracts.

26 /

1 **ARTICLE 40. HEALTH AND SAFETY REQUIREMENTS**

2 CONTRACTOR shall comply with all the requirements set forth in Exhibit F, titled "Level 1
3 HEALTH, SAFETY and ENVIRONMENTAL SPECIFICATIONS." As used therein, "CONTRACTOR"
4 shall mean "CONTRACTOR," and "Subcontractor" shall mean "Sub-contractor."

5 **ARTICLE 41. CONTRACTOR PURCHASED EQUIPMENT**

6 A. Prior Approval by AUTHORITY's Project Manager shall be required before
7 CONTRACTOR enters into any unbudgeted purchase order, or subcontract. CONTRACTOR shall
8 provide an evaluation of the necessity or desirability of incurring such costs.

9 B. For purchase of any item, service or consulting work not covered in CONTRACTOR's
10 Cost Proposal and exceeding \$2,500.00, three (3) competitive quotations must be submitted with the
11 request, or the absence of bidding (sole source) must be adequately justified.

12 C. Any Equipment purchased as a result of this AGREEMENT is subject to the following:
13 CONTRACTOR shall maintain an inventory of all nonexpendable property. Nonexpendable property is
14 defined as having useful life of at least one year and an acquisition cost of \$5,000.00 or more. Upon the
15 expiration or termination of this AGREEMENT, AUTHORITY may elect to retain the Equipment, require
16 CONTRACTOR to decommission and dispose of the Equipment at no cost to AUTHORITY, or require
17 CONTRACTOR to sell such Equipment at the best price obtainable at a public or private sale, and credit
18 AUTHORITY in an amount equal to the sale price. AUTHORITY may also elect to allow CONTRACTOR
19 to keep the Equipment, in which case AUTHORITY and CONTRACTOR shall come to agreement on a
20 mutually acceptable fair market value price. AUTHORITY may elect to require CONTRACTOR to hire an
21 appraiser at CONTRACTOR's cost, in order to determine a basis for a fair market value price. If
22 CONTRACTOR sells the Equipment, the terms and conditions of such sale must be Approved in advance
23 by AUTHORITY. CFR, Title 49, Part 18 requires a credit to Federal funds when participating equipment
24 with a fair market value greater than \$5,000.00 is credited to the project.

25 D. All subcontracts entered into as a result of this AGREEMENT shall contain all of the
26 provisions of this Article.

1 **ARTICLE 42. DISPOSITION OF BOS AS A SERVICE**

2 AUTHORITY shall have the right to assume all required licenses, leases, and service agreements
3 to allow uninterrupted use, operation and Maintenance of the Equipment and services under the same
4 terms as those provided to CONTRACTOR for such services.

5 CONTRACTOR shall effect the transfer of title, or assignment of leases, service agreements and
6 licenses, as applicable, as a part of the Disentanglement Work and AGREEMENT closeout.

7 **ARTICLE 43. OWNERSHIP OF REPORTS AND DOCUMENTS**

8 A. . The originals of all letters, documents, reports and other products and data produced
9 under this Agreement shall be delivered to, and become the property of AUTHORITY, and
10 CONTRACTOR shall have no property right therein whatsoever. Copies may be made for
11 CONTRACTOR's records but shall not be furnished to others without written authorization from
12 AUTHORITY. Immediately upon termination, AUTHORITY shall be entitled to, and CONTRACTOR shall
13 deliver to AUTHORITY, reports, investigations, appraisals, inventories, studies, analyses, drawings and
14 data estimates performed to that date, whether completed or not, and other such materials as may have
15 been prepared or accumulated to date by CONTRACTOR in performing this Agreement which is not
16 CONTRACTOR's privileged information, as defined by law, or CONTRACTOR's personnel information,
17 along with all other property belonging exclusively to City which is in CONTRACTOR's possession.
18 Publication of the information derived from work performed or data obtained in connection with services
19 rendered under this Agreement must be approved in writing by AUTHORITY.

20 B. Additionally, it is agreed that such deliverables shall be deemed works made for hire.
21 CONTRACTOR acknowledges and agrees that the work (and all rights therein, including without
22 limitation, copyright) belongs to and shall be the sole and exclusive property of AUTHORITY without
23 restriction or limitation upon its use or dissemination by AUTHORITY.

24 C. All ideas, memoranda, specifications, plans, manufacturing, procedures, drawings,
25 descriptions, and all other written information submitted to CONTRACTOR in connection with the
26 performance of this AGREEMENT shall not, without prior written Approval of AUTHORITY, be used for

1 any purposes other than the performance under this AGREEMENT, nor be disclosed to an entity not
2 connected with such performance.

3 D. CONTRACTOR acknowledges and agrees that privacy of 405 Express Lanes customers is
4 of paramount importance to AUTHORITY and its customers. CONTRACTOR shall comply with
5 AUTHORITY's privacy policies, all applicable Governmental Rules, and Business Rules pertaining to
6 confidentiality, privacy, handling, retention, reporting and disclosure, and limiting or restricting collection,
7 use or dissemination of PII and shall not sell, transfer, disclose or otherwise use such information for any
8 purpose other than in performance of its duties under this AGREEMENT. CONTRACTOR shall indemnify
9 AUTHORITY with regard to any failure to comply with this Article 43 in accordance with Article 14,
10 Indemnification.

11 E. CONTRACTOR may only use AUTHORITY's Data to perform functions as defined by this
12 AGREEMENT, including the Scope of Work and Requirements. Access to AUTHORITY's Data shall be
13 restricted only to CONTRACTOR's and its Subcontractor's personnel who need the AUTHORITY's Data
14 to perform their duties in the performance of this AGREEMENT, and shall not, at any time, be disclosed
15 or divulged except as expressly provided herein.

16 F. CONTRACTOR shall inform all of its officers, employees, agents, and Subcontractors
17 providing Work of the confidentiality provisions of this AGREEMENT. CONTRACTOR shall require that
18 any CONTRACTOR personnel, Subcontractor(s) or other third party with whom CONTRACTOR will
19 disclose or disseminate AUTHORITY Data, in whole or in part, execute and adhere to an agreement
20 incorporating the provisions of this Section. Nothing in this Article shall allow CONTRACTOR to disclose
21 or disseminate AUTHORITY Data without prior written consent and CONTRACTOR shall deliver to
22 AUTHORITY all executed agreements with Subcontractors prior to any authorized disclosure and
23 dissemination.

24 G. Subject to Paragraph C in the case of PII, CONTRACTOR may use such information for
25 Violation processing and collection and shall release the PII to:

26 /

1 1. AUTHORITY, upon request, for the purposes of carrying out this AGREEMENT
2 or functions with respect to the 405 Express Lanes Project; and

3 2. California DMV, other state DMVs, or other third parties Approved in advance by
4 AUTHORITY to receive PII as necessary to assist in collection of debt or payments owing.

5 H. CONTRACTOR shall implement physical, electronic and managerial safeguards to prevent
6 unauthorized access to PII and to implement destruction of records containing PII in accordance with the
7 records retention provisions of this AGREEMENT.

8 I. CONTRACTOR shall not use AUTHORITY's names, logos, branding, photographs of the
9 Project, or any other publicity pertaining to the Project in any professional publication, magazine, trade
10 paper, newspaper, seminar or other medium without the express written consent of AUTHORITY.

11 J. No copies, sketches, computer graphics or graphs, including graphic artwork, are to be
12 released by CONTRACTOR to any other person or agency except after prior written Approval by
13 AUTHORITY, except as necessary for the performance of Work under this AGREEMENT. All press
14 releases, including graphic display information to be published in newspapers, magazines, etc., are to be
15 handled only by AUTHORITY unless otherwise agreed to by CONTRACTOR and AUTHORITY.

16 K. Applicable patent rights provisions regarding rights to inventions shall be included in the
17 AGREEMENT as appropriate (48 CFR 27, Subpart 27.3 - Patent Rights under Government Contracts for
18 federal-aid contracts).

19 L. AUTHORITY may permit copyrighting reports or other agreement products. If copyrights are
20 permitted, the Agreement shall provide that the FHWA shall have the royalty-free nonexclusive and
21 irrevocable right to reproduce, publish, or otherwise use; and to authorize others to use, the work for
22 government purposes.

23 **ARTICLE 44. AUDIT AND INSPECTION OF RECORDS**

24 A. CONTRACTOR and any subcontractor shall permit AUTHORITY, the State, and the
25 FHWA if federal participating funds are used in this Agreement, to review and inspect the project activities
26 and files at all reasonable times during the performance period of this Agreement.

1 B. For the purpose of determining compliance with the Public Contract Code 10115, et seq.
2 and Title 21, California Code of Regulations, Chapter 21, Section 2500 et seq., when applicable and other
3 matters connected with the performance of the AGREEMENT pursuant to Government Code 8546.7;
4 CONTRACTOR, Subcontractors, and AUTHORITY shall maintain and make available for inspection all
5 books, documents, papers, accounting records, and other evidence pertaining to the performance of the
6 AGREEMENT, including but not limited to, the costs of administering the AGREEMENT. All parties shall
7 make such materials available at their respective offices at all reasonable times during the AGREEMENT
8 period and for four (4) years from the date of final payment under the AGREEMENT. The State of
9 California, State Auditor, AUTHORITY, FHWA, their duly authorized representative or other agents of
10 AUTHORITY or any duly representative of the Federal Government shall have access to any books,
11 records, payroll documents, facilities and documents of CONTRACTOR and its certified public
12 accountants (CPA) work papers that are pertinent to the AGREEMENT and indirect cost rate (ICR) for
13 audit, examinations, excerpts, and transactions, and copies thereof shall be furnished if requested.

14 C. CONTRACTOR shall maintain such books, records, data and documents in accordance
15 with generally accepted accounting principles and the CFR, Title 48, Chapter 1, Part 31 of the Federal
16 Acquisition Regulation System (FAR) and shall clearly identify and make such items readily accessible
17 to such parties during CONTRACTOR's performance hereunder.

18 D. AUTHORITY's right to audit books and records directly related to this AGREEMENT shall
19 also extend to all first-tier Subcontractors performing work identified in Article 35, Assignments and
20 Subcontracts, of this AGREEMENT, and such language must be included in CONTRACTOR's
21 agreements with its Subcontractors, resulting from this AGREEMENT.

22 **ARTICLE 45. AUDIT REVIEW PROCEDURES**

23 A. Any dispute concerning a question of fact arising under an interim or post audit of this
24 AGREEMENT that is not disposed of by agreement, shall be reviewed by AUTHORITY's Internal Audit.

25 /

26 /

1 B. Not later than thirty (30) Calendar Days after issuance of the final audit report,
2 CONTRACTOR may request a review by AUTHORITY's Internal Audit of unresolved audit issues. The
3 request for review shall be submitted in writing.

4 C. Neither the pendency of a dispute nor its consideration by AUTHORITY will excuse
5 CONTRACTOR from full and timely performance, in accordance with the terms of this AGREEMENT.

6 **ARTICLE 46. COST PRINCIPLES AND ADMINISTRATIVE REQUIREMENTS**

7 A. CONSULANT agrees that the CFR, Title 48, Chapter 1, Part 31, Contract Cost Principles
8 and Procedures, shall be used to determine the cost allowability of individual terms of costs.

9 B. CONTRACTOR also agrees to comply with Federal procedures in accordance with CFR,
10 Title 2, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for
11 Federal Awards.

12 C. Any costs for which payment has been made to CONTRACTOR that are determined by
13 subsequent audit to be unallowable under CFR Title 48, Part 31 or CFR Title 2, Part 200, are subject to
14 repayment by CONTRACTOR to AUTHORITY.

15 **ARTICLE 47. CONTRACT WORK HOURS AND SAFETY STANDARDS**

16 A. If the maximum cumulative payment obligation of this AGREEMENT exceeds \$100,000,
17 CONTRACTOR agrees to comply with the Federal Contract Work Hours and Safety Standards (40
18 U.S.C. Section 3701 et seq. as supplemented by 29 CFR part 5). Under 40 U.S.C. Section 3702,
19 CONTRACTOR shall compute the wages of every mechanic and laborer, including watchmen and
20 guards, on the basis of a standard work week of forty (40) hours.

21 1. Overtime requirements: CONTRACTOR, and any Subcontractor contracting for
22 any part of the Contract Work which may require or involve the employment of laborers or mechanics,
23 shall not require or permit any such laborer or mechanic in any workweek in which he or she is employed
24 on such work to work in excess of forty (40) hours in such workweek unless such laborer or mechanic
25 receives compensation at a rate not less than one and one-half (1.5) times the basic rate of pay for all
26 hours worked in excess of forty (40) hours in such workweek.

1 2. Violation; liability for unpaid wages; liquidated damages: In the event of any
2 violation of paragraph (A) of this Article, CONTRACTOR and any Subcontractor responsible therefor shall
3 be liable for the unpaid wages. In addition, CONTRACTOR and Subcontractor shall be liable to the
4 United States for liquidated damages. Such liquidated damages shall be computed with respect to each
5 individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set
6 forth in paragraph (A) of this Article, in the sum of \$10 for each Calendar Day on which such individual
7 was required or permitted to work in excess of the standard workweek of forty (40) hours without payment
8 of the overtime wages required by paragraph (A) of this Article.

9 3. Withholding for unpaid wages and liquidated damages: FTA shall upon its own
10 action or upon written request of an authorized representative of the Department of Labor withhold or
11 cause to be withheld, from any moneys payable on account of work performed by CONTRACTOR or
12 Subcontractor under any such contract or any other Federal contract with CONTRACTOR, or any other
13 federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held
14 by CONTRACTOR, such sums as may be determined to be necessary to satisfy any liabilities of
15 CONTRACTOR or Subcontractor for unpaid wages and liquidated damages as provided in this Article.

16 4. Subcontracts: CONTRACTOR shall insert in any subcontracts the clauses set
17 forth in paragraphs (A) of this Article and also a clause requiring the Subcontractors to include these
18 clauses in any lower tier subcontracts. CONTRACTOR shall be responsible for compliance by any
19 Subcontractor or lower tier Subcontractor with the clauses set forth in paragraph A of this Article.

20 B. CONTRACTOR agrees to comply with U.S. DOL Regulations, "Recording and Reporting
21 Occupational Injuries and Illnesses," 29 CFR part 1904; "Occupational Safety and Health Standards," 29
22 CFR part 1910; and "Safety and Health Regulations for Construction," 29 CFR part 1926.

23 **ARTICLE 48. GENERAL WAGE RATES AND DAVIS-BACON AND COPELAND ANTI-**
24 **KICKBACK ACTS**

25 A. State Prevailing Wage and Labor Code Requirements. Notice is hereby given that, in
26 accordance with the provisions of California Labor Code, Division 2, Part 7, Chapter 1, Articles 1 and 2,

1 CONTRACTOR is required to pay not less than the general prevailing rate of per diem wages for work of
2 a similar character in the locality in which the public works is performed, and not less than the general
3 prevailing rate of per diem wages for holiday and overtime work. In that regard, the Director of the
4 Department of Industrial Relations of the State of California (DIR) is required to and has determined such
5 general prevailing rates of per diem wages. CONTRACTOR agrees to comply with the provisions of
6 California Labor Code Sections 1771, 1774 and 1775 concerning the payment of prevailing rates of
7 wages to workers and the penalties for failure to pay prevailing wages. Copies of such prevailing rates
8 of per diem wages may be obtained online at (<http://www.dir.ca.gov/>), are on file at the AUTHORITY's
9 office, and will be available to any interested party upon request. In accordance with the Labor Code, no
10 workman employed upon Work under this AGREEMENT shall be paid less than the above referenced
11 prevailing wage rate. A copy of said rates shall be posted at each job site during the course of
12 construction.

13 1. This AGREEMENT is subject to compliance monitoring and enforcement by the
14 DIR. The DIR shall monitor and enforce compliance with applicable prevailing wage requirements for
15 this AGREEMENT. The reporting requirements may be found at [https://www.dir.ca.gov/Public-
16 Works/Contractors.html](https://www.dir.ca.gov/Public-Works/Contractors.html). CONTRACTOR is responsible for complying with all requirements of the DIR,
17 including filing electronic payroll reports.

18 2. Pursuant to Labor Code Section 1771.1, CONTRACTOR and any Subcontractor
19 shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of
20 the Public Contract Code, or engage in the performance of any contract for public work on a public works
21 project unless registered with the DIR and qualified to perform public work pursuant to Labor Code
22 Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit
23 a bid that is authorized by Business and Professions Code Section 7029.1 or by Public Contract Code
24 Section 10164 or 20103.5, provided CONTRACTOR is registered to perform public work pursuant to
25 Section 1725.5 at the time the Contract is awarded. CONTRACTOR shall not perform any work under
26 this AGREEMENT with any Subcontractor who is ineligible to perform work on the public works project

1 pursuant to Section 1777.1 or 1777.7 of the Labor Code.

2 3. Pursuant to Labor Code Section 1771.4, CONTRACTOR will post all job site
3 notices, as prescribed by regulation.

4 4. CONTRACTOR, and all Subcontractors, shall comply with the provisions of Labor
5 Code Sections 1777.5 and 1777.6 concerning the employment of apprentices. CONTRACTOR shall
6 have full responsibility for compliance with such Labor Code sections for all apprenticeable occupations,
7 regardless of any other contractual or employment relationships alleged to exist.

8 5. CONTRACTOR agrees to comply with the provisions of Labor Code Section
9 1776, including the keeping of payroll records and furnishing certified copies thereof in accordance with
10 said Section. CONTRACTOR is responsible for compliance with Section 1776 by all Subcontractors.

11 6. CONTRACTOR agrees to comply with all applicable Labor Code provisions
12 governing legal working hours and shall forfeit, as a penalty to AUTHORITY, twenty-five dollars (\$25.00)
13 for each laborer, workman or mechanic employed in the execution of the contract, by him or any sub-
14 contractor under him, upon any of the work hereinbefore mentioned, for each Calendar Day during which
15 the laborer, workman or mechanic is required or permitted to labor more than eight (8) hours in any one
16 Calendar Day and forty (40) hours in any one calendar week in violation of the Labor Code.

17 7. In accordance with the provisions of Labor Code Section 3700, CONTRACTOR
18 will be required to secure the payment of compensation to his or her employees.

19 B. Federal Prevailing Wage Rates and Anti-Kickback.

20 1. CONTRACTOR shall comply with the Davis-Bacon Act, 40 U.S.C. Sections 3141-
21 3144 and Sections 3146-3148, as supplemented by U.S. DOL regulations at 29 CFR part 5, "Labor
22 Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction."
23 Under 49 U.S.C. Section 5333(a), prevailing wage protections apply to laborers and mechanics employed
24 on FTA-assisted construction, alteration, or repair projects. In accordance with the statute,
25 CONTRACTOR shall pay wages to laborers and mechanics at a rate not less than the prevailing wages
26 specified in a wage determination made by the Secretary of Labor. CONTRACTOR agrees to pay wages

1 not less than once per week. CONTRACTOR shall comply with the Davis-Bacon Labor Provisions of 2
2 CFR Section 5.5, as set forth in Exhibit A, "General Provisions."

3 2. CONTRACTOR shall comply with the Copeland "Anti-Kickback" Act (40 U.S.C.
4 Section 3145), as supplemented by U.S. DOL regulations at 29 CFR part 3, "Contractors and
5 Subcontractors on Public Building or Public Work Financed in Whole or in part by Loans or Grants from
6 the United States." CONTRACTOR is prohibited from inducing, by any means, any person employed in
7 the construction, completion, or repair of public work, to give up any part of the compensation to which
8 he or she is otherwise entitled.

9 **ARTICLE 49. PROHIBITION ON PROVIDING ADVOCACY SERVICES**

10 CONTRACTOR and all Subcontractors performing work under this AGREEMENT, shall be
11 prohibited from concurrently representing or lobbying for any other party competing for a contract with
12 AUTHORITY, either as a prime contractor or subcontractor. Failure to refrain from such representation
13 may result in termination of this AGREEMENT.

14 **ARTICLE 50. FEDERAL, STATE AND LOCAL LAWS**

15 CONTRACTOR warrants that in the performance of this AGREEMENT, it shall comply with all
16 applicable federal, state and local laws, statutes and ordinances and all lawful orders, rules and
17 regulations promulgated thereunder.

18 **ARTICLE 51. EQUAL EMPLOYMENT OPPORTUNITY**

19 In connection with its performance under this AGREEMENT, CONTRACTOR shall not
20 discriminate against any employee or applicant for employment because of race, religion, color, sex, age
21 or national origin. CONTRACTOR shall take affirmative action to ensure that applicants are employed,
22 and that employees are treated during their employment, without regard to their race, religion, color, sex,
23 age or national origin. Such actions shall include, but not be limited to, the following: employment,
24 upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay
25 or other forms of compensation; and selection for training, including apprenticeship.

26 /

1 **ARTICLE 52. STATEMENT OF COMPLIANCE**

2 During the performance of this AGREEMENT, CONTRACTOR, for itself, its assignees and
3 successors in interest agree as follows:

4 A. CONTRACTOR's signature affixed herein, and dated, shall constitute a certification under
5 penalty of perjury under the laws of the State of California that CONTRACTOR has, unless exempt,
6 complied with, the nondiscrimination program requirements of Government Code Section 12990 and Title
7 2, California Administrative Code, Section 8103.

8 B. Nondiscrimination: During the performance of this AGREEMENT, CONTRACTOR and its
9 Subcontractors shall not unlawfully discriminate, harass, or allow harassment against any employee or
10 applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical
11 disability (including HIV and AIDS), mental disability, medical condition (e.g., cancer), age (over 40),
12 marital status, and denial of family care leave. CONTRACTOR and Subcontractors shall insure that the
13 evaluation and treatment of their employees and applicants for employment are free from such
14 discrimination and harassment. CONTRACTOR and Subcontractors shall comply with the provisions of
15 the Fair Employment and Housing Act (Gov. Code §12990 (a-f) et seq.) and the applicable regulations
16 promulgated there under (California Code of Regulations, Title 2, Section 7285 et seq.). The applicable
17 regulations of the Fair Employment and Housing Commission implementing Government Code Section
18 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are
19 incorporated into this AGREEMENT by reference and made a part hereof as if set forth in full.
20 CONTRACTOR and its Subcontractors shall give written notice of their obligations under this clause to
21 labor organizations with which they have a collective bargaining or other agreement.

22 C. Compliance with Regulations: CONTRACTOR shall comply with regulations relative to
23 Title VI (nondiscrimination in federally-assisted programs of the Department of Transportation – Title 49
24 Code of Federal Regulations, Part 21 - Effectuation of Title VI of the 1964 Civil Rights Act). Title VI
25 provides that the recipients of federal assistance will implement and maintain a policy of nondiscrimination
26 in which no person in the State of California shall, on the basis of race, color, national origin, religion, sex,

1 age, disability, be excluded from participation in, denied the benefits of or subject to discrimination under
2 any program or activity by the recipients of federal assistance or their assignees and successors in
3 interest.

4 D. Solicitations for Subcontracts, Including Procurement of Materials and Equipment:

5 CONTRACTOR, with regard to the Work performed by it during the AGREEMENT shall act in accordance
6 with Title VI. Specifically, the CONTRACTOR shall not discriminate on the basis of race, color, national
7 origin, religion, sex, age, or disability in the selection and retention of Subcontractors, including
8 procurement of materials and leases of equipment. The CONTRACTOR shall not participate either
9 directly or indirectly in the discrimination prohibited by Section 21.5 of the U.S. DOT's Regulations,
10 including employment practices when the AGREEMENT covers a program whose goal is employment.

11 E. Information and Reports: CONTRACTOR shall provide all information and reports

12 required by the Regulations or directives issued pursuant thereto, and shall permit access to its books,
13 records, accounts, other sources of information, and its facilities as may be determined by AUTHORITY
14 to be pertinent to ascertain compliance with such regulations, orders and instructions. Where any
15 information required of CONTRACTOR is in the exclusive possession of another who fails or refuses to
16 furnish this information, CONTRACTOR shall so certify to AUTHORITY as appropriate, and shall set forth
17 what efforts it has made to obtain the information.

18 F. Sanctions for Noncompliance: In the event of CONTRACTOR's noncompliance with

19 nondiscrimination provisions of this AGREEMENT, AUTHORITY shall impose sanctions as it may
20 determine to be appropriate, including, but not limited to:

21 1. Withholding of payments to CONTRACTOR under the AGREEMENT until

22 CONTRACTOR complies; and/or

23 2. Cancellation, termination, or suspension of the AGREEMENT, in whole or in part.

24 G. The Americans with Disabilities Act of 1990, as amended (ADA), 42 U.S.C. Sections

25 12101 *et seq.*, prohibits discrimination against qualified individuals with disabilities in all programs,

26 /

1 activities, and services of public entities, as well as imposes specific requirements on public and private
2 providers of transportation.

3 H. Incorporation of Provisions: CONTRACTOR shall include the provisions of paragraphs
4 (A) through (G) in every lower-tier subcontract, which exceeds \$100,000, including procurements of
5 materials and leases of equipment, unless exempt by the regulations, or directives issued pursuant
6 thereto, and that all such sub recipients shall certify and disclose accordingly. CONTRACTOR shall take
7 such action with respect to any subcontract or procurement as AUTHORITY may direct as a means of
8 enforcing such provisions including sanctions for noncompliance. Provided, however, that in the event
9 CONTRACTOR becomes involved in, or is threatened with, litigation with a Subcontractor or Supplier as
10 a result of such direction, the CONTRACTOR may request AUTHORITY to enter into such litigation to
11 protect the interests of AUTHORITY, and, in addition, CONTRACTOR may request the United States to
12 enter into such litigation to protect the interests of the United States.

13 **ARTICLE 53. NOTICE OF LABOR DISPUTE**

14 Whenever CONTRACTOR has knowledge that any actual or potential labor dispute may delay
15 its performance under this AGREEMENT, CONTRACTOR shall immediately notify and submit all
16 relevant information to AUTHORITY. CONTRACTOR shall insert the substance of this entire clause in
17 any subcontract hereunder as to which a labor dispute may delay performance under this AGREEMENT.
18 However, any Subcontractor need give notice and information only to its next higher-tier Subcontractor.

19 **ARTICLE 54. CLEANING UP**

20 A. CONTRACTOR shall at all times keep the Facilities and Sites, including storage areas
21 used by it, clean and free from accumulations of waste material or rubbish. Upon completion of the Work,
22 CONTRACTOR shall leave the Facilities and Sites in a clean, neat and workmanlike condition satisfactory
23 to AUTHORITY.

24 B. After completion of all Work on the Project, and before making application for Final
25 Acceptance of the Work in the Implementation Phase and Project closeout in the O&M Phase, Project
26 closeout by AUTHORITY will be withheld until CONTRACTOR has satisfactorily complied with the

1 foregoing requirements for final cleanup of the Project.

2 C. Full compensation for conforming to the provisions in this Article, not otherwise provided
3 for, shall be considered as included in price of this AGREEMENT and no additional compensation will be
4 allowed therefore.

5 **ARTICLE 55. RACE-CONSCIOUS DBE CONTRACT PROVISIONS FOR DOT-ASSISTED**
6 **CONTRACTOR CONTRACTS**

7 A. AUTHORITY or CONTRACTOR shall not discriminate on the basis of race, color, national
8 origin, or sex in the performance of this Contract. The CONTRACTOR shall carry out applicable
9 requirements of 49 CFR Part 26 in the award and administration of U.S. DOT-assisted contracts. Failure
10 by the CONTRACTOR to carry out these requirements is a material breach of this Agreement, which may
11 result in the termination of this Agreement or such other remedy as the AUTHORITY deems appropriate,
12 which may include, but is not limited to:

- 13 (1) Withholding monthly progress payments;
- 14 (2) Assessing sanctions;
- 15 (3) Liquidated damages; and/or
- 16 (4) Disqualifying the CONTRACTOR from future proposing as non-responsible.

17 CONTRACTOR agrees to include these requirements in all subcontracts at any tier.

18 B. In conformance with Title 49 CFR Part 26, "Participation by Disadvantaged Business
19 Enterprises in Department of Transportation Financial Assistance Programs," AUTHORITY has
20 established a three (3%) percent Disadvantaged Business Enterprise (DBE) participation goal for the
21 services required in this Agreement.

22 C. At the time of contract execution, the CONTRACTOR committed to utilize one or more
23 Disadvantaged Business Enterprise (DBE) Firms in the performance of this DOT-assisted contract.
24 CONTRACTOR agrees to enter into agreements with the DBE subcontractors listed on Attachment
25 "CONTRACTOR Contract DBE Commitment Caltrans Exhibit 10-O2", Form D-1, and ensure they
26 perform

1 /

2 work and/or supply materials in accordance with original commitments. No changes to CONTRACTOR's
3 DBE commitment shall be made until proper review and approval by AUTHORITY is rendered in writing.

4 D. CONTRACTOR must take appropriate actions to ensure that it will satisfy good faith
5 efforts to attain the DBE goal and/or the DBE commitment made at award (whichever is higher), when
6 change orders or other modifications alter the dollar amount of the Agreement or the distribution of work.
7 CONTRACTOR must apply and report its DBE goal commitment against the total current Agreement
8 value, including any change orders and/or amendments.

9 E. If there is a DBE goal and/or DBE commitment on the Agreement, CONTRACTOR must
10 complete and submit within the specified timelines, DBE documentation electronically through an
11 AUTHORITY-approved electronic reporting system.

12 F. CONTRACTOR shall comply with all the requirements set forth in Attachment A titled,
13 "DISADVANTAGED BUSINESS ENTERPRISE (DBE) CONTRACT PROVISIONS FOR U.S. DOT-
14 ASSISTED CONTRACTS", which is attached to and, by this reference, incorporated in and made a part
15 of this Agreement.

16 **ARTICLE 56. PROHIBITED INTERESTS**

17 D. CONTRACTOR covenants that, for the Term of this AGREEMENT, no director, member,
18 officer or employee of AUTHORITY during his/her tenure in office or for one (1) year thereafter, shall have
19 any interest, direct or indirect, in this AGREEMENT or the proceeds thereof.

20 E. No member of or delegate to, the Congress of the United States shall have any interest,
21 direct or indirect, in this AGREEMENT or to the benefits thereof.

22 **ARTICLE 57. COVENANT AGAINST CONTINGENT FEES**

23 CONTRACTOR warrants that he/she has not employed or retained any company or person, other
24 than a bona fide employee working for the CONTRACTOR; to solicit or secure this AGREEMENT; and
25 that he/she has not paid or agreed to pay any company or person other than a bona fide employee, any
26 fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting

1 from the award, or formation of this AGREEMENT. For breach or violation of this warranty, AUTHORITY
2 shall have the right to annul this AGREEMENT without liability, or at its discretion; to deduct from the
3 AGREEMENT price or consideration, or otherwise recover the full amount of such fee, commission,
4 percentage, brokerage fee, gift, or contingent fee.

5 **ARTICLE 58. PROHIBITION OF EXPENDING LOCAL AGENCY, STATE OR FEDERAL**
6 **FUNDS FOR LOBBYING**

7 A. CONTRACTOR certifies to the best of his or her knowledge and belief that:

8 1. No state, federal or local agency appropriated funds have been paid, or will be
9 paid by-or-on behalf of CONTRACTOR to any person for influencing or attempting to influence an officer
10 or employee of any local, State or Federal agency; a Member of the State Legislature or United States
11 Congress; an officer or employee of the Legislature or Congress; or any employee of a Member of the
12 Legislature or Congress, in connection with the awarding or making of this Agreement, or with the
13 extension, continuation, renewal, amendment, or modification of this Agreement.

14 2. If any funds other than Federal appropriated funds have been paid, or will be paid
15 to any person for influencing or attempting to influence an officer or employee of any agency, a Member
16 of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection
17 with this Agreement, CONTRACTOR shall complete and submit Standard Form-LLL, "Disclosure Form
18 to Report Lobbying", in accordance with its instructions.

19 B. This certification is a material representation of fact upon which reliance was placed when
20 this transaction was made or entered into. Submission of this certification is a prerequisite for making or
21 entering into this transaction imposed by U.S. Code Title 31 Section 1352,. Any person who fails to file
22 the required certification shall be subject to a civil penalty of not less than ten thousand (\$10,000) dollars
23 and not more than one hundred thousand (\$100,000) Dollars for each such failure.

24 C. CONTRACTOR also agrees by signing this document that he or she shall require that the
25 language of this certification be included in all lower-tier subcontracts, which exceed one hundred
26 thousand (\$100,000) dollars, and that all such sub recipients shall certify and disclose accordingly.

1 /

2 **ARTICLE 59. PRIVACY ACT**

3 A. CONTRACTOR shall comply with, and assures the compliance of its employees with, the
4 information restrictions and other applicable requirements of the Privacy Act of 1974, 5 U.S.C. §552a.
5 Among other things, CONTRACTOR agrees to obtain the express consent of the Federal Government
6 before the CONTRACTOR or its employees operate a system of records on behalf of the Federal
7 Government. CONTRACTOR understands that the requirements of the Privacy Act, including the civil
8 and criminal penalties for violation of that Act, apply to those individuals involved, and that failure to
9 comply with the terms of the Privacy Act may result in termination of the underlying AGREEMENT.

10 B. CONTRACTOR agrees to include this requirement in all its subcontracts at any tier.

11 **ARTICLE 60. INCORPORATION OF FEDERAL TERMS**

12 All contractual provisions required by United States Department of Transportation (USDOT),
13 including the Federal Highway Administration (FHWA), whether or not expressly set forth in this
14 document, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all
15 federally mandated terms shall be deemed to control in the event of a conflict with other provisions
16 contained in this AGREEMENT. CONTRACTOR shall not perform any act, fail to perform any act, or
17 refuse to comply with any requests, which would cause AUTHORITY to be in violation of the USDOT or
18 FHWA terms and conditions.

19 **ARTICLE 61. FEDERAL CHANGES**

20 CONTRACTOR shall at all times comply with all applicable USDOT regulations, policies,
21 procedures and directives, including without limitation those listed directly or by reference in the
22 agreement between AUTHORITY and USDOT, as they may be amended or promulgated from time to
23 time during this AGREEMENT. CONTRACTOR's failure to comply shall constitute a material breach of
24 AGREEMENT.

25 **ARTICLE 62. NO FEDERAL GOVERNMENT OBLIGATION TO THIRD PARTIES**

26 AUTHORITY and CONTRACTOR acknowledge and agree that, notwithstanding any

1 concurrence by the Federal Government in or approval of the solicitation or award of the underlying
2 AGREEMENT, absent the express written consent by the Federal Government, the Federal Government
3 is not a party to this AGREEMENT and shall not be subject to any obligations or liabilities to AUTHORITY,
4 CONTRACTOR, or any other party (whether or not a party to this AGREEMENT) pertaining to any matter
5 resulting from the underlying AGREEMENT. CONTRACTOR agrees to include these requirements in all
6 of its Subcontracts.

7 **ARTICLE 63. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS AND**
8 **RELATED ACTS**

9 A. CONTRACTOR acknowledges that the provisions of the Program Fraud Civil Remedies
10 Act of 1986, as amended, 31 U.S.C. §§3801 et seq. and U.S. DOT regulations, "Program Fraud Civil
11 Remedies," 49 C.F.R. Part 31, apply to its actions pertaining to this Project. Accordingly, by signing this
12 AGREEMENT, CONTRACTOR certifies or affirms the truthfulness and accuracy of any statement it has
13 made, it makes, it may make, or causes to be made, pertaining to the underlying agreement of the FHWA
14 assisted project for which this AGREEMENT's work is being performed. CONTRACTOR also
15 acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement,
16 submission, or certification, the Federal Government reserves the right to impose penalties of the
17 Program Fraud Civil Remedies Act of 1986 on the CONTRACTOR to the extent the Federal Government
18 deems appropriate.

19 B. CONTRACTOR also acknowledges that if it makes, or causes to be made, a false,
20 fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under an
21 agreement connected with a project that is financed in whole or part with Federal assistance awarded by
22 FHWA under the authority of 49 U.S.C. §5307 et seq., the Government reserves the right to impose the
23 penalties of 18 U.S.C. §1001 and 49 U.S.C. §5307(n) (1) et seq. on the CONTRACTOR, to the extent
24 the Federal Government deems appropriate. CONTRACTOR agrees to include this requirement in all of
25 its subcontracts.

26 /

1 /

2 **ARTICLE 64. RECYCLED PRODUCTS**

3 A. CONTRACTOR shall comply with all the requirements of Section 6002 of the Resource
4 Conservation and Recovery Act (RCRA), as amended (42 U.S.C. 6962), including but not limited to the
5 regulatory provisions of CFR, Title 40, Part 247, and Executive Order 12873, as they apply to the
6 procurement of the items designated in subpart B of CFR, Title 40, Part 247.

7 B. CONTRACTOR agrees to include this requirement in all of its Subcontracts.

8 **ARTICLE 65. ENERGY CONSERVATION REQUIREMENTS**

9 CONTRACTOR shall comply with mandatory standards and policies relating to energy efficiency,
10 which are contained in the state energy conservation plan issued in compliance with the Energy Policy
11 Conservation Act.

12 **ARTICLE 66. CLEAN AIR**

13 A. CONTRACTOR shall comply with all applicable standards, orders or regulations issued
14 pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 et seq. CONTRACTOR shall report each
15 violation to AUTHORITY, who will in turn, report each violation as required to assure notification to FTA
16 and the appropriate EPA Regional Office. CONTRACTOR agrees to include this requirement in all of its
17 Subcontracts.

18 B. CONTRACTOR agrees to include this requirement in each subcontract exceeding
19 \$150,000.

20 **ARTICLE 67. CLEAN WATER REQUIREMENTS**

21 A. CONTRACTOR shall comply with all applicable standards, orders or regulations issued
22 pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. Section 1251 et seq.
23 CONTRACTOR shall report any violations of use of prohibited facilities to the USDOT and US EPA.

24 B. CONTRACTOR agrees to include this requirement in each subcontract exceeding
25 \$150,000.

26 /

1 /

ARTICLE 68. FLY AMERICA REQUIREMENT

CONTRACTOR agrees to comply with 49 U.S.C. 40118 (the "Fly America" Act) in accordance with the General Services Administration's regulations at 41 CFR Part 301-10, which provide that recipients and sub recipients of Federal funds and their contractors are required to use U.S. Flag air carriers for the U.S. Government-financed international air travel and transportation of their personal effects or property, to the extent such service is available, unless travel by foreign air carrier is a matter of necessity, as defined by the Fly America Act. CONTRACTOR shall submit, if a foreign air carrier was used, an appropriate certification or memorandum adequately explaining why service by a U.S. carrier was not available or why it was necessary to use a foreign air carrier and shall, in any event, provide a certificate of compliance with the Fly America requirements. CONTRACTOR agrees to include the requirements of this section in all subcontracts that may involve international air transportation.

ARTICLE 69. BUY AMERICA

A. If the maximum cumulative payment obligation of this AGREEMENT exceeds one hundred fifty thousand dollars (\$150,000), CONTRACTOR shall comply with the "Buy America" requirements of 49 U.S.C. Section 5323(j) and 49 CFR part 661, as amended, which provide that Federal funds may not be obligated unless all steel, iron, and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver.

B. CONTRACTOR shall furnish a Certificate of Compliance, conforming to the provisions of this Article, for all steel and iron materials.

C. CONTRACTOR shall ensure all Subcontractors at every tier comply with these requirements.

ARTICLE 70. DEBARMENT AND SUSPENSION CERTIFICATION

A. CONTRACTOR's signature affixed herein, shall constitute a certification under penalty of perjury under the laws of the State of California, that CONTRACTOR or any person associated therewith

1 in the capacity of owner, partner, director, officer or manager:

2 1. Is not currently under suspension, debarment, voluntary exclusion, or determination of
3 ineligibility by any federal agency;

4 2. Has not been suspended, debarred, voluntarily excluded, or determined ineligible by any
5 federal agency within the past three (3) years;

6 3. Does not have a proposed debarment pending; and

7 4. Has not been indicted, convicted, or had a civil judgment rendered against it by a court of
8 competent jurisdiction in any matter involving fraud or official misconduct within the past three (3) years.

9 B. Any exceptions to this certification must be disclosed in writing to the AUTHORITY.
10 Exceptions will not necessarily result in denial of recommendation for award, but will be considered in
11 determining CONTRACTOR responsibility. Disclosures must indicate to whom exceptions apply, initiating
12 agency, and the dates of agency action.

13 C. Exceptions to the Federal Government Excluded Parties List System maintained by the
14 General Services Administration are to be determined by the Federal Highway Administration.

15 **ARTICLE 71. NATIONAL LABOR RELATIONS BOARD CERTIFICATION**

16 In accordance with Public Contract Code Section 10296, CONTRACTOR hereby states under
17 penalty of perjury that no more than one final unappealable finding of contempt of court by a federal court
18 has been issued against CONTRACTOR within the immediately preceding two-year period because
19 of CONTRACTOR's failure to comply with an order of a federal court that orders CONTRACTOR to
20 comply with an order of the National Labor Relations Board.

21 **ARTICLE 72. CONFIDENTIALITY OF DATA**

22 A. All financial, statistical, personal, technical, or other data and information relative to the
23 AUTHORITY's operations, which are designated confidential by the AUTHORITY and made available to
24 the CONTRACTOR in order to carry out this Agreement, shall be protected by the CONTRACTOR from
25 unauthorized use and disclosure.

26 /

1 /

2 B. Permission to disclose information on one occasion, or public meeting held by the
3 AUTHORITY relating to the Agreement, shall not authorize the CONTRACTOR to further disclose such
4 information or disseminate the same on any other occasion.

5 C. CONTRACTOR shall not comment publicly to the press or any other media regarding the
6 Agreement or LOCAL AGENCY's actions on the same, except to LOCAL AGENCY's staff,
7 CONTRACTOR's own personnel involved in the performance of this Agreement, at public hearings, or in
8 response to questions from a Legislative committee.

9 D. CONTRACTOR shall not issue any news release or public relations item of any nature,
10 whatsoever, regarding work performed or to be performed under this Agreement without prior review of
11 the contents thereof by the AUTHORITY, and receipt of the AUTHORITY's written permission.

12 **ARTICLE 73. REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION**

13 CONTRACTOR warrants that this Agreement was not obtained or secured through
14 rebates, kickbacks or other unlawful consideration, either promised or paid to any AUTHORITY
15 employee. For breach or violation of this warranty, AUTHORITY shall have the right in its discretion, to
16 terminate the Agreement without liability, to pay only for the value of the work actually performed, or to
17 deduct from the Agreement price, or otherwise recover the full amount of such rebate, kickback or other
18 unlawful consideration.

19 **ARTICLE 74. EVALUATION OF CONTRACTOR**

20 CONTRACTOR's performance will be evaluated by AUTHORITY. A copy of the evaluation will
21 be sent to CONTRACTOR for comments. The evaluation together with any comments shall be retained
22 as part of the Agreement record.

23 **ARTICLE 75. FORCE MAJEURE**

24 Either party shall be excused from performing its obligations under this AGREEMENT during the
25 time and to the extent that it is prevented from performing by an unforeseeable cause beyond its control,
26 including but not limited to: any incidence of fire, flood; acts of God; commandeering of material, products,

1 plants or facilities by the federal, state or local government; national fuel shortage; or a material act or
2 omission by the other party; when satisfactory evidence of such cause is presented to the other party;
3 and provided further that such nonperformance is unforeseeable, beyond the control and is not due to
4 the fault or negligence of the party not performing.

5 **ARTICLE 76. NO THIRD-PARTY BENEFICIARIES**

6 Unless otherwise expressly stated herein, it is not intended under this Agreement to create any third-
7 party beneficiaries under the Agreement or to authorize anyone not a Party to the Agreement to
8 maintain any legal action or other proceeding for any cause of action or claim based on the Agreement.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) CONTRACT PROVISIONS FOR U.S. DOT-ASSISTED CONTRACTS

I. DBE Participation

It is the CONTRACTOR'S responsibility to be fully informed regarding the requirements of 49 CFR, Part 26 and AUTHORITY's DBE program developed pursuant to these regulations.

If CONTRACTOR has committed to utilize a DBE in the performance of this U.S. DOT-assisted contract, CONTRACTOR'S submitted "DBE Participation Commitment Form," in combination with the executed subcontract and/or purchase order will be utilized to monitor CONTRACTOR'S DBE commitment. Unless otherwise directed and/or approved by AUTHORITY prior, CONTRACTOR must not effectuate any changes to its DBE participation commitment.

CONTRACTOR must complete and submit all required DBE documentation to effectively capture DBE utilization on AUTHORITY's U.S. DOT-assisted contracts whether achieved race neutrally or race consciously. No changes to CONTRACTOR'S DBE commitment shall be made until proper review and approval by AUTHORITY is rendered in writing.

To ensure full compliance with the requirements of 49 CFR, Part 26 and AUTHORITY's DBE Program, CONTRACTOR must:

- A. Take appropriate actions to ensure that it will satisfy good faith efforts to meet the DBE agreement goal and continue to meet the DBE commitment made at award, when change orders or other modifications alter the dollar amount of the Agreement or the distribution of work. CONTRACTOR must apply and report its DBE goal commitment against the total Agreement value, including any change orders and/or amendments.

II. DBE Policy and Applicability

In accordance with federal financial assistance agreements with the U.S. Department of Transportation ("U.S. DOT"), AUTHORITY has adopted a Disadvantaged Business Enterprise ("DBE") Policy and Program in conformance with Title 49 CFR, Part 26, "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs".

The project is subject to these stipulated regulations and AUTHORITY's DBE Program. To ensure that AUTHORITY achieves its overall DBE Program goals and objectives, AUTHORITY encourages the participation of DBEs as defined in 49 CFR, Part 26, in the performance of agreements financed in whole or in part with U.S. DOT funds. Pursuant to the intent of these Regulations, it is also the policy of AUTHORITY to:

Fulfill the spirit and intent of the DBE Program regulations published under U.S. DOT Title 49 CFR, Part 26, by ensuring that DBEs have an equitable opportunity to compete for and participate in AUTHORITY's U.S. DOT-assisted contracts and subcontracts. AUTHORITY is firmly committed to the DBE Program objectives, which are designed to:

- A. Ensure non-discrimination in the award and administration of AUTHORITY's U.S. DOT-assisted contracts;
- B. Create a level playing field by which DBE's can fairly compete for AUTHORITY's U.S. DOT-assisted contracts;
- C. Ensure that AUTHORITY's DBE Program and Overall Goals are narrowly tailored in accordance with applicable law;
- D. Ensure that only firms that fully meet 49 CFR, Part 26 eligibility standards are permitted to participate as DBE's in the AUTHORITY's DBE Program;
- E. Help remove barriers which impede the participation of DBE's in AUTHORITY's U.S. DOT-assisted contracts;
- F. Promote the use of DBE's in all types of U.S. DOT-assisted contracts and procurement activities conducted by AUTHORITY;
- G. Provide training and other assistance through our resource partners to address capital, bonding, and insurance needs;
- H. Assist in the development of DBE firms that can compete successfully in the marketplace outside of the DBE Program; and
- I. Establish and provide opportunities for DBEs by providing flexibility in the implementation of AUTHORITY's DBE Program.

CONTRACTOR must not discriminate on the basis of race, color, national origin, or sex in the award and performance of subcontractor. Any terms used in this section that are defined in 49 CFR, Part 26, or elsewhere in the Regulations, must have the meaning set forth in the Regulations. In the event of any conflicts or inconsistencies between the Regulations and AUTHORITY's DBE Program with respect to U.S. DOT-assisted contracts, the Regulations must prevail.

III. AUTHORITY's DBE Policy Implementation Directives

Pursuant to the provisions associated with Title 49 CFR, Part 26, the Disadvantaged Business Enterprise ("DBE") Program exists to ensure participation, equitable competition, and assistance

to participants in the U.S. DOT DBE program. Accordingly, based on the AUTHORITY's analysis of its past utilization data, coupled with Overall Goal Methodology findings and examination of similar Agencies' disparity studies, AUTHORITY's DBE Program is implemented utilizing both race-conscious and race-neutral means. When a contract-specific DBE goal is assigned to a project, meeting the contract-specific goal by committing to utilize DBEs, or documenting a bona fide good faith effort to do so, is a condition of award.

A. Definitions

The following definitions apply to the terms used in these provisions:

1. **"Disadvantaged Business Enterprise (DBE)"** means a small business concern:
(a) which is at least fifty-one percent (51%) owned by one or more socially and economically disadvantaged individuals or, in the case of any publicly-owned business, at least fifty-one percent (51%) of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.
2. **"Small Business Concern"** means a small business as defined pursuant to Section 3 of the Small Business Act and Small Business Administration (SBA) regulations implementing it (13 CFR Part 121) that also does not exceed the cap on average annual gross receipts specified in §26.65(b).
3. **"Socially and Economically Disadvantaged Individuals"** means any individual who is a citizens (or lawfully admitted permanent resident) of the United States and who has been subjected to racial or ethnic prejudice or cultural bias within American society because of his or her identity as a member of groups and without regard to his or her individual qualities. The social disadvantage must stem from circumstances beyond the individual's control.
 - a) Any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis. An individual must demonstrate that he or she has held himself or herself out, as a member of a designated group if you require it.
 - b) Any individual in the following groups, members of which are rebuttably presumed to be socially and economically disadvantaged:
 - i. "Black Americans," which includes persons having origins in any of the Black racial groups of Africa";
 - ii. "Hispanic Americans," which includes persons of Mexican, Puerto Rican, Cuban, Dominican, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race";

- iii. "Native Americans," which includes persons who are enrolled members of a federally or State recognized Indian tribe, Alaskan Natives, or Native Hawaiians";
 - iv. "Asian-Pacific Americans," which includes persons whose origins are from Japan, China, Taiwan, Korea, Burma (Myanmar), Vietnam, Laos, Cambodia (Kampuchea), Thailand, Malaysia, Indonesia, the Philippines, Brunei, Samoa, Guam, the U.S. Trust Territories of the Pacific Islands (Republic of Palau), Republic of the Northern Marianas Islands, Samoa, Macao, Fiji, Tonga, Kirbati, Tuvalu, Nauru, Federated States of Micronesia, or Hong Kong";
 - v. "Subcontinent Asian Americans," which includes persons whose origins are from India, Pakistan, Bangladesh, Bhutan, the Maldives Islands, Nepal or Sri Lanka;"
 - vi. Women; and
 - vii. Any additional groups whose members are designated as socially and economically disadvantaged by the SBA, at such time as the SBA designation becomes effective.
- c) Being born in a particular country does not, standing alone, mean that a person is necessarily a member of one of the groups listed in this definition.
4. **"Owned and Controlled"** means a business: (a) which is at least 51 percent owned by one or more "Socially and Economically Disadvantaged Individuals" or, in the case of a publicly-owned business, at least 51 percent of the stock of which is owned by one or more "Socially and Economically Disadvantaged Individuals"; and (b) whose management and daily business operations are controlled by one or more such individuals.
5. **"Manufacturer"** means a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the CONTRACTOR.
6. **"Regular Dealer"** means a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials or supplies required for the performance of the Agreement are bought, kept in stock, and regularly sold to the public in the usual course of business. The firm must engage in, as its principal business, and in its own name, the purchase and sale of the product in question. A regular dealer in such bulk items as steel, cement, gravel, stone and petroleum products need not keep such products in stock if it owns or operates distribution equipment.
7. **"Fraud"** includes a firm that does not meet the eligibility criteria of being a certified DBE and attempts to participate in a U.S. DOT-assisted program as a DBE on the basis of false, fraudulent, or deceitful statements or representations, or under circumstances indicating a serious lack of business integrity or honesty. AUTHORITY may take enforcement action under 49 CFR, Part 31, Program Fraud and Civil

Remedies, against any participant in the DBE program whose conduct is subject to such action under 49 CFR, Part 31. AUTHORITY may refer cases of identified fraud to the Department of Justice, for prosecution under 18 U.S.C. 1001, or any other applicable provisions of law. Any person who makes a false or fraudulent statement in connection with participation of a DBE in any U.S. DOT-assisted program or otherwise, violates applicable Federal statutes.

8. **“Other Socially and Economically Disadvantaged Individuals”** means those individuals who are citizens of the United States (or lawfully admitted permanent residents), and who, on a case-by-case basis, are determined by Small Business Administration or AUTHORITY to meet the social and economic disadvantage criteria described below.

B. “Social Disadvantage”

1. The individual's social disadvantage must stem from his/her color, national origin, gender, physical handicap, long-term residence in an environment isolated from the mainstream of American society, or other similar cause beyond the individual's control.
2. The individual must demonstrate that he/she has personally suffered social disadvantage.
3. The individual's social disadvantage must be rooted in treatment which he/she has experienced in American society, not in other countries.
4. The individual's social disadvantage must be chronic, longstanding and substantial; not fleeting or insignificant.
5. The individual's social disadvantage must have negatively affected his/her entry into and/or advancement in the business world.
6. A determination of social disadvantage must be made before proceeding to make a determination of economic disadvantage.

C. “Economic Disadvantage”

1. The individual's ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities, as compared to others in the same line of business and competitive market area that are not socially disadvantaged.
2. The following criteria will be considered when determining the degree of diminished credit and capital opportunities of a person claiming social and economic disadvantage:

With respect to the individual:

- availability of financing
- bonding capability
- availability of outside equity capital
- available markets

With respect to the individual and the business concern:

- personal and business assets
- personal and business net worth
- personal and business income and profits

IV. Submission of DBE Information and Ongoing Reporting Requirements (Post-Award)

If there is a DBE goal and/or DBE commitment on the Agreement, CONTRACTOR must complete and submit within the specified timelines, the following DBE documentation, electronically through e-mail or an AUTHORITY-approved electronic reporting system consistent with CONTRACTOR'S DBE goal commitment:

- A. "Monthly DBE subcontractor Commitment and Attainment Report Summary and Payment Verification" (Form 103)

The purpose of this form is to ensure CONTRACTOR DBE commitments are attained, properly reported, and credited in accordance with DBE crediting provisions based on the capacity the DBE performs the scope of work/service. This form further serves to collect DBE utilization data required under 49 CFR, Part 26.

The CONTRACTOR is required to complete and submit this form to AUTHORITY by the 10th of each month until completion of the Agreement. CONTRACTOR must submit first Form 103 following the first month of Agreement activity. Even if no DBE participation will be reported within a period, CONTRACTOR must execute and return the form.

The Form 103 must include the following information:

1. General Agreement Information – Including Agreement Number and Title, CONTRACTOR Name and the following:
 - a) Original Agreement Amount
 - b) Running Total of Change Order Amount
 - c) Current Agreement Amount
 - d) Amount Paid to CONTRACTOR during Month
 - e) Amount Paid to CONTRACTOR from Inception to Date
 - f) DBE Contract Goal
 - g) Total Dollar Amount of DBE Commitment

- h) DBE Commitment as Percentage of Current Agreement Amount
2. Listed and Proposed CONTRACTOR/Subcontractor Information – For All DBE participation being claimed either race-neutrally or race-consciously, regardless of tier:
- a) DBE Firm Name, Address, Phone Number, DBE Capacity Type, Certification Type and Certification Number.
 - b) DBE Firm Contract Value Information:
Original Contract Amount, running total of change order amount, Current Contract Amount, Amount Paid to CONTRACTOR or Subcontractor(s) During Month and Amount Paid to CONTRACTOR or Subcontractor(s) to date.

CONTRACTOR is advised not to report the participation of DBE(s) toward the CONTRACTOR'S DBE attainment until the amount being claimed has been paid to the DBE.

3. CONTRACTOR Assurance of Full Compliance with Prompt Payment Provisions

CONTRACTOR must sign the prompt payment assurance statement of compliance contained within the Monthly Form 103, providing assurance that timely payments have been issued to all Subcontractors in accordance with regulatory mandates and as required by 49 CFR Part 26.29.

4. CONTRACTOR Payment Verification Summary

CONTRACTOR is to further maintain and submit a Verification of Payment Summary inclusive of a detailed running tally of related invoices submitted by DBE(s) and non-DBE(s), including dates of invoice submission, dates accepted and corresponding dates and amount of payment made. The Verification of Payment Summary must also include:

DBE(s) and non DBE(s) invoice number, invoice amount, invoice date, CONTRACTOR'S invoice number that incorporated the corresponding DBE and non-DBE invoice(s) for billing purposes, date of invoice submission to AUTHORITY, date and amount AUTHORITY paid on CONTRACTOR'S Invoice. The report must reflect a breakout of retention withheld (including retention as specified in subcontract agreement(s) and disputed invoice retention) and retention payments made, check number and date paid to DBEs and non-DBEs.

CONTRACTOR to submit a Verification of Payment Summary with the Monthly Form 103 submission for each DBE firm in which CONTRACTOR has reflected a value

paid within the reporting period. Verification of Payment Summary must be signed by the applicable DBE and submitted with Form 103 to authenticate reported payments.

B. "Monthly DBE Trucking Verification" Form

Prior to the 10th of each month, CONTRACTOR must submit documentation on the "Monthly DBE Trucking Verification," Form to AUTHORITY showing the amount paid to DBE trucking companies. CONTRACTOR must also obtain and submit documentation to AUTHORITY showing the amount paid by DBE trucking companies to all firms, including owner-operators, for the leasing of trucks. If the DBE leases trucks from a non-DBE, CONTRACTOR may count only the fee or commission the DBE receives as a result of the lease arrangement.

CONTRACTOR must also obtain and submit documentation to AUTHORITY showing the truck number, owner's name, California Highway Patrol CA number, and if applicable, the DBE certification number of the owner of the truck for all trucks used during that month.

C. DBE Subcontract Agreements

CONTRACTOR must submit to AUTHORITY copies of executed subcontracts and/or purchase orders (PO) for all DBE firms participating on the contract within ten (10) working days of award. CONTRACTOR must immediately notify AUTHORITY in writing, of any problems it may have in obtaining the subcontract agreements from listed DBE firms within the specified time.

D. Semi-Annual Subcontractor Paid Report Summary

AUTHORITY will require CONTRACTOR (inclusive of DBE primes) to report payment data to lower-tiers on a semi-annual basis each year, using the "Semi-Annual Subcontractor Paid Report Summary." These reports will capture payments to CONTRACTOR and payments to non-DBEs within the respective reporting period. Reported payments to lower-tiers must include a signed payment verification form.

CONTRACTOR will adhere to the following submittal schedule:

- April 10th Report, reporting period: October 1st through March 31st
- October 10th Report, reporting period: April 1st through September 30th

E. Final Report-Utilization of Disadvantaged Business Enterprises (DBE)

Upon completion of the project, CONTRACTOR must complete and submit a "Final Report-Utilization of Disadvantaged Business Enterprises (DBE), Subcontractors," certified correct by CONTRACTOR or the CONTRACTOR'S authorized representative,

to facilitate reporting and capturing DBE attainments at conclusion of the project. The form must be furnished to AUTHORITY within thirty (30) days from the date of the project. The amount of ten-thousand dollars (\$10,000) will be withheld from payment until a satisfactory form is submitted.

F. Disadvantaged Business Enterprises (DBE) Certification Status Change

If a DBE Subtractor is decertified during the life of the project, the decertified Subcontractor must notify the CONTRACTOR in writing with the date of decertification. If a Subcontractor becomes a certified DBE during the life of the project, the Subcontractor must notify CONTRACTOR in writing with the date of certification (Attach DBE certification/decertification letter). CONTRACTOR must furnish the written documentation to AUTHORITY within ten (10) days of receipt. Upon completion of the project, the "Disadvantaged Business Enterprises (DBE) Certification Status Change" must be signed and certified correct by the CONTRACTOR indicating the DBEs' existing certification status. If there are no changes, indicate "No Changes." The signed and certified form must be furnished to AUTHORITY within thirty (30) days from the date of project acceptance.

Failure to submit any of the required submittals above and their support documentation within the specified timeline shall result in a penalty of ten dollars (\$10) per day, per submittal document.

AUTHORITY requires CONTRACTOR to maintain records and documents of payments to lower-tiers, including DBEs, for a period of four (4) years from the date of final payment by AUTHORITY, unless otherwise provided by applicable record retention requirements for CONTRACTOR'S agreement, whichever is longer. These records will be made available for inspection upon request by any authorized representative of AUTHORITY. This reporting requirement extends to all lower-tiers, both DBE and non-DBE.

AUTHORITY reserves the right, at its sole discretion, to demonstrate responsiveness to requirements of CFR 49 Part 26.37 by implementing the following method(s):

- a) Posting CONTRACTOR payment data to a website, database, or other place accessible to Subcontractors to assist them in determining when they should expect to receive payment.
- b) Requiring CONTRACTOR to use an automated reporting system, inclusive of, but not limited to, real time entry of payments made and received by CONTRACTOR and their lower-tiers.

V. DBE Eligibility and Commercially Useful Function Standards

A DBE must be certified at the time of bid/proposal submission:

1. A DBE must be a small business firm defined pursuant to 13 CFR Part 121 and be certified through the California Unified Certification Program (“CUCP”) at the time of bid submission. A listing of DBEs certified by the CUCP is available at the following source:

The CUCP web site, which can be accessed at <http://www.dot.ca.gov/hq/bep>.

2. A DBE may participate as a prime CONTRACTOR, Subcontractor, joint venture partner, vendor of material or supplies, or as a trucking company.
3. A DBE joint venture partner must be responsible for specific contract items of work, or clearly defined portions thereof. Responsibility means actually performing, managing, and supervising the work with its own work forces. The DBE joint venture partner must share in the capital contribution, control, management, risks, and profits of the joint venture commensurate with its ownership interest.
4. The use of joint-checks for DBE firms must be approved by AUTHORITY prior to execution, and a joint-check agreement must accompany the request to AUTHORITY.
5. A DBE must perform a commercially useful function in accordance with 49 CFR Part 26.55 (i.e. must be responsible for the execution of a distinct element of the work, and must carry out its responsibility by actually performing, managing, and supervising the work). A DBE should perform at least thirty percent (30%) of the total cost of its contract with its own workforce to presume it is performing a commercially useful function.

VI. DBE Crediting Provisions

- A. When a DBE is proposed to participate in the Agreement, at any tier, only the value of the work proposed to be performed by the DBE with its own work force may be counted towards DBE participation. If CONTRACTOR is a DBE joint venture participant, only the DBE proportionate interest in the joint venture must be counted.
 1. If a DBE intends to subcontract part of the work of its subcontract to a lower-tier Subcontractor, the value of the subcontracted work may be counted toward DBE participation only if the Subcontractor is a certified DBE and performs the work with their own forces. Services subcontracted to a non-DBE firm may not be credited toward the CONTRACTOR’S DBE attainment.
 2. CONTRACTOR is to calculate and credit participation by eligible DBE vendors of equipment, materials, and supplies toward DBE attainment as follows:
 - a) Sixty percent (60%) of expenditures for equipment, materials, and supplies

- required under the Agreement obtained from a regular dealer; or
- b) One hundred percent (100%) of expenditures for equipment, materials, and supplies required under the Agreement obtained from a DBE manufacturer.
3. The following types of fees or commissions paid to DBE Subcontractors, Brokers, and Packagers may be credited toward CONTRACTOR'S DBE attainment, provided that the fee or commission is reasonable and not excessive, as compared with fees or commissions customarily allowed for similar work including:
- a) Fees and commissions charged for providing bona fide professional or technical services, or procurement of essential personnel, facilities, equipment, materials, or supplies required in the performance of the Agreement;
 - b) Fees charged for delivery of material and supplies (excluding the cost of materials or supplies themselves), when the licensed hauler, trucker, or delivery service is not also the manufacturer of, or a regular dealer in, the material and supplies;
 - c) Fees and commissions charged for providing any insurance specifically required in the performance of the Agreement.
4. CONTRACTOR may count the participation of DBE trucking companies toward DBE attainment, as follows:
- a) The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract.
 - b) The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
 - c) The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates using drivers it employs.
 - d) The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the contract.
 - e) The DBE may also lease trucks from a non-DBE firm, including an owner-operator. The DBE who leases trucks equipped with drivers from a non-DBE is entitled to credit for the total value of transportation services provided by non-DBE leased trucks equipped with drivers not to exceed the value of transportation services on the contract provided by the DBE-owned trucks or leased trucks with DBE drivers. Additional participation by non-DBE owned trucks equipped with drivers receives credit only for the fee or commission it receives as a result of the lease arrangement.
 - f) The DBE may lease trucks without drivers from a non-DBE truck leasing

company and if the DBE uses its own employees as drivers, it is entitled to credit for the total value of these hauling services.

For purposes of this paragraph, a lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

5. If the CONTRACTOR listed a non-certified, 1st tier Subcontractor to perform work on this Agreement, and the non-certified Subcontractor subcontracts a part of its work or purchases materials and/or supplies from a lower tier DBE certified Subcontractor or Vendor, the value of work performed by the lower tier DBE firm's own forces can be counted toward DBE participation on the Agreement. If a DBE CONTRACTOR performs the installation of purchased materials and supplies, they are eligible for full credit of the cost of the materials.
6. CONTRACTOR is advised not to report the participation of DBE(s) toward the CONTRACTOR'S DBE attainment until the amount being claimed has been paid to the DBE.

VII. DBE Substitution, Termination and On-Going Good Faith Efforts

AUTHORITY requires that CONTRACTOR not terminate a DBE without AUTHORITY's prior written consent. This includes, but is not limited to, instances in which CONTRACTOR seeks to perform work originally designated for a DBE with its own work force or those of an affiliate, a non-DBE firm, or with another DBE firm.

AUTHORITY will provide such written consent only if it agrees, for reasons stated in the concurrence document, that CONTRACTOR has good cause to terminate the DBE firm. For purposes of this section, good cause includes the following circumstances:

- A. The listed DBE subcontractor fails or refuses to execute a written contract;
- B. The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE Subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of CONTRACTOR;
- C. The listed DBE subcontractor fails or refuses to meet CONTRACTOR'S reasonable, nondiscriminatory bond requirements;
- D. The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness;

- E. The listed DBE Subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant 2 CFR Parts 108, 215 and 1,200 or applicable state law;
- F. CONTRACTOR has determined that the listed DBE Subcontractor is not a responsible CONTRACTOR;
- G. The listed DBE subcontractor voluntarily withdraws from the project and provides to you written notice of its withdrawal;
- H. The listed DBE is ineligible to receive DBE credit for the type of work required;
- I. A DBE owner dies or becomes disabled with the result that the listed DBE CONTRACTOR is unable to complete its work on the contract;
- J. Other documented good cause that you determine compels the termination of the DBE. Provided, that good cause does not exist if CONTRACTOR seeks to terminate a DBE it relied upon to obtain the Agreement so that CONTRACTOR can self-perform the work for which the DBE CONTRACTOR was engaged or so that CONTRACTOR can substitute another DBE or non-DBE CONTRACTOR after Agreement award.

Before transmitting to AUTHORITY its request to terminate and/or substitute a DBE subcontractor, CONTRACTOR must give notice in writing to the DBE, with a copy to AUTHORITY, of its intent to request to terminate and/or substitute, and the reason for the request.

CONTRACTOR must give the DBE five (5) days to respond to CONTRACTOR'S notice and advise AUTHORITY and CONTRACTOR of the reasons, if any, why it objects to the proposed termination of its subcontract or purchase order and why AUTHORITY should not approve CONTRACTOR'S action. If required in a particular case as a matter of public necessity (e.g. safety), CONTRACTOR may provide a response period shorter than five (5) days.

In the event of an approved DBE substitution, termination, or failure of a DBE to complete its work on the contract for any reason, the DBE must be substituted with another DBE or adequate good faith efforts must be documented by CONTRACTOR within five (5) days, to the extent needed to meet the contract-specific DBE goal. Note: The five (5) day period may be extended for an additional five (5) days if necessary, at the request of the CONTRACTOR.

The substitute DBE must be certified as a DBE at the time of request for substitution. CONTRACTOR shall not be entitled to any payment for work or materials unless it is performed or supplied by the listed DBE, unless the DBE is terminated in accordance with this section and is approved by AUTHORITY.

Should CONTRACTOR elect to submit a good faith effort documentation in lieu of proposing

additional DBE participation, AUTHORITY will review the documentation and provide a written determination to CONTRACTOR stating whether or not good faith efforts have been adequately demonstrated.

The substitute DBE cannot work on the Agreement until its work eligibility has been confirmed and required subcontracts, supplies, trucking commitments, or other services have been approved by AUTHORITY.

VIII. Additional DBE Subcontractors

In the event CONTRACTOR identifies additional DBE Subcontractors or suppliers not previously identified by CONTRACTOR for DBE participation under the Agreement, CONTRACTOR must notify AUTHORITY by submitting "Request for Additional DBE Firm," to enable AUTHORITY to verify the firm's eligibility, capacity, CUF and ensure there is not a scope conflict with another listed firm. Proposed firms cannot be applied towards CONTRACTOR'S DBE participation until approved by AUTHORITY.

CONTRACTOR must also submit, for each DBE identified after contract execution, a written confirmation from the DBE acknowledging that it is participating in the contract for a specific value, including the corresponding scope of work (a subcontract agreement can serve in lieu of the written confirmation).

IX. DBE "Frauds" and "Fronts"

Only legitimate DBEs are eligible to participate as DBEs in the AUTHORITY's U.S. DOT-assisted contracts. CONTRACTOR is cautioned against knowingly and willfully using "fronts." The use of "fronts" and "pass through" subcontracts to non-disadvantaged firms constitute criminal violations. Further, any indication of fraud, waste, abuse, or mismanagement of Federal funds should be immediately reported to the Office of Inspector General, U.S. Department of Transportation at the toll-free hotline: (800) 424-9071; or to the following: 245 Murray Drive, Building 410, Washington, DC 20223; Telephone: (202) 406-570.

X. Dispute Resolution

All contracts in excess of five-hundred thousand dollars (\$500,000) shall contain provisions or conditions which will allow for dispute resolution remedies in instances where CONTRACTORs violate or breach DBE Program requirements, inclusive but not limited to, prompt payment and provide for such sanctions and penalties as may be appropriate.

CONTRACTOR shall incorporate this Section into each subcontract related to work arising under this Agreement and shall not incorporate by reference.

CONTRACTOR and subcontractor agree to notify AUTHORITY within five (5) business days of any prompt payment and/or DBE Program disputes which cannot be settled by discussions

between the parties involved.

CONTRACTOR and subcontractor further agree to proceed through informal meetings, mediation, or any combination thereof as further detailed below. Dispute submittals shall include the method(s) of dispute resolution selected, terms, timeframes, and a detailed summary of assistance being requested (as applicable).

I. INFORMAL MEETINGS:

AUTHORITY is available to assist CONTRACTOR with coordination of informal meeting requests to assist in the resolution of disputes between CONTRACTOR and subcontractor. AUTHORITY's DBELO or a designated DBE support representative will conduct the informal meetings with parties in dispute. Representatives from CONTRACTOR and subcontractor for the purpose of dispute resolution, must include individuals authorized to bind each interested party. All parties must agree to the procedure.

II. Mediation

The parties to a contract may agree to endeavor to settle a dispute through informal mediation under independent third-party organizations. AUTHORITY's DBELO and her designated support staff is considered an independent third party. Submission to informal mediation is voluntary; it is not binding and offers advisory opinions.

Performance During Dispute: Unless otherwise directed by AUTHORITY, CONTRACTOR and its sub tiers shall continue performance under the Agreement while matters in dispute are being resolved.

Flow Down Requirements: The dispute resolution provisions flow down to all tiers.

These provisions shall not apply to disputes between CONTRACTOR and AUTHORITY. These provisions do not alter in any way or waive compliance with other provisions in the Agreement.

XI. Administrative Remedies and Enforcement

CONTRACTOR must fully comply with the DBE contract requirements, including the Authority's DBE Program and Title 49 CFR, Part 26 "Participation of Disadvantaged Businesses in Department of Transportation Financial Assistance Programs," and ensure that all subcontractors, regardless of tier, are also fully compliant. Failure by CONTRACTOR to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement, or such other remedy as AUTHORITY deems appropriate, which may include, but is not limited to:

Withholding monthly progress payments;

Assessing sanctions;

Liquidated damages; and/or

Disqualifying CONTRACTOR from future bidding/proposing as non-responsible.

In instances of identified non-compliance, a Cure Notice will be issued to CONTRACTOR identifying the DBE non-compliance matter(s) and specifying the required course of action for remedy.

CONTRACTOR must be given ten (10) working days from the date of the Cure Notice to remedy or to: (1) File a written appeal accompanied with supporting documentation; and/or (2) Request a hearing with AUTHORITY to reconsider AUTHORITY's DBE determination.

Failure to respond within the ten (10) working day period will constitute a waiver of CONTRACTOR'S right to appeal. If CONTRACTOR files an appeal, AUTHORITY, must issue a written determination and/or set a hearing date within ten (10) working days of receipt of the written appeal, as applicable. A final Determination will be issued within ten (10) working days after the hearing, as applicable.

If after review of CONTRACTOR'S appeal, AUTHORITY decides to uphold the decision to impose DBE administrative remedies on CONTRACTOR, the written determination must state the specific remedy(ies) to be imposed.

Failure to comply with the Cure Notice and/or to remedy the identified DBE non-compliance matter(s) is a material breach of the Agreement and is subject to administrative remedies including withholding at a minimum of two percent (2%) of the invoice amount due per month for every month that the identified non-compliance matter(s) is not remedied. Upon satisfactory compliance, AUTHORITY will release all withholdings.

In addition to administrative remedies defined in this section, AUTHORITY is not precluded from invoking other contractual and/or legal remedies available under federal, state or local laws.

EXHIBIT F: MILESTONE PAYMENT SCHEDULE

Milestone Payment Schedule

A. Payments for System Costs (Excluding Hardware, Equipment and Off-the-Shelf Software)				
Payment Number	Payment Milestone	% Paid	Cum % Paid	\$
A-1	Notice to Proceed (Mobilization)	5.00%	5.00%	\$
A-2	Baseline Project Management Plan, Baseline Implementation Schedule, Software Development Plan and Quality Assurance Plan Approved	4.00%	9.00%	\$
A-3	I-405 CSC and WIC Facility Design Inputs	2.00%	11.00%	\$

**EXHIBIT G: LEVEL 1 HEALTH, SAFETY AND ENVIRONMENTAL
SPECIFICATIONS**

LEVEL 1 HEALTH, SAFETY AND ENVIRONMENTAL SPECIFICATIONS

PART I – GENERAL

1.1 GENERAL HEALTH, SAFETY & ENVIRONMENTAL REQUIREMENTS

- A. The Contractor, its subcontractors, suppliers, and employees have the obligation to comply with all Authority health, safety and environmental compliance department (HSEC) requirements of this safety specification, project site requirements, bus yard safety rules, as well as all federal, state, and local regulations pertaining to scope of work, contracts or agreements with the Authority. Additionally, manufacturer requirements are considered incorporated by reference as applicable to this scope of work.
- B. Observance of repeated unsafe acts or conditions, serious violation of safety standards, non-conformance of Authority health, safety and environmental compliance department (HSEC) requirements, or disregard for the intent of these safety specifications to protect people and property, by Contractor or its subcontractors may be cause for termination of scope or agreements with the Authority, at the sole discretion of the Authority.
- C. The health, safety, and environmental requirements, and references contained within this scope of work shall not be considered all-inclusive as to the hazards that might be encountered. Safe work practices shall be planned and performed, and safe conditions shall be maintained during the course of this work scope.
- D. The Authority Project Manager shall be responsible to ensure a safety orientation is conducted of known potential hazards and emergency procedures for all Contractor personnel, subcontractors, suppliers, vendors, and new employees assigned to the project prior to commencement of the project.
- E. The Contractor shall ensure that all Contractor vehicles, including those of its subcontractors, suppliers, vendors and employees are parked in designated parking areas, and comply with traffic routes, and posted traffic signs in areas other than the employee parking lots.
- F. California Code of Regulations (CCR) Title 8 Standards are minimum requirements; each Contractor is encouraged to exceed minimum requirements. When the Contractor's safety requirements exceed statutory standards, the more stringent requirements shall be achieved for the safeguard of public and workers.

G. INJURY AND ILLNESS PREVENTION PLAN

The Contractor shall submit to the Authority, a copy of their company Injury and Illness Prevention Plan (IIPP) in accordance with California Code of Regulations (CCR) Title 8, Section 3203. The intent and elements of the IIPP shall be implemented and enforced by the Contractor and its sub-tier contractors, suppliers, and vendors.

H. Contractor shall provide a copy of the Policy or Program of Company's Substance Abuse Prevention Policy that complies with the most recent Drug Free Workplace Act.

1.2 HEAT ILLNESS PREVENTION PROGRAM

A. Contractor shall provide a copy of their company Heat Illness Prevention Program in accordance with CCR Title 8, Section 3395, Heat Illness Prevention.

1.3 HAZARD COMMUNICATION

A. Contractor shall comply with CCR Title 8, Section 5194 Hazard Communication Standard. Prior to use on Authority property and/or project work areas Contractor shall provide the Authority Project Manager copies of MSDS for all applicable products used, if any.

B. All chemicals including paint, solvents, detergents and similar substances shall comply with South Coast Air Quality Management District (SCAQMD) rules 103, 1113, and 1171.

C. The Contractor shall protect property and water resources from fuels and similar products throughout the duration of the contract. Contractor shall comply with Storm Water Pollution Prevention Plan (SWPPP) requirements.

1.4 INCIDENT NOTIFICATION AND INVESTIGATION

A. The Authority shall be promptly notified of any of the following types of incidents:

1. Damage to Authority property (or incidents involving third party property damage);
2. Reportable and/or Recordable injuries (as defined by the U. S. Occupational Safety and Health Administration);
3. Incidents impacting the environment, i.e. spills or releases on Authority property.

B. Notifications shall be made to Authority representatives, employees and/or agents. This includes incidents occurring to contractors, vendors, visitors, or members of the general public that arise from the performance of Authority contract work. An immediate verbal notice followed by a written incident investigation report shall be submitted to Authority's Project Manager within 24 hours of the incident.

C. A final written incident investigative report shall be submitted within seven (7) calendar days, and include the following information. The current status of anyone injured, photos of the incident area, detailed description of what happened, the contributing factors that lead to the incident occurrence, a copy

of the company policy or procedure associated with the incident and evaluation of effectiveness, copy of the task planning documentation, and the corrective action initiated to prevent recurrence. This information shall be considered the minimum elements required for a comprehensive incident report acceptable to OCTA.

1.5 PERSONAL PROTECTIVE EQUIPMENT

- A. The Contractor, its subcontractors, suppliers, and employees are required to comply with applicable personal protective equipment (PPE) requirements while performing work at any Authority project or property. Generally minimum PPE requirements include eye protection; hearing protection, head protection, class 2 safety reflective vests, and appropriate footwear.
- B. The Contractor, its subcontractors, suppliers, and employees are required to provide their own PPE, including eye, head, foot, and hand protection, safety vests, or other PPE required to perform their work safely on Authority projects or property. The Authority requires eye protection on construction projects and work areas that meet ANSI Z-87.1 Standards.

FORM B: CAMPAIGN CONTRIBUTION DISCLOSURE FORM

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Information Sheet

ORANGE COUNTY TRANSPORTATION AUTHORITY

The attached Campaign Contribution Disclosure Form must be completed by applicants for, or persons who are the subject of, any proceeding involving a license, permit, or other entitlement for use pending before the Board of Directors of the OCTA or any of its affiliated agencies. (Please see next page for definitions of these terms.)

IMPORTANT NOTICE

Basic Provisions of Government Code Section 84308

- A. If you are an applicant for, or the subject of, any proceeding involving a license, permit, or other entitlement for use, you are prohibited from making a campaign contribution of more than \$250 to any board member or his or her alternate. This prohibition begins on the date your application is filed or the proceeding is otherwise initiated, and the prohibition ends three months after a final decision is rendered by the Board of Directors. In addition, no board member or alternate may solicit or accept a campaign contribution of more than \$250 from you during this period.
- B. These prohibitions also apply to your agents, and, if you are a closely held corporation, to your majority shareholder as well. These prohibitions also apply to your subcontractor(s), joint venturer(s), and partner(s) in this proceeding. Also included are parent companies and subsidiary companies directed and controlled by you, and political action committees directed and controlled by you.
- C. You must file the attached disclosure form and disclose whether you or your agent(s) have in the aggregate contributed more than \$250 to any board member or his or her alternate during the 12-month period preceding the filing of the application or the initiation of the proceeding.
- D. If you or your agent have in the aggregate contributed more than \$250 to any individual board member or his/or her alternate during the 12 months preceding the decision on the application or proceeding, that board member or alternate must disqualify himself or herself from the decision. However, disqualification is not required if the board member or alternate returns the campaign contribution within 30 days from the time the director knows, or should have known, about both the contribution and the fact that you are a party in the proceeding. The Campaign Contribution Disclosure Form should be completed and filed with your proposal, or with the first written document you file or submit after the proceeding commences.

1. A proceeding involving "a license, permit, or other entitlement for use" includes all business, professional, trade and land use licenses and permits, and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor or personal employment contracts), and all franchises.
2. Your "agent" is someone who represents you in connection with a proceeding involving a license, permit or other entitlement for use. If an individual acting as an agent is also acting in his or her capacity as an employee or member of a law, architectural, engineering, consulting firm, or similar business entity, both the business entity and the individual are "agents."
3. To determine whether a campaign contribution of more than \$250 has been made by you, campaign contributions made by you within the preceding 12 months must be aggregated with those made by your agent within the preceding 12 months or the period of the agency, whichever is shorter. Contributions made by your majority shareholder (if a closely held corporation), your subcontractor(s), your joint venturer(s), and your partner(s) in this proceeding must also be included as part of the aggregation. Campaign contributions made to different directors or their alternates are not aggregated.
4. A list of the members and alternates of the Board of Directors is attached.

This notice summarizes the major requirements of Government Code Section 84308 of the Political Reform Act and California Code of Regulations, Title 2 Sections 18438-18438.8.

ORANGE COUNTY TRANSPORTATION AUTHORITY
CAMPAIGN CONTRIBUTION DISCLOSURE FORM

RFP Number: _____ RFP Title: _____

Was a campaign contribution made to any OCTA Board Member within the preceding 12 months, regardless of dollar amount of the contribution by either the proposing firm, proposed Subcontractors and/or agent/lobbyist? Yes _____ No _____

If no, please sign and date below.

If yes, please provide the following information:

Prime Contractor Firm Name: _____

Contributor or Contributor Firm's Name: _____

Contributor or Contributor Firm's Address: _____

Is Contributor:

- The Prime Contractor Yes _____ No _____
- Subcontractor Yes _____ No _____
- Agent/Lobbyist hired by Prime to represent the Prime in this RFP Yes _____ No _____

Note: Under the State of California Government Code section 84308 and California Code of Regulations, Title 2, Section 18438, campaign contributions made by the Prime Contractor and the Prime Contractor's agent/lobbyist who is representing the Prime Contractor in this RFP must be aggregated together to determine the total campaign contribution made by the Prime Contractor.

Identify the Board Member(s) to whom you, your Subcontractors, and/or agent/lobbyist made campaign contributions, the name of the contributor, the dates of contribution(s) in the preceding 12 months and dollar amount of the contribution. Each date must include the exact month, day, and year of the contribution.

FORM C: STATUS OF PAST AND PRESENT CONTRACTS

STATUS OF PAST AND PRESENT CONTRACTS

On the form provided below, Offeror shall list the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract.

A separate form must be completed for each contract. Offeror shall provide an accurate contact name and telephone number for each contract and indicate the term of the contract and the original contract value. Offeror shall also provide a brief summary and the current status of the litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations. If the contract was terminated, list the reason for termination.

Offeror shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's proposal. Each form must be signed by an officer of the Offeror confirming that the information provided is true and accurate.

Project city/agency/other:	
Contact Name:	Phone:
Project Award Date:	Original Contract Value:
Term of Contract:	
(1) Litigation, claims, settlements, arbitrations, or investigations associated with contract:	
(2) Summary and Status of contract:	
(3) Summary and Status of action identified in (1):	
(4) Reason for termination, if applicable:	

By signing this Form entitled "Status of Past and Present Contracts," I am affirming that all of the information provided is true and accurate.

FORM D: DISADVANTAGED BUSINESS ENTERPRISE PROGRAM
REQUIREMENTS AND FORMS

**DISADVANTAGED BUSINESS ENTERPRISE (DBE) PROGRAM
REQUIREMENTS**

1.0 DBE Goal

To assist proposers in ascertaining DBE availability based on the specific items of work associated with this procurement, the Authority has determined that DBEs are ready, willing and able to compete for subcontracting opportunities on this project. The DBE Goal for this contract is 3%.

2.0 DBE Policy and Applicability

In accordance with federal financial assistance agreements with the U.S. Department of Transportation (“U.S. DOT”), the Orange County Transportation Authority (“Authority”) has adopted a Disadvantaged Business Enterprise (“DBE”) Policy and Program, in conformance with Title 49 CFR Part 26, “Participation by Disadvantaged Business Enterprises in Department of Transportation Programs.” The contract is subject to the following stipulated regulations. Pursuant to the intent of these Regulations, it is the policy of the Authority to fulfill the spirit and intent of the DBE Program regulations published under U.S. DOT Title 49 CFR, Part 26, by ensuring that DBEs have an equitable opportunity to compete for and participate in Authority’s U.S. DOT-assisted contracts and subcontracts. The Authority is firmly committed to its DBE Program objectives, which are designed to:

- 2.1 Ensure non-discrimination in the award and administration of Authority’s U.S. DOT-assisted contracts.
- 2.2 Create a level playing field on which DBEs can compete fairly for the Authority’s U.S. DOT-assisted contracts.
- 2.3 Ensure that the DBE Program and Overall Goal are narrowly tailored in accordance with applicable law.
- 2.4 Ensure that only firms that meet 49 CFR, Part 26 eligibility standards are permitted to participate as DBEs in the Authority’s DBE program.
- 2.5 Help remove barriers which impede the participation of DBEs in the Authority’s U.S. DOT-assisted contracts.
- 2.6 Promote the use of DBEs in all types of U.S. DOT-assisted agreements and procurement activities conducted by the Authority.
- 2.7 Provide training and other assistance through our resource partners to address capital, bonding and insurance needs.

- 2.8 Assist in the development of DBE firms that can compete successfully in the marketplace outside the DBE Program; and
- 2.9 Establish and provide opportunities for DBEs by providing flexibility in the implementation of the Authority's DBE Program.

Proposers shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of subcontracts.

Any terms used in this section that are defined in 49 CFR Part 26, or elsewhere in the Regulations, shall have the meaning set forth in the Regulations. In the event of any conflicts or inconsistencies between the Regulations and the Authority's DBE Program with respect to U.S. DOT-assisted contracts, the Regulations shall prevail.

Race-Neutral/Race-Conscious DBE Program Measures

The Authority will utilize both race-neutral and race-conscious means to meet its overall DBE Program goal.

Race-neutral measures include, but are not limited to, conducting outreach, training, providing other resource assistance and assessing proposal delivery schedules to ensure that DBEs interested in proposing for U.S. DOT-assisted solicitations are provided Additional Authority Race-Neutral measures include ensuring that DBEs and other small business are afforded ample opportunity to participate in the Authority's U.S. DOT-assisted solicitations by unbundling large contracts to make them more accessible to small businesses and requiring or encouraging prime consultants to subcontract portions of work that they might, otherwise, perform with their own work forces. Race-neutral participation also includes any time a DBE obtains a Prime Contract through customary competitive procurement procedures or is awarded a subcontract on a prime contract that does not carry a DBE goal.

In conjunction with the race-neutral measures listed above, the Authority will implement race-conscious measures through the use of contract goals and good faith efforts. When a contract-specific goal is assigned to a project, proposers must demonstrate responsiveness by committing to meet the DBE goal or documenting a bona fide good faith effort to do so, as a condition of award. Contract-specific goals are specifically targeted at DBEs certified through the California Unified Certification Program ("CUCP").

3.0 Definitions

The following definitions apply to the terms as used in these provisions:

- 3.1 "Disadvantaged Business Enterprise (DBE)"** means a for-profit small business concern: (a) which is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in the case of a corporation, in which 51 percent of the stock of which is owned by one or more such individuals; and (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.
- 3.2 "Small Business Concern"** means a small business as defined pursuant to Section 3 of the Small Business Act and Small Business Administration (SBA) regulations implementing it (13 CFR Part 121) that also does not exceed the cap on average annual gross receipts specified in §26.65(b).
- 3.3 "Socially and Economically Disadvantaged Individuals"** means any individual who is a citizen (or lawfully admitted permanent resident) of the United States and who has been subjected to racial or ethnic prejudice or cultural bias within American society because of his or her identity as a member of a group and without regard to his or her individual qualities. The social disadvantage must stem from circumstances beyond the individual's control.
- 3.3.1 Any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis. An individual must demonstrate that he or she has held himself or herself out, as a member of a designated group if you require it.
- 3.3.2 Any individual in the following groups, members of which are rebuttably presumed to be socially and economically disadvantaged:
- 3.3.2.1 "Black Americans," which includes persons having origins in any of the Black racial groups of Africa;
- 3.3.2.2 "Hispanic Americans," which includes persons of Mexican, Puerto Rican, Cuban, Dominican, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race;
- 3.3.2.3 "Native Americans," which includes persons who are enrolled members of a federally or State recognized Indian tribe, Alaska Natives, or Native Hawaiians;

- 3.3.2.4 "Asian-Pacific Americans," which includes persons whose origins are from Japan, China, Taiwan, Korea, Burma (Myanmar), Vietnam, Laos, Cambodia (Kampuchea), Thailand, Malaysia, Indonesia, the Philippines, Brunei, Samoa, Guam, the U.S. Trust Territories of the Pacific Islands (Republic of Palau), Republic of the Northern Marianas Islands, Samoa, Macao, Fiji, Tonga, Kirbati, Tuvalu, Nauru, Federated States of Micronesia, or Hong Kong;
 - 3.3.2.5 "Subcontinent Asian Americans," which includes persons whose origins are from India, Pakistan, Bangladesh, Bhutan, the Maldives Islands, Nepal or Sri Lanka;
 - 3.3.2.6 Women; and
 - 3.3.2.7 Any additional groups whose members are designated as socially and economically disadvantaged by the SBA, at such time as the SBA designation becomes effective.
- 3.3.3 Being born in a particular country does not, standing alone, mean that a person is necessarily a member of one of the groups listed in this definition.
- 3.4 "Owned and Controlled"** means a business: (a) which is at least 51 percent owned by one or more "Socially and Economically Disadvantaged Individuals" or in the case of a publicly-owned business, at least 51 percent of the stock of which is owned by one or more "Socially and Economically Disadvantaged Individuals;" and (b) whose management and daily business operations are controlled by one or more such individuals.
- 3.5 "Manufacturer"** means a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the contractor.
- 3.6 "Regular Dealer"** means a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials or supplies required for the performance of the contract are bought, kept in stock, and regularly sold to the public in the usual course of business. The firm must engage in, as its principal business, and in its own name, the purchase and sale of the product in question. A regular dealer in such bulk items as steel, cement, gravel, stone and petroleum products need not keep such products in stock if it owns or operates distribution equipment.
- 3.7 "Fraud"** includes a firm that does not meet the eligibility criteria of being a certified DBE, and that attempts to participate in a U.S. DOT-assisted

program as a DBE on the basis of false, fraudulent, or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty. The Authority may take enforcement action under 49 CFR Part 31, Program Fraud and Civil Remedies, against any participant in the DBE program whose conduct is subject to such action under 49 CFR part 31. The Authority may refer cases of identified fraud to the Department of Justice, for prosecution under 18 U.S.C. 1001, or any other applicable provisions of law. Any person who makes a false or fraudulent statement in connection with participation of a DBE in any U.S. DOT-assisted program or otherwise violates applicable Federal statutes.

3.8 ***"Other Socially and Economically Disadvantaged Individuals"*** means those individuals who are citizens of the United States (or lawfully admitted permanent residents) and who, on a case-by-case basis, are determined by Small Business Administration or the Authority to meet the social and economic disadvantage criteria described below.

3.8.1 Social Disadvantage

3.8.1.1 The individual's social disadvantage must stem from his/her color, national origin, gender, physical handicap, long-term residence in an environment isolated from the mainstream of American society, or other similar cause beyond the individual's control.

3.8.1.2 The individual must demonstrate that he/she has personally suffered social disadvantage.

3.8.1.3 The individual's social disadvantage must be rooted in treatment, which he/she has experienced in American society, not in other countries.

3.8.1.4 The individual's social disadvantage must be chronic, longstanding and substantial; not fleeting or insignificant.

3.8.1.5 The individual's social disadvantage must have negatively affected his/her entry into and/or advancement in the business world.

3.8.1.6 A determination of social disadvantage must be made before proceeding to make a determination of economic disadvantage.

3.8.2 Economic Disadvantage

3.8.2.1 The individual's ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities, as compared to others in the same line of business and competitive market area that are not socially disadvantaged.

3.8.2.2 The following criteria will be considered when determining the degree of diminished credit and capital opportunities of a person claiming social and economic disadvantage:

With respect to the individual:

- availability of financing
- bonding capability
- availability of outside equity capital
- available markets

With respect to the individual and the business concern:

- personal and business assets
- personal and business net worth
- personal and business income and profits

4.0 DBE Proposal Submission Requirements

Proposer must complete and submit the following DBE Exhibit (form) with their proposal:

- DBE Participation Commitment Form
 - Written Confirmation (required from each proposed DBE firm listed on the DBE Participation Commitment Form)

Proposer must complete and submit the following DBE Exhibits (forms) to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date:

- DBE Information - Good Faith Efforts (if sufficient participation to meet the DBE goal has not been proposed on the DBE Participation Commitment Form)
- Bidders List

Required Forms	Submission
DBE Participation Commitment Form	Required at time of proposal
Written Confirmation (for each DBE firm listed on the DBE Participation Commitment Form)	Required at time of proposal
DBE Information – Good Faith Efforts	Required no later than 4:00 p.m. on the 2 nd business day after the proposal due date
Bidders List	Required no later than 4:00 p.m. on the 2 nd business day after the proposal due date

4.1 “DBE Participation Commitment Form” (Form D-1) required at time of Proposal. The Proposer is to provide the following information for each DBE that will participate in the contract:

- 4.1.1 The complete name and address of each DBE who will participate in the contract;
- 4.1.2 Valid DBE Certification ID to confirm eligibility status through the CUCP, in conformance with 49 CFR Part 26;
- 4.1.3 A description of the work that each DBE will perform or provide;
- 4.1.4 The dollar amount of the work to be performed or provided by the DBE;
- 4.1.5 The dollar amount of the work eligible to be credited for each DBE towards the DBE goal (should not include lower-tier participation and should account for the type of work to be performed);
- 4.1.6 The proposer shall also submit, for each DBE to perform under this Agreement, a written confirmation signed and dated from each DBE listed, acknowledging that the DBE is participating in the contract for the specified dollar value and scope of work listed on the DBE Participation Commitment Form. A signed quote or proposal from the DBE firm can be used in lieu of the written confirmation; however, the dollar amount and scope(s) in the quote/proposal, and the amount and scope reflected on the DBE Participation Commitment Form must match identically.

4.2 “DBE Information - Good Faith Efforts” (Form D-2)

To be a responsible and responsive proposer, the proposer must make good faith efforts to meet the goal. The proposer can meet this requirement in two ways. (i) the proposer can meet the goal by documenting commitments for participation by DBE firms sufficient for this purpose; or (ii) the proposer can demonstrate that he/she took all necessary and reasonable steps to achieve the DBE goal or other requirement of this part, which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

If the proposer did not meet or obtain enough DBE participation to meet the DBE goal, the proposer must complete and submit the “DBE Information – Good Faith Efforts,” form demonstrating that the proposer made adequate good faith efforts to meet the goal.

If the proposer has met the DBE goal based on the participation of DBEs listed on the proposer’s “DBE Participation Commitment Form,” it is at the proposer’s discretion (i.e. this is not mandatory) to submit “DBE Information – Good Faith Efforts,” form. However, the submission of good faith efforts documentation can protect the proposer’s eligibility for award of the contract if the Authority determines that the proposer failed to meet the goal for various reasons (e.g. a DBE firm was not certified at proposal submission or the proposer made a mathematical error). Submittal of only the “DBE Information – Good Faith Efforts,” form may not provide sufficient documentation to demonstrate that adequate good faith efforts were made; therefore, the proposer is encouraged to attach additional information and supporting documents as necessary.

Good Faith Efforts documentation must be submitted to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date.

For further guidance, refer to instructions on Exhibit E-2 “DBE Information – Good Faith Efforts,” form and the United States Department of Transportation’s (“U.S. DOT”) DBE Program, Appendix A of Title 49 CFR Part 26 - “Guidance Concerning Good Faith Efforts,” and the DBE Section of the Authority’s Pre-Proposal Power Point.

4.3 “Bidders List” (Form D-3)

The Authority is required by Regulations to create and maintain a “Bidders List,” of all firms proposing or quoting on the Authority’s U.S. DOT-assisted contracts for use in calculating the Authority’s DBE goal(s). Proposers are required to complete and submit the requested information listed on the “Bidders List” form, for all firms (DBE[s] and non-DBE[s]) who submitted a bid, proposal or quote, including firms who were contracted by the prime proposer.

The “Bidders List” must be submitted to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date.

INSTRUCTIONS – CONSULTANT PROPOSAL DBE COMMITMENT**CONSULTANT SECTION**

- 1. Local Agency** - Enter the name of the local or regional agency that is funding the contract.
- 2. Contract DBE Goal** - Enter the contract DBE goal percentage as it appears on the project advertisement.
- 3. Project Location** - Enter the project location as it appears on the project advertisement.
- 4. Project Description** - Enter the project description as it appears on the project advertisement (Bridge Rehab, Seismic Rehab, Overlay, Widening, etc.).
- 5. Consultant's Name** - Enter the consultant's firm name.
- 6. Prime Certified DBE** - Check box if prime contractor is a certified DBE.
- 7. Description of Work, Services, or Materials Supplied** - Enter description of work, services, or materials to be provided. Indicate all work to be performed by DBEs including work performed by the prime consultant's own forces, if the prime is a DBE. If 100% of the item is not to be performed or furnished by the DBE, describe the exact portion to be performed or furnished by the DBE. See LAPM Chapter 9 to determine how to count the participation of DBE firms.
- 8. DBE Certification Number** - Enter the DBE's Certification Identification Number. All DBEs must be certified on the date bids are opened.
- 9. DBE Contact Information** - Enter the name, address, and phone number of all DBE subcontracted consultants. Also, enter the prime consultant's name and phone number, if the prime is a DBE.
- 10. DBE %** - Percent participation of work to be performed or service provided by a DBE. Include the prime consultant if the prime is a DBE. See LAPM Chapter 9 for how to count full/partial participation.
- 11. Total Claimed DBE Participation %** - Enter the total DBE participation claimed. If the total % claimed is less than item "Contract DBE Goal," an adequately documented Good Faith Effort (GFE) is required (see Exhibit 15-H DBE Information - Good Faith Efforts of the LAPM).
- 12. Preparer's Signature** - The person completing the DBE commitment form on behalf of the consultant's firm must sign their name.
- 13. Date** - Enter the date the DBE commitment form is signed by the consultant's preparer.
- 14. Preparer's Name** - Enter the name of the person preparing and signing the consultant's DBE commitment form.
- 15. Phone** - Enter the area code and phone number of the person signing the consultant's DBE commitment form.
- 16. Preparer's Title** - Enter the position/title of the person signing the consultant's DBE commitment form.

LOCAL AGENCY SECTION

- 17. Local Agency Contract Number** - Enter the Local Agency contract number or identifier.
- 18. Federal-Aid Project Number** - Enter the Federal-Aid Project Number.
- 19. Proposed Contract Execution Date** - Enter the proposed contract execution date.
- 20. Consultant's Ranking after Evaluation** - Enter consultant's ranking after all submittals/consultants are evaluated. Use this as a quick comparison for evaluating most qualified consultant.
- 21. Local Agency Representative's Signature** - The person completing this section of the form for the Local Agency must sign their name to certify that the information in this and the Consultant Section of this form is complete and accurate.
- 22. Date** - Enter the date the DBE commitment form is signed by the Local Agency Representative.
- 23. Local Agency Representative's Name** - Enter the name of the Local Agency Representative certifying the consultant's DBE commitment form.
- 24. Phone** - Enter the area code and phone number of the person signing the consultant's DBE commitment form.
- 25. Local Agency Representative Title** - Enter the position/title of the Local Agency Representative certifying the consultant's DBE commitment form.

DBE LETTER OF ACKNOWLEDGMENT AND COMMITMENT

1. RFP NO.: _____

2. Project Name/Description: _____

3. Offeror: _____

4. DBE Commitment Information

(A) Description of work to be performed by DBE firm (include bid item number on the DBE Participation Commitment Form as applicable):

(B) Percentage of work to be performed _____ (For Architectural & Engineering Services Proposals)

OR

Dollar value of work to be performed \$ _____ (For Professional Services Proposals)

5. DBE ACKNOWLEDGMENT*

I acknowledge that my firm has been listed by the Offeror named above, and is committed, to perform the scope and portion of work (A and B) stated above.

DBE Firm's Name: _____

Name: _____

Signature: _____

Title: _____

Telephone: _____

*If the offeror does not receive award of the prime contract, any and all representations in this letter of Acknowledgment and Commitment shall be null and void.

This form may be used to fulfill the DBE Participation Commitment Letter requirement as stated in the RFP instructing that the "the offeror is required to submit with the proposal a DBE Letter of Acknowledgement and Commitment signed and dated from each DBE acknowledging that the DBE is participating in the contract for the specified value and scope of work.

INSTRUCTIONS - DBE LETTER OF ACKNOWLEDGEMENT AND COMMITMENT

Offeror is required to ensure all information is complete and accurate:

1. **RFP No.** - Enter the RFP Number.
2. **Project Name/Description** - Enter the name and/or description of the project.
3. **Offeror Name** - Enter the offeror's firm name.
- 4A. **Description of work** - Scope of work to be performed that will be credited towards DBE participation. To include bid item number on the DBE Participation Commitment Form as applicable.
- 4B. **Value** - Enter the percentage or total dollar value of participation for the DBE firm.
5. **DBE Acknowledgement** – DBE to provide firm name, authorized person's name, signature, title and telephone number if they have been notified that they were listed for the scope and value reflected in #4.

NOTE: If the offeror does not receive award of the prime contract, any and all representations in the letter of Acknowledgment and Commitment shall be null and void.

DBE INFORMATION - GOOD FAITH EFFORTS

RFP No: _____ Proposal Due Date _____

The Orange County Transportation Authority (Authority) established a Disadvantaged Business Enterprise (DBE) goal of _____% for this contract. The information provided herein shows that a good faith effort was made by _____(Proposer).

Proposer shall submit the following information to document adequate good faith efforts to the Authority no later than 4:00 p.m. on the 2nd business day after the Authority's proposal due date, or as otherwise specified in the solicitation. Proposer should submit the following information even if the "DBE Participation Commitment Form" indicates that the proposer has met the DBE goal. This will protect the proposer's eligibility for award of the contract if Authority determines that the proposer failed to meet the goal for various reasons, e.g., a DBE firm was not certified at proposal submission, or the proposer made a mathematical error.

Submittal of only the form may not provide sufficient documentation to demonstrate that adequate good faith efforts were made.

The following good faith efforts items (A through H) shall be minimally performed prior to proposal submission. Proposer to complete the following items in sufficient detail to effectively demonstrate that good faith efforts were undertaken to meet the established DBE goal:

- A. Items of Work the Proposer Made Available to DBE Firms; a description of work items and approximate dollar amounts made available to DBE firms by the proposer, value of work items as a percentage of total contract work, breakdown of larger scopes of contract work (including those items normally performed by the proposer with its own forces) into economically feasible units to facilitate DBE participation sufficient to meet the DBE contract goal. It is the proposer's responsibility to demonstrate that sufficient work was made available to facilitate DBE participation as follows (Provide documents that sufficiently evidence the efforts detailed below):

Description of Work Item	Proposer Normally Performs (Y/N)	Unbundled from Larger Scope (Y/N) If Yes, List Scope	Amount (\$)	Percentage of Contract

- B. Solicitation Effort Documentation; the names and dates of written notices sent to certified DBEs soliciting proposals for this project and the dates and methods used to following up initial solicitations to determine with certainty whether the DBEs were interested (attach all copies of solicitation, telephone records, fax confirmations, email communications, etc.), amount of DBEs to repond, documentation to demonstrate the DBE firms were provided information about the contract (location of project, contract number, proposal due date, items of work made available and contact information) in the Request for Proposal from the proposer, the proposer solicited through all reasonable means (e.g. attendance at pre-proposal meetings, advertising and written notices) the interest of all certified DBEs who have the capability to perform the work of the contract, proposer to provide proof of aforementioned items, and DBEs in the market area for the work identified in 'Item A' as follows:

DBE Firm	Contact Name/Title	Method of Solicitation	Date of Initial Solicitation	Date of Follow-Up Solicitation	Response/ Interested in Proposing

(Note: Solicitations should occur at a minimum no later than 14 calendar days prior to the Authority's proposal due date and follow up to the solicitation should allow DBE firms reasonable time to respond). DBE firms solicited must be advised if the original proposal date has been extended.

- C. Rejected DBE Proposal Documentation; the names, addresses, phone numbers, and amount of rejected DBE firms, the reasons for the proposer's rejection of the DBE firms, the firms selected and accepted for that work (attach all copies of quotes from the firms involved inclusive of a detailed cost breakdown if opted to self-perform work) and the price (rates) difference for each DBE if the selected firms is not a DBE, include an explanation of quote(s) rejected.
- D. Publication Efforts Made to Advertise the Projects to Solicit DBE Participation; names and dates of each publication in which a request for DBE participation for this project was placed by the proposer (attach copies of advertisements or proof of publications). Publications should be placed at a minimum 14 calendar days before the Authority's proposal due date. If RFP due date is extended, proposer is to re-advertise new proposal due date.

Publications	Type of Publication (Trade/General/Minority/Focus)	Dates of Advertisement	Duration of Advertisement	Readvertisement (Proposal-Due Date Extension)

- E. Agencies, Organizations, or Groups Contacted to Provide Assistance in Contracting, Recruiting, and Using DBEs; the names of agencies, organizations or groups contacted to provide assistance in contacting, recruiting and using DBE firms (Attach copies of requests to agencies, responses received and efforts made by the proposer in response).

- F. Efforts to Provide Information About the Plans, Specifications, and Contract Requirements; efforts made to assist interested DBEs in obtaining necessary materials, or related assistance or services, proposer to provide evidence of effort.

- G. Assistance with Lines of Credit, Insurance, and/or other Services; efforts made to assist interested DBEs in obtaining bonding, lines of credit or insurance, and any technical assistance or information related to the plans, specifications and requirements for the work which was provided to DBEs, proposer to provide a list of any assistance provided to DBEs:

- H. Additional Data to Support a Demonstration of Good Faith Efforts; in determining whether a proposer made adequate good faith efforts, the Authority will take into account the performance of other proposers in meeting the DBE contract goal. Attach any additional information to support demonstration of good faith in this section:

NOTE: USE ADDITIONAL SHEETS AS NECESSARY TO DEMONSTRATE RESPONSIVENESS.

Bidders List

The Department of Transportation requires the Authority to create and maintain a "Bidders List" containing information about all firms (DBE and Non-DBE) that bid, propose or quote on the Authority's DOT-assisted contracts, in accordance with 49 CFR Part 26.11. The "Bidders List" is intended to be a count of all firms that are participating, or attempting to participate, on DOT-assisted contracts, whether successful or unsuccessful in their attempt to obtain a contract.

The proposer is to complete all requested information for every firm who submitted a bid, proposal or quote, including the primary proposer, and submit this information to the Authority no later than 4:00 p.m. on the 2nd business day after the Authority's proposal due date, or as otherwise specified in the solicitation. The Authority will utilize this information to assist in the Authority's DBE goal-setting process.

NOTE: USE ADDITIONAL SHEETS AS NECESSARY TO DEMONSTRATE RESPONSIVENESS TO THE BIDDERS LIST REQUIREMENTS.

FORM E: CERTIFICATION OF RESTRICTIONS ON LOBBYING FORM

CERTIFICATION
LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN
FEDERAL TRANSACTIONS

A. DEFINITIONS

1. **Authority, as used in this clause, means the Orange County Transportation Authority, acting on behalf of the Orange County Transit District.**
2. **Covered Federal action, as used in this clause, means any of the following Federal actions:**
 - a. The awarding of any Federal contract.
 - b. The making of any Federal grant.
 - c. The making of any Federal loan.
 - d. The entering into of any cooperative agreement.
 - e. The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
3. **Indian tribe and tribal organization, as used in this clause, have the meaning provided in Section 450b of the Indian self-determination and Education Assistance Act (25 U.S.C. 450) and include Alaskan Natives.**
4. **Influencing or attempting to influence, as used in this clause, means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.**
5. **Local government, as used in this clause, means a unit of government in a State and, if chartered, established, or other were recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.**
6. **Officer or employee of an agency, as used in this clause, includes the following individuals who are employed by an agency:**
 - a. An individual who is appointed to a position in the Government under title 5, United States code, including a position under a temporary appointment.

- b. A member of the uniformed services, as defined in the subsection 101(3), Title 37, United States Code.
 - c. A special Government employee, as defined in Section 202, Title 18, United States Code.
 - d. An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, Title 5, United States Code, Appendix section 3.
7. **Person, as used in this clause, means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit, or not for profit. This term excludes an Indian tribe, tribal organization or any other Indian organization with respect to expenditures specifically permitted by other Federal law.**
8. **Reasonable compensation, as used in this clause, means with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.**
9. **Reasonable payment, as used in this clause means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.**
10. **Recipient, as used in this clause, includes the CONSULTANT and all subcontractors. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.**
11. **Regularly employed, as used in this clause, means, with respect to an officer or employee of a person requesting or receiving by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.**
12. **State, as used in this clause, means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and a multi-State regional or interstate entity having governmental duties and powers.**

B. PROHIBITIONS

1. **Section 1352 of Title 31, United States Code, among other things, prohibits a recipient of a Federal contract, grant, loan or cooperative agreement from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract; the making of any Federal grant; the making of any Federal loan; the entering into of any cooperative agreement; or, the modification of any Federal contract, grant, loan, or cooperative agreement.**
2. **The Act also requires consultant to furnish a disclosure if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan or cooperative agreement.**
3. **The prohibitions of the Act do not apply under the following conditions:**
 - a. **Agency and legislative liaison by own employees.**
 - (1) The prohibition on the use of appropriated funds, in subparagraph C.1. of this clause, does not apply in the case of payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.
 - (2) For purposes of paragraph C.3.a.(1) of this clause, providing any information specifically requested by an agency or Congress is permitted at any time.
 - (3) The following agency and legislative liaison activities are permitted any time where they are not related to a specific solicitation for any covered Federal action:

Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities.

Technical discussions and other activities regarding the application of adaptation of the person's products or services for an agency's use.

- (4) The following agency and legislative liaison activities are permitted where they are prior to formal solicitation of any covered Federal action:

Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95-507, and subsequent amendments.

- (5) Only those services expressly authorized by paragraph C.3.a.(1) of this clause are permitted under this clause.

b. Professional and technical services

- (1) The prohibition on the use of appropriated funds, in subparagraph C.1. of this clause, does not apply in the case of:

A payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as condition for receiving that Federal action.

Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission or negotiation of any bid, proposal, or application or that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than

officers or employees of a person requesting or receiving a covered Federal action include contractors and trade associations.

- (2) For purposes of paragraph C.3.a.(1) of this clause, professional and technical services shall be limited to advise and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission, or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission, or negotiation of a covered Federal action.
- (3) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and any other requirements in the actual award documents.
- (4) Only those services expressly authorized by paragraph C.3.a.(1) and (2) of this clause are permitted under this clause.
- (5) The reporting requirements of FAR 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

c. Disclosure

- (1) The consultant who requests or receives from an agency a Federal contract shall file with that agency a disclosure form OMB standard form LLL, Disclosure of Lobbying Activities, (Attachment to the bid package) if such person has made or had agreed to made any payment using non appropriated funds (to include profits from any covered Federal action), which would be prohibited under subparagraph B.1. of this clause, if paid for with appropriated funds.
- (2) The consultant shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under subparagraph II.A. of this clause. An event that materially affects the accuracy of the information reported includes:

A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.
- (3) The consultant shall require the submittal of a certification, and if required, a disclosure form by any person who requests or receives any subcontract exceeding \$100,000 under the Federal contract.
- (4) All subcontractor disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the prime consultant. The prime consultant shall submit all disclosures to the District at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding consultant.

d. Agreement

The consultant agrees not to make any payment prohibited by this clause.

e. Penalties

- (1) Any person who makes an expenditure prohibited under paragraph a) of this clause or who fails to file or amend the disclosure form to be filed or amended by paragraph d) of this clause shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.
- (2) Consultants may rely without liability on the representation made by their subcontractors in the certification and disclosure forms.

f. Cost Allowability:

Nothing in this clause is to be interpreted to make allowable or reasonable any costs, which will otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any other provisions.

**CERTIFICATION OF
RESTRICTIONS ON LOBBYING**

I, _____, hereby certify on behalf (name of offeror) of
_____ that:
(Firm name)

1. No Federal appropriated funds have been paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer of employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds, other than Federal appropriated funds, have been paid or will be paid to any person for making lobbying contacts to an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit the attached Standard Form-LLL, "Disclosure of Lobbying Activities", in accordance with its instructions.
3. If bidder/offeror does not have any reportable activities to disclose, they shall check the box entitled "No Reportable Activities" on the attached Standard Form-LLL "Disclosure of Lobbying Activities" and complete Section 16 of the form. The certifying official shall sign and date the form, print his/her name, title and telephone number.
4. The undersigned shall require that the language of this certification be included in all subcontracts, and that all subcontractors shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance is placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Bidder, _____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Bidder understands and agrees that the provisions of 31 U.S.C. 3801, et seq. apply to this certification and disclosure, if any.

**INSTRUCTIONS FOR COMPLETION OF SF-LLL DISCLOSURE OF LOBBYING
ACTIVITIES**

This DISCLOSURE FORMS SHALL BE COMPLETED BY the reporting entity, whether Subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be a prime or subaward recipient. Identify the tier of the subawardee e.g., the first subawardee of the prime is the first tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee" then enter the full name, address city, state, and zip code of the prime Federal recipient. Include Congressional District.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency, name if known. For example, Department of Transportation, United State Coast Guard.
7. Enter the Federal program name for description of the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g. Request for Proposal (RFP) number, Invitation for Bid (IFB) number, grant announcement number, the contract, grant, or loan award number, the application/ proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state, and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

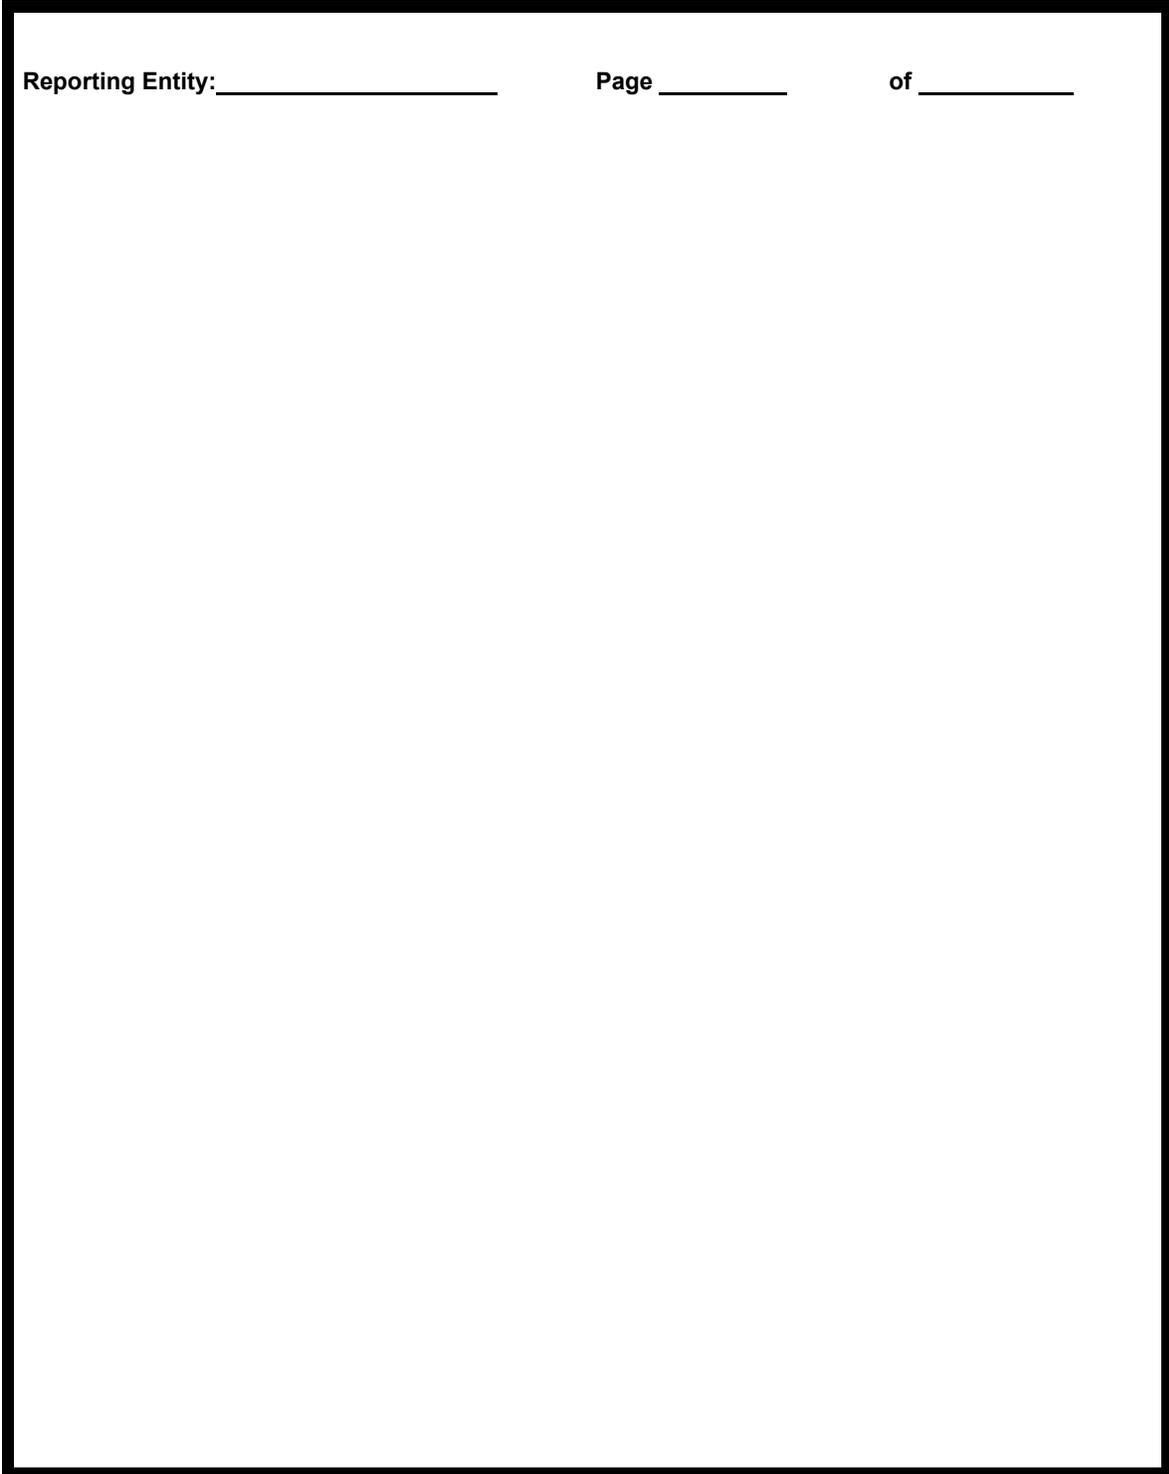

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a.). Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box (es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box (es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Management and Budget Paperwork Reduction Project (0348-0446), Washington, D.C. 20503.

FORM F: PROPOSAL EXCEPTIONS AND/OR DEVIATIONS

PROPOSAL EXCEPTIONS AND/OR DEVIATIONS FORM

The following form shall be completed for each technical and/or contractual exception or deviation that is submitted by Offeror for review and consideration by Authority. The exception and/or deviation must be clearly stated along with the rationale for requesting the exception and/or deviation. If no technical or contractual exceptions or deviations are submitted as part of the original proposal, Offerors are deemed to have accepted Authority' technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit B) and Proposed Agreement (Exhibit E). Offerors will not be allowed to submit this form or any contractual exceptions and/or deviation after the Proposal submittal date identified in the RFP. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

FORM H: INTELLECTUAL PROPERTY ESCROW AGREEMENT

FORM OF INTELLECTUAL PROPERTY ESCROW AGREEMENT

Account Number _____

This Intellectual Property Escrow Agreement ("Escrow Agreement") is effective _____, 201_ among _____, a _____ corporation ("Escrow Agent"), _____, a _____ corporation ("Depositor"), and the Orange County Transportation Authority and, public entity of the State of California ("OCTA") together referred to as ("Authority"), who collectively may be referred to in this Escrow Agreement as the parties ("Parties").

A. Depositor and Authority have entered or will enter into an agreement for Back Office System and Customer Services Center Operations Services for the 405 Express Lanes in Orange County, California (the "AGREEMENT"). Unless the context otherwise requires, capitalized terms used in this Escrow Agreement have the meanings given in the AGREEMENT.

B. Under the AGREEMENT, Depositor has granted Authority licenses to use certain intellectual property, software and supporting materials, and Depositor will from time to time modify, add to, refine, substitute, revise, enhance, update, revise, upgrade and/or correct such software and supporting materials and will submit these updated software development documents on an ongoing basis as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such updates. An initial deposit shall be made by Depositor within 60 Calendar Days of the AGREEMENT's Effective Date if requested by Authority. Additional deposits shall be made within 10 Calendar Days of Go-Live and BOS Acceptance. Depositor shall make deposits of the complete set of IP Materials current at the time of deposit at least semi-annually if no deposits provided above have occurred within the relevant preceding six-month period.

C. Depositor has agreed in the AGREEMENT to deposit into escrow with Escrow Agent the Intellectual Property and IP Materials including, without limitation, related documentation of Software required to be delivered as part of the AGREEMENT, including Software Source Code in ASCII format, on industry standard media and source code listings in human readable form of the Software as well as paper and electronic copies of the functional specifications and design specifications, code and documentation for tests used by Depositor to verify Software behavior, and user and technical documentation (all of which, together with modifications, additions, enhancements, updates, revisions, upgrades and corrections thereto and thereof, and all other supplementary deposits under Section 1.1 below, being collectively referred to in this Escrow Agreement as the "Software Source Code").

D. Depositor and/or its Software suppliers desire to avoid disclosure and release of the Software Source Code except under certain limited circumstances.

E. The availability of the IP Materials (including without limitation Software Source Code) to Authority is critical to Authority' business and, therefore, Authority need access to the IP Materials certain limited circumstances.

F. Depositor and Authority desire to establish an escrow with Escrow Agent to provide for the retention, administration and controlled access of the IP Materials.

G. Escrow Agent has consented to act as Escrow Agent and to receive and hold the current version and any future versions of the IP Materials.

H. The parties desire this Escrow Agreement to be supplementary to the AGREEMENT pursuant to 11 United States Bankruptcy Code, Section 365(n)(1)(B).

NOW, THEREFORE, Depositor and Authority hereby engage Escrow Agent to serve as Escrow Agent for the Intellectual Property and IP Materials, Escrow Agent hereby accepts such engagement, and

the Parties hereby agree to the establishment and administration of an escrow for the IP Materials, on the following terms and conditions.

SOURCE CODE ESCROW AGREEMENT

SECTION 1. DEPOSITS

1.1. Obligation to Make Deposits.

(a) Immediately upon execution of this Escrow Agreement, Depositor shall deposit IP Materials that consist of Pre-Existing Contractor Intellectual Property and Third Party Intellectual Property to be used in connection with the Toll Services with Escrow Agent.

(b) Depositor will submit updated Software development documents on an ongoing basis as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such updates. Notwithstanding the foregoing, additional deposits shall be made within 10 Calendar Days of Go-Live and BOS Acceptance. Depositor shall make deposits of the complete set of IP Materials current at the time of deposit at least semi-annually if no deposits provided above have occurred within the relevant preceding six-month period.

(c) If during any calendar month after the date a Notice of BOS Acceptance is issued by Authority, Depositor completes and installs in or for the BOS Work any modification, addition, Enhancement, Update, revision, Upgrade or correction of or to any of the escrowed Software Source Code, it shall deposit with Escrow Agent, as soon as reasonably practicable and in no event more than 30 Calendar Days from the date of such updates, each such modification, addition, Enhancement, Update, revision, Upgrade and correction, and a modified Attachment A identifying the same. Similarly, if Depositor identifies any additional Intellectual Property or IP Materials to be deposited pursuant to Article 26 of the AGREEMENT, it shall deposit same with Escrow Agent, along with a modified Attachment A identifying the same as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such identification.

(d) Each deposit under subsection (d) above shall be added to the existing deposit. Each deposit under subsections (b) or (c) above shall be listed on a modified Attachment A and Depositor shall sign each modified Attachment A. Attachment A and each modified Attachment A shall be held and maintained separately within the escrow account. Escrow Agent shall create an independent record which documents the activity for Attachment A and each modified Attachment A. The processing of all deposits under this Section 1.1 shall be in accordance with Sections 1.2 through 1.6 below.

(e) Notwithstanding any other provision of this Escrow Agreement, Depositor shall have no obligation to deposit with the Escrow Agent any Software Source Code for Off-the-Shelf Software, subject however, to the provisions of Article 26 of the AGREEMENT.

1.2. Identification of Tangible Media. Prior to each delivery of the IP Materials to Escrow Agent, Depositor shall conspicuously label for identification each document, magnetic tape, disk, or other tangible media upon which the Intellectual Property are written or stored. Additionally, with each delivery Depositor shall complete Attachment A to this Escrow Agreement or a modified Attachment A by listing each such tangible media by the item label description, the type of media and the quantity, and the identity of the owner of the Intellectual Property (whether Depositor or a Software Supplier). Depositor shall sign each Attachment A or modified Attachment A and deliver it to Escrow Agent with the IP Materials. Such signature shall constitute Depositor's representation and warranty that Attachment A is true, accurate and complete. Unless and until Depositor makes the initial deposit with Escrow Agent, Escrow Agent shall have no obligation with respect to this Escrow Agreement, except the obligation to notify the parties regarding the status of the account as required in Section 2.2 below.

1.3. Deposit Inspection. Within three Business Days after Escrow Agent receives IP Materials and Attachment A or a modified Attachment A, Escrow Agent shall conduct a deposit inspection by visually matching the labeling of the tangible media containing the Source Code to the item descriptions and quantity listed on Attachment A or modified Attachment A. In addition to the deposit inspection, Authority may elect to cause a verification of the IP Materials at any time in accordance with Section 1.6 below.

1.4. Acceptance of Deposit. Immediately upon completion of each deposit inspection, if Escrow Agent determines that the labeling of the tangible media matches the item descriptions and quantity on Attachment A or the modified Attachment A, Escrow Agent shall date and sign Attachment A or the modified Attachment A and mail a copy thereof to Depositor and Authority. Immediately upon completion of each deposit inspection, if Escrow Agent determines that the labeling does not match the item descriptions or quantity on Attachment A or the modified Attachment A, Escrow Agent shall (a) note the discrepancies in writing on Attachment A or the modified Attachment A; (b) date and sign Attachment A or the modified Attachment A with the exceptions noted; and (c) mail a copy of Attachment A or the modified Attachment A to Depositor and Authority. Escrow Agent's acceptance of the deposit occurs upon the signing of Attachment A or the modified Attachment A by Escrow Agent. Delivery of the signed Attachment A or the modified Attachment A to Authority is Authority' notice that the Software Source Code have been received and accepted by Escrow Agent.

1.5. Depositor's Representations. Depositor represents and warrants to Authority as follows:

(a) Depositor lawfully possesses all of the IP Materials and the Intellectual Property contained therein as deposited with Escrow Agent;

(b) With respect to all of the IP Materials and the Intellectual Property contained therein, Depositor has the right and authority to grant to Escrow Agent and Authority the rights as provided in this Escrow Agreement;

(c) The IP Materials and the Intellectual Property contained therein are not subject to any lien or other encumbrance;

(d) The IP Materials and the Intellectual Property contained therein consist of the proprietary technology and other materials identified either in the AGREEMENT or Attachment A, as applicable; and

(e) The IP Materials are readable and useable in their current form or, if any portion of the IP Materials and the Intellectual Property contained therein is encrypted, the decryption tools and decryption keys have also been deposited.

1.6. Verification. Authority may, at Authority' expense, cause a verification of any IP Materials. Authority shall notify Depositor and Escrow Agent of Authority' request for verification. Depositor shall have the right to be present at the verification. A verification determines, in different levels of detail, the accuracy, completeness, sufficiency and quality of the IP Materials. If a verification is elected after the IP Materials have been delivered to Escrow Agent, then only Escrow Agent, or at Escrow Agent's or Authority' election an independent person or company selected and supervised by Escrow Agent or Authority, may perform the verification. If Authority elects to have an independent person or company perform the verifications, its election and selection shall prevail over any such election by Escrow Agent. The verification shall be conducted in accordance with the verification procedures specified in the completed form of Attachment A accompanying Depositor's deposit of the relevant IP Materials with Escrow Agent. Such verification shall determine the relevance, completeness, currency, accuracy and functionality of the IP Materials and the Intellectual Property contained therein and, specifically as to Software Source Code, whether the deposit is complete. If Escrow Agent or a person or company it selects performs the verification, Escrow Agent shall deliver to Authority a written report detailing the verification not later than 30 days after Authority delivers Notice requesting such verification. Any verification shall take place either at Escrow Agent's location or an agreed upon location during Escrow Agent's regular business hours. If Authority elect to have an independent person or company perform the verification, then such entity shall adhere to the

confidentiality requirements of the AGREEMENT. If Escrow Agent or the independent person performing the verification determine that the verification procedures specified in the completed Attachment A are insufficient to enable verification of the relevant IP Materials and the Intellectual Property contained therein, then upon the request of Escrow Holder or Authority, Depositor shall cooperate in good faith to supplement and/or modify the verification procedures as necessary and appropriate to facilitate such verification.

1.7. Removal of IP Materials. The IP Materials and the Intellectual Property contained therein may be removed and/or exchanged only on written instructions signed by both the Depositor and Authority, or as otherwise provided in this Escrow Agreement.

1.8. Inspection. Authority and Depositor shall be entitled, during normal business hours, to inspect, under the supervision of an officer of Escrow Agent and at Escrow Agent's facilities, the physical and technical status and condition of the IP Materials and the Intellectual Property contained therein. The party undertaking the inspection shall provide Notice of the pending inspection to the other party, five Business Days prior to the scheduled date of the inspection. The party receiving the notice shall have the right to be present at the inspection, but such presence is not a condition precedent to the inspecting party's right to proceed with inspection.

SECTION 2. CONFIDENTIALITY AND RECORD KEEPING

2.1. Confidentiality. Escrow Agent shall maintain the IP Materials and the Intellectual Property contained therein in a secure, environmentally safe, fireproofed vault or locked facility which is accessible only to authorized representatives of Escrow Agent. Escrow Agent shall have the obligation to reasonably protect the confidentiality of the Intellectual Property. Except as provided in this Escrow Agreement, Escrow Agent shall not disclose, transfer, make available or use the Intellectual Property or any IP Materials. Escrow Agent shall not disclose the content of this Escrow Agreement to any third party. If Escrow Agent receives a subpoena or any other order from a court or other judicial tribunal pertaining to the disclosure or release of the IP Materials and the Intellectual Property contained therein, Escrow Agent shall immediately notify the other Parties unless prohibited by law. It shall be the responsibility of Depositor and/or Authority to challenge any such order; provided, however, that Escrow Agent does not waive its rights to present its position with respect to any such order. Escrow Agent shall not be required to disobey any order from a court or other judicial tribunal. (See Section 7.5 below for notices of requested orders.)

2.2. Status Reports. Escrow Agent shall issue to Depositor and Authority a report profiling the account history at least semi-annually. Escrow Agent may provide copies of the account history pertaining to this Escrow Agreement upon the request of any other Party.

2.3. Audit Rights. During the term of this Escrow Agreement, Depositor and Authority may each inspect the written records of Escrow Agent pertaining to this Escrow Agreement. Any inspection shall be held during normal business hours and following reasonable prior Notice.

SECTION 3. TITLE TO IP MATERIALS

3.1 Title to IP Materials. Title to the IP Materials which embody Intellectual Property is vested in Authority pursuant to Article 25 of the AGREEMENT, but is subject to the provisions of this Escrow Agreement on access to and release of such IP Materials.

3.2 Disclaimer. Escrow Agent hereby disclaims and relinquishes any title to or ownership of Software Source Code deposited with Escrow Agent under this Escrow Agreement.

SECTION 4. RELEASE OF DEPOSIT

4.1. Release Conditions. As used in this Escrow Agreement, "Release Condition" shall mean any of the following:

- (a) The AGREEMENT is terminated for any reason including expiration of the Term;
- (b) A voluntary or involuntary bankruptcy or insolvency of CONTRACTOR occurs;
- (c) CONTRACTOR is dissolved or liquidated;
- (d) CONTRACTOR or any third party, (a) fails or ceases to provide services as necessary to permit continued use of any such Intellectual Property or (b) otherwise ceases to engage in the ordinary course of the business of manufacturing, supplying, maintaining and servicing the IP Materials pursuant to a license or any sublicense thereof.

4.2. Filing For Release. If Authority believes in good faith that a Release Condition has occurred, Authority may provide to Escrow Agent Notice of the occurrence of the Release Condition and a request for the release of the IP Materials and incorporated Intellectual Property. If the Release Condition pertains only to an owner of Third Party Intellectual Property, Authority' Notice shall so indicate. Immediately upon receipt of such Notice, Escrow Agent shall provide a copy of the Notice to Depositor by commercial express mail.

4.3. Contrary Instructions. From the date Escrow Agent mails the Notice requesting release of the IP Materials and incorporated Intellectual Property, Depositor shall have ten days to deliver to Escrow Agent contrary instructions ("Contrary Instructions"). Contrary Instructions shall mean the written representations and warranties, without qualification, exception or condition, by an authorized officer or authorized delegate of Depositor that (a) the person signing for Depositor is an authorized officer or authorized delegate of Depositor and (b) a Release Condition has not occurred or has been cured. Immediately upon receipt of Contrary Instructions within such ten day period, Escrow Agent shall send a copy to Authority by commercial express mail. Additionally, Escrow Agent shall provide Notice to Depositor and Authority that there is a dispute to be resolved pursuant to Section 7.3 of this Escrow Agreement. Subject to Section 5.2 of this Escrow Agreement, Escrow Agent shall continue to store the IP Materials and Intellectual Property without release pending (i) instructions from Depositor and Authority; (ii) dispute resolution pursuant to Section 7.3; or (iii) order of a court. Contrary Instructions received after such ten day period shall be automatically null and void, shall have no force or effect, and shall be disregarded by Escrow Agent.

4.4. Release of Deposit.

(a) If Escrow Agent does not receive Contrary Instructions from the Depositor within such ten day period, Escrow Agent is authorized to, and shall, immediately release the IP Materials and incorporated Intellectual Property to Authority. If the Release Condition pertains only to an owner of Third Party Intellectual Property, then Escrow Agent shall only release the IP Materials that (a) are identified on Attachment A as owned by such owner of Third Party Intellectual Property or (b) lacks identification of ownership on Attachment A. Any copying expense will be chargeable to Depositor. This Escrow Agreement shall terminate upon the release of all the IP Materials and incorporated Intellectual Property held by Escrow Agent.

(b) Escrow Agent shall promptly release all or any part of the IP Materials and incorporated Intellectual Property at any time and from time to time upon receipt of Notice signed by both Depositor and Authority.

(c) Escrow Agent shall also release the IP Materials and incorporated Intellectual Property to Authority at any time as directed or ordered by an arbitration award, by a final judgment of a court of competent jurisdiction, or by other final dispute resolution pursuant to Section 7.3; provided that

Authority provide to Escrow Agent a written opinion of counsel for Authority to the effect that such award, judgment or resolution is final and not appealable. In such event, Escrow Agent shall proceed with release in accordance with the award, judgment or resolution and may rely on such legal opinion.

4.5. Right to Use Following Release. Upon release of the IP Materials in accordance with this Section 4, Authority shall have the right and license to use the released Intellectual Property as provided in the AGREEMENT. Authority shall be obligated to maintain the confidentiality of the released Intellectual Property as provided in the AGREEMENT.

SECTION 5. TERM AND TERMINATION

5.1. Term of Escrow Agreement. The term of this Escrow Agreement shall continue in effect unless and until this Escrow Agreement is terminated in accordance with the terms of this Section 5. This Escrow Agreement shall be terminated in the event (a) Depositor and Authority jointly instruct Escrow Agent in writing that the Escrow Agreement is terminated; or (b) Escrow Agent provides Notice to Depositor and Authority that the Escrow Agreement is terminated for nonpayment in accordance with Section 5.2 or by resignation in accordance with Section 5.3. If the IP Materials and incorporated Intellectual Property are subject to another escrow agreement with Escrow Agent, Escrow Agent reserves the right, after the initial one year term, to adjust the anniversary date of this Escrow Agreement to match the then prevailing anniversary date of such other escrow arrangements.

5.2. Termination for Nonpayment. In the event fees owed to Escrow Agent are not paid when due, Escrow Agent shall provide Notice of delinquency to all Parties. Any Party shall have the right to make the payment to Escrow Agent to cure the default. If the past due payment is not received in full by Escrow Agent within one month of the date of such Notice, then Escrow Agent shall have the right to terminate this Escrow Agreement at any time thereafter by sending Notice of termination to all Parties. Escrow Agent shall have no obligation to take any action under this Escrow Agreement so long as any undisputed payment due to Escrow Agent remains unpaid and delinquent, except action to hold and safeguard the IP Materials and transfer or dispose of the IP Materials following termination as provided in this Section 5.

5.3. Termination by Resignation. Escrow Agent may terminate this Escrow Agreement, for any reason, by providing Depositor and Authority with 90-days' Notice of its intent to terminate this Escrow Agreement. Within the 90-day period, the Depositor and Authority shall use diligent efforts to enter into a substantially similar agreement with another entity willing and able to perform the functions of Escrow Agent under this Escrow Agreement and shall provide Escrow Agent with Notice including instructions authorizing Escrow Agent to forward the IP Materials and incorporated Intellectual Property to another escrow company and/or agent or other designated recipient. Escrow Agent shall transfer and dispose of the IP Materials in accordance with any such Notice. If Escrow Agent does not receive said Notice within 90 days of the date of Escrow Agent's termination Notice, then Escrow Agent shall have no obligation to take any action under this Escrow Agreement, except action to hold and safeguard the Intellectual Property and transfer or dispose of IP Materials following termination as provided in this Section 5.

5.4. Disposition of IP Materials Upon Termination. Upon termination of this Escrow Agreement, Escrow Agent shall destroy, return, or otherwise deliver the IP Materials in accordance with Depositor's and Authority' Notice. If there is no such Notice, Escrow Agent may, commence legal action interpleading Depositor and Authority, deposit the IP Materials with the court in such action and otherwise handle and dispose of the IP Materials in accordance with court order. In no event shall Escrow Agent have the right to destroy the IP Materials or return them to Depositor absent written instructions to such effect or final order of a court of competent jurisdiction.

5.5. Survival of Terms Following Termination. Upon termination of this Escrow Agreement, the following provisions of this Escrow Agreement shall survive:

- (a) Depositor's representations and warranties (Section 1.5);

- (b) The obligations of safekeeping and confidentiality with respect to the IP Materials and incorporated Intellectual Property set forth in Section 2.1;
- (c) The rights granted in the sections entitled Right to Transfer Upon Release (Section 3.3) and Right to Use Following Release (Section 4.5), if a release of the IP Materials has occurred prior to termination;
- (d) The obligation to pay Escrow Agent any fees and expenses due;
- (e) The obligations of Escrow Agent under Section 5.4;
- (f) The provisions of Section 7;
- (g) Any provisions in this Escrow Agreement which specifically state they survive the termination of this Escrow Agreement; and
- (h) All other provisions which by their inherent character or express terms should survive termination of this Escrow Agreement, the expiration of the AGREEMENT.

SECTION 6. IP ESCROW AGENT'S FEES

6.1. Fee Payment and Schedule Escrow Agent is entitled to be paid its standard fees and expenses applicable to the services provided, which shall be the responsibility of Depositor. Escrow Agent shall notify Authority at least 60 days prior to any increase in fees. For any service not listed on Escrow Agent's standard fee schedule, Escrow Agent shall provide a quote prior to rendering the service, if requested.

6.2. Payment Terms. Fees are due 30 days after receipt of an invoice from Escrow Agent detailing the services performed and setting forth fees therefor consistent with the then applicable fee schedule. Escrow Agent may deliver invoices not more frequently than monthly. Except for action to hold and safeguard the Intellectual Property and transfer or dispose of the IP Materials following termination as provided in this Section 6, Escrow Agent shall not be required to perform any service whenever any undisputed outstanding balance owed to Escrow Agent is not paid when due.

SECTION 7. LIABILITY AND DISPUTES

7.1. Right to Rely on Instructions. Escrow Agent may act in reliance upon any instruction, instrument, or signature reasonably believed by Escrow Agent to be genuine. Except with respect to a Contrary Instruction that is not timely delivered or lacks the representation set forth in Section 4.3(a), Escrow Agent may assume that any employee of a party to this Escrow Agreement who gives any Notice, request, or instruction has the authority to do so. Escrow Agent shall not be required to inquire into the truth or evaluate the merit of any statement or representation contained in any Notice, request or instruction. Escrow Agent shall not be responsible for failure to act as a result of causes beyond the reasonable control of Escrow Agent.

7.2. Indemnification. Depositor and Authority each agree to indemnify, defend and hold harmless Escrow Agent from any and all Claims and Losses in connection with this escrow arrangement except to the extent such Liabilities were caused by the negligence or willful misconduct of Escrow Agent or its breach of this Escrow Agreement.

7.3. Dispute Resolution. Any dispute, controversy, claim or difference arising out of, or in connection with, or resulting from this Escrow Agreement, its application or interpretation, a breach thereof, or a Contrary Instruction issued hereunder, which cannot be settled amicably by the Parties, shall be subject to resolution in accordance with the dispute resolution provisions of the AGREEMENT. Escrow Agent agrees to be bound by any such final resolution. Notwithstanding the foregoing, any suit in interpleader brought

by Escrow Agent under Section 5.4 shall not be by arbitration and may be brought by Escrow Agent in any court having jurisdiction.

7.4. Controlling Law. This Escrow Agreement shall be governed by and construed in accordance with the laws of California, without regard to conflict of law principles. The venue of any court, judicial or referee proceeding under this AGREEMENT shall be in Orange County, California, unless changed by the judicial officer.

7.5. Notice of Requested Order. If any Party intends to obtain an order from the arbitrator or any court of competent jurisdiction which may direct Escrow Agent to take, or refrain from taking, any action, that Party shall:

- (a) Give Escrow Agent at least two Business Days' prior Notice of the hearing; and
- (b) Ensure that Escrow Agent not be required to deliver the original (as opposed to a copy) of the IP Materials if Escrow Agent may need to retain the original in its possession to fulfill any of its other duties under this Escrow Agreement.

SECTION 8. GENERAL PROVISIONS

8.1. Escrow Agent Representation. Escrow Agent represents and warrants to Authority and Depositor that (a) to the best knowledge of Escrow Agent neither it nor any of its personnel has been the subject of any investigation or been convicted or indicted for commission of any crime involving misconduct, corruption, bribery or fraud in connection with any public contract in the State of California, or any other jurisdiction, except as has been specifically disclosed in writing to Authority and Depositor, and (b) should any such conviction or indictment be obtained or any such investigation commenced prior to the expiration of the term hereof, regardless of the date of the occurrence giving rise to the subject matter of such conviction, indictment or investigation, Escrow Agent will immediately disclose it in writing to Authority and Depositor.

8.2. Entire Escrow Agreement. This Escrow Agreement (including all Exhibits to this Escrow Agreement) contain the entire understanding of the parties with respect to the subject matter of this Escrow Agreement and supersede all prior agreements, understandings, statements, representations and negotiations between the parties with respect to their subject matter. Escrow Agent is not a party to the AGREEMENT between Depositor and Authority and has no knowledge of any of the terms or provisions of the AGREEMENT. Escrow Agent's only obligations to Depositor or Authority are as set forth in this Escrow Agreement. No amendment or modification of this Escrow Agreement shall be valid or binding unless signed by all the parties, except that Attachment A need not be signed by Authority and Attachment B need not be signed.

8.3. Notices. All notices, invoices, payments, deposits and other documents and communications under this Escrow Agreement shall be sent as provided in Article 11 of the AGREEMENT and given to the parties at the addresses specified in the attached Attachment B. It shall be the responsibility of the parties to notify each other as provided in this Section in the event of a change of address. The parties shall have the right to rely on the last known address of the other parties.

8.4. Severability. In the event any provision of this Escrow Agreement is found to be invalid, voidable or unenforceable, the parties agree that unless it materially affects the entire intent and purpose of this Escrow Agreement, such invalidity, voidability or unenforceability shall affect neither the validity of this Escrow Agreement nor the remaining provisions herein, and the provision in question shall be deemed to be replaced with a valid and enforceable provision most closely reflecting the intent and purpose of the original provision.

8.5. Successors. This Escrow Agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the Parties. However, Escrow Agent shall have no right to assign this Escrow

Agreement or delegate its duties hereunder without the prior written consent of Depositor and Authority; and Escrow Agent shall have no obligation in performing this Escrow Agreement to recognize any successor or assign of Depositor or Authority unless Escrow Agent receives unambiguous and authoritative written evidence of the change of Parties.

8.6. Regulations. Depositor and Authority are responsible for and warrant compliance with all applicable laws, rules and regulations, including but not limited to customs laws, import, export, and re-export laws and government regulations of any country from or to which the Intellectual Property may be delivered in accordance with the provisions of this Escrow Agreement.

8.7. Liability. No member, officer, or employee of Authority, Depositor or Escrow Agent shall be liable personally hereunder or by reason hereof.

8.8. Counterparts. This Escrow Agreement may be executed in any number of counterparts and by the different parties on different counterparts, each of which, when executed, shall be deemed an original, but all of which, taken together, shall constitute one and the same Escrow Agreement.

[signatures on next page]

IN WITNESS WHEREOF, the parties, intending to be legally bound, have executed this Source Code Escrow Agreement as of the date first written above.

FORM I: PERFORMANCE BOND

**FORM OF IMPLEMENTATION PHASE
PERFORMANCE BOND**

Agreement No. _____

Bond No. _____

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, The Orange County Transportation Authority (“AUTHORITY”) , a public entity of the State of California, has awarded _____, a corporation organized under the laws of _____ (“Principal”) an agreement to design, implement, operate and maintain a Back Office System and Customer Service Center for the 405 Express Lanes (the “Agreement”);

AND WHEREAS, the AGREEMENT was awarded by AUTHORITY on _____ to provide the Work in accordance with the terms of the AGREEMENT, as therein specified;

AND WHEREAS, it is one of the conditions to execution of the AGREEMENT by AUTHORITY that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”), an admitted surety insurer in the State of California, are firmly bound and held unto AUTHORITY, in the amount of _____ Dollars (\$ _____) (“Bonded Sum”) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to AUTHORITY, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. The AGREEMENT is incorporated by reference in this Bond.
2. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.
3. If Principal or its heirs, successors, executors, administrators or assigns shall in all things stand to and abide by and well and truly keep, perform and complete all covenants, conditions, agreements, obligations and Work under the AGREEMENT, including any and all amendments, supplements, and alterations made to the AGREEMENT as therein provided, on Principal's part to be kept and performed at the time and in the manner therein specified, and shall indemnify, defend and save harmless AUTHORITY and all other Indemnified Parties, as therein stipulated, then this obligation shall become null and void; otherwise it shall remain in full force and effect. In case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney's fee to be fixed by the court.
4. The obligations covered by this Bond specifically include the performance of each and every obligation of Principal under the AGREEMENT with respect to the Work required to complete the Implementation Phase, including its liability for Liquidated Damages and warranties as specified in the AGREEMENT, but not to exceed the Bonded Sum. Completion of the Implementation Phase, as used herein, means achievement of Go-Live of Implementation Phase.

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to completion of the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it does hereby waive notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. The Surety (or Co-Sureties) agree(s) that payments made to contractors and suppliers to satisfy claims on the payment bond do not reduce the Surety's legal obligations under this Bond. Payments made to contractors or suppliers under any agreement where the Surety has arranged for completion of the Work to satisfy this Bond will not be considered payment bond claims.

7. Whenever Principal shall be, and is declared by AUTHORITY to be, in default under the AGREEMENT, provided that AUTHORITY is not then in material default thereunder, the Surety (or Co-Sureties) shall promptly, at AUTHORITY' election:

(a) remedy such default, or

(b) complete the Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT, or

(c) select a contractor or contractors to complete all Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT then in effect, using a contractor or contractors approved by AUTHORITY (provided, however, that the Surety may not select Principal or any affiliate of Principal to complete the Work for and on behalf of the Surety without AUTHORITY' express written consent, in its sole discretion), arrange for a contract meeting the requirements of the AGREEMENT between such contractor or contractors and AUTHORITY, and make available as Work progresses (even though there should be a default or a succession of defaults under such contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the unpaid balance of the AGREEMENT Price; but not exceeding, including other costs and damages for which Surety (or Co-Sureties) is (are) liable hereunder, the Bonded Sum.

(d) Shall pay Authority for the Work in an amount not exceeding the Bonded Sum.

8. If Surety does not proceed as provided in Paragraph 7 of this Bond with reasonable promptness, Surety shall be deemed to be in default on this Bond fifteen (15) days after receipt of an additional Notice from the AUTHORITY to Surety demanding that Surety perform its obligations under this Bond, and AUTHORITY shall be entitled to enforce any remedy available to AUTHORITY.

9. The guarantees contained in this Bond shall survive completion of the Implementation Phase with respect to those obligations of Principal which survive Final Acceptance of Implementation Phase.

10. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

FORM J: PAYMENT BOND

**FORM OF IMPLEMENTATION PHASE
PAYMENT BOND**

Agreement No. _____

Bond No. _____

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, The Orange County Transportation Authority (“AUTHORITY”) , a public entity of the State of California, has awarded to _____, a corporation organized under the laws of _____ (“Principal”) an agreement to design, implement, operate and maintain a Back Office System and Customer Service Center for the 405 Express Lanes (the “AGREEMENT”);

AND WHEREAS, AGREEMENT was awarded by AUTHORITY on _____ to provide the Work, as specified and in accordance with the terms of the AGREEMENT;

AND WHEREAS, it is one of the conditions to execution of the AGREEMENT by AUTHORITY that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”), an admitted surety insurer in the State of California, are firmly bound and held unto AUTHORITY, in the sum of _____ Dollars (\$) (“Bonded Sum”) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to AUTHORITY, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. The AGREEMENT is incorporated by reference in this Bond. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.
2. If Principal, its Subcontractors, hires, successors, executors, administrators or assigns shall fail to pay:
 - (a) any of the persons named in Civil Code section 40500 involved in performance of the Work for the Implementation Phase as provided for under the AGREEMENT;
 - (b) any amounts due under the Unemployment Insurance Code with respect to the Work for the Implementation Phase;
 - (c) any amounts required to be deducted, withheld and paid over to 1302 Franchise Tax Board from the wages of employees of the Principal and its Subcontractor pursuant to Revenue and Taxation Code Section 18662 et seq. with respect to such labor; or
 - (d) anyone required to be paid by law

then Surety shall pay for the same in an amount not to exceed the Bonded Sum; otherwise this obligation shall be null and void; otherwise it shall remain in full force and effect. In

case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney's fee to be fixed by the court.

3. This Bond shall inure to the benefit of any of the persons named in Civil Code Section 40500 or anyone required to be paid by law under the AGREEMENT so as to give a right of action to such persons or their assigns in any suit brought upon this Bond.

4. This Bond covers all of Principal's payment obligations under the AGREEMENT for the Work for the Implementation Phase, as set forth in the AGREEMENT

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it hereby waives notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

7. This bond shall inure to the benefit of the persons named in Civil Code section 40500 so as to give a right of action to such persons and their assigns in any suit brought upon this bond.

2. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.
3. If Principal or its heirs, successors, executors, administrators or assigns shall in all things stand to and abide by and well and truly keep, perform and complete all covenants, conditions, agreements, obligations and Work under the AGREEMENT, including any and all amendments, supplements, and alterations made to the AGREEMENT as therein provided, on Principal’s part to be kept and performed at the time and in the manner therein specified, and shall indemnify, defend and save harmless AUTHORITY and all other Indemnified Parties, as therein stipulated, then this obligation shall become null and void; otherwise it shall remain in full force and effect. In case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney’s fee to be fixed by the court.
4. The obligations covered by this Bond specifically include the performance of each and every obligation of Principal under the AGREEMENT with respect to the Work required to complete the Implementation Phase, including its liability for Liquidated Damages and warranties as specified in the AGREEMENT, but not to exceed the Bonded Sum.

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to completion of the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it does hereby waive notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. The Surety (or Co-Sureties) agree(s) that payments made to contractors and suppliers to satisfy claims on the payment bond do not reduce the Surety's legal obligations under this Bond. Payments made to contractors or suppliers under any agreement where the Surety has arranged for completion of the Work to satisfy this Bond will not be considered payment bond claims.

7. Whenever Principal shall be, and is declared by AUTHORITY to be, in default under the AGREEMENT, provided that AUTHORITY is not then in material default thereunder, the Surety (or Co-Sureties) shall promptly:

(a) remedy such default, or

(b) complete the Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT, or

(c) select a contractor or contractors to complete all work covered by this Bond in accordance with the terms and conditions of the AGREEMENT then in effect, using a contractor or contractors approved by AUTHORITY (provided, however, that the Surety may not select Principal or any affiliate of Principal to complete the Work for and on behalf of the Surety without AUTHORITY' express written consent, in its sole discretion), arrange for a contract meeting the requirements of the AGREEMENT between such contractor or contractors and AUTHORITY, and make available as Work progresses (even though there should be a default or a succession of defaults under such contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the unpaid balance of the AGREEMENT Price; but not exceeding, including other costs and damages for which Surety (or Co-Sureties) is (are) liable hereunder, the Bonded Sum.

8. If Surety does not proceed as provided in Paragraph 7 of this Bond with reasonable promptness, Surety shall be deemed to be in default on this Bond fifteen (15) days after receipt of an additional Notice from the AUTHORITY to Surety demanding that Surety perform its obligations under this Bond, and AUTHORITY shall be entitled to enforce any remedy available to AUTHORITY.

9. The guarantees contained in this Bond shall survive completion of the Implementation Phase with respect to those obligations of Principal which survive Final Acceptance of Implementation Phase.

10. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All

correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this at _____
_____ on this _____ day of _____, A.D., 20__.

FORM L: IRAN CONTRACTING CERTIFICATION

IRAN CONTRACTING ACT CERTIFICATION
(California Public Contract Code Sections 2200, *et seq.*)

The Iran Contracting Act of 2010 (PCC Sections 2200-2208), prohibits bidders who are engaged in investment activities in the energy sector of Iran from bidding on, submitting proposals for, or entering into or renewing contracts with public entities for goods or services of one million dollars (\$1,000,000) or more. At the time of submitting a bid, each bidder must certify that the bidder is not identified on the Department of General Services list of ineligible persons pursuant to PCC Section 2203(b). Each bidder is also required to certify that the bidder is not engaged in investment activities in violation of the Iran Contracting Act of 2010.

A bidder who is engaged in investment activities in the energy sector of Iran is defined as:

1. A person providing goods or services of twenty million dollars (\$20,000,000) or more in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers, or products used to construct or maintain pipelines used to transport oil or liquefied natural gas, for the energy sector of Iran; or
2. A person that is a financial institution that extends twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that person will use the credit to provide goods or services in the energy sector in Iran and is identified on a list created pursuant to PCC Section 2203(b).

A bidder is not required to certify that it is engaged in investment activities in the energy sector of Iran if the bidder is exempt from the certification under PCC Section 2203(c) or (d). If the bidder is exempt from the certification requirement, the bidder will be required to provide documentation demonstrating the exemption.

To comply with the Iran Contracting Act of 2010, the bidder shall complete **one** of the options below. Please note: under PCC Section 2205, false certification of this form may result in civil penalties of \$250,000 or twice the amount of the contract for which false certification was made, termination of the contract, and/or ineligibility to bid on contracts for a period of three years.

Option #1: Certification

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below, and any subcontractor who will perform work or labor or render services to the vendor identified below, is not on the current Department of General Services list identifying persons engaged in investment activities in the energy sector of Iran, and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current Department of General Services list identifying persons engaged in investment activities in the energy sector of Iran.

Vendor/Financial Institution: _____

Signature: _____

Name and Title: _____

Date: _____

Option #2: Exemption

Pursuant to PCC Section 2203(c) and (d), a public entity may permit a bidder or financial institution engaged in investment activities in Iran, on a case-by-case basis, to be eligible for, or to bid on, submit proposals for, or enter into or renew a contract with a public entity for goods or services of one million dollars (\$1,000,000) or more. If the bidder, financial institution, or any subcontractor who will perform work or labor or render services to the bidder has obtained an exemption from the certification requirement, please complete and sign below and attach the documentation demonstrating the exemption approval.

Vendor/Financial Institution: _____

Signature: _____

Name and Title: _____

Date: _____

Option #3: Non-Applicability

Pursuant to PCC Section 2203(b), a bidder or financial institution engaged in investment activities in Iran may not be eligible for, or to bid on, submit proposals for, or enter into or renew a contract with a public entity for goods or services of one million dollars (\$1,000,000) or more. If the contract is not for goods or services of one million dollars (\$1,000,000) or more, please sign below indicating that the contract is not for goods or services of one million dollars (\$1,000,000) or more and thus bidder is not required to certify and does not meet the exemption.

**FORM M: PUBLIC RECORDS ACT INDEMNIFICATION – PROPOSAL
DOCUMENTS**

PUBLIC RECORDS ACT INDEMNIFICATION – PROPOSAL DOCUMENTS

Offeror is required to submit one copy of the completed and signed form as part of its proposal and it should be included only in the original proposal. Offeror shall complete either Option 1 or Option 2 which ever applies.

Option #1: Public Records Act Indemnification Agreement

By signing below, the Offeror agrees as follows regarding its Proposal:

If Authority receives a Public Records Act request (Government Code sections 6250 et seq.) which seeks any portion of Offeror’s proposal that the Offeror has marked as "confidential", "trade secret", "proprietary", "not subject to disclosure", or similar designation (the "PRA Documents"), the Authority will notify the Offeror of the request. The Offeror shall, within three business days of such notification from the Authority, inform the Authority as to whether it desires the PRA Documents to be withheld, and shall thereafter timely provide a legal basis for each such requested withholding. If the Authority determines to withhold the PRA Documents, Offeror shall indemnify and defend Authority from any and all costs or liabilities resulting from such withholding including, but not limited to, attorney fees and court costs.

Offeror shall pay all costs, immediately as they come due, pertaining to any action under the Public Records Act related to any portion of Offeror’s Proposal marked or designated as described above, and withheld by Authority. If the Offeror fails to notify the Authority in writing within three business days, or to timely provide a legal basis for the withholding of documents, Offeror agrees that Authority shall release and disclose Offeror records, notwithstanding any marking or designation of the PRA Documents.

In no case shall Authority be liable for any inadvertent disclosure of any Offeror proposal documents, or any disclosure made by Authority upon a good faith belief that disclosure is required by law, or in the event Offeror has failed to notify the Authority in writing of its desire to withhold the PRA Documents within three business days and/or to timely provide a legal basis for the withholding of documents, regardless of any marking or designation of such PRA Documents, and Offeror waives any claims it may have had related to such disclosure.

FORM Q: CONFORMANCE MATRIX

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
1. Project Management			
1.1. Project Management and Control			
	The Project is divided into two overlapping phases: The Implementation Phase (from Effective Date until BOS Acceptance) and the Operations and Maintenance Phase (after commencement of CSC Operations through the end of the Agreement).		
1	The Contractor shall provide all management, supervisory, financial and operations staff, including qualified management, professional, technical and clerical personnel, to professionally design and implement the BOS and operate and administer the Authority's operations in a manner that meets all required performance criteria. The Contractor shall put in place the organizational structure and staffing required to meet these Requirements.		
2	The Contractor shall perform and provide all services in accordance with all applicable laws, rules, regulations, ordinances and in compliance with all applicable Authority policies. All Plans and procedures prepared by the Contractor shall be Approved by the Authority, as set forth in these Requirements.		
1.2. Project Management Plan (PMP)			
	The Contractor shall develop and employ a Project Management Plan (PMP) in accordance with Project Management Institute (PMI) Project Management Body of Knowledge (PMBOK) latest edition that is sufficiently detailed to enable the Authority to review and confirm that the Contractor has the necessary management, staff and controls in place to meet the Agreement Requirements.		
	The PMP describes how the Contractor shall deliver, implement and manage the Project, including staffing, scheduling and communication procedures for controlling all correspondence, Submittals and other communications between the Contractor and the Authority, as well as communications with other third-party entities. The PMP shall be in accordance with system engineering methodology wherever applicable.		
3	The PMP shall include, but is not limited to:		
	· Project scope and key Deliverables, tracked using a numbered Contract Deliverables Requirements List (CDRL);		
	· a description of the staff management and organization of the Project; an organization chart; identification of Key Team Personnel and their associated responsibilities, and identification of the resources to be used in fulfilling the Requirements;		
	· a description of Project planning, documenting and reporting methods to be utilized, both for use within the Contractor's staff and externally with the Authority;		
	· approach to issue management, including communication, escalation and resolution of Project issues with the Authority;		
	· approach to communication management, including meeting schedules and team meetings;		
	· the format of the Implementation Phase monthly progress report;		
	· inclusion of the Approved Baseline Implementation Schedule;		
· a description of the process for reporting and tracking the Approved Baseline Implementation Schedule and Project performance;			
· approach to change control management, consistent with Agreement Requirements, including a description of the process for documenting and submitting change requests, the Approval process and how the change control management approach will be integrated into day-to-day Project management;			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	<ul style="list-style-type: none"> process for resolution if a change request scope and cost proposal is rejected by the Authority; approach to document control, including utilizing the Contractor-provided Electronic Document Management System (EDMS) that is accessible to the Project team by username and password (the Authority shall have the capability to download documents using this Software); approach to risk management, including communication, escalation and resolution of Project risks with the Authority; approach to Quality Assurance and Quality Control; approach to Subcontractor management, including how issues with Subcontractors will be resolved in a timely manner; approach to procurement management which adheres to the Authority's policies; approach to operational readiness including a Go-Live check list; documenting the invoice submission; invoice backup information; verification, and Approval process; a section with all Approved Project forms; approach to Project closeout and an emergency contact list. 		
4	The Contractor shall provide as a part of the PMP and then maintain both a Contractor and Authority contact list. The contact list shall include all Implementation Phase Key Team Personnel and backups, personnel title and areas of Project participation. The list will be superseded by Operations and Maintenance Phase documentation and processes.		
5	The Contractor shall develop and submit the PMP to the Authority within ten (10) Business Days of the Agreement's Effective Date for review and Approval.		
6	The Contractor shall identify the tools and products used to manage the Project and the internal controls instituted by the Contractor to guarantee successful delivery of the Project.		
7	The Contractor shall develop and submit communications procedures to the Authority for review and Approval that address the following, including but not limited to:		
	<ul style="list-style-type: none"> Correspondence – all correspondence shall be identified as to originator and designated receiver and contain the Agreement name and number; Document control – tracking of document versions and changes; 		
	<ul style="list-style-type: none"> Invoices – all invoices shall be submitted with accompanying backup information as required by the Agreement and consistent with the Authority process and invoicing and auditing policies. The Contractor shall work with the Authority to develop the appropriate invoice and back-up materials as a part of the PMP development. Contractor shall address costs that are netted out from the Contactor's toll revenue payment to the Authority, for example credit card fees and collections fees and Submittals – all Submittals shall be delivered as an enclosure to the Contractor's submittal letter. Each Submittal letter shall be limited to a single subject or item. The Contractor's letter shall identify the Agreement number, Agreement name and subject of the Submittal, CDRL name if applicable, and the version number. 		
1.3. Coordination			
1.3.1. Coordination with ETTM System Contractor			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor shall work with the ETTM System Contractor in the design, implementation and operations of the BOS as well as the management and operation of the CSC. The ETTM System Contractor is responsible for around-the-clock monitoring of the ETTM System and support of operations and operational staff with respect to the ETTM System. The Contractor shall nonetheless be responsible for the timely reporting of any issues or failures it has identified related to the ETTM System to both the ETTM System Contractor and the Authority, and for cooperating with the ETTM System Contractor to resolve the issues as expeditiously as possible.		
8	The Contractor shall report any observed ETTM System anomalies and errors to the ETTM System Contractor via Cases; the Contractor shall track these issues through to timely resolution in coordination with the ETTM System Contractor.		
9	The Contractor shall select the appropriate priority level or level of urgency when reporting ETTM System errors to the ETTM System Contractor based on the levels identified in the Operations Plan. The Contractor shall make best efforts to ensure that critical and high-priority items are quickly and effectively communicated to the ETTM System Contractor within a time period agreed-to in the Operations Plan.		
10	The Contractor shall notify the Authority of all issues and errors identified in the Operations Plan as requiring simultaneous notification to the Authority.		
11	The Contractor shall participate in Coordination and Status meetings with the Authority and the ETTM System Contractor.		
12	The Contractor shall participate in other meetings with the Authority and the ETTM System Contractor.		
1.3.2. Cooperation with Other Contractors and Providers			
13	The Contractor shall cooperate to the fullest extent with other contractors, the Authority, and Third-Party Service Providers to ensure the BOS Implementation and Operations and Maintenance Phase activities do not conflict with, have any detrimental effect, or cause any interruption in capability or service or safety issues to the traveling public, customers, the Authority, other OCTA BOS and CSC Operations or existing OCTA operations.		
14	The Contractor shall cooperate to the fullest extent with external parties in accordance with the terms and conditions of the Agreement, including but not limited to:		
	· employees of the Authority;		
	· designated representatives of the Authority;		
	· Authority legal counsel;		
	· other Interoperable Agencies, states and parties, as directed by the Authority;		
	· all entities that directly access the BOS;		
	· all entities that use or require output from the BOS;		
	· law enforcement;		
· auditors and			
· All Third-Party Service Providers.			
15	The Contractor shall cooperate with and immediately notify the Authority (via Authority -provided distribution list) regarding any issues with or customer complaints related to the BOS or ETTM System that come to Contractor's attention during the course of the Implementation Phase, testing or during the Operations and Maintenance Phase.		
1.4. Project Meetings			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor is required to facilitate (plan, lead, coordinate, and report on) or participate in both regularly scheduled and ad-hoc meetings during the course of the Project.		
16	The Contractor shall set up, facilitate and participate in meetings during the Implementation Phase, including but not limited to:		
	· Project reporting and progress meeting (monthly);		
	· Change Control Board meetings (as required, but no less than every two weeks or per the Project Management Plan);		
	· installation coordination meetings (weekly during specific Implementation Phase timeframe) and		
17	· Various workshops, comment review and BOS design meetings as required.		
	The Contractor shall set up, facilitate and participate in meetings during the Operations and Maintenance Phase, including but not limited to:		
	· Weekly project status meetings;		
	· Ad-hoc meetings (as needed);		
	· Change Control Board meetings (as needed);		
	· CSC Operations performance review and operational status meetings (to include review of performance relative to the Performance Measures, Customer Satisfaction Surveys, training schedule, identified BOS issues and other relevant findings);		
18	· BOS performance review and operational status meetings (to include review of performance relative to the Performance Measures, training schedule, Upgrades and Enhancements list, bug list and general status updates) and		
	· Operations and Maintenance Phase meetings shall be structured and scheduled per the Approved Maintenance Plan.		
	18 The Contractor shall provide and maintain a schedule for all meetings which it leads.		
19	All meeting locations shall be designated by the Authority.		
20	No less than three (3) Business Days prior to meetings which it leads, the Contractor shall provide a meeting agenda that the Authority can comment on and the Contractor shall then update.		
21	No more than three (3) Business Days after meetings it leads, the Contractor shall submit draft meeting minutes for the Authority's review, which capture the summary of the discussions. No more than two (2) Business Days after receiving the Authority's comments to the meeting minutes, the Contractor shall submit updated meeting minutes for the Authority's review. This process shall continue until the meeting minutes are Approved.		
1.4.1. Project Reporting and Progress Meetings During Implementation Phase			
	Bi-weekly Project reports and progress meetings shall enable the Authority and the Contractor to monitor the status, progress and quality of the Work performed on the Project and to take proactive steps to ensure successful delivery of the Project.		
22	The calendar for meeting days shall be scheduled by the Contractor following the Agreement's Effective Date.		
23	With the meeting agenda submission, the Contractor shall submit a progress report to the Authority. The Authority may review and comment on the progress report prior to the meeting and the Contractor shall update accordingly.		
24	The format of the progress report shall be agreed upon as one of the initial Project tasks upon the Agreement's Effective Date and shall be incorporated by the Contractor into the PMP.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
25	The Contractor shall manage, facilitate and conduct the meetings in accordance with the agreed to format.		
26	The progress report includes but is not limited to:		
	· a summary, outlining progress, status and percentage of Work performed for each task, as compared to planned activities in the Approved Baseline Implementation Schedule. Comments shall be included where appropriate. The summary should be a dashboard-style report and shall identify status of key milestones;		
	· an analysis of all critical path tasks, potential risks associated with the tasks and proposed contingency/work around plans to circumvent or mitigate delays to the Project;		
	· identification of any Approved changes to Approved milestone dates and Approved Baseline Implementation Schedule, clearly noting the details and identifying the Agreement Change;		
	· a discussion of schedule compliance and an updated Baseline Implementation Schedule showing current status against the baseline Approved Baseline Implementation Schedule;		
	· a risk log that tracks the status of all outstanding risks that need decision/resolution;		
	· an updated action items list that tracks the status of all outstanding Deliverables, activities and issues that need decision/resolution;		
	· open invoices, if applicable;		
	· a list of Approved and pending change requests (Contractor and Authority -initiated) and their status;		
	· the previous meeting final minutes and		
	· a six (6) week look-ahead schedule.		
1.5. Quality Assurance Program			
	The Contractor shall establish an effective Quality Assurance (QA) program to ensure compliance with the Agreement. This QA program shall detail the process and procedures instituted by the Contractor to ensure the QA program is in place.		
27	The Contractor shall establish an effective QA program that ensures adequate quality throughout all areas of Agreement performance.		
28	All systems and services under this Agreement, whether performed within the Contractor's facilities or at any other source, shall be managed by the Contractor at all points necessary to ensure conformance to the Requirements of the Agreement.		
29	The QA program shall provide for the prevention and early detection of discrepancies and for timely and positive corrective action.		
30	The QA program shall include effective Quality Control of purchased services and materials and subcontracted Work.		
31	The Contractor shall make evidence of quality conformance readily available to the Authority, and the Authority shall have the right to review and verify the Contractor's compliance to the process. For the Implementation Phase, evidence includes documentation of adherence to testing procedures and achieving expected test results and for the Operations and Maintenance Phase, evidence includes the Monthly Operations Report, results of quality audits and system reports.		
32	The Contractor's Quality Assurance Manager shall lead the team of Contractor's staff to meet all the Requirements related to quality and to assure the Authority that the Work of the Contractor is in accordance with the Quality Plan as defined in Section 4.2.1.		
1.5.1. Control of Purchase			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
33	The Contractor shall be responsible for ensuring all systems, supplies, components, developmental tools, assemblies, subassemblies and services procured from Subcontractors, Third-Party Service Providers conform to the Requirements and the Agreement.		
34	The Contractor shall establish procedures for the selection of Third-Party Service Providers in accordance with the Agreement. The Contractor shall ensure the Subcontractors, Third-Party Service Providers control the quality of the supplies and services provided.		
35	The Contractor shall provide all procurement documents to the Authority upon request.		
1.5.2. Visits to Contractor's Facilities			
36	The Authority reserves the right to both unannounced and scheduled visits to all Contractor's facilities and all areas of those facilities where Software development/support and services related to the BOS and CSC Operations are performed.		
1.6. Baseline Implementation Schedule and Contract Deliverables Requirements List (CDRL)			
	The Approved Baseline Implementation Schedule (also referred to as "the Schedule" below) is a comprehensive list of Project milestones, activities and Deliverables, with planned start and finish dates, including a detailed Work Breakdown Structure (WBS) that identifies Project tasks down to the Work package level and the activities required to complete the Work package Deliverables. The Contract Deliverables Requirement List (CDRL) (Section 10) is used with the schedule to track the Project Deliverables.		
37	The Contractor shall provide and maintain a detailed Baseline Implementation Schedule in Microsoft Project format (Project 2016 or above and include backward compatibility with earlier versions as required by the Authority) that lists all Project activities, tasks and sub-tasks, and sub-phases including but not limited to:		
	· staffing;		
	· key intersection points/dependencies with the ETTM System Contractor;		
	· document development;		
	· any required improvements to CSC and WIC Sites;		
	· fit-out/installation (including communications infrastructure installation) at CSC and WIC facilities;		
	· training;		
	· mobilization;		
	· BOS and operations Go-Live and		
	· all ongoing Project activities throughout the Implementation Phase, such as scheduled meetings and their frequency/periodicity.		
38	The Schedule shall include the milestone dates shown in RFP Exhibit C as modified and Approved per the Agreement.		
39	The Schedule shall also include coordination activities with the Authority, other contractors, and all Third-Party Service Providers and shall clearly document all coordination tasks.		
40	Upon Approval of the Baseline Implementation Schedule by the Authority, the schedule shall become the Approved Baseline Implementation Schedule.		
41	The Schedule shall identify all milestones and tasks, starting with the Agreement's Effective Date through the BOS Acceptance.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
42	The Schedule shall be resource loaded, shall include all draft submissions and review cycles and shall include all tasks required of the Authority. All Authority tasks and durations shall be clearly highlighted and differentiated from Contractor tasks.		
43	The Schedule shall identify all critical path tasks and shall be used to manage the Project.		
44	Once the Baseline Implementation Schedule is Approved, the Contractor shall update progress against the Approved Baseline Implementation Schedule on a monthly basis, showing percent complete for all Project tasks and identifying actual start and finish dates against the Approved Baseline Implementation Schedule.		
45	The Contractor shall use the Approved Baseline Implementation Schedule throughout the duration of the Project and shall notify the Authority of any anticipated schedule changes along with a plan for mitigating them, if applicable.		
46	The Contractor shall obtain Approval from the Authority for all changes to the Approved Baseline Implementation Schedule. No revisions shall be considered Approved or accepted without this Approval in writing.		
47	In parallel and concurrent with the Schedule, the Contractor shall report and track the status of all Contractor Deliverables via a separate CDRL that lists delivery dates (planned and actual), review cycles, workshops (if applicable), comment review meetings and Approval dates.		
2. Staffing and Key Team Personnel			
	The Contractor is responsible for maintaining and assigning a sufficient number of competent and qualified professionals to meet the Requirements of the Agreement in accordance with the Approved Baseline Implementation Schedule.		
2.1. General Staffing Requirements			
48	The Contractor shall provide staff at all times sufficient to meet the Project Requirements.		
49	The Contractor shall provide all staff and services to professionally operate the CSC and provide professional customer service in accordance with the procedures and policies documented in the Operations Plan, SOPs, and the Requirements. Staff shall include all management, supervisory, financial, technical, and operations personnel.		
50	The Contractor shall ensure Key Team Personnel are readily accessible to the Authority during the Implementation and Operations and Maintenance Phases.		
51	The Contractor shall submit replacement requests for Key Team Personnel to the Authority for review and Approval prior to replacement of an individual. Key Team Personnel shall not be replaced without the prior Approval of the Authority as to the replacement.		
52	The Authority shall have the right to request replacement of any Contractor personnel in accordance with the terms and conditions of the Agreement.		
53	The Contractor shall replace Key Team Personnel immediately with an acting replacement after the position is empty. Failure to promptly replace open Key Team Personnel positions with a full-time replacement shall result in penalties as described within the Agreement and/or Performance Measures.		
54	The Contractor shall provide a staffing plan for the Operations and Maintenance Phase ninety (90) days before Go-Live.		
55	The Contractor shall ensure all personnel are trained and conduct themselves in a professional manner that is based upon the best practices of customer service. The Contractor's employee code of conduct shall be included in the Operations Plan.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
56	The Contractor shall provide, update and maintain a complete organizational chart during both the Implementation Phase and Operations and Maintenance Phases and provide to the Authority upon request.		
2.2. Key Team Personnel			
57	The Contractor shall provide the following Key Team Personnel for this Project, shown Table 2-1: Key Team Personnel, subject to the Approval of the Authority. The list in Table 2-1 is not an exhaustive list of key personnel, but the minimum required Key Team Personnel to be included in the Contractor's organizational structure.		
58	The Contractor shall attempt to fill Key Team Personnel positions with the minimum experience provided in Table 2-1: Key Team Personnel. The Authority will use the experience levels provided in assessing and Approving Key Team Personnel.		
2.3. Other Required Personnel			
	In addition to the Key Team Personnel list in Section 2.2, the Contractor must provide adequate staff to perform the Requirements. This includes, but is not limited to, the following dedicated staff:		
	· Human Resources Manager;		
	· Training Manager;		
	· Desktop Support Personnel and		
	· Data Analytics Specialist.		
59	The Contractor shall provide a Human Resources Manager, with at least five (5) years' experience as a Human Resource Manager on projects of a similar scope to this Project, responsible for all Project personnel. Responsible for human resources management during the Operations and Maintenance Phase.		
60	The Contractor shall provide a Training Manager, with at least five (5) years' experience in customer service, responsible for providing assessments, planning, developing, delivering and evaluating employee training.		
61	The Contractor shall provide On-site Desktop Environment and BOS application technical support to all Contractor personnel and Authority Authorized Users at all locations from 7 a.m. to 7 p.m. Monday – Friday, Pacific Time and be on-call and available to come on-site 24x7x365.		
62	The Contractor shall provide a Data Analytics Specialist for the duration of the Agreement to assist the Authority in formatting queries and running analytics reports on its behalf.		
2.4. Staff Selection Requirements			
	The Contractor shall screen all candidates for potential employment at the CSC. Screening and the subsequent decision to hire shall be based upon fair, equitable and job-related criteria. Additional screening may be required for the Contractor's operation's staff prior to promotion or transfer to job roles with increased access to sensitive or critical information.		
	The level of background investigation required shall be dependent upon job function (for example, a receptionist who has limited access to customer and financial information shall require a lower level of investigation than a clerk in the finance department who may have access to customer and financial information).		
	All Contractor employees shall undergo screening, including but is not limited to:		
	· business/personal references;		
	· illegal substance screening;		
	· past employment history;		

Volume I Project Management and Controls

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
63	· education verification;		
	· financial credit history;		
	· professional license and certification verification;		
	· military service verification;		
	· criminal records including misdemeanor and felony convictions and I-9 immigration status.		
64	The Contractor shall comply with all applicable laws and regulations related to operating and staffing the CSC, including but not limited to:		
	· Americans with Disabilities Act (ADA);		
	· Occupational Safety and Health Act (OSHA);		
	· Equal Employment Opportunity Commission (EEOC);		
	· Federal Fair Credit Reporting Act (FCRA);		
	· Drivers Privacy Protection Act - 18 US Code, Section 2721 (DPPA);		
	· California State statute regarding protection of Personal Identifying Information (PII) and Security Standards.		
65	The Contractor, when conducting background investigations, shall consider and take into account the following:		
	· name search - married name, previous names, aliases and		
	· investigations must be completed and reviewed by the Contractor prior to the employee beginning work.		
66	The Contractor shall maintain hardcopy and electronic, as applicable, backup documentation on-site for all background checks.		
67	The Contractor shall maintain records of adjudication and hiring decisions on each candidate interviewed or considered for a position.		
68	All staff shall understand, read, write and speak English fluently and shall be U.S. citizens or otherwise legally permitted to work in the U.S.		
69	The Contractor shall provide for bilingual (Spanish) customer service staff to support Spanish-speaking customers who call or visit during all business hours.		
3. System Development and Design Requirements			
3.1. System Development Meetings and Workshops			
	To ensure the design Requirements for the BOS are fully understood by the Authority and the Contractor, a series of Requirements and design review steps are specified following a sequential design process. The Conformed Statement of Work Requirements Document (CSWRD) is developed in coordination with the Authority and the Contractor, upon selection of the Contractor. The CSWRD shall be the basis for the Contractor to develop a Requirements Traceability Matrix (RTM). The RTM details the Requirements in tabular format with columns that allow for verification that each of the Requirements in the CSWRD have been addressed in the design and documented in the System Detailed Design Document (SDDD) and the Master Test Plan (MTP) and its test procedures. The RTM shall be the basis for all design, development and testing efforts and documentation to be developed by the Contractor.		
	The ETTM System Contractor shall attend meetings and workshops as required and at the Authority's discretion based on the meeting content.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
70	The Contractor shall establish and maintain a Software design and development program to ensure compliance with the BOS Requirements.		
71	The Contractor shall employ appropriate techniques and methodologies to develop the BOS Requirements and ensure compliance with the Business Rules for the Project.		
72	The Contractor shall, for all Phase II and optional (if applicable) functionality, follow the design, development and test process that mimics the Approved Implementation Phase Software design, development and testing process.		
73	Prior to conducting any workshops, Requirements reviews, focus group meetings or design reviews, the Contractor shall develop all necessary documentation for the Authority to review and shall submit the documentation for review no less than ten (10) Business Days prior to such meetings.		
3.2. Business Rules Workshops			
	The Contractor shall conduct a series of Business Rules workshops with the Authority to address the Business Rules document with any information required by the Contractor to design, develop and configure the BOS or operations related documentation and processes.		
74	The Contractor shall manage, facilitate and conduct Business Rules review workshops with the Authority to discuss, update and modify the Business Rules to accommodate the implementation of the BOS and CSC Operations.		
75	The Business Rules review workshops shall include Contractor and Authority staff with expertise on the current and future business operations.		
76	The Contractor shall facilitate and conduct a minimum of three Business Rules workshops.		
77	The workshops shall continue until the Business Rules are updated to the satisfaction of both the Contractor and the Authority.		
3.3. Software Walkthroughs			
	The intent of the Software walkthrough is to provide transparency into the planning process for the Contractor's Software development to ensure the Contractor is on track to deliver the Project on schedule and to obtain the Authority's feedback on the direction of the development prior to the full rollout of the Software. Lastly it allows the Authority to observe the BOS in operation. Unlike Software detailed design reviews, these walkthroughs shall demonstrate actual transactions/trips in a test environment. As part of the walkthrough process, the Contractor shall validate all Requirements and ensure Contractor's understanding of the Requirements.		
78	The Contractor shall manage, facilitate and conduct the walkthroughs.		
79	The Contractor shall conduct a series of Software walkthroughs including product demonstrations and/or planned functionality to solicit input from the Authority during the development of the BOS Software. The Contractor will segment each meeting by functional area and schedule each walkthrough meeting to align with the participants' availability.		
80	Prior to the Software walkthrough the Contractor shall provide a listing of the functionality that will be covered, high-level use cases do be demonstrated and identify all Requirements that need clarification and discussion.		
81	During the Software walkthroughs, the Contractor shall outline and demonstrate how the BOS Requirements will be met. The outcome of these meetings shall be documented in a revised RTM document.		
82	Prior to the Software walkthrough, the Contractor shall develop and submit high-level use cases that shall be demonstrated to the Authority for review and Approval.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
83	To the extent possible, the product shall be demonstrated in an environment that allows data to flow as it will in the final integrated BOS.		
84	The Software walkthrough shall demonstrate to the Authority that the Software design meets the technical and functional Requirements.		
85	Comments and feedback provided during the Software walkthrough shall be documented and resolved by the Contractor and the resolution shall be Approved by the Authority.		
86	The Contractor shall be responsible for identifying and correcting any Software issues or defects in its design or product that impact the Contractor's ability to deliver a BOS that meets the Requirements. This shall apply to issues or defects found during or after Software walkthrough or in the subsequent testing and implementation. Any such changes to address these issues shall be Approved by the Authority in writing.		
3.4. Reports Design Workshops			
	The Contractor shall conduct a series of workshops with the Authority to facilitate the design of the BOS reports required by the Authority.		
87	The Contractor shall manage, facilitate and conduct a minimum of three (3) reports design workshops.		
88	The reports design process shall be iterative, and the Contractor shall conduct multiple workshops with the Authority's stakeholders sufficient to obtain the Authority's informed input. The Contractor shall bring its subject matter experts (SMEs) to the workshops, including as example, BOS, operations, Maintenance and finance/accounting staff, as appropriate for the report type(s) being reviewed during the meeting.		
89	SMEs must provide a means for fully explaining each report, its intended purpose, columns, fields and components and its connection with other reconciling and validating reports.		
90	The Contractor shall trace the reports to the Requirements and demonstrate that all Requirements are satisfied.		
91	Upon receiving feedback from the Authority, the Contractor shall develop/modify the reports and submit the updated reports for review.		
92	The iterative series of workshops and demonstrations shall continue until the purpose, layout and content of all reports are Approved by the Authority.		
3.5. Performance Measures Reporting Workshops			
	The Contractor shall conduct a series of workshops with the Authority to facilitate the design of the Performance Measures reports.		
93	Within the first three (3) months after the Agreement's Effective Date or at another date Approved by the Authority, subject to reasonable advance notice, the Contractor shall conduct a series of Performance Measures reporting workshops with the Authority. This will allow the Contractor and the Authority to understand how the Performance Measures-related data will be captured and reported once the Operations and Maintenance Phase has commenced. During these workshops, the Contractor and the Authority shall discuss the Performance Measures and the associated reporting. These workshops shall allow the Contractor to specify and gain initial Approval (subject to formal testing) on how the Performance Measures-related data will be captured and to accurately reported during the Operations and Maintenance Phase.		
3.6. System Detailed Design Review Meetings and Workshops			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	Based on the RTM, Operations Plan, SOPs and Business Rules documents, the Contractor shall design the BOS and submit a preliminary design document for the Authority to review and provide comments. The Contractor shall then conduct a series of design meetings, walk-throughs and workshops with the Authority to address the comments and to create the SDDD, defining how the design shall meet the BOS Requirements. Upon the submittal of an updated SDDD another review cycle shall take place.		
94	The Business Rules document, Operations Plan, SOPs, and the RTM shall be used to develop the System design and the SDDD.		
95	The Contractor shall schedule design meetings with the Authority to review and fully understand the design Requirements.		
96	The Contractor shall manage, facilitate and conduct the workshops and meetings.		
97	The Contractor shall demonstrate pre-production working products (such as beta versions) during the design review process, and stakeholders shall be walked through the workflow, utilizing screens and data flow diagrams.		
98	The Contractor shall explain how the BOS design meets the RTM, the Business Rules and the Agreement Requirements.		
99	The Contractor shall conduct as many meetings, workshops, and submission review cycles as deemed necessary by the Authority to address all design issues to the Authority's satisfaction.		
3.7. Use Cases Workshops			
	The Contractor shall conduct a series of use-case workshops with the Authority to develop use cases. The outcome of these meetings shall be a series of use-case documents that shall be used in conjunction with the Business Rules and test procedures to validate the Requirements.		
100	The Contractor shall manage, facilitate and conduct a minimum of three (3) use-case workshops with the Authority to develop the use cases that shall be used in conjunction with test procedures to validate that all BOS Requirements have been met.		
101	The use-cases (and associated test-cases) shall be traced against the Requirements within the RTM.		
102	The iterative series of workshops and demonstrations shall continue until the above use-case Requirements are satisfied and the use cases are Approved by the Authority.		
4. Documentation			
	The Contractor is required to provide various documents to support the BOS development and ongoing operations and Maintenance. All documentation provided under this Agreement shall meet the Requirements described below.		
	An online Contractor-provided Electronic Document Management System (EDMS) will be provided for the Authority's use. The EDMS will control the saving, versioning and storage of all Project-related documents, including the Contractor's Deliverables and other operations support documentation provided by the Contractor that must be available to the Project team. The Contractor shall save all Contractor Deliverables and other support documentation to the EDMS.		
4.1. Contractor-Developed Documentation Requirements			
103	The Contractor shall utilize a Contractor-provided EDMS that is accessible to the Project team by username and password, to control all Project-related documents from first submission to Approval.		
104	All Project documents submitted under this Agreement shall be available to all authorized Project team members using the EDMS during both the Implementation and Operations and Maintenance Phases.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
105	Each document shall be properly titled, date updated, numbered by revision, revision history, and version and shall incorporate signature blocks for authorship and Approvals. The Contractor shall provide a logical indexing system for ease of access for the Authority's Approval to be used to locate documents in the EDMS.		
106	The Contractor shall utilize acceptable standards agreed upon by the Contractor and the Authority when updating documents and submitting revisions.		
107	All documentation submitted by the Contractor under this Agreement shall be accurate and comply with Agreement Requirements.		
108	A table of contents, for all documentation that includes multiple pages and/or multiple sections, shall be submitted by the Contractor to the Authority for review and comment prior to the submission of the preliminary draft as part of the Deliverables Expectation Document. The Authority will review and provide comment on table of contents Submittals within five (5) Business Days.		
109	The Deliverables Expectation Document shall include all subsections and a summary narrative for each section describing the assumptions and approach.		
110	The Contractor shall submit preliminary draft and final draft documents to the Authority for review and comment, followed by 100 percent complete documents that incorporate all the Authority's review comments.		
111	The Authority shall have the right to require additional interim drafts from the Contractor at no additional cost should the documentation submitted not be of adequate quality, have missing or incorrect information or if it does not satisfactorily address the Authority's review comments.		
112	The Authority shall review and Approve all documents submitted. For documents containing less than 100 pages, the Authority will review and provide comment on preliminary draft documents within fifteen (15) Business Days. For documents containing at least 100 pages, the Authority will review and provide comment on preliminary draft documents within twenty-five (25) Business Days. The Authority shall review and provide comment on all final draft and final documents within ten (10) Business Days. When multiple documents are submitted to the Authority simultaneously, or within one week of each other, the number of Business Days required for review shall be doubled.		
113	The Contractor shall provide a Customer Review Form (CRF) with each submitted document. The Authority shall populate the CRF and provide the Contractor with written comments on all submitted documents. The Contractor shall respond in writing to all comments through the CRF. The Contractor may schedule and conduct meetings to clarify and resolve any remaining questions and issues concerning the comments and responses provided. The Contractor shall then prepare a revised version of the document for Approval by the Authority.		
114	The Contractor shall submit a hard copy and the electronic version of all Contractor developed documentation for Authority review and Approval unless otherwise directed by the Authority. Acceptable electronic formats are Microsoft Word 2016 (or higher), unsecured and indexed Portable Document Format (PDF), Excel (as appropriate) and professional CAD applications for Contractor-prepared documentation.		
115	The Contractor shall update documentation as changes occur through the Implementation Phase and the Operations and Maintenance Phase. All changes shall be submitted to the Authority for Approval. The Contractor shall maintain a document Submittals list on the EDMS identifying all versions of documents, the date submitted, the nature of changes and identify what the changes are within the documentation.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
116	All documentation submitted by the Contractor under this Agreement shall be the property of the Authority and shall not be marked with "Proprietary" unless agreed to by the Authority.		
4.2. Documents			
4.2.1. Quality Plan			
	The Quality Plan will include details about how the Contractor will plan and implement the QA program, how to address errors (quality-related events) and how to make improvements before an error occurs (continuous quality improvement). The Quality Plan will address all phases and Work.		
117	The Contractor shall develop a CSC Operations Quality Plan that details the Contractor's QA program in a concise manner customized to this Project.		
118	The Quality Plan shall include the Contractor's QA approach related to overall project management and controls, including but not limited to:		
	· quality management and organizational structure;		
	· project management;		
	· project controls;		
	· project documentation and updates and · project scheduling.		
119	The Quality Plan shall include the Contractor's QA approach related to BOS design and development, operation, Software Maintenance and BOS administration, including but not limited to:		
	· overall design;		
	· Software development, initial and on-going;		
	· Software development standards and documentation;		
	· testing;		
	· adherence to Security Standards;		
	· installation;		
	· quality management of all BOS created customer communications and Notifications;		
	· adherence to Performance Measures;		
	· configuration management;		
· change management;			
· monitoring and administration and · BOS installation and operational mobilization.			
120	The Quality Plan shall include the Contractor's QA approach related to CSC Operations, including but not limited to:		
	· quality management of every CSC Operations function;		
	· ongoing Customer Satisfaction Surveying and how the tool and information will be used;		
	· customer service quality improvements;		
	· adherence to Security Standards;		
	· quality management and organizational structure;		
	· quality management documentation;		
	· Contractor's quarterly audit;		
	· all State and Federal audits per the Agreement;		
	· all required and Authority led audits;		
· quality review and verification;			
· adherence to Performance Measures and

	· CSC initial and on-going staffing.		
4.2.2. Software Development Plan			
121	The Contractor shall develop and submit a Software Development Plan (SDP) that includes but is not limited to:		
	· documentation of the Software development approach to the application structure, behavior, architecture, business processes and data structures;		
	· Software development organizational chart, including resources and responsibilities, such as Software developers (by area of development), system engineers, test engineers, Quality Assurance and Quality Control personnel, configuration management administrator, documentation specialists and management staff;		
	· Software development languages, development platforms and standards;		
	· Software development methodology, such as use cases, modeling and other development tools;		
	· management and control of Software versioning and major releases;		
	· description of the Software development life-cycle and Maintenance;		
	· location and approach to segregation of development and testing environments;		
	· development problem reporting and defect tracking;		
	· code reviews;		
	· internal testing methodology;		
	· regression testing;		
	· Software development language strategy related to both development and Software Maintenance;		
	· development and integration approach for the major functional Modules;		
· detailed Software Quality Control processes;			
· Software documentation, standardization, review and usability;			
· samples of detailed Software documentation for both external and in-line documentation;			
· Software configuration and change management approach and standards and			
· Software deployment approach, release notes and validation.			
4.2.3. Requirements Traceability Matrix			
	The RTM provides traceability between Requirements and BOS functionality in a matrix format. The RTM shall be the basis for all design, development and testing efforts and documentation to be developed by the Contractor.		
122	Upon completion of the BOS Requirements review process the Contractor shall deliver a RTM that details all the technical and functional Requirements for the BOS.		
123	The Contractor shall develop and submit an RTM that identifies each Requirement and where it is addressed in the design documents, use cases and test cases, including but not limited to:		
	· listing and multiple levels of categorization (e.g., functional, Interfaces, Modules, etc.) of all Requirements;		
	· identification of the source of all Requirements;		
	· identification of the design section of the SDDD that addresses the Requirement;		
	· identification of the test procedures that address the Requirement;		
	· Identification of the test method to validate the Requirement (e.g., via inspection, demonstration, analysis, test) and		
	· identification of the Business Rules associated with each Requirement.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
124	The RTM shall build on the specifications documented in the CSWRD and shall capture all user needs identified during the Requirements review process.		
125	During the design and development of the BOS, the Contractor shall update the RTM to reflect any changes to the Requirements and Requirements tracing that have been Approved by the Authority through the Project's change control management process.		
126	During design and testing, the RTM shall be used to verify the compliance to the Requirements, use cases and test cases.		
127	Upon Approval of the RTM, it shall be the basis for functional verification of design, development and testing.		
4.2.4. System Detailed Design Document (SDDD)			
128	The Contractor shall develop and submit an SDDD that describes the design specifications of all Hardware and Software provided as part of the BOS to meet the Approved Agreement Requirements. The SDDD shall demonstrate that the Contractor understands the functional, technical and Performance Measures of the BOS and has the processes, system and Software design in place to provide a high-quality and reliable product that meets the Requirements.		
129	The SDDD shall be written in accordance with the Quality Plan as defined in Section 4.2.1.		
130	The SDDD shall comply with data retention Requirements set forth in the Security Standards and Section 4.2.17 Records.		
131	The SDDD shall include the use of diagrams, figures and tables, and it shall apply to all required environments, Contractor-provided systems, and Software to be used by the Contractor, all Interfaces and all Third-Party Service Providers.		
132	The Contractor shall work with the Authority's marketing department in developing the Self-Service Website navigation and look and feel.		
133	The SDDD shall include but not be limited to:		
	· logical BOS diagrams for all environments that identify all subsystems, components, connections and Interfaces;		
	· physical BOS architecture diagrams for all environments that identify all sites, Equipment and network layout diagrams;		
	· telephony, IVR and ACD system flow diagrams, including call routing options;		
	· high system availability design for all BOS components, including servers, storage, network, database and application;		
	· detailed desktop computer Hardware, Software and peripheral configurations;		
	· access/identity security methodology;		
	· network sizing and design details including IP scheme;		
	· complete bill of materials, including Hardware, Software and support/Maintenance agreements;		
	· specification sheets for all Equipment including space and power requirements;		
· Disaster Recovery and Business Continuity design, including network impacts;			
· detailed database design, schema and entity relationship modeling, including transaction and file sizing and processing calculations;			
· detailed database data dictionary;			
· detailed data management design and processes, including summarizations, archiving and purging;

	<ul style="list-style-type: none"> all documentation required under PCI and PII and to document conformance with the Security Standards; Interface Control Documents (ICDs) for all external Interfaces and file upload functionality documenting both sides of the Interface; detailed Software architecture, internal software component interfaces, logic and process flows; detailed transactional and Violation processing logic and flow; detailed financial processing logic and flow, including interface and mapping to the Authority's financial applications; Self-Service Mobile Application (Phase II and optional) flow diagram; Self-Service Website site map; application performance monitoring design; all GUIs (including reports and screen formats); format of all correspondence for all channels and account management design and account types. 		
4.2.5. Master Test Plan (MTP)			
	The Contractor shall develop and submit a comprehensive testing plan that describes the different test phases, the Contractor's testing concepts and approach and the administration of each test. The Master Test Plan (MTP) outlines the scope and testing concepts to be used to validate the BOS compliance to the Requirements, including integration to the ETTM System, external entities and Interoperable Agencies, and compliance to all Business Rules and Security Standards.		
134	The Contractor shall provide an MTP for the Authority's Approval that details the testing methodology utilized by the Contractor to demonstrate the BOS satisfies all Requirements.		
135	The MTP shall cover all aspects of the BOS testing and shall describe all test phases, scope and procedures to validate the BOS compliance to the Requirements, including but not limited to:		
	<ul style="list-style-type: none"> overall approach to testing, including tools and automation; approach to using use cases and test cases to validate all Requirements; approach to entry and exit criteria; approach/methodology to pass/fail criteria; approach to the severity and priority descriptions and levels for each test; approach to defect tracking; reported; resolution, and regression testing, including tools used to document defects; approach for each test phase including purpose, scope, system environment, duration location, and resources; methodology for testing the Requirements and sample size for each phase of testing; approach for how data sets for each test are created including data needed to simulate logical days and cycles; approach to validating BOS Requirements through the testing methodology; approach to validating Performance Measures; approach to validating all reporting Requirements; approach to end-to-end testing, validation and reconciliation; approach to validating BOS monitoring, logging, access, Performance Management and Monitoring System (PMMS) Requirements; approach to testing, compliance to standards, correction of defects and Software release;

4.2.6. Individual Test Plan and Test Procedures			
	The Contractor shall develop and submit individual test plans that describe the required test phases, the Contractor's testing concepts and approach for the administration of each test defined later in these Requirements. The individual test plans will provide detailed documentation of the individual testing plan and procedures.		
136	The Contractor shall provide a separate detailed test plan for the Authority's Approval for each testing phase outlined in the Requirements and MTP, including:		
	· Unit Test Plan;		
	· System Integration Test Plan;		
	· User Acceptance Test Plan;		
	· On-site Installation and Commissioning Test Plan and Operational and Acceptance Test Plan.		
137	The Contractor shall provide a detailed test plan, including but not limited to:		
	· test agenda including location, dates, meetings, testers, observers and attendees;		
	· test scripts for manual and automated tests;		
	· detailed use cases and test cases mapped to the RTM for all testing;		
	· test entry and exit criteria;		
	· test preparation;		
	· description of process for ensuring quality of testing and documentation;		
138	The Contractor shall provide use cases and test cases for Authority Approval for each testing phase outlined in the RTM, including but not limited to:		
	· use case/test case ID;		
	· use case/test case description;		
	· mapped Requirements and Business Rules;		
	· assumptions:		
	· test data (variables and their values);		
	· steps to be executed;		
	· expected results;

4.2.7. Implementation Plan and Related Documentation			
	The Contractor shall develop and submit an Implementation Plan and related documentation that identifies its approach that covers the major elements of the implementation, including coordination with the Authority's ETTM System Contractor, Third-Party Service Providers and others.		
139	The Contractor shall develop and submit the Implementation Plan that documents all implementation related activities for the Project for Authority's review in accordance with the Approved Baseline Implementation Schedule.		
140	The Implementation Plan shall define all elements of implementation, including but not limited to:		
	· the detailed implementation schedule, detailing all activities for the implementation of the BOS, including coordination with ETTM System Contractor, Third-Party Service Providers and others as required. Once the implementation schedule is Approved by the Authority, the Contractor shall submit to the Authority updates during the implementation period(s) identifying any proposed implementation schedule changes and Work progress in the form of percentage completions;		
	· resource allocation Requirements for all implementation period(s);		
	· procurement and installation of the communications network;		
	· Quality Control, Quality Assurance, inspection and testing processes;		
	· special or unique implementation Requirements;		
141	· an organization chart with contact information, roles and responsibilities and includes ETTM System Contractor, Third-Party Service Providers and others as required and		
	· Go-Live checklist.		
	The Contractor shall develop and submit to the Authority a full size (24" by 36") set of drawings with installation notes, providing sufficient and accurate detail of all systems and network layouts at all facilities that have BOS Equipment.		
4.2.8. Disaster Recovery Plan			
	The Disaster Recovery Plan (DRP) is a comprehensive, documented statement of actions to be taken before, during and after a disaster to protect and recover the information technology data, assets and facilities of the BOS.		
142	The Contractor shall develop, test, and submit a Disaster Recovery Plan (DRP) and subsequent Disaster Recovery procedures that describe the approach, as well as procedures to take place in the event of a disaster for the BOS.		
143	The DRP shall document the Contractor's approach to and planning for recovering from a disaster, including but not limited to:		
	· define what constitutes disaster, associated risks and severity levels and timeframes to address (e.g., earthquake, flood, electrical outage, general loss of access to building, etc.);		
	· mitigation of disaster risks;		
	· preparations in the event of a disaster;		
	· organization chart illustrating Disaster Recovery team members, roles and responsibilities;		
	· notification contact list, including contact information;		
	· notification protocol;		
	· sites and Equipment for Disaster Recovery, presented in a diagram format;		
· Disaster Recovery process initiation and completion checklist;			
· coordination with the ETTM System Contractor and all Third-Party Service Providers;

144	<p>The DR shall include the following BOS information, including but not be limited to:</p> <ul style="list-style-type: none"> Recovery Point Objective (RPO): maximum acceptable amount of data loss for all critical BOS services after an unplanned data-loss incident; Recovery Time Objective (RTO): maximum acceptable amount of time for restoring a critical BOS services and regaining access to data after an unplanned disruption; Level of Service (LOS): the combination of throughput and functionality required to sustain BOS business operations and detailed description of how site and BOS security shall be maintained to ensure continued compliance with the Security Standards. 		
145	The DRP shall be tested and updated by the Contractor annually.		
4.2.9. Business Continuity Plan			
	The Business Continuity Plan (BCP) is a comprehensive, documented statement of strategy, as well as the planning, actions and processes that allows the Authority to continue BOS and CSC Operations after experiencing a disruptive event.		
146	The Contractor shall develop, test, and submit a Business Continuity Plan (BCP) that details the Contractor's approach to accommodating the staffing capabilities, furnishings, Equipment, systems, network, applications and data components required to ensure the continuity and resumption and continuity of critical BOS processes.		
147	The Contractor shall be responsible for providing a high-level plan for restoring CSC Operations in the event that facilities become unavailable; however, the plan shall not result in any costs to the Authority for pre-staging of Equipment and personnel.		
148	The Contractor shall be responsible for providing a detailed plan for restoring CSC Operations in the event that all or part of the CSC staff are directed by the Contractor or the Authority to work-at-home. For example, during an event similar to the COVID-19 outbreak.		
149	Changes to the operations BCP shall be reflected in the BCP within thirty (30) Calendar Days of Approval. The Contractor shall distribute, train and educate the operations staff on the BCP.		
4.2.10. BOS Installation Plan			
	The BOS Installation Plan will be used by the Contractor to successfully install and prepare the BOS for testing and eventual Go-Live.		
150	The Contractor shall coordinate with the Authority, Third-Party Service Providers, and the ETTM System Contractor to develop and provide a detailed BOS Installation Plan, subject to Approval by the Authority that identifies all aspects of BOS installation and start-up of all activities and systems associated with the testing and implementation of the BOS in accordance with the Security Standards.		
	The BOS Installation Plan shall incorporate all aspects of the BOS installation, start-up and Go-Live, including but not limited to:

158	The CSC Operations and Facility Mobilization Plan shall be submitted for Approval by the Authority as a part of the Operations Plan in accordance with the Approved Baseline Implementation Schedule.		
4.2.12. End of Agreement Transition Plan			
	The End of Agreement Transition Plan shall address how the Contractor will support the Authority and the Contractor's successor to facilitate a seamless transition upon termination or expiration of the Agreement.		
159	The Contractor shall develop a detailed End of Agreement Transition Plan that identifies the transition of all activities and Authority -owned materials and data associated with the Operation of the CSC at the end of the Agreement.		
160	The End of Agreement Transition Plan shall incorporate all aspects of the transition, including but not limited to:		
	· customer service, billing and violation work in progress;		
	· accounts and violations in collections;		
	· Merchant Service Provider activities;		
	· transponder inventory;

	· account terms and conditions;		
	· detailed SOPs required to operate the CSC;		
	· customer data privacy policy;		
	· data and physical security including periodic access audit and reporting;		
	· human resources and staffing policies and procedures;		
	· background check processes;		
	· employee code of conduct;		
	· Authority's Holidays and hours of operation, including the CSC and other CSC facilities, if applicable;		
	· detailed scripts for common customer interactions;		
	· copies of each form, spreadsheet, manual tracking sheet, report, letter, email copy, and text copy (BOS and non-BOS generated) which the Contractor will utilize in the operation of the CSC;		
	· Quality Control and verification procedures to ensure operations meet the Performance Measures;		
	· operations monitoring to ensure compliance with Requirements;		
· a description of how the Contractor will communicate with the Authority pertaining to day-to-day operations and general issues and problems, including but not limited to: Case management, correspondence management, escalation procedures, document control, and Submittals procedures;			
· a description of how the Contractor will communicate with the Authority and Interoperable Agencies in handling customer disputes, dismissals, payments and reconciliation;			
· detailed structure and schedule for monthly Maintenance and operations meetings with the ETTM System Contractor and the Authority (separate meetings or combined at Authority's discretion);			
· emergency response management procedures, including a detailed description of how the Contractor will communicate and respond to emergency conditions and			
· processes and procedures instituted to ensure high customer satisfaction including the details of the Customer Satisfaction Survey Provider Subcontractor and program that will be used to monitor customer satisfaction with the CSC.			
164	The Contractor shall provide updates and changes to the Authority no less than annually for Approval and incorporation into the Operations Plan. The Operations Plan shall be a living document and as such, shall be updated and reviewed/Approved by the Authority whenever changes are made to any element of the operations covered in the Operations Plan.		
165	The Contractor shall publish a full revision of the Operations Plan no less than annually.		
166	The Operations Plan shall be submitted for Approval by the Authority in accordance with the Approved Baseline Implementation Schedule.		
4.2.14. Standard Operations Procedures (SOPs)			
167	The Contractor shall develop and maintain the SOPs. The SOPs shall use detailed narratives and process flow diagrams in providing step-by-step procedures for every task the Contractor performs. The SOPs shall detail both manual and BOS-aided steps and procedures.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
168	Approved, new policies, procedures and changes to existing policies and procedures shall be updated in the SOPs quarterly. The Contractor shall distribute, train and educate the operations staff and the Authority in accordance with the SOPs.		
169	The SOPs shall be submitted for Approval by the Authority as a part of the Operations Plan.		
4.2.15. Staffing and Human Resources Management Plan			
	The Staffing and Human Resources Management Plan defines the required human resources needed to meet all of the Requirements for the CSC. It details the selection and assignment of an operations team. It describes how the staff will be recruited, vetted, trained, compensated, evaluated, disciplined, and terminated. The Staffing and Human Resources Management Plan shall identify the appropriate skill sets and labor to manage the Work and to perform the tasks that produce the specified Deliverables, customer service and performance. It also shall provide for any additional non-labor resources such as tools, Equipment, or processes used by the operations team.		
170	The Contractor shall develop a Staffing and Human Resources Management Plan that includes details of the Contractor's staffing program.		
171	The Staffing and Human Resources Management Plan shall include a hiring/assignment schedule for anticipated resource Requirements for the duration of the Project.		
172	The Contractor shall develop and provide an organizational approach for staffing in the Staffing and Human Resources Management Plan designed to meet the Requirements. This includes but is not limited to:		
	· organizational chart with all staff positions (including Subcontractors), head count and reporting relationships;		
	· job descriptions for all staff positions by position type;		
	· identification of functions which have been subcontracted, the name and responsibilities of the Subcontractor, and name(s) and contact information for Subcontractor's key personnel;		
	· description of the process used for determining the appropriate staffing levels for each position;		
	· a schedule describing the daily and weekly staff shifts and a description of how the Contractor will adjust staffing to accommodate seasonal and dynamic changes in work volume;		
	· recruitment process;		
	· background investigation approach;		
	· pre-employment testing;		
	· training, testing and re-training policies and procedures including refresher and remedial training for both remote and local staff;		
· employee retention and career development program;			
· employee monitoring, performance evaluation and coaching;			
· employee disciplinary process and			
· employee termination process.			
173	The Staffing and Human Resources Management Plan shall also include the location of all personnel required to meet Project Requirements (on-site or remote), as well as the Contractor's approach to providing on-site training and support for remote staff.		
174	This Staffing and Human Resources Management Plan shall be submitted for Approval by the Authority as a part of the Operations Plan in accordance with the Approved Baseline Implementation Schedule.		
4.2.16. Reporting and Reconciliation Plan			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Reporting and Reconciliation Plan shall include a comprehensive, detailed description of actions to be taken and information to be provided to the Authority related to reporting and reconciliation. This document will identify each report and its associated delivery schedule and provide an explanation of the report and its underlying data and how it is used.		
175	The Contractor shall develop and submit to the Authority for Approval, a Reporting and Reconciliation Plan that details the Contractor's reporting and reconciliation process.		
176	The Reporting and Reconciliation Plan identifies the procedures that the Contractor will use to perform, manage and reconcile all aspects of the CSC. This includes both transactional and financial reconciliation, including allocation of all Contractor's cost and Third-Party Service Provider associated revenue and/or costs.		
177	Each reconciliation shall have a separate section which identifies the reports used for the reconciliation, whether or not the report is generated from the BOS, received from a Third-Party Service Provider or (e.g., banks, Collection Agency, Lockbox Service Provider, etc.) or developed manually by the Contractor.		
178	The Reporting and Reconciliation Plan shall describe each provided report or report set and the schedule for providing it along with a sample of each report set. This includes but is not limited to:		
	· daily reconciliation report;		
	· monthly reconciliation report;		
	· quarterly reconciliation report;		
	· annual reconciliation report;		
	· description of Contractor's process for entering, printing and sending refund checks and entering the resulting financial transactions into the Authority's financial accounting systems, including all accounts and processes required to facilitate this entire process;		
· description of financial and cash/check handling controls for the CSCs and			
· other operations and financial reports as needed to fully reconcile and meet the operations Requirements.			
4.2.17. Records			
179	The Contractor shall meet all data retention Requirements, including durations for retention, as set forth in the Security Standards. The Contractor shall make every effort, within practical business and cost constraints, to purge the personal account information of an account that is closed or terminated. In no case shall the Contractor maintain personal information more than four years and six months after the date an account is closed or terminated. The Contractor shall periodically audit the BOS to verify that it is in conformance with the retention policy.		
180	If specific documents or data retention Requirements are not covered in the Security Standards, or the retention Requirement is greater in other applicable Requirements, the Contractor shall maintain records, for the duration of the Agreement period, in compliance with the longer retention period Requirement. Other applicable Requirements include but are not limited to:		
	· recordings of customer phone calls shall be on-line and readily available for a minimum of two years after the date of recording;		
	· GAAP;		
	· record retention policies for the Authority;		
	· IRS Requirements;		
· The California State Archives Data Retention Schedule;

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
190	Any failures to meet the Performance Measures shall be identified and details submitted, including the Contractor's plan to correct such occurrences. The associated non-compliance performance adjustment for such failures shall be summarized and tabulated with the total non-compliance performance adjustment provided.		
191	At a minimum, the Contractor's Monthly Operations Report shall include the reports listed below; however, the final list of documents to be included shall be developed and Approved as a part of the Operations Plan.		
	· Project Oversight Report: This report summarizes the Contractor's Project activities for the reporting period, including major accomplishments, issues and summary reporting. The Project Oversight Report also shall include an updated action items list that tracks all open items to be resolved by the Contractor. The list shall include task description, date created, owner, status, priority, impact/justification, completion due date and notes pertaining to the completion of each task. A status of operational changes shall be included in the Report. The Contractor shall provide status on all existing and new BOS issues that affect operations. The Contractor also shall make recommendations for innovations, processes and BOS improvements and other suggested changes, which will improve customer service or increase operational efficiency.		
	· Operations Reports: This suite of reports shall provide the details required to support the Project Oversight Report, including but not limited to: customer contacts, mail handling and Notification response; Case handling; transponder Fulfillment; payments processed; customer disbursements processed; the Authority's and Interoperable Agencies' settlements processed; returned payments processed; chargebacks processed; inventory item Fulfillment and balancing, and reconciliation. Reports related to ongoing Customer Satisfaction Surveys and QA activities and translation services shall also be provided.		
	· Refund account reconciliation and request for replenishment: Contractor shall be responsible for issuing customer and violator refunds. Contractor will provide documentation of refunds that were issued. The Contractor shall provide related account and Violation reconciliation reporting to the Authority at least monthly and in accordance with the Operations Plan.		
	· Contractor Performance Report: The Contractor shall be fully responsible for the CSC Operations meeting or exceeding required performance. Failure to do so may result in the assessment of non-compliance performance adjustments as set forth in Volume IV Performance Measures. The Contractor shall use the Approved tracking and reporting methods to prove its monthly performance against the Performance Measures.		
· Monthly Operations Invoices: The Authority shall receive a Contractor's invoice for the period corresponding to the Monthly Operations Report. The invoice shall detail the specific amounts due from the Authority. Contractor shall address costs that are netted out from the Contractor's toll revenue payment to the Authority, for example credit card fees and collections fees. Any associated Liquidated Damages shall be separately netted out with detailed supporting documentation. The Authority will not pay operation invoices that are not accompanied by the complete and accurate Approved Monthly Operations Report package.

192	Any performance deficiency the Contractor proposes to have excluded from the non-compliance performance adjustment calculation shall be documented on the Approved Waiver Form and explained in detail, with supporting documentation sufficient for the Authority to make a determination as to the acceptability of the exclusion. If the Authority needs additional information to make a determination the Contractor shall provide such information expeditiously. Adjustments will not be considered until full required documentation is provided by the Contractor.		
193	The Waiver Form must be submitted within thirty (30) Calendar Days of the affected invoice in order to be considered by the Authority.		
4.2.19. Training Plan			
	The Contractor shall provide a training program to educate Contractor staff, the Authority and others on the BOS and CSC Operations, as described in Section 5 Training. The Contractor is responsible for providing a Training Plan that describes the approach to training activities.		
194	The Contractor shall develop and maintain a Training Plan, subject to Approval by the Authority, in accordance with the Approved Baseline Implementation Schedule.		
195	The Training Plan shall describe the plan for training CSC Operations staff and Authority-designated individuals and shall outline the required operational/Maintenance and BOS knowledge for each position to be gained from the training. For each BOS position/user type, the plan shall include a training instructor guide, training manual and other materials to be used in training.		
196	The Training Plan shall include a schedule for regular staff training, follow-up training and continuing education for staff.		
197	The Training Plan shall describe the approach to training administrators, end users at different levels, Maintenance and support personnel, including but not limited to:		
	· overall description of the training program;		
	· training techniques;		
	· training delivery schedule;		
	· how training will occur with staff working on live operation;		
	· recurring training through life of the Agreement;		
	· names and descriptions of each training class;		
	· purpose of each training class;		
	· who should attend the class;		
	· qualification Requirements for trainer;		
	· minimum qualifications for personnel attending the class;		
	· duration of the class;		
	· training materials, including syllabus, schedule, training goals, manuals, guides, other support materials and techniques to be used;		
· data preparation, such as test accounts and test transactions/trips;			
· required Equipment and facility Requirements.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor shall develop and submit the Maintenance Plans listed below that describe how the Contractor plans to perform the Maintenance of the BOS and all Hardware, Software and systems at the BOS facilities and CSC throughout the Operations and Maintenance Phase. The Contractor shall have appropriate BOS documentation available to all Maintenance and Software support personnel, as required to perform their respective duties.		
4.2.20.1. System Maintenance Plan			
198	The Contractor shall develop and submit the System Maintenance Plan that defines the approach to services, staffing and resources to fulfill the BOS Maintenance Requirements. The Contractor shall identify the Contractor's Maintenance responsibilities and shall include but not be limited to:		
	· organizational structure, organizational chart and job descriptions and responsibilities;		
	· staffing plan;		
	· approach to training;		
	· detailed BOS monitoring Requirements;		
	· staff schedule and locations;		
	· third-party system support agreements overview;		
	· location of offsite data storage;		
	· schedule of all System Maintenance activities, including anticipated Upgrades/Enhancement releases;		
	· description of all System Maintenance related communication methods;		
	· Maintenance procedures, communication protocols and Approval processes for BOS Upgrades, Software deployments, scheduled Maintenance activities, change management and scheduled downtime;		
	· Maintenance procedures and communications protocols for unscheduled downtime;		
	· communication protocol for coordination with Interoperable Agencies and Third-Party Service Providers and WICs;		
	· communication protocol for coordination with the Authority's other toll system vendors;		
	· trouble reporting processes, notification protocols for issues and failures, and Maintenance reporting processes;		
	· prioritization, response, escalation, and repair processes;		
	· spares levels, Equipment and third-party Software warranty tracking and return material processes;		
	· monitoring Maintenance performance for compliance with Performance Measures;		
	· sample Maintenance reports and reporting processes;		
	· processes for supporting internal and external audits;		
· Security Standards compliance monitoring, Upgrades and safeguards;			
· system intrusion monitoring and safeguards;			
· Equipment replacement/refresh schedule;			
· Upgrades to third-party Software and tools and			
· processes in place to meet Performance Measures.			
4.2.20.2. Software Maintenance Plan			
	The Contractor shall develop and submit a Software Maintenance Plan that defines the approach to services, staffing and resources to fulfill the Software Maintenance Requirements and warranty provisions as set forth in the Agreement, including but not be limited to the following elements:

	· trouble reporting processes;		
	· escalation processes;		
	· sample Maintenance reports;		
· Software updates to comply with Interoperable Agencies' specification changes and Third-Party Service Providers Interface changes;			
· Software updates to be compliant with Security Standards and			
· processes in place to meet Performance Measures.			
4.2.21. Third-Party Documentation			
	Third-Party documentation includes standard commercial documentation for third-party provided Hardware, Software, services and materials.		
200	The Contractor shall provide and maintain standard, commercially available, updated documentation for third-party provided Hardware, Software, services and materials provided under this Agreement. This set of third-party documentation shall be available upon request.		
201	An electronic copy of all third-party Commercial Off-the-Shelf (COTS) Hardware and Software installation and user manuals, with updates, shall be provided to the Authority.		
4.2.22. Manual Requirements			
	Various manuals shall be provided to educate and guide BOS administration staff and allow the Authority to understand the operations of the BOS.		
202	Whenever possible, all data shall be printed on 8-1/2" x 11" sheets; foldouts shall be 11" x 17".		
203	Each manual shall include, but not be limited to:		
	· a title sheet;		
	· revision history;		
	· Table of Contents;		
	· list of illustrations (if applicable);		
	· list of reference drawings and exhibits (if applicable) and		
	· a parts list (if applicable).		
204	All manuals shall have a consistent look and feel and shall be professionally written and presented in clear and organized fashion.		
205	All manuals prepared for the Authority under this Agreement shall be produced, or editable, using Microsoft Office 2016 Suite (or higher if Approved by the Authority). In addition, electronic copies of manuals shall be provided in unsecured Portable Document Format (PDF), if requested by the Authority.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
206	Any special Software required to produce scalable typefaces or other graphs shall be provided by the Contractor as part of the documentation for the manuals.		
207	All manuals shall be submitted and Approved as a condition of Go-Live.		
4.2.22.1. Manual Submissions and Quantities			
208	The Contractor shall submit one (1) hard copy of each of the manuals listed below.		
209	The Contractor shall submit electronic copies of all manuals listed below.		
210	All manuals shall be maintained in electronic format in the Contractor-provided EDMS.		
211	The Contractor shall be responsible for producing an additional quantity of the manuals for the Contractor's use, sufficient to fulfill the Contractor's Requirements.		
212	The Contractor shall submit the draft and final manuals described below for the Authority's review and comment, in accordance with the Approved Baseline Implementation Schedule. All final versions of manuals shall be provided and Approved before system Go-Live.		
4.2.22.2. Manuals to be Submitted			
4.2.22.2.1. BOS User Manuals			
213	The Contractor shall develop and submit BOS User Manuals to be used by CSC Operations staff to operate the BOS and for training purposes.		
214	The Contractor shall develop manuals logically to cover job categories and functions. The manuals shall detail all of the processes, procedures and policies developed by the Contractor that are required to fulfill the Requirements for each of these categories and functions. An example of a functional area is finance, which should include all basic financial responsibilities and functions, including the entire reconciliation process.		
215	Each BOS User Manual shall include but not be limited to:		
	· screen images detailing the step-by-step activities needed to fulfill a specific functionality;		
	· flowcharts to provide the CSC Operations staff a clear understanding of the workflow;		
	· all screens, reports and data fields, clearly explained using sample formats applicable to the BOS and		
216	· samples of all reports, included in the manual or as an attachment to the manual, with any specific instructions that may apply to a given report.		
4.2.22.2.2. BOS Finance and Financial Controls Manual			
216	The Contractor shall develop and submit the BOS Finance and Financial Controls Manual, which shall include but not be limited to:		
	· detailed descriptions of all procedures to balance and reconcile the BOS;		
	· detailed descriptions of Financial Account Posting, reporting and reconciliation to the Authority's Bank Accounts;		
	· detailed descriptions of reconciliation of transactions/trips and revenue within the BOS with each of the Interoperable Agencies and for payments made to the Authority and Interoperable Agencies;		
	· processes and reports used to reconcile third-party payments processed and money deposited in the Authority's bank;		
	· detailed descriptions of reconciliation of all collections activity and all exceptions processing;		
	· detailed descriptions of the screens, reports and functions that allow Contractor or the Authority's finance personnel or independent auditors to access, understand and work with all financial aspects of the BOS;

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	<ul style="list-style-type: none"> complete descriptions of all reconciliation procedures and a non-technical description of the screens, reports and functions; illustrations and pictorial diagrams to demonstrate the step-by-step operations required for performing the balance and reconciliation functions and included as an attachment to the manual, samples of all relevant reports, with any specific instructions that may be applicable to a given report. 		
217	Reports included in the BOS Finance and Financial Controls Manual shall have correct and accurate data.		
218	The BOS Finance and Financial Controls Manual shall be used to train the CSC finance personnel and the Authority's finance personnel.		
4.2.22.2.3. BOS Administrator Manual			
219	The Contractor shall provide a BOS Administrator Manual that serves as a guide to the overall management and administration of the BOS, and it shall include but not be limited to:		
	· detailed Hardware Maintenance activities and schedule;		
	· detailed database Maintenance activities and schedule;		
	· detailed Software monitoring activities and schedule;		
	· detailed monitoring procedures for file transfers and exception handling;		
	· detailed procedures and processes for all Maintenance activities;		
	· detailed procedures for backup, archiving and purging data;		
	· detailed procedures for testing and executing Disaster Recovery and Business Continuity;		
	· detailed schedule for all preventative Maintenance activities;		
	· scheduled time and maximum run time for all BOS jobs and/or processes;		
	· technical contact lists for all third-party technical contacts;		
	· technical contact lists for Hardware, Software providers and third-party support agreements;		
	· details and copies of all third-party system support agreements;		
· general information, such as Maintenance shifts, code of conduct and other human resource aspects and			
· details of the security access system configuration, user access privileges and controls and user tracking processes utilized to ensure system security and to maintain data integrity.			
4.2.23. As-Built Documentation			
	Prior to the Authority's BOS Final Acceptance of the Implementation Phase, as-built documentation shall be provided that documents the final BOS design and implementation.		
4.2.23.1. As-Built System Detailed Design Document			
220	After the Approval of the operational test, and prior to the Authority's BOS Final Acceptance of the Implementation Phase, the Contractor shall submit the As-Built SDDD that includes all Software and Hardware changes made during the system development, implementation and testing phases.		
221	The Contractor shall submit one (1) hard copy in addition to an electronic version of the As-Built SDDD. Acceptable electronic formats are unsecured Portable Document Format (PDF), Microsoft Office 2016 Suite (or higher if Approved by the Authority) and professional CAD applications.		
4.2.23.2. As-Built Drawings			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
222	The Contractor shall provide the Authority with a complete set of As-Built Drawings, which shall be delivered as one (1) hard copy of the complete sets of drawings. The same shall be delivered in electronic format for all Equipment, network and Hardware installed and furnished as part of the BOS. As material changes are made to the system by the Contractor shall update the As-Built Drawings to reflect the current status.		
223	The As-Built Drawing sets shall include but not be limited to:		
	· all schematics;		
	· logic diagrams;		
	· Hardware layouts;		
	· wiring diagrams;		
	· interconnection diagrams;		
	· installation diagrams;		
	· cable schedule;		
224	The Contractor shall update the latest drawings with red lines as changes are incorporated during the installation process. At the completion of the installation, the Contractor shall gather all red line drawings.		
	The red line drawings shall be verified and incorporated into a final As-Built Drawing package. This final as-built package shall include all updated installation drawings, shop drawings and sketches, plans and other drawing types that were used to install the BOS.		
5. Training			
	The Contractor shall provide comprehensive training for all aspects of the BOS and CSC Operations including training, operational procedures, policies and guidelines, and rules of conduct, including customer Interface. Training shall be delivered to the Authority's personnel and Contractor's personnel. Training shall be ongoing throughout the Implementation and Operations and Maintenance Phases.		
226	The Contractor shall be solely responsible for supplying the BOS and all materials necessary to complete the delivery of the training program.		
227	The Contractor's program shall include but not be limited to computer instruction, training aids and manuals as required.		
228	Contractor's training shall be hands on and use actual BOS Software in the training environment.		
229	The Contractor shall produce all training materials, documents and manuals in hard copies.		
230	When changes or new functionality is provided in the BOS, the Contractor shall update the training materials and train staff on such changes/new functionality.		
231	All Authority training shall include a review and description of each of the appropriate Authority's processes and procedures with actual BOS Software.		
232	The Authority shall have the right to attend any training sessions.		
233	The Contractor shall provide comprehensive training related to all aspects of the BOS administration, BOS functionally and CSC Operations.		
234	The Contractor shall employ a training manager to lead all training courses and subsequent ongoing training activities.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
235	The Contractor shall train Authority's staff to view all real-time aspects of BOS processes/queues and CSC Operations statistics/queues, as well as research and report on all aspects of the BOS.		
236	The Contractor shall cross-train staff from other areas of operations or management for peak period, emergency or temporary assignments to provide for staff redundancy.		
237	The Contractor's training manager shall identify the training needs, plan, design, and develop all the training curriculum and materials for the implementation and management of the CSC's on-going training program. The types of training include, but are not limited to:		
	· customer service and integrity skills ("soft skills") training;		
	· Authority's FasTrak, Violation and payment processing Business Rules and facility specific information ("content training");		
	· different operational and facility characteristics of Interoperable facilities;		
	· use of the BOS, including all customer contact systems and any other applicable systems;		
	· CSC Operations SOPs and PII, PCI, data and physical security.		
238	The Contractor's training program shall include training at different times and for different reasons during the course of the Operations and Maintenance Phase, including but not limited to:		
	· new hire – this training provides the new employee a thorough, in-depth training covering all of the skills and information required to fully understand and perform their job;		
	· refresher – this training provides additional training focused on topics on which the attendees have been previously trained but which the training manager or other Authority management staff identified as requiring additional training for a group of employees;		
	· remedial – this training is individually focused on the needs of a particular employee(s) based on customer satisfaction feedback, management observation or employee request;		
	· new job/promotion – this training is required when an employee changes jobs or gains additional responsibilities and		
	· new content/program – this training is required when the Authority introduce a new program or makes a significant change to the SOPs or the BOS.		
239	Contractor training shall cover all functional areas depending on the specifics of each individual user role and job functions.		
5.1. Training Courses			
5.1.1. System Operation Overview Course			
240	The Contractor shall provide a system operation overview training course for the Authority personnel who require a general understanding of all aspects of the BOS and CSC Operations.		
241	The Contractor shall ensure class sizes and the number of training hours provided are sufficient to provide a general understanding of all aspects of the operation.		
5.1.2. Customer Service Representative Course			
	This course is for customer service personnel who need to understand all aspects of the direct customer service.		
242	The Contractor shall provide a customer service course for staff that need to understand all aspects of the direct customer service functionality, with focus on contact management, account management, Violations processes, payments, Business Rules, Express Lanes facility characteristics, external facing website, etc.

243	The Contractor shall provide an appropriate number of training sessions for the customer service course, ensuring class sizes and the number of training hours provided are sufficient to provide an understanding of all aspects of the operation related to customer service.		
5.1.3. BOS Finance and Financial Controls Course			
	This course is for financial management and auditing personnel who need to understand all aspects of the Operation, particularly those related to financial accounting, reconciliation, audit, and management.		
244	The Contractor shall provide a BOS finance and audit training course for financial management and auditing staff that need to understand all aspects of the operation, with focus on financial accounting, reconciliation, audit and management.		
245	The Contractor shall provide an appropriate number of training sessions for the BOS finance and financial controls course, ensuring class sizes and the number of training hours provided are sufficient to provide an understanding of all aspects of the operation related to financial accounting, reconciliation, audit and management.		
5.1.4. Operations Management Course			
	This course is for CSC Operations personnel providing hands-on training on the BOS including performance reporting, including all operational performance monitoring (for example, call queues, call statistics, image review queues, etc.); all BOS monitoring (for example, mail queues, status and quantity of all Notifications pending and sent, transponder Fulfillments, status of Interfaces and file exchanges), and call center and IVR configuration.		
246	The Contractor shall provide an Operations Management Course for all personnel who require a detailed understanding of the BOS reporting and monitoring. This course also covers configuration of the telephony system.		
247	The Contractor shall provide an appropriate number of training sessions for the Operations Management Course, ensuring class sizes and the number of training hours provided are sufficient to provide a detailed understanding of the operations of the BOS and how to access information and reports from the BOS.		
5.1.5. BOS Users Course			
248	The Contractor shall provide a BOS Authorized Users training course for all personnel who require a detailed understanding of the operations of the System and how to access information and reports from the BOS on items such as status, alarms, performance, transactions and revenue.		
249	The Contractor shall provide an appropriate number of training sessions for the BOS Authorized Users course, ensuring class sizes and the number of training hours provided are sufficient to provide a detailed understanding of the operations of the BOS and how to access information and reports from the system.		
5.2. Training Materials			
250	All training materials should comply with applicable PCI and PII standards.		
251	Draft copies of all training materials shall be submitted by the Contractor to the Authority for review, comment and Approval prior to final printing of quantities required for training.		
252	The Authority shall have the right to require the Contractor to provide additional interim drafts at no additional cost should draft training materials submitted not be of adequate quality or have missing or incorrect information.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
253	Contractor shall provide regular updates to training materials to incorporate any changes to the BOS or operational processes.		
254	For each training course, the Contractor shall provide the materials listed in the following sections.		
5.2.1. Instructor Guides			
255	The Contractor shall provide an instructor guide for each training course, including but not limited to:		
	· course agenda;		
	· course objective;		
	· procedures for managing a training session;		
	· resources and facilities required, including Desktop Environments, power and communications Requirements;		
	· detailed lesson plans;		
	· a description of training aids and items to aid in on-the-job performance (such as where applicable, pocket guides or reference sheets);		
· tests to be administered to assure satisfactory completion and			
· instructions for using any audio-visual support Equipment or materials.			
5.2.2. Training Aids			
256	The Contractor shall provide all training aids necessary to successfully complete the course agenda and meet the course objective.		
257	The Contractor shall provide a way for all trained personnel to access training documents, aids and tips in an online, electronic format for ongoing reference.		
5.2.3. Student Workbook			
258	For each course, the Contractor shall provide a student workbook, including but not limited to:		
	· course agenda;		
	· course objectives;		
	· schedule of sessions;		
	· copies of all overheads and visuals and		
· lesson outlines and summaries.			
259	The Contractor shall supplement the material provided in the student workbook with additional material (as necessary), such as operations and user manuals. If such material is used, appropriate cross-references shall be included in the student workbook to identify the complete set of training materials provided to the student.		
5.3. Scheduling and Preparation for Training			
260	The Contractor shall provide a minimum two (2) weeks notice to the Authority and work with the Authority on the timing for each training session. The Authority will identify a list of participants the Contractor shall notify to schedule their participation in the training.		
261	The Contractor shall perform all scheduling.		
6. Mobilization Requirements			
	The mobilization of the BOS and CSC Operations is a major undertaking that will require careful preparation, planning and coordination in multiple functional areas and on many levels to ensure a smooth beginning to operations. The Contractor is responsible for the mobilization in accordance with the BOS Installation Plan and CSC Operations and Facility Mobilization Plan. Close coordination will be required between the ETTM System Contractor, the Authority and the Contractor.		
6.1. Operations Mobilization and Facility Coordination			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The operations mobilization and facility coordination include all activities necessary to establish and operate the I-405 CSC and WIC in accordance with the Agreement and to coordinate the design of the Authority provided facility. These activities include comprehensive coordination with the Authority, the Authority's design and construction contractors, and other Authority contractors housed at the facility with regards to CSC and WIC design, scheduling of facility occupancy and installation, staff recruitment and training, ordering of supplies, establishment of all necessary services and developing all SOPs for the entire operation. The Contractor shall coordinate with the ETTM System Contractor on applicable portions of the Approved Baseline Implementation Schedule.		
	The CSC Operations Manager and the Mobilization and Facility Coordination Manager shall lead the Contractor's staff in planning and implementing the activities required for operation of the CSC in accordance with the CSC Operations and Facility Mobilization Plan. These tasks include but are not limited to:		
262	· obtain a thorough understanding of the functions and capabilities of the BOS;		
	· produce all required plans and documentation;		
	· recruit CSC staff;		
	· coordinate with Third Party Service Providers;		
	· make any required Approved modifications to the facilities (those required beyond the new facility design inputs provided by the Contractor);		
	· plan and conduct training;		
	· assist with the selection and implementation of survey solution, IVR, system recordings, Self-Service Website, and Self-Service Mobile Application (Phase II and optional) and		
· meet regularly and coordinate with the Authority, the ETTM System Contractor to perform the Work.			
	The Mobilization and Facility Coordination Manager shall lead the Contractor's staff in planning and implementing the activities related to the new CSC and WIC facility operation of the CSC in accordance with the CSC Operations and Facility Mobilization Plan. These tasks include but are not limited to:		
263	· meet regularly with the Authority, the Authority's design and construction contractors, and other Authority contractors that will be housed at the facility to plan, provide design input to the new CSC and WIC facility layout, space planning, network, cabling, power, furnishings, physical security, and surveillance CCTV etc.;		
	· review and provide comments to all types of CSC plans;		
	· coordinate with other contractors and provide a detailed schedule for facility occupancy and facility mobilization and		
	· coordinate the procurement and installation of all BOS and CSC Operations network and communications lines with the communications providers.		
264	The Contractor shall develop and conduct an Operational Readiness Demonstration and conduct walk-throughs for each facility with the Authority.		
265	As an outcome of the Operational Readiness Demonstration and walk-throughs, a punch list shall be developed and resolution of each item Approved by the Authority.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
266	The Contractor shall track, status and resolve all pre-mobilization punch list items (as designated and Approved by the Authority) prior to mobilization and track, status and resolve all post-mobilization punch list items (as designated and Approved by the Authority) during the Operations and Maintenance Phase. Until resolved, the status of post-mobilization punch list items shall be provided in all Contractor performance reports and meetings.		
6.2. Schedule, Installation and Mobilization			
267	The Contractor shall mobilize CSC Operations in accordance with the CSC Operations and Facility Mobilization Plan and the Approved Baseline Implementation Schedule.		
268	The Contractor shall install the BOS in accordance with the BOS Installation Plan and the Approved Baseline Implementation Schedule.		
269	The Contractor's schedule shall be sufficiently flexible to accommodate modifications or changes, such as early completions or delays in start or completion of dependent work by the Authority and/or the ETTM System Contractor.		
6.3. Mobilization of the BOS and CSC Operations			
	BOS and CSC Operations mobilization includes all activities necessary to begin CSC Operations. The Contractor's Mobilization Manager shall lead the mobilization in accordance with the BOS Installation Plan and CSC Operations and Facility Mobilization Plan and must coordinate with the ETTM System Contractor and Authority to ensure that the mobilization meets the Approved Baseline Implementation Schedule.		
270	The Contractor shall manage and conduct mobilization in conformance with BOS Installation Plan and CSC Operations and Facility Mobilization Plan and Approved Baseline Implementation Schedule.		
271	The mobilization activities shall be coordinated with the Authority, the ETTM System Contractor, and Third-Party Service Providers, and shall be Approved by the Authority.		
272	The Contractor shall prepare internal and external communication procedures, as part of the BOS Installation Plan and CSC Operations and Facility Mobilization Plan, to effectively and professionally manage communications of potential impacts during the mobilization.		
6.4. Acceptance of Operational Readiness			
	Prior to Go-Live the Contractor shall demonstrate to the Authority that the successful CSC and facility mobilization is complete, and that the Contractor is ready to commence complete operation of the CSC and performance of all of the Work.		
273	The Contractor shall demonstrate that the CSC Operation has achieved operational readiness in accordance with the Approved Baseline Implementation Schedule.		
274	Procedures for demonstrating for the Operational Readiness Demonstration shall be provided by the Contractor to the Authority for review and Approval at least three (3) months prior to the scheduled demonstration date.		
275	The Contractor shall have completed all of the predecessor tasks and milestones in the schedule in order to achieve Acceptance of operational readiness, including but not limited to:		
	· selection, build-out and equipping of all Contractor operated facilities;		
	· development and Approval of all required documentation;		
	· recruitment, hiring and training of all staff in accordance with the Operations Plan and sub-plans;		
	· implementation of all applicable aspects of the BOS Installation Plan and CSC Operations and Facility Mobilization Plan and all operations mobilization activities and

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	completion of Operational Readiness Demonstration using the BOS, facilities and Contractor staff.		
6.5. End of Agreement Transition			
	The Contractor acknowledges the services it provides under the terms of the Agreement are vital to the successful operation of the BOS and said services shall be continued without interruption. Upon expiration or termination of the Agreement, a successor may be responsible for providing these services. The Contractor agrees to exercise its best efforts and cooperation to affect an orderly and efficient transition to a successor.		
	As part of the End of Agreement Transition, the Authority may wish to operate and maintain BOS, requiring the transfer of Equipment, leases and license from the Contractor to the Authority.		
276	The Contractor shall cooperate with any future transition of the BOS to a future BOS Contractor, as required by the Authority.		
277	The Contractor shall develop with the successor, an End of Agreement Transition Plan describing the nature and extent of transition services required as well as the operational Requirements necessary for the migration of operation from the Contractor to the new contractor.		
278	The Contractor shall update the End of Agreement Transition Plan no more than six (6) months prior to the transition date.		
279	The Contractor shall provide sufficient experienced personnel in each division/element of Work during the entire transition period to ensure the quality of services is maintained at the levels required.		
280	The Contractor shall provide sufficient staff to help the successor maintain the continuity and consistency of the services required.		
281	The Contractor shall provide the necessary Software and BOS support services to assist the successor in setting up the systems, transferring of appropriate licenses and third-party Software and transitioning all BOS data (including third party data) required to sustain uninterrupted service in areas in which the Contractor is responsible for the Work. For example, accounts and violations in collections.		
282	The Contractor shall support the Authority during the procurement process by updating all system documentation and providing new documentation as required that details the current system.		
283	Within the End of Agreement Transition Plan, the Contractor shall provide descriptions of the Equipment, leases and licenses that are available for purchase and transfer to the Authority as part of the End of Agreement Transition.		
284	The Contractor shall not prevent the successor from conducting interviews with Contractor employees outside of normal business hours in a manner that will not disrupt current operations.		
285	The Contractor shall not prevent employees from changing their employment to the successor if the employees wish to do so.		
286	The Contractor shall provide for the orderly transition of the facilities, Equipment, materials, documents, inventory and work in progress to the successor.		
7. Testing Requirements			
7.1. General			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor shall provide the full range of test planning, testing design and services required to ensure the BOS adheres to the Requirements. The BOS testing regimen shall take place during the implementation period identified in the Approved Baseline Implementation Schedule and shall follow the Master Test Plan and Individual Test Plan.		
	The Authority requires that configuration changes be treated as equivalent to Software development changes within the testing process. Wherever possible, the Authority requires that the Contractor implement testing processes which are automated and efficient.		
	The Requirements described in this section detail the labor, materials, facility and support services necessary to test the BOS for functionality and performance, its integration to all Third-Party Service Provider.		
287	The Contractor shall prepare and conduct the various tests in conformance with the Master Test Plan and applicable individual test plans.		
288	The Contractor shall prepare and conduct the various tests (outlined for reference immediately below and with detailed Requirements in subsequent sections), including but not limited to:		
	· Unit Testing;		
	· System Integration Testing;		
	· User Acceptance Testing;		
	· On-site Installation and Commissioning Testing and Operational and Acceptance Testing.		
289	The Contractor shall develop test scripts for Authority approval and use specialized automated testing Software, wherever possible, to, including but not limited to:		
	· create test scripts;		
	· create use cases with pre-defined input and output;		
	· control the automated testing;		
	· exercise all conditions, configurations and scenarios;		
	· conduct performance testing;		
	· conduct security and PCI testing;		
	· conduct regression testing;		
	· compare actual test outcomes to expected outcomes;		
	· test reporting;		
	· conduct load testing;		
· conduct user Interface testing and			
· conduct sustained operational testing.			
290	The Contractor shall make the BOS available for use by the Authority in testing the readiness of the CSC Operations staff during operating hours and as necessary during the testing period.		
291	The Contractor shall provide all necessary resources and facilities to conduct all tests.		
292	During the Implementation Phase, the Contractor shall provide an "online commercial Software" defect tracking system, accessible by the Authority via browser-based internet, to document and track all defects identified as part of BOS testing and any subsequent actions taken to correct those defects.		
293	The Authority's Approval of any aspect of testing shall not relieve the Contractor of its responsibility to meet all Requirements.		
	The defect tracking system shall be capable of the following, including but not limited to:		
	· rating (severity) defects;		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
294	· categorizing defects;		
	· prioritizing defects;		
	· logging the date/time the defect was reported;		
	· the user who reported the defect;		
	· the erroneous behavior;		
	· the details on how to reproduce the defect;		
	· the developers who worked on the defect;		
	· life-cycle tracking and reporting.		
7.1.1. Testing Sequence and Logistics			
295	The Contractor shall obtain Approval from the Authority and shall have met the entry conditions prior to start of each test, including but not limited to:		
	· Approval of all predecessor tests;		
	· Approved test procedures for each individual test;		
	· Approved test schedule;		
	· Approved inventory of test cases and scripts;		
	· successful closeout of all outstanding pre-test issues;		
	· successful dry run testing with results provided to the Authority;		
	· test data set is created and loaded into test environment;		
· submittal of the latest Approved version of the RTM showing test validation against the Requirements and site and BOS are ready to test.			
296	After the completion of each test, the Contractor shall submit for the Authority's review and Approval a test report that documents the results of the test.		
297	The test report shall include the results of the test; any anomalies and issues identified; comments provided by the Authority; the test data and the corrective action/resolution of each item, and the results of any re-tests necessary to successfully complete each testing phase.		
298	The Contractor shall facilitate and support the Authority's participation in the testing and witness each test. The Contractor shall provide the Authority with full access to the test data and results of the test.		
299	Testing shall not be considered complete by the Authority until all anomalies and "punch-list" items are closed-out, and the final test report is Approved by the Authority.		
7.2. Required Tests			
7.2.1. Unit Testing			
	Unit Testing is defined as a Software testing method by which individual units of source code, sets of one or more computer program Modules together with associated control data, usage procedures, and operating procedures, are tested to determine whether they are fit for use. A unit could be an entire Module, but it is more commonly an individual function or procedure. Unit Testing is the first level of testing and is performed prior to System Integration Testing.		
	The Contractor shall conduct Unit Testing, including but not limited to:		
	· testing for all functional elements of the BOS for conformance with the Requirements, Approved design and Business Rules;		
	· testing of 100% of all BOS components and negative testing for controlled systems features;		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
300	· testing using actual data generated by the ETTM System Contractor and simulated data as needed;		
	· testing with Third Party Service Provider and Interoperable Agencies test environment;		
	· testing each Module of the BOS application Software for compliance to coding standards related to screen validations, web navigation, configuration changes, PMMS including all errors, exceptions and failures, backend programs and processes (using simulated data);		
	· testing the desktop computer Interfaces and all peripherals;		
	· testing of user roles and security elements;		
	· all necessary Hardware and Software for the test;		
	· all necessary personnel for the test and updated RTM, SDDD, Operations Plan and Business Rules so functionality can be reconciled to the documentation.		
7.2.2. System Integration Testing (SIT)			
	System Integration Testing (SIT), or end-to-end testing, is defined as a type of Software testing that seeks to validate the Interfaces between individual components and the completely integrated BOS meets its Requirements. The Contractor shall conduct SIT, compressing logical days to accommodate process escalation and transaction/trip and Violation aging. Multiple testing cycles may be executed depending on defects found and their severity. The Contractor shall also conduct load/performance testing as part of the SIT.		
301	The Contractor shall be responsible for creating test data as an entry criteria for the SIT. It is anticipated that significant test data will be required and will be defined in the test plan.		
302	The Contractor shall conduct SIT which shall include end-to-end Integration Testing, Interface testing, security testing, performance/load testing.		
303	In the event Third-Party Service Providers and Interoperable Agency test environment systems are not available, the Contractor shall test using simulated Interfaces and data to validate the data exchange.		
304	The Contractor shall use the most newly provided, developed or updated ICDs for all Interfaces and portals.		
305	The Contractor shall conduct SIT, including but not limited to:		
	· testing all functional elements of the BOS using the procedures for Software integration testing, including the end-to-end testing from receipt of transactions/trips through Posting to the accounts and Violation processing;		
	· reports testing using created data, simulated and keyed-in data;		
	· verification and validation that the various BOS environments are operating per the Requirements;		
	· load/performance testing of the entire BOS in terms of user access, including internal and external users on all channels (for example, Self-Service Website, Self-Service Mobile Application (Phase II and optional), IVR);		
	· load/performance testing of the entire BOS in terms of transaction/trip processing;		
	· full Disaster Recovery failover testing;		
	· full Disaster Recovery failover recovery (back to primary BOS) testing;		
	· validation of all Performance Measures;		
· adherence to the Security Standards;			
· archiving and purging process testing;			
· comprehensive PMMS testing;			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	<ul style="list-style-type: none"> testing using actual data, generated real-time (as if in a real, live production environment) by the ETTM System Contractor; all Interface test scripts and documentation required to confirm that the Interfaces are operating properly; testing, as directed by the Authority, connecting to test environment systems provided by the Authority, Third-Party Service Providers and Interoperable Agencies (if available); exception testing; testing the desktop computer Interfaces and all peripherals and sustained operations test. 		
7.2.3. User Acceptance Testing			
	User Acceptance Testing (UAT) is defined as the testing phase where actual BOS users test the system to validate the operation of the BOS in, according to Requirement, designs, and specifications.		
306	The Contractor shall provide all needed support for UAT to include providing environments, provisioning/aging system, running batch jobs, and developing test scripts using use cases.		
307	The Contractor shall provide a UAT environment that is production like and separate from other test environments.		
308	Ten (10) Business Days prior to the commencement of UAT, the Contractor shall train staff from the Authority and the CSC Operations test team selected to perform UAT.		
309	The Contractor shall provide all UAT testers with access to BOS test scripts.		
310	The Contractor shall provide test data for UAT that is an extraction and sub-set of production data.		
311	During UAT, the Contractor shall develop and retest necessary revisions identified by users during the testing process.		
312	The Contractor shall provide technical personnel to support UAT.		
7.2.4. Regression Testing			
	Regression testing is defined as a type of Software testing that verifies that Software previously developed and tested still performs correctly even after it was changed or Interfaced with other Software.		
313	The Contractor shall conduct regression testing is to ensure that software changes have not introduced new faults and to determine whether a change in one part of the Software affects other parts of the Software.		
314	The Contractor shall conduct regression testing in a Contractor-provided test environment prior to each Software release.		
7.2.5. On-site Installation and Commissioning Testing, Mobilization and Go-Live			
	Onsite Installation and Commissioning Testing is defined as a series of checks and tests to verify Equipment installation and function; BOS operation; and inter-systems operation.		
	The Contractor shall conduct Onsite Installation and Commissioning Testing using the BOS production environment including but not limited to:		
	<ul style="list-style-type: none"> testing that demonstrates the BOS is completely installed and operational in the production environment and the Disaster Recovery location; Software and test data are loaded; PCI application vulnerability testing, certification of elements not available/tested during previous testing; all necessary Hardware and Software for the test;

315	<ul style="list-style-type: none"> testing PMMS configuration and setup; testing all user roles; testing of internet connectivity and speed; testing the speed of the BOS while performing various functions; testing of cutover to generator in the event of power failure; testing of phone system including IVR; testing of Self-Service Website and Self-Service Mobile Application (Phase II and optional); all necessary personnel for the test and updated RTM, SDDD and Business Rules so functionality can be reconciled to the documentation. 		
316	<p>The Contractor shall provide evidence of readiness to conduct mobilization and Go-Live at the BOS production environment, including but not limited to:</p> <ul style="list-style-type: none"> The Contractor shall utilize the PCI Security Standards Council's Prioritized Approach method to indicate how each PCI Requirement is being addressed. This approach shall be submitted to the Authority along with substantiating evidence for review and Approval; the transfer of certain historical data to the BOS that may remain in the BOS and a checklist to verify that mobilization is completed in accordance with the BOS Installation Plan and CSC Operations Mobilization Plan. 		
317	Upon Approval of the Onsite Installation and Commissioning Testing including evidence of readiness the Contractor shall begin mobilization.		
318	Upon verification and Approval of the Operational Readiness Demonstration and all testing the Contractor shall Go Live.		
7.2.6. Commencement of Ramp-up/Customer Services			
	Upon Notice to Proceed for Ramp-up/Customer Services, the Contractor is notified of the Authority's intent to Go-Live in approximately 120 days.		
319	The BOS shall have achieved commencement of Ramp-up/Customer Services within thirty (30) Calendar Days of the notice to proceed for Ramp-up/Customer Services.		
320	<p>The Contractor shall have completed the following tasks to achieve Commencement of Ramp-up/Customer Services:</p> <ul style="list-style-type: none"> the Self-Service Website is available to facilitate full account creation and transponder ordering (actual shipping of transponders will take place closer to road opening); the Contractor has conducted and successfully completed testing of the Self-Service Website and other functional elements required to facilitate account creation and transponder ordering; the Contractor has gained approval of all BOS design documents; the Contractor has gained approval for all CSC Operations, CSC Facility, mobilization and BOS system installation plans and is on schedule in executing the Approved Plans per the Approved Baseline Implementation Schedule; system support is operational and monitoring the operational components of the BOS and Software support is operational and available to support the operational components of the BOS. 		
7.2.7. Operational and Acceptance Testing			
	Operational and Acceptance Testing is defined as a test focused on the readiness of the BOS to be supported, and/or to become part of the production environment.		
	Following Go-Live, the Contractor shall conduct Operational and Acceptance Testing on the BOS production environment in live operations that provides the following, including but not limited to:		

Volume I Project Management and Controls

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
321	· verification that the Contractor (including the BOS) is compliant with Commencement of Ramp-up/Customer Services;		
	· verification that the BOS is in conformance with the Requirements for a period of sixty (60) consecutive days, onsite in the BOS production environment;		
	· successful access of images from the ETTM System and receipt of the trip/transactions;		
	· reconciliation of all BOS data, transactional and Financial Transactions for a period of sixty (60) consecutive days to verify all data and accounts are being properly processed, reported on and reconciled;		
	· reconciliation of all transaction/trip and image workflows and filters to verify all transactions/trips and images are being properly processed through the BOS;		
	· reconciliation of all electronic Interfaces and portals, including Third-Party Service Providers and Interoperable Agencies;		
	· reconciliation of all account Postings, Financial Transactions, events, etc., to account history entries;		
	· reconciliation of all Financial Accounts in the BOS for two (2) monthly financial periods;		
	· archiving and purging process testing;		
	· disaster recovery testing;		
· verification of PMMS operations;			
· adherence to required financial audit and reconciliation Requirements and			
· adherence to required BOS Performance Measures and reporting.			
322	The Contractor shall identify all anomalies and categorize by severity and priority, and all anomalies shall be addressed to the satisfaction of the Authority.		
323	If anomalies are identified that are a high severity and high priority during the testing period, the Operational and Acceptance Testing for those functions and any other impacted functions or test areas shall be restarted and shall continue for sixty (60) consecutive days from the day the test was restarted.		
324	The Operational and Acceptance Testing shall continue until all the Requirements have been verified and validated in accordance with the MTP and detailed test procedures are completed and Approved by the Authority.		
7.3. BOS Acceptance			
325	Upon the successful completion and Approval of the Operational and Acceptance Testing, the closure of all punch-list items and completion and submission and Approval of all items required for phase closeout, as set forth in in the Agreement, the Contractor shall be given the Acceptance for the BOS Implementation Phase.		
8. Installation Requirements			
	This section details the Requirements for the installation or enablement of the BOS at the primary and Disaster Recovery/Business Continuity sites as Approved by the Authority.		
8.1. Installation Program			
	The Contractor shall develop and provide an installation program or provide service documentation that addresses all aspects of the installation or use of the BOS, including all installation design, submissions and coordination for a COTS based solution or service agreements for cloud-based approaches.		

Volume I Project Management and Controls

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
326	The Contractor shall be responsible for the design, procurement; installation; cabling; configuration; checklist walk through, and testing of all Hardware, Software, Equipment, Interfaces and communications provided as part of the BOS, if required.		
327	The Contractor shall install or enable the BOS at the primary site and CSC locations which meets the specifications outlined in the Requirements and the Approved BOS Installation Plan.		
328	The Contractor shall install or provide the Disaster Recovery BOS and Business Continuity at a location which meets the specifications outlined in the Requirements.		
329	The Contractor shall provide, install or enable and secure all communication lines required for the primary BOS facility, the Disaster Recovery and Business Continuity facilities and Authority's CSC locations.		
330	The Contractor shall provide, install or enable and secure connection points to the BOS as required to accommodate access and communication with Interoperable Agencies and Third-Party Service Providers.		
8.2. Compliance to Standards			
331	The Contractor shall adhere to all implementation standards, applicable laws, ordinances and codes as required, including but not limited to:		
	· the Security Standards;		
	· those from the original Equipment manufacturer;		
	· the National Electric Code (NEC);		
	· the Institute of Electrical and Electronics Engineers (IEEE);		
	· the Occupational Safety and Health Administration (OSHA);		
	· county and city codes, as applicable and		
· the State of California, for areas including but not limited to electrical codes, seismic considerations, calibration, configuration and environmental.			
8.3. Equipment Installation Requirements			
	The Contractor shall be responsible for installation of the BOS, including at the CSC and WICs, as described in these Requirements.		
332	The Equipment installation design and implementation for the BOS and CSC Operations shall include but not be limited to:		
	· all Contractor provided Equipment, including desktop computer environments and phone systems for two (2) permanent Authority personnel, and desktop computer environments and phone systems for an additional three (3) oversight personnel during the mobilization of the facility through Operational and Acceptance Testing;		
	· Interface with and electronically monitor via the PMMS any Authority or Contractor provided emergency power generation at the I-405 CSC and WIC;		
	· furnishing, installing and testing the Interfaces and connectivity between the CSC facility and the BOS;		
	· furnishing, installing and testing the Interfaces and connectivity to the ETTM System;		
	· validating the connectivity to all Interoperable Agencies as described in these Requirements and		
· validating the connectivity to all external Interfaces to Third-Party Service Providers as described in these Requirements.			
8.4. Implementation Checklist Review and Check-off			

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor shall complete all implementation activities and Approved Contract Deliverables Requirements prior to the Go-Live date established by the Authority.		
333	The Contractor shall develop a checklist that tracks the progress and completion of all implementation activities for the BOS, CSC Operations and Disaster Recovery.		
334	The checklist shall detail those items required to complete the implementation process for all Hardware, Software, Equipment, Interfaces and communications provided as part of the BOS, including terminations and connections.		
335	The checklist shall be used to identify all discrepancies and exceptions, and the Contractor shall be responsible for all corrections.		
336	The checklist shall be used to document all changes identified, and all such changes shall be Approved by the Authority.		
337	A representative(s) from the Authority shall have the right to observe and Approve the implementation.		
338	The Authority shall have the right to perform independent inspections, and the Contractor shall be responsible for the correction of all discrepancies and deficiencies identified during the inspection.		
339	A copy of the checklist, signed and Approved by the Contractor, attesting to the completeness of the implementation, shall be provided to the Authority upon the completion of the implementation activities.		
9. General Maintenance and Software Support Services Requirements			
9.1. Operations and Maintenance Meetings			
9.1.1. Monthly Performance Review Meetings and Reporting			
	The Contractor shall conduct Monthly BOS Performance Review Meetings with the Authority. These meetings shall provide the Authority with a detailed understanding and review of the Contractor's and the BOS's performance for purposes of receiving guidance from the Authority, Authority oversight, work planning and invoicing.		
340	The Contractor shall manage, facilitate and conduct Monthly BOS Performance Review Meetings with the Authority throughout the Operations and Maintenance Phase. At a minimum, the Project Manager (Implementation Phase), Project Manager (Operations and Maintenance Phase), Software Development Manager and a Contractor's CSC Operations Manager (in-person) shall attend these meetings.		
341	The Contractor shall schedule and conduct the Monthly BOS Performance Review Meeting with the Authority to occur no more than one (1) week after the submission of a Monthly BOS Report package by the Contractor.		
342	Performance reviews, including the provision of all required performance reporting, shall be provided by the Contractor to the Authority beginning one (1) month after Go-Live for the previous month. Any trip volume fee adjustments associated with non-performance shall not be assessed until the fourth month following Go-Live, for the previous (third) month's performance; however, this does not relieve the Contractor of required performance prior to the third month and shall not constitute a waiver of any Authority rights or remedies under the Agreement in this regard.		
343	The Contractor shall ensure all issues are addressed and resolved or are placed on the action item list and scheduled for resolution.		

Volume I Project Management and Controls

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
344	In addition to other invoicing and payment Requirements, the Contractor shall provide the required monthly performance reports to the Authority, including all required information demonstrating actual performance relative to the Requirements, before an invoice shall be considered for payment. The monthly performance reports structure shall be identified in the Maintenance Plan.		
9.1.2. Monthly BOS and Operations Coordination Meetings			
	During the Operations and Maintenance Phase, the Contractor shall conduct bi-weekly meetings to coordinate the ongoing operation of the CSC. The Contractor shall be responsible for scheduling these meetings and topics for the meeting shall come from the Contractor; the Authority may provide additional topics. The Authority may attend these meetings at its discretion.		
345	The Contractor shall manage, facilitate and conduct the Monthly BOS and Operations Coordination Meetings with the Authority during the Operations and Maintenance Phase in order to understand and prepare for supporting the resolution of BOS-related and Toll Facility related issues and other activities which will affect the CSC Operations.		
346	During the Monthly BOS and Operations Coordination Meetings, the Contractor shall address BOS and operational topics for which input is needed from the Authority, including but not limited to reviewing the Contractor's defect tracking report and prioritizing fixes; coordinating Upgrades and Enhancements Approved by the Change Control Board (CCB); reviewing Security Standards and compliance; coordination of scheduled BOS downtime; resolving issues related to personnel and reviewing the Contractor's CSC and WIC support.		
347	The Contractor shall identify all known BOS and operational issues and required discussion topics and provide them to the Authority in advance of the meeting and update the agenda again just prior to the meeting.		
9.1.3. Weekly Coordination and Status Meeting with the ETTM System Contractor			
	During the Operations and Maintenance Phase, there will be a series of working meetings between the Contractor and the ETTM System Contractor to provide details on new and open issues and work through possible solutions. The Contractor shall be responsible for coordinating and scheduling these meetings and topics for the meeting shall come from the Contractor, the ETTM System Contractor and the Authority.		
348	The Contractor shall manage, facilitate and conduct the Weekly Coordination and Status Meeting with the ETTM System Contractor. These meetings shall be for the purpose of coordination on all new and ongoing issues. The Authority shall be invited to attend these meetings.		
349	During the Weekly Coordination and Status Meetings, the ETTM System Contractor shall review the accuracy and sufficiency of reports, review any discrepancies, and to coordinate any changes to the BOS or ETTM System (such as, bug fixes, Upgrades and Enhancement).		
350	The Contractor shall identify all known BOS, ETTM System and operational issues and required discussion topics and provide them to all attendees and the Authority in advance of the meeting and update the agenda again just prior to the meeting.		
9.1.4. Change Control Board Meetings			
	During the Operations and Maintenance Phase, the Contractor shall conduct the CCB Meetings. The Contractor shall be responsible for conducting and scheduling these meetings in accordance with the Authority developed change control process.		

Volume I Project Management and Controls

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
351	The Contractor shall manage, facilitate and conduct CCB Meetings with the Authority (meeting may be combined with the ETTM System Contractor CCB meeting at the Authority's discretion) on an as-needed basis. These meetings shall be for the purpose of providing status, reviewing, Approving and prioritizing BOS changes (such as, Software enhancements, Software Upgrades, Hardware Upgrades, major bug fixes) and operations changes (such as, policies, Business Rules, operational procedures, phone scripts, and staffing).		
352	The Contractor shall solicit and identify all known statuses and input from the Authority regarding the CCB and provide them to all attendees and the Authority in advance of the meeting and in accordance with the Authority's change control process.		
9.2. Safety			
353	The Contractor shall adhere to all applicable safety standards and guidelines for working on or around energized equipment, including but not limited to the following:		
	· The Authority's safety procedures and guidelines;		
	· local code;		
	· State of California, code, standards, safety procedures and guidelines;		
	· Occupational Safety and Health Administration (OSHA);		
	· National Electrical Manufacturers Association (NEMA) and · National Electrical Code (NEC).		
10. Contract Deliverables Requirements List			
	The following table identifies the Deliverables/Submittals which shall be required for this Project. This table is provided for convenience only; it is the Contractor's responsibility to meet all Requirements.		

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offorer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1. Statement of Work and Requirements							
	The following subsections describe the Statement of Work and the Requirements for the Back Office System (BOS). These Requirements are numbered to track obligations per the Agreement and any changes which may occur during the Project. Many of the Requirements contain underlying lists of specific items and required database fields. The intent of these "including but not limited to" lists is to indicate to the proposer the intent and scope of the Requirement. During design, the naming and number of items and fields will vary; however, all items and fields shall be addresses by the BOS unless the Contractor is formally relieved of the Requirement by the Authority.						
1.1. Global System Requirements							
	The global System Requirements define the overarching Requirements for the Hardware, Software and system comprising the production and non-production environments of the BOS.						
	The Contractor is encouraged to provide innovative solutions that simplify Maintenance, security and the implementation of Upgrades and Enhancements. The Contractor is permitted to use cloud-based and/or premise-based solutions. During the Operations and Maintenance Phase, the entire technical solution and all Third-Party Service Providers must reside and perform the services within the continental United States.						
	The Contractor will be responsible for acquiring and maintaining the applicable Payment Card Industry (PCI) Standards Security Council Level based on the quantity and value of Credit Card transactions processed. The global System Requirements include Requirements for securing PII in accordance with California statutes, the Authority's privacy policy and National Institute of Standards and Technology (NIST) best practices for general information security.						
	Connecting the BOS to the Electronic Toll and Traffic Management (ETTM) System, Interoperable Agencies inside and outside California and to Third-Party Service Providers requires a wide variety of external Interfaces. Providing for these Interfaces will require the Contractor to use existing Interface Control Documents (ICD) when applicable and develop new/more modern Interfaces at the Authority's direction.						
	Although the initial implementation of the BOS will directly support OCTA's I-405 Toll Facility, the BOS design, data schema, financial accounting and reporting approach shall support the future, potential direct support of additional OCTA and non-OCTA Toll Facilities. All functionality provided shall be easily Configured to support these potential additional Toll Facilities.						
	A BOS-provided Performance Management and Monitoring System (PMMS) shall monitor the performance of the BOS and provide incident and work order management capabilities and data points for measuring the Contractor's Operations and Maintenance Phase performance as further detailed in the Maintenance and Software Support Services section of these Requirements.						
1.1.1. Environments							
	The BOS shall include multiple environments as required to complete the design, development, integration, testing, delivery and Acceptance of the BOS and properly operate during the Operations and Maintenance Phase. It is the Contractor's responsibility to provide additional Authority-Approved environments should the ones listed herein be insufficient for the Contractor to deliver the appropriate solution.						
	The operating environment of the BOS shall include, but not be limited to:						
	· the primary BOS;						
	· a secondary instance of the BOS to be used for Disaster Recovery (DR) and to support Business Continuity;						
	· telephony system;						
	· the Interactive Voice Response (IVR);						
	· Automatic Call Distribution (ACD);						
	· systems for all servicing all channels of customer communication;						
	· Desktop Environments installed at the I-405 CSC and WIC Facility;

		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1	· all necessary and required office Equipment (for example, printers, copiers and postage machines);						
	· Desktop Environments and telephony systems for two (2) permanent Authority offices throughout the Term of the Agreement. The telephony systems and Desktop Environments shall include full BOS access and supervisory/manager capabilities related to all customer service communication channels and CSR monitoring applications, and one (1) shared private printer for Authority use;						
	· Desktop Environments and telephony systems for three (3) additional temporary Authority offices/cubicles during mobilization of the Facility and throughout Operational and Acceptance Testing. The telephony systems and Desktop Environments shall include full BOS access and one (1) Desktop Environment and phone system shall include supervisory/manager capabilities related to all customer service communication channels and CSR monitoring applications (in addition to the two (2) permanent Authority offices Desktop Environments and telephony systems);						
	· initial setup, security, and Interface of the I-405 BOS application on desktop computers and peripherals at the OCTA Store WIC (desktop computers and peripherals at the OCTA Store WIC are provided by the Authority);						
	· all network and communications elements; · all required Interfaces and · a data warehouse (Phase II and optional).						
2	The primary BOS server environment shall be located at one or a combination of the following locations:						
	· hosted at a Tier 3 data center facility and · hosted on a well-established cloud service provider.						
3	The primary BOS server environment shall have a dedicated infrastructure such that while hosted at a Tier 3 data center facility or by a well-established cloud service provider, the Authority's dedicated BOS application shall run on dedicated virtual machines and/or containers such that only upgrades to the data center/cloud infrastructure and the Authority's BOS application would potentially affect the uptime of the BOS and there is no possibility of functional or infrastructure upgrades required to service other toll customer's applications would cause any downtime or affect the BOS in any way.						
4	The Contractor shall ensure the BOS is fully operational in accordance with the Performance Measures described in these Requirements, for the Implementation and Operations and Maintenance Phases.						
5	The Contractor shall provide all computing environments required to achieve Commencement of Ramp-up/ Customer Services, including but not limited to:						
	· a production environment located within the continental United States and · a DR environment at a secondary location within the continental United States in a different time zone, or cloud-based equivalent;						
6	The Contractor shall provide all computing environments required to sustain the day-to-day operations of the BOS by the Go-Live date, including but not limited to:						
	· a production environment located within the continental United States;						
	· a DR environment at a secondary location within the continental United States in a different time zone, or cloud-based equivalent;						
	· a training environment located at the CSC location; · a test environment and · a development environment.						
7	During both the Implementation Phase and the Operations and Maintenance Phase, the Contractor shall not allow any Authority data or customer PII outside of the U.S. Individuals and entities outside of the U.S. shall only have access to the development environment and shall not have access to customer PII.						
8	The Authority shall have logon access to all BOS environments.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments *Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
		Compliance	Status	If Applicable	Source	If Applicable

9	The Contractor shall keep all BOS environments current with all major releases of operating systems, databases, Software and firmware. Releases shall not be more than one (1) release behind the manufacturer's latest major release unless Approved by the Authority. The Contractor shall also make the necessary Software changes required to ensure compatibility with the evolving IT environment.						
10	With the exception of the development and test environments, which may change as part of testing and development cycles, the Contractor shall keep operating systems, databases, Software and firmware consistent across all environments, including, but not limited to configuration and patch level. At least one development and one test environment shall mirror the current production environment at all times during the Operations and Maintenance Phase.						
11	The test environment shall be sufficiently sized to successfully test Software changes and their effect on the production environment, including load and stress testing.						
1.1.1.1. Operating and Computing Environments – Production							
	The Contractor is expected to provide a BOS solution that is a dedicated, hosted and/or cloud-based system and as such should provide for the following operating and computing environment Requirements for production.						
12	The BOS production environment shall use new Hardware and Equipment for any Equipment installed on-premise at Authority's facilities or at a hosting facility.						
13	The BOS production environment shall be a high availability fault-tolerant design configuration of servers, storage, databases and backup systems and connected using high-speed inter-system storage and networking fabric, including any ancillary Equipment necessary to provide a complete production system which meets the Requirements.						
14	In the event of a complete failure of one or more of the components or sub-systems in the BOS production environment, affected components or sub-systems shall failover to the secondary BOS at the DR site. Performance and availability Requirements for the individual components and sub-systems of the BOS shall not be affected.						
15	The design and implementation of the BOS production environment shall ensure no single-point-of-failure exists within the configuration and the BOS shall continue to operate without data loss in the event any single component of the configuration fails.						
16	The operating system used for all servers shall be a multi-user and multi-tasking operating system from a manufacturer that is widely recognized and used in the United States for complex, high-volume database operations.						
17	The operating system shall be compatible with all Hardware, Software and other BOS components for the duration of the Operations and Maintenance Phase, including but not limited to:						
	· the Relational Database Management System (RDBMS);						
	· the Contractor's application Software;						
	· the Contractor's proposed network and communications topology and · all Desktop Environments and peripherals defined in these Requirements.						
18	The operating system shall fully utilize the high availability BOS server architecture.						
19	The operating system shall be the latest stable version at the time of implementation (unless otherwise Approved by the Authority), field-proven and have a clearly documented Upgrade path and be supported by the manufacturer.						
20	The Contractor shall provide a highly reliable and secure RDBMS for the storage of images, user accounts, transaction/trip data, Violation data and all other data.						
21	The RDBMS shall be the latest version at the time of implementation (unless otherwise Approved by the Authority and field-proven to operate in a complex, high-volume transaction environment.						
22	The RDBMS shall be certified with the operating system, appropriate application Software and shall fully utilize the high availability BOS server architecture.						
23	The RDBMS shall support Upgrades to the operating system, applications, memory, processors and other components.						
24	The RDBMS shall have a clearly documented Upgrade path and be supported by the manufacturer.

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1.1.1.2. Operating and Computing Environments – Disaster Recovery (DR)							
25	For DR purposes the Contractor shall provide a DR computing environment of equivalent size and capabilities to the primary BOS, at a secondary location within the continental United States and in a different time zone from the primary BOS.						
26	The DR environment configuration shall continuously mimic the BOS production environment in terms of configuration and data and shall be capable of performing all functions of the production environment, at the same performance and availability levels described in these Requirements for the primary BOS.						
27	When put into production, the bandwidth provided to the DR site shall provide for the same performance and reduction of latency as the production BOS for both customers and CSC Operations staff.						
28	The DR environment at the DR site shall be capable of being brought on-line and made fully operational in accordance with the Performance Measures.						
29	In the event of a catastrophic failure of the primary BOS, the secondary BOS at the DR site shall be capable of sustaining BOS operations indefinitely, or until such time as the primary BOS can be brought back on-line or a new primary site is identified and made fully operational.						
30	The Contractor shall provide validation that the DR procedures and environment is capable of providing Business Continuity in the event of a catastrophic failure of the primary BOS. This testing shall be coordinated with the Authority and all the results shall be immediately provided to the Authority.						
31	The DR server environment shall be located at one or a combination of the following locations: · a Tier 2 data center facility and · a well-established cloud service provider.						
1.1.1.3. Operating and Computing Environments – Data Warehouse (Phase II and Optional)							
	The data warehouse provides for the running of data analytics (Business Intelligence) reporting. It also allows the Authority to either directly or upon request to the Contractor, query data and run reports without having to compete for production reporting resources. The data warehouse environment stores all required data (to be defined during the Implementation Phase) from the BOS.						
32	The Contractor shall provide, as part of the production environment, a separate data warehouse environment for business intelligence and analytics reporting.						
33	The data warehouse shall be dedicated, and the required general reporting shall not depend on the data warehouse in any way.						
34	The Contractor shall be responsible for the design and testing of the extract, transform and load (ETL) process from the BOS during the Implementation Phase and the transfer of data after Go-Live throughout the Operations and Maintenance Phase.						
35	The Contractor shall provide validation that all data transferred to the data warehouse is complete and accurate.						
36	The data warehouse environment shall be updated from production in near-real time.						
37	The data warehouse environment shall be capable of being updated via an ETL process from the production System via a one-way replication.						
38	Because the data warehouse is Phase II functionality, if the option is executed, at start-up of the data warehouse the Contractor shall extract all applicable historical data from the BOS. The design of the data warehouse database schema, ETL process and the data analytics application shall be part of a post Go-Live, Phase II task.						
1.1.1.4. Operating and Computing Environments – Training							
39	The Contractor shall provide a non-production training environment, independent from the production and DR environments, to support the initial and ongoing training of the CSC Operations and Authority's personnel.						
40	The training workstation environments shall be located at the CSC site unless the Contractor can submit and gain Authority's Approval of an alternative location.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
41	The training desktop environment shall replicate the production Desktop Environments, including all peripherals as dictated by the position being trained.						
42	The number of training stations shall be determined by the Contractor to meet the training needs in accordance with the CSC Operations and Facility Mobilization Plan and on-going remedial and new training of personnel.						
43	The Contractor shall provide the capability to restore training environment databases and to periodically refresh the training environment data from the production BOS, using data cleansing procedures Approved by the Authority.						
1.1.1.5. Operating and Computing Environments – Test							
44	The Contractor shall maintain a BOS test environment that matches the BOS production environment configuration for the purpose of testing and verifying software Enhancements and Upgrades prior to being put into production.						
45	At the Authority's request, the Contractor shall provide access to the test environment for independent testing and verification to software Enhancements and Upgrades prior to being put into production.						
46	To the extent possible, the test environment shall interface directly to Third-Party Service Providers and Interoperable Agency test and/or production systems. For example, the DMV and ROV Interfaces.						
1.1.1.6. Email, Chat, Fax and Text Messaging							
47	The Contractor shall provide the capability for manual, scheduled and system triggered outbound/inbound email (including email attachments) and texting that meets the outbound/inbound correspondence Requirements.						
48	The Contractor shall provide the capability for outbound/inbound fax that meets the outbound/inbound correspondence Requirements.						
49	The Contractor shall provide the capability for chat sessions that meets the Requirements.						
50	The Contractor shall provide the capability for multiple outbound domain name emails to avoid spam blocks or may provide an alternative solution.						
51	The Contractor shall provide the capability for Authorized Users to view system-generated status information for electronic messages (such as, email, texting or fax) that are sent from within the BOS application. For example, an Authorized User (e.g., customer service representative) verifies that email messages have been successfully sent from the BOS.						
1.1.1.7. Hardware, Software and Other Equipment							
52	The Contractor shall provide completely new Desktop Environments for all CSC Operations personnel.						
53	The Contractor shall integrate with the BOS all Authority provided or procured 6c transponder readers/programmers for use in the CSC.						
54	The Contractor, with the Approval and assistance of the Authority, shall procure any 6c readers/programmers required for the CSC on a cost pass-through basis.						
55	All Hardware and Software shall be new, commercially available products currently in production, of the latest design/version at the time of purchase (unless otherwise Approved by the Authority) and field-proven in high-volume revenue operations, including but not limited to: · Hardware; · Software; · firmware and · other supplies, Equipment or components.						
56	All Hardware and Software shall be obtainable from multiple sources readily available to the Authority, unless otherwise Approved by the Authority. An exception to this may be the Contractor's custom-developed Software.						
57	The Contractor shall provide a dated invoice for all materials procured under this Agreement. Shipping bills shall be retained and copies furnished to the Authority along with the invoice on which they appear.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
58	All commercial Software provided as part of the BOS shall be enterprise class. Enterprise class applications are designed to be robust and scalable across a large organization and are customizable to meet the specific needs of the BOS. Note: Do not construe this to require enterprise level software licenses. It is the Contractor's responsibility to provide the proper level of software licensing.						
59	The solution furnished and installed shall be appropriately sized for capacity, as required to support growth in traffic volumes. It also shall be scalable, allowing for additional transactions/trips, images and Toll Facilities to be added for all BOS functions while continuing to meet the Performance Measures.						
60	The Contractor shall use field-proven Hardware, Software and Equipment configurations that support future Upgrades to processors, memory, storage, operating system, database and other system components.						
61	Licenses and Software media (or online access for downloading media) shall be provided to the Authority for all Hardware, third-party Software and firmware procured, furnished and installed as part of the BOS.						
62	The Contractor shall retain authorized copies (backups) for all Software media as required for use in periodic BOS Maintenance, Upgrades or system restores for a minimum of one year.						
63	All Hardware and Equipment provided to support BOS and CSC Operations shall be networked and fully integrated with the functional BOS (including PMMS) and the Desktop Environments.						
64	The standard Point of Sale devices shall support Europay, MasterCard and Visa (EMV) chip integrated circuit card and contactless Near Field Communication (NFC) devices. The Contractor shall ensure compliance with EMV chip guidelines for chip card transactions and International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 18092 specifications for contactless NFC transactions.						
65	Check scanners (for remote deposit capture) shall include, but not be limited to:						
	· high accuracy Magnetic Ink Character Recognition (MICR) rate;						
	· compliance with "The Check Clearing Act for the 21st Century" (Check 21);						
	· check defacement features and						
	· alphanumeric Optical Character Recognition (OCR) A & B font recognition.						
1.1.1.8. Network, Communications, Telephony, Security and Surveillance							
66	The Contractor shall provide all required network Equipment and communications lines (including all installation and recurring costs throughout the Term of the Agreement) to connect the CSC and BOS to all required users and systems with sufficient bandwidth to meet all Requirements at no additional cost to the Authority, including:						
	· secure dedicated and redundant Interface connections for all BOS to CSC personnel communications;						
	· remote Contractor personnel;						
	· work-at-home Contractor personnel (under certain Business Continuity procedures);						
	· secure dedicated and redundant Interface connections for all Contractor designated Third-Party Service Providers;						
	· all Contractor provided BOS environments;						
	· secure dedicated and redundant Interface connections for customers accessing the BOS or CSC via telephony, IVR, Self-Service Website, Self-Service Mobile Application (Phase II and optional) and all other channels;						
· secure dedicated and redundant Interface connection to ETTM System at 4301 W. MacArthur Blvd, Santa Ana, CA 92794;							
· secure dedicated and redundant Interface connections for the OCTA Store WIC location at 600 S Main St, Orange, CA 92868 via secure public VPN (or other Authority Approved Interface). OCTA will provide all necessary Equipment at the OCTA Store WIC location;

	<ul style="list-style-type: none"> secure dedicated and redundant Interface connections for Authority's staff locations from various locations via secure public VPN (or other Authority Approved Interface). OCTA will provide all necessary Equipment at the Authority staff locations and secure dedicated and redundant Interface connections for all Authority designated Third-Party Service Providers via secure public VPN (or other Authority Approved Interface). OCTA or others will provide all necessary Equipment at the Third-Party Service Providers locations. 						
67	The Contractor shall provide the telephony systems for all CSC Operations personnel at the CSC and the collocated WIC. Note: The telephony system at the OCTA Store WIC at 600 S Main St, Orange, CA 92868 will continue to be provided by OCTA.						
68	As part of the Implementation Phase, the Contractor shall provide and install all network Equipment and communications as required to meet the Requirements.						
69	The Contractor will assume Maintenance, administration and Upgrade of all network Equipment and communications to service the BOS and CSC throughout the Operations and Maintenance Phase.						
70	The network connection to the ETTM System shall be of sufficient bandwidth to support the transfer of images, transactions/trips, Transponder Status Lists and other required files.						
71	The Contractor shall increase throughput and bandwidth as needed to eliminate system latency and meet the Requirements.						
72	The Contractor shall provide network monitoring Software to monitor all Contractor provided and Authority provided infrastructure, network Equipment and communications related to the BOS and CSC. All network notifications and alarms shall be reported to the PMMS.						
73	The Contractor shall provide the capability for time synchronization to one or more certified time server(s). The Contractor shall provide for redundant certified time sources should the primary source be unavailable.						
74	The Contractor shall ensure exact synchronization with the ETTM System.						
75	The Contractor shall provide secure remote access to the full capabilities of the BOS for Authority Authorized Users working remotely.						
76	The Contractor shall be responsible for ensuring that all BOS networks and communications are compliant with the Security Standards.						
1.1.2. BOS Functionality							
	The BOS functionality Requirements begin with the design of a GUI to the BOS. Through the GUI, Authorized Users (from within the CSC) and customers (accessing via the Self-Service Website, and Self-Service Mobile Application (Phase II and optional)) will access a user account and other information within the BOS. This section of the global Requirements also includes Requirements for establishing and controlling user access to the BOS, logging and security controls and maintaining efficient databases through regular purging and archiving of stale records in accordance with the Security Standards.						
1.1.2.1. Graphical User Interface (GUI)							
	The GUI design must include accepted computer industry design standards for ease of readability, understanding and appropriate use of menu-driven operations, user customization and intuitive operation. The GUI should allow for efficient action by CSR or customer minimizing screens and clicks to modify.						
77	The Contractor shall provide a secure, browser-based GUI for the BOS application, Self-Service Website, and all external Interfaces.						
78	The Contractor shall provide for secure communications with the BOS application, all customer portals and all external Interfaces, such as Hypertext Transfer Protocol Secure (HTTPS) or similar.						
79	The GUI shall adhere to accepted development standards and specifications, including but not limited to World Wide Web Consortium (W3C) and HyperText Markup Language (HTML) Version 5 or current standard.

80	The Contractor shall follow Payment Card Industry Data Security Standard (PCI DSS) and standard security practices in the design of the GUI for the BOS application, all customer portals and all external Interfaces.						
81	The GUI design and development shall incorporate human factors and usability engineering and be optimized for speed, as well as provide the following controls, including but not limited to:						
	· menus (such as pull down, popup, cascading, leveling, etc.);						
	· allowing for multiple windows within the application, such as to navigate back without having to re-enter a user account;						
	· informational messages;						
	· positive feedback;						
	· exception handling and error dialogs, including logging the error (in the PMMS);						
	· control icons, links and action buttons;						
82	Data entry screens shall have Configurable mandatory fields that require data entry prior to continuing through the process.						
83	The Contractor shall provide field-level validation and format verification upon existing data fields applicable to pre-defined formats or standards, including but not limited to:						
	· alpha-numeric;						
	· date;						
	· time;						
	· special characters;						
	· length;						
	· license plate number (based on individual issuing Jurisdiction rules) fields;						
	· transponder numbers;						
	· telephone number;						
	· email address;						
84	The Contractor shall provide field-level "tooltips" or other interactive help, Configurable by the system administrator, that provide specific guidance on any field presented, including but not limited to:						
	· alpha-numeric fields;						
	· date fields;						
	· time fields;						
	· special characters;						
	· username and password;						
	· length restrictions;						
	· license plate number (based on individual issuing Jurisdiction rules) fields;						
	· transponder fields;						
	· telephone number fields;						
	The Contractor shall provide the capability for Authorized Users to maintain drop-down lists, including but not limited to:						
	· add items;						
	· deactivate items;

85	<ul style="list-style-type: none"> · set effective activate and deactivate times; · modify items; · toggle item visibility on/off; · set the display order; · change the display order; · set the default value and · change the default value. 						
1.1.2.2. BOS Application Requirements							
86	The Contractor shall provide navigation optimized for speed and with identical screen presentation and user experience, regardless of the browser used. The BOS application shall detect and advise if the browser being used is out-of-date or not supported, as well as instruct where updates can be obtained.						
87	Help menu/dialogue box shall be provided for each screen, each editable field and each selectable option within each screen.						
88	The Contractor shall provide workflow and application help menus that integrate seamlessly into the user interface.						
89	The Contractor shall provide help menus that provide clear descriptions and walk-through procedures for all standard tasks.						
1.1.2.3. User Accounts, User-Roles, User-Role Management and Controls							
	User account management and role management is an important component to the overall security of the solution. Authorized Users are Approved users that have role-based credentials to access the BOS as an employee of the Contractor, employee of the Authority, Third Party Service Provider, or contractor of the Authority.						
90	Authorized Users shall access the BOS using an authenticated, role-based login and be uniquely identified and authenticated using a strong password policy.						
91	The Contractor shall provide the capability for only privileged accounts to use tools with administrative capabilities conforming to the concept of least privilege.						
92	Allow for full integration with Microsoft Active Directory (AD) or similar access system Approved by the Authority so users are not required to enter separate passwords for system access (the BOS shall prompt users for their credentials and not allow pass-through authentication), and that all rules for password security (for example, characters or rotations) are enforced and passed between the network and the application.						
93	The Contractor shall provide the capability to create (Configurable) BOS user accounts.						
94	The Contractor shall provide the capability to create a new user account having the same role/rights as an existing user account.						
95	The Contractor shall provide the capability to allow first name, middle name and/or last name to be changed without having to create a new user account, such as to correct an error or make a change because of marriage or divorce.						
96	The Contractor shall provide the capability to search for Authorized Users using Configurable criteria.						
97	The Contractor shall provide the capability to track user accounts created dates and disabled dates information, since user accounts may be enabled and disabled repeatedly over a period of time (because of leaves of absence, etc.).						
98	The Contractor shall provide the capability to search and view all information about a user account on a particular date and time.						
99	The Contractor shall provide the capability to control all access rights within the BOS through the assignment of user-roles.						
100	The BOS shall prevent the direct assignment of rights to an Authorized User, and all rights must flow from a user-role.						
	The Contractor shall provide the following user-role capabilities, including but not be limited to:						
	<ul style="list-style-type: none"> · allow Authorized Users to belong to multiple user-roles; 						

Volume II BOS Technology and Functionality

101	· allow the deactivation of a user-role, provided no active Authorized Users are assigned to that role;						
	· ensure modifications to roles are immediately propagated through the BOS and to all Authorized Users currently assigned to the role;						
	· prevent BOS access to users who are not assigned to a user-role and						
	· provide a built-in "read-only" capability that can be added to any user-role, allowing user accounts assigned to that role to view information on the screen and print reports (but not make changes).						
102	The Contractor shall provide the capability for an Authorized User to view the summary of permissions of a user created with multiple user-roles.						
103	The Contractor shall provide the capability for Authorized Users to manage user-roles, including but not limited to:						
	· create new user-roles;						
	· change access rights;						
	· assign and un-assign user-roles to user accounts;						
	· assign and un-assign user accounts to user-roles;						
	· adjust user-roles and deactivate user-roles.						
104	The Contractor shall provide the capability for Authorized Users to manage multiple levels of access control based on user-roles, including but not limited to:						
	· broad functional level, for example, user-role X is denied access to the user account management functionality;						
	· detailed functional level, for example, user-role Y is allowed access to the user account management functionality but denied access to close user accounts function and						
	· field level, for example, user-role Z is allowed access to the user account management functionality but denied access to the tax-exempt checkbox.						
105	The Contractor shall provide the capability for Authorized Users to deny/allow access or allow read-only access, based on user-roles, including but not be limited to:						
	· specific menus;						
	· specific items on a drop-down list;						
	· specific individual screens;						
	· specific functions on a screen;						
	· specific fields within a specific screen;						
	· specific types of transactions/trips;						
	· specific processes;						
	· specific reports;						
	· specific activities based on account status;						
	· specific search capabilities;						
	· specific transaction/trip approval privileges;						
	· specific workstation location access;						
· specific workstation time restrictions and							
	· specific time restrictions.						
106	The Contractor shall provide the capability to configure Flags as part of a user role definition, so they can be viewed based on user-roles.						
107	The Contractor shall provide the capability to send Alerts to the PMMS for logging and notification based on the assignment/removal of a specific user-role (Configurable as new user-roles are created).						
108	The Contractor shall provide the capability to search for all Authorized Users with a specific role and all user accounts with a specific access right.						

Volume II BOS Technology and Functionality

109	The Contractor shall provide the capability to search and report on user-roles for a particular date, distinguishing between an active user account (able to access information according to its roles) an inactive user account (temporarily unable to access information because of a locked password or expired from lack of use) and a disabled user account (a user account no longer able to access information because of the intervention of an Authorized User).						
110	The BOS shall keep a full history of all user-role details with effective dates so the exact rights for a particular user-role can be viewed by Authorized Users at any point in time.						
1.1.2.4. Logging Mechanisms							
	These mechanisms provide chronological recording of system events and user account activities. They also document the sequence of activities that have been affected at any time during a specific operation, procedure or event.						
111	The Contractor shall provide comprehensive, system-wide logging capabilities ensuring every change to a BOS record of any type is logged with a date/time stamp, including the Authorized User (and IP address) that made the change.						
112	The Contractor shall ensure that system clocks are synchronized. For example, Desktop Environments, Equipment, servers, physical security systems and CSC Surveillance CCTV systems.						
113	The Contractor shall provide the capability to log all changes to user accounts.						
114	The Contractor shall provide the capability to log all changes to the Processing Exception List.						
115	The Contractor shall provide BOS reports, including but not limited to: · reports of logged activity by activity type and · reports of logged activity by user accounts.						
116	The Contractor shall create a log when a user-role is assigned, changed or removed from a user account.						
117	The Contractor shall provide screens so Authorized Users can view all log files.						
118	The Contractor shall provide the capability to log and track all user activities and user accounts viewed by specific user account with date, time stamp, and workstation location.						
119	The Contractor shall provide Configurable Alerts to the PMMS for all functions of the BOS which are logged.						
120	The Contractor shall provide logging that includes actions taken within a user account with date and time stamp.						
121	The Contractor shall provide logging of all changes (view, add, delete, modify) to Credit Card information.						
122	The Contractor shall provide logging of all user login attempts, including but not limited to: · username; · originating Internet Protocol (IP) address; · date; · time and · success/failure.						
123	The Contractor shall provide logging of all customer login attempts, including but not limited to: · Uniform Resource Locator (URL); · user account; · browser/platform including version number; · originating IP address; · date; · time and · success/failure.						
124	The Contractor shall provide audit logging capabilities that provides the ability for view access by CSR and/or by account to have the review of users that have accessed the account or Case even if no changes have been logged.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
125	The Contractor shall create a log of all changes to system configurations or settings and record the user name, date, time and IP address from which the change was made.						
126	The Contractor shall be in compliance with all PCI DSS logging requirements while preventing any logging of Credit Card numbers or card verification value data, including debugging and error logs.						
127	The Contractor shall be in compliance with all PII logging requirements while preventing any logging of PII data, including in debugging and error logs.						
128	The Contractor shall provide the capability to generate an Alert to the PMMS when debugging logs are turned on within the production environment.						
129	The Contractor shall prevent tampering with log file data.						
130	The Contractor shall provide the capability to log and track changes to applications, databases and operating systems.						
1.1.2.5. BOS Security Standards, PCI-DSS, PII and Best Practices							
	The Contractor shall provide security and access controls in accordance with the Security Standards. These Security Standards will evolve as standards, best practices and California statutes evolve over the Term of the Agreement.						
131	The Contractor's approach to BOS and user security shall continually provide adherence to the latest specifications, publications, policies and standards, including but not be limited to: <ul style="list-style-type: none"> · compliance with PCI DSS; · protecting the confidentiality of PII in accordance with the Authority's privacy policy; · protecting the confidentiality of PII in accordance with Section 31490 of the Streets and Highways Code and other applicable California statutes; · protecting the confidentiality of PII in accordance with the recommendations in publication 800-122 from the National Institute of Standards and Technology (NIST) or subsequent versions; · protecting the confidentiality of PII in accordance with California Consumer Privacy Act (CCPA); · protecting the confidentiality of PII in accordance with California Online Privacy Protection Act (CalOPPA); · encryption of data in accordance with NIST SP 800-111 Guide to Storage Encryption Technologies for End User Devices; · protecting the confidentiality of PII in accordance with the California Civil Code Section 1747.08.; · account for information security management risk as described by NIST Cybersecurity Framework special publication 800-39; · conformance to applicable best practices for information security management as described by the ISO/IEC 27000 standards; · the security Requirements and · all California and out-of-state DMV security requirements and standards. 						
132	The Contractor shall Design the System to anticipate that during the Implementation and/or Maintenance Phases the System will become subject to more restrictive digital privacy laws and regulations (for example, similar to European Union General Data Protection Regulation (GDPR)). During Design within the Implementation Phase, the Contractor shall provide documentation (within applicable deliverables) and demonstrate (during testing) the System's preparedness to anticipate more restrictive privacy Requirements.						
133	The Contractor shall establish and maintain a formal, documented, mandated, BOS and CSC Operations information security policy that shall be communicated to all Contractor and Subcontractors personnel in a relevant, accessible, and understandable form and will be regularly reviewed and evaluated to ensure its operational effectiveness, compliance with all Security Standards, applicable laws and regulations, and to address new threats and risks.						
134	The information security policy shall address all removable media except in the context of Contractor's routine back-ups or as otherwise specifically Approved by the Authority, Contractor shall institute strict physical and logical security controls to prevent transfer of BOS data via removable media.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
135	The Contractor shall provide strong end-to-end encryption for all sensitive information, including PCI and PII stored within databases (at rest) or being transmitted (in-motion).						
136	The Contractor shall use strong encryption methods such as AES FIPS-179 (128 bits and higher) or RSA (2048 bits and higher), or an equivalent if Approved by the Authority.						
137	The Contractor shall provide encryption keys that are considered sensitive information and stored on appropriately secured servers.						
138	The Contractor shall prevent any unauthorized user, system or database administrator from viewing encrypted information in unencrypted form, while providing the capability for Authorized Users to view encrypted information in unencrypted form to perform tasks based on a defined role.						
139	The Contractor shall ensure that no cardholder data, such as Credit Card numbers or card verification value data, is in any BOS environments.						
140	The Contractor shall ensure that no PII data is in the BOS environments other than production, DR and test.						
141	The Contractor shall provide comprehensive user credential controls that are compliant with PCI standards, including but not limited to: · prevent the creation of 'generic' user accounts – all user accounts shall be associated to a specific person. For example, use the unique employee ID as a required field for each user account. Duplicate IDs would be rejected and · prevent a user (role-based) from logging in at two different machines at the same time, while allowing a single user on a single machine to have multiple sessions open at the same time.						
142	The Contractor shall provide the capability to configure different user credential controls for different types of users, including but not limited to: · Authorized Users who will access the BOS; · Third-Party Service Providers that access the BOS via external interfaces and · customers who will access the BOS via the Self-Service Website, Self-Service Mobile Application (Phase II and optional) and the IVR.						
143	All Hardware shall be integrated with the PMMS and configured to provide PMMS alerts in relations to out-of-date security software and patch versions.						
144	All Hardware shall be integrated with the PMMS and configured to provide PMMS alerts in relations to all attempted intrusions, virus attacks, ransomware attacks, spamming, denial of service and attempted/successful unauthorized access.						
145	For any Hardware removed from the BOS, the Contractor shall provide a notarized statement, detailing the removal or destruction method used, the data sets involved, the date of destruction, and the company or individual who performed the destruction. The statement shall be sent to the Authority within fifteen (15) Calendar Days of removal of the Hardware. The destruction or erasure of data or information pursuant to this section shall be in compliance with industry Best Practices (e.g., NIST SP 800-88, Guidelines for Media Sanitization)						
146	The Contractor shall provide a report of all security incidents. The Authority or its third-party designee may, but is not obligated to, perform audits, security tests and intrusion tests of BOS environments that may also include, but are not limited to, interviews of relevant personnel, review of documentation, and/or technical inspection of systems.						
147	The Contractor shall provide for Authority's review any original security reports related to security assessments that the Contractor has undertaken to assess BOS and shall notify the Authority of all security assessments.						
1.1.2.6.	Archival and Purge Control Mechanisms						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The Authority is public and, therefore, are subject to the law governing the retention and disposition of information considered as public record. The Requirements for archiving and purging include Requirements for automating these activities in a way that maintains compliance with the Contractor retention schedule that is provided as part of the Contractor's Maintenance documentation, while providing the Authority a method to <u>Approve the disposition of records before they are deleted.</u>						
148	The Contractors archival and purge processes shall be in compliance with the data retention Requirements set forth in the Security Standards and Volume I, Section 4.2.17 Records.						
149	The Contractor shall provide the capability for fully automated and Configurable storage of historical data (archival) and the permanent deletion of inactive or obsolete data (purging).						
150	The Contractor shall provide the capability to store 100 percent of the BOS electronic information in accordance with the data retention Requirements set forth in the Security Standards and Volume I, Section 4.2.17 Records.						
151	The Contractor shall provide the capability to store 100 percent of the BOS electronic historical information indefinitely if they have enduring significance to the Authority's activity (i.e., permanent, evidentiary, and/or historical value) in accordance with the retention schedule. All information, other than that prohibited within the Requirements, will be retained for the duration of the Agreement and archived or moved to long-term storage as deemed appropriate during the Implementation Phase to meet all customer and Authority needs for reporting and data access.						
152	Archival and purge routines shall be Configurable for each impacted data element, including but not limited to:						
	· transactional data;						
	· all formats of customer PII data;						
	· Images (Violations-related and I-Toll-related);						
	· documents;						
	· Notifications;						
153	· BOS logs and						
	· third-party provided files.						
154	The Contractor shall provide the capability to archive data on a monthly interval.						
155	The Contractor shall provide the capability to purge archived data on a periodic basis.						
156	Authorized Users shall have the capability to request retrieval of archived data through the Contractor's ticketing system included in the PMMS.						
157	All archived data shall be stored on permanent, long-term storage media and shall be maintained at a secure Authority Approved third-party commercial data storage facility.						
158	Servers shall retain transaction/trip and summarized data, all images and BOS logs online for a specified period of time and then archive that data.						
159	Data shall be purged in accordance with the data retention schedule.						
160	The Contractor shall provide the capability to notify the BOS Maintenance personnel via the PMMS a Configurable number of days in advance and require Authorized User approval for when archival and purging jobs are to be executed, including but not limited to data elements impacted, date range applied and data size impact.						
161	After successful archival of data and confirmation via the PMMS, the deletion of online data shall be automatic, without user intervention and shall generate a message to be transmitted according to the PMMS rules. Absolutely no transactions/trips shall be deleted unless confirmed to be successfully archived.						
162	The BOS servers shall be sized to accommodate for the restoration of selected archived data (one -year minimum).						
1.1.3.	Authorized Users shall be able to generate queries from the restored data.						
	Interfaces						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The Contractor is responsible for working with the Authority, Interoperable Agencies/California Toll Operators Committee (CTOC) and Third-party Service Providers in designing, developing, documenting, testing and implementing all required Interfaces and portals.						
1.1.3.1. General Requirements for External Interfaces							
	Electronic Interfaces are required to provide BOS connectivity. The technical specifications for these Interfaces are documented in ICDs that have either already been developed by the Authority or shall be developed by the Contractor. The ICDs include Requirements for data format and transmission, criteria for acknowledgement and validation of transmitted data and procedures for recording and reconciliation as appropriate for each Interface.						
163	The Contractor shall develop new or comply with existing electronic Interfaces at the direction of the Authority.						
164	The Contractor shall provide for guaranteed transmission of data for all Interfaces and portals.						
165	The Contractor shall provide for 100 percent reconciliation of the transmitted and received data and files.						
166	The Contractor shall provide the capability for Authorized Users to access and view the contents of files, including compressed or encrypted files, which are received by the BOS and transmitted by the BOS in a readable format. Authorized Users shall have the capability to save the contents of such files.						
167	The Contractor shall provide the capability for sending real-time Alerts to the PMMS for Interface and data transmission failures, including but not limited to:						
	· real-time dashboard for managing and monitoring Interfaces;						
	· workflow user Interface for managing and monitoring steps within each Interface;						
	· status and history of executions;						
	· comprehensive scheduling of file transmissions;						
	· tools for viewing data and/or contents of files received via Interfaces and portals (compressed or encrypted);						
168	· comprehensive reporting for transmitted and received data and files;						
	· tight integration with the PMMS and notification of failed transmissions and						
	· capability to manually execute a failed transmission.						
	When using File Transmission Protocol (FTP), the Contractor shall utilize Secure File Transmission Protocols (SFTP) for the transfer of data and/or files via Interfaces and portals.						
169	The Contractor shall provide the capability to transmit and receive multiple files during each scheduled batch.						
170	The Contractor shall provide the capability to transmit and receive multiple full and incremental files in a day.						
171	The Contractor shall utilize file naming conventions that prevent the over-write of data and/or files. For example, include the date and time of transmission.						
172	The Contractor shall provide file handling and processing methods that provide for a complete log of the data and/or file transfer process.						
173	The Contractor shall validate records and identify errors in the received data and/or files, including but not limited to:						
	· mandatory fields;						
	· data formats;						
	· data validity (for example, user account number not found in the BOS);						
	· duplicate records;						
	· unexpected response;						
174	· checksum/record count verification and						
	· incorrect status.						
174	The Contractor shall provide the capability to correct and re-transmit data and/or files (the process shall be automated to the extent possible).

175	The Contractor shall provide the capability to process re-transmitted data and/or files.						
176	The Contractor shall provide the capability to transmit the error details to the transmitting entity, as well as record it in the PMMS.						
177	The Contractor shall provide the ability to identify missing records/transactions/images and request the transmission of such missing records/transactions/images.						
178	The Contractor shall reconcile the transmitted records to the records received and accepted by the receiving entity.						
179	The Contractor shall provide the means to identify Interface issues by validating the file transmission process, including but not limited to:						
	· creation and transmission of data and/or a file at the scheduled time, even if there are no records to transmit;						
	· determination if the data and/or a file was transmitted or received at the scheduled time;						
	· creation of Alerts to the PMMS if data and/or a file was not created or received at the scheduled time;						
	· creation of Alerts to the PMMS if received data and/or a file was not acknowledged;						
	· creation of Alerts to the PMMS if records in the received data and/or file had errors when processed;						
180	The Contractor shall provide data and/or file transmission and reconciliation reports as described in these Requirements.						
	All responses received from third-party Interfaces and all actions required of the third-party to a file transmitted by the BOS shall be associated with the original transaction, including but not limited to:						
	· Violation data and images;						
	· images of check copies for a payment;						
	· Notifications to customers transmitted by the Collection Agency;						
	· comments and dispositions transmitted in the response file and emails received from the customer related to a specific transaction/trip or Violation.						
181	The Contractor shall provide the capability for Authorized Users to obtain the history of updates to a transaction/trip.						
182	The Contractor shall provide a dashboard that tracks the progress of data and/or file transmissions through each stage and their acknowledgements by the receiving entity, including but not limited to:						
	· transactions/trips eligible for transmission;						
	· file and/or data created with file name;						
	· file and/or data transmitted;						
	· file and/or data received;						
	· file and/or data accepted;						
	· file and /or data rejected;						
	· file and/or data re-transmitted;						
	· number of records in the file and/or data set;						
· number of unique user accounts and number of failed records.							
183	The Contractor shall provide the capability for Authorized Users to configure the relevant parameters related to file and/or data transmission for each Interface. For example, scheduling the time-of-day that a specific file is transmitted.						
184	The Contractor shall monitor the disk capacity where files and/or data are deposited and send an Alert to the PMMS and third-party entities (if applicable) if folders are near capacity (Configurable) or full.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					
		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offerror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
186	The Contractor shall provide the capability to automatically archive successfully processed data and/or files after a number of days (Configurable).						
187	The Contractor shall provide the data to reconcile file transmissions.						
188	The Contractor shall conform to any existing ICDs, including any updates required at the time of design and develop all new ICDs that are required to be developed. It is the Contractor's responsibility to ensure all ICDs (including existing) are accurate, updated and meet the Requirements of the BOS before developing the Interfaces. Standards-based Interfaces shall be used when available and all Interfaces shall be Approved by the Authority.						
189	Where the Third-party Service Provider currently supports or is willing to develop a more modern and current interface, the Contractor shall be responsible for developing the ICD or using the ICD to develop the new interface as directed by the Authority.						
190	The Contractor shall implement required updates to Interfaces at the direction of the Agencies at no additional cost to the Agencies.						
1.1.3.2. Interface to the ETTM System							
	This interface connects the BOS with the ETTM System for transmitting transactions/trips, images, toll rate information, transponder files, license plate files and other data to the BOS for processing and for transmitting various data back to the ETTM System.						
191	It is anticipated that the BOS shall receive, process and store an average of four (4) transactions per trip, including both Toll Collection Enforcement Site (TCES) and Toll Transponder Read Site (TTRS) transactions.						
192	If the BOS implementation requires an update to the ETTM System ICDs, the Contractor shall develop the new ICD and coordinate all design, development and testing with the ETTM System Contractor.						
193	The ETTM System ICDs may include many data fields, including but not limited to:						
	· trip transaction ID;						
	· trip ID;						
	· timestamp for when the trip started;						
	· amount of time that was being allotted for travel from the pricing sign to the Toll Zone;						
	· Occupancy Setting applied for the overall trip;						
	· Clean Air Vehicle identifier for overall trip;						
	· motorcycle identifier for overall trip;						
	· image-based or a tag-based trip identifier;						
	· total toll rate assigned for the trip;						
	· total toll rate that was in effect at the time of the trip;						
	· primary transponder ID for the overall trip;						
	· license plate number for the overall trip;						
	· Jurisdiction of the license plate for the overall trip;						
	· license Plate Type for the overall trip;						
	· segment identifier;						
	· lane identifier;						
	· lane mode identifier;						
	· Straddle – This is a yes/no type identifier for whether the vehicle was straddling the lane line when it went through the Toll Zone;						
	· timestamp for when the transaction occurred;						
· transponder items below shall be enumerated for each transponder read at the Toll Zone, with all of the subsections being listed for each transponder;							
· transponder ID;							
· timestamp when the transponder was read;							
· transponder status;							
· transponder type;							
· transponder Occupancy Setting;

1.1.3.3. Interface to the Interoperable Agencies							
	This Interface connects the BOS with the Interoperable Agencies for data exchange.						
198	The Contractor shall provide the Interface to WRTO/CTOC Interoperable Agencies and Regional and National Hubs, for the functionality described within these Requirements and in accordance with latest and future WRTO/CTOC ICDs. The Contractor shall support Interoperable agencies that will be on different versions of the WRTO/CTOC ICD throughout the Term of the Agreement.						
199	The Contractor shall provide the capability to obtain and acknowledge 100 percent of all transactions/trips and images from Interoperable Agencies.						
200	The Contractor shall provide the capability to transmit 100 percent of all Interoperable Agency customer transactions/trips and images to their respective Interoperable Agencies.						
201	The Contractor shall provide the capability (Configurable) to transmit the Authority's plaza update (including addition of new plaza facilities) information to Interoperable Agencies.						
202	The Contractor shall provide the capability (Configurable) to receive Interoperable Agencies' plaza update (including addition of new plaza facilities) information.						
203	The Contractor shall provide the capability (Configurable) to transmit the Authority's Transponder Status Lists (TSLs) to Interoperable Agencies.						
204	The Contractor shall provide the capability (Configurable) to receive Interoperable Agency TSLs from Interoperable Agencies.						
205	The Contractor shall provide the capability (Configurable) to transmit BOS customer license plate numbers to Interoperable Agencies.						
206	The Contractor shall provide the capability (Configurable) to receive license plate numbers from Interoperable Agencies.						
1.1.3.4. Interface to California and Arizona DMV							
	This Interface connects to the California, Arizona, Oregon and Nevada DMVs to obtain information (such as name, address, vehicle make/model, CAV designation, VIN) about vehicles which fail to properly pay the toll amount.						
207	The Contractor shall provide and administer a direct DMV Interfaces for the purpose of obtaining for vehicles travelling in the Express Lanes Facility and the placement and release of vehicle Registration Holds, including: <ul style="list-style-type: none"> California DMV; California Temporary License Plate DMV database; Arizona DMV (including Temporary License Plate DMV database if applicable); Oregon DMV (including Temporary License Plate DMV database if applicable) and Nevada DMV (including Temporary License Plate DMV database if applicable). 						
208	Whenever available, the Contractor shall use the on-line DMV Interface allowing for real time look ups and updates. If multiple DMV Interfaces are available to provide the same information, during the Implementation Phase the Authority shall direct the Contractor as to which Interface to implement.						
209	The Contractor shall obtain approval from all DMVs to be a processor for the Authority.						
210	The Contractor shall maintain all security requirements required by all DMVs.						
1.1.3.5. Interface to Rental Car Service Providers							
	This Interface connects to Rental Car Service Providers to exchange transactions/trips, vehicle, renter information, rental agreements and payment information with the BOS, for rental cars that incur tolls on the Authority's Toll Facilities.						

Volume II BOS Technology and Functionality

211	The Contractor shall provide the capability to transmit and receive vehicle information from all rental car companies using a Rental Car Service Providers.						
212	The Contractor shall provide the Interfaces to Rental Car Service Providers for the functionality described within these Requirements and in accordance with ICDs to be developed during Project design.						
213	The Contractor shall provide the capability to schedule and automatically send periodic (Configurable) detailed rental car account toll transaction/trip files to Rental Car Service Providers.						
1.1.3.6. Interface to Tranporation Corridor Agencies (TCA) for the Disposition of Rental Car Trips							
	The Transportation Corridor Agencies (TCA) intends to host rental car plates and transponders and collect tolls on behalf of other CTOC agencies.						
214	The Contractor shall provide the capability to transmit and receive vehicle information from TCA in a separate TSL and License Plate Status File IOP file.						
215	The Contractor shall provide the capability to provide TCA with toll amounts due for the plates and transponders in the rental file and process payments from TCA.						
1.1.3.7. Interface to the Authority's BOS Bank							
	This Interface is to the Authority -provided bank to retrieve all required banking information.						
216	The Contractor shall provide an Interface to the Authority Bank to retrieve, process and store all information required to support the all-electronic BOS bank reconciliation process.						
217	The Interface shall support the use of Positive Pay to deter check fraud.						
1.1.3.8. Interface to California Franchise Tax Board (FTB) Tax Intercept Program							
	This Interface is to the California FTB Tax Intercept Program to provide and receive all required Tax Intercept information.						
218	The Contractor shall provide an interface to the California FTB to retrieve, process and store all information required to support the Tax Intercept process.						
1.1.3.9. Interfaces to Authority's Financial Accounting Systems							
219	The Contractor shall provide an interface to the Authority's financial accounting system for the purpose of issuing accounts payable checks.						
220	The Contractor shall provide an interface to the Authority's financial accounting system for the purpose of recording financial activity to the general ledger.						
1.1.3.10. Interface/Connectivity to Contractor-Provided Services							
	The Contractor shall provide connectivity to service providers for which the Contractor is responsible. The Requirements are not prescriptive as to the Interface type or method.						
221	The Contractor shall provide connectivity to Contractor selected Third-party Service Providers as required to meet the Requirements, including but not limited to:						
	· Collection Agency 1 (Direct Access to BOS is Phase II Functionality);						
	· Collection Agency 2 (Direct Access to BOS is Phase II Functionality);						
	· Customer Satisfaction Survey Provider Subcontractor;						
	· Lockbox Service Provider (optional);						
	· Merchant Service Provider 1;						
	· Merchant Service Provider 2;						
· 3rd Party ROV Lookup for all 50 states (excluding direct connect DMVs), District of Columbia, U.S. Government and							
· Print/Mail House Service Provider (optional).							
1.1.4. Performance Management and Monitoring System							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The Performance Management and Monitoring System (PMMS) supports BOS Maintenance Requirements for all Hardware, Software and other BOS components by monitoring BOS processes, Equipment, jobs and Interfaces in real-time to identify degradations in performance or availability before they impact end users. The PMMS generates Alerts and creates actionable trouble tickets that can be tracked to resolution.						
222	The Contractor shall provide a PMMS that supports BOS Maintenance Requirements for all Hardware, Software and other BOS components, in accordance with these Requirements.						
223	The Contractor shall provide a PMMS that monitors, Alerts and generates trouble tickets in real-time for all BOS processes, Equipment, jobs and Interfaces, including but not limited to:						
	· communications issues;						
	· electrical power issues;						
	· temperature issues;						
	· Hardware issues;						
	· Software issues or failures;						
	· database issues;						
	· anomalies to the system design;						
	· issues with customer portals (Self-Service Website and Self-Service Mobile Application (Phase II and optional));						
	· file systems and file system issues;						
	· issues with jobs, processes or data flows;						
	· BOS health – overall and by component;						
	· BOS and application performance;						
	· BOS utilization – disk space, disk IOs, CPU, memory, throughput (Configurable thresholds);						
· security events;							
· Logs;							
· access controls;							
· CSC CCTV Surveillance System and							
· CSC physical security systems.							
224	The PMMS shall provide comprehensive recording capabilities, including but not limited to:						
	· log aggregation (from disparate systems or Modules);						
	· event correlation (cause and effect association);						
	· log shipping and						
· log management functions.							
225	The PMMS shall have the ability to receive success or failure information regarding data management activities, including but not limited to:						
	· backup;						
	· DR data transfer and synchronization status;						
	· data archival and						
· data restores.							
226	The Contractor shall provide a PMMS that monitors, alerts and tracks, in real-time, unusual or potentially fraudulent activity triggered by users and systems, including but not limited to:						
	· multiple one-time replenishments coupled with closing of customer accounts;						
	· repeated opening and closing of customer accounts;						
	· refunds over a dollar amount (Configurable) and						
· multiple deposits and refunds on the same customer account.							
227	The PMMS shall monitor that all BOS components have current and up-to-date virus, firewall and spam protection and other security Software that prevent single point of vulnerability from external threats, virus attacks, ransomware, spam protection and unauthorized access.						
	The Contractor shall provide a PMMS that monitors, alerts and tracks, in real-time, unusual or potentially fraudulent activity, including but not limited to:

233	· response and repair times for each of the priorities;						
	· Equipment use history;						
	· Equipment repair history;						
	· total System availability;						
	· sub-System availability for components of the BOS, IVR System, Self-Service Website and Self-Service Mobile Application (Phase II and optional);						
	· Equipment versions, Software versions, firmware versions and serial numbers for all Equipment installed under these Requirements;						
	· incident logs and lost revenue estimates;						
	· performance reports detailing compliance to the Performance Measures;						
	· a detailed list of parts replaced as a result of Maintenance actions;						
	· status of removed parts and Equipment with an aging status for parts under repair or replacement (serial numbers, being repaired in Maintenance shop, purchase replacement part);						
· performance reports;							
· an exceptions report summarizing all unusual or significant occurrences during the period and							
· trend analysis for repetitive failure.							
234	The PMMS shall support the management of preventive/predictive Maintenance schedules.						
235	The PMMS shall provide the capability to automatically generate work orders for preventive/predictive Maintenance tasks.						
236	The Contractor shall provide a PMMS that supports asset management, including but not limited to:						
	· tracking all System Hardware and Software items;						
	· tracking all System Hardware and Software locations;						
	· tracking all System Hardware and Software versions;						
	· tracking all Maintenance and service agreements;						
	· maintaining a list of vendors from which products were procured;						
	· associating the original purchase order number to the individual item;						
	· associating the original vendor to the individual item;						
· associating all warranty information to the individual item and							
· providing an Alert prior to warranty, license, and certification expiration.							
1.2. BOS Maintenance and Support Requirements							
	The Requirements described in this section detail the Contractor's responsibility for providing Maintenance and Software Support Services for the BOS, and associated communications and support to operations, including but not limited to:						
	· Hardware Maintenance (servers, storage, network switches, firewalls, routers, etc.) if required;						
	· network administration;						
	· system administration;						
	· administration of CSC Facility physical security systems;						
	· administration of CSC Surveillance CCTV systems at CSC Facility;						
	· database administration;						
	· Maintenance and Software Support Services;						
	· monitoring services;						
	· on-site desktop and application support services within the I-405 CSC and WIC;						
	· on-site desktop and I-405 BOS application support services at the OCTA Store WIC (OCTA provided Equipment);						
	· support of work at home CSRs and operations during Business Continuity;						
	· application support for the Authority's staff and						
	· BOS security.						
	In delivering the Maintenance and Software Support Services, the Contractor is expected to provide the following services, including but not limited to:						
	· well documented Maintenance schedules and processes;						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
	<ul style="list-style-type: none"> change and configuration management; on-site support of the BOS; complete around-the-clock Maintenance of the BOS; significant participation with the Authority's staff, meetings and processes and ample spare parts inventory and support agreements. 						
237	The Contractor shall be responsible for performing all Maintenance activities and fully supporting and maintaining the BOS from Go-Live throughout the Operations and Maintenance Phase.						
238	The Contractor shall provide Maintenance, including but not limited to all Equipment, Hardware, Software, cloud-based systems, and systems provided under this Agreement, including Maintenance associated with the compliance with the terms of the Software warranty.						
239	The Contractor shall provide Maintenance and Software Support Services, including but not limited to: monitoring; preventive; predictive; corrective, and emergency Maintenance and Software Support Services, as well as any required and planned Upgrades and Enhancements to be performed on any and all BOS elements.						
240	To ensure BOS performance is optimized, all system administrative functions, if not otherwise automated, shall be performed at regular, scheduled intervals as part of the preventive Maintenance and Software Support Services in accordance with the Maintenance Plan.						
241	The Contractor shall administer, maintain (as required in conjunction with Authority paid Maintenance agreement) and be the point of contact for all Authority provided and paid for Equipment, systems and Maintenance agreements, including uninterruptable power Equipment, power generators, CCTV Surveillance and physical security systems at the I-405 CSC and WIC Facility.						
242	The Contractor shall provide on-site Desktop Environment and BOS application technical support to all Contractor personnel and Authority Authorized Users at all locations from 7 a.m. to 7 p.m. Monday – Friday, Pacific Time and be on-call and available to come on-site 24x7x365.						
243	The Contractor shall provide support for work-at-home CSRs and operations and in accordance with the Approved Disaster Recovery and Business Continuity Plans. For example, during an event similar to the COVID-19 outbreak.						
244	<p>Continuous monitoring of BOS operations shall be performed to verify its functional, processes are being executed as scheduled and that the BOS is operating per Performance Measures. Continuous monitoring shall include but not be limited to:</p> <ul style="list-style-type: none"> verifying system alarms and Alerts; verifying processes/programs/job have successfully completed as scheduled; evaluating sample transactions data and aggregate data trends for exceptions; confirming trip/transaction and image transmission to and from the ETTM System; performing routine diagnostics; reviewing comparative reports to identify potential system degradation; confirming successful data transfer, such as the TSL; confirming data transmission to and from external Interfaces; correcting identified performance issues; confirming primary and DR systems are synchronized; monitoring backups; database administration and monitoring; general System health; evaluating storage Requirements and reviewing error logs and Alerts. 						
245	The Contractor shall validate that all BOS components obtain virus protection and security updates as soon as they are available.						
246	The Contractor shall provide advance Notice and obtain Approval when purging jobs that permanently delete data from the system are to be executed, including but not limited to: data elements impacted, date range applied and data size impact.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
247	The Contractor shall re-establish or re-install system files, programs and parameters, as required, following a failure or damage to the system and return the BOS to a fully- operational condition.						
248	The Contractor shall maintain and test up-to-date Software backups (all system Software and data) in accordance with the Maintenance Plan that is secure and protects the integrity of the data.						
249	The Contractor shall provide backups performed on physically separate Hardware and Software from the data being backed up.						
250	The Contractor shall maintain accurate Equipment inventory status and update status.						
1.2.1. BOS Hardware Maintenance							
251	During the Operations and Maintenance Phase, the Contractor shall plan to regularly Upgrade all BOS environments to maintain a high-level of performance, reliability and provide for the implementation of the manufacturer's current system and security firmware/Software. These Upgrades shall be accounted for in the Contractor's Price Proposal and will not be separately paid for by the Authority over the Term of the Agreement.						
252	During the Operations and Maintenance Phase, the Contractor shall Upgrade the Desktop Environments and office Equipment no less than every three (3) years to maintain a high-level of performance and reliability. These Upgrades shall be accounted for in the Contractor's Price Proposal and will not be separately paid for by the Authority over the Term of the Agreement.						
253	BOS Hardware Maintenance shall include but are not limited to:						
	· BOS servers, storage devices, backup devices and network Equipment at the primary BOS site, including all production and non-production BOS environments as required;						
	· BOS servers, storage devices, backup devices and network Equipment at the BOS DR site;						
	· all Contractor-provided desktop Hardware and peripherals;						
	· all Hardware and peripherals that interact with the BOS to the extent that the Contractor-installed Software or applications are negatively affecting the operation of the peripheral;						
· all CSC office Equipment. For example, copiers and printers and							
· IVR, ACD and telephony systems.							
1.2.2. BOS Network System Maintenance							
254	Any Maintenance and/or replacement costs shall be included in the Contractor's Price Proposal and will not be separately paid for by the Authority over the Term of the Agreement unless explicitly noted.						
255	During the Operations and Maintenance Phase, the Contractor shall plan to regularly Upgrade the network Hardware to maintain a high-level of BOS reliability and provide for the implementation of the manufacturer's current system and security firmware/Software. These Upgrades shall be included in the Contractor's Price Proposal and will not be separately paid for by the Authority over the Term of the Agreement.						
256	The Contractor shall maintain and monitor the BOS network, including connection of the primary and DR BOS locations.						
257	The Contractor shall proactively monitor the WAN network, its connections and its components to respond to any fault or problem.						
258	The Contractor shall monitor all communications with interfacing systems and Third-Party Service Providers.						
259	The Contractor shall monitor all network Alerts and alarms, as well as detect intrusion attempts and prevent intrusions.						
260	The Contractor shall perform the necessary support services required of the Interoperable Agencies in order to keep day to day operations and transfers current, such as operating system Upgrades.						
261	The Contractor shall Upgrade and Update the network security and provide the required Software and monitoring tools to ensure the BOS is always in compliance with the Security Standards.						
1.2.3. BOS Administration and Software Support Services							

Volume II BOS Technology and Functionality

	<ul style="list-style-type: none"> analysis of data as requested by the Authority and modifications to the Self-Service Website and Self-Service Mobile Application (Phase II and optional) to keep up-to-date with the Authority's policies and general information. 						
266	<p>Software support services shall include monitoring and corrective action to ensure BOS performance is in accordance with Requirements, to include database management and operation. This shall include but is not limited to:</p> <ul style="list-style-type: none"> investigation and analysis of errors and exceptions and taking corrective action, including correcting the problem and reprocessing the data; monitoring notifications and initiating corrective actions on application programs to meet Requirements; updates to the BOS to support Upgrades to Hardware or third-party Software and updates to the BOS to support all changes to Business Rules and BOS Configurable parameters and deploy changes in production. 						
267	The Contractor shall monitor, Upgrade and Update the BOS is always in compliance with the Security Standards.						
268	The Contractor shall ensure Maintenance does not conflict with or cause interruption in service or cause substandard service to the Authority or its customers.						
1.2.4. Payment Card Industry (PCI) Security Standards and Compliance							
	The PCI Security Standards Council is responsible for the development, management, education and awareness of the PCI Security Standards, including the PCI DSS, Payment Application Data Security Standard (PA-DSS). The PCI Security Standards provide guidance for merchants, vendors and security consulting companies to mitigate data breaches and prevent payment cardholder data fraud.						
	The Contractor is responsible for ensuring that PCI compliance is fully achieved prior to the Go-Live date. The Contractor is further required to ensure that the BOS continues to be PCI compliant as outlined in the Maintenance and Operations Phase Requirements.						
269	The Contractor and the BOS shall be in compliance with the appropriate PCI DSS merchant level as defined by the PCI Security Standards Council in place at the time of BOS Go-Live.						
270	The Contractor shall ensure that the BOS is in compliance with any individual additions to the PCI Security Standards since the last major version or the current version published by the PCI Security Standards Council and all future versions.						
271	The Contractor shall utilize the PCI Security Standards Council's Prioritized Approach method to indicate how each PCI Requirement is being addressed prior to Go-Live. The Prioritized Approach shall be submitted to the Authority along with substantiating evidence for review and Approval.						
272	The Contractor shall ensure the BOS is in compliance with PCI-DSS for any Commercial Off-the-Shelf (COTS) Software that will be used in payment applications.						
273	<p>The Contractor shall provide, prior to the BOS Go-Live:</p> <ul style="list-style-type: none"> PCI Attestation of compliance by either a qualified ISA or an independent QSA, or as required by PCI DSS; vulnerability scan by an Approved scanning vendor and internal and external penetration testing results. 						
274	No more than three (3) months after Go-Live the Contractor shall provide a complete Report of Compliance (ROC), including details about the BOS environment and the assessment methodology, as well as documentation regarding the BOS's compliance status for each PCI DSS Requirement. The ROC shall be provided which outlines a clear plan and schedule (in writing) to achieve full PCI compliance no more than six (6) months after Go-Live.						
275	The Contractor shall be responsible for providing a ROC prior to BOS Acceptance.						
1.2.5. Interoperability Requirements							
	The Authority currently has Interoperability agreements with CTOC Agencies and, in the future, it is anticipated that regional and national Interoperable agreements will be established. These Requirements apply to all existing and future Interoperability.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					
		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
	Interoperability includes exchanging and processing transactions/trips, customer, transponder, payment, corrections, vehicle data, invoices and reconciliations between the BOS and the Interoperable Agencies. The BOS shall process transactions/trips from Interoperable Agencies for the Authority's customers who have used Interoperable Agency roads, as well as transactions/trips for Interoperable Agencies' customers on the Authority's facility. The interface supports the transmission and receipt of all files identified in the respective ICDs.						
	At the Authority's direction, the Contractor shall support direct connection and/or connection through a CTOC Agency intermediary to nationally (non-CTOC) Interoperable Agencies.						
	The BOS and Interoperable Agencies perform validation checks to confirm the transactions/trips are in compliance with the Interoperable Agency ICD and reject any transactions/trips that are not. Validated transactions/trips shall be Posted to a user account in accordance with the Interoperable Agency agreements.						
	The BOS must be prepared to work with other ICDs to send and receive transactions/trips and transaction data and other data files.						
276	The Contractor shall support all Interoperable Agency activities as required by the Authority, including but not limited to: <ul style="list-style-type: none"> · attend technical meetings; · review and provide comments on documents; · support Interoperable Agency testing as requested; · support modifications to Interoperable specifications and · be compliant with the latest published interoperable specifications. 						
277	The Contractor shall support the addition of Regional and National Interoperability either directly or through a CTOC designated intermediary.						
1.2.6. Preventive and Corrective Maintenance Requirements							
1.2.6.1. Preventive Maintenance							
278	The Contractor shall provide preventive Maintenance on the BOS Hardware, servers, communications network and Software as required.						
279	No less than quarterly the Contractor shall conduct a full network vulnerability scan and web application penetration testing performed by an independent Qualified Security Assessor (QSA).						
280	Separate from the quarterly vulnerability scan, the Contractor shall conduct a full network vulnerability scan and web application penetration testing performed by an independent Qualified Security Assessor (QSA) in conjunction with any network or security changes.						
281	The Contractor shall in accordance with the Approved preventive Maintenance schedule, periodically inspect all Equipment, both major components and support components (such as fans, cabinets, environmental control units, filters, storage units) that constitute the BOS and shall make repairs, cleaning, adjustments and replacements of components as necessary to maintain the Equipment in normal operating condition.						
282	Servers and storage devices shall be periodically checked to verify that storage space is not reaching maximum thresholds; disks are not fragmented or damaged; Software is of the latest version per the configuration management database, and data is being processed and transferred in an appropriate manner. These checks should be performed automatically whenever possible, but must be checked manually if the task cannot be automated.						
283	The BOS shall be monitored to ensure performance is optimal and meets the Performance Measures, including but not limited to: <ul style="list-style-type: none"> · report generation times; · BOS access times; · IVR statistics; · Self-Service Website access times and · Self-Service Mobile Application (Phase II and optional) access times. 						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Officer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
284	All Equipment and systems shall be included as part of preventive Maintenance, in accordance with the original Equipment manufacturer's guidelines. Any variations or exceptions shall be noted by the Contractor and Approved in advance by the Authority.						
285	Scheduled Maintenance shall be communicated to the Authority a minimum of seven (7) Calendar Days in advance for approval by the Authority and shall be scheduled for times when the CSC is not operating.						
286	Preventive Maintenance shall be scheduled to be performed by BOS administration staff between 12 AM and 3 AM PST weekdays or in coordination with other roadway closures and Approved by the Authority. Any preventive Maintenance tasks that need to be performed during normal BOS operating hours that is not part of the Approved Preventive Maintenance Schedule shall be Approved in advance by the Authority.						
287	The diagnostic aids, tools and Equipment required to perform preventive Maintenance Equipment analysis shall be provided by the Contractor to the Authority, as necessary to meet the Authority's Maintenance responsibilities.						
288	When preventive Maintenance requires a BOS Service to be made unavailable to the customer, a Notice shall be Posted 24 hours in advance of the outage on the Self-Service Website, Self-Service Mobile Application (Phase II and optional) and through the IVR so customers are aware of the impending outage.						
1.2.6.2. Corrective Maintenance							
289	All Work performed by the Contractor to correct incidents, problems and failures to meet the Requirements shall be considered corrective Maintenance. Such problems include but are not limited to:						
	· failure of BOS functions;						
	· failure of processes and programs;						
	· report failures and issues;						
	· application failures;						
	· data and revenue reconciliation failures;						
	· failures in transmitting and receiving files from the various third-party Interfaces;						
	· errors and exceptions when processing data received from the ETTM System, Interoperable Agencies and third party entities;						
	· network failures and issues;						
	· BOS or component performance issues;						
· data loss or inaccessibility and							
· non-conforming availability levels.							
290	When a BOS Service becomes unavailable to the customer due to an unplanned outage or emergency a Notice shall be Posted on the Self-Service Website, Self-Service Mobile Application (Phase II and optional) and IVR as soon as possible so customers are aware of the outage.						
1.2.6.3. 24X7 Maintenance Coverage							
291	The Contractor shall provide continuous (24x7) coverage for all monitoring, system administration services and Maintenance-related activities sufficient to meet the Performance Measures.						
1.2.6.4. Recording of Maintenance Activities							
292	The Contractor shall be responsible for logging all reported Maintenance activities. The Contractor also shall be responsible for documenting in detail all information and issues related to a failure condition, providing a corrective action report within one (1) week including all actions taken to complete the correction and a root cause analysis.						
1.2.6.5. Maintenance Priorities, Response and Repair Times							
	Response and repair time is defined as the time from failure to repair/correction with the BOS being returned to normal operations. The Contractor shall respond to calls and repair times noted in the Performance Measures according to the following priority levels:						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
293	<ul style="list-style-type: none"> Priority 1: Any malfunction or fault that impacts the BOS and CSC Operations ability to serve customers (for example, Self-Service Website functionality unavailable or not operating properly; BOS functionality unavailable or nor operating properly for CSRs servicing customers; phone system not taking calls or not taking all calls; IVR unavailable or not operating properly; notifications or customer communication not being sent immediately when eligible through all channels), results in the loss of revenue, compromises security, causes a hazard to personnel, causes the loss or potential loss of any BOS data, causes loss of redundancy within the BOS components. Priority 2: Any malfunction or fault that degrades performance but not the BOS or CSC Operation's ability to serve customers. It includes examples such as inaccurate reporting, inability to reconcile revenue, loss of BOS functionality that does not impact customer access to data or service, and/or loss of functionality that impacts the Authority's operational efficiency. Priority 3: Any malfunction or fault that has the potential to result in a degrading of the BOS or CSC Operations' performance but has not yet and is not anticipated to immediately impact performance. 						
294	Any downtime that is a part of scheduled and approved preventive Maintenance, including scheduled new Software releases not associated with a Maintenance event shall not affect the Performance Measures calculation. However, in this event the Contractor does not make the BOS available and/or fully restore CSC Operations within the approved schedule window, the resulting downtime shall be included in the Performance Measure calculations.						
295	Response and repair times for every BOS Maintenance event shall be recorded and reported by the Contractor, and such reports shall be provided to the Authority.						
296	No incident shall be closed by a technician before the Equipment or Software service has logged a recovery. For example, if a service is degraded because of a loss of a redundant component, the incident cannot be closed until the redundant component has been replaced and service has returned to normal.						
1.2.7. Certification of PCI DSS Compliance							
	The Contractor is responsible for providing certification of PCI DSS Compliance.						
297	The Contractor shall complete a PCI DSS assessment by either a qualified Internal Security Assessor (ISA) or an independent Qualified Security Assessor (QSA), or as required by PCI DSS, at the interval required for PCI DSS compliance, including a complete ROC. The Contractor shall be responsible for providing the ISA or QSA at no additional cost to the Authority. The Contractor shall fully cooperate with the Authority at no cost to the Authority in responding to the assessor's requests and implement remedies if any issues are identified.						
298	The Contractor shall complete a full penetration vulnerability and exploitation testing, the results of which shall be provided to the Authority, at the interval required for PCI DSS compliance throughout the Implementation and Operations and Maintenance Phases.						
299	The Contractor shall be responsible for providing a ROC on an annual basis, no later than the original date thereafter.						
300	The Contractor shall provide all documentation required under PCI, including but not limited to network diagrams and detailed policies and procedures, available to the Authority.						
301	To evaluate the security risk to the BOS and identify potential vulnerabilities, the Contractor shall perform penetration and vulnerability tests in accordance with PCI requirements.						
302	The Contractor shall document and immediately report to the Authority any PCI DSS issues/vulnerabilities found during monthly penetration and vulnerability tests or upon new Software release.						
303	The Contractor is responsible for correcting all deficiencies at the Contractor's cost and ensuring the BOS is PCI DSS compliant and ensuring security risks are handled appropriately.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
304	The Contractor shall furnish copies of all PCI assessment, testing, scanning and compliance documentation including the ROC to the Authority, upon completion of quarterly and annual assessment activities throughout the Implementation and Operations and Maintenance Phases.						
305	The Contractor shall complete a SOC 2 Type 2 assessment by either a qualified Internal Security Assessor (ISA) or an independent Qualified Security Assessor (QSA), or as required by PCI DSS, at the interval required for PCI DSS compliance, including a complete ROC. The Contractor shall be responsible for providing the ISA or QSA at no additional cost to the Authority. The Contractor shall fully cooperate with the Authority at no cost to the Authority in responding to the assessor's requests and implement remedies if any issues are identified.						
1.2.8. Emergency Response Management							
	The Contractor shall be responsible for emergency response management throughout the Operations and Maintenance Phase.						
306	The Contractor shall immediately respond to any emergency situation that has already impacted the BOS or could potentially damage the BOS. The Contractor shall be prepared to put forth all necessary resources to divert or correct an emergency condition.						
307	Such emergency conditions shall be handled in accordance with policies and procedures developed by the Contractor and Approved by the Authority in the Disaster Recovery and Business Continuity Plans. The following are a few examples of emergency conditions: <ul style="list-style-type: none"> · weather related; · public safety related; · health related. For example, in response to a COVID-19 or similar outbreak; · conditions that invoke the Disaster Recovery and/or Business Continuity Plans; · BOS outages; · third-party power outage or communication failure and · security breaches. 						
1.2.9. Disaster Recovery and Business Continuity							
	The Contractor shall be responsible for Disaster Recovery Procedures and testing throughout the Implementation and Operations and Maintenance Phases.						
308	The Contractor shall perform Disaster Recovery procedures in accordance with the Disaster Recovery Plan (DRP) in the event of a disaster and return the BOS to a fully operational condition.						
309	The Contractor shall test the Disaster Recovery and Business Continuity procedures on an annual basis to validate that they are functioning per the design. The Authority shall witness the test and the Contractor shall provide a report outlining the test, test results and any anomalies encountered for the Authority's review and approval.						
310	The BOS shall meet the Recovery Point Objective (RPO), Recovery Time Objective (RTO) and level of service (LOS) levels provided in the Performance Measures.						
311	The Contractor shall address any issues encountered from the annual Disaster Recovery and Business Continuity testing.						
312	The Contractor shall support the ETTM System Contractor's Disaster Recovery and Business Continuity annual testing.						
1.2.10. Incident and Revenue Loss Reporting							
313	The Contractor shall work with the Authority to develop a communications protocol for incident and revenue loss reporting (e.g., communications procedures based on incident and priority level).						
314	The Contractor shall immediately notify the Authority of any incident or event where the loss of revenue or data or security breach has occurred or potentially has occurred or could occur. The Contractor shall take immediate action to rectify the condition and return the BOS to normal operations.						

Volume II BOS Technology and Functionality

		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
315	In the event of a loss or potential loss of revenue or data or security breach, an incident report shall be provided to the Authority within five (5) Business Days of the incident. The report shall identify the issue and provide a detailed account of the incident; its cause; duration; resolution or planned resolution, and a quantification of actual or potential lost revenue or data or security breach. Regular updates shall be provided until the issue has been fully resolved and closed. The incident and its impacts shall also be further detailed in the subsequent monthly report. The Contractor shall be held responsible for all lost revenue and data and customer impacts, including remediation, in accordance with the terms of the Agreement.						
1.3. Future Functionality							
	The BOS shall be designed to anticipate certain future functionality and Interfaces. The introduction of future functionality, of the type noted in this section, shall be anticipated and not require changes to the Software or System architecture or significant changes to the database structure. However, the accommodations made by the Contractor in anticipation of this potential future functionality shall not negatively impact the development of the BOS or increase the Offeror's Price Proposal.						
316	The introduction of future functionality shall not require changes to the Software or BOS architecture, or significant changes to the database structure including the capability to easily add fields and report on them without affecting the database schema.						
317	The accommodations made by the Contractor in anticipation of potential future functionality shall not negatively impact the development of the BOS or increase the Offeror's Price Proposal.						
318	The Contractor shall provide the capability to Interface with entities providing for national Interoperability in accordance with ICDs to be designated by the Authority and/or developed during Project design. The Contractor shall accommodate new Interfaces (via either a national hub, regional hubs or larger peer-to-peer exchanges) without significant changes to the Software or database structure.						
319	The BOS design, data schema, financial accounting and reporting approach shall support the future, potential direct support of additional OCTA and non-OCTA Toll Facilities. All functionality provided shall be easily Configured to support these potential additional Toll Facilities. For example, Configurable settings shall be capable of different settings for different Toll Facilities. The design shall not add repetitive and/or additional clicks in order to navigate screens, search data or configure reports while the BOS is supporting only the I-405 Toll Facility. For example, the user shall not have to select "OCTA" or "I-405" until such time as an agency or Toll Facility differentiation is required.						
320	The Contractor shall provide the capability to Interface to new CTOC agencies and national Interoperability without significant changes to the Software or database structure.						
321	The Contractor shall include (but not enhance, configure or develop) all existing base BOS functionality to support the future integration with a Money Service Provider. Throughout the Operations and Maintenance Phase, the Authority may direct the Contractor to integrate with a Money Services Provider for the purpose of providing enhanced access and services for cash paying customers including, obtaining transponders and making payment towards Violation Notices and account balances.						
322	The Contractor shall include (but not enhance, configure or develop) all existing base BOS functionality to support the future integration with an Occupancy Detection System (ODS) that would be integrated into the ETTM System. Throughout the Operations and Maintenance Phase, the Authority may direct the Contractor to integrate with and accept images from an ODS for the purpose of reducing occupancy-based Violations.						
323	The Contractor shall include (but not enhance, configure or develop) all existing base BOS functionality to support the potential introduction of customer invoicing prior to the Violation process described herein. During the Operations and Maintenance Phase, the Authority may direct the Contractor to implement customer invoicing.

1.4.	Account Management						
	There are two account types Registered and Unregistered. Registered account is established when customer opens a pre-paid account with the Express Lanes. An Unregistered account is established by the BOS using the DMV, a ROV Lookup Provider or Affidavit of Non-liability for Violation transactions/trips. Establishment and management of accounts shall be performed per Business Rules.						
	Customers can establish new Registered accounts or convert an Unregistered account to a Registered account. To establish a Registered account, customers must provide customer contact information including name, address, telephone number and email address and vehicle information including license plate number, type and Jurisdiction and vehicle make, model and color. Most accounts will be prepaid and as such customers also must establish a replenishment method to be used to replenish prepaid tolls when the account reaches the Insufficient Balance Threshold. Credit Card replenishment is strongly encouraged, but customers can also select cash or check replenishment. The Authority may elect to allow certain accounts to be postpaid and receive a monthly invoice for tolls due.						
	The types of accounts are provided in the following tables:						
	Unregistered accounts are established by the BOS for Violation transactions/trips using the DMV or ROV Lookup Provider. Unregistered accounts may be converted to Registered accounts based on fulfilling all of the required Business Rules for establishing these accounts.						
1.4.1.	General Account Management						
	The Authority's customers have many options for account establishment and Maintenance and to obtain transponders, in the manner they prefer.						
324	The Contractor shall provide an efficient series of input fields to collect the information necessary to open a FasTrak account. The fields should require little "clicking" or advancement through multiple pages to reduce the time needed to input the account establishment data.						
325	Support comprehensive account management that allows for the setup and Maintenance of all account types in accordance with Business Rules.						
326	The Contractor shall provide the capability to establish accounts via methods, including but not limited to:						
	· Self-Service Website;						
	· Self-Service Mobile Application (Phase II and optional);						
	· mail;						
	· telephone;						
	· fax;						
	· walk-in;						
	· automatically using information provided by rental car companies and · automatically using information provided by the ROV Lookup.						
327	The Contractor shall provide the capability to maintain accounts via methods, including but not limited to:						
	· Self-Service Website;						
	· Self-Service Mobile Application (Phase II and optional);						
	· IVR;						
	· mail;						
	· telephone;						
	· email;						
	· chat;						
	· text;						
	· fax and · walk-in.

	· Self-Service Website;						
	· Self-Service Mobile Application (Phase II and optional);						
	· mail;						
	· telephone;						
	· IVR;						
	· fax, and · walk-in.						
329	The Contractor shall provide the capability for the Maintenance of account types designated as, including but not limited to:						
	· Private (prepaid) – an account established in an individual name;						
	· Business (prepaid) – an account established in a business name;						
	· Non-revenue (no payment) - an account established at the Authority's direction for vehicles entitled to toll-free travel;						
	· Invoice (postpaid) – an account established to allow the customer to receive an invoice periodically (Configurable) for toll usage. The customer may elect to provide Credit Card or ACH information to be charged automatically to pay the invoice;						
	· Rental car (prepaid) – for Rental Car Service Providers;						
	· Private Registered Video (prepaid) – an account for individuals who do not want or cannot use transponders;						
330	The Contractor shall provide the capability to apply Business Rules and account Requirements for each valid account type, including but not limited to:						
	· whether prepayment is required;						
	· payment options;						
	· whether a transponder is required;						
	· transponder sale price (by transponder type);						
	· replenishment amounts;						
	· contact method (mail, email, text, etc.);						
· Insufficient Balance Thresholds (by Credit Card or cash/check payments) and · account balance.							
331	The Contractor shall provide a Registered account creation process that logically leads an Authorized User through the necessary steps to create an account.						
332	The Contractor shall provide the capability to convert an Unregistered account to a Registered account while maintaining the same account number and all account history.						
333	The Contractor shall provide the capability to change from one account type and Account Plan to another while maintaining the same account number and all account history.						
334	The Contractor shall provide on-screen guidance during the account creation process regarding missing or improperly formatted information. The Authorized User shall not be able to move to the next step until the required information is provided in the appropriate format.						
335	The Contractor shall provide the capability, when opening a new account, to automatically identify other account(s) associated with that account name, address or vehicle.						
336	The Contractor shall provide the capability to require the account agreement and privacy policy be acknowledged and a record of that acknowledgment saved in the BOS prior to establishing a Registered account or when converting to a Registered account.

337	The Contractor shall provide the capability for the auto-creation of an Unregistered account (should one not already exist for that license plate number) based on an Image-Based Transaction/Trip being eligible for Violation processing and information provided by ROV Lookup.						
338	The Contractor shall provide the capability to merge and unmerge accounts. This process shall logically lead the Authorized User through all necessary steps to merge one account into another.						
339	The Contractor shall provide the capability for customers to have multiple mail addresses, email addresses, phone numbers and authorized contact information on the account.						
340	The Contractor shall provide the capability to identify the source of the information for both Unregistered and Registered accounts.						
341	The Contractor shall provide address adjustment logic to all addresses including those received from DMVs and ROV Look-up Service Providers, Skip Trace Service Providers and customers that includes but is not limited to:						
	· the capability, when adding contact information, to assist the Authorized User by requiring zip code be entered first, then providing a pre-populated city and state;						
	· verification, to ensure the address exists;						
	· standardization, to normalize US addresses, such as "Drive" becomes "Dr." and selection from all potential address results.						
342	The Contractor shall provide the capability to accept or reject the recommended changes provided during address validation or normalization.						
343	The Contractor shall provide for a real-time address standardization options when entering addresses, including but not limited to:						
	· addresses entered via a customer portal (Self-Service Website and Self-Service Mobile Application (Phase II and optional)) and addresses entered by an Authorized User.						
344	The Contractor shall provide the capability for multiple active addresses and apply them to their designated use, including all prior addresses for all account types, including but not limited to:						
	· shipping and billing.						
345	The Contractor shall provide the capability to store address history and make all addresses accessible in the account.						
346	The Contractor shall provide the capability to acquire and store multiple addresses, including all prior addresses for all account types, including but not limited to:						
	· Customer provided via the Affidavit of Non-Liability						
	· ROV Lookup provided;						
	· Skip Tracing;						
347	· National Change of Address (NCOA) and						
	· Collection Agency provided.						
347	The Contractor shall provide the capability to add international addresses.						
348	The Contractor shall provide the capability to automatically populate (or provide multiple options for selection) the city and state upon entry of the ZIP code (including Canada and Mexico).						
349	The Contractor shall provide periodic updates, at least quarterly, to the ZIP code/city/state list, at a minimum, as additional information becomes available.						
350	The Contractor shall provide the capability to prevent the account holder's name from being changed unless Approved by an Authorized User.						
351	The Contractor shall provide the capability for email address confirmation by the customer by comparing a re-keyed email address. The addition of unmatched entries shall not be allowed.

352	The Contractor shall provide the capability when email addresses are added to an account (both Registered and Unregistered), to perform the email address confirmation process prior to finalizing the entry on the account. For example, an email is sent to the email address provided with a link by which the customer can confirm they have control of the email account. A message shall be displayed indicating the email address will not be added until the confirmation process is complete.						
353	The Contractor shall provide the capability to enter and categorize comments on accounts.						
354	The Contractor shall provide the capability to insert BOS-generated comments on actions initiated by the BOS.						
355	The Contractor shall provide the capability to force Authorized Users to enter comments or have the BOS automatically enter comments on actions processed on an account, including but not limited to:						
	· disputes;						
	· dismissals;						
	· transfer transactions/trips to another account;						
	· payment of Violation Notices through the account;						
	· reversals of payments and dismissals;						
	· waivers;						
356	The Contractor shall provide the capability to set the default PIN as the last 4 digits of the primary phone number, which can be updated in the BOS and IVR.						
	The Contractor shall provide the capability to validate a PIN used for identifying an authorized contact. The PIN shall be masked (not visible to CSRs) such that the CSR will ask the customer for the PIN and the customer will provide the PIN and the CSR will enter that number into the system and the system will validate the PIN. This way the CSR cannot give the customer any hints.						
357	The Contractor shall provide the capability to securely email the PIN to the valid primary email address or text message on the account and require that the PIN be subsequently changed.						
358	The Contractor shall provide the capability to establish and configure security questions and validate customer response prior to the release of the PIN to the customer. The security questions related to the PIN shall be the same as those used by the customer via the Self-Service Website or CSR assisted password reset.						
359	The Contractor shall provide the capability to establish and configure security questions and validate customer response prior to the release of the PIN to the customer. The security questions related to the PIN shall be the same as those used by the customer via the Self-Service Website or CSR assisted password reset.						
	The Contractor shall provide the capability for all account types to have multiple communication channels, including but not limited to:						
	· Phone (day/night);						
	· cell phone;						
	· additional phone numbers;						
	· email;						
	· additional email addresses;						
360	· fax;						
	· text messaging and						
	· mail.						
	The Contractor shall provide the capability to select a preferred communication channel for specific customer communications.						
361	The Contractor shall provide the capability to capture opt-in/opt-out preferences and record and store the customer's election for certain items, including but not limited to:						
	· e-blast;						
	· text messages;						
	· statements and						
362	· marketing / newsletters.

363	The Contractor shall provide an account summary (an account overview including name, address, vehicles, license plates, email, phone, payment method, etc.) in a printer-friendly format to be used for, including but not limited to: · handing to walk-in customers; · inserting with mail transponder Fulfillment; · mailing to customers and · sending to customers via secure email.						
364	The Contractor shall provide the capability to log all account changes and provide the capability to view details, including but not limited to: · prior value; · the new value; · user ID; · date/time and · user information, such as BOS, Authorized User or customer-originated.						
1.4.2. Vehicles, License Plates and Transponders							
	The BOS shall support comprehensive license plate, vehicle information and transponder management functionality.						
365	The Contractor shall provide the capability to manage a drop-down list of vehicle attributes, including but not limited to: · vehicle manufacturer; · vehicle make; · vehicle model; · vehicle year; · vehicle color; · Clean Air decal number (not a drop-down) and · transponder exception specifying that the make and model requires an externally mounted transponder or special mounting locations for windshield transponders.						
366	The Contractor shall provide the capability to add multiple license plates and associated vehicle information to an account.						
367	The Contractor shall Update and maintain the BOS's list of vehicle manufacturers and models as necessary to keep the list current.						
368	The Contractor shall provide the capability to track the time period that a license plate is active on an account. This includes the start date and time and the end date and time. This is called the "Active Period". In most circumstances the customer would add the vehicle to their account with no end date but if it was a rental car it would have an end date/time.						
369	The Contractor shall provide the capability to add a license plate number to an account with a back dated start date and time. The allowable back date period shall be Configurable.						
370	The Contractor shall provide the capability when adding a new license plate number to an account to automatically identify other account(s) associated with that license plate.						
371	The Contractor shall provide the capability to identify that the vehicle(s) will be only on the account temporarily based on information provided by the customer, for example, a rental car, loaner from the car dealer or an out of town guest, and to prompt the user to enter a start date and time and an end date and time.						
372	The Contractor shall provide the capability for vehicles identified as temporary to be added to the account even if the license plate number is already on a rental car account.						
	The Contractor shall provide the capability to associate information with a license plate, including but not limited to: · license Plate Type; · license plate Jurisdiction; · vehicle is a Clean Air Vehicle (CAV);

	· ROV address;						
	· ROV Lookup date and · indication the license plate is a temporary license plate.						
374	The Contractor shall provide the capability to require or not require a one-to-one relationship between sticker transponders and vehicle in accordance with Business Rules.						
375	The Contractor shall provide the ability to make the one-to-one correlation between the sticker transponder and vehicle after a Configurable number of transactions/trips with the same transponder and vehicle.						
376	The Contractor shall provide the capability, if the one-to-one relationship is required, allow for Authorized Users to override the Requirement as necessary, for example when a transponder is replaced.						
377	The Contractor shall provide the capability for a many-to-one relationship between transponder and vehicle based on transponder type, account type and in accordance with Business Rules.						
378	The Contractor shall provide the capability to record the history of ROV information associated with each license plate.						
379	The Contractor shall provide the capability to search for license plate history and effective date ranges across multiple accounts.						
380	The Contractor shall provide the capability to transfer vehicle(s) and associated license plate(s) between accounts while maintaining the associated vehicle transaction/trip history on the original account.						
381	The Contractor shall provide the capability to add license plates from all 50 states, DC, U.S. Government, Canada and Mexico.						
382	The Contractor shall provide the capability to record transponder delivery method, such as in person via the WIC or by mail.						
383	The Contractor shall provide the capability to record transponder issue date and time.						
384	The Contractor shall provide the capability to record and associate a payment for every transponder sold.						
385	The Contractor shall provide the capability to track customer transponder requests.						
386	The Contractor shall provide the capability to age Fulfillment requests and automatically send an Alert when a Fulfillment request has exceeded a Configurable amount of time.						
387	The Contractor shall provide the capability for the Authorized User to override the BOS selected transponder mount type, such as windshield or head lamp.						
388	The Contractor shall provide the capability for the Authorized User to override the customer selected transponder mount type, such as windshield or head lamp.						
389	The Contractor shall provide the capability to read a transponder number (using a barcode reader) and automatically associate it to an account instead of requiring the transponder number to be typed in.

390	The Contractor shall provide the capability for Authorized Users to enter multiple vehicles in a tabular format.						
391	The Contractor shall provide the capability to upload a file with vehicle information for the entry of a large number of vehicles.						
392	The Contractor shall provide the capability for transferring transponders between accounts while maintaining the associated transponder transaction/trip history on the original account.						
393	The Contractor shall provide the capability to monitor for excessive image-based tolls at the account level and at the vehicle or license plate level.						
1.4.3. Account Plans							
	The Authority offers Account Plans which offer benefits to customers who meet the qualifying criteria. These plans may be assigned at the individual transponder, or account level and each may have only one Account Plan assigned to it. These Account Plans are Configured in the BOS and the BOS shall have the flexibility to apply the relevant Account Plan(s) based on the Business Rules.						
	The Authority also allows for non-revenue passage for qualified vehicles. The Account Plan functionality shall be used to support this program by applying a Configurable percent discount to specific transactions/trips on specific facilities in accordance with the Business Rules.						
	The Account Plans currently offered by the Authority are listed below. The Contractor should expect that plans may be added, deleted or modified over the course of the Operations and Maintenance Phase.						
	· Convenience Plan – a one-time lifetime fee (Configurable);						
	· Standard Plan – monthly fee and discount after a Configurable # of transactions/trips and up to a Configurable maximum per month;						
	· Special Access Plan – provides free or discounted toll rates for three or more riders per vehicle, motorcycles, eligible CAVs, vehicles with disabled veteran or disabled person license plate, and						
	· Non-revenue Plan – which provides a Configurable discount (up to 100 percent) one or more of the Authority's facilities.						
394	The Contractor shall provide the capability to assign Account Plans at the account level.						
395	The Contractor shall provide the capability to assign Account Plans at the transponder level.						
396	The Contractor shall provide the capability to assign Account Plans at the license plate level.						
397	Prevent the transfer of Account Plans when the transponder or the license plate is moved to another account in accordance with the Business Rules.						
398	The Contractor shall provide the capability to enroll customers in Account Plans.						
399	The Contractor shall provide the capability for configuring and offering various Account Plans with a combination of features, including but not limited to:						
	· percentage discount;						
	· dollar amount discount or transaction count discount with a maximum amount;						
	· time duration, such as an Account Plan may only be available for a limited time or may require renewal every year;						
	· method of calculating the discount, such as a transaction-level discount where members get a 50 percent discount on every qualifying toll transaction or a rebate credit on following month based on the frequency of trips within a period of time;						
	· monthly maximum discount based on total dollar amount or number of transactions/trips;						
	· use of Posting Date or Transaction Date to qualify transactions/trips for a rebate;						
	· specific criteria for qualification;						
· a cost to join the Account Plan and							
· proof of eligibility, such as a vehicle registration as proof of registration criteria with ability for customer to upload electronically.							
400	The Contractor shall provide the capability to track toll transactions/trips in frequency transponder-based discounts.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
401	The Contractor shall provide the capability to apply rebates or toll credits as lump-sum account level credits.						
402	The Contractor shall provide the capability to apply and reverse discounts to a range of toll transactions/trips on an account.						
403	The Contractor shall provide the capability to clearly indicate which discount was applied to any given transaction/trip.						
404	The Contractor shall provide the capability to configure a non-revenue plan (up to 100 percent discount) to a transponder or license plate on all or specific tolling locations for a specific Toll Facility.						
405	The Contractor shall provide the capability to associate discount eligibility documentation (such as, a utility bill as proof of residence) to a transponder or vehicle.						
1.4.3.1. Special Access Plans							
406	The Contractor shall provide multiple Special Access Plans providing free or discounted toll rates (subject to change at the Authority's discretion both during the Implementation Phase and Operations and Maintenance Phase), including but not limited to: <ul style="list-style-type: none"> · always HOV eligible when in I-405 Express Lanes (designated carpool); · motorcycles; · eligible CAVs; · vehicles with disabled veteran license plate and · vehicles with disabled person license plate. 						
407	With the exception of the occupancy which is validated by the ETTM System and reflected in the discounted toll rate assigned to the transaction/trip by the ETTM System, the Contractor shall provide the capability to validate all vehicles to ensure they meet the requirements for a Special Access Plan, This validation shall include: <ul style="list-style-type: none"> · attach documentation provided by the customer as proof of meeting the requirements for a Special Access Plan and queue for manual verification; · manually review the image of the flagged vehicle license plate noting the transponder used in the special access vehicle · assign the respective code to the transponder to indicate the respective discount (clean air vehicle, motorcycle, etc); · upon successfully matching the transponder to the license plate, charge the appropriate discount to all transactions/trips by that transponder including the first trip; · if the transaction/trip including that license plate does not have an associated transponder read, the discounted rate will be charged but the customer will be contacted to rectify the transponder situation and · for plates and transponders that are successfully matched include the appropriate code in the CTOC file. 						
1.4.3.2. Promotions							
	The BOS shall be able to manage promotions, promotion codes and credits. Balances related to promotions are tracked individually by promotion and separately from the account balance. Only eligible transactions can be deducted from promotional balances. Promotional balances are not refunded and can only be applied to tolls on the Authority's Toll Facility.						
408	The Contractor shall provide the capability to offer a Configurable number of weeks-worth of free travel on the Authority's Toll Facility for new accounts.						
409	The Contractor shall provide the capability to account and track promotions balances individually (for example, by promotion code) separately from the account balance.						
410	The Contractor shall provide the capability to display the promotion balances and associated expiration date of the promotion balances so that the CSRs and customers can see the various promotion balances separately from the account's cash balance.

	· delinquent account fee;						
	· account re-activation fee;						
	· Violation penalty;						
	· delinquent Violation penalty;						
· collection fee;							
· account deactivation fee;							
· Account Plan membership fee;							
· Registration Hold fee and · balance below Insufficient Balance Threshold fee.							
424	The Contractor shall provide the capability to maintain the parameters (Configurable) related to fees and penalties.						
425	The Contractor shall provide the capability to create new fees and penalties.						
426	The Contractor shall provide the capability to manually apply custom fees and penalties to accounts.						
427	The Contractor shall provide the capability for the assessment of fees based on account activities, for all accounts or specific account type(s).						
428	The Contractor shall provide the capability to notify the customer via the channel(s) defined within the Business Rules, Operations Plan and SOPs when a fee or penalty is assessed.						
429	The Contractor shall provide the capability to schedule a start and end date/time when a fee or penalty change will go into effect/conclude. For example, the statement fee is \$2.00 until July 31, 2024, after which it will increase to \$3.00.						
1.4.5.	Registered Account Replenishment						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	Registered accounts are established with a valid replenishment method for prepaid balances to be restored as toll and fee transactions deplete the prepaid balance. Account replenishment options are Credit Card, cash, check, ACH and money order. Replenishment by Credit Card can be set up to be automatic (auto-replenishment). For auto-replenishment, the BOS determines the replenishment timing and minimum amount based on parameters (Configurable). Replenishment by cash, check, ACH or money order requires the customer to replenish the account manually by mailing a check or visiting a WIC. Customers without an auto-replenishment method also may make a one-time payment by Credit Card or ACH.						
430	The Contractor shall provide the capability for one or more auto-replenishment methods within an account for all electronic payment methods.						
431	The Contractor shall provide separate replenishment parameters (Configurable) for all account types, including but not limited to:						
	· fixed replenishment amount;						
	· replenishment threshold based on a percentage of the replenishment amount;						
	· replenishment thresholds based on the number of transponders on the account;						
	· replenishment amount based on the number of transponders on the account;						
431	· replenishment amounts calculated based on average use for a period (Configurable) of time or a fixed amount, whichever is greater. For example, average use over the prior (3) month period as compared to \$30);						
	· number of replenishment failures before next method is attempted and						
	· number of declines before a replenishment method is suspended based on appropriate reject reasons.						
432	The Contractor shall provide the capability for Authorized Users to identify individual accounts that are not subjected to auto-replenishment recalculation.						
433	The Contractor shall provide the capability for account replenishment options based on Insufficient Balance Thresholds.						
434	The Contractor shall provide the capability for automatic account replenishments via Credit Card and ACH.						
435	The Contractor shall provide the capability for a hierarchical usage sequence for auto-replenishment methods for an account, such as primary method ACH and secondary method Visa Credit Card #1.						
436	The Contractor shall provide for a stepped approach to failed auto-replenishments where an attempt is made to collect from the primary replenishment method a number of times (Configurable), followed by the secondary method and continuing until attempts have been made to replenish from all replenishment methods.						
437	The Contractor shall provide the capability for automatically suspending an auto-replenishment method because of a number of declines (Configurable) and decline reason code. For example, if the reason for a decline is a closed account, the number of retries would be zero.						
438	The Contractor shall provide the capability for automatically removing the suspension of an auto-replenishment method when there is an update to the Credit Card number, expiration date or any other related information.						
439	The Contractor shall provide the ability to automatically update Credit Card expiration dates through the Merchant Service Provider.						
440	The Contractor shall provide the capability to check if the Credit Card or ACH information is associated with another account when setting up an auto-replenishment method. The Contractor shall provide an Alert to the CSR of such condition and options to cancel or continue.						
441	The Contractor shall provide the capability for an Alert to be sent to the PMMS of a failed auto-replenishment event because of BOS or Interface errors.						
442	The Contractor shall provide the capability for the manual replenishing of accounts, regardless of payment method, on both a one-time and ongoing basis.

443	The Contractor shall provide the capability to check account balances each time a transaction is Posted to an account, as well as automatically submit an auto-replenishment attempt using the primary valid replenishment method when replenishment criteria is met.						
1.4.6. Adjustments and Reversals							
	Adjustments and reversals are routinely processed in the BOS and are applied to any type of toll or Financial Transaction. Examples of such adjustments include correcting a toll rate, which would result in a change in toll, accepting a customer dispute for an incorrect charge, which would result in the reversal of the toll, or waiving or reducing a Violation penalty. Adjustments and reversals can be processed for single transactions, such as in the examples above, or in bulk. An example of a bulk adjustment is reversing all charges for a specific Toll Facility during a specific time period, as would be the case for an accident in the general-purpose lanes. Every adjustment and reversal requires the entry of a reason code identifying the reason for the adjustment or reversal. Adjustments and reversals must be associated with the original transaction, but must not change the original transaction. The original transaction must be preserved in the BOS once the transaction has been Posted to the account. Any adjuas a whole. No fees or penalties should be assessed on a cumulative basis, such as a fee or a penalty assessed and associated to another previously charged fee or penalty. Like adjustments and reversals, fees and penalties are Posted to the current Revenue Day. The BOS shall be capable of reversing fees and penalties automatically or manu						
444	The Contractor shall provide the capability to make corrections, adjustments and reversals to transactions/trips while preserving the original transaction, including the original Transaction Date and amount. Any corrections, adjustments or reversals shall be tied to, but not change, the original transaction/trip.						
445	The Contractor shall provide the capability to properly disposition transactions/trips that are adjusted and/or reversed and are already in a Violation Notice stage.						
446	All corrections, adjustments and reversals shall be Posted to the current Revenue Date so as not to affect prior closed Revenue Dates.						
447	The Contractor shall provide the capability for full reversals of any type of transaction with a reason code (Configurable), preserving complete history.						
448	The Contractor shall provide the capability for partial reversals of any type of transaction with a reason code (Configurable), preserving complete history.						
449	The Contractor shall provide the capability to require that a reason code be entered for every adjustment and reversal.						
450	The Contractor shall provide the capability for multiple corrections, adjustments and/or reversals to be made on a single transaction/trip while preventing the sum of such corrections, adjustments and/or reversals to exceed the amount of the original transaction/trip.						
451	The Contractor shall provide the capability to establish Courtesy Credit amounts (Configurable) by Courtesy Credit type. Courtesy Credits shall be used for toll charges only on the Authority's Toll Facility and are not refundable and are charged as an expense when issued to customers.						
452	The Contractor shall provide the capability to apply Courtesy Credits to accounts and require the entry of comments and reason assignment from allowable reason. The reason selected will determine how the expense is charged (transaction level or account level (50/50)).						
453	The Contractor shall provide the capability to Authorized Users to configure all relevant parameters related to establishing role-based dollar amount thresholds for transactions that affect Authority's revenue, including but not limited to:						
	· adjustments,						
	· debits;						
	· credits and · reversals.

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
454	The Contractor shall provide the capability for Authorized Users to Post adjustments, credits and reversals up to their role-based threshold amount (Configurable).						
455	The Contractor shall provide the capability to establish a Case when Authorized Users are unable to process a transaction as a result of reaching their role-based adjustment, credit or reversal limits (Configurable) or not authorized for the particular action.						
456	The Contractor shall provide the capability to establish a Case for a higher-level of approval when Authorized Users are unable to process a transaction as a result of reaching their role-based adjustment, credit or reversal limits (Configurable). The Authorized User who Approved the transaction shall be recorded and associated with the transaction.						
457	The Contractor shall provide detailed tracking of individual adjustments, credits and/or reversals and categorize each separately.						
458	The Contractor shall provide a trip and/or transaction search and adjustment screen(s) where Authorized Users can enter the selection criteria, retrieve the transactions/trips and make bulk adjustments or reversals. This capability shall allow the selection of groups of transactions/trips to which the correction will apply and adjustment comments entered for the affected transactions/trips. The Authorized User shall be allowed to select/deselect specific transactions/trips within the group. For example, the Authority may require all trips/transactions that include a certain toll point between 2 a.m. and 5 a.m. on a specific date to be fully reversed or all transactions at that toll point to be charged \$1.00.						
459	The Contractor shall provide the capability to process adjustments and reversals that affect Interoperable Agency customers in accordance with the applicable Interoperable specifications and include these transactions/trips in the reconciliation reporting based on adjustment Posting Date (not original Transaction Date).						
460	The Contractor shall provide the capability to transfer transactions/trips (financial or tolls) to another account. For example, a check Posted incorrectly to an account gets reversed and re-Posted to the appropriate account.						
461	The Contractor shall provide the capability to adjust the eligibility for discounts and promotions when transactions are corrected, adjusted or reversed.						
462	The Contractor shall provide the capability to adjust discounts and promotions when transactions are adjusted, corrected or reversed.						
1.4.7.	Account Statuses						
	Account statuses determine how transactions/trips are processed and associated to accounts.						
	The Contractor shall provide account statuses, including but not limited to:						
	· active (accounts in good standing);						
	· low balance (account below replenishment threshold – Credit Card has declined or cash account below threshold);						
463	· delinquent (Registered accounts only – accounts that fall below the Insufficient Balance Threshold);						
	· collection (account information has been sent to the Collection Agencies);						
	· pending close (Registered accounts only – accounts scheduled to close remain in this status for a Configurable number of days to allow for final transactions/trips to clear) and						
	· closed (closed accounts).						
464	The Contractor shall provide the capability to automatically, according to Business Rules, transition between account statuses.						
465	The Contractor shall provide the capability to set a different period of time (Configurable) before accounts automatically transition from pending close to closed based on the reason the account is to be closed.						
466	The Contractor shall provide capability for customer Notification (Configurable) when the account status changes.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
467	The Contractor shall provide the capability to use the account's status in determining whether or not to Post a transaction/trip to the account. For example, only Post transactions to an account in active or pending close statuses.						
468	The Contractor shall provide the capability to automatically set an account to delinquent status once the account balance reaches below the Insufficient Balance Threshold or a Configurable number of days from the low balance notification.						
469	The Contractor shall provide the capability to automatically set accounts to pending close status upon a request to close the account and take automatic actions, including but not limited to:						
	· deactivate plates and vehicles on the account;						
	· deactivate transponders on the account and						
	· prorating of prepaid discount fees.						
470	The Contractor shall provide the capability to automatically age an account from pending close to closed status after a period of time (Configurable) and to take automatic actions, including but not limited to:						
	· removing payment methods on the account;						
	· assessing the appropriate fees;						
	· expiring promotion credits;						
	· processing the refund amount bringing the balance to zero and · processing the refund automatically based on criteria or approval.						
471	The Contractor shall provide the capability for capturing multiple levels of reason codes for an account closing at "pending close" time.						
472	The Contractor shall provide the capability for the reactivation (back to an active status) of an account in the pending close and closed statuses.						
473	The Contractor shall provide the capability to prevent transactions from Posting to closed accounts.						
474	The Contractor shall provide the capability for Authorized Users to add comments to closed accounts.						
1.4.8. Account Flags							
	Account Flags are used to identify meaningful conditions and information about the account, its transactions/trips, vehicles, transponders and payment methods which are used to trigger a Notification or other actions and for reporting. During design, the Contractor shall describe the ways in which these types of information shall be identified to the customers and Authorized Users.						
475	The Contractor shall provide the capability to set and maintain Flags (Configurable) that can be displayed on accounts for issues related to the account, a license plate, or transponder on the account.						
	The Contractor shall provide the capability to automatically set Flags on account based on conditions and events, including but not limited to:						
	· bad address;						
	· bad email address/no email address;						
	· bad phone number (for both calls and texts);						
	· account closed in Collections;						
	· account was not completely opened;						
	· account has debt which was written-off;						
	· account has debt which was written-off in Collections;						
	· account has an Investigative Review in process;						
	· account has an open refund request;						
	· no active vehicles;						
	· no active transponder (applicable only to FasTrak accounts);						
	· transponder in certain status, for example, lost or stolen (not applicable to Unregistered accounts);						
	· excessive toll at license plate level (not applicable to Unregistered accounts);

476	· temporary license plate;						
	· account is in pending to close status (not applicable to Unregistered accounts);						
	· account has an open Case;						
	· customer participates in a non-revenue Account Plan (not applicable to Unregistered accounts);						
	· customer enrolled in Account Plan (s) (not applicable to Unregistered accounts);						
	· Special Access Plan on the account or on a vehicle on the account (not applicable to Unregistered accounts);						
	· unresolved returned check;						
	· unresolved Credit Card decline on the account;						
	· at least one Credit Card marked by the BOS as bad (not applicable to Unregistered accounts);						
	· at least one Credit Card is expired or is expiring within a number (Configurable) of days (not applicable to Unregistered accounts);						
	· account has at least one suspended auto-replenishment method (not applicable to Unregistered accounts);						
	· account has unpaid Violation(s) not applicable to Unregistered accounts);						
	· account has debt in Collections;						
	· one or more vehicles on the account has been placed on Registration Hold;						
	· at least one license plate on the account has an unpaid Violation(s);						
· an Administrative Review has been scheduled for the account;							
· at least one Violation associated with the account has a Civil Judgement and							
· account was subject to Escheatment.							
477	The Contractor shall provide the capability for Authorized Users to manually set account Flags, including but not limited to:						
	· high priority comment;						
	· bad phone number (for both calls and texts);						
	· bad address;						
	· do not accept checks for payment;						
	· inactive account;						
	· account needs to be referred to a supervisor;						
	· account holder is deceased and						
· CSC has been informed of account holder bankruptcy.							
478	The Contractor shall provide the capability to display all active Flags on an account upon accessing the account information.						
479	The Contractor shall provide the capability to automatically clear Flags based on criteria.						
480	The Contractor shall provide the capability for Authorized Users to manually clear Flags no longer applicable to an account.						
1.4.9. Transponders							
	There are different types of transponders, with each having a distinct purpose. The Authority may issue the types of transponders described below.						
	· Interior sticker transponders (non-switchable) – are permanently affixed on the inside of a vehicle’s windshield. These transponders cannot be moved between vehicles.						
	· Breakable interior sticker transponders (non-switchable) – are permanently affixed on the inside of a vehicle’s windshield. These transponders cannot be moved between vehicles because they are designed to break if removed after they have been applied to a surface.						
	· Three-position hard-case transponders (switchable) – are mounted on the inside of a vehicle’s windshield with mounting strips that allow a customer to switch between three Occupancy Setting modes.						
	· Exterior headlight transponders (non-switchable) – are clear stickers which are permanently affixed to the motorcycle’s or vehicle’s headlight.						
	The Contractor shall provide for transponder statuses (Configurable), including but not limited to:

481	<ul style="list-style-type: none"> · inactive; · valid and · invalid. 						
482	The Contractor shall provide the capability to manually change transponder statuses, such as when a customer calls to report a transponder has been stolen.						
483	The Contractor shall provide the capability to automatically change transponder statuses. For example, when a transponder that is in inventory with an inactive status is subsequently added to an account, the status changes to active.						
484	The Contractor shall provide the capability to track a transponder's current status and status history.						
485	The Contractor shall provide the capability to automatically change the transponder status from valid to invalid for all transponders on an account when the account balance is equal to or below a balance (Configurable).						
486	The Contractor shall provide the capability to automatically change the transponder status from invalid to valid for all transponders on an account when the account balance is above a balance (Configurable).						
487	The Contractor shall notify the customer when the transponder changes status.						
1.4.10. Incoming Customer Communication							
488	The Contractor shall provide the capability to track, store and electronically view all incoming customer contact-related information on all account types.						
489	The Contractor shall provide the capability to associate incoming customer communication with the account for all communication channels in accordance with the Security Standards, including but not limited to:						
	· phone;						
	· email (including attachments);						
	· Self-Service Website;						
	· Self-Service Mobile Application (Phase II and optional);						
	· chat;						
	· text messaging;						
	· fax;						
· mail and							
· in-person contact.							
490	The Contractor shall provide the capability to track and account for all incoming customer communication.						
491	The Contractor shall provide the capability for a CSR to upload a file and have it associated with an account, including but not limited to:						
	· an audio file from a recorded conversation;						
	· a PDF file, such as, an outbound email or mail piece and						
	· an image file, such as, a scanned document emailed by a customer.						
492	The Contractor shall provide the capability to view data files or play audio files associated with accounts.						
493	The Contractor shall provide the capability to scan incoming print communications and save the resulting image in the BOS. The Contractor's solution shall be robust, enterprise-level and integrated with the BOS and with capabilities including but not limited to:						
	· bulk scanning;						
	· indexing, sorting, collating;						
	· bulk demographic data entry and						
	· automatic assignment to accounts.						
	The Contractor shall provide the capability to categorize all incoming communication via drop-down menu options (Configurable), including but not limited to:						
	· application;

· sale documentation;							
· transponder request and							
· vehicle registration.							
495	The Contractor shall provide the capability to search for all incoming communication.						
496	The Contractor shall provide the capability to create a Case for each incoming communication piece scanned into the BOS. Each scanned communications piece will either initiate a new Case or be associated with an existing one, as determined by an Authorized User.						
497	Create a customer contact record for all automated customer contacts. For example, if the customer provides a new address and phone number, the BOS shall automatically create a contact record that says customer contacted the BOS via Self-Service Website to update address and cell phone number.						
498	The Contractor shall provide the capability to track contacts based on channel or contact reasons.						
499	The Contractor shall provide the capability to set and maintain customer contact attributes, including but not limited to:						
	· channels;						
	· date and time;						
	· actions;						
	· contact reasons;						
	· comments and comment category.						
1.5. Image Transfer and Transaction/Trip Processing							
1.5.1. Transaction/Trip Transfer							
	The ETTM System captures transactions and images for Transponder-Based Transactions/Trips and Image-Based Transactions/Trips and handles automatic and manual image review. The transaction/trip is created by the ETTM System. The ETTM System sends the full formed trip, associated transactions, image(s) and license plate data (if needed) to the BOS.						
500	The Contractor shall provide the capability to accept and store images related to transactions/trips, Violations, I-Tolls from the ETTM System in accordance with ICD.						

Volume II BOS Technology and Functionality

501	The Contractor shall provide the capability for customers and Authorized Users to retrieve, view and print images related to transactions/trips, Violations and I-Tolls.						
502	The Contractor shall provide the capability to associate images with the related transaction/trip in the BOS based on information provided by the ETTM System.						
503	The Contractor shall provide the capability to transmit the status of image acquisition errors to the ETTM System Contractor and the PMMS.						
504	The Contractor shall provide the capability to categorize failed images into error codes and exception codes for reporting purposes.						
505	Reconcile and report transaction file discrepancies, errors and rejects by reason.						
506	The Contractor shall provide the capability to send and receive all data and files between the ETTM System and the BOS in compliance with the ETTM System Contractor's ICDs, and any updates made to them must meet the Requirements of the Statement of Work and Requirements.						
507	The Contractor shall provide the capability to support a list of ETTM Systems with which the BOS shall Interface to receive Transponder-Based and Image-Based Transactions. All received transactions/trips shall be verified against the list of ETTM Systems.						
508	The Contractor shall provide the capability to receive and maintain a listing of each Toll Facility's tolling points and lanes (including designation of direction) from which the BOS shall receive transactions/trips. All transactions/trips received shall be verified against the Toll Zone and lane (including designation of direction) listing for each Toll Facility.						
509	The Contractor shall provide the capability to receive and process Transponder-Based and Image-Based Transactions/Trips from each ETTM System.						
510	The Contractor shall provide the capability to validate the Transponder-Based Transactions/Trips and Image-Based Transactions/Trips transmitted by the ETTM System meet the Requirements of the ICD.						
511	The Contractor shall provide the capability to validate the transactions/trips to ensure compliance to Interface Requirements and established parameters for each Toll Facility and identify errors and exceptions.						
512	The Contractor shall provide the capability to accept, but not Post to accounts or process further Transponder-Based and Image-Based Transactions/Trips that have failed the verifications and cannot be processed further as submitted for collecting tolls at the BOS. Such rejected transactions/trips include but are not limited to:						
	· transactions/trips are older than the established parameters;						
	· transactions/trips do not belong to Toll Facilities on the Toll Facilities list;						
	· transactions/trips do not belong to a Toll Zone on the Toll Facility list;						
	· internal transponder identification number is not valid;						
	· transaction/trip is a duplicate of a Posted Transponder-Based Transaction/Trip on the account;						
	· transaction/trip is a duplicate of a Posted I-Toll Transaction/Trip on the account;						
	· transaction/trip is a duplicate of a Violation transaction/trip on the account;						
· transaction/trip was rejected by the Interoperable/CTOC Agency and							
· transaction/trip is not in compliance with the ICD.							
513	The Contractor shall provide the capability to identify duplicate transaction/trip verification (Configurable) for each Toll Facility, based on various criteria, including but not limited to:						
	· Toll Facility;						
	· Toll Zone;						
	· direction of travel;						
	· lane;						
	· transaction/trip time differential;						
	· transaction/trip type;						
	· account type;						
· license plate number and

	transponder number.						
514	The Contractor shall provide the capability to reconcile transmitted transaction/trip counts and errors by date sent to the BOS and Transaction/Trip Date and Time.						
515	The Contractor shall provide the capability to categorize failed transactions/trips into error codes and exception codes for reporting purposes.						
516	The Contractor shall provide the capability to accept and process corrected transactions/trips that have been previously rejected.						
1.5.2. Transmission Error Identification							
517	The Contractor shall provide the capability to send status of transaction/trip transmission and/or verification errors to the PMMS.						
518	The Contractor shall provide the capability to identify when the actual number of Transponder-Based Transactions/Trips and Image-Based Transactions/Trips received from an ETTM System is a percentage (Configurable) below the expected number for each Toll Zone and lane based on historical volumes and send an Operational Alert Notification to the PMMS.						
519	The Contractor shall provide the capability to identify when percentage (Configurable) of trips sent as image-based has increased compared to historical data and send an Operational Alert Notification to the PMMS.						
520	The Contractor shall provide the capability to identify when the actual number of images acquired is a percentage (Configurable) below the expected amount for each Toll Zone and lane and send an Operational Alert Notification to the PMMS.						
521	The Contractor shall provide the capability to create transmission failure Alerts based on parameters, including but not limited to missing plazas and delayed transactions by Toll Facility and transaction/trip type.						
522	The Contractor shall provide the capability to identify if there are missing images from a specific Toll Zone (Configurable number over a Configurable period of time) and send an Operational Alert Notification to the PMMS.						
523	The Contractor shall provide the capability (Configurable) to retry the acquisition of images for transactions/trips initially identified as not having images.						
524	The Contractor shall provide the capability to match the acquired image with its transaction/trip.						
525	The Contractor shall provide the capability to identify transactions/trips for which images were expected but are missing and generate an Operational Alert Notification to the PMMS if images are missing for more than a number of transactions/trips (Configurable) and after an amount (Configurable).						
526	The Contractor shall provide the capability to transmit the status of image acquisition errors to Authorized Users.						
527	The Contractor shall provide the capability to categorize failed images into error codes and exception codes for reporting purposes.						
1.5.3. Interoperability							
	The Authority is already Interoperable with the other toll agencies in California. During the Implementation Phase and Operations and Maintenance Phase, it is likely that Interoperability will expand to include all U.S. states and regions. The Authority intends to participate in regional and national Interoperability.						
	The BOS and the Interoperable/CTOC Agencies shall exchange files in accordance with the most current ICDs.						
528	Provide the capability to create/transmit and receive/process all Interoperable/CTOC files in accordance with the latest WRTO/CTOC ICD. See Attachment A: WRTO and CTOC Technical Specification for Interagency Electronic Data Interchange for current ICD.						
529	Provide the capability to create/transmit and receive/process all Interoperable/CTOC files in accordance with the Authority's Business Rules. The Contractor shall support Interoperable agencies that will be on different versions of the WRTO/CTOC ICD throughout the Term of the Agreement.

1.5.3.1. OCTA Customers on Interoperable Agency Facilities							
	Customers who have an Active Registered account may use the Toll Facilities of Interoperable/CTOC Agencies. Transactions/trips generated on the Interoperable facilities will be transmitted to the BOS for processing and Posting to accounts. Interoperable/CTOC Agencies will receive disposition for each submitted transaction/trip in accordance with their individual Interoperable/CTOC Agency ICD. Images will not be provided by Interoperable Agencies. The BOS shall meet the following Requirements related to Transponder-Based Transactions/Trips and Image-Based Transactions/Trips submitted by Interoperable/CTOC Agencies.						
530	The Contractor shall provide the capability to create, transmit and exchange all data and files between the BOS and Interoperable/CTOC Agencies in compliance with the existing ICDs and any updates made to them to meet the Requirements of the Statement of Work.						
531	The Contractor shall provide the capability to receive and process Transponder-Based Transactions/Trips and Image-Based Transactions/Trips from the Interoperable/CTOC Agencies.						
532	The Contractor shall provide the capability to validate that the Transponder-Based Transactions and Image-Based Transactions/Trips transmitted by the Interoperable/CTOC Agencies meet the criteria for qualification, including but not limited to: · Transponder-Based Transactions/Trips and Image-Based Transactions/Trips transmitted by the Interoperable/CTOC Agencies are Posted when the associated account and transponder were active; · Transponder-Based Transactions/Trips and Image-Based Transactions/Trips meet the Requirements of the ICD and · Image-Based Transactions/Trips have a license plate number, Jurisdiction and Plate Type (if applicable), and the transaction occurred when the associated account and plate were active.						
533	The Contractor shall provide transaction/trip disposition to Interoperable/CTOC Agencies for each submitted Transponder-Based Transaction/Trip and Image-Based Transaction/Trip.						
1.5.3.2. Interoperable/CTOC Customers on Authority Toll Facility							
	Interoperable/CTOC Agency customers who have accounts at other Interoperable/CTOC Agencies may use the Authority's Toll Facility. These customers may create Transponder-Based Transactions/Trips and Image-Based Transactions/Trips. The BOS identifies such transactions as Interoperable/CTOC Transactions/Trips, validates such transactions/trips are in compliance with Interoperable/CTOC ICDs and transmits them to the Interoperable/CTOC Agency for processing and Posting to the appropriate accounts. The Authority may assess a Configurable 'roaming/hub processing fee' based on the transaction/trip type. Interoperable/CTOC Agencies will transmit the disposition for each submitted transaction/trip to the BOS in accordance with their individual Interoperable/CTOC ICD.						
	The BOS shall meet the following Requirements related to Interoperable/CTOC Transponder-Based Transactions/Trips and Image-Based Transactions/Trips.						
534	The Contractor shall provide the capability to receive and validate Transponder-Based Transactions/Trips and Image-Based Transactions/Trips from the ETTM System.						
535	The Contractor shall provide the capability to validate that the Transponder-Based Transactions/Trips and Image-Based Transactions/Trips are in compliance with the Interoperable/CTOC ICDs.						
536	The Contractor shall provide the capability to, if configured, assess the appropriate 'roaming/hub processing fee' based on the transaction/trip type.						
537	The Contractor shall provide the capability to identify clean air vehicles and motorcycles for discounts from Interoperable/CTOC Agencies.						
538	The Contractor shall provide the capability to transmit Transponder-Based Transactions/Trips and Image-Based Transactions/Trips to the appropriate Interoperable/CTOC Agency.						
539	The Contractor shall provide the capability to receive transaction/trip disposition from the Interoperable/CTOC Agencies for each transmitted Transponder-Based Transaction/Trip and Image-Based Transaction/Trip.

540	The Contractor shall provide the capability to invoice IOP, make payments to IOP and receive post payments from IOP, retain and aging of IOP receivables.						
1.5.4. Monitoring – Operations and System Performance							
	The Authority requires monitoring tools to effectively track and manage operations with the goals of optimizing efficiency, performance and customer service. The Authority requires clear visual and graphical representation of the workflow statuses and the provision of Alerts to identify backlogs and problems on a timely basis.						
541	The BOS shall provide pictorial representations (dashboard) of the BOS operations and performance, and Authorized Users performance and productivity at all stages of inbound customer contact points and operations process flow.						
542	The BOS shall provide Authorized Users the ability to customize and personalize their dashboard to display data elements selected by the user.						
543	The BOS shall provide user interface in real-time to review and be alerted to problems, exceptions, issues and variance from Performance Measures by means of conditional formatting.						
544	The BOS shall provide users with the capability to drill to the individual details and back-up information of any transaction/trip state, status or problem.						
545	The BOS shall provide user interface to establish various thresholds (Configurable) to monitor and assess BOS and operations performance in areas such as inbound calls, emails, chat, cases, transponder requests, etc.						
546	The BOS shall generate automated notifications to the PMMS when specified deviations from established thresholds are detected within a user defined period of time (Configurable) and provide such notifications on the dashboard.						
1.5.5. Transaction/Trip Processing Lists							
1.5.5.1. Processing Exception List							
	The Processing Exception List is a list of license plates and transponders used to identify Transponder-Based Transactions/Trips and Image-Based Transactions/Trips that require manual review and disposition prior to final processing due to known customer service and/or processing issues.						
547	The Contractor shall provide the capability to maintain a separate Processing Exception List of license plates and transponders for each Toll Facility.						
548	The Contractor shall provide the capability for Authorized Users to add, delete and maintain the Processing Exception List of license plates and transponders.						
549	All changes to the Processing Exception List shall require Authority Approval.						
550	The Contractor shall provide the capability for Authorized Users to enter effective start and end dates for each license plates and transponder.						
551	The Contractor shall provide the capability for Transponder-Based Transactions/Trips and Image-Based Transactions/Trips that are active on the Processing Exception List to not be processed by the BOS until manually reviewed and dispositioned.						
552	The Contractor shall provide the capability via a processing exception screen to review each transaction and image and either reintroduce the Transponder-Based Transactions/Trips and Image-Based Transactions/Trips for normal BOS processing or have them remain unprocessed.						
553	The Contractor shall provide the capability via a processing exception screen to review Transponder-Based Transactions/Trips and Image-Based Transactions/Trips multiple times before reintroducing them for BOS processing.						
554	The Contractor shall provide the capability for reintroduced Transponder-Based Transactions/Trips and Image-Based Transactions/Trips to follow all of the applicable processing rules. For example, if the time process time threshold has been exceeded the normal dispositioning process would occur.						
555	All Transponder-Based Transactions/Trips and Image-Based Transactions/Trips subject to the processing exceptions shall be included in all applicable transactional and financial reporting.						
1.5.5.2. Plate Correction List							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The Plate Correction List contains license plate numbers identified by the CSC Operations as being problematic based on customer disputes or QA processes and requiring analysis and correction by the ETTM System Contractor to prevent recurring issues.						
556	The Contractor shall provide the capability to provide a separate Plate Correction List for each Toll Facility.						
557	The Contractor shall provide the capability for Authorized Users to add, delete and maintain the Plate Correction List of license plates with all available plate information.						
558	The Contractor shall provide the capability for Authorized Users to electronically send the Plate Correction List to the ETTM System Contractor.						
559	The Contractor shall provide the capability to search for, retrieve and correct plates added to the Plate Correction List to avoid the same errors from occurring for transactions that are in process.						
1.5.6. Customer Validation and Transaction/Trip Posting							
	Upon the completion of the initial verifications and processing, the BOS shall attempt to Post the transactions/trips to accounts. The sequence in which the Posting occurs is determined during design.						
1.5.6.1. Transaction/Trip Posting - General							
	Generally, the toll rate assigned by the ETTM System is the rate that the customer is charged. On Express Lane facilities, the toll rate depends on the numbers of occupants in the vehicle. Some transponders have the ability to indicate the number of occupants in the vehicle depending on where the customer has set the switch. Account Plans, plate codes and transponder codes such as the Clean Air Vehicle or motorcycle may also affect the toll rate. During the Operations and Maintenance Phase, it is anticipated that the occupancy required to receive a discounted or \$0 toll rate will change (for example, from 2+ to 3+).						
560	The Contractor shall provide the capability to set and maintain rules (Configurable) that define the order and sequence in which transactions/trips are processed for Posting to the various account types.						
561	The Contractor shall use the Authority's Business Rules and existing hierarchy in developing the rules for Posting trips.						
562	The Contractor shall provide the capability to set and maintain rules (Configurable) that define the order in which the transactions/trips shall be processed and their final outcome, including but not limited to:						
	· type of the transaction/trip (Transponder-Based or Image-Based);						
	· the submitting Entity (Toll Facility, Authority or Interoperable/CTOC Agency);						
	· the presence of a transponder in the transaction/trip;						
	· account type;						
	· account status;						
563	The Contractor shall provide the capability to store multiple transponders per transaction/trip and charge the transponder according to the rules.						
	· the status of the transponder at the time of the transaction/trip and						
564	· the availability of an image.						
564	The Contractor shall provide the capability to transmit Interoperable Transponder-Based Transactions/Trips to Interoperable/CTOC Agencies to Post to the Interoperable/CTOC Agency accounts.						
565	The Contractor shall provide the capability to validate Transponder-Based Transactions/Trips and account type and support the processing order (Configurable) of transactions/trips with transponders, per Business Rules.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
566	The Contractor shall process the transaction as an Image-Based Transaction if a Transponder-Based Transaction/Trip cannot be Posted to an account, but it contains the license plate data, then depending on the reject reason. For example, if a Transponder-Based Transaction/Trip was rejected by an Interoperable/CTOC Agency due to insufficient funds on the account, then the transaction/trip can be processed as an Image-Based Transaction/Trip if an image is available.						
567	The Contractor shall provide the capability to reprocess transactions as Image-Based Transactions/Trips if Transponder-Based Transactions/Trips cannot be Posted to an account and are rejected by the BOS, in accordance with the processing order (Configurable) based on the reject reason.						
568	The Contractor shall provide the capability to validate the transaction/trip and account type and support the processing order (Configurable) of Image-Based Transactions/Trips per Business Rules.						
569	The Contractor shall provide the capability to insert pauses, of durations (Configurable), in transaction processing within the transaction/trip processing sequence to allow for other interactions (for example, a grace period to allow customer to provide payment before a transaction is Posted to a rental car account or an Unregistered account).						
570	The Contractor shall provide the capability to configure whether payments are guaranteed for both Transponder-Based Transactions/Trips and Image-Based Transactions/Trips for each Interoperable/CTOC Agency.						
571	The Contractor shall provide the capability to Post a Transponder-Based Transaction/Trip that is guaranteed for Interoperable/CTOC Agencies to the account, regardless of the account balance.						
572	The Contractor shall provide the capability to Post an Image-Based Transaction/Trip that is guaranteed for Interoperable/CTOC Agencies to the account, regardless of the account balance.						
573	The Contractor shall provide the capability to process Transponder-Based Transactions/Trips and Image-Based Transactions/Trips to an account based on date and time the transaction/trip was received by the BOS in First in First Out (FIFO) order.						
574	The Contractor shall provide the capability to attempt to Post a toll transaction/trip (OCTA or Interoperable/CTOC) that did not Post to the account initially at Configurable intervals for a Configurable amount of time.						
575	The Contractor shall provide the capability to Post tolls/trips based on the particular tolling location. For example, if the transponder has a non-revenue plan for a particular Toll Facility, then transactions/trips for that transponder are charged \$0.00 for transactions/trips on that Toll Facility.						
1.5.6.2.	I-Toll Transaction/Trip Posting						
	Transponders sometimes fail to read when the customer uses the Toll Facilities. This results in the capture and processing of the customer license plate image by the ETTM System. An Image-Based Transaction/Trip along with the license plate image(s) and data is ultimately submitted to the BOS for processing. Accounts with a number of I-Tolls deemed excessive may be notified and those customers may be charged a fee.						
	The BOS identifies the license plate as belonging to the Authority or Interoperable/CTOC account and verifies that the Image-Based Transaction/Trip is eligible for Posting to the account as an I-Toll Transaction/Trip. An I-Toll shall be Posted to an account in accordance with Business Rules. For an Interoperable/CTOC account, an I-Toll shall be sent to the Interoperable Agency for processing only if the license plate is on the valid license plate file for the Transaction Date. Image(s) for I-Toll Transactions/Trips shall be retained by the BOS.						
	The Contractor shall provide the capability to identify and Post I-Tolls belonging to the Authority or Interoperable/CTOC account based on a combination of factors, including but not limited to:						
	· the account status at the time of the transaction/trip;						
	· current account status;						
	· account open date;						
	· effective date and time range for the license plate on the account;

576	<ul style="list-style-type: none"> · Account Plans associated with the account, transponder or license plate; · license plate number; · license plate Jurisdiction; · license Plate Type; · license plate status; · license plate image; · whether the license plate was on the account at the time of the transaction/trip and · the account balance. 						
577	The Contractor shall store the image(s) associated with I-Toll Transactions/Trips.						
578	The Contractor shall provide the capability to check each time a license plate is added to a Registered account and when a license plate start date/time is changed and every day after until resolved to see if any Violations match that license plate and Post all applicable Violations to the account in accordance with Business Rules.						
579	The Contractor shall provide the capability to setup the parameters (Configurable) which trigger an Excessive I-Toll Notification.						
580	The Contractor shall provide the capability to set up the parameters (Configurable), which trigger the application of the Excessive I-Toll fee, including a grace period after a customer is notified.						
581	The Contractor shall provide the capability to apply the Excessive I-Toll fee in the future only when a percentage (Configurable) of monthly transactions are processed by plate.						
1.5.6.3. Toll and Discount Posted							
	The transactions/trips submitted by the ETTM System and the Interoperable/CTOC Agencies will contain multiple toll rates based on the Toll Facility or Interoperable/CTOC Agency, the type of facility and the transaction/trip type (listed below). Based on the Business Rules, the BOS shall apply the applicable discounts and charge the account the correct toll rate.						
582	The Contractor shall provide the capability to apply applicable discounts for Account Plans associated with the account, transponder or license plate to the Transponder-Based and Image-Based Transactions/Trips.						
583	<p>The Contractor shall provide the capability to Post the appropriate toll and discounts to Transponder-Based Transactions/Trips and the Image-Based Transactions/Trips based on various conditions (Configurable), including but not limited to:</p> <ul style="list-style-type: none"> · type of transaction/trip received from the ETTM System, for example non-revenue; · type of transaction/trip received from the Interoperable/CTOC Agencies; · type of Toll Facility, for example Express Lanes; · account balance; · type of transaction/trip at the time of Posting (FasTrak, I-Toll or Violation); · account type; · Flags on the account, for example Excessive I-Toll and · transponder and plate designators (CAV). 						
1.5.6.4. Owner Identification							
	For those Image-Based Transactions/Trips that do not Post to an existing account or Interoperable/CTOC account, the registered owner name and address information for the vehicle (based on the license plate) needs to be obtained from DMV or ROV Lookup Provider sources.						
584	The Contractor shall establish a direct Interface with the California Department of Motor Vehicles (DMV) to perform an ROV look up for each transaction with California license plates.						
585	The Contractor shall establish a direct Interface with the Arizona, Oregon and Nevada Department of Motor Vehicles (DMV) to perform an ROV look up for any applicable trip.						
586	The Contractor shall provide a ROV Lookup Service Provider to be used to perform an ROV Lookup for each transaction with license plates from all other States, the District of Columbia and the U.S. Government.

587	The Contractor shall provide the capability to identify California temporary plates based on numbering sequence and other information provided by the DMV.						
588	The Contractor shall provide the capability to lookup temporary license plates issued by the California DMV utilizing a separate database for temporary plates.						
589	The Contractor shall provide the capability to obtain and store Vehicle Identification Number (VIN) for a temporary license plate and using the VIN, associate the temporary license plate to permanent plate to ensure only a single Unregistered account is created for the vehicle and that California DMV hold is placed on the permanent plate, if applicable.						
590	The Contractor shall provide the capability to manage addresses associated with Protected Plates agencies, which is the agency name returned from the DMV or ROV Lookup Provider for license plates of customers affiliated with federal, state or local agencies allowed to shield addresses. including but not limited to:						
	· allow Authorized Users to input, delete and update the addresses associated with Protected Plates agencies;						
	· electronically check against the Protected Plate data when a Protected Plate agency name is returned from the DMV or ROV Lookup Provider;						
	· automatically produce the Violation Notice with the Protected Plate agency address;						
	· allow the option for an Authorized User to review, edit and approve the Violation Notice prior to sending and if there is no match for a Protected Plate agency, hold the Violation for a Configurable period of time and allow an Authorized User to manually enter an address when obtained and send.						
591	The Contractor shall provide the capability to establish separate, ROV Lookup parameters (Configurable) to obtain the ROV, based on various criteria including but not limited to:						
	· whether the license plate is issue by a state which there is a direct DMV connection or through an ROV Lookup Service Provider;						
	· whether the license plate is a temporary plate (California only);						
	· Flags on the account, for example if the account has a bad address Flag or ROV is stale, then ROV Lookup is performed at intervals (Configurable) until a new address is obtained and cost of ROV Lookup, for example if ROV Lookups are at no cost then perform lookup every time (possibly daily) when a Violation Notice is about to be issued for the license plate.						
592	The Contractor shall provide the capability to identify and manage Violations which do not meet the criteria for a Violation Notice to be issued because the Violation date is greater than the Configurable number of days old.						
593	The Contractor shall provide the capability to identify and manage Violations which do not meet the criteria for a Violation Notice to be issued based on Business Rules.						
594	The Contractor shall provide the capability to identify and manage Violations which have no match after ROV Lookup and allow for a Configurable number of days to attempt to obtain the ROV through other methods.						
595	The Contractor shall provide the capability to view the transaction/trip and its associated image(s) and select the correct license plate registration information in the event there are multiple ROV matches returned by the ROV Lookup Service Provider for a particular license plate.						
596	The Contractor shall provide the capability to review the results and take appropriate action of partial ROV information matches and confirm the account that matches the ROV name and address.						
597	The Contractor shall provide the capability to automatically create an Unregistered account for the license plate using the ROV results if there is no match to an existing Registered or Unregistered account.						
598	The Contractor shall provide the capability to identify potential match to a Registered account based on name and address and notify the customer and add the plate and transactions.						

Volume II BOS Technology and Functionality

599	The Contractor shall provide the capability to review the transactions/trips where the registration information is not available. The BOS shall retrieve all images associated with the transactions/trips and make them available to the Authorized User for review. The Authorized User can take the following action on the transactions/trips, including but not limited to: · manually enter the ROV data and · correct the license plate data.						
600	The Contractor shall provide the capability to re-submit license plates for ROV Lookup a number of times (Configurable) and after a period of time (Configurable) if the license plate is returned from the ROV Lookup Service Provider with no match or an error. The configuration shall be based on the type of error and the status of the communications.						
601	The Contractor shall provide the capability, if there is no response for the ROV Lookup after the number of retries (Configurable), and license plate registration information cannot be obtained, to automatically set the transaction/trip to "Unknown DMV status".						
602	The Contractor shall provide the capability, if the ROV information cannot be obtained, Post the transaction to a Registered account if the transaction/trip also contained an OCTA transponder read.						
603	The Contractor shall provide the capability to automatically record, set and maintain the ROV Lookup source based on license plate Jurisdiction.						
604	The Contractor shall provide the capability to set the length of time (Configurable by Jurisdiction) before ROV information needs to be rechecked before the license plate registration information is considered stale and must be acquired again.						
605	The Contractor shall provide the capability to set the length of time (Configurable) before ROV information for temporary license plates needs to be rechecked individually to obtain the associated permanent license plate number.						
606	The Contractor shall provide the capability to retain all historical ROV Lookup information, including but not limited to: · source of license plate ROV data; · ROV data changes and · the date the data was obtained.						
1.5.6.5. Transfer of Responsibility							
	The California Vehicle Code provides for the registered owner of a vehicle to name another individual as the person responsible for toll evasion notices. In order to comply with this Requirement, the BOS will need to record the named responsible person and process applicable NTEV accordingly.						
607	The Contractor shall provide the capability to transfer the responsibility to another party, including but not limited to: · uploading supporting documentation; · allowing for Authorized Users to enter the responsible party's name and address information for one or many Violation Notices; · dismissing the Violation Notices (including applicable tolls and fees) for the original ROV; · establishing an Unregistered account for the new ROV; · issuing Violation Notice(s) as applicable to the new ROV and · maintain history of the responsibility transfer activities.						
1.6. Registered and Unregistered Account Notifications							
1.6.1. Outgoing Notifications							
	The creation and sending of outgoing Notifications includes multiple distribution channels, such as electronic transmission (email, text), print and mail, and outbound phone calls. Notification management shall provide several methods of delivery and allow for configuring how each Notification item shall be delivered. All Notifications related to an account shall be associated with that account and Case, if applicable, in the BOS.						

Volume II BOS Technology and Functionality

	Alerts are normally Notifications that customers opt-in for so that they can be notified (usually by text or email) when their account needs attention or when activities occur on their account. Alerts can also be Notifications based on account events of which the Authority would like customers to be informed.						
	Notifications are sent using distribution channels, such as email, text, phone call and United States Postal Service (USPS) mail.						
	There are unique Notification items, for example, a Notice of Toll Evasion Violation, an insufficient balance letter or an email Notification that the customer's account has been replenished.						
	Each Notification item has criteria which triggers its generation. When an account meets specified criteria, the account qualifies for a specific Notification item. For example, an account qualifies for a Credit Card Expiring Notification one month before the Credit Card expiration date and an account qualifies for a Violation Notice after the ROV information has been obtained.						
608	The Contractor shall provide all outgoing Notifications with a standard look and feel and submit samples of all Notifications to the Authority for Approval, prior to distribution to customers.						
609	The Contractor shall provide a Notification management process regardless of the Notification item or the distribution channel used to send the Notification.						
610	The Contractor shall develop a communication matrix for configuring the Notifications and their allowable distribution channel. This matrix shall be Configurable and will change over the life of the Contract.						
611	The Contractor shall provide a process to automatically issue each Notification when the criteria in the Business Rules is met.						
612	The Contractor shall produce and deliver print Notifications to the USPS Monday – Friday.						
613	The Contractor or its Print/Mail House Service Provider (optional) shall produce and deliver the Notifications to the USPS within two (2) Business Days of the Notification meeting the Business Rules for generation.						
614	The Contractor shall produce and deliver all electronic or phone Notifications to the customer within one (1) Business Day of the Notification meeting the Business Rules for generation.						
615	The Contractor is responsible for the quality and accuracy of the all Notification and shall review Notifications produced in-house or by its Print/Mail House Service Provider (optional), as the Contractor deems necessary to ensure accuracy of the notifications for complete addresses, correct information and Notification template/version and accurate dates.						
616	The Contractor shall provide the capability to automatically associate all outbound Notifications with the appropriate account and Case, if applicable.						
617	The Contractor shall provide the capability for customers to opt-in for Alerts and select the conditions that will result in the creation of Alerts. Customer shall have a choice of selecting the method in which they receive the Alert; a text or email.						
618	The Contractor shall provide the capability to automatically initiate customer Alert Notification based on account events, including but not limited to:						
	· an I-Toll was Posted to the account;						
	· Violation on license plate registered to customer's address on file;						
	· transponder order placed;						
	· transponder shipped;						
	· Credit Card expiry date within days (Configurable) of expiry;						
	· account balance an amount above Insufficient Balance Threshold (Configurable);						
	· daily account balance;						
	· payment Posted to account;						
	· returned check;						
· account auto-replenishment (Credit Card) failure/declined Credit Card;							
· an ACH transaction is rejected and

631	The Contractor shall provide the capability to send scheduled and ad-hoc, bulk mail Notifications.						
632	The Contractor shall provide the capability to read, capture, and create the USPS Intelligent Mail Barcode on incoming and outbound mail.						
633	The Contractor shall provide the capability for Notifications to include images, graphics, and lists (for example, lists of license plates and/or transponders) as well as text.						
634	The Contractor shall provide standard templates for each Notification item.						
635	The Contractor shall provide the capability to add a barcode, scan line or Quick Response Code to each outgoing Notification piece (excluding text and email body copy Notifications) so the returned Notification can be scanned and automatically associated with the proper account and, if applicable, Case. The barcode shall be visible in the top of the envelope window so as not to interfere with the USPS but to be available to scan as returned mail without having to open the envelope.						
636	The Contractor shall provide the capability to add checksum digits to barcodes on Notices and other correspondence that will likely return to the BOS or Lockbox Service Provider (optional) or Collection Agency. Barcode readers shall be able to support such checksum on barcodes and the BOS shall validate it.						
637	The Contractor shall provide the capability to ensure historical Notifications associated with accounts do not change (maintain original form and content) regardless of any changes that are subsequently made to the template for that Notification item.						
638	The Contractor shall provide the capability to create and assign version numbers/dates to Notification templates.						
	The Contractor shall provide the capability to manage/configure Notifications and their attributes according to Business Rules, including but not limited to: · add new Notifications; · deactivate Notifications; · view and select for activation past versions of Notifications; · criteria; · frequency; · escalation path; · whether based on actual account balance or balance due (calculated); · whether to send for third-party address look up; · a variable due date based on the number of days (Configurable) until payment is due; · a fixed date due (for example, monthly customer Anniversary Day);

639	· number of days until action must be taken;						
	· the number of days between the due date and escalation to the next Notification level;						
	· number of days between the creation date and issue date;						
	· a fixed issue date (for example, monthly customer Anniversary Day);						
	· the number of Business Days between the due date and escalation to the next Notification level;						
	· number of Business Days between the creation date and issue date;						
	· number of times to resend;						
	· number of days before the Notification is resent;						
	· whether or not to resend or reissue if a new address is received;						
	· whether to escalate but not print if address is marked 'bad';						
	· allowable distribution channel(s);						
	· distribution channel escalation;						
	· number of days from the mailing of the dispute reject letter to extend the Violation Notice payment date;						
	· eligible address type, for example, Notice of Toll Evasion Violation must be mailed to the ROV's address as provided by the ROV Lookup source;						
	· address source priority, for example, mail to the ROV Lookup address and if that piece is returned with a forwarding address then use forwarding address;						
· Notification response address, for example, some Notifications may require that payment go to the Lockbox Service Provider (optional) while others require response be sent to the BOS;							
· Notification return address, for example, some Notifications may use the return address of the Collection Agency while others will use the mail house address;							
· Notification quality review sample size and							
· whether Notification quality review and approval is required.							
640	The Contractor shall provide the capability for Notification to have a mailing date match the actual mail date of the USPS on the Notification. For example, if quality review activities and printing take two days, then the issue date would be two (2) days later than the date that the Notification was created.						
641	The Contractor shall provide the capability for Authorized Users to view all versions of each Notification item (including those items that have been modified), including but not limited to:						
	· date modified;						
	· version number;						
	· Authorized User who made the modification(s) and samples of the Notification as it looked in all previous versions.						
642	The Contractor shall provide the capability to select a Notification target audience, for either pre-developed or ad-hoc Notification, using criteria including but not limited to:						
	· use of a particular Toll Facility (overall or by direction);						
	· use of a particular Toll Zone (overall or by direction);						
	· use of a particular Toll Facility or Toll Zone during a specified period of time;						
	· use of a particular payment method;						
	· transactions/trips by time period;						
	· transactions/trips by ZIP code;						
	· transactions/trips by Vehicle Type;						
	· transactions/trips by account type;						
	· transactions/trips by Account Plan;						
	· transactions/trips by transponder type;						
	· recipients of Notice of Toll Evasion Violation issued for selectable Toll Facility use;						
	· recipients of Notice of Toll Evasion Violation issued for selectable time periods and recipients of Notice of Toll Evasion Violation issued for a combination of selectable Toll Facility use and selectable time period.

643	The Contractor shall provide the capability to view and Approve Notifications prior to distribution to the customer.						
644	The Contractor shall provide the capability to email, send to the Print/Mail House Service Provider (optional) for printing and mailing or reprint at a local printer any Notification directly from the account, Case or Notification search screens. For example, the customer called about a Case and requests that the CSR resend the letter by email to the customer. The CSR is in the Case and clicks to resend the letter to the provided email address.						
645	The Contractor shall design the Notifications to meet all criteria for receiving the lowest postage rate.						
646	The Contractor shall employ bulk mail rates and other mailing economies, including, the capacity for pre-sorting mail by zip code and USPS Intelligent Mail Barcode to ensure the most cost-effective postage rates are obtained.						
647	The Contractor shall provide all postage meters and establish all post office boxes needed for customer communications.						
648	Outgoing mailed Notification materials shall use the following materials:						
	· all mailed Notifications - 24lb paper;						
	· all mailed Notifications up to 3 pages - #10 window envelope;						
	· all mailed Notifications 4- 9 pages – 6"x 9" envelope;						
	· all mailed Notifications 10 or more pages – 9"x 12";						
649	· the non- Authority provided flyer - a single 8.5" x 11" piece of paper and · all return envelopes - #9 window envelopes.						
649	All Notifications printed in color shall use two colors.						
1.6.1.1. Print/Mail House Service Provider (optional)							
	The use of a third-party Print/Mail House Service Provider is at the discretion of the Contractor and shall be at no additional cost to the Authority. If provided, the following Requirements apply.						
650	If the Contractor elects to use a third-party Print/Mail House Service Provider (optional), the selected third-party Print/Mail House Service Provider shall be located in and mailing the Authority's Notifications from the State of California.						
651	The Contractor shall provide the capability to resend any files rejected or not received by the Print/Mail House Service Provider and update the Notifications with new mail and due dates as applicable.						
652	The Contractor shall provide the capability to transmit fully created Notification items for printing and distribution to the Print/Mail House Service Provider, if utilized, for example, in Adobe PDF or XML format.						
653	The Contractor shall provide the capability to transmit Notification items as a data file for printing and distribution to the Print/Mail House Service Provider, if utilized.						
1.6.1.2. Notification Tracking, Distribution and Returned Mail Processing							
654	The Contractor shall provide the capability to track the USPS Intelligent Mail Barcode Notification delivery response for each individual Notification.						
655	The Contractor shall provide the capability to send an Operational Alert Notification to the PMMS if reconciliation from the Print/Mail House Service Provider (optional) has not been received in a specified amount of time (Configurable).						
656	The Contractor shall provide the capability to assign a status to each individual Notification, including but not limited to:						
	· qualified;						
	· in quality review;						
	· sent to Print/Mail House Service Provider (optional);						
	· acknowledged by the Print/Mail House Service Provider (optional);						
	· distributed;						
656	· undeliverable and · reissued.

657	The Contractor shall provide the capability to create a Notification record for each Notification generated, including but not limited to: <ul style="list-style-type: none"> · distribution channel; · date the account qualified to have that Notification generated; · date the Notification was generated; · date the Notification was sent to the Print/Mail House Service Provider (optional); · due date (if applicable); · date the Notification was printed; · date the Notification was mailed; · date the Notification was identified as undeliverable and · date the Notification was reissued, for example, if a Notification is returned with a forwarding address, a new Notification is sent to the new address. 						
658	The Contractor shall provide the capability to check the NCOA database before a Notification is mailed and use the NCOA address if it is the latest based on the address selection hierarchy (Configurable) for the Notification item.						
659	The Contractor shall provide the capability to automatically associate and store a copy of the Notification with the account upon successful mailing of the Notification as verified and provided by the BOS or Print/Mail House Service Provider (optional).						
660	The Contractor shall provide the capability to process returned mail and enter a new address, if notified by the Print/Mail House Service Provider (optional) or the USPS.						
661	The Contractor shall provide the capability to process returned mail and mark the address as undeliverable if notified by the Print/Mail House Service Provider (optional) or the USPS.						
662	The Contractor shall provide the capability to process returned mail in bulk and mark the address as undeliverable if notified by the Print/Mail House Service Provider (optional) or the USPS without having to access each account and individual Notification in BOS. For example, by scanning the Notification barcode into a BOS form for an entire batch of returned mail.						
663	The Contractor shall provide the capability to Flag returned mail as undeliverable and Flag the address as bad.						
664	The Contractor shall provide the capability to prevent Notifications from being escalated and sent to addresses marked as undeliverable or to continue to escalate and generate such Notifications but not print them (Configurable).						
665	The Contractor shall provide the capability for an Authorized User to initiate a manual Skip Tracing process on an individual record.						
666	The Contractor shall provide the capability, when a mailing address is found to be bad, to automatically perform Skip Tracing and add the acquired mailing address or other contact information to the account and identify the source of the address as Skip Tracing.						
667	The Contractor shall, if a new address was provided, automatically mark the returned Notification as returned and generate a new Notification with new dates as applicable. Escalation dates, if applicable, in the BOS shall be updated based on the new Notification dates.						
668	The Contractor shall provide the capability to manually select Notifications to be re-sent, for example, when a new address has been provided and manually entered.						
669	The Contractor shall provide the capability to send a Notification to a customer regarding an undeliverable mail situation by using a different distribution channel (Configurable).						
670	The Contractor shall provide periodic checks for bad (bounced) emails and mark them as undeliverable after a number of failed delivery attempts (Configurable).						
671	The Contractor shall provide the capability to send a Notification to a customer regarding an undeliverable email situation by using a different distribution channel (Configurable).						
672	The Contractor shall provide the capability to mark phone (for both calls and text) and fax numbers as bad after a number of failed contact attempts (Configurable).

1.6.2. Registered Account Statements, Postpaid Invoices and Violation Notices – General							
	Statements – statements are generated for customers with Registered accounts, which customers can choose to receive by mail or email, or they can access statements online or via a mobile device.						
	Postpaid Invoices – if the Authority elects to offer postpaid accounts, those customers will receive an invoice on their Anniversary Day listing each transaction/trip for the billing cycle. If a postpaid account has no new transactions or other financial activity for a billing cycle, the customer will not receive an invoice. Non-payment of the first invoice shall result in the generation of a late invoice with additional fees. Non-payment of the late invoice shall result in the account being flagged as delinquent. The postpaid account shall continue to receive invoices for subsequent transactions/trips and delinquent debt may be placed in Collections. At such time each unpaid transaction/trip identified by the users will be considered a Violation and the customer shall receive a Notice of Toll Evasion Violation with each unpaid transaction.						
	Violation Notices – issued in accordance with the California Vehicle Code (CVC) and Authority Business Rules.						
674	The Contractor shall provide the capability to determine the account Anniversary Day, based on account type, including but not limited to: · account type; · account creation date; · date of first transaction and · date of initial invoice.						
675	The Contractor shall provide the capability to generate the statements on the Anniversary Day even if the account has no transactions/trips and other financial activity for the current statement cycle (Configurable).						
676	The Contractor shall provide the capability to generate the invoices on the Anniversary Day only if there are unpaid transactions/trips or other financial activity on the account that have not appeared on an invoice (Configurable).						
677	The Contractor shall provide the capability to automatically change the Anniversary Day when a new invoice is issued in place of an old invoice that is canceled. For example, if an invoice is issued on 1/5 and then returned by the USPS on 1/10, then reissued 1/15, reset the Anniversary Day from 1/5 to 1/15 to give the customer enough time to pay the 1/15 invoice before sending the next one.						
678	The Contractor shall provide the capability to generate the appropriate type of correspondence (statement, invoice), based on the account type, and account balance on the Anniversary Day or during the billing cycle.						
679	The Contractor shall provide the capability (Configurable) to set and maintain statement, invoice and Violation Notice generation parameters, including but not limited to: · type of correspondence based on account type, such as a Registered account receives a statement and Unregistered (violation) account a receives Violation Notice; · whether to include multiple Violations on a single notice by number of days since first transaction or number of transactions; · date when statement is generated, such as fixed end of the month for all accounts, any fixed date within a month or Anniversary Day; · type of statement, invoice, such as monthly, quarterly, annual; · delivery channel, such as electronic or mail; · acceptable payment methods; · acceptable payment channels; · invoice fee assessed each time an invoice is mailed and · document fee amount, such as a fee for a paper statement and electronic statements are no cost.

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
680	The Contractor shall provide the capability to generate each type of statement, invoice and Violation Notice based on, including but not limited to: · rolling Anniversary Day; · fixed day; · number of days from transaction (Configurable); · customer specified day of the month; · dollar amount threshold; · number of transactions/trips; · fixed time period; · Transaction Date; · combination of number of transactions/trips and fixed time period; · combination of dollar amount threshold and fixed time period and · combination of number of transactions/trips and dollar amount threshold.						
681	The Contractor shall provide the capability for distributing statements, suppressing the delivery of statements and assessing statement fees (if applicable) based on the following, including but not limited to: · account type; · Flag on the account. For example, accounts with USPS Coding Accuracy Support System (CASS™) lookup failure or bad address shall not be mailed a statement; · delivery channel and · delivery status. For example, if a statement fails CASS™ for address lookup, the fee shall not be charged.						
682	The Contractor shall provide the capability (Configurable) to utilize various addresses on the account for mailing statements, invoices and Violation Notices.						
683	The Contractor shall provide the capability to generate statements, invoices and Violation Notices manually, such as when specifically requested by the customer, in any format available for BOS-generated Notifications. Applicable fee(s) shall be charged for those statements.						
684	The Contractor shall provide the capability to balance the generation of statements, invoices and Violation Notices over a period of time, based on volume.						
685	The Contractor shall provide a numbering methodology for invoices, Violation Notices and accounts for the purposes of proper lifecycle documentation, reporting, adjudication and customer service.						
1.6.3. Customer Statements – Registered Accounts							
	Account statements for Registered accounts are generated monthly/quarterly as selected by the customer and as allowed by the Business Rules on the date Configured in the BOS.						
686	The Contractor shall provide the capability to generate Registered account statements that detail all account activity, including but not limited to: · prior balances on the account; · toll transaction/trip activity on the account (posting date, entry/exit location, date, and time, toll amount); · payments on the account (replenishment and one-time payments); · adjustments and credits; · discounts and rebates; · other financial activity on the account; · addition of transponders and purchase of inventory items; · account status; · customer message and global message; · fees assessed on the account and · current balance on the account.						
687	Registered account statements shall list individual transactions that Posted to the account, including but not limited to:

	<ul style="list-style-type: none"> Transponder-Based Transactions/Trips that Posted to the account by transponder and I-Toll Transactions/Trips that Posted to the account by license plate. 						
688	The Contractor shall provide the capability to include customer communication inserts along with customer statements based on user selected criteria, for example zip code and account type.						
1.6.4. Customer Invoices – Postpaid Accounts							
	Most Authority customers are required to maintain a prepaid account balance in order to avoid Violations. In the future, the Authority may enter into postpaid agreements with customers which will permit the use of the Authority's Toll Facility without a prepaid balance. Under this circumstance, the BOS shall periodically bill customers for usage in accordance with the following Requirements.						
689	The Contractor shall provide the capability to support account-based invoicing on postpaid accounts, where the monthly invoice reflects the license plate and transponder transactions that Posted to the account during the billing cycle.						
690	The Contractor shall provide the capability to generate a late invoice which include applicable fees if the first invoice is not paid in full by the payment due date.						
691	The Contractor shall provide the capability to Flag the postpaid account as delinquent and generate an Operational Alert Notification if the late invoice is not paid in full by the payment due date.						
692	The Contractor shall provide Authorized Users the capability to suspend a delinquent postpaid account at which time, all subsequent transactions/trips on the account are considered Violations.						
693	The Contractor shall provide the capability to initiate the delinquency process once the account is suspended on the unpaid transactions/trips which includes generation of Violation Notice and escalation of the delinquent balance on the account to Collections.						
694	The Contractor shall provide the capability to generate postpaid invoices that fully detail all activity, including but not limited to:						
	· prior balance;						
	· current charges;						
	· payments;						
	· adjustments;						
695	· detailed listing of all transponder transactions/trips on the account;						
	· detailed listing of I-Toll Transactions/Trips on the account and						
	· detailed listing of all license plate transactions/trips on the account.						
	The Contractor shall provide the capability (Configurable) to set and maintain invoice generation and transaction aging parameters, including but not limited to:						
	· invoice generation and aging timeline, for example, generate the monthly invoice thirty-days from the Anniversary Day, and amount owed is considered past due and eligible for delinquency process if not paid within five-days of the due date;						
	· account suspension parameters, for example, if account is not suspended by a user within number of days (Configurable) of it being delinquent then BOS shall suspend the account;						
	· number of invoices to issue before account is considered delinquent;						
	· grace period for aging unpaid invoices on an account, for example, a five-day grace period is applied before a late invoice is generated for an unpaid invoice;						
	· eligibility criteria, for example, if customer has at least one (Configurable) un-invoiced toll transaction/trip or other Financial Transaction within the billing cycle then generate a monthly invoice;						
	· aging thresholds and values, for example, if the past due amount on the account is more than \$5.00 and is more than thirty days past due then late fee is assessed;						
· payment thresholds based on underpayment amount for each status or workflow stage, for example, if invoice is underpaid by less than \$0.25, then the amount owed on the invoice is considered closed and							
· fee structure, for example, the fees to be assessed and whether the fees are to be assessed at the invoice level or transaction level.							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O- Offeror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
696	The Contractor shall provide the capability at each status or workflow stage to perform the following actions, including but not limited to: <ul style="list-style-type: none"> · identify the transactions/trips that are eligible for invoicing; · add applicable fees; · add applicable advisory language; · generate next invoice for the time frame established and · transmit the invoice to the customer. 						
697	The Contractor shall provide the capability to enter a forwarding address obtained from returned mail communicated via Interface from an external vendor or manually input, which will result in the re-issue of the monthly invoice and its associated transactions/trips into the transaction aging process. The re-issued invoice shall have a new issue date and a new due date.						
1.6.5. Violations Notification							
	Violators receive a Notice of Toll Evasion Violation when their Violations are eligible for Notification. A Notice of Toll Evasion Violation referred to as Violation Notice may have multiple Violations on the notice where each unpaid transactions/trip is assessed penalties or may only have one Violation per notice. Each Notice of Toll Evasion Violation will contain transaction(s)/trip(s), as well as a fee amount, a penalty, and other information as required by the California Vehicle Code.						
	Violation Noticing and escalation is divided into the following stages: <ul style="list-style-type: none"> · Noticing – In this stage Violators are notified of their Violation(s) when the unpaid transactions/trips escalate to Violations. The Notice of Toll Evasion Violation will list the Violation(s) that occurred during the Configurable time period with each Violation showing the toll amount, the fee amount and the penalty due. Failure to pay the Notice of Toll Evasion Violation within the timeline will result in the escalation of the Violation(s) and the generation of Notice of Delinquent Toll Evasion Violation. Each Violation may be assessed additional fees/penalties. · Registration Hold – If the Violation(s) on the Notice of Delinquent Toll Evasion Violation remains unpaid past the payment due date, the Violation(s) are eligible for a Registration Hold. Currently Registration Holds are only placed for vehicles registered in California. · Tax Intercept –Unpaid Violations may be sent to the California Franchise Board for collection through the Tax Intercept Program. · Collections – Unpaid Violations may be sent to a third-party Collection Agency. The Contractor may be required to send a pre-collection letter using updated information from the Collections Agency. 						
1.6.5.1. Violator Notifications							
698	The Contractor shall, based on the Violation Notice eligibility criteria, per the Business Rules, provide the capability to perform Violation Notice, including but not limited to: <ul style="list-style-type: none"> · first level Notice or the Notice of Toll Evasion Violation; · escalate to second level Notice or Notice of Delinquent Toll Evasion Violation, and · Registration Hold warning and pre-collections Notice, if eligible. 						
699	The Contractor shall provide the capability to process Image-Based Transactions/Trips through the Violation process, per the Business Rules, including but not limited to: <ul style="list-style-type: none"> · verify that the Configurable time frame for making a payment has passed; · convert the Image-Based Transactions/Trips to a Violation by assessing the applicable fees and penalties; · verify that no Internal Review, Administrative Hearing or Superior Court Appeal has been requested; · verify that there is no account hold (occurs when there is a Case that requires the CSR to investigate the violator account and all Violation workflow events are suspended) on the Violations; · verify that there is no account hold on the Notice; · verify that there is no account hold on the account;

706	The Contractor shall provide the capability to place selected individual Violations on hold at any escalation level, including Violations that are not on a Notice.						
707	The Contractor shall provide the capability to prevent the aging and escalation of Violations and Notices that are placed on account hold.						
708	The Contractor shall provide the capability to continue processing the Violations and Notices a Configurable number of Calendar Days after an account hold is released.						
709	The Contractor shall provide the capability to restart the Violation aging timeline a Configurable number of Calendar Days after the issuance of the dispute rejected Notification.						
710	The Contractor shall provide the Configurable capability to automatically initiate multiple escalations on a Notice at the same time based on the type of license plate, for example initiate a vehicle Registration Hold and escalate the Notice to Collections if the license plate was issued in a Jurisdiction that permits concurrent Registration Hold and Collections.						
711	The Contractor shall provide the capability to process Violations for the rental car license plate transactions/trips with the same license plate number and within the same renter's rental period, per the Configurable Business Rules.						
712	The Contractor shall provide the capability to identify Unregistered accounts that qualify as "repeat violators" on a Configurable basis based on Business Rules including but not limited to:						
	· number of open Violations on the account;						
	· no ROV information obtained;						
	· outstanding balance on the account and						
713	· total number of Violations on the account for a given time period.						
	The Contractor shall provide the capability to assess additional penalties on Violations/Notices on Unregistered accounts that are Flagged as repeat violator.						
714	The Contractor shall provide the capability to transmit the license plate data of repeat violator to the ETMM System at Configurable intervals to support manual enforcement of repeat violators.						
715	The Contractor shall provide the capability for Authorized Users to force selected Notices from one escalation level to another and by-pass the eligibility criteria.						
716	The Contractor shall provide the capability to configure and maintain Violation Notice parameters for each escalation level, including but not limited to:						
	· the minimum number of Violations over a Configurable period of time to initiate a Violation Notice;						
	· the aging timelines for escalation of Notices, for example the timeline for escalating from a first level Notice to a second level Notice if the Notice is not paid or dismissed;						
	· the penalties assessed on individual Image-Based Transaction/Trip;						
	· the individual Notice level penalties;						
	· maximum penalty that can be assessed on individual Image-Based Transaction/Trip and account;						
	· the Notice underpayment percentage thresholds to prevent escalation;						
	· the Notice underpayment amount thresholds to prevent escalation;						
	· the maximum Notice amount to be paid to by-pass an escalation level;						
	· the maximum number of Violations on the Notice to halt escalation;						
717	· the maximum amount due on a Notice to halt escalation;						
	· allowable "sinner to saint" offers for violators who establish Registered accounts and						
718	· allowable "early bird special" offers.						
	The Contractor shall provide the capability to automatically advance to the proper Notice processing screen when the Notice barcode is read via the barcode reader.						
	The Contractor shall provide the capability to escalate or place on hold the Notices Flagged as 'bad address' as defined by the Business Rules.

727	The Contractor shall provide the capability to attach the generated Statement to the account and make it automatically available through the account history.						
1.6.5.2. Registered Account Violators							
	When a prepaid Registered account's balance reaches an Insufficient Balance Threshold and all replenishment attempts have failed or when a postpaid, Registered account's invoice is past due, future transactions are Violation transactions/trips and Unregistered accounts are established. Registered account holders usually resolve any account issues bringing the account balance back to good standing so an approach that easily resolves Violations in such situations must be provided along with a method to inform customer of outstanding Violations for plates on their account.						
728	The Contractor shall provide the capability to associate the Unregistered account(s) and Violations created for vehicles on a Registered account while maintaining the privacy of all account holders (both Registered and Unregistered).						
729	The Contractor shall provide the capability to inform Registered account holders of outstanding Violation on vehicles registered to their account while maintaining the privacy of all account holders (both Registered and Unregistered).						
1.7. Payment Processing							
1.7.1. Payment Processing – General Requirements							
730	The Contractor shall utilize the Authority's Bank Accounts in accordance with the flow of funds depicted in Figure 1 3 Customer Transaction Settlement, in Section 1.14.3.						
731	The Contractor shall comply with the California Civil Code Section 1747.08 related to personal identification laws.

732	The BOS shall initiate Credit Card payments with the Merchant Service Provider(s) that will process the electronic payments and deposit funds in the Bank Accounts provided by the Authority in accordance with the flow of funds depicted in Figure 1 3 Customer Transaction Settlement, in Section 1.14.3.						
733	The Contractor shall comply with PCI and all applicable merchant card association agreements and other applicable regulations for the exchange of Credit Card payments.						
734	The BOS shall accept payments through all commercially-available payment methods, including but not limited to: cash, check, money order, certified check, cashier's check, ACH and Credit Card.						
735	Certain payment methods, such as cash, EMV chip integrated circuit card and mobile contactless NFC shall be accepted only at WICs.						
736	The BOS shall accept payments through its agreements with Lockbox Service Provider (optional) and Collection Agency.						
737	The Contractor shall implement appropriate controls to ensure the security of payment transactions, including controls over cash, checks and customer Credit Card information. These controls shall be PCI and GAAP compliant and meet the requirements for a Statement on Standards for Attestation Engagements (SSAE)-18 Type II Audit.						
738	Credit Card and ACH information shall be tokenized and the information shall be stored by a certified 3rd party processor. The 3rd party processor(s) may also be the Contractor-provided Merchant Service Provider and/or another Contractor-provided certified 3rd Party.						
739	The Contractor shall process, deposit and record all customer payments the same day received from the customer, using the most efficient and cost-effective methods available in the industry (for example, by utilizing remote deposit/Check 21 as opposed to sending physical checks to the bank).						
740	The BOS shall provide the capability to process all payments accepted and apply them toward, including but not limited to:						
	· prepaid balance,						
	· specific toll transactions,						
	· specific account fees,						
	· purchase of inventory items (ex. transponders),						
	· invoice payments,						
741	The BOS shall handle all payment exceptions including but not limited to:						
	· partial payments,						
	· overpayments,						
	· return payment,						
	· chargebacks,						
	· errors in applying payments,						
742	· refunds and						
	· reversals.						
742	All successful payments made via Credit Card shall have a viewable, searchable authorization code for the transaction which shall be included on applicable reports.						
743	The Contractor shall provide the capability to process transactions, including but not limited to:						
	· sales;						
	· chargebacks, chargeback reversals and representations;						
	· returned payments (for example, returned checks);						
	· payment plan payments;						
	· adjustments;						
	· reversals;						
· voids and							
	· refunds (except for cash).

		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
744	The Contractor shall provide for the processing of all payments and account replenishments, including but not limited to: · account prepaid balance; · tolls; · fees; · penalties; · invoices; · Notices; · non-toll transactions; · transponder sales (full price, warranty sale, no sale, promos and coupons); · Account Plans and · inventory purchases, including transponders.						
745	The Contractor shall provide real-time, fully automated payment clearing and processing for all electronic payment methods.						
746	The Contractor shall interface with one or more Merchant Service Providers (no more than three) for the purpose of settling Credit Card transactions.						
747	The Contractor shall send replenishment requests to, and capture the results returned from, the Merchant Service Provider and update accounts accordingly.						
748	The Contractor shall provide the capability to process a payment for multiple, unrelated charges (bulk payments) and accommodate the reversal of such payment. For example, pay an invoice or Violation Notice (for one or multiple Violations) in one account and fund another account's prepaid balance or Post batch payments from rental processors for individual transactions/Violation Notices.						
749	The Contractor shall provide a proven and reliable method of communicating with the Merchant Service Provider(s).						
750	The Contractor shall provide the capability to identify and process overpayments, including but not limited to: · re-assign to an alternate account; · apply to unpaid transactions/trips; · refund overpaid amounts and · apply overpaid amounts to account balance.						
751	The Contractor shall provide the capability to notify the customer about all partial and overpayments.						
752	The Contractor shall provide tracking of payment transactions by, including but not limited to: · Transaction Date; · Posting Date and · payment channel.						
753	The Contractor shall provide the capability to apply multiple payment methods for a single payment. For example, for a \$30.00 amount due, allow payment of \$20.00 from a Credit Card associated with the account and \$10.00 cash.						
754	The reversal of any payment shall result in the items paid being marked as unpaid, having the same effect as if those items had never been paid (for example, when a Violation payment is returned, escalation resumes at the point where it left off as opposed to restarting from the beginning of the escalation process).						
755	The Contractor shall provide the capability to use the available account balance as payment for all inventory items (for example, transponders) and show the detailed changes in account balance in the user interface, to customers on the Self-Service Website and on customer statements.						
756	The Contractor shall engineer the payment process to prevent double-payments, for example, prevent an Authorized User or customer from making two identical payments by clicking the payment button twice.

757	The Contractor shall engineer the payment process to prevent an Authorized User or customer from making payments in excess of a certain amount (Configurable).						
758	The Contractor shall display a confirmation page that includes payment method details (Credit Card numbers obscured) and amount to be paid prior to the Authorized User or customer being allowed to submit a payment.						
759	The Contractor shall provide audit trail and exception reporting that helps reconcile discrepancies between the BOS and the Merchant Service Provider.						
760	The Contractor shall provide summary and detail data by payment type on the processing status of all transactions, including a description of all failures.						
761	The Contractor shall provide Authorized Users the detailed reasons for Credit Card declines, including but not limited to:						
	· invalid card number;						
	· name mismatch;						
	· card Security Code mismatch;						
	· contact Credit Card company and address mismatch.						
762	The Contractor shall create an audit trail and an Operational Alert Notification via the PMMS regarding failures in the processes that interface with the Bank.						
763	The Contractor shall create an audit trail and an Operational Alert Notification via the PMMS regarding failures in the processes that interface with the Merchant Service Provider or with the communications to the Merchant Service Provider.						
764	The Contractor shall provide the capability to notify customers of failures in the processes that interface with the Merchant Service Provider (for example, when there is a loss of communication between the BOS and the Merchant Service Provider).						
765	The Contractor shall provide the capability to notify customers about various auto-replenishment activities. For example, replenishment was successful with secondary payment method, or replenishment failed.						
766	The Contractor shall provide detailed tracking and reconciliation of payments.						
767	The Contractor shall provide the capability to accept payments to a Registered account resulting in the payment of all unpaid Violation Notices and Violations on the linked Unregistered accounts plus fees and/or penalty based upon escalation stage (Configurable).						
768	The Contractor shall provide the capability to set a payment hierarchy for Registered accounts (Configurable) that determines the order in which payments are applied, including but not limited to:						
	· in FIFO order;						
	· by Transaction Date;						
	· by Posting Date;						
	· by payment item type (for example, tolls then fees) and by combination of date and transaction/trip type.						
769	The Contractor shall provide the capability to set a payment hierarchy Configurable for Unregistered accounts that determines the order in which payments are applied, including but not limited to:						
	· in FIFO order;						
	· by Transaction Date;						
	· by Posting Date;						
	· by payment item type (for example, Violation Notices, penalties then fees) and by combination of date and transaction/trip type.						
770	The Contractor shall provide the capability to accept payments for specific items as requested by the customer (and allowed under the Business Rules).						
771	The Contractor shall produce receipts for all payments in both real-time (on demand) and automatic (for auto replenishment).

772	The Contractor shall transmit receipts to customers on customer request via any Notification channel.						
773	The Contractor shall allow for reprinting of receipts for all payments in a PCI-compliant format. Reprinted receipts shall be exact copies of the original receipt and shall include the duplicative nature of the document and include the date of the reprint (for example, the reprinted receipt shall be marked "COPY" and indicate the date of the copy with the original receipt date also reflected on the document).						
774	The Contractor shall provide the capability to trace each payment to the transactions paid and each transaction paid or prepayment to a payment, including but not limited to:						
	· invoices;						
	· Violation Notices;						
	· tolls;						
	· prepaid tolls;						
775	· fees and						
	· penalties.						
775	The Contractor shall provide the capability to accept payments for transactions/trips associated with a license plate that has not yet been associated with an account.						
776	All receipts shall contain a payment reference number that is traceable through the entire payment clearing process. For example, a Credit Card payment's reference number as printed on the receipt will also appear on the customer's Credit Card statement and is a searchable field in the database, enabling a CSR to identify a payment applied to an account from only the details available on a customer's Credit Card statement.						
777	The Contractor shall provide the capability to convert an Unregistered account to a Registered account, taking one payment for the outstanding Violation amounts and the amount required to open a Registered account.						
778	The Contractor shall provide the capability to search for a payment by date, payment source, Credit Card # or Bank Account information.						
779	The Contractor shall provide the capability for Authorized Users to conduct research on un-allocated funds, including viewing images of original payment items (checks), correspondence, and data entered into the BOS at the time the check was Posted.						
780	The Contractor shall provide the capability for Authorized Users to Post payments from un-allocated funds to accounts while preserving the payment's audit trail (for example, once applied to the account, Authorized Users shall have the ability to determine when the payment was Posted to un-applied, any activity that occurred while it was in that status, and when it was Posted from un-applied to the account).						
781	The Contractor shall provide the capability to age un-applied payments, to report on such payments and to generate Alerts when un-applied payments have exceeded a specified age (Configurable).						
1.7.2. Payment Methods and Handling							
782	The Contractor shall provide the capability to accept payments, including but not limited to:						
	· in-person at WICs;						
	· over the phone with a CSR;						
	· over the phone via the IVR;						
	· automatic payments;						
	· via the Self-Service Website;						
783	· via the Self-Service Mobile Application (Phase II and optional);						
	· via mail and						
	· via the Lockbox Service Provider (optional).						
783	The Contractor shall provide the capability to calculate the required payment during account creation based on, but not limited to:						
	· the prepayment Requirements;

	<ul style="list-style-type: none"> cost of inventory items (for example, transponders) and any Account Plan fees. 						
784	The Contractor shall provide the capability to store Credit Card information for one-time payments (for example, permit customers to enter Credit Card information once and then use that stored Credit Card to make one-time payments on their account without being required to rekey the Credit Card information).						
785	The Contractor shall provide the capability to accept payments, including but not limited to:						
	· one-time payments;						
	· recurring fixed amount payments;						
	· recurring varying amount payments;						
	· a combination of fixed and varying amounts (payment plan monthly payment plus recurring auto replenishment);						
	· recurring maximum replenishment amount per payment method on the account (for example, if the replenishment amount is \$10,000 but maximum replenishment allowed for that Credit Card is \$1,000 there should be 10 \$1,000 replenishments);						
	· recurring payments on a fixed day of the month;						
· recurring payments every "x" number of days (for example, every 28 days);							
· recurring payments for Postpaid accounts as, fixed number of days after the invoice is issued (Configurable) and							
· recurring payments triggered by account balance.							
786	The Contractor shall provide the capability to accept and Post in the BOS payments and adjustments transmitted from the Collection Agency.						
787	The Contractor shall provide the capability to process payments directly in the BOS for all accounts in any status with any balance.						
788	The Contractor shall provide the capability to accept the following types of payments made in-person or by mail at all Approved locations, including but not limited to:						
	· cash (at in-person locations only);						
	· check;						
	· cashier's check;						
	· certified check;						
	· money order;						
	· e-check (not available by mail);

· mobile contactless NFC (at in-person locations only).							
789	The Contractor shall provide the capability to accept Credit Card payments made via the IVR, via the Self-Service Website and via the Self-Service Mobile Application (Phase II and optional).						
790	The Contractor shall provide the capability to accept all major Credit Cards, including:						
	· Visa;						
	· MasterCard;						
	· American Express and						
· Discover Card.							
791	The Contractor shall provide the capability for accepting Credit Card, EMV and mobile contactless NFC payments via POS devices for payments made in-person.						
792	The Contractor shall provide the capability for accepting Credit Card payments by manually entering Credit Card information for payments made in-person.						
793	The Contractor shall provide the capability to Post payment transaction(s) to the account when payment related actions occur, including but not limited to:						
	· successful payment processing, and

	unsuccessful payment processing, for example recording a failed attempt.						
794	The Contractor shall provide the capability to refund checks that have been Posted to the BOS but cannot be matched successfully to an account.						
795	The Contractor shall provide the capability to Flag that an account has had returned checks.						
796	The Contractor shall provide the capability to Flag that an account has had declined Credit Card charges.						
797	The Contractor shall provide the capability for an Authorized User to correct or reverse payments applied in error, including but not limited to payments applied to multiple transactions or accounts, via Cases.						
798	The Contractor shall provide the capability to require approvals for payment corrections via Cases.						
799	The Contractor shall provide the capability to prevent corrections to or reversals of payments that have already been refunded, for example, payments that have been reversed entirely cannot be reversed again or refunded.						
800	The Contractor shall ensure all adjustments to payments are shown on the account and are reconciled.						
801	The Contractor shall provide the capability to process multiple chargebacks on a payment if the previous chargebacks are reversed or represented.						
802	The Contractor shall provide detailed tracking of payments by payment categories, for example, payments, declines, reversals, returned payments, chargebacks, chargebacks reversals, chargeback representments, refunds, voided refunds and replenishment.						
803	The Contractor shall provide detailed tracking of payments by payment methods, for example, cash; check; Credit Card; ACH and mobile contactless NFC.						
804	The Contractor shall provide detailed tracking of payments by payment type, for example, Visa; MasterCard; American Express and Discover Card.						
805	The Contractor shall provide detailed tracking of payments by payment items, for example, invoices; Violation Notices; fees; penalties; tolls and prepaid tolls.						
806	The Contractor shall provide detailed tracking of payments by payment locations, for example, Self-Service Website, Self-Service Mobile Application (Phase II and optional), Lockbox Service Provider (optional) and Collection Agency.						
1.7.3.	Merchant Service Provider (MSP)						
	The MSPs shall process all Credit Card, Debit Card and ACH Services described in these Requirements.						
807	The Contractor shall contract with two (2) separate MSPs for processing of BOS payments. The Contractor shall work with the Authority in determining the volumes and types of processing assigned to each MSP, which may result in shared processing or all processing being assigned to one (1) of the MSPs.						
808	The Contractor and MSPs shall provide Credit Card and Debit authorization for the BOS (card not present / internet and card present for the Walk-in Center) utilizing one or more merchant identification numbers.						
809	The Contractor and MSPs shall provide ACH clearing for the BOS.						
810	The Contractor and MSPs shall provide complete, flexible and timely online reporting services, including detailed transactions on chargebacks, card transactions, deposit totals and batch totals and summary information per merchant and for the Authority overall.						
811	The Contractor and MSPs shall provide all reporting online.						
812	The Contractor and MSPs shall provide a monthly analysis statement showing detailed charges for all account services for each merchant ID, including a combined statement analysis.						
813	The Authority shall be assigned dedicated MSP account representatives that can be contacted through a toll-free number and email.						
814	The MSPs shall provide customer support during business hours Monday through Friday 7:00 a.m. until 6:00 p.m. PST.

815	The MSPs shall provide seven (7) days per week technical support utilizing a customer service phone number.						
816	The Contractor and MSPs shall cooperate with the Authority on assignment of accounts. The Authority will assign all bank accounts for the Authority's settlements and merchant activity. No merchant numbers or identifications shall be assigned to the Authority without written notice from the MSPs and Approved by the Authority.						
817	The Contractor and MSPs shall provide payment, settlement, and refunding services.						
818	The Contractor and MSPs shall provide daily settlement of merchant accounts.						
819	The Contractor and MSPs shall make next day deposits after settlement into the OCTA bank accounts.						
820	The Contractor and MSPs shall provide immediate online access to outstanding retrieval requests and chargebacks.						
821	The Contractor and MSPs shall provide a fully electronic online chargeback system that will accept electronic signatures and support files to satisfy outstanding retrieval requests and chargebacks.						
822	The Contractor and MSPs shall provide the ability to generate ad hoc reports with extracted information based on user-defined parameters.						
1.7.4. Payment Processing and Lockbox (optional)							
	The use of a Lockbox Service Provider is at the discretion of the Contractor and shall be at no additional cost to the Authority. If provided, the following Requirements apply.						
823	The Contractor shall process, Post to the appropriate accounts, and reconcile payments transmitted by the Lockbox Service Provider if the Contractor elects to utilize a Lockbox Service Provider.						
824	The Contractor shall create an audit trail and an Operational Alert Notification via the PMMS regarding failures in the processes that interface with the Lockbox Service Provider.						
825	The Contractor shall provide the capability to associate images of checks and stubs received at the Lockbox Service Provider to the proper account.						
826	The Contractor shall provide the capability to receive and process Lockbox Exceptions and ensure payments are appropriately accounted for, including but not limited to: · correspondence items and customer comments associated with payments; · payments the Lockbox Service Provider is unable to associate to an account and · payments that the BOS is unable to Post to an account.						
827	The Contractor shall provide the capability for Authorized Users to research and determine the disposition of Lockbox Exceptions, including but not limited to: · Posting payment to the account; · refund payment to customer or · hold as un-allocated funds.						
828	The Contractor shall provide the capability to automatically create Cases for Lockbox Exceptions. For example, if a check was received without a payment coupon, it cannot be associated with an account and research must occur.						
829	The Contractor shall provide the capability to identify criteria which trigger specific Lockbox Exceptions (Configurable) which are flagged for further review, including but not limited to: · discrepancy above a threshold between amount on check and amount due; · payment made to accounts in particular statuses; · check dollar amount and · multiple payments for the same amount on the same account in the same batch or processing day.						
830	The Contractor shall provide the capability to electronically receive and process correspondence received at the Lockbox Service Provider, for example changes of address.						
831	The Contractor shall provide the capability for Authorized Users to view un-allocated funds (funds which have been Posted to the BOS but which have not been Posted to an account).						
832	The Lockbox Service Provider processing services shall take place within the State of California.						
1.7.5. Credit Card Processing

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The most common payment method in the BOS is Credit Card. The BOS shall have a simple and intuitive Interface with the Merchant Service Provider. The most efficient and cost-effective means of accepting Credit Card payments shall be employed in the BOS by the Contractor.						
	The Contractor's solution shall provide Credit Card payment tokenization and hosted third party Credit Card storage (or equivalent solution). This method is designed to eliminate the need to store Credit Card numbers within the BOS database therefore reducing risks and efforts for PCI Compliance.						
833	The Contractor shall contract with an Authority approved Merchant Service Provider.						
834	The Contractor shall use a Payment Gateway or a Direct Connection between the BOS and the Merchant Service Provider.						
835	The Contractor shall process all Credit Card payment transactions via the Merchant Service Provider.						
836	The Contractor shall provide for Payment Tokenization and Hosted Third Party Credit Card storage (or equivalent solution) such that the Credit Card information is not stored in the BOS.						
837	The Contractor shall provide an automated credit card update service (including both expiration dates and newly issued cards).						
838	The Contractor shall provide the capability to issue refunds to Credit Cards.						
839	The Contractor shall provide the capability to track data related to Credit Card inquiries, for example, capture date of inquiry, disposition date and disposition results when inquiries about Credit Card charges are received.						
840	The Contractor shall provide the capability for Credit Card chargebacks and permit investigation of the details as Cases.						
841	The Contractor shall provide the capability for Authorized Users to reverse Credit Card chargebacks and to allow for a number of chargeback representations (Configurable)						
842	The Contractor shall provide the capability to credit accounts immediately upon a successful Credit Card payment authorization.						
843	The Contractor shall provide an Operational Alert Notification to the PMMS if a Merchant Service Provider response for a transaction is not received within a Configurable amount of time.						
844	The Contractor shall provide an Operational Alert Notification to the PMMS if a Merchant Service Provider response for an account contains codes that indicate the need for the Authority to contact the Credit Card company, for example a "referral code".						
845	The Contractor shall provide the capability to update accounts with the results from the Merchant Service Provider, for example a Credit Card transaction failed to authorize or settle due to a mismatched address error.						
846	The Contractor shall provide the capability to identify potential fraudulent Credit Card transactions and send an Operational Alert Notification to the PMMS, for example, when there are multiple failed authorizations for a single card.						
847	The Contractor shall provide, for validation purposes, fields to capture and store within the BOS Credit Card information, including but not limited to:						
	· token;						
	· Credit Card expiration date;						
	· name on the card;						
	· ZIP code and · billing address associated with the card.						
848	The Contractor shall provide the capability to submit disputes to chargebacks.						
849	The Contractor shall provide the capability to receive updates to individual customer Credit Card expiration dates from the MSPs.						
1.7.6.	ACH Processing						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offerrer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The cost of processing ACH transactions is generally lower than the cost of processing a Credit Card transaction, which is one of the primary reasons for including Requirements for this payment method. Many commercial customers also prefer ACH to Credit Card replenishment. ACH carries its own set of risks and challenges, which the Contractor will need to address. For example, the Contractor will need to address the timing of crediting an account after an ACH transaction is initiated and how ACH rejections will be processed.						
	Like the Credit Card process, the Contractor's solution shall provide Credit Card payment tokenization and hosted third-party routing and account number storage (or equivalent solution).						
850	The BOS and CSC Operations shall remain current with industry standards and advancements in technology and security related to Credit Card and ACH payments.						
851	The Contractor shall provide an Interface to the Merchant Service Provider or bank for ACH payment.						
852	The Contractor shall provide for ACH tokenization and hosted third-party ACH storage (or equivalent solution) such that ACH information is not stored in the BOS.						
853	Process all ACH payment transactions via the third-party hosted services.						
854	Provide capability to process both ACH debits and ACH credits with the Merchant Service Provider or bank.						
855	Provide a selection for "Checking" and "Savings" account designation when ACH is selected for replenishment and ensure transmission to the bank carries such information.						
856	Provide the capability to verify the customer Bank Account information and availability of funds with the Merchant Service Provider prior to initiating an ACH debit.						
857	Credit customer's account immediately upon initiating an ACH debit.						
858	Provide the capability to reverse an ACH payment if declined by the bank.						
859	Provide an Alert to the PMMS if an ACH response for a transaction is not received from the bank within a Configurable amount of time.						
860	Provide sufficient protections (and Alert to the PMMS) to prevent multiple (duplicate) ACH payments for the same Bank Account number within a Configurable period.						
1.7.7. Check/Money Order Processing							
	Checks received from customers shall be processed in the most efficient and cost-effective manner available in the payment processing industry.						
861	The Contractor shall provide the capability to accept checks (personal, cashier's or certified) as a form of payment.						
862	The Contractor shall provide the capability to accept money orders as a form of payment.						
863	The Contractor shall use Check 21 to electronically deposit checks and convert checks into ACH transactions.						
864	The Contractor shall Post to customer accounts and deposit into the Authority's bank account within one (1) Business Day of receipt.						
865	The Contractor shall provide scanning capability at the initial check or money order receiving and processing point. The resulting image shall be stored in the BOS, be available to Authorized Users and electronically transmitted to the bank for deposit.						
866	The Contractor shall provide the capability to mask Bank Account information, including the MICR line, for stored check images.						
867	The Contractor shall provide check scanning tools such that the resulting image can be optimized via image enhancing tools, including options for saving original and enhanced images.						
868	The Contractor shall provide the capability, when accepting check or money order payments, to automatically populate the check or money order number field via check scanner.						
869	The Contractor shall provide the capability to credit accounts immediately upon check or money order payment.						
870	The Contractor shall provide the capability to associate checks and stubs received at the BOS to the proper account.

871	The Contractor shall provide the ability to receive batch payments from rental agencies to be applied to individual transactions.						
872	The Contractor shall provide the capability to batch process checks by scanning a payment coupon and check, automatically Post payments to customer accounts, automatically associate images with customer accounts and provide exception processing.						
873	The Contractor shall provide the capability to reverse all forms of check or money order payment if declined or returned by the bank, including the assessment of applicable fees.						
874	The Contractor shall provide all armored services required for the physical transfer of cash or payment instruments.						
875	The Contractor shall provide live check verification at the WIC.						
876	The Contractor shall provide all reconciliations of funds received to BOS Posting and the Authority's bank account.						
1.7.8. Cash Processing							
877	The Contractor shall provide the capability to accept cash as a form of payment.						
878	The Contractor shall provide a cash change fund and cash change fund management functionality, including but not limited to:						
	· beginning balance;						
	· ending balance and · reconciliation.						
879	The Contractor shall provide the capability to credit the account immediately upon receipt of cash payment.						
880	The Contractor shall provide the capability to process cash payment reversals.						
881	The Contractor shall provide the capability to set threshold amounts and role-based limits for cash payment reversals (Configurable.)						
882	The Contractor shall provide the capability to require approval for cash payment reversals using Cases.						
1.7.9. Online Wallet Payment Processing							
	The BOS shall accept payments made via Online Wallet on all its online customer portals (Self-Service Website and Self-Service Mobile Application (Phase II and optional)). The specific Online Wallet services (up to five) will be defined during the Implementation Phase.						
883	The Contractor shall provide the capability to accept payments by Online Wallet. The Authority will elect to implement up to five of the most prominent Online Wallet payments available in the market at the time of the Implementation Phase.						
884	Online Wallet payments shall generally mirror the Credit Card functionality in terms of payments, return payments, refunds, reversals and chargeback capabilities.						
885	The Contractor shall provide detailed tracking of payments made by Online Wallet.						
886	The Contractor shall provide the capability to issue refunds to an Online Wallet. If the Online Wallet provider does not support automatic refunds (many Online Wallet providers require a manual process for refunds), or the underlying Credit Card associated with Online Wallet has been closed or expired, the BOS shall be capable of allowing Authorized Users to reverse the payment in the BOS and issue refunds by check.						
887	The Contractor shall provide the capability to track data related to Online Wallet inquiries, for example, capture date of inquiry, disposition date and disposition results when inquiries about Online Wallet charges are received.						
888	The Contractor shall provide the capability to credit accounts immediately upon a successful Online Wallet payment authorization.						
889	The Contractor shall provide an Operational Alert Notification to the PMMS if a response from an Online Wallet provider for an account is not received within a specified amount of time (Configurable).						
1.7.10. BOS Bank Interface Requirements							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offcor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
	The Contractor shall manage the Bank Accounts and the Interface from the BOS to the Authority's bank.						
890	The Contractor shall provide the Interface for Check 21.						
891	The Contractor shall provide the capability to upload checks issued to customers (refunds/disbursements) to the bank for the purpose of Positive Pay. The file shall include, but not be limited to:						
	· BOS Bank Account number;						
	· check number;						
	· check date;						
	· check amount and · payee name (may be truncated based on bank's requirements).						
892	The Contractor shall provide automated reconciliation with the Authority's Bank.						
1.7.11. Refunds and Disbursements							
	The Contractor will process and issue all refunds and disbursements to customers per the Business Rules and as determined by the Authority.						
893	The Contractor shall provide the capability to process refunds and disbursements for account closures, sales of transponder(s), overpayments, Violation disputes and other payments.						
894	The Contractor shall provide processes for refunds based on the original transaction and ensure such refunds are shown on the account history and are reconciled.						
895	The Contractor shall have the capability to restrict the method of refund to the original method of payment.						
896	The Contractor shall provide an automated approval process for Authority approval for all refunds over a Configurable amount						
897	The Contractor shall provide the capability to configure parameters related to refunds, including but not limited to:						
	· type of payments that are not eligible for refund;						
	· the criteria for refunds by payment methods (Credit Card, ACH, check, cash, money order etc.);						
	· the hold period for Credit Card refunds and check refunds;						
	· maximum (role-based) allowable refund payment by Payment Type. For example, a refund of more than \$250 might require manager approval;						
	· minimum (role-based) allowable refund payment by Payment Type. For example, the Authority may elect not to issue a check refund for less than \$1.00 unless requested by the customer and · manual review of eligible refunds before processing the refunds.						
898	The Contractor shall provide the capability to determine eligibility and issue refunds automatically to customers based on various activities on the account, including but not limited to:						
	· closure of an account;						
	· unapplied checks/money order and · overpayment of an invoice or Violation Notice where no outstanding invoices, Violation Notices or unbilled tolls exist.						
899	The Contractor shall provide the capability to review and process all eligible refunds and initiate the refund process.						
900	The Contractor shall provide the capability to route a refund approval through Cases, to require multiple approvals of refunds and to accommodate the refund approval process.						
901	The Contractor shall provide the capability to issue refunds using the same method that the payment was received. For example, a check payment will be refunded by check and Credit Card to the same Credit Card.						
902	The Contractor shall provide the capability to issue refunds by check after approval by an Authorized User when the Credit Card which was used for the original payment method has been deactivated or based on a customer request.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Officer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
903	The Contractor shall provide the capability for the automated processing of refunds (for example, for a successful account closure) and automatically create a Case for an Authorized User to issue the refund.						
904	The Contractor shall provide the capability to store all details regarding check refunds issued which shall be viewable by Authorized Users on the account, including but not limited to:						
	· check number;						
	· check amount;						
	· date check was issued;						
	· check payee details;						
	· the date the check cleared the bank;						
	· notes;						
	· the reference number and · reason for issuing the check.						
905	The Contractor shall provide the capability to void a refund or disbursement check, which shall restore the payable balance.						
906	The Contractor shall provide the capability to void and reissue a refund or disbursement check.						
907	The Contractor shall provide the capability for Authorized Users to manually override the refund payee information, for example, when a refund is due to a deceased customer's estate.						
908	The Contractor shall provide the capability for Authorized Users to initiate refunds from unapplied payments (for example when a payment that was made to the BOS in error is deposited but is not applied to an account and needs to be refunded).						
909	The Contractor shall provide the capability to record refund checks issued by the Authority in the BOS. For example, certain refund checks may be issued from the Authority's financial accounting systems; these checks shall then be recorded in the BOS against the customer's account and reported in financial reports as a check issued by the Authority.						
1.7.12. Bankruptcy							
	Generally, the bankruptcy process begins with an official notice of bankruptcy being issued by a court. This notice generally requires creditors to "stay" any escalation while the bankruptcy is processed through the courts. When the bankruptcy is finalized, the court sends an official notification which will indicate any reductions in amount due.						
910	The Contractor shall provide the capability to manage accounts for customers who have filed for bankruptcy.						
911	The Contractor shall provide the capability to record the effective date of a bankruptcy and bankruptcy type, which automatically flags the account for bankruptcy, holds all activity on outstanding debt which occurred prior to the filing date and issues a letter to the debtor or attorney on file.						
912	The Contractor shall provide the capability to enter the 'as of' (stay) date of bankruptcy and apply Business Rules to transactions occurring after that date (new tolls incurred after the bankruptcy date are billable).						
913	The Contractor shall provide the capability to record when a bankruptcy has been granted which will write off all outstanding penalties and generate a letter to the customer requesting payment of the tolls.						
914	The Contractor shall provide the capability to cease escalation of any transactions that occurred on or before the "stay" date (typically the bankruptcy filing date).						
915	The Contractor shall provide the capability to continue processing transactions subsequent to the date and time of bankruptcy notification.						
916	The Contractor shall provide the ability to record a dismissed bankruptcy and restart the escalation and collection process.						
917	The Contractor shall provide the ability to record and store all bankruptcy filings required by the courts.

1.7.13. Shift Management							
	The Contractor shall reconcile the financial and asset activity of every person that works in the BOS at the end of each shift.						
918	The Contractor shall provide the capability for the BOS to automatically open a shift for an Authorized User at the time of first applicable transaction based upon user role.						
919	The Contractor shall provide the capability to prompt for beginning balance or Authorized User bank (including option to list denominations).						
920	The Contractor shall provide the capability to populate opening shift balance and assign a unique Authorized User ID, including location, for all transactions processed during the shift.						
921	The Contractor shall provide the capability to automatically prompt to close a shift at logout time if an open shift exists.						
922	The Contractor shall provide the capability to display and reconcile all transactions and activity in a shift.						
923	The Contractor shall provide the capability to separate transactions that affect the Authorized User's deposit, for example, cash, check, ACH, Credit Card or other payment, from transactions that affect the BOS balances, for example, waiving a fee for a customer.						
924	The Contractor shall provide the capability for reconciliation of transponders and other inventory items issued and payments.						
925	The Contractor shall provide the capability to create an Alert to the supervisor when a CSR's bank goes above a threshold (Configurable). For example, if CSR's bank goes above \$200 the supervisor may want the CSR to do a "bank drop."						
926	The Contractor shall provide feedback to Authorized User if the shift does not balance.						
927	The Contractor shall provide the capability for an Authorized User to attempt to balance the shift a number of times (Configurable).						
928	The Contractor shall provide the capability to escalate the shift to an Authorized User for research and closing after a number of unsuccessful attempts (Configurable) has been reached.						
929	The Contractor shall provide settings to either display or not display the shift variance dollar amount to the Authorized User during shift closing (Configurable).						
930	The Contractor shall provide settings to either display or not display the shift inventory (transponders and other inventory items) variance amount to the Authorized User during shift closing (Configurable).						
931	The Contractor shall provide the capability to configure all relevant parameters related to closing a shift, with a default value that can be overridden based on unique user ID, including but not limited to: <ul style="list-style-type: none"> · the number of times the Authorized User can attempt to balance the shift; · the amount of allowed variance by dollars and · the amount of allowed variance by percentage. 						
932	The Contractor shall provide the capability to close a shift once it is balanced.						
933	The Contractor shall provide the capability to record shift balancing discrepancies, for example overages and shortages.						
934	The Contractor shall provide the capability to force close an unbalanced shift based upon user roles; the BOS shall record unbalanced variances in a separate Financial Account which shall be included on financial reports.						
935	The Contractor shall provide the capability to escalate shifts that remain open at the end of the Business Day to the Authorized User based upon user roles.						
936	The Contractor shall provide Authorized Users with an accounting of all shift activity with detailed and summarized financial information.						
937	The Contractor shall provide Authorized Users with a status of all open shifts.						
1.8. Case Management							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	The BOS shall provide the capability to create, assign and manage requests made by customers or Authorized Users. These requests become Cases. Case management is the creation and management of Cases where a Case represents an activity or action required to satisfy the Authority, customer or general public need or inquiry. Once a Case has been opened it is assigned to the appropriate staff, and its progress is tracked and reported through completion by the BOS. The initial set of Case types will be defined during the Implementation Phase. Certain Case types will escalate automatically.						
1.8.1.	Case Creation						
938	The Contractor shall provide the capability to initiate a Case any time a request cannot immediately be completed.						
939	The Contractor shall provide the capability to create, manage and support certain activities as Cases. Types of Cases shall include but not be limited to:						
	· initiating, tracking and resolving Registered account disputes;						
	· initiating, tracking and resolving Violation disputes (image(s) must be associated with the Case);						
	· initiating, tracking and resolving I-Toll disputes (image(s) must be associated with the Case);						
	· initiating, tracking and resolving toll rate disputes;						
	· initiating, tracking and resolving requests for Administrative Hearings;						
	· initiating, tracking and resolving requests for Investigative Reviews;						
	· initiating, tracking and resolving Civil Judgments;						
	· initiating and tracking payment plans;						
	· initiating, tracking and resolving customer and non-customer issues and requests via phone and in person, that cannot be resolved immediately;						
	· initiating, tracking and resolving customer issues and requests received through all communication channels;						
	· initiating, tracking and resolving research Cases created by the Collection Agency;						
	· initiating, tracking and researching undeliverable email/mail;						
	· initiating, tracking and researching undeliverable addresses that have not been found using Skip Tracing Service Provider;						
· initiating, tracking and resolving subpoena requests for customer transactions, images, and Maintenance records from law enforcement;							
· initiating, tracking and resolving issues and requests from the Authority and							
· initiating, tracking and managing transponder Return Materials Authorization (RMA) shipments.							
940	The Contractor shall provide the capability to track the Case attributes by one or more attributes, including but not limited to:						
	· communication channel;						
	· Case type;						
	· date and time of Case creation;						
	· response due date;						
	· identity of Authorized User (or BOS, if BOS-generated) initiating the Case;						
	· Case number;						
	· customer name;						
	· customer contact information;						
	· account number, if applicable;						
	· license plate and Jurisdiction, if applicable;						
	· Notification number, if applicable;						
	· priority;						
	· notes;						
· Case status;							
· outcome of Case when completed;							
· if Case is Toll Facility-specific;							
· follow-up activities that took place;							

Volume II BOS Technology and Functionality

	<ul style="list-style-type: none"> identity of Authorized User(s) who performed the follow-up activities; description (free-form) of follow-up action and customer satisfaction feedback. 						
941	The Contractor shall provide the capability for the customer to upload supporting documentation to a new or existing Case via the Self-Service Website or Self-Service Mobile Application (Phase II and optional).						
942	The Contractor shall provide the capability to create Cases manually by Authorized Users.						
943	The Contractor shall provide the capability to create Cases automatically via the BOS.						
944	The Contractor shall provide the capability to create Cases because of a customer request, for example a customer requests a transponder or disputes a Violation Notice via the Self-Service Website or Self-Service Mobile Application (Phase II and optional).						
945	The Contractor shall provide the capability to initiate a Case from within an account.						
946	The Contractor shall provide the capability for Authorized Users to associate a Case with an account after the Case has been created.						
947	The Contractor shall provide Case templates for each type of Case.						
948	The Contractor shall provide the capability for Authorized Users to create new types of Cases and associated workflows (Configurable).						
949	The Contractor shall provide the capability to set attributes by Case type related to Case management, including but not limited to:						
	· required fields;						
	· assignment rules;						
	· Case flow logic;						
	· Case queue display order, for example, by date opened or priority;						
	· drop-down lists;						
950	· all relevant parameters related to Case escalation (Configurable), for example, number of dormant days before escalation and number of days from Case creation to escalation;						
	· due date and						
	· Case templates (create and modify).						
	The Contractor shall provide the capability to access a Case through Case management or through the associated account or Violation Notice.						
951	The Contractor shall provide the capability to automatically document action(s) taken to resolve a Case in the Case.						
952	The Contractor shall provide the capability to associate all related customer communication with a single Case (in addition to associating it with the appropriate account), including but not limited to:						
	· call records;						
	· recorded calls;						
	· emails;						
	· faxes;						
	· Microsoft Office documents, images, and PDF files;						
	· chat;						
· text messages and scanned items.							
953	The Contractor shall provide the capability, when creating Cases, to automatically insert information from the Case source into the Case creation screen to expedite Case creation, for example, importing the name, address and contact information from the account, Violation Notice, invoice or Notification with which the Case is associated.						
954	The Contractor shall create a case for all incoming correspondence by scanning the correspondence. The Case management system should recognize barcodes, correspondence attributes, key words and categorize and assign cases automatically.						
955	The Contractor shall provide the capability to automatically record date and time of Case creation.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offerior S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
956	The Contractor shall provide the capability to automatically record identity of Authorized User or BOS (if the Case is created automatically by the BOS) initiating the Case.						
957	The Contractor shall provide the capability to automatically assign a unique individual identification code (Case number).						
958	The Contractor shall provide drop-down lists (Configurable) containing multiple options for indicating type of Case.						
959	The Contractor shall provide the capability that the Case type has the ability to be changed by Authorized Users.						
960	The Contractor shall provide drop-down lists (Configurable) containing multiple options for indicating follow-up activities within the workflow.						
961	The Contractor shall provide the capability to place a Case on hold pending a specific occurrence, or to enter a date when the Case shall be presented again to be worked.						
962	Require Authorized Users to insert a minimum amount of data depending on the type of Case (Configurable) into a pre-defined number of fields before a Case can be closed. Each type of Case may have different minimum data requirements.						
963	Require Authorized Users to insert a minimum amount of data depending on the type of Case into a pre-defined number of fields (Configurable) before a Case can be placed on hold. Each type of Case may have different minimum data requirements.						
964	The Contractor shall provide the capability for notes (free text narrative) to be provided at key points in the Case creation process enabling the Authorized User to elaborate on important points.						
965	Automatically initiate and send correspondence to the customer informing them of the creation of the Case, the Case number and other information depending on the type of Case (Configurable).						
966	The Contractor shall provide an automated correspondence capability whereby the customer can be kept informed of Case progress/status, from opening through closure, depending on the type of Case. Such capability shall be Configurable such that certain Case progress/status changes would not generate a customer communication.						
967	The Contractor shall provide the capability for multiple Authorized Users to access Cases at the same time with one Authorized User having the ability to modify the Case and others having read only access. The identity of the individual working the Case shall be presented to the Authorized Users with read-only access.						
968	The Contractor shall associate the completion of the activities required to resolve the Case to the Case such that BOS can automatically close the Case once the required activities have been completed. For example, if a customer disputes a Violation Notice because the vehicle was stolen, the Case would require a document (police report) and once the document was verified and the disputed accepted by the CSR, the BOS would record the successful dispute, close the Violation Notice with the appropriate transaction disposition codes and issue a Notification to the customer all based on the CSR's determination that the dispute was accepted.						
969	The Contractor shall provide the capability to automatically provide written responses (Notifications) to the customer based on the disposition code for each Case type.						
1.8.2. Case Assignment and Tracking							
	Depending on the Case type, the BOS shall assign the Case to the appropriate queue. The BOS shall use the default priority for the Case type and any user input that prioritizes the Case.						
970	Place open Cases in the appropriate Case type queue such that Authorized Users may access their assigned queue, review and take action on each Case.						
971	The Contractor shall provide the capability for the Case type queues to automatically display oldest Cases first for action.						
972	The Contractor shall provide the capability for the Case type queues to automatically display highest priority Cases first for action.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					
		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Officer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
973	The Contractor shall provide the capability for multiple sorting criteria for the Case type queues, for example sort first by oldest Cases and then sort by priority.						
974	The Contractor shall provide the capability for closed Cases to be re-opened when required.						
975	The Contractor shall provide the capability for a Case to be worked by the same Authorized User who opened the Case or by another Authorized User.						
976	The Contractor shall provide the capability to automatically assign Cases to Case work queues accessed by departments or workgroups.						
977	The Contractor shall provide the capability to manually re-assign open Cases.						
978	The Contractor shall provide the capability to automatically re-assign open Cases if the Case was assigned to a specific Authorized User and that Authorized User is deactivated from the BOS.						
979	The Contractor shall provide the capability to automatically temporarily re-assign open Cases if the Case was assigned to a specific Authorized User and that Authorized User is temporarily not performing work (for example, the Authorized User is on vacation).						
980	Ensure at no time that an active Case does not remain in a queue with no Authorized User assigned to that queue.						
981	The Contractor shall provide the capability for Authorized Users to see all pending Cases with prioritization.						
982	The Contractor shall provide Configurable Case assignment rules, for example a Case related to financial issues would be assigned to the finance department.						
983	The Contractor shall provide the capability to include a snapshot of any customer information in the primary screen so Authorized Users need not navigate to other screens to find key information. The primary screen shall contain a link to the associated account should the Authorized User want to access the account.						
984	The Contractor shall provide the capability to merge Cases when two or more Cases cover the same customer need.						
985	The Contractor shall provide the capability to track historical action-type data (out of a predefined range), about each action taken to work the Case, including but not limited to:						
	· creation;						
	· closure;						
	· reopening;						
	· hand-off (from department or individual);						
	· placed on hold (establish a "work again date");						
	· awaiting action from the Authority;						
· awaiting customer action and · customer satisfaction.							
986	The Contractor shall provide the capability to trigger customer satisfaction processes.						
987	The Contractor shall provide the capability to link and track an unlimited number of Cases to a single account.						
988	The Contractor shall provide the capability to link and unlink Cases to/from accounts regardless of Case status.						
989	The Contractor shall provide the capability to associate a Case to one or multiple accounts.						
990	The Contractor shall provide the capability to view Cases based on required follow-up action.						
991	The Contractor shall provide the capability to track, record and review follow-up activity.						
992	The Contractor shall provide the capability for Authorized Users to review the workload (quantity and details of the Cases assigned) of an individual Authorized User.						
993	The Contractor shall provide the capability for an Authorized User to review the workload of an entire team or group of Authorized Users.						
994	The Contractor shall provide the capability to manually change the status of a Case based on progress made in servicing the Case.

995	The Contractor shall provide the capability to automatically change the status of a Case based on progress made in servicing the Case.						
996	The Contractor shall provide the capability for Authorized Users to edit data within a Case, Configurable by Case type.						
997	The Contractor shall provide the capability to temporarily group Cases and perform the same action(s) on the group of Cases.						
998	Prevent the creation of duplicate Cases when created automatically by the BOS.						
999	The Contractor shall provide the capability to notify Authorized Users when the number of assigned Cases for a particular resource is reached (Configurable).						
1000	The Contractor shall provide the capability to stop a transaction or group of transactions from progressing further in the status or workflow stages, for example while a dispute Case is being reviewed.						
1001	The Contractor shall provide a logical Case workflow via multiple Case screens, which are presented to Authorized Users based on their skill sets and BOS roles.						
1002	The Contractor shall provide Case workflow and routing (Configurable).						
1003	The Contractor shall provide the capability to assign Cases in multiple ways (Configurable), including but not limited to:						
	· manual assignment of a Case to a particular Authorized User;						
	· automatic assignment by customer or account criteria;						
	· automatic assignment by Case type;						
	· automatic assignment by status;						
	· automatic assignment by severity level;						
	· automatic assignment based on staff availability;						
· automatic assignment by role and skills database for Authorized Users.							
1004	The Contractor shall provide the capability to suggest best Authorized User for a Case according to staff skills.						
1005	The Contractor shall provide the capability to send an Operational Alert Notification when a Case has met the reassignment threshold (Configurable).						
1006	The Contractor shall provide the capability to send an Operational Alert Notification when an Authorized User has met the specified number of open Cases (Configurable).						
1007	The Contractor shall provide the ability to manually re-assign any Case to a new workflow, at any point within that workflow, as new details emerge.						
1008	When changes in workflow are made, provide the ability to individually select, or select in bulk, whether current workflow transactions should follow the previous version of the workflow, or the new version of the workflow.						
1.8.3. Case Escalation							
1009	The Contractor shall provide the capability to send an Operational Alert Notification regarding specific Cases that meet criteria (Configurable), for example, Cases in "open" status that have not been worked on in a specified number of days (Configurable).						
1010	The Contractor shall provide the capability to automatically escalate overdue Cases based on rules (Configurable).						
1011	The Contractor shall provide the capability to define sets of activities or procedures for specified Case types.						
1012	The Contractor shall provide the capability for thresholds to be defined based on rules that initiate events when exceeded.						
1013	The Contractor shall provide the capability to automatically escalate Cases defined as representing repeated complaints.						
1014	The Contractor shall provide the capability to define activities that require authorization from supervisors.

1015	The Contractor shall provide the capability to notify appropriate operations staff on Cases manually or automatically based on criteria (Configurable).						
1.9. Collections and Registration Hold							
	Non-payment of the Notice of Delinquent Toll Evasion Violation may result in the delinquent Violations escalating to pre-collections, Collections and/or Registration Hold. Unpaid transactions/trips and fees on Registered accounts that are delinquent may also escalate to collections. The Authority may choose to have the CSC attempt to collect prior to the Violation escalating to collections.						
1016	The Contractor shall provide the capability for the CSC to attempt collection prior to a Collections Placement and the Contractor shall support this activity by, including but not limited to: <ul style="list-style-type: none"> electronically provide Skip Tracing information that is automatically linked to the Violation for use by the CSR; provide initial collections letter(s) that are automatically populated with the Violation information and Skip Trace address(s); allow for the CSR to review and approve letters before sending; provide capability for the CSR to add notes about the collection process; if not collected after a Configurable period of time, automatically and electronically attach all Skip Trace and collections notes information to the subsequent Collections Placement and separately account for CSC collections (as compared to Collections Placements) within the BOS in all applicable accounting, financial and operations reports and searches. 						
1017	The Contractor shall provide, per the Business Rules, the capability to perform Registered account or Violation escalation, including but not limited to: <ul style="list-style-type: none"> warning of Registration Hold Notification; escalate to Tax Intercept; pre-collection Notification; escalate to Registration Hold and escalate to Collections. 						
1018	The Contractor shall provide capability to configure and maintain escalation parameters for each escalation level, including but not limited to: <ul style="list-style-type: none"> the minimum number of delinquent Violations (Configurable) over a period of time to initiate collections activities (Configurable); prevent escalation to collections/Registration Hold when a certain (configurable) percentage of the Violation has been paid; prevent escalation to pre-collections, Collections and/or Registration Hold when a certain (configurable) amount of the Violation has been paid; the account balance thresholds to prevent escalation; number of days payment on payment plan is delinquent and number of days from issuance of Investigative Review or Administrative Review Letter. 						
1.9.1. Collection Agencies							
	This process covers the assignment of past due amounts on delinquent accounts, and delinquent Violations to the Contractor-provided Collection Agencies. The Contractor shall provide two (2) separate, qualified Collection Agencies to perform debt collection services. These Collection Agencies shall be performing debt collection services and civil judgement processing on a non-exclusive basis. No assurance or guarantee is made to the selected Contractors regarding the number of accounts placed, the dollar amounts of those accounts, or the percentage of accounts placed.						
1019	The Contractor shall contract with two (2) separate Collection Agencies.						
1020	The Contractor-selected Collection Agencies shall have previous experience collecting toll debt.						
1021	The Contractor shall work with the Authority in determining the volumes and types of Collections Placements assigned to each Collection Agency, which may result in shared placements or all placements being assigned to one (1) of the Collection Agencies.

1022	The Contractor shall select Collection Agencies whose compensation is based on a percentage of the amount collected.						
1023	The Contractor-selected Collection Agencies shall not dismiss the Authority's debt unless explicit approval has been provided by the Authority.						
1024	The Contractor-selected Collection Agencies shall allow the Authority to recall debt at no cost to the Authority.						
1025	The Contractor-selected Collection Agencies shall not charge any fees for allowing the Authority's debtors to pay using any payment method.						
1026	For uncollected debt, the Contractor-selected Collection Agencies shall process Civil Judgments on behalf of the Authority. The processing of Civil Judgments shall comply with all California statutes and legal processes and the Collections Agencies' attorneys shall be properly licensed. The processing of civil judgements by the Collections Agencies shall be at the discretion of the Authority. The Authority may choose not to use the Collections Agencies for processing of civil judgements.						
1027	The Contractor-selected Collection Agencies shall submit their reporting for approval by the Authority.						
1.9.2. Collection Placement and Management							
	The process of assigning unpaid tolls, fees and penalties to the Collection Agency is called a Collections Placement.						
1028	The Contractor shall provide a Collection Agency for Authority's approval and place eligible transactions in Collections based on Business Rules.						
1029	The Contractor shall provide the capability to identify accounts and delinquent Violations that are eligible for the collection process based upon criteria (Configurable), including but not limited to:						
	· age of debt at account level or individual transaction level;						
	· Flags on the account;						
	· hold status, for example, disputed;						
	· open Cases related debt;						
	· grace period;						
	· total amount owed;						
	· number of delinquent Violation Notices or transactions/trips;						
1029	· amount owed;						
	· whether customer is in-state or out-of-state;						
	· account type and						
	· account status.						
1030	The Contractor shall provide the capability to create a Collections Placement for accounts and delinquent Violations eligible for Collections.						
1031	The Contractor shall provide the capability to place a flag on an account that has met the criteria for Collection Placement but has not been placed and an account placed with one of the Collection Agencies.						
1032	The Contractor shall provide the capability to assess a collections fee (for example, add a fee to the balance due) for each Collections Placement eligible for Collections.						
1033	The Contractor shall provide the capability to transmit the Collections Placement to the Collection Agencies for those accounts and delinquent Violation Notice that are eligible and Approved for collection.						
1034	The Contractor shall provide the capability to utilize multiple Collections Agencies and to place eligible transactions in Collections based on Configurable criteria, including but not limited to:						
	· percentages based on both volume and dollar amount, for example, 60 percent to Collection Agency 1 and 40 percent to Collection Agency 2;						
	· past due amount on the account eligible for collection;						
	· prior placements (by customer name, account number, License Plate number and Jurisdiction);						
1034	· account type;

	<ul style="list-style-type: none"> · specified frequency; · ZIP code and · ROV Jurisdiction. 						
1035	Provide the capability to automatically assign new transactions that reach the Collections status or workflow stage to the same Collection Agency that any previous transactions on that account have been assigned (for example, all transactions for a given account will always be assigned to the same Collection Agency).						
1036	The Contractor shall provide auditable functionality through the two-way electronic Interface for the Collection Agencies to transmit data to the BOS and for the BOS to transmit data to the Collection Agencies for accounts and Violation Notices assigned to the Collection Agencies, including but not limited to:						
	· updates to demographic information, such as address updates obtained through Skip Tracing;						
	· payments received by the BOS and each Collection Agency (full and partial) and adjustments and reversals of those payments;						
	· reversals and adjustments made on the Collections Placement;						
	· fees on the Collections Placement such as returned payment fee;						
	· suspension of Collections activities due to dispute or Administrative Review;						
	· various status changes due to Civil Judgments;						
	· suspension of Collections activities or cancellation of the Collections Placement due to bankruptcy;						
1037	· resolution of the Collections Placement at the transaction level;						
	· cancellation of the Collections Placement due to recall by the Authority or expiry of the collection period for that Collections Placement and						
	· Write offs and reason codes.						
	1037	The Contractor shall provide the capability to recall a Collections Placement/individual Violation Notices/transactions based on Business Rules and request.					
	1038	The Contractor shall provide the capability to automatically display a Flag on account screens with the appropriate Collection Agency ID and date the Collections Placement was sent to the Collection Agency and remove the Flag when an account is no longer in collection.					
	1039	The Contractor shall provide the capability to associate with the account all correspondence transmitted to the customer/violator from the Collection Agency.					
	1040	The Contractor shall provide the capability to update the address source on accounts and Violation Notices when new address information is received from one of the Collection Agencies.					
	1041	The Contractor shall provide the capability to automatically reassign delinquent Violations/transactions to Collections any time a payment used to pay delinquent Violations/transactions in Collections is reversed in the BOS or by one of the Collection Agencies (for example, when a customer makes a payment and that payment is returned by the bank, the receipt of the payment reversal in the BOS shall automatically reassign those delinquent Violations/transactions to the applicable Collection Agency).					
1042	The Contractor shall provide the capability to obtain status of all activities and venues pursued by each of the Collection Agencies to collect on the Authority's debt.						
1043	The Contractor shall provide the capability to receive payment reconciliation files at intervals (Configurable) from the Collection Agencies for all Collections Placement payments during the period. The reconciliation file shall provide detailed data that reconciles the payments and the Collections fee, if applicable.						
1044	The Contractor shall provide the capability to receive Collections Placement balance files, at intervals (Configurable), in order for the BOS to compare to account and Violation Notice balances for auditing purposes.

1045	The Contractor shall provide the capability to generate an Operational Alert Notification when a Collections Placement balance file is received and the results of the processing of the balance file (for example, the file is in balance or it is out of balance).						
1046	The Contractor shall provide the capability to compare the balances from each of the Collection Agencies to the balances in the BOS and display the accounts and/or transactions that do not balance.						
1047	The Contractor shall provide an aging of all files on Collection Placement.						
1048	The Contractor shall provide a report showing the historical records for Collection Placement including but not limited to:						
	· number of files sent for Collection Placement (historically);						
	· details of accounts written off and the reason;						
	· details of amounts collected, stage collected and amount of reductions if any;						
	· details of accounts actively in Collection Placement and the current collection stage;						
	· details of accounts on payment plan;						
	· details of accounts with Civil Judgments;						
1049	· details of amounts collected and collection fees paid or due to the Collection Agencies, and						
	· the above historical information for each individual Collection Agency.						
1049	The Contractor shall provide the capability to receive Skip Tracing from the Collection Agencies for the Contractor to mail a pre-collection notice.						
1.9.3. Collection Agency System Access (Phase II)							
	In addition to the electronic Interface between the BOS and the Collection Agencies, the Contractor shall provide the Collection Agencies with role-based, secure access to the BOS to access information about debt which has been placed in Collections allowing them to research customer issues. The BOS shall allow for limited entries to be made such as managing a Case (initiating, updating or closing it) or updating with customer contact events such as phone calls and emails sent or received.						
1050	The Contractor shall provide a secure role-based access for the Collection Agencies to access the BOS to research customer issues as described within these Requirements.						
1051	The Contractor shall provide unique sign-on credentials for each Authorized User (Collection Agency Staff) and only allow them to access debts which have been placed with their Collection Agency.						
1052	The Contractor shall provide auditable functionality that allows each Authorized User (Collection Agency Staff) to view, enter and edit data in the BOS for accounts and Violations with debt placed with their Collection Agency, including but not limited to:						
	· viewing the account						
	· Viewing associated images;						
	· initiating a Case;						
	· reviewing the status of a Case;						
	· updating a Case;						
	· closing a Case (based on permissions) and						
· updating customer contact history.							
1.9.4. License Plate Registration Hold and Hold Release							
	When delinquent Violation Notices are past due, a Registration Hold can be placed on the license plate if it meets the conditions for Registration Hold. When the past due amount is brought to a threshold or amount (Configurable) (for example, when the balance is paid or the delinquent Violations are reversed), the Registration Hold may be released. The California DMV supports an electronic Interface for initiating Registration Holds and Registration Hold releases. In the event agreements are entered into with other Jurisdictions or responsible entities, the BOS shall support the Registration Hold/Registration Hold release process with these responsible entities.						
1053	The Contractor shall provide the capability to Interface with the Jurisdictions that support license plate Registration Holds/Registration Hold releases or vehicle registration suspension.

1054	The Contractor shall provide the capability to apply and receive authorization from the DMV to act as OCTA's processor of record.						
1055	The Contractor shall provide the capability to set and maintain the eligibility parameters for the license plate Registration Hold process based upon criteria (Configurable), including but not limited to any combination of:						
	· plate Jurisdiction and Plate Type;						
	· account type;						
	· Flags on the account;						
	· escalation status;						
	· past due toll amount;						
	· past due fee amount;						
	· past due penalty amount;						
	· days past due;						
	· vehicle registration renewal date;						
	· an open Investigative Review or Administrative Hearing;						
	· payment plan status;						
	· length of time since the last escalation was done (Configurable);						
	· number of pre-existing vehicle Registration Holds on a license plate;						
· Plate Type (temporary plate, permanent plate) and							
· Vehicle Identification Number.							
1056	The Contractor shall provide the capability to automatically request a Registration Hold if the eligibility criteria (Configurable) are met, for example, if license plate has one delinquent Violation that is past due.						
1057	The Contractor shall provide the capability to check the vehicle registration renewal date and update the existing ROV information in the BOS.						
1058	The Contractor shall provide the capability to place Registration Holds a number of days (Configurable) before or after the license plate renewal date. The BOS shall place the maximum number of Registration Holds per license plate if the license plate has delinquent Violations.						
1059	The Contractor shall provide the capability to round down the Violation amount owed to a whole dollar being sent to the DMV for each Violation for which a Registration Hold is being placed.						
1060	The Contractor shall provide the capability to automatically create and exchange Registration Hold and release files with the responsible entities.						
1061	The Contractor shall provide the capability in the event of a failure to re-try the Registration Hold and release request based on the type of error.						
1062	The Contractor shall provide the capability to automatically release the Registration Hold if resolved and/or paid.						
1063	The Contractor shall provide the capability to automatically re-request the Registration Hold if a payment that was received resulted in the release of Registration Hold and then the payment is subsequently reversed (for example, if a check is returned or if a chargeback is received).						
1064	The Contractor shall provide the capability to accept and process payments records for Violations from the DMV and waive partial amounts remaining on the Violation Notice(s).						
1065	The Contractor shall provide the capability to delay the Registration Hold release by a number of days past the payment date (Configurable) by payment type. For example, if the payment was made by check the BOS should delay the Release by seven days.						
1066	The Contractor shall provide the capability for Authorized Users to manually initiate the release of a Registration Hold without resolution of past due amounts.						
1067	The Contractor shall provide the capability to display Registration Hold and release status on the account including the date of request and status.						
	The Contractor shall provide the capability for Registration Hold statuses (statuses that Registration Holds go through), including but not limited to:						

Volume II BOS Technology and Functionality

	· Registration Hold not placed due to error;						
	· Registration Hold release pending;						
	· Registration Hold released by DMV;						
	· Registration Hold released by BOS and						
	· Registration Hold not released due to error.						
1069	The Contractor shall provide the capability to automatically display Flags on all account screens based upon current Registration Hold status.						
1070	The Contractor shall provide the capability, in the Registration Hold history, to accommodate multiple dates and reject reasons for multiple delinquent amounts and potentially multiple plate numbers.						
1071	The Contractor shall provide the capability for Authorized Users to manually place and release Registration Holds and automatically update the BOS with the proper status obtained from the DMV.						
1072	The Contractor shall provide the capability to add a DMV hold fee to each transaction successfully placed on hold						
1073	The Contractor shall provide the capability to create a payable to DMV for the fee owed to the DMV until the fee is paid through the reduction of the DMV payment file.						
1074	The Contractor shall provide the capability to establish a link between a temporary plate and the coordinating permanent plate to allow for hold to be placed on the temporary plate after the issuance of the permanent plate						
1075	The Contractor shall provide the capability to perform a review of all accounts prior to sending them for DMV hold.						
1076	The Contractor shall provide the capability to reconcile Violations marked as on hold in the BOS with the DMV report.						
1077	The Contractor shall provide the capability to prepare a written DMV abstract of hold release for the customer.						
1078	The Contractor shall provide the capability to Post the monthly DMV payment to the respective Violations-writing off any remaining cents, recording the source of payment as the DMV, and relieving the DMV Payable for the hold fee						
1079	The Contractor shall provide the capability to analyze DMV hold rejects and work with the DMV to resolve any issues to maximize the hold success rate.						
1.9.5. Customer-Initiated Reviews							
	Customers may contest a Violation(s) by initiating an Investigative Review of the Violation(s). If customer disagrees with the decision, the customer may seek an Administrative Review Hearing and ultimately appeal to Superior Court.						
1080	The Contractor shall provide the capability to receive Investigative Review requests, including documents uploaded from the Self-Service Website.						
1081	The Contractor shall provide the capability track Investigative Reviews through their completion						
1082	The Contractor shall provide agreed upon Investigative Review reduction or dismissal codes that are applied to each Violation contained in the review in an efficient manner.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1083	The Contractor shall provide the capability for an Authorized User to select from a list of reduction or dismissal codes that has a corresponding trip/image processing and financial action, if applicable, generate the appropriate correspondence to the customer or violator stating the results of the review and issue any refunds that may be due (for example, if it is determined the license plate was misread and the Violation was issued to the wrong person, the CSR shall select a code "image error" which will automatically do the following: 1) dismiss the Violation assigned the person who requested the review 2) send the images back for image processing 3) generate a letter to the customer dismissing the Violation 4) refund any payments made).						
1084	The Contractor shall provide the capability for an Authorized User to select from a list of codes for outcomes that do not result in the reduction or dismissal of the Violation(s) and automatically generates the appropriate correspondence to the customer stating the result of the Investigative Review, reason for non-dismissal, and processes the associated images and trip(s) accordingly.						
1085	The Contractor shall provide the capability to provide a written response to every Investigative Review which includes the reasoning behind the resulting decision. The response letters shall be tied to the Violation dismissal codes so they automatically generate when dismissal action is taken						
1086	The Contractor shall provide the capability to receive Administrative Review Hearing requests by mail, phone, in-person or online. If by phone, the account shall be marked for Administrative Review Hearing and a means for providing a written statement from the customer provided.						
1087	The Contractor shall provide the capability to determine, receive and process the required amount due prior for an Administrative Review Hearing as well as, calculating eligibility for financial hardship exceptions and reduced amounts.						
1088	The Contractor shall provide the capability to schedule the Administrative Review Hearings with the customer and Administrative Hearing Officer within the required timeframes and according to the Business Rules.						
1089	The Contractor shall provide an Administrative Hearing Officer who meets the requirements in the California Vehicle Code and Authority.						
1090	The Contractor shall provide a second review of all Violations for which an Administrative Review Hearing is requested to ensure the Investigative Review was performed accurately and correct any errors or work with the customer to resolve any extenuating circumstances.						
1091	The Contractor shall provide a summary of each Case where and Administrative Review Hearing is requested for Authority review within a week of the Administrative Review Hearing request. The Contractor will work the Authority to resolve Cases if needed.						
1092	The Contractor shall provide the Configurable capability to define the data set that goes into the Evidence Package, including but not limited to:						
	· summary sheet;						
	· BOS and manual notes recorded on the account;						
	· Cases created for the account;						
	· transponder status change history;						
	· each Violation Notice and other Notifications;						
	· customer correspondence;						
	· customer contacts;						
	· DMV or ROV source records or Rental Agreements;						
	· lane health check report from the ETTM System at the time of the transaction;						
	· Registered account information if applicable;						
· history of non-payment;							
· images and							
· Recordings of phone calls or scripts of recorded phone calls.							
1093	The Contractor shall provide the capability to create the Evidence Package a number of days (Configurable) before the date of the Administrative Review Hearing and print or upload the package to the location specified.

1094	The Contractor shall provide the capability to track information related to the outcomes of Investigative Reviews and Administrative Review Hearings.						
1095	The Contractor shall provide the capability to offer, establish and manage payment plans for customers who cannot pay the balance due in full.						
1096	The Contractor shall provide the capability to provide Investigative Reviews by phone and chat for first contact resolution.						
1097	The Contractor shall provide the capability to provide historical data by specified time period for Investigative Reviews and Administrative Review Hearings including but not limited to:						
	· # requested;						
	· # closed;						
	· Resolution by type;						
	· # outstanding;						
	· age of outstanding and · scheduled hearings by date.						
1.9.6. System-Generated Evidence Package							
1098	The Contractor shall provide the capability to create an Evidence Package containing all information related to the applicable account, violator and Violation Notices, including but not limited to:						
	· detailed toll transaction data associated with Violation Notices;						
	· all Violation Notices and Notifications sent to violator;						
	· all correspondence received from violator;						
	· images related to Violations;						
	· all notes related to account, violator and/or Violation Notices and · any other related Unregistered account activity.						
1.10. Customer Satisfaction Survey							
	The Contractor shall select and provide a Customer Satisfaction Survey Provider Subcontractor to survey customers regarding their experience with the CSC. The BOS will provide the necessary information regarding all customer contacts to the Customer Satisfaction Survey Provider Subcontractor to enable them to survey customers using automated survey tools.						
	The Contractor shall survey customers through the Services of the Customer Satisfaction Survey Provider Subcontractor. Customer surveys shall be performed through electronic means such as email, through a phone survey, text, via the website or a combination thereof. A survey tool shall be provided which will allow for the creation and Maintenance of a variety of different survey templates. Different survey templates may be selected based on contact channel, individual CSR or account type.						
1099	The Contractor shall provide the capability to perform customer surveys through the Customer Satisfaction Survey Provider Subcontractor.						
1100	The Contractor shall offer the Survey opportunity to every customer each time they contact the CSC or as requested by the Authority.						
1101	The Contractor shall provide information to the Customer Satisfaction Service Provider Subcontractor, which includes but is not limited to:						
	· customer name;						
	· contact channel (such as email, phone or walk-in);						
	· customer email address and · CSR name, in the case of customers calling in or chat. clarify for those interactions with CSRs (or other staff).						
1102	The Contractor shall provide the capability to track customer contact by contact channel, including but not limited to:						
	· phone (IVR only, e.g., the customer resolves their issue with the IVR);						
	· phone (IVR then CSR, e.g., customer contact which started in the IVR and after attempting action, the customer asked to speak with a CSR);						
	· phone (CSR only, e.g., the customer immediately requested to speak to a CSR);

1.11. Transponder Inventory							
	The BOS shall have a transponder inventory and management system that tracks and maintains transponder inventory, manages the sale and return of transponders to customers, identifies and manages the transponder recall program, and tracks and manages transponder warranty. Inventory levels are required to be monitored regularly by the Contractor and communicated to the Authority to ensure no disruption in transponder availability.						
1.11.1. Inventory Definition and Tracking							
	The BOS shall keep track of transponders from initial order through final disposal or return to manufacturer.						
1106	The Contractor shall provide the capability to validate transponder serial numbers when they are entered into inventory, against the ranges that already exist to ensure that there are no duplicates. This validation shall include the CTOC-issued Facility Code IDs or any corresponding ranges in the future such as ISO 18000-6C and or national Interoperability.						
1107	The Contractor shall provide the capability to search the history of a specific transponder entered in the BOS and provide the history of the transponder including account assignment and transactions.						
1108	The Contractor shall support the performance of a quarterly physical inventory and monthly reconciliation of transponders.						
1109	The Contractor shall provide the capability for an Authorized User to program transponders (for example, reprogram a 2-axle vehicle transponder to a motorcycle transponder).						
1110	<p>The Contractor shall provide the capability to manage any number of transponder types, including but not limited to:</p> <ul style="list-style-type: none"> · hard-case transponders; · sticker transponders; · 6c switchable transponders; · headlight-mount transponder and · bumper-mount transponders.

1114	· a mapping tool which shall enable inventory fields to be mapped to a file;						
	· a browse button to locate the file;						
	· validation of the file prior to import (invalid files shall not be imported, and an error message shall be presented);						
	· validation of file contents including the transponder ID based on valid CTOC issued facility codes and feedback of successful processing by indicating the number of records updated and unsuccessful updates with reason codes.						
1115	The Contractor shall provide the capability to enter transponders in bulk by entering the starting and ending numbers in a range, for example upload inventory by scanning the first transponder's barcode and the last transponder's barcode.						
1116	The Contractor shall provide the capability to track multiple manufacturer warranties based on manufacturer, transponder type or purchase date.						
1117	The Contractor shall provide the capability to track customer warranties based on transponder type or purchase date.						
1118	The Contractor shall provide the capability to identify transponders to be sold and their sale price.						
1119	The Contractor shall provide the capability to track individual transponders by location at end of day, including but not limited to:						
	· WIC;						
	· in transit between customer service locations;						
	· at one of multiple individual CSRs;						
	· assigned to an account;						
	· shipping/receiving locations;						
1120	· returned to manufacturer and disposed.						
	The Contractor shall ensure that individual transponders can only be assigned to a single location at any one time.						
1121	The Contractor shall provide the capability to restrict transitions among various inventory item locations, for example, transponders in the "assigned to CSR" location cannot go to the "return to manufacturer" location; it can only go to "inventory" location or "account" location.						
1122	The Contractor shall provide the capability to assign an inventory status to each individual transponder, including but not limited to:						
	· on order;						
	· received;						
	· tested and ready for issuance;						
	· active;						
	· inactive;						
	· deactivated;						
	· lost;						
	· stolen;						
	· returned;						
	· awaiting cleaning and testing for reissue;						
	· disposal;						
1123	· damaged;						
	· defective and end-of-life.						
	The Contractor shall provide the capability to change the status for an individual transponder either manually or automatically.

1124	The Contractor shall provide the capability to set a separate restock threshold for all inventory locations.						
1125	The Contractor shall provide the capability to set and maintain the transponder reorder thresholds and ranges for all relevant parameters related to transponder quantity levels and lead-time requirements for replenishment by manufacturer.						
1126	The Contractor shall provide the capability to send an Operational Alert Notifications(s) before the transponder reorder (from the manufacturer) thresholds are reached. The Alert level can be a percent (Configurable) or number (Configurable) above the re-order threshold.						
1127	The Contractor shall provide the capability to audit the physical inventory at intervals (Configurable) and record the results of the audit.						
1128	The Contractor shall provide the capability to test transponders to ensure they are correctly programmed and that the external barcode is correctly correlated to the internal programming.						
1.11.2. Transponder Ordering							
	The Authority will place transponder orders directly with the transponder manufacturer or request that the Contractor place the order directly. Regardless of the method, the creation of the order shall happen within the BOS which allows the purchase order to be recorded, and the order to be tracked, received and loaded into inventory in a manner which reduces manual entry and potential errors. A hard copy document shall be generated and shall be part of an order receiving package to verify receipt and close out the purchase order that was generated by a separate system that is not part of this procurement.						
1129	The Contractor shall provide the capability to create transponder orders within the BOS, both for orders placed directly by the Contractor and orders placed directly by the Authority.						
1130	The Contractor shall provide the capability to change the status of the order and track the order once the associated purchase order has been placed.						
1131	The Contractor shall provide the capability to receive the inventory into the BOS.						
1132	The Contractor shall provide the capability to enter information when receiving transponders, including but not limited to:						
	· verification of delivery of each line item;						
	· verification of quantities for each line item;						
	· actual quantity received if it does not match quantity ordered;						
	· name of person receiving inventory;						
	· location received;						
1133	The Contractor shall provide the capability to generate a transponder receiving document, including but not limited to:						
	· items ordered;						
	· item received;						
	· quantities ordered;						
	· quantities received;						
	· manufacturer or supplier information;						
1134	The Contractor shall provide the capability to make adjustments if the shipment received does not match the original order and track backorders and partial shipments.						
1.11.3. Inventory Fulfillment							
	Transponders are assigned to customers via inventory Fulfillment. Orders can be fulfilled at the same time the order is placed in a WIC. When inventory is ordered online or by phone, the order is fulfilled in the order received.						

Volume II BOS Technology and Functionality

		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1135	The Contractor shall provide the capability to create transponder orders either at the time of account creation or when individual requests are initiated subsequent to account creation.						
1136	The Contractor shall provide the capability to fulfill transponder orders.						
1137	The Contractor shall provide the capability to present transponder Fulfillment requests for Fulfillment in the order received.						
1138	The Contractor shall provide the capability to create a transponder sale transaction when inventory order is fulfilled including but not limited to:						
	· full price sale;						
	· warranty sale;						
	· sale at no cost (replacement) and · discount sale (promos and coupons).						
1139	The Contractor shall provide the capability to assign multiple types of transponders to an account and associate the transponder numbers to the account.						
1140	The Contractor shall provide the capability to reassign inventory items from one account to another.						
1141	The Contractor shall provide the capability to replace an existing individual transponder on an account with a different transponder.						
1142	The Contractor shall provide the capability to issue individual transponders to customers via mail and at WICs.						
1143	The Contractor shall provide the capability to distinguish orders for first time customers separate from existing customers in case additional literature is to be included with the order for new or existing customers only (such as a welcome package).						
1144	The Contractor shall provide the capability for transponders delivered by USPS to be activated 24 hours after shipment.						
1145	The Contractor shall provide the capability to automatically recognize vehicles with metal oxide windshields by use of a list the Contractor maintains and automatically issue an exterior tag at time of account opening, vehicle addition or transponder request.						
1146	The Contractor shall provide the capability to automatically recognize motorcycles by their license plate configuration or information provided by the customer and issue them an exterior transponder at the time of account opening, vehicle addition or transponder request.						
1147	The Contractor shall issue a sticker tag (interior or exterior) for every plate listed on the account unless the customer identifies that the vehicle will only be used on a short-term basis, such as rental cars.						
1148	The Contractor shall provide the capability to track customer transponder orders as a single order regardless of the number of items requested. For example, if a customer wants one bumper-mount transponder and two switchable transponders, that order shall be a single customer transponder order.						
1149	The Contractor shall provide the capability for transponder orders to be searched, for order(s) that meet specified criteria, which can then be viewed, immediately fulfilled, modified or canceled.						
1150	The Contractor shall provide the capability to make modifications to the transponder orders prior to fulfilling them. For example, a CSR may need to change the transponder type because the customer's vehicle requires an externally mounted transponder (bumper mount), or add another transponder to the order based on a customer request.						
1151	The Contractor shall provide a single customer Fulfillment receipt detailing the entire order. This receipt shall show the vehicle license plate number(s), type, Jurisdiction, make, model, color, transponder(s) or other inventory item(s) quantities, backordered quantities, sale or lease amounts, payment amount and any associated Account Plan(s), if applicable, for each transponder included in that order.						
1152	The Contractor shall provide the capability to generate a mailing label or print directly on the mailing envelope when fulfilling inventory orders by mail.						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offendor S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1153	The Contractor shall provide the capability to batch transponder distribution to improve the efficiency of the order Fulfillment process, including but not limited to: · identify open transponder orders and assign transponders to the accounts automatically; · create batches by transponder type and order type (new, replacement or additional); · transmit data to the mailing services to generate mailing labels by batch; · print transponder receipts; · track the mailing of transponders to customers and · Batch by zip code for the purposes of receiving bulk mailing discounts.						
1154	The Contractor shall provide the capability to perform a quality check of the transponder mailing packages before they are mailed to the customers.						
1155	The Contractor shall provide the capability for transponder receipts to be provided to the customer when the Fulfillment takes place in person.						
1156	The Contractor shall provide the capability to notify the customer that a transponder(s) has been placed in the mail.						
1157	The Contractor shall provide the capability to activate transponders when they are assigned to the account or with a Configurable delay in days when mailed.						
1158	The Contractor shall provide the capability to return transponders to stock and update the order, if applicable while preserving full traceability. For example, if a transponder comes back in returned mail, the BOS shall retain the history of the account that the transponder was added to and that the transponder came back undeliverable.						
1159	The Contractor shall provide the capability to issue more than one transponder type per vehicle.						
1160	The Contractor shall provide the capability to ask the customer if they will need a switchable transponder for carpooling.						
1161	The Contractor shall provide the capability to provide the amount due for transponders and allow the customer to override the transponder order.						
1162	The Contractor shall provide the capability to guide the customer through the transponder type and quantity: sticker for every car, external for problem vehicles and motorcycles, switchable for carpoolers.						
1163	The Contractor shall provide the capability to flag a sticker transponder in an eligible CAV after Configurable # of reads of the vehicle with the authorized eligible CAV plate.						
1164	The Contractor shall provide the capability to flag a sticker transponder in a disabled plate vehicle after a number of Configurable reads in the vehicle with the authorized plate.						
1165	The Contractor shall provide the capability to provide replacement transponders and calculate the amount due, if any, and restart the vehicle to tag association for eligible CAV and other Special Access Plan vehicles according to the Business Rules.						
1.11.4. Transponder Inventory Recycling							
	The Contractor will test returned transponders and return to usable inventory those that meet the Business Rules.						
1166	The Contractor shall provide the capability to process returned transponders back into the BOS for reissue when the transponders appears to be in good condition and has not reached the end of its useful life.						
1167	The Contractor shall receive and return to inventory and issue the customer a credit according to the Business Rules.						
1168	The Contractor shall provide the capability to assign returned transponders identified as being re-issuable to a box for tracking and reissue purposes.						
1.11.5. Transponder Testing							
	Transponders shall be tested at multiple times in the lifecycle because transponders that are defective or not functioning reliably cause problems for the customers and the Authority and increase costs. The Equipment required for testing of transponder will be provided by the Authority.						
1169	The Contractor shall provide the capability to test transponders using the transponder reader/tester.

1.11.6. Transponder Warranty Replacement for the Customer							
	Functionality will be required to support customer warranty returns and replacements.						
1170	The Contractor shall develop transponder replacement Business Rules based on the transponder type, account type and age of the transponder.						
1171	The Contractor shall provide the capability for a customer to request a replacement transponder by all communication channels and at the WIC.						
1172	The Contractor shall provide the capability to create a Case for each replacement request initiated by the customer.						
1173	The Contractor shall provide the capability for customers to return their old transponder to a WIC and receive a replacement transponder or credit to their account immediately according to Business Rules.						
1174	The Contractor shall provide the capability for customers to return transponders to the Authority and receive a refund of the purchase price if the transponder is defective or unused within a Configurable time period.						
1175	The Contractor shall provide the capability to send the customer a self-addressed return envelope to send the old transponder(s) back if the customer contacts the BOS via all communications channels to return a transponder(s).						
1176	The Contractor shall provide the capability to send a replacement transponder to the customer upon the receipt of a replacement request.						
1177	The Contractor shall provide the capability to track the return of the old transponder and update the account upon the successful receipt of the old transponder.						
1178	The Contractor shall provide the capability to generate Alerts if an account has more than a number (Configurable) of replacement claims.						
1.11.7. Inventory Warranty and Returns to Manufacturer							
1179	The Contractor shall provide the capability to enter, modify and delete transponder manufacturer information, including but not limited to:						
	· name;						
	· contact person;						
	· full address;						
	· phone numbers;						
	· rules for returns and · minimum number of transponders per return shipment.						
1180	The Contractor shall provide the capability to create a Return to Manufacturer (RMA) number and associated packing list by manufacturer for each RMA shipment.						
1181	The Contractor shall provide the capability for the opening, tracking and closing of RMA shipments by RMA number.						
1182	The Contractor shall provide the capability to add or remove specific items from an RMA shipment.						
1183	The Contractor shall provide the capability to track warranty payment or replacement transponders due from the manufacturer for returns under warranty.						
1184	The Contractor shall provide the capability to pro-rate the warranty period of the returned transponder based on the warranty left on the transponder identified for warranty return.						
1185	The Contractor shall provide the capability to accept a spreadsheet that maps old transponders to the new transponders in order to identify the remaining warranty.						
1.12. Customer Portals							
	The Authority will be responsible for the Self-Service Website with exception of the "my account" section, which is the responsibility of the Contractor.						
	Customers can obtain access to their accounts via customer portals which include the Self-Service Website and the Self-Service Mobile Application (Phase II and optional). These customer portals provide access to real-time account data. The Self-Service Website allows customers to establish accounts, manage their accounts and manage Violations.

	· Statement and correspondence method of delivery;						
· Opt-in for various communications (texts, e-blasts, statements, marketing) and							
· Opt-in for customer survey.							
1223	The Contractor shall provide the capability for a customer with an Unregistered account to open a Registered account without having to enter the name, address or vehicle information including the vehicle effective date equal to the first Violation transactions. The customer shall be able to make a single payment for the Violation amount due and the account establishment amount.						
1224	The Contractor shall provide on-screen guidance to the customer via the Self-Service Website during the account creation process regarding missing or improperly formatted information. The customer shall not be able to move to the next step until the required information is provided in the appropriate format and the proper action shall be clearly identified.						
1225	The Contractor shall provide the capability when opening a new account to automatically identify other account(s) associated with that account name or address and create a Case to allow a CSR to determine whether or not the account is a duplicate.						
1226	The Contractor shall provide the capability for the selection of account type and account preferences during the establishment of an account based on anticipated usage and other requirements.						
1227	The Contractor shall provide the capability, when adding contact information, to assist the customer by requiring zip code be entered first, then providing a pre-populated city and stat. Upon entry of a street address, the BOS should populate options for selection in the USPS standardized address format.						
1228	Require that the Authority's terms and conditions and privacy policy are acknowledged and a record of that acknowledgment saved in the BOS prior to establishing an account.						
1229	The Contractor shall provide the capability for customers to set and modify preferred communication channels.						
1230	The Contractor shall provide the capability for the customer to update all information on their account.

1231	The Contractor shall provide the capability to require a customer to accept revised account terms and conditions and privacy policy upon log in if a change is made to the account terms and conditions or privacy policy.						
1232	The Contractor shall provide the capability for electronic email address confirmation during the account creation process. For example, an email is sent to the email address provided with a link by which the customer can confirm they have control of the account. Upon validation, the BOS shall allow for the account creation process to be completed.						
1233	The Contractor shall provide the capability for any subsequent additional email addresses added, to perform the email address validation process prior to finalizing the entry on the account. A message shall be displayed indicating the email address shall not be added until the validation process is complete.						
1234	The Contractor shall provide the capability for sending an account summary/profile to the customer upon a successful account creation process. The account summary/profile shall also be provided in a printer-friendly format.						
1235	The Contractor shall provide the capability for customers to specify "how did you hear about us?" during the account creation process.						
1236	The Contractor shall provide the capability for customers to be asked a series of marketing questions (Configurable).						
1237	The Contractor shall provide customers with a running amount due (details and summary) as they proceed through the account set-up process including but not limited to:						
	· account fee at time of account establishment;						
	· prepaid balance amount;						
	· transponder cost amount and · Violation amounts.						
1238	The Contractor shall provide the capability for a customer to close his/her Registered account.						
1.12.1.3. Payment Processing							
	To provide a customer experience that is intuitive, efficient and meets the needs of a self-service oriented customer, the BOS must provide a well-designed and logical customer self-service payment setup and management process						
1239	The Contractor shall provide the capability to determine the payment methods available (Configurable) based on account type.						
1240	The Contractor shall provide the capability for the manual replenishment (via existing payment methods on the account) of Registered accounts.						
1241	The Contractor shall provide the capability for the customer to set up an automated recurring replenishment via Credit Card and ACH.						
1242	The Contractor shall provide the capability for violators to view the images (in compliance with PII requirements) associated with the Notice of Toll Evasion Violation and Notice of Delinquent Toll Evasion Violation and make payments or initiate a dispute by entering the pertinent dispute information.						
1243	The Contractor shall provide the capability to automatically create a Case and populate it with all pertinent information when a violator disputes a Notice of Toll Evasion Violation and Notice of Delinquent Toll Evasion Violation.						
1244	The Contractor shall provide the capability for the violator to upload file(s) supporting the dispute and automatically associate those files to the Case.						
1245	The Contractor shall provide the capability for violators to make a payment and have it applied towards a specific item on the account or the entire balance due, for example Violation Notices, penalties and fees.						
1246	The Contractor shall provide the capability to Configure whether or not to allow partial payments for Violation-related activity.

1247	The Contractor shall provide the capability to allow for the payment of Violations and an account replenishment with one payment.						
1248	The Contractor shall provide the capability for a customer to intuitively and efficiently add the violating license plate/vehicle to an account, for which they have login access, and have the BOS verify to the customer that the license plate has been added and the transactions/trips have Posted. Provide the capability to notify the customer of any fees and assess those fees to the account in accordance with the Business Rules. If the transactions/trips cannot Post to the account or the license plate cannot be added, in real time the BOS shall notify the customer of the issue and ask the customer to contact the CSC.						
1249	The Contractor shall provide the capability, in accordance with the Business Rules, for a customer to intuitively and efficiently establish an account via a "sinner to saint" process offered to violators that meet certain criteria. The BOS shall verify that the account has been created, the license plate/vehicle has been added and transactions/trips have Posted. Provide the capability to notify the customer of any fees and assess those fees to the account in accordance with the Business Rules. If the transactions/trips cannot Post to the account or the license plate/vehicle cannot be added, in real time the BOS shall notify the customer of the issue and ask the customer to contact the CSC.						
1250	The Contractor shall provide the capability that once a Violation transaction/trip is transferred to an account, all other eligible Violations automatically transfer to the account in Accordance with the Business Rules.						
1251	The Contractor shall provide the capability during the Violation payment process to notify Interoperable/CTOC Agency customers of the process and time constraints for updating their account to allow for the Posting of the transactions/trips to their account through the Interoperable/CTOC Agency.						
1252	The Contractor shall provide the capability to allow for a primary and secondary Credit Card and provide a processing sequence for when to process each or let the customer select via the website for a one-time payment.						
1253	The Contractor shall provide the capability for Violation transaction/trip payments using only the license plate number, Plate Type, Jurisdiction and/or other information (Configurable and based on Business Rules) for authentication.						
1254	The Contractor shall provide the capability to prevent customers from making payments in excess of a Configurable amount based on account type.						
1255	The Contractor shall provide the capability to configure whether or not customers are allowed to make payments to their accounts for amounts in Collections.						
1256	The Contractor shall provide the capability to display a confirmation page that includes payment method details (Credit Card numbers obscured) and amount to be paid prior to customer being allowed to submit a payment.						
1257	The Contractor shall provide a clear summary of charges to be processed and require customer confirmation prior to processing payment.						
1.12.1.4. Vehicles, License Plates and Transponders							
1258	The Contractor shall provide the capability for customers to request and pay (sale) for new transponders.						
1259	The Contractor shall provide the capability for the customer to request a replacement transponder indicating which transponder is being replaced and the BOS should automatically determine the age of the transponder to determine if there is a charge for the replacement according to the Business Rules.						
1260	The Contractor shall provide the recommended number and types of transponders in accordance with the customer request and the Business Rules.						
1261	The Contractor shall provide the capability to identify vehicles which require an external transponder and Flag them for an external headlamp transponder.

1262	The Contractor shall provide the capability for customers to deactivate a transponder.						
1263	The Contractor shall provide the capability to allow for the deactivation of a transponder and reactivation of a transponder.						
1264	The Contractor shall provide the capability for customers to add, delete and update a beginning and end date/time for a specific vehicle and license plate at the account level. For example, a customer may wish to add a vehicle on the account for a limited amount of time.						
1265	The Contractor shall provide the capability to identify temporary plates and include the expiration date for use in reminding the customer to provide the permanent plate. The temporary plate and permanent plate shall be properly linked with the vehicle and account to facilitate proper System processing and customer service.						
1266	The Contractor shall provide the capability for customers to add a license plate number to an account with a back dated start date and time. The allowable back date period shall be Configurable. Upon back dating provide the customer with the amount due allowing for a one-time payment for the amount due or payment from the prepaid balance.						
1267	The Contractor shall provide the capability for customers to add, delete and manage vehicles.						
1268	The Contractor shall provide drop down lists of vehicle makes and models.						
1269	The Contractor shall provide the capability to inform the customer at the time of addition if a vehicle plate is active on another account and have them confirm that they want to continue with the addition.						
1270	The Contractor shall provide the capability to identify motorcycle vehicle plates using the DMV plate configuration and Flag them for an external headlamp transponder.						
1271	The Contractor shall provide the capability to allow the customer to indicate a disabled plate or disabled veteran plate and upload the required supporting documentation and flagging the account for approval by a CSR.						
1272	The Contractor shall provide the capability to identify qualified clean air vehicles through the DMV file or customer provided documentation through a document upload and Flag for Clean Air Vehicle validation.						
1273	The Contractor shall provide the capability (Configurable) for customers to upload a file with vehicles and associated information, using an intuitive and user-friendly process that supports multiple data formats, for example delimiter-separated data or Excel. Functionality shall include but not be limited to:						
	· a browse button to locate the file;						
	· validation of the file prior to import (invalid files shall not be imported, and an error message shall be presented);						
	· on-screen feedback of successful processing by indicating the number of vehicles imported and send email Notification of successful import.						
1274	The Contractor shall provide a downloadable sample vehicle file and data definition document with instructions for each supported format.						
1275	The Contractor shall provide detailed instructions regarding the process to upload vehicle information.						
1276	The Contractor shall provide the capability to automatically identify account(s) associated with a license plate being added to an account, including but not limited to:						
	· violator account with unresolved Violations;						
	· accounts in bad standing;						
	· accounts closed in bad standing;						
	· accounts with debt in Collections;						
	· accounts in bankruptcy and						
	· accounts where the license plate is active on another account.

1277	The Contractor shall provide the capability to either (determined during design) automatically initiate a Case and direct the customer to call the CSC or get a warning and allow the customer to proceed when the license plate they are attempting to add to their account is active on another account, other than a rental car account.						
1.12.1.5. Notifications							
1278	The Contractor shall provide the capability for customers to log in, view and print the Notifications associated with their account.						
1279	The Contractor shall provide the capability for customers to view and print past account statements or invoices, or to generate an on-demand account statement or invoice (in both PDF or CSV formats), based on selection criteria for all account types.						
1280	The Contractor shall provide the capability for violators to view and print Violation Notices including all associated Violation images.						
1281	The Contractor shall provide the capability to access Violation Notices, citations and/or collection letters associated with Unregistered accounts and make payments. These documents can be accessed by the violator using the vehicle license plate number and Jurisdiction and the violator account number (or other information to be defined during the Implementation Phase).						
1282	The Contractor shall provide the capability upon logging into the account, provide the customer with customized special messages regarding their account such as credit card expired, payment declined, temp plate expired, pay by plates occurring on a specific vehicle.						
1283	The Contractor shall provide the capability to display Notifications (Configurable), including but not limited to:						
	· allowable Flags related to the account;						
	· transponder in certain status, for example, lost or stolen;						
	· dispute status;						
	· payments and						
	· other information which the Authority wants presented to the customers and other website visitors.						
1.12.1.6. Website – Other Functionality							
1284	The Contractor shall provide the capability to view transactions history and associated vehicle images for each Image-Based Transaction/Trip. The Contractor shall properly address PII compliance during design.						
1285	The Contractor shall provide the capability to initiate disputes.						
1286	The Contractor shall provide the capability for a customer to upload a file, including pdf, all Microsoft Excel and Word files, text files, all types of image files and csv files, and have it associated to the account and Case, if applicable. Such uploads shall be structured within a specific process where a category can be assigned and a Case opened for an Authorized User to verify, for example additional evidence for a dispute, or police report for a stolen vehicle.						
1287	The Contractor shall provide the capability to limit the types of transactions, screens and activities customers can access via the Self-Service Website based on account type, including but not limited to:						
	· account Flags;						
	· account balance;						
	· account status;						
	· based on Security Standards and PII and						
	· based on Business Rules.						
1288	The Contractor shall provide the capability to automatically create a contact record in the account history for contacts made via the Self-Service Website.						
1289	The Contractor shall provide the capability for customers to enroll in various Account Plans.						
1290	The Contractor shall provide the capability for customers to enter promotion codes on their accounts.						
	The Contractor shall provide the capability for customers to set “opt in” and “opt out” options for certain Notification types, including but not limited to:

1.13. Customer Contact Systems							
1.13.1. Telephony Systems Requirements							
	The Contractor is required to provide, operate and maintain the telephony system at all CSC and WIC locations (with the exception of the OCTA Store WIC).						
1307	The Contractor shall provide a telephony system including an automated call distributor (ACD) that is fully integrated with the BOS for capable of simultaneously handling inbound/outbound customer calls, all CSC Operations calls and on-site BOS personnel internal calls. The telephony system shall be capable of meeting all current and future capacity Requirements.						
1308	The telephony system shall meet all future capacity requirements.						
1309	The Contractor shall provide a telephony system meeting the following, including but not limited to:						
	· fully integrated with the functional BOS;						
	· fully integrated into the Desktop Environment;						
	· fully integrated into all CSC Operations Facilities and supports all related functional Requirements contained herein.						
1310	The Contractor shall provide a telephony system which is designed to meet the Performance Measures and availability Requirements.						
1311	The Contractor shall provide sufficient Session Initiation Protocol (SIP), or equivalent, to support 200 percent of the anticipated call volumes.						
1312	The Contractor shall provide a real-time telephony dashboard that allows the Authority and CSC management to monitor the call handling performance.						
1313	The Contractor shall provide full integration between the telephony system and the BOS, including but not limited to:						
	· association of all customer inbound/outbound calls with the account;						
	· association of detail regarding the customer contact with the account, for example, wrap codes and ad-hoc Authorized User entered information and the availability, via the BOS application account screens, of all customer contact records.						
1314	The Contractor shall provide the capability for the telephony system to be trained to identify key words/phrases and notify an Authorized Users in real-time or upon request.						
1315	The Contractor shall provide an integrated CSR quality review functionality such that the reviewer can listen to the call, watch the recorded screen movements and score the call against the Configured criteria.						
1316	The Contractor shall provide the capability for CSRs to select and enter the reason(s) for the call.						
1317	The Contractor shall provide the capability for Authorized Users to add/delete/modify survey questions for an after-call survey.						
1318	The Contractor shall provide the capability for the telephony system to provide a survey for the customers after the call.						
1319	The Contractor shall provide the capability for Authorized Users to obtain the results of the after-call survey.						
1320	The Contractor shall provide the capability to allow a supervisor to monitor or participate in real time the phone conversations between the CSR and the customer and view CSR screen navigations, including but not limited to:						
	· just listen;						
	· listen and talk only to CSR (coach) and participate in a three-way call with the customer.						
1321	The Contractor shall provide the capability for the Authority to remotely and non-intrusively monitor live calls.						
1322	The Contractor shall provide the capability for the Authority to remotely review all recorded calls randomly of specifically categorized by, including but not limited to:						
	· CSR; · call subject;

1323	The Contractor shall provide the capability for English and Spanish language options.						
1324	The Contractor shall provide automated call routing based on customer selections. For example, if the customer selects the Spanish language option and then wishes to pay a Violation Notice, the call is sent to a Spanish-speaking CSR with the ability to accept payments.						
1325	The Contractor shall provide automated call distribution, including conditional routing to qualified Authorized Users.						
1326	The Contractor shall provide for call routing based on conditions, including but not limited to:						
	· time of day;						
	· day of week;						
	· Holiday schedule;						
	· planned outage;						
1327	· wait times (Configurable) and						
	· call volumes (Configurable).						
	The Contractor shall provide the capability for Authorized Users to configure the relevant parameters related to call handling, including but not limited to:						
	· service levels;						
	· skill levels;						
	· language selection;						
	· phone number and hours of operation for contact center;						
	· locations of WICs;						
	· remote/other call handling locations;						
	· conditional escalations;						
	· prioritization of queues;						
	· call routing rules;						
· call recording rules;							
· call wait-time rules;							
· music on hold selections and							
· message on hold selections.							
1328	The Contractor shall provide the capability to specify and manage service levels.						
1329	The Contractor shall provide the capability to notify Authorized Users regarding service level performance.						
1330	The Contractor shall provide the capability to automatically move contacts between service groups to meet service levels and key performance indicators.						
1331	The Contractor shall provide the capability to prioritize contacts.						
1332	The Contractor shall provide the capability to reprioritize contacts in queue.						
1333	The Contractor shall provide the capability to restrict outbound calling to only specific users.						
1334	The Contractor shall provide the capability to make outbound pre-recorded calls.						
1335	The Contractor shall provide the capability to manage outbound call campaigns.						
1336	The Contractor shall provide the capability to manually initiate automated outbound calls to accounts that meet specified criteria (for example, initial collections activities based on information provided by the Collections Agencies).						
1337	The Contractor shall provide the capability for Authorized Users to be designated for both outbound and inbound calling.						
1338	The Contractor shall provide the capability to record and activate new initial messages to be heard by all callers, for example Maintenance messages that the IVR is down or that the CSC is closing early.

1339	The Contractor shall provide the capability for virtual queuing, which allows customers to hang up while still keeping their place in the queue and receive a call a back when it is their turn rather than waiting on hold.						
1340	The Contractor shall provide the capability to notify callers of the estimated wait time either on hold or for a call back.						
1341	The Contractor shall provide expected wait time messages during the time the customer is on hold.						
1342	The Contractor shall provide recorded audio while customers are on hold.						
1343	The Contractor shall provide the capability to record messages to be played to on-hold customers.						
1344	The Contractor shall provide for the interspersing of music for pre-recorded on-hold messages.						
1345	The Contractor shall provide computer telephony integration to the BOS to display the user account, including but not limited to:						
	· screen pop based on inbound caller ID;						
	· screen pop based on caller-entered information and						
	· screen pop notifying CSR that customer has successfully authenticated.						
1346	The Contractor shall provide the capability for all inbound and outbound calls to be recorded.						
1347	The Contractor shall provide the capability to prevent recording, transmitting, or storage of Credit Card information within or through the BOS or OCTA network, for example, for the purpose of tokenization, transfer the warm call to the Merchant Service Provider for payment and once payment is completed transfer back to CSR.						
1348	The Contractor shall provide workforce management tools, including but not limited to:						
	· forecasting contact volume based upon historical trends;						
	· managing key performance indicators;						
	· dashboard monitoring of key performance indicators;						
	· real-time reports for monitoring key performance indicators and						
· call recording on demand or automatically.							
1349	The Contractor shall provide supervisory management tools, including but not limited to:						
	· manage call recording profile by Authorized User;						
	· chat electronically with Authorized Users;						
	· silently monitor calls;						
	· initiate a three-way call;						
	· remove the Authorized User from the call;						
1350	The Contractor shall provide the capability for Authorized Users (for example Authority staff) to remotely access real-time and historical performance information, including but not limited to:						
	· overall customer call queue information;						
	· all wait time and call handling times;						
	· specific call queue information, for example, information about only the Spanish queue or the dispute queue;						
	· chat queue information;						
· key performance indicators and							
· active Authorized Users.							
1.13.2.	IVR System						
	The IVR System allows allow customers to perform all actions that they might ask of a CSR with the exception of certain functions that are specific to the role of an Authorized User, for example adding certain Account Plans or changing the name on an account. The IVR must provide all required functions in both English and Spanish.						
1351	The Contractor shall provide sufficient IVR processing capacity to support 200 percent of the anticipated call volumes and shall have the capability to provide additional capacity on-demand.						
	The Contractor shall provide the capability to configure the IVR System, including but not limited to:

1352	<ul style="list-style-type: none"> allowable number of failed authorization attempts; allowable number of invalid responses and allowable idle time. 						
1353	The Contractor shall provide the capability to view and configure the phone tree in graphical manner.						
1354	The Contractor shall allow for custom IVR messages to be immediately recorded and inserted as needed and requested.						
1355	The Contractor shall provide the capability for standard messages to be rotated in the IVR as needed or requested.						
1356	The Contractor shall provide the capability for an Authorized User to have role-based access to the system to make all types of common IVR changes.						
1357	The Contractor shall provide directed dialog natural language speech recognition for all IVR services, recognizing the customers voice for identity verification, option selections, navigation and customer-provided information such as account information, Violation number, plate number, etc., and for customer accessing of account and all other information provided by the IVR.						
1358	Support bi-lingual (English and Spanish) interaction, and the Contractor shall provide the Interface that supports bi-lingual options for customer interaction.						
1359	Support various modes of operation, including but not limited to: <ul style="list-style-type: none"> CSC open hours when the IVR and CSR options are available to service the customer; CSC off-hours when only the IVR is available to service the customer and conditions where the BOS is not functional, CSC is not open for operations, but the IVR System is operational. 						
1360	The Contractor shall provide the capability to verify customer identity and authorization prior to transferring the customer to a CSR. The verification authorization process shall be automated to minimize any delays for the customer.						
1361	The Contractor shall provide the capability to pop-up the customer account or Violation information on the BOS screen so the CSR has all the pertinent information available prior to the call being received by the CSR.						
1362	The Contractor shall provide for the retention of account number, Violation Notice number or other entered information (excluding any Credit Card information) to be made available to the CSR who takes the call should the customer exit the IVR and wish to speak to a CSR.						
1363	The Contractor shall provide the capability for the caller to execute multiple options within the same call, for example return to previous menu and repeat prompt options.						
1364	The Contractor shall provide English and Spanish speaking customers the ability to respond to the IVR by pressing designated keypad buttons on their phone or saying a response.						
1365	The Contractor shall provide a single IVR recording voice talent per supported language and have consistency in voice volume and intonation throughout the Operations and Maintenance Phases.						
1366	The Contractor shall provide the capability to fully integrate with the Merchant Service Provider Credit Card information while maintaining compliance with tokenization and PCI DSS Requirements.						
1367	The Contractor shall provide the capability for customers to manage their account.						
1368	The Contractor shall provide the capability for customers to access the account using the PIN and one other piece of information, including but not limited to: <ul style="list-style-type: none"> caller ID (ANI); account number; license plate number; transponder number and Violation Notice number. 						
1369	The Contractor shall provide the capability to limit the types of transactions and activities customers can access via the IVR based on account types, including but not limited to: <ul style="list-style-type: none"> account Flags; account balance;

1426	The Contractor shall provide the capability to record the text responses.						
1427	The Contractor shall provide automated text distribution, including conditional routing to qualified Authorized Users.						
1428	The Contractor shall provide the capability to prevent recording or accepting of Credit Card information in text communication.						
1429	The Contractor shall provide full integration between the text system and the BOS in association with the account such that text messages are able to be viewed from the customer account in BOS.						
1.14. Financial Requirements							
	These financial Requirements describe the functionality that must be present in the BOS for the Authority to service customers and to record financial activity related to the BOS in its general ledger system.						
	The Authority use a modified accrual method of accounting and prepare financial statements in accordance with GAAP and GASB using a June 30 Fiscal Year end.						
	It is important that revenues associated with tolls are presented separately from other revenues (for example, fees and fines) and separated by Toll Facility. The Authority utilizes reports detailing historical collections to analyze and estimate future revenues from Violations. For this reason, it is important that the reporting enables the Authority to analyze the period in which Violations occurred versus the period in which those Violations were paid.						
	Prepaid tolls shall be deposited to a Bank Account held by the Authority until such time as an action on the account causes such funds to be depleted. Such actions include but are not limited to: customer incurring tolls on an OCTA Toll Facility; customer incurring tolls on an Interoperable Agency Toll Facility; account incurring a fee; returned check being processed on the user account; customer requesting a refund and customer requesting account closure.						
	The BOS is the conduit between the Authority and customers; Interoperable Agencies, and Third-Party Service Providers. The Contractor shall reconcile all transactional and financial interactions between the BOS and customers; Interoperable Agencies and Third-Party Service Providers. The Contractor also shall also reconcile all transactional and financial interactions between the BOS and the Authority.						
1.14.1. General Financial Requirements							
	Financial reports shall not change once the Revenue Day is closed. The Revenue Day is typically closed by a semi-automated process once a series of reconciliations is performed to ensure all transactions have been appropriately received and processed. While immaterial variances and discrepancies (for example, if a handful of transactions were not processed) may be corrected after the Revenue Day has been closed, material discrepancies (for example, an entire unprocessed payment or transaction file) must be corrected before the Revenue Day is closed. Once the Revenue Day is closed, any adjustments or corrections to transactions that occurred in that Revenue Day must be made in the current Revenue Day.						
	The Authority does not intend to use the BOS as its general ledger system, nor does the Authority intend to feed data from the BOS automatically to its general ledger. The Authority intends to use exports and reports from the BOS to record the financial entries into the Authority's financial system. The BOS must utilize GAAP-compliant methods to record financial activity between the Toll Facilities and the BOS and between the BOS and customers; Interoperable Agencies and Third-Party Service Providers.

1430	The Contractor shall provide an integrated, Configurable, GAAP-compliant accounting Module for all transactions.						
1431	The Contractor shall provide for double entry recording of all Financial Transactions.						
1432	Separate financial data shall be maintained for each CTOC Agency, each Interoperable Agency, each Collection Agency and each Third-Party Service Provider.						
1433	The Contractor shall create automatic journal entries for recording and tracking all transactions and payment events.						
1434	The Contractor shall develop a journal entry template for every BOS transaction that impacts revenue, liability balances (for example, Registered or Unregistered accounts) or asset balances (for example, accounts receivable) to be Approved by the Authority.						
1435	The Contractor shall provide an audit trail for each transaction, which shall reflect the source of each transaction, all adjustments to the transaction and the current status of the transaction and/or the final disposition of the transaction.						
1436	Every payment that resulted in a receivable being marked paid shall be traceable to the receivable(s) it paid.						
1437	Every paid receivable shall be traceable to one or more payments that were allocated to its payment.						
1.14.2. Transaction Recording							
	Toll transactions are initiated by an originating Toll Facility through transmission of a transaction/trip from the ETTM System, through a CTOC Interface or through an Interoperable Agency Interface to the BOS and Posted to user accounts or otherwise processed. The Authority is currently Interoperable with all California toll agencies through their participation in CTOC. The Authority intends to become Interoperable with other Interoperable Agencies outside of CTOC during the Term of the Agreement. These transactions also are Posted against the Financial Accounts. These include transactions such as a toll or a fee and the transaction activities that affect them, such as billing a transaction or sending it to collections. All transactions and transaction activities are recorded against Financial Accounts.						
1438	Record all BOS activities, including but not limited to: <ul style="list-style-type: none"> · when a new transaction/trip is received from the ETTM System; · when an amendment is made to a transaction/trip by the BOS; · when an amendment is made to a transaction/trip by a Collection Agency; · when a new or amended transaction is received from a CTOC Agency; · when a new or amended transaction is received from an Interoperable Agency; · when a fee, penalty or any transaction is assessed by the BOS; · when a fee, penalty or any transaction is collected; · when a fee, penalty or any transaction is waived, voided or otherwise reversed; · when a fee, penalty or any transaction is adjusted and · when there is a change in the status or workflow stage of a fee or penalty or another transaction. 						
1439	All entries to the BOS shall consider payable and receivable balances between, including but not limited to: <ul style="list-style-type: none"> · the customer and the BOS; · the BOS and the Authority; · the BOS and Collection Agency; · the BOS and CTOC Agencies; · the BOS and Interoperable Agencies and · the BOS and Third-Party Service Providers. 						
1440	The BOS shall provide the capability of recording a payable to or receivable from the Authority, a Collection Agency, a CTOC Agency, an Interoperable Agency, or a Third-Party Service Provider simultaneously with the recording of a customer payment against a transaction.						
1441	Create all financial entries as individual records, which may be used in combination with other financial entries to make a net effect, but do not allow the original entry to be modified.

1442	Ensure each debit entry to a Financial Account has a corresponding and equal credit amount and each credit entry to a Financial Account has a corresponding and equal debit amount so the Financial Accounts balance at all times.						
1443	The Contractor shall provide reports in summary and in detail on the Financial Accounts. BOS reports shall be provided that reconcile to the Financial Accounts.						
1.14.2.1. Fee and Penalty Transaction Recording							
	Fees and penalties are charged to customers at a variety of different escalations in status or workflow stage, including but not limited to:						
	· when a Notice of Toll Evasion Violation is generated;						
	· when a Notice of Delinquent Toll Evasion Violation is generated;						
	· when transactions/trips are accepted for Registration Hold;						
	· when transactions/trips are sent to Collections and						
	· when a FasTrak account is sent to Collections.						
	Fees may also be charged when certain transactions/trips are Posted to an account, including but not limited to returned checks, non-sufficient funds (Credit Cards) chargebacks, failed FasTrak account replenishment, Excessive I-Tolls and for accounts below the Insufficient Balance Threshold.						
	Fees and penalties can be incurred at the trip level or at the account level.						
1.14.3. Customer Transaction Settlement							
	Customer transaction settlement is the payment of tolls, fees and penalties by the customer. Customer transaction settlement also includes any payment reversals, chargebacks and refunds.						
	Funds collected from customers and Interoperable facilities are deposited into Bank Account(s) established by the Authority. Payments are issued from these accounts(s) including:						
	1. Customer Refunds issued by check to customers.						
	2. Payments are made to Interoperable facilities.						
	3. Funds are deposited and held in a BOS Bank Account until refunded to customers, paid to Interoperable Agencies or distributed to the Authority.						
1.14.3.1. Customer Payments							
	Payments and other receipts shall be processed by the BOS in accordance with the following Requirements:						
1444	Payments are collected from the following payment sources. The number and names of payment sources shall be Configurable and include but are not limited to:						
	· merchant accounts;						
	· DMV;						
	· Collections;						
	· Lockbox (optional);						
	· check payments;						
	· cash payments (processed at WICs);						
	· Interoperable Agencies and						
	· Franchise Tax Board.						
1445	The Contractor shall provide the capability to establish deposit accounts within the BOS and map those deposit accounts to BOS Modules, including but not limited to Financial Account, deposit reports and bank reconciliation. For example, deposits to the Lockbox Bank Account (if the Contractor elects to use one) are recorded in the Financial Account associated with the Lockbox Bank Account.						
1446	The Contractor shall provide the capability to map deposits by payment source to default Bank Accounts. For example, deposits received from the Merchant Service Provider are mapped in the BOS as received from the Merchant Service Provider and being deposited to the Bank Account to which the Merchant Service Provider makes its deposits.						
1447	The Contractor shall provide the capability to capture the bank deposit date and associate it with the payment transaction.

1448	Funds shall be disbursed from the following payment sources. The number of names of payment sources shall be Configurable and include but are not limited to: · customer Refund Account; · Interoperable Agency and · Authority remittance account.						
1449	The Contractor shall provide the capability to establish disbursement accounts within the BOS and map those disbursement accounts to BOS Modules, including but not limited to Financial Account, disbursement reports and bank reconciliation.						
1450	The Contractor shall provide the capability to map disbursements by disbursement type to default disbursement accounts.						
1451	Payments shall be applied to account balances on a Configurable basis (default order is automatically assigned by the BOS).						
1452	The default Posting order can be manually overridden by Authorized Users.						
1.14.3.2. Disbursements							
	Disbursements will be made to customers for overpayments and refunds and also made to the Authority, CTOC Agencies, Interoperable Agencies, and Third-Party Service Providers.						
1453	The BOS shall support the processing of disbursements, including but not limited to: · customer refunds; · settlement with the Authority; · settlement with CTOC Agencies; · settlement with Interoperable Agencies, and · settlement with Third-Party Service Providers.						
1454	The Contractor shall provide the Configurable capability to automatically identify accounts that are eligible for refund processing and present those refunds for review and approval based on various activities on the account (require review before a refund would be processed), including but not limited to: · closing of an account; · unapplied payments (for example, a payment that has been received and deposited but cannot be Posted to an account and needs to be refunded); · overpayment on an account and there are no outstanding Violations or unbilled tolls that need to be paid and · overpayment of a Violation and there are no other outstanding Violations or toll transactions/trips that need to be paid.						
1455	The Contractor shall provide the capability for an optimized and streamlined (minimized number of steps) process for refunds based on the original transaction and confirm such refunds are reflected on the user account history. For example, upon receipt of a customer request to close an account and after the appropriate waiting period has elapsed, an Authorized User shall have the capability to Approve a refund without the need to research and indicate refund method and, in the case of Credit Card refunds, select or input the card number; the BOS shall have the capability to automatically allocate Approved refunds to the correct refund type and card number.						
1456	The Contractor shall provide the capability to issue refunds to the payment method that was used to create the credit balance.						
1457	The Contractor shall provide the capability to issue electronic refunds (for example, by Credit Card) to the Credit Card used to make the payment, including but not limited to those Credit Card that are not stored on the user account. For example, the BOS can utilize a payment reference number to trace back to a payment method without the need for the BOS to retain the card information.						
1458	The Contractor shall provide the capability to issue refunds by check if the account does not provide for an electronic method or if the electronic method is invalid (for example, if the Credit Card is expired).

1459	If required in order to comply with the merchant agreement or any other agreements or regulations, the Contractor shall provide the capability to issue a single refund using more than one payment method. For example, a single refund amount may be issued to multiple Credit Cards and/or by check.						
1460	The Contractor shall provide the capability to issue refunds by check for overpayments on, including but not limited to:						
	· prepaid tolls;						
	· Violations;						
	· fees and penalties.						
1461	The Contractor shall provide the capability to prevent refunds of greater than the amount of the original transaction amount or the prepaid balance, adjusted for overpayments and any prior refunds.						
1462	The Contractor shall provide the capability for automated processing of Approved refunds after a Configurable hold period.						
1463	The Contractor shall provide the capability to send an Operational Alert Notification to the PMMS when eligible refunds are due.						
1464	The Contractor shall provide the capability to expedite a refund if the customer requests to have a refund issued before the Configurable hold period has elapsed, for example when a customer is due a refund because a check was cashed for the wrong amount due to CSR error.						
1465	The Contractor shall provide the capability to require authorized approvals for refunds. For example, refunds in excess of a Configurable amount or refunds for goodwill credits for which there is no associated payment are routed for approval through Cases.						
1466	The Contractor shall provide the capability to track and associate all refunds to the original payment on the account.						
1467	The Contractor shall provide the capability to display detailed Credit Card settlement activity for refunds by payment method.						
1468	The Contractor shall provide the capability to prevent the automatic issuance of refunds if the account has an outstanding balance due; such refunds require the approval of an Authorized User through Cases.						
1469	The Contractor shall provide the capability to send a refund Notification electronically and/or by mail to all customers who are issued a refund.						
1.14.3.3. Escheatment (unclaimed property)							
	The BOS shall allow for comments to be entered in accounts that are eligible for Escheatment and a Flag shall be available to indicate when an account was subjected to Escheatment procedures.						
1470	The Contractor shall provide the capability to enter comments and update statuses and Flags to indicate that an account was subjected to Escheatment procedures.						
1471	The Contractor shall provide the capability to identify any unclaimed funds as candidates for the Escheatment process.						
1472	The Contractor shall provide the capability to identify any unclaimed funds as subjected to the Escheatment process.						
1.14.3.4. Write-Off of Unpaid Balances							
	The BOS shall have the capability of processing Write-Offs at the Authority's discretion. The BOS must accommodate both automatic and manual Write-Off of unpaid balances and Toll Transactions. These Write-Offs will include bulk Write-Offs of a group of transactions which meet Configurable criteria and individual transactions/debts. This process shall be conducted in an efficient and streamlined manner. The BOS shall provide reporting detailing balances subject to Write-Off and the details of the transactions/debts written-off.						
1473	The Contractor shall provide the functionality to accept payment on transactions/trips that have been written-off, for example reverse the Write-Off in the amount of the payment and apply the payment.						

Volume II BOS Technology and Functionality

1474	The Contractor shall provide for Write-Off codes which shall provide the selection of a Write-Off reason for each transaction.						
1475	The Contractor shall provide for the Write-Off of individual transactions by Authorized Users.						
1476	The Contractor shall provide for the bulk Write-Off of transactions by Authorized Users.						
1477	The Contractor shall provide the capability for the BOS to automatically Write-Off transactions/debts based on Business Rules, for example, Write-Off balances after X Configurable days if no action.						
1478	The Contractor shall provide for the cessation of status or workflow stage and collection effort following Write-Off.						
1479	The Contractor shall provide the capability to require a reason for each Write-Off, for example, debt reduction negotiation or debt older than "x".						
1480	The Contractor shall provide the capability for the BOS or the applicable Authorized User to select the appropriate Write-Off reason.						
1481	The Contractor shall provide the capability to search for types of debt and Write-Off the selected group of debts. Types of debts include but at not limited to:						
	· fees;						
	· penalties and						
	· tolls.						
1.14.4. Reconciliation and Settlement – General Requirements							
	Balancing and reconciliations are integral to the BOS operation. Therefore, these processes shall be integrated within the BOS.						
	The Contractor shall provide a BOS capable of handling reconciliations within the BOS, as opposed to on spreadsheets or through other mechanisms outside the BOS. For example, the BOS shall be capable of accepting data from the bank(s) and Merchant Service Provider(s) to reconcile Credit Card deposits within the BOS. Exceptions shall be tracked as Cases within the BOS and reconciliation reports are generated by the BOS. The BOS shall not require that data be exported from the BOS, from the bank(s) and from the Merchant Service Provider(s) to be combined, compared and reconciled in a spreadsheet.						
1482	The BOS shall track and reconcile 100 percent of the transactions it receives from the ETTM System.						
1483	All BOS transaction reconciliation shall be based on Revenue Day which, for transactions/trips, is the Revenue Date transmitted in the transactions/trips; for operations and payments activities, it is the day the event occurred.						
1484	The Contractor shall provide the capability to close a Revenue Day upon the final reconciliation of the transactions and revenue. The completion of the Revenue Day closure process finalizes the counts and revenue for the Revenue Day. Upon the closure of the Revenue Day the data on Revenue Day reports shall not change.						
1485	The Contractor shall provide the capability to close a Revenue Month similar to the Revenue Day closure process.						
1486	The last Revenue Day of a Revenue Month shall remain open for adjustments until both the Revenue Day and the Revenue Month have been closed.						
1487	The Contractor shall provide the capability to close a Revenue Year similar to the Revenue Month closure process.						
1488	The last Revenue Day of a Revenue Year shall remain open for adjustments until the Revenue Day, Revenue Month and Revenue Year have been closed.						
1489	The Contractor shall provide the capability to investigate and correct all exceptions and discrepancies identified during the process. For example, if the total of the bank deposits does not equal the total of bank deposits per the BOS, then detailed reports relating to the deposits in question must be available. Corrections shall be made and <u>Approved by Authorized Users</u> .						
1490	All reports shall indicate the status of the reconciliation. For example, when a user runs a report containing data for a Revenue Day which has not yet been closed, the report shall contain some indication the data in the report is preliminary or subject to change.

1491	The Contractor shall provide the capability to record fees in the BOS, for example merchant fees and bank fees.						
1.14.4.1. Banking Reconciliation and Settlement							
1492	The Contractor shall provide the capability to reconcile all financial activity, including but not limited to:						
	· deposits;						
	· credits;						
	· disbursements;						
	· returned items and · chargebacks.						
1493	The Contractor shall provide for the daily Balancing of activity at the transaction level by Payment Type.						
1494	The Contractor shall provide for the identification of exceptions by transaction.						
1495	The Contractor shall provide the capability to allow Authorized Users to make adjustments to exceptions and reprocess the automated reconciliation.						
1496	The Contractor shall provide the capability to open a Case for reconciliation exceptions.						
1.14.4.2. Bank Deposit Reconciliation and Settlement							
	The BOS deposits funds collected by mail and in the WICs. These funds are deposited by the BOS directly into BOS Bank Accounts in accordance with the flow of funds depicted in Figure 1 3 Customer Transaction Settlement. These deposits must be balanced and reconciled on a daily basis and monthly basis.						
1497	The Contractor shall provide an automated interface to reconcile bank deposits.						
1.14.4.3. Reconciliation and Settlement with Merchant Service Provider							
	The BOS initiates Credit Card transactions with one or more Merchant Service Providers. Funds collected through the merchant accounts by the Merchant Service Provider are deposited directly into BOS Bank Accounts in accordance with the flow of funds depicted in Figure 1 3 Customer Transaction Settlement.						
1498	The Contractor shall provide an automated interface to reconcile transactions initiated with the Merchant Service Provider(s).						
1.14.4.4. Reconciliation and Settlement with Lockbox (optional)							
	The BOS utilizes a Lockbox Service Provider to process customer check payments. Payments sent to the Lockbox will be processed by the Lockbox Service Provider and deposited directly into BOS Bank Accounts in accordance with the flow of funds depicted in Figure 1 3 Customer Transaction Settlement.						
1499	The Contractor shall provide an automated interface to reconcile Lockbox Service Provider deposits.						
1.14.4.5. Reconciliation and Settlement with the Authority							
	The daily reconciliations between the ETTM System and the BOS shall address transactions and payments.						
	The transactional reconciliations shall be handled by the BOS. The ETTM System will transmit a transaction/trip to the BOS, which the BOS shall acknowledge and thereafter begin the Posting/billing process.						
	The reconciliations related to payments shall address payments being made by the BOS to the Authority. These payments are a result of payments being collected from customers, processed and remitted to the Authority in settlement of balances due.						
1500	The Contractor shall provide the capability to track payables and receivables between the BOS and the Authority based on customer payments, payment reversals and Posting of payments to transactions/trips.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offerror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1501	The Contractor shall provide the capability to track payables to and receivables from the Authority based on BOS remittances to these entities. For example, when a settlement payment is made to the Authority, the Authority's payable Financial Account is debited and the Financial Account corresponding to the Bank Account from which the payment is made is credited.						
1502	The Contractor shall provide electronic Notification of daily reconciliation and monthly settlement to the Authority. For example, Authorized Users at the Authority receive an Alert (which could be an email including the completed reconciliation as an attachment or link) when the daily reconciliation is completed and Revenue Day closed.						
1503	The Contractor shall provide for reconciliation of daily activity and transactions with the Toll Facilities.						
1.14.4.6. Reconciliation and Settlement with CTOC Agencies and Interoperable Agencies							
	The BOS shall remit funds collected from customers to the CTOC Agencies and Interoperable Agencies in accordance with the following Requirements:						
1504	The Contractor shall provide the capability to track payables and receivables between the BOS and the CTOC Agencies and Interoperable Agencies based on customer payments, payment reversals and Posting of payments to transactions/trips.						
1505	The Contractor shall provide the capability for the credit memo process to handle disputes and credits initiated by customers of CTOC Agencies.						
1506	The Contractor shall provide the capability to track payables to and receivables from the CTOC Agencies and Interoperable Agencies based on BOS remittances to the CTOC Agencies and Interoperable Agencies. For example, when a settlement payment is made to an Interoperable Agency, the Interoperable Agency payable Financial Account is debited and the Financial Account corresponding to the Bank Account from which the payment is made is credited.						
1507	The Contractor shall provide electronic Notification of daily reconciliation and settlement of CTOC Agencies and Interoperable Agencies to the Authority. For example, Authorized Users at the Authority receive an Alert (which could be an email including the completed reconciliation as an attachment or link) when the daily reconciliation is completed and Revenue Day closed.						
1508	The Contractor shall provide for reconciliation of daily activity and transactions/trips with the CTOC Agencies and Interoperable Agencies in accordance with the applicable Interoperability agreement(s).						
1509	The Contractor shall provide capability to generate periodic invoice for CTOC and Interoperable Agency toll charges. The invoice shall be based on reconciled files for each month even if the reconciliation files were received in the following month. Any manual adjustments during the invoice period shall be included in the invoice with the necessary Credit/Debit Memo as identified in the CTOC User Fee Agreement. Payments from Interoperable/CTOC Agencies shall be Posted against the invoice.						
1510	The Contractor shall provide capability to enter invoices from CTOC Agencies and Interoperable Agencies to match that with the files in the BOS including any Credit/Debits that were authorized by the Interoperable/CTOC Agency. Payments to the CTOC Agency or Interoperable Agency shall be made after the reconciliation of the invoice with the BOS.						
1.14.4.7. Reconciliation and Settlement with Third-Party Service Providers							
1511	The Contractor shall provide for reconciliation of daily activity and transactions with Third-Party Service Providers.						
1.15. Searches							
	Customers routinely contact the CSC by phone, through the IVR and through the Self-Service Website without knowing their account number, PIN or vehicle license plate numbers. The BOS is expected to provide quick, yet secure access to an account when a customer can positively identify him/herself as the account holder.						
1.15.1. Search General							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					
		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1512	The Contractor shall provide comprehensive on-screen, drill-down capabilities from summary levels down through the most detailed transaction level, including images if available.						
1513	The Contractor shall provide the capability to initiate a search from any screen in the BOS and return to the original location after completing the search.						
1514	The Contractor shall provide the capability to select a record in the results grid and view the details and then return to the previous results grid to view additional items without having to re-enter the search criteria or re-run the search.						
1515	The Contractor shall provide the capability to select record(s) to use in actions, for example obtaining detailed record information from the search results grid.						
1516	The Contractor shall provide the capability to manipulate the field in grid results for all searches, including but not limited to:						
	· drag and drop fields and columns to shift the order they appear;						
	· sort by any fields shown on the grid;						
	· sort alphanumerically by any fields shown on the grid;						
	· sort by multiple fields (for example, sort by last name and then first name and then address so that all results with the last name "Smith" shall be sorted by first name and all the results with the name "John Smith" shall be sorted by address);						
	· add a field to the grid and · remove a field from the grid.						
1517	The Contractor shall provide advanced search capabilities where fields can be picked from a drop-down list and added to the effective criteria to be applied toward the search or report. Drop-down lists shall dynamically narrow down the available selection list as the Authorized User is typing.						
1518	The Contractor shall provide the capability to use single and multiple character "wildcards" along with other commonly used search methods in all applicable fields of the search screens. A wildcard is a character used as part of the search criteria to represent one or more unspecified characters. The BOS shall not require the use of wildcards in lieu of leaving the field blank.						
1519	Searches shall have an optimized data fetching algorithm so BOS performance is not impacted by large result sets.						
1520	The Contractor shall provide the capability to specify a date range for any date in the search.						
1521	The Contractor shall provide the capability to specify a number range for any number in the search, for example, account numbers 1055 – 2000.						
1522	The Contractor shall provide the capability to search by any field, combination of fields and field ranges.						
1523	The Contractor shall provide comprehensive multi-field search criteria on all reports and screen searches. Search criteria shall include all fields and related attributes found in the search results grid.						
	The Contractor shall provide the capability to search, by full or partial value using wildcards and view all stored information regarding transactions, images, statements, Violation Notices, account activity and Notifications for user selected criteria, including but not limited to the following fields. Some search criteria may be available only in conjunction with other search criteria (for example, paid transactions enabled only if an account number is specified):						
	· transaction ID;						
	· transaction type;						
	· location of transaction (Toll Facility, plaza, zone/lane);						
	· transaction number;						
	· transaction Date;						
	· transaction Date range;						
	· transaction Posting Date;						
	· transponder type;						
	· transponder number;

		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1527	The Contractor shall provide the capability to search for accounts which meet the search criteria with the result delivering multiple accounts.						
1528	The Contractor shall provide the capability to search by key fields and identify potential duplicate accounts.						
1529	The Contractor shall provide the capability for Authorized Users to search and view all information related to a specific account. This shall include the complete detailed account history since account inception and capability of filtering and sorting by type of information, including but not limited to:						
	· toll transaction/trip;						
	· Financial Transaction;						
	· Notifications (includes letters and Violation Notices);						
	· Registration Holds placed and released;						
	· Collections Placements;						
	· Evidence Packages;						
	· Cases opened and closed;						
	· all payment related events, including replenishment failures;						
	· account statuses changes;						
	· complete address history;						
	· complete email address history;						
	· complete vehicle history (what plates were active on the account and when);						
	· complete change tracking (what data was changed, when and by whom);						
1530	The Contractor shall provide the capability to display the account running balance in Posting Date chronological order.						
1.15.4. Case Search							
1531	The Contractor shall provide the capability to search and view all stored information regarding Cases, including but not limited to:						
	· summary information;						
	· Toll Facility, if applicable;						
	· Case number (uniquely identifies the Case record);						
	· priority (out of a predefined range);						
	· source of Case;						
	· status;						
	· number of days since creation;						
	· number of days since last Authorized User access/action;						
	· due date and time;						
	· total time spent working on the Case;						
	· total time spent by a specific Authorized User or specific department;						
	· related accounts and/or records;						
	· description/free-form notes on the account;						
· date of action;							
· time of action;							
· Authorized User who took action;							
· time required for action and							
· action description (free-form data or notes section).							
	The Contractor shall provide the capability to search and view Case management, including but not limited to:						

Volume II BOS Technology and Functionality

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1532	· total number of open Cases;						
	· total number of open Cases, per department;						
	· total number of open Cases, per Authorized User;						
	· total number of open Cases by type;						
	· total number of overdue Cases;						
	· total number of processed Cases;						
	· total number of Cases processed per unit of time;						
	· total number of Cases processed per department;						
	· total number of Cases processed per Authorized User;						
	· response time statistics – overall;						
	· response time statistics, per department and						
· response time statistics, per Authorized User.							
1.15.5. Comment Search							
1533	The Contractor shall provide the capability to identify and retrieve comment records into a search results grid, including but not limited to:						
	· individually by category;						
	· summarized by category;						
	· individually by time period and						
· summarized by time period.							
1.15.6. Transponder Search							
1534	The Contractor shall provide the capability when searching by transponder number to display all accounts the transponder has ever been associated with including account number, account type, the date and time the transponder was added to and removed from the account and the current status of the transponder on each account. For example, this search might yield two accounts with the transponder identified as being Active on one account and lost on the other.						
1535	The Contractor shall provide the capability when searching by transponder number to display all Notifications issued related to that particular transponder. For example, this search might yield an "Excessive I-Toll" Notification and a "transponder recall Notification" for a particular transponder.						
1536	The Contractor shall provide the capability when searching by transponder number to display all statuses the transponder has been in along with the date and time the transponder entered that status.						
1537	The Contractor shall provide the capability when searching by transponder number to display all inventory locations which the transponder has been in along with the date and time the transponder was placed in each location.						
1.15.7. License Plate Search							
1538	The Contractor shall provide the capability when searching by license plate and Jurisdiction to display all accounts the license plate has ever been associated with and all Notifications issued related to that license plate. For example, this search might yield two accounts and five Violation Notices for a particular license plate.						
1539	The Contractor shall provide the capability when searching by license plate and Jurisdiction combination to display all transactions that license plate and Jurisdiction combination has ever been associated with regardless of the transaction status. For example, this search might yield two transactions in Paid status, one in Collections, three Posted to an account as I-Tolls and one awaiting inclusion on a Violation Notice for a particular license plate and Jurisdiction combination.						
1.15.8. Notification Search							
	The Contractor shall provide the capability to search by and view all stored information regarding Notifications, including but not limited to:						
	· first name;						
	· last name;						
	· mailing address;						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
1540	Notification Type, for example, statement, Credit Card expiration, Violation Notice or account establishment Notification;						
	distribution channel;						
	creation date;						
	quality review date;						
	print date;						
	mail date;						
	date that action on the Notification is due;						
	date(s) of any change in Notification piece status;						
	name of the Authorized User(s) who performed the quality review and Approved the Notification for mailing;						
	return mail (if applicable);						
account number;							
transponder number;							
license plate number and Jurisdiction;							
dollar range associated with the Notification and							
dollar amount associated with the Notification.							
1541	The Contractor shall provide the capability for Authorized Users to scan the barcode, scan line or Quick Response Code on BOS-issued returned Notifications and automatically be taken to the appropriate processing screen, including but not limited to:						
	the account that the Notification belongs to;						
	the appropriate Violation Notice processing screen and						
	the Case the Notification belongs to.						
1542	The Contractor shall provide the capability for Authorized Users to scan and process BOS-issued returned Notifications in bulk where possible (for example, provide the capability to scan multiple pieces of return mail where no forwarding address was provided into the BOS for processing without the need to access each account one-by-one).						
1543	The Contractor shall provide the capability to allow Authorized Users to select and print Notification pieces directly from the Notification search screen.						
1544	The Contractor shall provide the capability to allow Authorized Users to select and print Notification pieces directly from the account.						
1545	The Contractor shall provide the capability to allow Authorized Users to email a PDF version of the Notification piece directly from the account.						
1546	The Contractor shall provide the capability to allow Authorized Users to download a PDF version of the Notification piece directly from the Notification search screen.						
1547	The Contractor shall provide the capability to allow Authorized Users to download a PDF version of the Notification piece directly from the account.						
1.16. Reporting Requirements							
	Because reporting is integral to the BOS, reporting functionality must be streamlined, quick, intuitive and user-friendly.						
	The BOS is expected to deliver accurate reports in a usable format. The format of reports is different across various user groups that use the reports for different purposes. For example, the finance departments may desire some reports in an Excel format so the data can be manipulated and analyzed. Other reports may be more desirable in a PDF format to better guarantee the integrity of the report data for audit purposes. The BOS is expected to deliver all reports in a variety of selectable formats.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	It also is expected that reports are flexible enough to allow users to make changes to reports "on the fly". For example, a report may include all the data elements required by a user for analyzing past due receivables with the exception of a single data field. The Authorized User must have the ability to add that data field to the report without the need for custom report generation or programming by the Contractor.						
	Some reports are best displayed as of a point in time (for example, receivable balances) while other reports are best displayed for activity over a range of time (for example, cash collected for a specific period of time). Users often have a need to generate reports that include historical balances as of the end of a particular Revenue Day. It is expected that the BOS track, calculate and maintain such Revenue Day-end balances such that retrieval of historical information is easily accomplished. Users also often have the need to generate reports that include information regarding historical transaction activity over a range of time both in summary and in detail. It is expected that the BOS provide the functionality to quickly and accurately deliver such reports to the user in a usable format.						
	Standardized reporting shall be achieved via canned and ad-hoc reporting interfaces using both the production database for real-time reporting and reports server/database for more complex, non-real-time and/or data intensive reports.						
	Reporting is a critical element of any business organization and is required by the Authority to:						
	· provide for transaction and revenue reconciliation and investigate discrepancies;						
	· monitor BOS and operational performance;						
	· monitor human performance and business process efficiency;						
	· ensure compliance to Performance Measures;						
	· reconcile toll transactions/trips to individual Toll Facilities;						
	· reconcile third-party financial and transactional interactions;						
	· assess the impact of policies and Business Rules;						
	· identify ways to improve the quality of service provided to customers;						
	· comply with reciprocity reporting Requirements and						
	· evaluate the success of the toll collections.						
	· Reports are broken into four broad categories:						
	· Informational Reports – provide information about transactions moving through the revenue cycle.						
	· Financial Management Reports – provide information which enables the Authority to record in its general ledger system the financial activity related to the CSC. These reports also enable the Authority to perform analyses on transactions submitted to the BOS for processing, including but not limited to analyzing billing, collection trends and Account Plan utilization.						
	· Operations Reports – provide the data necessary for the Contractor and the Authority evaluate the Contractor's performance against the Performance Measures and provide the reporting necessary to prepare and support the Contractor's monthly bill to the Authority. These operational reports also provide the Authority with the data necessary to monitor operational activities and the operations staff.						
	· Interface Reconciliation Reports – provide the reports necessary to reconcile all Interfaces and also to demonstrate successful completion of the reconciliations by the Contractor.						
	1.16.1. General Reporting Requirements						
1548	The Contractor shall provide a BOS data fetching algorithm that is optimized for performance including bringing data into BOS screens and reports.						
1549	The Contractor shall provide BOS reports optimized for performance. Data shall be organized and summarized in a manner to allow for report generation within no more than five seconds of a report generation request for daily summary reports and no more than twenty seconds of a report generation request for monthly summary and annual summary reports. Reports batched or pre-generated shall be presented to the user within two seconds.						

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs

		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1550	After the deployment and implementation of the BOS, if there is a need to create additional reports and modify implemented reports, the Contractor shall support such additions and/or modifications.						
1551	The Contractor shall provide ad-hoc reporting tool capabilities to Authorized Users to allow the creation and execution of custom reports from the reports server/database, including but not limited to:						
	· drag-and-drop field functionality;						
	· drill down functionality;						
	· filtering;						
	· parameter prompting;						
	· formula support;						
	· grouping;						
1552	The ad-hoc reporting tool shall be COTS Software and be the latest version at the time of Acceptance Testing and field-proven to operate in a transaction intensive environment.						
	The Contractor shall provide reporting output in various formats (both compressed and uncompressed), including but not limited to:						
	· Portable Document Format (PDF);						
	· plain text format (TXT);						
	· rich text format (RTF);						
	· Microsoft Excel 2016 (or higher if Approved by the Authority);						
	· delimiter-separated values;						
1553	· HTML and						
	· extensible markup language (XML).						
	The Contractor shall provide the capability for Authorized Users to retrieve full table exports from the reports server/database.						
	The Contractor shall provide the capability for Authorized Users to schedule the automatic execution and delivery of reports using various delivery methods, including but not be limited to:						
	· email addresses;						
	· direct to printer;						
	· uniform naming convention (UNC) paths;						
1555	· shared drives and						
	· SFTP sites.						
	The Contractor shall provide the capability for Authorized Users to schedule the automatic execution and delivery of reports for a variety of time periods, including but not limited to:						
	· as of a specific time each day;						
	· as of a specific day and time each week;						
	· as of a specific day and time each month;						
	· as of a specific date and time each month;						
1556	· for a Revenue Day;						
	· for a Business Day;						
	· for a Calendar Day and						
	· for a specific period of time spanning more than one day (for example 2:00:00am to 1:59:59am the following day).						
	The Contractor shall provide a dashboard application, including but not limited to:						
	· fully Configurable, role-driven, browser-based solution that allows users to customize their own dashboards;						
	· real-time display of data and processes and						
1557	· drill-down capabilities from high level graphical display to the lowest level of supporting data.						

Volume II BOS Technology and Functionality

		Compliance	Status	If Applicable	Source	If Applicable	Comments
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offoror S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	*Comment required if "No" in Column C or "Not Provided" in Column D, optional otherwise.
1558	The Contractor shall provide a comprehensive data dictionary that defines the structure of BOS databases in the production environment and the reports server/database. The data dictionary shall include but not be limited to: · what data is stored; · name, description and characteristics of each data element; · types of relationships between data elements and · access rights.						
1559	The Contractor shall provide a consistent user interface for all reports.						
1560	The Contractor shall provide for summary and detailed reports for all account activity on all user accounts, including but not limited to: · as of the current moment in time; · as of an historical moment in time; · for a range of Revenue Days (for example from 1/1/2016 to 1/3/2016, which shall deliver results for the Revenue Days 1/1/2016, 1/2/2016 and 1/3/2016) and · for a range of time (for example from 3:00am 1/1/2016 to 3:00am 1/3/2016).						
1561	The Contractor shall provide for reports of balances as of the end of any current or historical Revenue Day, in summary and in detail, for any or all user accounts.						
1562	The Contractor shall provide for summary and detailed reports for all account activity on all Financial Accounts, including but not limited to: · as of the current moment in time; · as of an historical moment in time; · for a range of Revenue Days (for example from 1/1/2016 to 1/3/2016, which shall deliver results for the Revenue Days 1/1/2016, 1/2/2016 and 1/3/2016) and · for a range of time (for example from 3:00am 1/1/2016 to 3:00am 1/3/2016).						
1563	The Contractor shall provide for reports of balances as of the end of any current or historical Revenue Day, in summary and in detail, for any or all Financial Accounts.						
1564	The reports shall meet the general objectives, including but not limited to: · data elements shall be consistent through all the reports of a similar nature; · numbers and amounts shall reconcile with other reports that report on the same activity; · numbers and amounts shall reconcile with other reports that report on the same time period; · report generation shall allow for flexible selection and sort criteria that allows Authorized Users to obtain related information through a single report; · all report criteria shall be available for selection using Boolean logic strings and · all reports shall allow for the input of any identified criteria to be selected by range (for example, date from and to, account number from and to, Transaction Dates from and to, etc.) and by multi-list selection.						
1565	Reports shall display header information which shall indicate parameters selected in the report generation (for example, time periods selected, as-of date selected, account number selected and/or license plate number and Jurisdiction selected).						
1566	The Contractor shall provide the capability for the automatic generation and delivery of reports based on Configurable conditions, including but not limited to: · report selection criteria (for example, date range); · date and time for report generation (for example, daily at 7:00 a.m.); · report delivery method (for example, by email); · report format (for example, PDF) and · report generation frequency (for example, weekly).						
1567	The Contractor shall provide the capability for reports generated automatically to have BOS -generated unique, intuitive naming and report numbering reflecting the name, number and date of the report.

1568	The Contractor shall provide the capability for the user to manipulate the report data easily to perform comparative analysis and statistical calculations.						
1569	The Contractor shall provide the capability to deliver scheduled reports to the Configured destination.						
1570	The Contractor shall provide the capability for the user to specify the format of the report. For example, PDF, Excel and comma separated.						
1571	The Contractor shall provide the capability to manually select reports for generation in real time.						
1572	The Contractor shall provide a Web-based ad-hoc reporting solution that allows Authorized Users to design and generate professional and accurate multi-format reports. Ad-hoc report templates created by Authorized Users shall be made available to all Authorized Users, in addition to the reports menu.						
1573	All reports shall display last activity date, transaction Posting status and other relevant data dependencies on the specific report related to that activity that indicate completion of activity and items, including but not limited to:						
	· all transactions/trips have been obtained from the ETTM System;						
	· all images have been obtained from the ETTM System;						
	· the transactions/trips that have been transmitted to Interoperable Agencies and reconciliation files that have been received and acknowledged;						
	· all correction files that have been reconciled and acknowledged;						
1574	· all shifts that have been closed;						
	· all third-party reconciliation and payment data that has been imported or has been entered into the BOS and that all activities have been completed and are ready to be reconciled.						
1574	The Contractor shall provide drill-down capability on all fields on all high-level reports to the lowest level of details, including the tools to view the available images associated to a transaction or account and account details.						
1575	The Contractor shall provide drill-down capability on all fields on all high-level reports to the lowest level of details, including the tools to view the available images associated to a transaction or Violation Notice and details.						
1576	The Contractor shall provide the user interface to choose the following selection criteria, including but not limited to:						
	· Interoperable Agencies;						
	· Toll Facility;						
	· plaza;						
	· lane;						
	· direction of travel;						
	· identification type (transponder or license plate);						
	· Account Plan type;						
	· Payment Type;						
	· customer service location;						
	· BOS user;						
1577	· customer service staff;						
	· BOS processes;						
	· third-party interfaces and						
	· Third-Party Service Providers.						
	The Contractor shall provide the user interface enabling the following selection criteria to generate the same report, including but not limited to:						
· by day;							
· day(s) within a specified range;							
· date range;							
· weekly;							
· monthly;

1633	The Contract shall provide a Violation report that shows the aging of all violations with the transaction count and associated value and the current collection stage.						
1634	The Contractor shall provide a Violation report that shows the escalation stage in which violations are resolved (paid, reduced or dismissed) with the transaction count, amount paid, amount dismissed, amount reduced and amount remaining.						
1.16.2.11. Case Management Reports							
1635	The Contractor shall provide reports that list Case summary information (or details if selected), including but not limited to:						
	· number of Cases by type;						
	· number of Cases by Toll Facility;						
	· Case established by, such as established by BOS, customer, or CSR;						
	· Cases opened;						
	· Cases closed;						
	· Cases escalated;						
	· number of Cases that failed to meet the Authority's Performance Measures;						
	· average Case handling time by priority;						
	· longest Case handling time by priority and						
· number of affected accounts.							
1636	The Contractor shall provide reports that list the detailed Case information, including but not limited to:						
	· Case ID (i.e., uniquely identifies the Case record);						
	· Case type;						
	· account number, if applicable;						
	· severity level or priority;						
	· source of Case status;						
	· created date;						
	· resolved date;						
	· number of days since creation;						
	· number of days since last agent touch;						
	· due date and time;						
	· total time spent working on the Case;						
	· total time spent by a specific user;						
	· total time spent by a specific department;						
	· action taken at each hand-off;						
· Case history;							
· related accounts and							
· Case description/free-form notes on the account.							
1637	The Contractor shall provide dispute (Case Type = Dispute) reconciliation reports, including but not limited to:						
	· Transponder-Based Transaction/Trip disputes;						
	· Image-Based Transaction/Trip (I-Tolls and Violations) disputes;						
	· payment for accepted and partially accepted disputes;						
	· dismissed Transponder-Based Transactions/Trips;						
	· dismissed Image-Based Transactions/Trips;						
	· reassigned Transponder-Based Transactions/Trips and reassigned Image-Based Transactions/Trips.

	<ul style="list-style-type: none"> pending status (including workflow location(s)); termination reasons; collected/actual revenue; percentage collected and variances. 						
1644	The Contractor shall provide an annual report that provides the analysis of Credit Card and ACH fees between TCA and the Authority's for the purpose of netting these fees out the interagency toll revenue payments.						
1645	The Contractor shall provide the capability to generate all reports by Toll Facility.						
1.16.3.1. Trial Balance and Financial Account Reports							
	The Authority will utilize reports (journal entry file exports) from the BOS to import into the Authority's financial accounting systems for the purpose of recording financial active related to the BOS. While there is no automated interface, the Authority intends to use these journal entry file exports to record financial activities into their respective general ledgers on a daily or weekly basis.						
	OCTA uses the Finance Enterprise, formally known as ONESolution, financial accounting system, which requires its own file format for import into its general ledger. Furthermore, the Authority has Business Rules and revenue recognition policies which the Contractor shall consider when developing the financial processes in the system; these details shall be identified during the Implementation Phase.						
1646	The Contractor shall provide file export report of all BOS Financial Account activity to be used to record revenues in the Authority's financial systems.						
1647	The Contractor shall provide the capability for the Authority to receive information in sufficient detail to record revenues at different steps in the revenue cycle. (For example, before a Violation Notice is mailed, a transaction is in the "billable" stage and in a "billable" Financial Account and when that transaction is included on a Violation Notice, it is in the "billed" stage and in a "billed" Financial Account), including but not limited to: <ul style="list-style-type: none"> when transaction/trip is submitted to the BOS; when billable (deemed billable but not yet billed); when billed; when paid (payment received from customer) and when payment remitted to the Authority. 						
1648	The Contractor shall structure the Financial Accounts so revenues of one entity are not comingled with the revenues of another entity. For example, Image-Based Transaction/Trip toll revenue for one entity shall be separated in the Financial Account from Image-Based Transaction/Trip toll revenue of another entity, from Transponder-Based Transaction/Trip toll revenue and from fee revenue. Entities include the Authority and also include but are not limited to individual CTCOC Agencies and the Collection Agency.						
1649	The Contractor shall structure the Financial Accounts in such a way that all revenues and expenses from one Toll Facility are easily discernible from the revenues and expenses of other Toll Facilities.						
1650	The Contractor shall provide trial balance reports that reconcile all Financial Accounts and confirm the credit and debit balance and show general ledger codes grouped and summarized by asset and liability.						
1651	The Contractor shall provide Financial Account reports that reconcile to other transaction and financial reports.						
1652	The Contractor shall provide reports summarizing like Financial Accounts (for example, all toll revenue Financial Accounts for a particular Toll Facility), including but not limited to the following timeframes: <ul style="list-style-type: none"> month; month-to-date; quarter;

1.16.3.2. Revenue Reports							
1653	The Contractor shall provide a revenue report that reflects all revenue, including but not limited to: <ul style="list-style-type: none"> · Transponder-Based Transactions/Trips toll revenue; · Image-Based Transactions/Trips toll revenue; · all fees and · penalties. 						
1654	The Contractor shall provide a report that details potential lost revenue by status or workflow stage, as well as reasons for potential loss, such as a report listing those transactions/trips which still possess a receivable balance and have been placed on hold.						
1.16.3.3. Payment Reports							
1655	The Contractor shall provide a payments report that reflects all payments, including but not limited to: <ul style="list-style-type: none"> · Transponder-Based Transactions/Trips toll revenue; · Image-Based Transactions/Trips toll revenue; · prepayments; · all fees and · penalties. 						
1656	Payment reports shall reconcile to reports provided by the various interfaces, including but not limited to: <ul style="list-style-type: none"> · Credit Card processor; · Collections; · Interoperable Agencies; · bank deposits, and · Lockbox payments, if utilized. 						
1657	The Contractor shall provide an unallocated payments report that lists all payments that could not be associated with a transaction with sufficient detail for payment research, such as the ability to back-out and re-apply against outstanding receivable.						
1.16.3.4. Registered Account Reports							
1658	The Contractor shall provide a report that reflects the prepaid balance in each account as of a point in time.						
1659	The Contractor shall provide a report that reflects all replenishments to Registered accounts over a period of time.						
1660	The Contractor shall provide a report that reflects all usage of prepaid funds over a period of time.						
1661	The Contractor shall provide a report that reflects all adjustments to accounts over a period of time (for example, adjustments would include any transaction that affects an account balance that is not included on a replenishment report or a usage report).						
1662	The Contractor shall provide a report that compares the calculated prepaid balance by account to the prepaid balance per the BOS at any point in time (for example, the calculated prepaid balance is the sum of the account balance as of the first day of the month plus replenishments less usage and plus/minus adjustments that occur during the month, compared to the BOS balance as of the end of the month). Variances shall be identified at the account level.						
1.16.3.5. Receivable Reports

1.16.4.7. Contractor Performance Requirements Reports							
	Contractor Performance Measures reports shall assist the Authority and the Contractor in tracking, management, and assessing of the Contractor against the Performance Measures. The reports shall be designed and Approved during the Reports Design Workshop.						
1690	The Contractor shall provide BOS-generated reports that allow Authorized Users to monitor performance to date against each of the Performance Measures. For example, the month to date and year to date performance against any individual Performance Measure.						
1691	To the extent possible the reports shall automatically calculate the actual performance against the required Performance Measure(s).						
1692	<p>The Contractor shall provide the capability to select a random sample of the work for review and audit including but not limited to:</p> <ul style="list-style-type: none"> provide hyperlinked report reflecting a random sample of a certain number of Cases over a certain period of time (for example, 100 Cases which were opened or closed between June 1 and June 30) which shall allow the Authority to click on the hyperlink to open and audit each Case and provide hyperlinked report reflecting a random sample of a certain number of adjusted or reversed transactions/trips over a certain period of time (for example, 100 transactions/trips that were dismissed between June 1 and June 30) which shall allow the Authority to click on the hyperlink to open and audit each dismissal. 						
1.16.4.8. ETM Contractor Performance Measures Reports							

Volume II BOS Technology and Functionality

No.	Requirements	Required Inputs					Comments
		Compliance	Status	If Applicable	Source	If Applicable	
		Y - Yes N - No*	B-Base Product M-Base Modified D-New Development NP-Not Provided*	Customer Name and Location	O-Offorer S-Sub T-Third Party NA-Not Applicable	Subcontractor Name and/or 3rd Party Product/Vendor	
	ETTM System Contractor Performance Measures reports shall assist the Authority, the Contractor and the ETTM System Contractor in tracking, management, and assessing of the ETTM System Contractor against a subset of their Performance Measures. The ETTM System Contractor has the responsibility to provide for the majority of their Performance Measures Reporting. The report shall be designed and Approved during the Reports Design Workshop.						
1693	The Contractor shall provide reports that allow Authorized Users to monitor the ETTM System Contractor performance to date against a subset of the ETTM System Requirements Performance Measures.						
1694	The Contractor shall provide ETTM System Contractor performance reports which track the performance of the ETTM System, including but not limited to:						
	· exchange of data and files between the ETTM System and the BOS and · results of all BOS and CSC Operations Contractor QA activities (for example, trip building and image processing accuracy).						
1.16.5. Interface Reconciliation Reports							
1.16.5.1. General Requirements for Interface Reconciliation Reports							
	The BOS interfaces with various other systems and Third-Party Service Providers, as such, reconciliation of the data transfer process and exception identification are critical elements of the BOS. In Interfaces where the BOS initiates the file transfer process, the BOS shall track the successful creation of the file as required by the schedule (Configurable), the successful transfer of the file, the acknowledgement by the third-party of the successful receipt and processing of the file, the receipt of the reconciliation or response file from the third-party and the BOS's successful receipt, processing and acknowledgment of the response file. A similar tracking and reporting shall be provided when the BOS is the recipient of the transfer process. Reconciliation reports shall reconcile to other BOS and financial reports and shall meet the following Requirements.						
	These reconciliation reports shall be provided in addition to, and not in lieu of, automated reconciliation processes as described in the Requirements.						
1.16.5.2. Reconciliation with ETTM System Transactions, Reconciliation Files and Images Reports							
	These reports shall allow the balancing and reconciliation of transactions/trips and images throughout the revenue cycle, identify variances and errors and assist in investigating the problems, thus minimizing lost revenue. Such reports shall help identify trends in the flow of transactions, their final termination and reconciliation to the ETTM System. The transmission of the Transponder Status List files received from the Interoperable Agencies and the home Transponder Status List to the ETTM System also shall be tracked.						
1695	The Contractor shall provide transaction and image reconciliation reports that help identify issues, including but not limited to: transmission errors, data validity errors, missing images, missing transactions, traffic and transaction trends and exceptions.						
1696	The Contractor shall provide transaction transmission reconciliation reports that help validate that all transactions/trips transmitted by the ETTM System made it to the BOS and are correctly processed. These reports also shall validate that all other transmissions made by the ETTM System were successfully received by the BOS and that all transmissions made by the BOS are successfully received by the ETTM System.						
1697	The Contractor shall provide daily transaction transmission reconciliation reports that list all the transactions/trips transmitted to the BOS, the number of transactions/trips and the time these transactions/trips were acknowledged by the BOS. These reports also shall list the transactions/trips transmitted to the BOS that were rejected, the status of the re-transmission and records that were identified as exceptions by the receiving entity.						
1698	The Contractor shall provide transaction/trip transmission reconciliation reports that summarize the transactions/trips (quantity, amount, Posting status and Posted/paid amounts) by Payment Type that can be validated against ETTM System reports.

1699	The Contractor shall provide image transmission reconciliation reports that help validate that all images and associated transactions/trips transmitted by the ETTM System were successfully received by the BOS. The reports shall list all the transaction images transmitted to the BOS, the number of images and data set in each file, as well as the time these files were acknowledged by the BOS.						
1700	The Contractor shall provide image transmission reconciliation reports that list the transactions/trips transmitted to the BOS that were rejected and the status of the re-transmission and images identified as exceptions by the BOS.						
1701	The Contractor shall provide transaction and revenue reconciliation reports that reconcile with the Financial Account reports and ETTM Systems reports.						
1702	The Contractor shall provide transaction and revenue reconciliation reports that reconcile with accounts receivable and revenue reports for all transactions.						
1703	The Contractor shall provide reports that track the receipt of the TSL to the ETTM Systems.						
1.16.5.3. Reconciliation with Interoperable Agencies Reports							
	Interoperability reports are provided to assist in reconciling transaction/trips and financial settlement with Interoperable agencies.						
1704	The Contractor shall provide all CTOC reports based on the most recent ICD at the time of Go-Live. The current CTOC ICD is in Attachment A: WRTO and CTOC Technical Specifications for Interagency Electronic Data Interchange.						
1705	The Contractor shall provide all CTOC type reports for all interoperable and other service related transactions/trips processed by TCA.						
1.16.5.4. Reconciliation with ROV Lookup Source(s) Reports							
	The BOS shall interface directly with one or more ROV Lookup sources including multiple direct DMV connections and a third-party ROV Lookup Provider to obtain vehicle registration information. The California DMV Interface shall also be used for the placement and removal of Registration Holds. The exchange of information and status shall be tracked and reported. Reports provided by the BOS shall match the transactional data provided to the applicable ROV Lookup Service Provider.						
1706	The Contractor shall provide reports that track the transmission of each vehicle registration lookup request, acknowledgment and response to each request. Data shall include the processing status of each record, including re-transmission and response code for each ROV Lookup Service Provider (initially California, Arizona, Oregon and Nevada DMVs and the Contractor-selected ROV Lookup Provider).						
1707	The Contractor shall provide reports that help identify license plates, including but not limited to:						
	· by Jurisdiction;						
	· by license Plate Type including temporary plates;						
	· license plates for which no registration data is provided;						
	· reason that no registration data is provided;						
	· license plates that have no registration data after an established period of time (Configurable);						
1708	· problematic license Plate Types and						
	· exceptions that need to be investigated (Cases).						
	The Contractor shall provide reports that provide ROV Lookup request and response trends by ROV Lookup Service Provider, Jurisdiction, date and license Plate Type.						
1709	The Contractor shall provide reports that reconcile Registration Hold requests with applicable DMV(s) initially California, including but not limited to:						
	· number of Registration Hold requests;						
	· number of Registration Holds placed;						
	· number of Registration Hold requests rejected;						
	· reason that the Registration Hold request was rejected;						
	· exceptions that need to be investigated (Cases).						
	· number of payments received at DMV;						
	· dollar amount of payments received at DMV;

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
1. Scope of Work and Requirements			
	The following subsections describe the Scope of Work and Requirements for the CSC Operations. These Requirements are numbered to track obligations per the Agreement and any changes which may occur during the Project. Many of the Requirements contain underlying lists of specific items and work functions. The intent of these "including but not limited to" lists is to indicate to the proposer the intent and scope of the Requirement.		
1.1. Operational Requirements			
1.1.1. General Requirements			
	This section lists the high-level operations Requirements.		
1	The Contractor shall provide all management, system Maintenance, supervisory, financial and CSC Operations staff, including qualified management, professional and clerical personnel, to professionally operate and administer the Authority's CSC Operations in a manner that meets all required Performance Measures.		
2	The Contractor shall put in place the organizational structure and headcount required to meet these Requirements.		
3	The Contractor shall be responsible for all providing all consumables (other than those explicitly stated to paid for by the Authority). Costs of consumables shall be included in the Contractor's Price Proposal.		
4	At the Authority's direction, the Contractor shall perform the Work required herein for any new Toll Facilities that may be implemented during the Operations and Maintenance Phase.		
1.1.2. I-405 CSC and WIC Facility			
	The Authority will provide a new primary space for the I-405 CSC and WIC. The Contractor is required to operate these Authority provided Facilities as described in the sections below. The Contractor will have unlimited access to the Facility and may use expanded operational hours as needed to accomplish the Work. There is currently an operational OCTA Store WIC that will provide I-405 customer service that will be operated and staffed by OCTA.		
	The Contractor will not be charged rent/utilities for the use of Authority provided Facility and furnishings. Although the Facility will house other Authority contractors, the Contractor will be the point-of-contact and coordination point for all Maintenance, repair, service and janitorial issues related to the Facility regardless of location or origin.		
5	The Contractor shall coordinate and facilitate tours of CSC Operations Facilities and guide tours.		
6	The Contractor shall be the custodian of all the Authority's fixed assets at the I-405 CSC and WIC facility (regardless of provider) and provide tracking and reporting as required.		
7	The Contractor shall facilitate, coordinate and be the point of contact for all I-405 CSC Facility and Equipment related Maintenance and repairs that are not the fault of the Contractor (either the Authority will pay directly for the repairs or Authority will request that the Contractor pay and submit for payment through the weekly accounts payable batch process). All Contractor labor necessary for these services shall be included in the Contractor's Price Proposal and shall not be invoiced or be considered Additional Work. Repairs that are the result of Contractor actions shall be handled and paid for by the Contractor alone and the Authority shall be notified and kept informed.		
8	For all third party coordinated work, the Contractor shall receive a minimum of three (3) quotes and submit to Authority for Approval/selection. Upon selection, Contractor shall initiate purchase order with the selected vendor.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
9	The Contractor shall provide the coordination and facilitation of various Authority directed meetings in the CSC Operations conference rooms as requested by the Authority, including but not limited to:		
	· ensuring conference room is clean and all furniture and Equipment is in working order;		
	· providing meals for meetings (submit for payment through the weekly accounts payable batch process) and attending meeting.		
10	The Contractor shall provide and install all internal workspace signage and name plates that are Americans with Disabilities Act (ADA) compliant.		
11	The Contractor shall provide all office supplies required for CSC Operations and staff.		
12	The Contractor shall provide all Equipment supplies, for example toner, paper, etc.		
1.1.2.1. OCTA Store WIC			
	The OCTA Store WIC located in the same building as Authority's offices and is staffed by Authority employees. These Authority employees will be trained by the Contractor and the Contractor shall also provide escalation and operations support. There is no room for operational activities other than walk-in customer service at this site. OCTA Store WIC computers, peripherals and Equipment will be provided by the Authority.		
1.1.2.1.1. Hours of Operation and Holidays			
13	The Contractor shall train and provide escalation and operations support for the Authority employees and customer relations staff.		
14	The OCTA Store WIC shall be open 8 am- 5 pm Monday – Friday, Pacific Time.		
15	The OCTA Store WIC shall observe the following Holidays:		
	· New Year's Day;		
	· Memorial Day;		
	· Independence Day;		
	· Labor Day;		
	· Thanksgiving Day;		
16	For any listed Holiday occurring on Saturday or Sunday, the OCTA Store WIC shall observe the Holiday on the same day as Authority's other staff.		
	The Authority may close the OCTA Store WIC (for example, for emergency or weather conditions).		
1.1.2.2. New I-405 CSC and Walk-in Center (WIC)			
	The CSC site is the sole Authority provided space for customer contact, CSC Operations and other processing required to meet the Requirements.		
	The CSC Facility shall meet the requirements below.		
18	The Contractor shall staff and operate the CSC.		
19	The Contractor shall provide Maintenance at this Facility and ensure that the Facility is professional in appearance and clean.		
20	The Contractor shall exercise due care in the use, Maintenance and storage of the Authority-provided Facility, property and assets.		
21	The Contractor shall comply with all requirements of the property lease and Facility license agreements (if applicable).		
22	The Contractor shall promptly notify the Authority of any weakness in the security at the CSC Facility.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
23	The Contractor shall utilize cameras in accordance with PCI/PII requirements and the Contractor's preferred operational and security approach. The Authority shall have access to view and copy the camera footage upon request.		
24	The Contractor shall make all Authority-directed and Approved improvements to the CSC Facility, if any, as a combination of Additional Work, a pass-through cost, or submitted through the weekly accounts payable batch.		
25	The Contractor shall provide a minimum of one Spanish-speaking CSR in the CSC Facility during all the hours of operation.		
26	The Contractor shall equip the CSC customer contact center such that customers shall not hear cross talk when contacting the CSC by phone (crosstalk is any phenomenon by which a signal transmitted on one circuit or channel of a transmission system creates an undesired effect in another circuit or channel).		
1.1.2.2.1. Hours of Operation and Holidays			
	The Authority require a high-level of customer service availability. The hours below are the minimum hours which the various elements of the CSC Operation must be staffed and operated.		
27	The CSC contact center shall be open for calls, customer contacts and customer interactions from 8 a.m. to 6 p.m. Monday – Friday, Pacific Time.		
28	The CSC shall observe the following Holidays:		
	· New Year's Day;		
	· Memorial Day;		
	· Independence Day;		
	· Labor Day;		
	· Thanksgiving Day;		
	· Friday after Thanksgiving Day and		
	· Christmas Day.		
29	For any listed Holiday occurring on Saturday or Sunday, the CSC shall observe the Holiday on the same day as Authority's staff.		
30	The Contractor shall close the CSC upon Approval from the Authority (for example, for emergency or weather conditions).		
1.1.2.3. Serving Customers with Special Needs			
	The Contractor shall work with the Authority and develop a I-405 CSC and WIC Facility design that meets the latest ADA standards for accessibility for both staff and customers and be of appropriate size to contain the staff, furniture, Equipment and supplies necessary to conduct operations described in this Scope of Work for the duration of the Agreement.		
31	The Contractor shall report any Facility-related ADA compliance issues to the Authority immediately.		
32	The Contractor shall identify and contract with a real-time translation service to serve customers whose language is other than English and Spanish, and whose language is not spoken by an available Contractor staff person. The service is to be provided on an as-needed basis and be available during all customer service hours.		
33	The Contractor shall track the use of the translation service and shall provide tracking and accountability that identifies which account or document is related to each use of the service.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
34	The Contractor shall provide and utilize Equipment to serve hearing-impaired customers in accordance with customer service best practices and applicable federal and state statute and requirements.		
1.1.2.4. Security and Facility Access Control			
35	At the CSC, the Contractor shall be responsible for administering the physical security system and the CCTV surveillance systems.		
36	The Contractor shall provide and/or coordinate all security badges, parking, and administrative needs to access the building office space and for Authority staff or third-party vendors to work from the CSC location, as needed.		
37	The Contractor shall ensure the I-405 CSC Facility are accessed only by authorized personnel with the appropriate privileges, and the Contractor shall ensure security is not breached. The Contractor shall be responsible for establishing procedures and policies and carrying out these procedures and policies for all visitors accessing the I-405 CSC Facility. The policies and procedures shall be Approved by the Authority.		
38	The Contractor shall ensure access is limited to those functions required for the employees to perform their jobs while providing an appropriate segregation of access, based on employee responsibilities.		
39	The Contractor shall maintain and provide to the Authority as requested an access matrix that lists all personnel with access privileges to the CSC Facilities. The matrix shall identify each employee's position, job functions, Facility access rights, and access rights. Visitors and guests who are not directly working on the Project must be approved by the Authority in advance.		
40	The Contractor shall conduct reviews of the access matrix against the actual access for all employees in accordance with all security Requirements. Such reviews shall be conducted no less than quarterly or anytime at the request of the Authority. The Authority shall be invited to witness this review. The schedule for these reviews shall be included in the Operations Plan.		
41	The Contractor shall ensure all Facilities used by the Contractor to perform any Work in support of the Agreement shall be established and maintained in compliance with the Security Standards throughout the Term of the Agreement.		
1.2. Operational Functions			
	CSC Operations shall cover all functional areas as summarized below, including any required manual interactions or data entry that may be required of Contractor staff.		
1.2.1. Account Management			
	The Contractor shall provide the following services in an efficient and effective manner that allows customers to establish, manage and monitor their accounts.		
42	The Contractor shall process all account opening activities, not otherwise performed by the customer, using the BOS, including but not limited to processing the customer application, customer acceptance of terms and conditions, Account Plan enrollment and qualification verification, payment processing, and transponder Fulfillment.		
43	Using the BOS, the Contractor shall be responsible for the Fulfillment of any and all transponder types specified by the Authority.		
44	The Contractor shall support the assigning, qualification verification and management of Account Plans, including non-revenue plans in the BOS, as Approved by the Authority,		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
45	In case of an incorrect or incomplete application, the Contractor shall contact the customer to facilitate successful account creation.		
46	The Contractor shall support all activities related to account closing. In the event of closing the Contractor shall ensure that the customer's transponder(s) is changed to the appropriate status in the BOS and that all outstanding balances are paid or handled in accordance with the Business Rules, Operations Plan and SOPs prior to closing the account.		
47	The Contractor shall update customer account information based on information received from entities including but not limited to:		
	· customer or Authorized Designee;		
	· Registered Owner of Vehicle (ROV) Lookup Provider;		
	· United States Post Office;		
	· Skip Trace Service Provider;		
	· Banks (for replenishment);		
	· Collection Agencies;		
	· Print/Mail House Service Provider;		
	· Lockbox Service Provider (if used by Contractor);		
· Credit Card Update Service Provider and			
· Merchant Services Providers (MSPs).			
1.2.1.1. Payments, Fees and Refunds			
	Contractor will process payments at the CSC Facilities and over the phone as well as resolve and post any payments where the Lockbox Service Provider (if used by Contractor) was unable to identify the correct account. In addition, the Contractor will assist in the processing of third-party and pass-through payments.		
48	The Contractor shall process all payments received from customers either directly or through the services of a Lockbox Service Provider.		
49	The Contractor shall resolve and process Lockbox Exceptions if a Lockbox Service Provider is utilized. These exceptions are payments which cannot be readily associated with a customer account. The Contractor shall be responsible for conducting timely research on these payments so that they can be posted to a customer account as quickly as possible. If all research avenues have been exhausted and documented and the payment remains unassociated, the payment shall be tracked as an unidentified funds Case for future resolution.		
50	The Contractor shall support processing of payments by Authority staff, customers, Franchise Tax Board, DMV, Interoperable partners and Collection Agencies and reconcile all payments to customer accounts and money deposited in the bank.		
51	The Contractor shall apply any fees which require manual application using the BOS in accordance with Business Rules, Operations Plan and SOPs.		
52	The Contractor shall research, respond to and process chargebacks.		
53	After the pre-established time period determined by the Authority has expired, the Contractor shall issue refunds using the same channel the customer used, if possible, to make the payment, in accordance with the applicable Authority Business Rules, Operations Plan and SOPs.		
54	In the case of check refunds, the Contractor shall use Positive Pay to deter check fraud.		
55	The Contractor also shall ensure that Credit Card refunds are successfully processed.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
56	The Contractor shall process, enter, print and send all refund checks and enter the resulting financial transactions into the Authority's financial accounting systems. The Contractor shall work with the Authority to setup all required accounts and processes to facilitate this entire process.		
57	At the direction of the Authority and per the SOPs the Contractor shall enter payments into the Authority's financial accounting systems for direct payments to third parties for issuance by the Authority (for example, payments to third parties contracted directly by the Authority to provide services at the I-405 CSC Facility).		
58	At the direction of the Authority and per the SOPs the Contractor shall enter payments into the Authority's financial accounting systems for reimbursement of pass-thru costs submitted by the Contractor for issuance by the Authority.		
1.2.1.2. Account Plans			
	The Authority has several Account Plans. These plans may be assigned at the individual transponder, or account level and each may have only one Account Plan assigned to it.		
	The Contractor shall be responsible for managing the various Account Plan programs including, enrollment in the program, eligibility verification, program membership renewal, and handling questions from customers regarding how the programs work and questions about specific transactions/trips under the programs. In addition to the Account Plans listed in this section, the Contractor should expect that plans may be added, deleted or modified over the course of the Operations and Maintenance Phase.		
59	In accordance with Business Rules, Operations Plan and SOPs, the Contractor shall provide support for all the Account Plans, including new and modified plans.		
60	For the Account Plans that require qualification, the Contractor shall verify qualification, scan and attach the qualification documentation prior to adding the plan(s) to the customer account.		
61	For Account Plans requiring qualification, the Contractor shall remove the Account Plan and notify the customer if their eligibility requirements are no longer met.		
62	For Account Plans which expire and require renewal, the Contractor shall verify qualification prior to renewing the plan on the customer account.		
63	For Account Plans requiring payment, the Contractor shall collect appropriate payment from the customer as required by the enrollment process for the specific Account Plan.		
1.2.1.3. Non-Revenue Program			
	The Authority allows for non-revenue passage on qualified users on specific facilities. Non-revenue passage may be assigned at the individual transponder, or account level. The Contractor shall maintain strict control when a transponder is issued to an account with a non-revenue plan and the reason for issuing it. The Authority must ALWAYS Approve the issuance of any non-revenue transponder.		
	The Contractor shall be responsible for managing enrollment in the program after obtaining the Authority's approval, verifying eligibility, handling questions from customers in regard to how the programs work and questions about specific transactions/trips under the programs.		
64	In accordance with the Business Rules, Operations Plan and SOPs, the Contractor shall provide support for all of the Authority's non-revenue programs.		
65	Prior to applying a non-revenue plan to a transponder, plate or an account, the Contractor shall obtain Approval from the Authority.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
66	The Contractor shall maintain documentation of authorization for each non-revenue plan that has been assigned to a transponder or an account, and this documentation shall be available for review by the Authority at all times.		
67	The Contractor shall manage non-revenue account participants certification that the transactions/trips on a non-revenue account are according to the agreement.		
68	The Contractor shall perform random checks to confirm the transponder is being used on an authorized plate.		
69	The Contractor will administer non-revenue accounts that do not have transponders issued when directed by the Authority.		
1.2.2. Privacy			
	Privacy is of utmost concern to the Authority. The Contractor shall adhere to privacy and security Requirements set forth below and in the Security Standards and current law and regulations.		
70	The Contractor shall develop and comply with all Approved Security Standards. Security Standards shall be updated to reflect changes in industry requirements, partner agreements and to address detected security weaknesses.		
71	The Contractor shall not release information to anyone unless authorized by the Authority. The Contractor shall develop an SOP and approval process for the release of information.		
72	The Contractor shall establish reasonable methods to verify the identity of customers prior to the release of any customer account information, and such methods shall be documented in the Operations Plan and SOPs.		
73	The Contractor shall validate the identity of the customer prior to release of any image. This may include requiring a photo ID at a WIC.		
1.2.3. Rental Cars			
	The Authority's customers utilize rental vehicles which create transactions/trips that are initially assigned to a rental agency. The Authority may utilize Rental Car Service Providers and/or other designated entities for processing the rental car trips.		
74	The Contractor shall work directly with customers, the Rental Car Service Provider and/or other designated entity to accurately process all rental car trips and resolve rental-related requests.		
75	The Contractor shall enter into agreements with a Rental Car Service Provider for the purpose of providing a seamless and cost-effective solution for customers. The Authority shall have the right to review and approve all Rental Car Service Provider Agreements.		
76	The Contractor shall provide the capability for a rental customer to post-pay a toll based on the Authority's Business Rules.		
77	The Contractor shall process affidavits of non-liability for rental/lease vehicles and pursue the named party.		
78	The Contractor shall resolve charges by rental agencies for accountholders who incur a charge by rental agencies.		
1.2.4. Search Warrants, Subpoenas, Litigation and Public Records Requests			
	The Authority receives requests for information and assistance from the law enforcement and legal communities as well as public records requests. These requests are highly time-sensitive and required sensitive and skilled handling.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
79	The Contractor shall refer all requests, inquiries, subpoenas, search warrants, public records requests and official information requests to the Authority, in accordance with Business Rules, Operations Plan and SOPs.		
80	In accordance with the Business Rules, Operations Plan and SOPs for handling and tracking of such requests, the Contractor shall gather and provide the information requested by the search warrant or subpoena upon receiving Approval from the Authority to do so.		
81	The Authority may request that the Contractor compile data for subpoenas, search warrants, litigation matters, or other reasons. The Contractor shall respond to all requests from the Authority in a timely manner and in accordance with the Business Rules, Operations Plan and SOPs.		
82	The Contractor shall assist the Authority's risk management department as directed in handling all claims and requests.		
83	If the research will take longer than two (2) Business Days, the Contractor must advise the Authority.		
84	The Contractor shall provide qualified personnel to support litigation, including providing testimony as an expert witness upon request from the Authority.		
1.2.5. Image Review Support			
	Image collection and processing is a fundamental operation of the Authority's transaction/trip processing and Violation enforcement process. Vehicle license plate images are captured by roadside Equipment for all transactions/trips. If a valid FasTrak transponder is not identified, the images associated with that transaction/trip are reviewed by the ETTM System Contractor in a process called image review. These images and results of the review will be used to determine if a plate is associated with a FasTrak account or is a Violation. These will include rear license plate images as well as Region of Interest images. The ETTM System Contractor will identify the plate number, and Jurisdiction and Plate Type, if applicable, and provide this information to the BOS. The BOS will automatically Post the transaction/trips to the customer accounts, IOP or generate Violation Notices based on the license plate information received from the ETTM System Contractor.		
1.2.5.1. Image Review Quality Assurance			
	The accuracy of the image review process is critical to the successful identification of the ROV. As part of the Quality Assurance (QA) process, the Contractor will conduct an accuracy review and audit process of the manual and automated image review results. Using the ETTM System Contractor's-provided quality review tool, the Contractor will perform quality reviews on the results from each ETTM System Contractor to ensure that the ETTM System Contractor is accurately identifying a high percentage of license plates.		
85	The Contractor shall provide for an adequate number of trained and qualified image review staff to handle the quality review volume.		
86	The Contractor shall perform manual image review on a sample of at least 1% of all Image-Based Transactions/Trips per month that were provided by the ETTM System Contractor to determine accuracy of state, Plate Type, plate number and OCR confidence level.		
87	The Contractor shall provide a report to the Authority of the audit and findings.		
88	The Contractor shall correctly determine for each image set whether the ETTM System Contractor accurately processed the image and if not enter the correct plate information or reject code and provide the findings to the ETTM System Contractor.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
89	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.		
1.2.5.2. DMV No Registered Owner Information Return Quality Review			
	Periodically image transactions/trips will be returned from the DMV source with no registered owner information. This can be a result from several factors including a license plate entered incorrectly. Part of the Contractor's responsibility will be to ensure the transactions/trips with no registered owner information were not caused by an incorrect license plate or improperly formatted DMV submission.		
90	The Contractor shall review all image transactions/trips that are returned from the DMV source without registered owner information to ensure license plate entry was accurate.		
91	The Contractor shall accurately enter information related to the vehicle identified in each image set, including but not limited to:		
	· plate number;		
	· Plate Type, if applicable and · Jurisdiction.		
92	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.		
1.2.5.3. Customer Inquiry Image Error			
	Quality reviews are required to verify customer-disputed transactions/trips. Customers may contact the CSCs regarding a notification they received that incorrectly identifies them as a user of a Toll Facility. This can be a result from several factors including a license plate entered incorrectly. Part of the Contractor's responsibility will be to ensure the transactions/trips with no registered owner information were not caused by an incorrect license plate.		
93	The Contractor shall also research and review images related to customer disputes and correct and reprocess.		
94	The Contractor shall accurately enter information related to the vehicle identified in each image set, including but not limited to:		
	· plate number;		
	· Plate Type, if applicable and · Jurisdiction.		
95	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	Successful acquisition of accurate ROV information is critical to the success of the Authority's Violation enforcement program. The Contractor shall be completely responsible for establishing and maintaining both technical and operational relationships with the Registered Owner of Vehicle (ROV) Lookup Providers. The Contractor must ensure that the Authority is receiving the optimum number of current and accurate ROV matches.		
96	The Contractor shall establish and maintain up-to-date agreements with each Registered Owner of Vehicle (ROV) Lookup Provider.		
97	The Contractor shall provide the capability to track and follow the renewal Requirements for each Registered Owner of Vehicle (ROV) Lookup Provider. For example, a state may require that a DMV data access application form be submitted and approved annually.		
98	The Contractor shall use online interfaces to the California, Arizona, Oregon and Nevada DMVs and other DMVs as they become available to manually look up individual license plates at the request of the Authority or in order to resolve customer disputes.		
99	The Contractor shall provide the following ROV-related activities, including but not limited to:		
	· Establish and maintain a relationship with each Registered Owner of Vehicle (ROV) Lookup Provider;		
	· Manage current contracts and service level agreements with each Registered Owner of Vehicle (ROV) Lookup Provider;		
	· Monitor and evaluate the number of successful matches by Jurisdiction;		
	· Monitor and evaluate the number of successful matches by Registered Owner of Vehicle (ROV) Lookup Provider;		
	· Monitor and evaluate the number of successful matches by type of license plate;		
	· Identify issues with manual license plate identification and provide information to allow the ETTM System Contractor to correct the issue, including examples and training material;		
99	· Identify issues with automatic license plate identification and provide information to allow the ETTM System Contractor to fix the issue and		
	· Identify areas where the ROV match is lower than the average, investigate potential solutions and provide recommendations to the Authority.		
100	The Contractor shall coordinate with the ETTM System Contractor regarding BOS updates required due to any changes in ROV Requirements.		
101	The Contractor shall monitor the success of ROV Lookup requests each month and when a change is made by the ETTM System Contractor reporting on the number of requests for which an ROV was obtained (successful lookup) and the number for which a request was not obtained (unsuccessful lookup) by Jurisdiction.		
102	The Contractor shall identify Jurisdictions in which the percentage of successful requests decreases by more than five percent (5%) from the prior month and shall work with the appropriate Registered Owner of Vehicle (ROV) Lookup Provider to identify issues and solutions in collaboration with the ETTM System Contractor to ensure images are processed correctly.		
103	The Contractor shall develop solutions to increase the ROV Lookup success.		
104	The Contractor shall research and then input and manage the BOS Protected Plate data that associates an address with the agency names that are returned from the DMV or ROV Lookup Provider for license plates registered to a customer affiliated with federal, state or local agency that is allowed to shield addresses.

105	The Contractor shall facilitate the Protected Plate process of entering the correct agency address and resending the Violation Notice.		
1.2.7. Customer Communications			
1.2.7.1. Outgoing Customer Notification			
	The Contractor is responsible for all necessary customer communication in accordance with the Operations Plan. At its discretion, the Authority will choose to produce some outgoing customer correspondence within its reprographics department.		
106	The Contractor shall make contact with customers, by using the Authority's required method of communication about account management, general information, marketing, changes to account and privacy policy.		
107	The Contractor shall be responsible for printing, pdf creation, storing and associating with accounts, envelopes, mailing and postage for all communications.		
108	The Contractor shall be responsible for acquiring and assembling all materials necessary for the mailing of transponders including, welcome kit, envelopes, sealing wafers, special inserts, stickers and mounting strips. The Contractor shall pay for mounting strips and other items not explicitly included in the pass-through list.		
109	When directed by the Authority, the Contractor shall coordinate with the Authority's reprographics department for the production of outgoing correspondence. The Contractor shall be responsible for pick up, assembly and mailing.		
110	The Contractor shall utilize the USPS/NCOA database services to validate a customer address prior to mailing correspondence.		
111	The Contractor shall provide all postage meters and be responsible for payment of any postage meter fees.		
112	The Contractor shall be required, at its own expense, to communicate to customers or the general public, including resending corrected notifications, any information related to issues or problems caused by the Contractor that affect customers, as further set forth in the Agreement.		
113	The Contractor shall be responsible for printing, packaging and distributing printed information, developed by the Authority.		
114	The Contractor shall manage the sending of e-blasts (sending of an email simultaneously to a group of people), developed by the Authority, to selected groups of customers or all customers using BOS functionality.		
1.2.7.2. Outgoing Communications (Future)			
	The Authority may elect during the Term of the Agreement to offer video tolling for unregistered accounts (mailed invoices) as the first step of the Violations process. The Authority anticipates that video tolling transactions would be grouped in regular intervals, such as weekly or monthly, prior to mailing invoices to customers.		
115	If directed by the Authority, the Contractor shall manage the mailing of invoices and the subsequent customer dispute and Violations process.		
1.2.7.3. Incoming Customer Communication			

Volume III CSC Operations

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	Incoming customer communication includes customer applications; replenishment payments; Violation payments; customer complaints; disputes; general public inquiries; legal notices (for example, bankruptcy, subpoena etc.); requests for account closures, account information updates and transponders. These communications will be received through all channels including but not limited to phone calls, faxes, texts, chat sessions, emails, Authority contacts, and mail.		
	Facilities and procedures are required to provide careful and efficient handling of all incoming customer communication, including the BOS providing for tracking of customer requests as Cases associated to the appropriate account(s).		
116	The Contractor shall assume the responsibility of establishing all required post office boxes.		
117	The Contractor is responsible for all mail pickup and transfer between Facilities as required.		
118	The Contractor shall receive mail from the post office boxes for incoming mail.		
119	All customer contacts handled directly through the Contractor staff shall be noted in the customer account in the BOS to maintain an accurate history of the customer's interaction with the CSC and Authority.		
120	The Contractor shall provide a response for all correspondence received from the customer regardless of which channel the customer uses to communicate, including but not limited to, correspondence received by:		
	· email;		
	· fax;		
	· text;		
	· chat;		
	· communication from the website's "Contact Us" feature and delivered (USPS or by other means) correspondence.		
121	The Contractor shall monitor and respond to customer requests received by phone, chat and text in real time when received during regular business hours.		
122	The Contractor shall strive to provide first contact resolution and track the number of contacts resolved on first contact.		
123	The Contractor shall encourage users receiving a Violation Notice to open a FasTrak account when they contact the CSC.		
124	The Contractor shall ensure incoming correspondence (paper or electronic) is scanned (in the case of paper correspondence), saved and associated with the customer's account and any applicable Case(s). Non-customer correspondence shall also be scanned and catalogued for easy access. Paper copies shall be shredded, in accordance with security requirements, and policies agreed upon by the Authority, in adherence with the Security Standards and documented in the Operations Plan.		
125	The Contractor shall use the same channel used by the customer or customers preferred channel to respond to the customer correspondence unless the Business Rules, Operations Plan or SOPs specify a different channel or if the nature of the customer issue necessitates the use of a different channel.		
126	The Contractor shall monitor the communications channels used and frequency of all customer correspondence and recommend for consideration BOS configuration changes that improve the use of customer-friendly, efficient and cost- effective customer communication methods.		
127	Some customer contact may involve questions about Image-Based Transactions/Trips. The Contractor shall utilize the BOS to view images related to the transaction/trip in question and if appropriate work with the ETTM System Contractor to correct issues.		

Volume III CSC Operations

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
128	All incoming mail shall be processed by the Contractor, in accordance with the SOPs and applicable standards, including but not limited to the Security Standards. Such requirements include but are not limited to: segregation of duties; date stamping the mail, categorization, scanning and/or saving into the BOS as Cases, and then assigning to the appropriate Contractor staff for processing.		
129	The Contractor shall develop a workflow process that clearly documents the handling process for all incoming correspondence and communication through all channels, ensuring all incoming correspondence and communications are recorded, reviewed and properly routed (such as, operational correspondence, financial, contractual, etc.). This shall be documented in the Operations Plan and SOPs.		
130	The Contractor shall ensure all correspondence handling processes and controls are documented and adhered to by operations staff. The Authority shall Approve the correspondence handling process and any changes to the handling process.		
131	With the exception of customer requests regarding their own accounts, the Contractor shall only answer general inquiries as they relate to general information about the tolling facilities serviced and services provided by the CSC. All other inquires and communications shall be escalated to the Authority as a Case as set forth in the Operations Plan and SOPs, unless the Contractor is otherwise directed in writing by the Authority. This includes inquiries from or communications with the media, government agents, Public Records Act requests and individuals representing organizations for purposes other than directly related to their own customer account.		
132	The Contractor shall keep a record of all information requests as a Case, inform the Authority immediately of inquiries from these entities and direct such inquiries to the Authority, according to the Operations Plan.		
133	Customers may contact the Contractor regarding issues the Contractor does not control, for example debris on the roadway, or general tolling questions. The Contractor shall collect the required information and handle the issue in accordance with the Operations Plan. The Contractor shall create a Case and track the issue until it is accurately resolved or handed off to the appropriate party responsible for resolution in accordance with the Operations Plan.		
1.2.7.4. Returned Mail Processing			
	Returned mail shall be returned by the USPS and the Contractor shall update the BOS to reflect the status of the Notification and attempt to obtain a different address to mail the Notification to the customer if a forwarding address was not provided.		
134	The Contractor shall scan each returned envelope and Notification and attach the scan to the correct customer account. Any physical pieces of returned mail received will follow the document disposal process after scanning.		
135	The Contractor shall enter a forwarding address, if provided.		
136	For addresses without a forwarding address, the Contractor shall mark the address as bad.		
137	For bad addresses on FasTrak account correspondence, the Contractor shall attempt to determine a new address using the USPS/NCOA database and Skip Trace services.		
138	For bad addresses on Violation Notices, the Contractor shall attempt to determine a new address using the USPS/NCOA database and Skip Trace services.		
139	The Contractor shall utilize the USPS/NCOA database and Skip Trace services to find a customer address.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
140	If a different, current address is provided, the Contractor shall update the address in the BOS and take the necessary steps for the BOS to re-issue the correspondence.		
1.2.7.5. Collateral Materials for Customers			
	The Authority will provide the art work for all customer collateral, excluding system generated notices.		
141	The Contractor shall print, deliver to and inventory all collateral materials according to the print specifications provided by the Authority.		
142	The Contractor shall work with the USPS to obtain approval of printed material design to ensure compliance with the USPS requirements and to determine the lowest postage and staff handling effort for each mail piece type.		
143	The Contractor shall modify/update as directed by the Authority and print the generic collateral material when changes to the information contained in the material necessitate a revision.		
1.2.7.6. Customer Request Management			
	The BOS provides the capability to create, assign and manage requests made by customers or Authorized Users which cannot be completely resolved at the time of the request. These requests become Cases. Case management is the creation and management of Cases where a Case represents an activity or action required to satisfy the Authority, customer or general public need or inquiry.		
144	Many customer issues or requests (such as, changing a customer's contact information), can be completely resolved at the time of the customer request. If the issue or request is completely resolved during the initial contact, the Contractor shall notate it in the customer's account.		
145	Any customer issue or request that cannot be completely and accurately resolved at the time of request shall be entered into the BOS as a Case, for management, tracking and reporting. Contractor's staff shall work open Cases through to final resolution in a timely manner as required in the Operations Plan and in accordance with the Performance Measures.		
146	The Contractor shall accurately resolve and respond to customer issues and requests by the customer's preferred method of contact (email and mail) if available and according to the Business Rules, or by letter, email, mail, phone or text depending on the circumstances of the issue/request. The escalation procedures for customer issues and requests shall be described in the Operations Plan.		
147	The Contractor shall respond to customer Cases according to the Business Rules, Operations Plan and SOPs. The CSC Manager responsible for Case management shall review the list of open Cases on a daily basis and shall make sure they are accurately resolved in accordance with and within the timeliness set forth in the Operations Plan and the Performance Measures. The Authority shall be notified immediately if there are any critical comments or issues that need immediate attention.		
148	The Contractor shall be responsible for the resolution of all customer disputes, which are managed as Cases, in accordance with the Authority's policies, the Business Rules, Operations Plan and SOPs.		
149	The Contractor shall select the proper case type and case resolution.		
150	The Contractor shall utilize pre-approved auto responses for case resolution as appropriate.		
151	The Contractor shall process dispute Cases (Investigative Review) involving adjustments to vehicle class, transaction/trip adjustments and reversals, reassigning of Violations, and other resolutions. Specific types of disputes shall require supervisor/manager review and approval, and all waivers, adjustments and reversals shall be in accordance with the Operations Plan and SOPs.		
152	The Contractor shall place the disputed transactions/trips and Violation Notices on hold and release the hold in the BOS in accordance with Operations Plan and Business Rules.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
153	The Contractor shall ensure all supporting documentation from the customer to resolve a dispute Case, as required by the Operations Plan and Business Rules, is obtained. If the customer does not provide the supporting documentation, the Contractor shall contact the customer in accordance with the timeframes defined in the Business Rules and Operations Plan.		
1.2.7.7. Ongoing Customer Satisfaction Surveys			
	The Contractor shall work with their Customer Satisfaction Survey Provider Subcontractor to establish a program that provides customer feedback regarding the services the Contractor provides and the Express Lanes themselves.		
154	The Contractor shall offer the survey opportunity to every customer each time they contact the CSC.		
155	The Contractor shall contract with a third-party Customer Satisfaction Survey Provider Subcontractor.		
156	The Contractor shall create a customer survey program to measure the quality of the services they provide.		
157	The Contractor shall modify the program as needed or as directed by the Authority.		
158	The Contractor shall make contact with each customer who rates their experience with an overall score below an agreed upon threshold, as noted in the Operations Plan, within five (5) Business Days of the customer submitting the survey.		
159	The Contractor shall monitor the customer surveys and provide a report to the Authority monthly.		
160	The Contractor shall provide training on the survey tool to CSRs and other applicable personnel, including the purpose of the survey and the use of the survey tool.		
161	The Contractor shall review survey results with CSRs and other applicable personnel during periodic meetings regarding individual's performance.		
162	The Contractor shall provide the Authority convenient, electronic access to the up to date and historic survey results.		
163	The Contractor shall include the customer survey results, including trending, in as part of the Monthly Operations Report.		
1.2.7.8. Customer Service Quality Monitoring and Reporting			
	The Contractor interacts with the Authority's customers directly through many different channels including, but not limited to, in person at the WIC, over the phone, in writing via chat, text, email and responses to the Cases. The quality of these interactions and the service provided to its customer is of utmost importance to the Authority. In addition to Customer Satisfaction Surveys, the Authority expects the Contractor to develop and enact quality programs for all aspects of its operation and to train its staff to use deliberate care in each interaction and in serving the Authority's customers.		
164	The Contractor shall ensure all CSC staff is trained in a manner which ensures excellent customer service in every customer interaction as measured by the Performance Measures.		
165	The Contractor shall record the reason(s) for each contact (via all contact channels) by using Approved call wrap-up codes, entering account notes or other tracking approach to document the reason for the contact and memorialize the resolution or required next steps.		
166	The Contractor shall monitor and score both live and recorded CSR calls for accuracy, efficiency, professionalism and courteousness in accordance with the Approved Quality Plan.		
167	The Contractor shall monitor and score WIC CSR interaction, resolution activities and outcomes for accuracy, efficiency, professionalism and courteousness in accordance with the Approved Quality Plan.

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
168	The Contractor shall review and score all customer interaction channels, resolution activities and outcomes for accuracy, efficiency, professionalism and courteousness in accordance with the Approved Quality Plan.		
169	The Contractor shall review and score Case resolution activities and outcomes for accuracy, efficiency, professionalism and courteousness in accordance with the Approved Quality Plan.		
170	The Contractor shall periodically monitor CSR screen navigations by remotely viewing the CSR's screen.		
171	The Contractor shall track monitoring results and submit a monthly summary to the Authority as part of the Monthly Operations Report.		
172	The Contractor shall track all escalated issues and resolutions and provide a monthly report to the Authority as part of the Monthly Operations Report.		
173	The Contractor shall review information provided by the Authority upon their review of customer interaction and make any changes to improve customer service.		
174	The Contractor shall provide the capability for the Authority to, at the Authority's discretion and without prior notification to the Contractor, monitor all live and recorded calls and all other types of correspondence.		
175	The Contractor shall provide for review by the Authority all documentation related to the Contractor's quality program.		
176	The Contractor shall conduct monthly quality monitoring calibration meetings for all Contractor staff who monitor customer interaction. The Authority shall be invited to attend these meetings.		
1.2.8. Transponder Management			
	The Authority will purchase transponders and the Contractor shall perform all other work related to transponders.		
177	The Contractor shall manage all aspects of the transponder lifecycle. This includes but is not limited to:		
	· initiate a PO request;		
	· receiving into inventory;		
	· testing transponders upon receipt and prior to issuing;		
	· programming transponders as necessary, for example programming a standard 6c transponder to indicate that the vehicle is a motorcycle;		
	· assigning and issuing to customers;		
	· tracking transponders through their life;		
	· recycling (evaluating, cleaning and testing) for reissue;		
	· managing transponder recalls;		
· warranty return and replacement and disposal of transponders.			
178	Upon customer request, the Contractor shall assign, and mail transponder(s) to customers.		
179	The Contractor shall support the distribution of transponders by the Contractor and US mail.		
180	The Contractor shall include user guide and mounting instructions, mounting strips and other materials, as may be determined by the Authority to be required with the distribution of each transponder. The camera-ready copy of any transponder kit materials will be provided by the Authority.		
1.2.8.1. Transponder Inventory Management			

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The BOS shall have a transponder inventory and management system that tracks and maintains transponder inventory, identifies and supports the transponder recall program and tracks transponder warranty.		
181	The Contractor shall be responsible for ordering (if requested by the Authority), tracking and transporting the transponders at all CSC Facilities, including the OCTA Store WIC.		
182	The Contractor shall ensure that an adequate supply of transponders is available at all times. When the inventory reaches a pre-determined level identified in the Operations Plan the Contractor shall initiate order requests with the Authority, based upon existing inventory and forecasted requirements.		
183	The Contractor shall ensure that an adequate supply of transponder mounting strips, user guides and mounting instructions, and shielded envelopes for transponders are available at all times to accommodate the transponders issued by the I-405 CSC and WIC and the OCTA Store WIC.		
184	CSC issues multiple types of transponders, and as such, the Contractor shall be required to manage multiple types of transponders, possibly from multiple manufacturers/providers.		
185	The Contractor shall receive shipments of transponders and shall reconcile shipment contents with electronic manifests provided by the transponder manufacturer. The waybill shall be reconciled against the original purchase order and scanned into the BOS for tracking and reconciliation purposes.		
186	Monthly, the Contractor shall conduct a physical audit of the transponders that are under its physical control, including for the various transponder types and statuses and quantities. The audit shall compare the physical counts with the BOS counts by transponder type, location and status and completely reconcile any discrepancies. Transponder audit reports shall be included in the Monthly Operations Report.		
187	The Contractor shall support the Authority in their periodic transponder audits that will be no more frequent than quarterly unless discrepancies are found.		
188	The Contractor shall distribute new and recycled transponders, if applicable, using the FIFO inventory method.		
1.2.8.2. Transponder Testing			
	Transponders shall be tested at multiple times in the lifecycle because transponders that are defective or not functioning reliably cause problems for the customers and the Authority and increase costs. The Authority will provide Equipment for the testing and programming of transponders.		
189	The Contractor shall test one hundred (100) percent of the switchable transponders and ten (10) percent of each roll of sticker tags in each shipment when the transponders are received from the manufacturer. This testing shall include but not be limited to:		
	· verifying that the transponders function and are correctly encoded;		
	· reading the transponder serial number and verifying that the transponder label, barcode and internal coding are consistent and		
	· ensuring the transponders can be read by simulating functionality on the road.		
190	The Contractor shall return the transponders which fail the testing to the manufacturer in accordance with the Operations Plan.		
1.2.8.3. Transponder Return to Manufacturer			
	When transponders are determined to be defective but have not exceeded their manufacturer's warranty, they are returned to the manufacturer for replacement under warranty.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
191	The Contractor shall track transponder warranty status and manage and resolve all warranty issues with the transponder manufacturer.		
192	The Contractor shall be responsible for ensuring all transponders found to be defective and still under the manufacturer's warranty are returned to the manufacturer, according to the manufacturer's specified return material authorization (RMA) process.		
193	The Contractor shall be responsible for storage of transponders subject to return until such time that the transponder manufacturer accepts the returned transponders.		
194	The Contractor shall be responsible for shipment of the transponders identified for return to the manufacturer.		
195	The Contractor shall track the warranty returns and confirm that the Authority receives the proper credit for the transponders returned under warranty in accordance with the Authority's agreements with the manufacturer.		
1.2.9. Registration Hold			
	California law allows toll agencies to place a hold on DMV vehicle registrations due to unpaid toll Violations. Based on the Business Rules, Operations Plan and SOPs, a Registration Hold may be utilized to enforce payment of a Violation(s).		
196	The Contractor shall place and release Registration Holds using BOS functionality and in accordance with the Business Rules, Operations Plan and SOPs.		
197	The Contractor shall coordinate with the applicable DMV or Third-Party Service Provider responsible for placing Registration Holds on the vehicle registrations and respond to any requests that the entity may have.		
198	The Contractor shall respond to requests from customers related to Registration Holds and the process for releasing the Registration Hold(s).		
199	The Contractor shall initiate a release of the Registration Hold(s) in real-time for customers who have satisfactorily resolved the condition(s) which caused the Registration Hold(s).		
200	The Contractor shall reconcile and account for all payments to the DMV for Registration Hold placement and for any payments collected by the DMV from the Authority's customers.		
201	The Contractor shall support all DMV Registration Holds or other enforcement methods allowed by interstate Interoperability enforcement agreements.		
1.2.10. Collections			
	This Collections process covers the assignment of past due amounts on delinquent FasTrak accounts, and delinquent Violations to the Collection Agencies provided by the Contractor. Non-payment of the Notice of Delinquent Toll Evasion Violation may result in the delinquent Violations escalating to Collections. Unpaid transactions/trips and fees on FasTrak accounts that are delinquent may also escalate to Collections.		
	Delinquent Violation debts are placed with a Collection Agency.		
	The process of assigning unpaid transactions/trips, Violations, fees and penalties to Collections is called Collections Placement, and is an automated BOS process. However, based on the Business Rules, each Collections Placement may require a quality review and/or the Authority's approval before the Collections Placement file is submitted to the applicable Collection Agency.		
	Prior to a Collections Placement, the Authority may require the Contractor to perform outgoing calls or mail a pre-collections letter to alert an individual of an impending Collections Placement and allow one more chance to make a payment.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Collection Agencies will provide regular collection activity updates to the BOS by electronic interface. Payments for transactions/trips in Collections can be made to the Collections Agency or to the CSC. The Contractor will manage, monitor and reconcile the transfer of Collections Placement files and revenue collected by the Collection Agencies and the CSC.		
202	The Contractor shall provide the Collection Agencies.		
203	The Contractor shall support outbound collections calls and letters prior to Collections Placements.		
204	The Contractor shall verify that the BOS is performing Collections Placements according to the Business Rules, Operations Plan and SOPs.		
205	While it is expected that the Collection Agencies will be the primary payment processors for debts in Collections, the Contractor shall accept payments for amounts in Collections.		
206	The Contractor shall verify that the Collection Agencies are accurately updating the BOS and shall work directly with the Collection Agencies to completely and accurately resolve any issues in a timely manner, including identification and resolution of any discrepancies between what the BOS identifies is in Collections and what Collection Agencies say is in Collections.		
207	Using the BOS and other data sources as necessary, the Contractor shall perform reconciliations including but not limited to:		
	· reconcile files received from the Collection Agencies to the BOS to ensure the files received from the Collection Agencies are correctly Posted to the BOS;		
	· reconcile outstanding Collections balances per the BOS to outstanding Collections balances per the Collection Agencies on a monthly basis, and research and resolve discrepancies and		
	· reconcile amounts collected by the CSC in relation to Collections Placements sent to the Collection Agencies. There should be no duplicated revenue collections on the same Collections Placement.		
208	The Contractor shall review and verify invoices submitted by Collection Agencies, along with required backup documentation and providing feedback to the Authority.		
209	The Contractor shall provide a financial reconciliation between the BOS and the Collection Agencies for a specific customer account at the Authority's request.		
210	The Contractor shall provide assistance to the Collection Agencies regarding the research of disputes when customers contact the Collection Agencies and shall coordinate the resolution with the Collection Agencies.		
211	The Contractor shall update the BOS when notified by a Collection Agency that a customer has been allowed to establish a settlement arrangement to pay a lesser amount or to make periodic payments.		
1.2.11. Bankruptcy			
	The Contractor shall receive and process Notification of bankruptcies related to amounts owed to the Authority by customers. The laws related to bankruptcy are very specific and must be followed closely from initial Notification though final resolution and potentially transaction Write-Off.		
212	The Contractor shall comply with bankruptcy laws.		
213	The Contractor shall document receipt of Notification of bankruptcy within the BOS and place applicable transactions on hold pending the outcome of the bankruptcy process.		
214	The Contractor shall remove DMV Holds for trips subject to bankruptcy proceedings.		
215	The Contractor shall communicate with the Collection Agencies, as necessary, related to a bankruptcy Notification.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
216	The Contractor shall discontinue collection efforts with the Franchise Tax Board for trip subject to bankruptcy proceedings.		
217	The Contractor shall update the status of the bankruptcy in the BOS upon notification of changes or the resolution and perform the necessary steps to ensure that the BOS accurately reflects the outcome including but not limited to dismissing amounts due, processing Write-Offs and reinstating Violations.		
218	The Contractor shall send copies of bankruptcy Notifications to the Authority.		
219	The Authority will notify the Contractor of any bankruptcy proceedings for which the Authority receives Notifications. The Contractor shall update the status of the bankruptcy in the BOS accordingly and notify the applicable Collection Agency.		
220	The Contractor shall follow up with, provide information and respond to requests from all parties including but not limited to customers, attorneys, the bankruptcy courts and the Authority related to a customer bankruptcy proceeding.		
1.2.12. Violation Investigative Review (Disputes), Administrative Review and Hearing Support			
	When a violator receives a Violation Notice, they can contest (dispute) it. Disputes shall be tracked as Cases in the BOS. The Contractor shall follow California Vehicle Code Section 40250 et seq. with respect to disputes and Administrative Review Hearings.		
221	The Contractor shall manage disputes, subsequent resolutions, and support Administrative Reviews.		
222	The Contractor shall receive, research, document and resolve all customer disputes.		
223	The Contractor shall investigate all customer disputes to determine if the contesting person (ROV) is responsible for the Violation.		
224	The Contractor shall mail the results of the investigation to the person who contested the Violation.		
225	When the person contesting a Violation is not satisfied with the results of the Contractor's investigation, they may request an Administrative Review Hearing. The Contractor shall schedule all Administrative Review Hearings and collect payment from the customer in accordance with California Vehicle Code and Authority's Business Rules and SOPs.		
226	The person contesting a Violation can request a waiver of deposit due to financial hardship. The Contractor shall verify that the person is eligible for financial hardship via verification of their W-9 or other Authority Approved process.		
227	The Contractor shall adhere to the California Vehicle Code Violation dispute process and Authority policies.		
228	Once an Administrative Review Hearing is requested, the Contractor shall again review the dispute and organize all related information, using primarily the Evidence Package reports from the BOS, and provide the Authority and the Administrative Hearing Officer with all relevant documentation in a comprehensive Evidence Package.		
229	The Contractor shall develop the processes, for Approval by the Authority, for the hiring and scheduling of Administrative Hearing Officers in compliance with all applicable statutes and manage the entire Administrative Review and Hearing process.		
230	The Contractor shall be readily available in-person to the Contractor-hired Administrative Hearing Officer during the Administrative Review Hearing. Contractor personnel shall be available and support the process per the SOPs and as requested by the Authority.		
231	The Contractor shall provide a Spanish-speaking interpreter to attend and support all applicable Administrative Review Hearing.		

Volume III CSC Operations

		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
232	The Contractor shall implement all required actions resulting from the Administrative Review Hearing process.		
233	The Contractor shall offer and process reduced Violation penalties in accordance with the Business Rules, Operations Plan and SOPs.		
234	The Administrative Review Hearing will result in either the Violation(s) being dismissed or violator being required to make payment. The Contractor shall make adjustments to the balance due and/or collect payment from the customer and provide notification.		
1.2.13. Banking and Lockbox Services			
	The banking and merchant services for the CSC are comprised of the following:		
	· Banking Services – Banking Services are comprised of the Authority provided depository accounts into which merchant and other deposits are made. The Authority has selected and contracted with a Banking Services provider.		
	· Merchant Services – Contractor-provided merchant services are comprised of the payment processor and acquiring bank.		
	· Refund Account(s) – Bank Account(s) from which customer refunds are made. The Refund Account(s) is part of the Authority's Banking Services.		
	· Lockbox – The Contractor may elect to provide and use a Lockbox Service Provider to receive and process all mailed payments related to customer accounts and Violations.		
	The Authority will retain ownership of the Bank Accounts and will provide the Contractor with the necessary access to act and transact on behalf of the Authority. The Contractor will provide the Merchant Service Provider; the Authority will be the merchant of record for all Merchant Service Providers.		
235	The Contractor shall reconcile the BOS reports to the bank, all customer payments, Lockbox (if applicable) and merchant accounts on a daily basis.		
236	The Contractor shall utilize the Authority's Banking Services and Contractor's MSPs to fulfill the requirement(s) of the bank and MSPs.		
237	The Contractor shall utilize and manage the Authority refund process and associated Refund Account(s) to disburse customer refunds which require the issuance of a check. The Contractor shall reconcile and report on the refund activities.		
238	The Contractor shall coordinate with the Authority-provided armored services with daily pickup at the I-405 CSC and WIC.		
239	The Contractor shall manage a Refund Account from which they will issue checks for the Authority.		
240	The Contractor shall issue all refunds, including checks.		
241	The Contractor shall process any Lockbox Exceptions transmitted by the Lockbox Service Provider within the same day the payment was received from the customer.		
1.2.14. Closing Procedures			
242	The Contractor shall perform closing procedures in an accurate and timely manner in accordance with the Performance Measures, including but not limited to:		
	· perform Posting Day close to finalize counts and revenue for the Revenue Day;		
	· perform month-end close on the last Posting Day of the calendar month and · perform year-end close on the last Posting Day of the Fiscal Year.		
1.2.15. Escheatment (unclaimed property)			

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
243	The Authority follows statutory requirements with regard to uncashed checks issued as a form of refund to customers, violators and other funds deemed unclaimed by the Authority.		
244	The Contractor shall work with the Authority to follow the Escheatment process.		
245	The Contractor shall maintain a register of all uncashed checks. The register shall indicate an unique identification number, such as account number or violator ID number, the name, address, check #, amount of check, check issue date, reason for check issuance, check reversal date, and reason for reversal, if applicable.		
246	The Contractor shall provide the Authority with lists of the uncashed checks eligible for Escheatment and those that have completed the Escheatment process.		
247	The Contractor shall provide information and conduct research as requested by the Authority related to uncashed checks and unclaimed funds.		
248	The Contractor shall reissue checks at the Authority's direction.		
249	The Contractor shall identify the funds as Escheated in the BOS as directed by the Authority.		
250	Prior to Escheatment, the Contractor will advertise a Notice of Publication of Unclaimed Funds that will run once a week for two (2) weeks.		
251	When no inquiries are received, the checks will revert back to the Authority. The Authority will provide the Contractor with a list of funds to either reissue a check for or to revert back to the Authority.		
1.2.16. Write-Offs			
	The BOS will provide the capability for the Contractor to monitor, conduct, and report on Write-Offs of unpaid balances or aged amounts.		
252	The Contractor shall develop a Write-Off procedure that complies with legislation and the Authority's policies.		
253	Contractor shall configure BOS to perform automatic Write-Offs based on the Business Rules for unpaid balances which meet the Approved criteria.		
254	Contractor shall monitor the automatic Write-Offs performed by the BOS and report on these to the Authority on a monthly basis.		
1.2.17. Reconciliations			
	The Contractor shall be responsible for the management of the financial operations of the CSC, including the balancing and reconciliation of all Financial Transactions.		
255	The Contractor's balancing and reconciliation activities, which shall be provided to the Authority on a weekly and monthly basis, shall include but are not limited to:		
	· perform daily balancing and close-out of all shifts;		
	· perform daily balancing of all mailed-in payments;		
	· perform daily and monthly reconciliation of all Bank Accounts;		
	· perform daily and monthly reconciliation of all merchant account activity and fees, including but not limited to Credit Cards and Debit Cards and		
256	· perform daily and monthly reconciliation of all Lockbox activity.		
	The Contractor shall develop a process for identifying, reporting and resolving all errors and discrepancies, which shall be included in the Operations Plan.		
	The Contractor shall perform other financial and transactional reconciliations in an accurate and timely manner, to be provided to the Authority for review, in accordance with the Performance Measures, including but not limited to:		
	· perform daily, monthly and annual reconciliation of all transactions;		

Volume III CSC Operations

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
257	· perform daily, monthly and annual reconciliation of all Interoperable Agency transactions;		
	· perform daily, monthly and annual reconciliation of all transactions placed at a Collection Agency;		
	· perform daily, monthly and annual reconciliation of all Third-Party Service Provider payments and		
	· perform quarterly reconciliation and analysis of accounts receivable for the purpose of recording a provision for uncollectible accounts receivable journal entry.		
258	The Contractor shall perform monthly reconciliations of all Financial Accounts, including roll-forward schedules from prior periods, which will be provided to the Authority for review.		
259	The Contractor shall reconcile all payments received from all payment channels within one day of posting to the system. This shall include the identification and resolution of all reconciliation discrepancies.		
260	The Contractor shall perform reconciliations, including but not limited to:		
	· detailed reconciliation of transactions/trips and revenue, by facility and transaction type;		
	· Bank Accounts;		
	· refunds by refund type;		
	· prepaid account balances;		
	· transponder deposits;		
	· aged accounts receivable;		
	· fees revenue;		
	· penalties;		
	· Write-Offs;		
	· payment transactions and		
	· other cost items and revenues.		
1.2.18. Financial Reporting			
	The Authority reports on a Fiscal Year beginning July 1 and ending June 30. As a public-sector entity, the Authority's basic financial statements are presented in compliance with pronouncements in accordance with the Governmental Accounting Standards Board (GASB) and in conformity with GAAP.		
	While most Financial Transactions are captured automatically through the BOS, some level of manual entry may be required. Reports, including electronic reports and data exports from the BOS, are the primary means by which the Authority will capture financial information related to the operation of the CSC. The financial reports consist primarily of various BOS-generated reports which summarize the financial and operational performance of the CSC. While most reports are automated, the Contractor is expected to provide manual reports for information that is not automated as requested by the Authority.		
261	The Contractor shall utilize BOS-generated reports Approved by the Authority to fulfill reporting needs as described in the Reporting and Reconciliation Plan.		
262	The Contractor shall provide all financial reconciliation and reports to the Authority in a timely manner, but no later than the date(s) prescribed in the Performance Measures.		
263	The Contractor shall provide all data to the Authority in compliance with pronouncements issued by GASB and in conformity with GAAP.		
264	The Contractor shall perform ongoing review of reports at a frequency sufficient to guarantee all reports balance and reconcile to related reports.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
265	The Contractor shall balance, reconcile and verify the content of the reports, including but not limited to:		
	· daily receipts report (by payment method, payment channel and transaction type, including disbursements);		
	· monthly receipts report (by payment method, payment channel and transaction type, including disbursements);		
	· bank reconciliations;		
	· prepaid toll balance;		
	· refunds;		
	· payments to DMVs and other Registered Owner of Vehicle (ROV) Lookup Provider for lookup and Registration Hold fees;		
	· negative balance prepaid customer report;		
	· transaction aging report;		
· customer aging report for Violation Notices, fees, etc.;			
· monthly adjustment report as required by the Authority and			
· transponder inventory reconciliation.			
266	The Contractor shall enter journal entries, check payments and other Financial Transactions into the Authority's general ledger systems on a daily, weekly and monthly basis.		
267	The Contractor shall, at the request of the Authority, provide new vendor setup, including soliciting and providing W9 of the new vendor and setting up vendor information in the Authority's accounting systems.		
1.2.18.1. Audits			
1.2.18.1.1. SSAE-18 Type II Audit			
	The Contractor shall engage an independent auditor to perform an SSAE-18 Type II audit to cover the operations of the CSC and provide the resulting SOC1 report to the Authority. The auditors have a fiduciary duty to the Authority; however, the coordination of the audit, including managing the audit and related requests, managing interviews with staff, and the preparation of any supporting documentation or schedules shall be the responsibility of the Contractor.		
268	The Contractor shall engage an independent auditor, which has been Approved by the Authority to perform the SSAE-18 Type II audit.		
269	The selected independent auditor shall be experienced and widely recognized in the United States for performing these types of audits. (i.e., the selected audit firm shall perform a minimum of ten (10) such similar audits each year).		
270	The Contractor and auditor shall mutually agree on an audit plan, which shall be provided to the Authority for Approval, including regularly scheduled meetings.		
271	The audit shall cover the period of April 1 to March 31 annually, supplemented by a bridge letter covering the period of April 1 through June 30 annually, with the first year covering the Agreement start date through March 31 and the last year covering April 1 through the end of the Agreement Term. The audit periods are deliberately set to include an offset and a bridge letter so that the Authority's auditors have the SOC1 report in time to start their audit work.		
272	The final SOC1 report shall be provided to the Authority no later than June 30 each year.

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
273	The Contractor shall comply with all changes to requirements under SSAE-18; in the event SSAE-18 is replaced by a new standard, the new standard shall apply and in the event the SOC1 is replaced by a new reporting form, the Contractor shall submit the new reporting form.		
274	The Contractor shall promptly comply with all audit requests.		
275	The Contractor shall promptly notify the Authority of any concerns raised by the auditors, including but not limited to:		
	· any asserted weaknesses;		
	· limitations on audit scope;		
	· the auditors' inability to carry out the audit;		
	· the Contractor's inability to carry out the audit;		
276	· any projected cost overruns and		
	· time delays in scheduled audit completion.		
276	If there is a material change to the Contractor's operations, the Contractor shall update the initial SOC 1 report and include it on the update to ensure the Contractor is in compliance with the SSAE-18 attestation standards.		
1.2.18.1.2. Quality Audit			
	The Contractor shall conduct daily quality audits. These audits shall encompass all aspects of the CSC Operation as described in the Quality Plan. The Contractor must develop an audit report and provide it to the Authority monthly.		
277	The Contractor shall conduct daily quality audits in accordance with the Contractor's Quality Plan. All deficiencies identified through the audit process shall be successfully corrected by the Contractor. The findings in the audits will result in a monthly report to the Authority.		
278	The Contractor shall institute any corrective measures and procedural or operational changes as requested and Approved by the Authority as a result of audits at no additional cost to the Authority. Items identified by the Authority as critical shall be corrected immediately. Other items identified by the Authority as non-critical shall be corrected as soon as practicable in accordance with an Approved schedule.		
1.2.18.1.3. Other Audits			
	Other aspects of the CSC are subject to audit by the Authority and/or third parties as well as the Contractor. Results of audits conducted by the Authority and/or third parties, including any prepared audit reports, will be shared with the Contractor, as applicable.		
279	The Contractor shall conduct and/or support the Authority in any Contractor required or Authority led audits relating to the Authority's facilities, toll collection, BOS, and CSC Operations. For example, TIFIA, annual external audits, biennial and triennial audits.		
280	The Contractor shall conduct audits in accordance with the Quality Plan. These audits may include but are not limited to:		
	· internal control procedures;		
	· revenue/transaction reporting;		
	· physical inventory audit;		
	· security audits;		
	· financial audit;		
	· facility inspections and		
	· Authority processing and performance.

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
281	As the accountant for the CSC Operations, the Contractor shall supply the Authority's auditor(s) and management with information and schedules as requested and respond to requests from the Authority or its auditors in a timely manner.		
282	The Contractor shall provide the Authority and their designee(s) access to the CSC for the purpose of conducting their audit(s).		
283	The Contractor shall support the Authority by running reports and making all requested documentation available for review.		
284	The Contractor shall support the Authority by making Contractor employees, consultants and other involved subcontractors and parties available for interview by auditors.		
285	The Contractor shall successfully correct all deficiencies identified through the audit process.		
286	The Contractor shall institute all corrective measures and procedural or operational changes as requested and Approved by the Authority as a result of audits at no additional cost to the Authority. Items identified by the Authority as critical shall be corrected immediately. Other items identified by the Authority as non-critical shall be corrected as soon as practicable in accordance with an Approved schedule.		
1.2.19. Revenue Management			
287	The following forms of payment will be accepted by CSC. The Contractor shall account for, credit to the customers' accounts and deposit into the appropriate Bank Account(s) all payments in accordance with the Performance Measures:		
	· checks (including personal, business, e-check, certified and cashier's checks);		
	· money orders;		
	· cash (United States currency);		
	· Credit Card, including mobile payments and EMV chip integrated circuit card (at in-person locations only) and		
	· Debit Card (PIN-less debit only).		
288	Using the BOS, the Contractor shall accept payments from customers who use any combination of the above payment methods. For example, customers can choose to pay a portion of their balance using a check and another portion using a Credit Card, or using two (2) or more different Credit Cards.		
289	The Contractor shall deposit and post to customer accounts all payments received from all payment channels within the same day the payment was received from the customer.		
290	The Contractor shall deposit any checks received by the CSC electronically using bank-specified check scanners, which shall interface with the bank software.		
291	The Contractor staff shall manually key in check information in the event of a check scan failure.		
292	The Contractor shall manually apply in the BOS any fees which are not automatically applied through the BOS, in accordance with the Business Rules, Operations Plan and SOPs. Examples with these fee types are a returned check fee or a one-time paper statement fee, which must be selected by the user.		
293	The Contractor shall post all customer payments received by operations into the BOS.		
294	The Contractor shall develop a full-cycle chain of custody process (such as, how payments transfer from the mail room to an Authority employee for Posting to the bank for deposit) for all payments and cash balances which shall be included in the Operations Plan.		
	The Contractor shall develop and implement money handling, counting and storage procedures that cover items including but not limited to:		
	· responsibility for all funds until custody of the funds has passed to the Authority;		

Volume III CSC Operations

		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
295	· all monies (checks and cash) collected shall be stored in a safe in a secure area until collected or deposited by the bank;		
	· all money handling, counting and storage shall be performed in a secure area and under dual control at all times and		
	· cash shall not be transported through public areas without appropriate security.		
296	The Contractor shall deposit all monies received into the Authority's Bank Accounts.		
297	On a daily basis, the Contractor shall reconcile, balance and report to the Authority all bank deposits of funds received.		
298	The Contractor shall develop and implement customer refund procedures in accordance with the Business Rules to be included in the Operations Plan.		
299	The Contractor shall remit monies to and collect monies from various parties in accordance with the Performance Measures and Operations Plan. Such remittances may be made by check, wire transfer, or book transfer, and may be made by either the Contractor or the Authority, in accordance with the Operations Plan and shall include but are not limited to payments to and from:		
	· customers;		
	· the Authority;		
	· Interoperable Agencies;		
	· Lockbox Service Provider;		
	· DMV;		
· Collection Agencies and			
· Third-Party Service Providers.			
1.2.20. Paper Document Storage			
	The CSC receives and generates paper documents over the course of daily business. These hard copy documents are scanned into the BOS for easy retrieval and association with applicable accounts and Cases on a timely basis and paper documents are shredded. It is anticipated that document storage needs will be minimal and any required space will be provided by the Authority at the I-405 CSC Facility.		
300	The Contractor shall provide and Approved approach for the handling, storage, scanning and shredding of all paper documentation in accordance with the Security Standards.		
301	The Contractor shall scan all paper documentation into the BOS associating each appropriately with applicable account(s) and Case(s).		
302	The Contractor shall redact information in accordance with the Security Standards, Business Rules, Operations Plan and SOPs on the document prior to scanning the paper documentation into the BOS.		
303	The Contractor shall shred and dispose of all paper documentation after it has been successfully scanned in accordance with the Security Standards.		
1.2.21. Interoperability			
	The Authority is already Interoperable with the other toll agencies in California. Over the life of this Agreement, it is likely that Interoperability will expand to include all U.S. states and regions. The Authority will participate in regional and national Interoperability.		
	The Contractor will work in cooperation with all Interoperable Agencies and CSC facilities, and support the Authority with efforts to provide for efficient and successful operation.		
304	Working with the Interoperable Agencies, the Contractor shall facilitate the resolution of interface related issues or errors.		

Volume III CSC Operations

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
305	The Contractor shall provide financial and transactional reconciliation with Interoperable Agencies.		
306	The Contractor shall participate in periodic teleconferences and meetings related to Interoperability and other Interoperability organizations.		
307	The Contractor shall provide a point of contact for resolution of issues arising with Interoperable transactions/trips and customer service including dispute resolution.		
308	The Contractor shall monitor and manage the electronic file transfers within the BOS as required.		
309	The Contractor shall manage and reconcile Interoperable receivables and payables.		
310	The Contractor shall provide annual Credit Card rate analysis for the Interoperable Agencies and facilities with which the OCTA I-405 will have an agreement to net out Credit Card fees from revenue. The Contractor shall prepare the netting schedule that provides the net amount that the agencies/facilities transmit to each other.		

Volume IV Performance Measures

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
1 Introduction			
	The following describes the Performance Measures for the BOS and CSC Operations. The Authority requires the Contractor to continuously operate the BOS and CSC in accordance with the standards of performance identified in Requirements and these Performance Measures.		
	The Contractor's performance will be both self-monitored and monitored by the Authority and is rated based on the Contractor's ability to meet these Performance Measures, which reflect the minimum performance expected of the Contractor to provide timely and reliable BOS processing and well as the minimum level of customer service.		
1.1 BOS Performance Measures			
	BOS performance will be measured in categories that align with the primary functions of the BOS. The specific method of measuring the Contractor's performance will vary depending on the individual Performance Measure, but will generally be measured either by event, per calendar/Business Day or on a monthly basis. If a Performance Measure is not met, the Contractor is assessed an Adjustment to the monthly fee, based on the calculations described in the table. For some categories, the amount by which the Performance Measure is missed matters in determining how well the BOS is performing, therefore the non-compliance fees increase as the deviation from the Performance Measure increases.		
	Table 1, below, provides the BOS Performance Measures, measurement calculations and Adjustments for the Contractor. The Contractor's monthly invoice will be adjusted by the percentages and amounts shown. Attachment D: Sample KPI Adjustments provides sample scenarios for calculating the monthly KPI Adjustments.		
1.2 CSC Operations Performance Measurement			
	The CSC Operations Performance Measures are tracked and reported to measure the ability of the Contractor to execute the key business processes and SOPs required. The Performance Measures are intended to align with the primary functions of the CSC Operations.		
	Some Performance Measures will be used to measure performance of processes that execute multiple times per day, for example, serving customers at the CSC or via the telephone. Other Performance Measures assess the Contractor's performance on the completion of a specific task, for example the completion of accurate monthly reconciliation and Submittal of the reconciliation documentation to the Authority.		
	The specific method of measuring the Contractor's performance will vary depending on the Performance Measure, but will generally be measured on a per item, daily or monthly basis. Non-compliance with the Performance Measures will result in assignment of non-compliance points, which are used to calculate the monthly Adjustments. This process is described in the following section. Regardless of how a Requirement is measured, the Contractor shall provide monthly reporting for all Performance Measures.		
1.2.1.1 Performance Scorecard			
	For CSC Operations performance measurement, each Performance Measure is assigned a weighted non-compliance point value. The value of the non-compliance points assigned depends on the severity of the failure and its potential impact on the Authority's business.		

Volume IV Performance Measures

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
	The Contractor shall develop Performance Measure reports, including the Monthly Performance Scorecard. Failure to comply with the Performance Measure will result in the associated non-compliance points being applied to the Contractor's Monthly Performance Scorecard. If the accumulated non-compliance points reach a specified threshold, the Contractor's invoice for the month will be adjusted by a percentage of the total invoice value, as shown in Table 3.		
	Table 2, below, provides the BOS Performance Measures, measurement calculations and Adjustments for the Contractor. The Contractor's monthly invoice will be adjusted by the percentages and amounts shown.		
	Attachment D: Sample KPI Adjustments provides sample scenarios for calculating the monthly KPI Adjustments.		
1.3 Non-Compliance Performance Adjustments			
	The Contractor's performance score will be determined each month by adding the points assessed for non-compliance as described above. A performance Adjustment will be made in each month that the Contractor exceeds the allowable number of non-compliance points up to a maximum monthly Adjustment. The invoice Adjustment will be exclusive of any pass-thru costs.		
1.4 Escalation			
	Non-compliance points will accrue as follows:		
	The first month that a specific Performance Measure is not met will result in the assessment of the initial value of the associated non-compliance points assigned in Table 3.		
	If a specific Performance Measure is not met for a second consecutive month, the non-compliance points assessed for that failure will be doubled for that month.		
	If a specific Performance Measure is not met for a third consecutive month and for all subsequent consecutive months thereafter, the non-compliance points assessed for that failure will be tripled for that month.		
1.5 Corrective Actions			
	Failure to meet a Performance Measure does not relieve the Contractor of the Requirement to complete the activity associated with the Performance Measure. The Contractor shall identify the failure condition, take immediate action to remedy the condition and ensure that corrective action is taken to prevent repeated failures in the future. This will be documented in a Corrective Action Plan (CAP). For example, if the Contractor fails to completely and accurately resolve 100% of the customer requests within the time required by the Performance Measure, the unresolved customer requests must still be completely and accurately resolved and the Contractor must identify the root cause of the failure, the extent of the problem and provide a plan to prevent future occurrences. The Contractor must complete activities in a first-in, first-out order (FIFO). Skipping prior day's work in order to catch up with a Performance Measure will not be allowed.		
1	The Contractor shall identify the failure condition, take immediate action to remedy the condition and ensure that corrective action is taken to prevent repeated failures.		
2	Failure to meet a Performance Measure shall not relieve the Contractor of the Requirement to complete the activity associated with the Performance Measure. Any failure to meet a Performance Measure that requires the completion of a specific action(s), for example completing daily reconciliations or completing image review correctly, which is not completed in accordance with the Requirement, shall not relieve the Contractor of the responsibility to perform in accordance with the Operations Plan and the Requirements.		

Volume IV Performance Measures

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
3	If a Performance Measure involving completing work in certain period of time is missed, the work shall be completed in order, such that the oldest work is completed before starting any newer work. The Contractor shall not skip any prior work and process new work to avoid a subsequent Performance Measure Adjustment.		
4	The Contractor shall develop a Corrective Action Plan (CAP) for each failure to meet a Performance Measure identifying the root cause(s), the extent of the problem and providing a plan to rectify the current situation and prevent future occurrences. For example, if the Contractor fails to completely and accurately resolve customer requests within the time required by the Performance Measure, the unresolved customer requests shall be completely and accurately resolved and the Contractor must identify the root cause of the failure, the extent of the problem and provide a plan to prevent future occurrences.		
5	The Contractor shall submit the CAP to the Authority for review and Approval.		
6	The CAP provided by the Contractor shall be in a format Approved by the Authority as part of the Operations Plan.		
1.6 Non-Chargeable and Chargeable Failures			
	For purposes of calculating Performance Measures, chargeable and non-chargeable failures are defined as follows:		
	· Non-chargeable failures are those failures identified in the following section. Adjustments will not be assessed for non-chargeable failures.		
	· Chargeable failures are any failures not specifically identified as non-chargeable. Adjustments will be assessed for chargeable failures.		
1.6.1 Non-Chargeable Failures			
7	Non-chargeable failures are limited to:		
	· Force Majeure, as defined in the Agreement;		
	· BOS failures caused by environmental or operating conditions outside of those that the Contractor controls as established in the Requirements;		
	· Preventive Maintenance as allowed in the Maintenance Plan and failures that are the responsibility of other contractors and Third-Party Service Providers that are not contracted through or provided by the Contractor as determined by the Authority.		
1.6.2 Chargeable Failures			
8	Chargeable failures shall include any failures not specifically identified as non-chargeable.		
1.7 Performance Reporting			
	The Contractor is required to provide the Authority a Monthly Operations Report that includes the Contractor's Performance Reports and Monthly Performance Scorecard. The Contractor's Performance Report will include a series of reports detailing the Contractor's performance against each Performance Measure and details related to the failure events that resulted in the non-compliance. The Contractor's Performance Report shall contain all information necessary for the Authority to verify the Contractor performance as reported by the Contractor.		
9	The Contractor shall prepare and submit to the Authority the Performance Reports as part of the Contractor's Monthly Operations Report on an agreed-upon day each month as defined in these Requirements.		

Volume IV Performance Measures

No.	Requirements	Required Inputs	
		Compliance	Comments
		Y - Yes N - No	If "Compliance = N" then Proposer must provide an explanation in this column
10	The Performance Report shall include: 1) a Monthly Performance Scorecard calculating the non-compliance points assessed that month, if applicable; 2) a series of reports that is comprised of one (1) report per Performance Measure, detailing the Contractor's performance against the Requirement that month supporting the Monthly Performance Scorecard for each Performance Measure, and 3) a historical report detailing the Contractor's performance against each Requirement for the most recent 13 months. Copies of all CAPs related to failures for that month must be included.		
11	The Contractor shall provide the required Monthly Operations Report to the Authority before an invoice will be considered for payment.

Orange County Transportation Authority

1 CHAIRMAN ANDREW DO: So that wraps our
2 consent calendar. We move on now to Item Number
3 16.

4 KIRK AVILA: Good morning, Mr. Chairman
5 and members of the Board. I'm Kirk Avila,
6 general manager of OCTA's Express Lanes programs.

7 I'm here this morning to go over the
8 recommendations for the 405 Express Lanes back-
9 office system and customer service center
10 operations procurement.

11 Next slide, please. Before I discuss
12 the recommendations, I wanted to provide the
13 Board with some background and details on the
14 types of services we are procuring.

15 About a year ago in June 2020, the
16 Board approved the evaluation criteria and
17 waiting's for the procurement, and authorized the
18 release of the request for proposals for the
19 back-office system and customer service center
20 operation services for the 405 Express Lanes.

21 The 405 Express Lanes are being built
22 as part of the larger 405 improvement project
23 that began construction back in 2017. This
24 procurement and many other services being
25 procured are similar to the recently completed

1 back-office system and customer service center
2 operations procurement for the 91 Express Lanes.
3 The 91 Express Lanes procurement was completed in
4 2019.

5 In developing the scope and the
6 procurement documents for the 405 Express Lane,
7 the OCTA worked with HNTB, who serves as the
8 project management consultant for the 405, and
9 used the 91 Express Lanes document as a starting
10 point for the development.

11 A couple of difference between the 405
12 and 91 procurements include the 405 as a
13 federalized project and therefore has a
14 (indiscernible), and the 91 procurement was a
15 joint procurement with RCTC, which we will be
16 splitting the costs with them for the 91.

17 The 405 Express Lanes are projected to
18 open in the fall of 2023, providing a two-year
19 period for the selected contractor to design and
20 implement the new system. This is a typical
21 period of time provided to contractors prior to
22 an opening or transition of services.

23 Next slide please. For this next
24 slide, I wanted to take a moment and highlight
25 the major procurements we have completed and

1 still need to complete for the 405 Express Lanes.

2 I mentioned the 405 Express Lanes as
3 part of the 405-improvement project, the design-
4 build team of OC 405 partners was selected and
5 approved by the Board in November of 2016. In
6 2018, the Board took action and selected Kapsch
7 TrafficCom USA to provide the in-lane system,
8 electronic signage, cameras, and traffic
9 operations, and our staffing for the 405
10 corridor.

11 The procurement we're discussing today
12 is highlighted here in yellow, and I'll get into
13 the details of these services on the next slide.

14 Lastly, we'll be requesting the Board
15 release the procurement for the roadway services
16 in spring of 2022. These services include
17 providing roadside assistance to our customers,
18 which include fixing flat tires, providing gas,
19 and escorting vehicles to a safe area.

20 Next slide please. This next slide
21 highlights some of the major areas of this
22 procurement, and I'll highlight some of them.

23 The procurement includes the design,
24 development, implementation, and maintenance of
25 the back-office system. The back-office system

1 is a core function of the 405 Express Lanes, and
2 its functions are many. It retrieves data from
3 the in-lane system and charges the appropriate
4 toll fee to the customer's account or establishes
5 a violation for the trip, if applicable.

6 The back-office system also has the
7 ability to interact with the 405 Express Lanes
8 website; inventory system for the transponders,
9 the phones, interactive voice response system
10 component; and interfaces with the credit card
11 processing agencies and collection agencies. The
12 procurement includes the hardware and software to
13 support the systems provided.

14 Customer service includes providing
15 staffing for the walk -- the call and the walkup
16 center where customers can address account or
17 violation issues.

18 Violation processing and collections
19 involve dealing with the users of the facility
20 who don't have an active account, issuing
21 notices, and transmitting files to a collection
22 agency.

23 Revenue collections and transaction
24 processing includes ensuring that transactions
25 are properly posted to customer accounts, and

1 revenues are deposited in our bank account.

2 The selected vendor will also be
3 responsible for providing and supporting the
4 telephone system which includes the hardware and
5 software system associated with the IVR system
6 and the contact center system, which allows for
7 calls to be distributed to agents based upon the
8 (indiscernible) or violation.

9 Next slide please. This next slide
10 provides information on the results of the
11 procurement. The RFP was released in early
12 December of 2020, and a preproposal conference
13 was held in early January 2021. Responses were
14 submitted in late March 2021, and an evaluation
15 committee was created that includes staff members
16 from other tolling entities plus representatives
17 from OCTA's Express Lanes program.

18 In total, we had four different
19 agencies represented with tolling experience on
20 the evaluation committee. These subject matter
21 experts only evaluated the technical component of
22 the proposal, everything but the cost. The cost
23 was added to the evaluation scoring after the
24 review was completed.

25 Three proposals were received, and two

1 firms were interviewed. The firms were Cofiroute
2 USA and WSP USA Services. The evaluation
3 committee recommends the selection of WSP USA
4 Services after reviewing the written proposals,
5 the interview process, and the best and final
6 offer submission.

7 The WSP bid was not the lowest price,
8 and I'll go over costs on the slide in the next
9 couple of minutes. Despite the higher cost, the
10 evaluation team recommends award of the contract
11 to WSP for the following reasons.

12 WSP has teamed up with electronic
13 transaction consultants or ETC with ETC providing
14 the back-office system, and TTEC Government
15 Solutions providing the Omni channel
16 communications platform.

17 WSP team has a large and diversified
18 portfolio of back-office systems, tolling
19 deployment, and customer service center
20 operations. These include clients in Colorado,
21 Minnesota, Washington, Texas, Louisiana, Georgia,
22 and Utah. The WSP team proposed staff that are
23 highly qualified and have direct relevant
24 experience with the project's (indiscernible).

25 The project manager assigned to the 405

1 has 15 years of tolling experience working in San
2 Diego on the I-15 Express Lanes. In addition,
3 this person has also worked on OCTA's 91 Express
4 Lanes project and on the 405 in-lane toll system
5 implementation.

6 The tolling software technology manner
7 for -- technology manager for the back-office
8 system has delivered 11 major tolling projects
9 around the country. The customer service center
10 manager has experience working at LA Metro at
11 their call center where they were responsible for
12 a staff of over 130 people.

13 All proposed key personnel for WSP have
14 at least 10 years tolling experience, and key
15 personnel at ETC have 17 years' experience. The
16 majority of WSP's key personnel show 100 percent
17 availability and commitment to the 405 project.

18 WSP's team highlighted their integrated
19 back-office system solution and their experience
20 deploying cloud-based solutions. Their back-
21 office systems integrated with the interactive
22 voice response system, the website, and other
23 platforms such as chat, e-mail, social media.

24 WSP's team emphasized innovation and
25 robustness of back-office solutions by providing

1 an extensive library of prebuilt and ad hoc
2 report templates, and the proposal included
3 additional safeguards around customer data.

4 WSP's back-office system and customer
5 service center approach is customer-centric,
6 emphasizing optimization of the customer
7 experience and satisfaction with the diversified
8 workforce and an emphasis on securing customer
9 data.

10 Next slide please. The proposed cost
11 for the shortlisted firms is provided on this
12 next slide along with the comparison to the
13 independent cost estimate. This slide drills
14 down on the differences between pricing by each
15 of the firms.

16 Line 1 indicates -- or Line 1 includes
17 the next two years of implementation for the
18 back-office system. There's a 1.6 million cost
19 differential between the firms.

20 Lines 2 and 3 cover the operations and
21 maintenance period after the opening of the 405
22 Express Lanes, separated by back-office operation
23 and maintenance on Line 2, and customer service
24 center operations and maintenance on Line 3.

25 If you combine the amounts on Line 2

1 and 3 for each of the firms, there is about a 5.5
2 million differential between the firms.

3 You can see from the table that there's
4 large differentials in the pricing for each
5 category for each of the firms. The gap is due
6 to the different approaches the proposers use in
7 building their respective pricing proposals. It
8 appears that one firm priced by function, the
9 back-office system activities versus customer
10 service center activities, whereas the other firm
11 priced by company.

12 What we can see from the proposals is
13 that Cofiroute had a higher operations and
14 maintenance cost with a back-office system, and
15 WSP had a higher cost of the customer service
16 center operations and maintenance. The key
17 difference in the 5.5 million cost differential
18 from the combination of Lines 2 and 3 was due to
19 the fact that WSP is providing more labor with
20 higher wages for the customer service center and
21 operational function, as you can see from the
22 footnote at the bottom of the slide.

23 The initial term covers a six-year
24 period after go live plus an approximate two-year
25 period of implementation prior to the go-live

1 period, so a total of approximately eight years.
2 Option Term 1 covers a three-year period, and
3 Option Term 2 covers a two-year period.

4 In total, the cost listed on the bottom
5 of the slide is for a 13-year period. The Board
6 will only be approving the initial term. There
7 is an approximate \$8 million cost differential
8 between the two firms during the initial term,
9 and about a \$5.4 million cost differential for
10 the total 13-year term of all option years are
11 exercised.

12 Next slide please. Staff
13 recommendations are listed on this next slide.
14 Based upon the work performed by the evaluation
15 committee, staff recommends that the Board
16 approves the selection of WSP USA as the firm to
17 provide the back-office system and customer
18 service center operations for the 405 Express
19 Lanes.

20 The second recommendation is to
21 authorize the CEO to negotiate and execute
22 Agreement No. C-0-2690 between the OCTA and WSP
23 USA Services Inc., in the amount of \$110.98 to
24 provide the back-office and customer service
25 center operations services for the 405 Express

1 Lanes for an initial term up to eight and a half
2 years, with one three-year, and one two-year
3 option terms.

4 Next slide please. If approved by the
5 Board, staff will work to finalize the contract
6 and issue notice to proceed with the selected
7 firm. Once the new agreement is executed and NTP
8 is issued, staff will work with the selected
9 contractor on the design documents, attend
10 workshops, and provide input and assist with the
11 development of the new operational system over
12 the next few years.

13 In the coming months, staff will return
14 to the Board with a recommendation for a location
15 for the customer service center and operation
16 center for the contractor staff. We are
17 currently reviewing various lease and buy
18 options.

19 As mentioned earlier in the
20 presentation, we will seek the Board approval for
21 the release of the roadside services RFP in 2022.
22 These services will be in place prior to the
23 opening date of the 405 Express Lanes in fall of
24 2023.

25 Mr. Chairman and Board members, that

1 concludes my presentation. I'd be happy to
2 answer any questions. Thank you.

3 CHAIRMAN ANDREW DO: Thank you, Kirk.
4 I'm not seeing any hands raised. Let me start
5 with a few comments.

6 From my experience on different
7 agencies as well as at the county, software is
8 probably the most difficult to implement, and to
9 have a system that customized and then be
10 expected to run smoothly from day one is a
11 challenging task.

12 And then when you -- and balance that
13 out with having to deal with multiple partners to
14 run different functions of an operation, that
15 increases the complexity exponentially,
16 increasing the risk of not having things work
17 that well increase significantly.

18 I also want to -- us to think about the
19 challenges that we have had sometimes with
20 vendors, some of whom we deal with today, and put
21 in context that when we have a vendor we have
22 been working with for close to 20 years, that had
23 been providing good service, never any complaint,
24 no change order, from time to time. I think that
25 type of track record should, you know, should be

1 a significant thing that we want to focus on.

2 And when you break down the scores
3 between the two finalists, the difference isn't
4 great. And what I notice is the difference is
5 mostly based on subjective preferences as far as
6 the features that staff feels that may be
7 beneficial in the future to incorporate, but that
8 wasn't part of the RFP necessarily, so that kind
9 of depends on how proactive someone is in putting
10 that kind of information on an RFP.

11 But on the core function that was
12 covered by the RFP, staff will I think -- in my
13 conversation anyway -- indicated to me that both
14 of the finalists, WSP and Cofiroute, are capable
15 of doing the work. And if necessary, Cofiroute
16 can also scale up to be able to provide the
17 amenities that we want.

18 And so I just want to put that out
19 there that I know we -- probably most of us have
20 met with WSP already, and a lot of assurances
21 have been given to us as to future performance.
22 But I think what we have today, what we have
23 enjoyed from Cofiroute, like I said, close to 20
24 years of good experience should count for
25 something.

1 So I want to start off discussion with
2 those comments, and I will now look for hands
3 raised.

4 Supervisor Chaffee

5 SUPERVISOR DOUG CHAFFEE: Yes, thank
6 you. I noticed the contract itself was not
7 attached. Is that going to be provided to us
8 separately at a later date?

9 MAN 1: Mr. Chairman, as part of the
10 RFP process that the Board approved previously,
11 the draft contract was included at that point, so
12 our policy states that we would not make changes
13 to that that are substantive in nature. So the
14 contract was presented to the Board with the RFP
15 release.

16 SUPERVISOR DOUG CHAFFEE: Okay. I'm
17 sorry. That was some time ago, and I don't
18 remember all the provisions and how that might
19 relate to the selection made.

20 I was concerned when I learned about
21 the recommended vendor being late on a provision
22 with the state of Washington, and apparently they
23 paid a penalty, and then some unhappiness with
24 their services in both Florida and Texas. I
25 wonder if any of the negatives are actually

1 investigated by the RFP committee.

2 MAN 1: Mr. Avila?

3 KIRK AVILA: Yes. Director Chaffee,
4 Kirk Avila, general manager. Yeah. So the
5 reference checks are part of the evaluation
6 committee, and I'll defer to the director of the
7 procurement in a second.

8 But the evaluations are part of the --
9 references are part of the evaluation committee.
10 Reference checks are done. In this particular
11 instance, I believe -- and I'll defer to the
12 director of contracts. I believe there were 10
13 reference checks that were done, including the
14 one in Washington as well.

15 So Pia, would you like to comment on
16 the different reference checks that are done for
17 procurement?

18 PIA VEESAPEN: Yes. Good morning, Mr.
19 Chairman and members of the Board. Pia Veesapen,
20 director of CAM.

21 We did conduct several reference
22 checks, as this is the process -- part of the
23 procurement process and evaluation, and we did
24 reach out to all the reference checks provided by
25 (indiscernible) also provided reference checks

1 for their subcontractor as well.

2 So in this case, WSP provided reference
3 for the E-470 Public Highway Authority. The
4 positive references came back, said that WSP was
5 easy to work with, always open to improvement,
6 and worked with the organization to collectively
7 reach the organization's mission.

8 We also contacted Illinois Tollway, and
9 it was indicated the WSP is always responsive,
10 practice in meeting their needs, and their
11 expertise and knowledge based on their industry
12 and technical issues were superb.

13 We also reached out to Northwest
14 Parkway, and WSP continuously supports their toll
15 operations services, so they had a mutually
16 supportive working relationship between all
17 levels of their organization.

18 As far as ETC, we spoke with
19 individuals from the Harris County Toll Road
20 Authority, and ETC's project with the back-office
21 implementation, the project team was large, and
22 involvement ranged from their CEO to their
23 development staff, and their overall performance
24 was good. They had some responses to changes as
25 well as addressing issues, and it was indicated

1 that ETC's technical abilities are strong, and
2 management did a great job on that.

3 Same thing with Cofiroute. Received
4 some reference back from Riverside County
5 Transportation Commission in that Cofiroute did
6 an excellent job on their RCTC and 91 Express
7 Lanes as well as positive comment coming back
8 from the Central Texas Regional Mobility
9 Authority.

10 So pretty much all the references came
11 back very positive.

12 SUPERVISOR DOUG CHAFFEE: Did you check
13 with the Washington State Department of
14 Transportation regarding the penalty paid by the
15 vendor for delay in implementation?

16 PIA VEESAPEN: Yes, we did. The
17 comments we received from the Washington State is
18 that in the beginning, there was - it was a rough
19 beginning, and Washington State said that the
20 issues were not all on ETC. The agency had some
21 of their own issues, but ETC pulled it together
22 towards the end, and now they have a great
23 working relationship.

24 SUPERVISOR DOUG CHAFFEE: Okay. Well,
25 thank you for clarifying that. I was concerned

1 that they had to pay a penalty for the startup
2 delays.

3 I think I would like to have the
4 comfort of going with the vendor that has worked
5 with us for so long and has performed superbly.
6 I see less risk in that than going to a totally
7 new vendor, and the issue of having two separate
8 vendors on a similar claim, one on the 405, one
9 on the 91. I would feel more comfortable if they
10 were they same, and so I would -- I'm probably
11 going to vote no on this, so I think you for your
12 comments. I appreciate carrying some of the
13 points that were of concern to me.

14 CHAIRMAN ANDREW DO: Okay. Supervisor
15 Bartlett?

16 SUPERVISOR LISA BARTLETT: Thank you,
17 Mr. Chair.

18 So both of these vendors -- I've done
19 some research -- are excellent. One is our
20 current vendor, and the new vendor is a good
21 company as well.

22 I'm curious as to get staff's input, so
23 Kirk, if you could elaborate. Relative to --
24 they take a different approach. One firm took
25 the approach to identify and put financial and

1 other resources into the back office, and the
2 other flipped it and decided to put all of the
3 financial resources and person resources into the
4 customer service, so completely different
5 approaches. Can you give us the rationale for
6 each company's thought process relative to that?

7 KIRK AVILA: Yes.

8 SUPERVISOR LISA BARTLETT: And why they
9 thought it was more important to do one versus
10 the other, and then the other one flipped?

11 KIRK AVILA: Yes, Director Bartlett,
12 I'll approach that. It's not that they put all
13 their resources in a particular area. I believe
14 it was the way they responded to the pricing
15 component of this sheet.

16 And as I mentioned, when they looked at
17 the pricing, one firm did it one way. The other
18 firm did it a different way. It's not that
19 they're putting -- although WSP team does have
20 more people allocated to their customer center --
21 I did mention that -- but with respect to the
22 pricing, there's a little bit different approach
23 that each of the firms took.

24 I'm going to refer to Dan Baker really
25 quickly on that from HNTB. He provided

1 assistance in reviewing the pricing scoring
2 sheet. And Dan, can you address really quickly
3 how each of the term -- each of the firms
4 approached the pricing of the pricing seats for
5 responding to proposals?

6 DAN BAKER: Yes, I can. And thank you,
7 Chairman and Board, for letting me be part of the
8 meeting today. I'm Dan Baker. I'm with the
9 project management consultant group.

10 So what I was explaining to Kirk,
11 there's obviously a large difference in two
12 categories in the pricing. One was in the back-
13 office system administration -- and these are two
14 categories that begin after implementation.

15 The implementation costs, as you saw in
16 the presentation, were within one point some
17 million of each other, relatively close. But
18 there was a huge differential in two categories,
19 one in the back-office administration category,
20 and one in the CSC category. One to do with the
21 system and its operation and one more to do with
22 the customer service center operations and
23 typically more labor.

24 Okay. So in the original pricing,
25 Cofiroute was at 50 million on the back-office

1 system administration, and WSP was at 18 million.
2 In the CSC operations category, Cofiroute was at
3 33 million. WSP was at 71 million, so a large
4 discrepancy.

5 So what I did was go in and do -- but
6 it wasn't an apples to apples. They put
7 different things in different categories. And
8 the bottom line is WSP is delivering more
9 technology as part of CSC operations, so they --
10 and their pricing for CSC operations, they're
11 pricing the customer contact system. They're
12 pricing people doing QA. They're pricing people
13 doing system administration of the customer
14 contact system. Okay.

15 Those costs -- and Cofiroute's are over
16 on the system side. All the system labors and
17 services are pretty much over there.

18 So when I did that -- when I did a --
19 to try to bring them into alignment, I took from
20 WSP the typical systems and labor that we would
21 see on the systems side, and that was about \$22
22 million worth of adjustments.

23 So after that adjustment, the post-
24 adjustment numbers were Cofiroute was at 50
25 million for the system administration, and WSP

1 was at 40 million, a much -- so they went from 18
2 to 40 once I took those and better aligned for an
3 apples-to-apples comparison the labor and the
4 systems.

5 Likewise, on CSC operations, it went
6 from 33 -- it went from a differential of 33
7 million to 71 million, to a different of 33
8 million to 48 million. And even after the
9 changes, as Kirk mentioned, there remained some
10 items that were the reason for the cost
11 differentials, okay, and so we identified them.

12 On the Cofiroute side, there was things
13 such as escrow, and bonding, and insurance, and
14 some higher labor rates on the system side, and
15 then for Cofiroute, there remained -- they had
16 more people, and people are -- over the term of a
17 long-term contract -- are a high-expense item.
18 WSP had higher costs with their consumables and
19 with the facilities and things like that, and
20 they had the -- and they had the higher labor
21 rate on that side.

22 So those things can -- were the primary
23 contributors to the -- to the deltas that
24 remained after we -- but after the adjustment,
25 they were much more in line than they were

1 previously, if that makes sense.

2 SUPERVISOR LISA BARTLETT: Okay. That
3 does. Thank you. But -- so Kirk and Dan, second
4 question, relative to the 91 -- so OCTA has 10
5 miles of the 91 Express Lane, and it's
6 essentially that one ingress and egress point.

7 The I-405 project will help multiple
8 ingress and egress points spanning two counties
9 etc. Do you think it -- is it more complex on
10 the I-405, or is it just having to scale up
11 relative to the I-405 project versus the 91
12 Express Lanes as far as complexity, the needs,
13 requirements, the ability to monitor, catch
14 violators, etc.?

15 KIRK AVILA: Director Bartlett, yes.
16 The 405 Express Lanes will -- from a technical
17 aspect will definitely be a little bit more
18 challenging than 91, as you mentioned. For OCTA
19 side, you have one in, one out at the county
20 line. The 405 will have multiple tolling spots,
21 and an ingress and egress.

22 The business rules will be very
23 similar. However, in tracking down violations,
24 we're going to be relying upon switchable
25 transponders for that for the 405 Express Lanes.

1 For the 91, we have a dedicated lane for HOV
2 travel.

3 You have slightly different business
4 rules with respect to the HOV policy on the 91.
5 You have an HOV 3 ride free policy for most of
6 the time with the exception of Monday through
7 Friday, eastbound 4 to 6 p.m.

8 On the 405, you have a different
9 approach on the HOV. The HOV 3s travel for free
10 all times, and then HOV 2s travel for free during
11 the non-peak hours, and those non-peak hours are
12 staggered throughout the week.

13 So there are some differences there,
14 but the complexities are -- there are
15 complexities between the 405 and differences
16 between the 405 and the 91 because of those
17 ingress-egress points and the configuration and
18 design of the 405.

19 SUPERVISOR LISA BARTLETT: Okay. So in
20 your opinion, are both firms capable of handling
21 the increased level of complexities on the I-405
22 project?

23 KIRK AVILA: Yes. Director Bartlett,
24 as Chairman Do mentioned at the outset, staff
25 believes that both firms are capable of handling

1 the services and the scopes required as part of
2 this procurement.

3 But one thing I do want to mention --
4 this is not solely a back-office system
5 procurement. We've decided to combine this with
6 the customer service center component, and the
7 combination of those two make up this
8 procurement.

9 So if -- the back office is key. Don't
10 get me wrong. This back office is very
11 important, but the customer-facing component of
12 this procurement is extremely important as well.
13 You know, we'll have customers using the express
14 lanes on the 405. We'll have violators,
15 unfortunately, that we're going to have to deal
16 with, so those customer-facing or violation-
17 facing components of this procurement are also
18 extremely important in addition to the back-
19 office system.

20 SUPERVISOR LISA BARTLETT: Okay. So
21 one of the differences you're saying is that the
22 91 Express Lanes is pretty much back office, but
23 the I-405 is back office plus customer service.
24 Is that correct?

25 KIRK AVILA: Director Bartlett, just to

1 clarify, the 91 does include the customer service
2 component as well.

3 SUPERVISOR LISA BARTLETT: Okay.

4 KIRK AVILA: That procurement includes
5 that as well, but the complexities are a little
6 bit different with the 405, given the different
7 HOV policies, given the fact -- given the fact
8 that there's no dedicated HOV lane to ingress-
9 egress points, slightly different than the 91
10 Express Lane.

11 SUPERVISOR LISA BARTLETT: All right.
12 Thank you much.

13 CHAIRMAN ANDREW DO: Supervisor Wagner?

14 DIRECTOR DONALD WAGNER: Thank you, Mr.
15 Chairman. I did have an opportunity to meet with
16 the WSP folks. I came away quite impressed with
17 the level of skill, the dedication, the --
18 frankly, the eagerness they have to serve us and
19 to serve us well. But then as I go through the
20 staff report and listen to the presentation
21 today, it doesn't entirely reflect some of the
22 differences and distinctions.

23 I really think you -- you know, you hit
24 on some stuff in your introductory comment that
25 we don't want to lose sight of.

1 You know, I go through the staff report
2 on the last page, or almost the last page, Page
3 24. You've got these bullet options where WSP
4 and ETC are apparently superior in staff's
5 impression than Cofiroute, but, you know, I look
6 at like the very first one. WSP and ETC have a
7 larger and more diverse portfolio. But at the
8 end of the day, we -- OCTA -- we are in
9 Cofiroute's portfolio, and I didn't hear in the
10 presentation, or I don't read in the staff
11 report, any dissatisfaction with the job
12 Cofiroute did with us in its portfolio.

13 We've got a statement in here that the
14 planning, technical, and operational aspects of
15 the work and onsite staff available support the
16 higher price, but nobody's identified
17 shortcomings in Cofiroute in those areas that, to
18 my mind, justify this significant additional
19 increase in taxpayer dollars going to fund this.

20 Nowhere in the report does it say, "Oh,
21 405 is more complicated than 91. It's got more
22 entry and exit points." Really, the only knock
23 on Cofiroute in here is that -- on Page 9 of the
24 staff report, questions remain about the risk
25 involved in Cofiroute's plan to promote employees

1 from within, etc., which isn't a risk ever
2 identified with the 91. It isn't anything that
3 someone has said -- has hurt us with the 91 and
4 Cofiroute's performance in the 91.

5 I just -- you know, I hate to second
6 guess staff, but I just don't think the -- you
7 know, the argument's been made, the loop -- you
8 know, the circle's been closed here to in fact
9 justify bringing on a new vendor, making the
10 kinds of changes that are suggested here.

11 So I'm a little troubled, a little
12 unsure why we are spending all of this extra
13 money without being able to identify the
14 shortcomings on the 91 in Cofiroute's performance
15 with us in its portfolio that justifies making
16 the transition.

17 Thanks, Chairman.

18 CHAIRMAN ANDREW DO: Thank you.
19 Director Hennessey?

20 DIRECTOR MICHAEL HENNESSEY: Got the
21 mute. Thank you, Chairman Do.

22 Colleagues, this was vetted at the
23 finance committee, and I think we spent a lot of
24 time at it and asked a lot of deep questions, and
25 I think we were -- probably had an hourlong

1 discussion on it. And ultimately, it was
2 approved with a unanimous vote in support of
3 staff's recommendation.

4 A couple of things I would just bear in
5 mind as we go forward, things that kind of stood
6 out to me. I want to -- I do want to begin --
7 and I said this at committee, that I think it
8 should be acknowledged that this toll road is
9 arguably -- well, probably is the most successful
10 toll road in the United States and, you know,
11 arguably one of the most successful toll roads in
12 the world, and Cofiroute was our partner in that,
13 and they are part and parcel of that success, and
14 I think they've done a fabulous job for us.

15 That said, we have a different set of
16 circumstances over on the 405. We have federal
17 funding, and we're going to be going out for a
18 competitive bid. And I think we've just got to
19 be clear that if we're going to go out to the
20 marketplace and conduct what we believe is a
21 competitive bid and useful to spend time, effort,
22 and resources, their money, in bidding, that we
23 would give them a fair shake. The criteria ought
24 to be applied equally.

25 And I think in this particular

1 circumstance, the Board approved the criterion
2 that we went out with. If we wanted to sole
3 source -- I don't know -- Kirk, remind me. Could
4 we have sole sourced on this project? Could we
5 have sole sourced this particular endeavor?

6 KIRK AVILA: Director Hennessey, no.
7 This is a federalized project. We have to go
8 through a procurement process.

9 DIRECTOR MICHAEL HENNESSEY: Okay.

10 KIRK AVILA: That's part of the Board's
11 policy with regards to procurement.

12 DIRECTOR MICHAEL HENNESSEY: Okay. So
13 I -- I mean, I personally don't -- if you really
14 want somebody bad enough, and if it's not
15 federalized, and we can do it, I don't -- I'm not
16 opposed to sole sourcing if we think that that's
17 in the best interest of the taxpayer. But in
18 this instance, that's not what we've gotten.
19 That's not what we can do.

20 We went out into the market once and
21 didn't get sufficient response in the marketplace
22 because people assumed that it was just, I
23 believe, just kind of a flat slam-dunk towards
24 Cofiroute. And so we went out again and said,
25 "No, no. It's a real procurement. Let's have a

1 real competition," and we did.

2 And you know, one of my concerns is,
3 you know, if we set the rules of the match, and
4 then we have a fair fight, and you don't like --
5 and somebody doesn't like the result after the
6 fact, I think you don't go change the rules. I
7 think what we do is we say, "Okay. Well, maybe
8 next time we do it a little differently if we
9 don't like the way it came out," but we had a
10 chance to change those rules beforehand, and we
11 didn't.

12 And I've not heard anything so far that
13 tells me that this was not a -- kind of a fair
14 procurement, and that something -- there was a
15 violation in process or something.

16 And so using the standards that the
17 Board approved, they had a procurement, and it --
18 you know, this was the result. That said, you
19 know, certainly there are contractors that we've
20 had great success with on freeway construction
21 projects, and I haven't heard so far yet the
22 logic used that, "Well, we had a successful
23 contractor on a freeway project. Let's give them
24 all the next 12 projects." We bid it each time.

25 And because why? Because competition

1 is good. Competition in the marketplace makes
2 people sharpen the pencils. It makes you not
3 take your customer for granted, and it makes you
4 do your best every time.

5 And so I look at this, and I've looked
6 -- you know, talked with -- and met with both
7 parties. And again, no criticism in here is
8 implied of Cofiroute, but we conducted, you know,
9 interviews with both parties, many of us on the
10 committee.

11 And what I came away with this is that
12 you have folks here that are sophisticated, that
13 are fully capable of doing this. They've
14 actually gotten some innovations I'm very
15 interested in seeing there, seeing them implement
16 as far as, you know, technology and customer
17 interfacing, and improving that customer
18 relationship and being more responsive to our
19 customers. And we could go into that more if you
20 want to, but I think if they've got neat stuff.

21 And if I look forward, you know, this
22 isn't the only procurement we're going to do for
23 tolling. And in the future, we're going to do
24 more tolling procurement, and I like the idea
25 that if WSP is successful, we might have two

1 really good vendors who know us, who work well
2 with our staff, now competing for the next
3 tolling project that we do, or if we end up
4 combining systems.

5 You know, we've got -- now we've got a
6 marketplace of one, and thankfully they've been
7 good. But I think it certainly doesn't put our
8 agency in a bad position to have two credible
9 choices.

10 Now, if we get down the road and we
11 find out that WSP doesn't perform in a fashion
12 that we're happy with, well, that can -- that'll
13 play out in the next procurement.

14 But right now, I've not seeing anything
15 in process that tells me we shouldn't go with
16 staff's recommendation, and I think it will
17 actually leave us in a better position.

18 And I'm certainly -- and I do also want
19 to extend my thanks to the members of the finance
20 committee. They had a really robust dialogue and
21 a debate, and I think members of our committee
22 came in with one point of view and wound up with
23 another point of view after the give-and-take of
24 this thing and a thorough examination.

25 So I just want to -- you know, however

1 this comes out, I just want to thank the finance
2 committee for doing what is an excellent job for
3 doing their job robustly, and I'm in support of
4 staff's recommendation for the reasons that I've
5 just stated. And I'll make the motion to
6 approve.

7 CHAIRMAN ANDREW DO: Before I call on
8 Director Hernandez, I agree with you, Director
9 Hennessey, that the committee deliberated on
10 this, and there were divergent viewpoints in the
11 beginning.

12 That does point out the validity of the
13 process that we are taking on in that, as
14 directors, we look at different factors, and then
15 we come up with our own solution -- or
16 conclusion.

17 But I think to couch it as changing the
18 rules or second-guessing staff, I think that's
19 not -- that's not what we do here. We are
20 entitled to our own opinion and our own
21 assessment, and we put different weights on
22 different factors because if going with -- or
23 going against staff's recommendation is to second
24 guess people or changing rules, then why don't we
25 just implement a thing where if the -- we just go

1 strictly by the scores. Then what's the point of
2 the Board of Directors discussing and exercising
3 our own independent judgment.

4 So I want to be careful in how we couch
5 this discussion because I think it could be
6 unfair to try to phrase it a certain way.

7 DIRECTOR MICHAEL HENNESSEY: If I may
8 clarify, Director Do, and you raise a good point.
9 And certainly, the Board has the right and
10 obligation to do what they feel is best.

11 My concern is that, you know, we're
12 going out to the marketplace and asking people to
13 compete for things, and we set the criteria. And
14 so sometimes -- what I was addressing was if
15 people are saying, "Hey, this was weighted higher
16 than that, and I don't like that." I want -- you
17 know, some people might feel a price should be
18 preeminent. Well, we could assess that.

19 CHAIRMAN ANDREW DO: But there -- you
20 make a point.

21 DIRECTOR MICHAEL HENNESSEY: But we
22 didn't.

23 CHAIRMAN ANDREW DO: Yeah. We got your
24 point. I mean, yes. That process was undertaken
25 by staff, and there's a certain point given. But

1 I'm just saying we're at a different point now
2 where the Board now is entitled to exercise its
3 own judgment. This is not a about second
4 guessing staff or changing rules. We just -- we
5 just exercise our own independent judgment.
6 That's it.

7 DIRECTOR MICHAEL HENNESSEY: I -- go
8 ahead.

9 CHAIRMAN ANDREW DO: Director
10 Hernandez.

11 DIRECTOR GENE HERNANDEZ: Thank you,
12 Director Do and to my colleagues. Very excellent
13 discussions, all valid points.

14 As a member of the finance committee,
15 we had the same discussion with all those valid
16 points. And at the end of the day, you're right.
17 We went one way, but clearly it is the option of
18 this Board to weigh other factors to bring in. I
19 have no problem with that. I really don't have a
20 dog in the fight, as I said last time.

21 And Director Wagner made a good point
22 about this diversity in cost, that should have
23 some influence in this group, and for me it did.
24 However, in our robust discussion at the finance
25 committee, it really boiled down to that

1 difference being one of technology, that one
2 group was going to come in with current --
3 greater technology. Another one was going to
4 come in with older technology that may have to
5 ramp up.

6 My question would be if we go with
7 Cofiroute and they have to ramp up, will they
8 still give us the same cost that they just did
9 here, or will it now ramp up to what this initial
10 that we're looking at cost would be, and then it
11 balances out?

12 So I just want to make sure that we're
13 not going into this saying, "Well, Cofiroute's
14 lower," and then a year or two down the road, we
15 do a change order to ramp up.

16 So that's the only thing I'd be
17 cautious with. But other than that, I think
18 they're both fine organizations, and we heard
19 staff say they both could do a good job.

20 But I agree with Director Hennessey.
21 We have a process. We followed it. Doesn't mean
22 we can't overrule it here. Absolutely. But if
23 that's going to be our criteria, that cost is
24 much more important than the others, we need to
25 weigh in and change that when we put this out to

1 bid.

2 Anyway, thank you for allowing me those
3 comments.

4 DIRECTOR MICHAEL HENNESSEY: Otherwise
5 why would you bid again?

6 CHAIRMAN ANDREW DO: Director Muller?

7 DIRECTOR JOSEPH MULLER: Thank you, Mr.
8 Chair. And along with the two previous
9 directors, I'm also on the finance committee, and
10 I had a lot of the same concerns that are being
11 expressed here today, and I did vote yes to -- on
12 this approval, but it was a tepid yes. I wasn't
13 completely sold on it. I had some concerns, and
14 the more I thought about it over the last week,
15 more of those concerns kept coming to the
16 surface.

17 We had a group of evaluators that
18 looked at the separate proposals without cost in
19 mind. And I guess that's fine, but I guess if
20 they would've put the cost in front of it, maybe
21 they would've had a different opinion.

22 But the reality is WSP came in with a
23 bunch of new technology that comes at a cost.
24 Now, we did request it, and it was -- I could
25 come out there -- I could respond to any RFP and

1 give you all the greatest things in the world
2 that could be 10 times more than were ever
3 requested.

4 And while I'm evaluating it without the
5 cost in front of me, I'm like, "Yeah. That's the
6 one I want." But when the cost comes back into
7 the discussion, that's when I have to take a look
8 at it and say, "Wow. All those gee-whiz, great,
9 new technologies that were just presented to me,
10 can I really afford them?"

11 The question I asked to Mr. Avila, can
12 they both deliver this project? And the answer
13 was yes, they absolutely can both deliver it.

14 Going back to what Director Wagner
15 said, can I justify the additional costs? These
16 are taxpayer dollars, \$8 million. That's 8
17 percent of this project. I don't know.

18 You know, another question I ask is
19 what if -- you know, Director Chaffee hit this
20 right on the head. Most people -- most
21 organizations when they do a back-office system,
22 they don't have separate back-offices. They have
23 a back office that delivers whatever product
24 they're presenting out to the public operates the
25 backside of their business. They don't have

1 multiple ones for different projects.

2 And I call these projects because
3 tolling is tolling. You know, one's state.
4 One's federal. They have different requirements,
5 but the reality is tolling is tolling. I'm
6 counting cars as they go through. My back office
7 should be the same. It doesn't make a lot of
8 sense to me. It's not efficient to have to
9 operate two separate back offices.

10 When I asked could you combine them,
11 the answer was -- well, it was kind of a loaded
12 question when I asked it, the answer is, "No,
13 you're not going to be able to combine these two
14 back offices. You're going to have to build a
15 new one. Now, you can combine features of it,
16 but you're going to have to build a new back
17 office."

18 And so, you know, this all comes down
19 to risk. And when you have a vendor that has
20 never issued a change order, as far as I know. I
21 could be wrong on that. Kirk, you can correct me
22 if I am. In Cofiroute, we haven't had a change
23 order from them on the systems they've delivered
24 to us. They've delivered them on time.

25 And we have a new vendor coming in that

1 we don't know that has had an issue in the past,
2 the state of Washington. They paid \$2.6 million
3 in a fine because they didn't deliver. And I
4 find it hard to believe it was something that the
5 state of Washington did. If it was their fault,
6 ETC would not have had to pay that fine. That
7 was an ETC issue. And that's fine. They've
8 worked it all out.

9 North Texas was brought up. Florida
10 was brought up. We didn't get a response on what
11 happened there. We don't have any of those
12 experiences with Cofiroute, even when we've not
13 looked at it, but Director Wagner is correct
14 again. We are part of their portfolio. We know
15 this company. We know how they operate, and
16 that's worth something.

17 You know, when I look at how we did our
18 evaluation and the criteria we put out, it is
19 loaded for somebody to come in and say, "I'm
20 going to give you everything in the world because
21 you don't get to see cost until the end."

22 My question would be, to Kirk, and you
23 probably can't answer this. I wouldn't expect
24 you to. If cost was part of the original
25 evaluation, I know it's 20 percent. It was

1 weighted 20 percent, and I could weight it
2 however I want. I could give Cofiroute 20, and I
3 could give WSP five because of the cost
4 differential. That could change the weighting
5 and the scoring.

6 But if our evaluators were allowed to
7 see the cost while they were evaluating this,
8 would that change their perception of which one
9 is better, especially when they're looking at
10 features that were not part of the RFP. They
11 were above and beyond what we requested.

12 KIRK AVILA: Director Muller, you know,
13 you're correct. I can't answer the -- you know,
14 get in the minds of the different evaluators.
15 But what I can say is that in the discussion, you
16 know, cost was not discussed.

17 However, experience of the team and the
18 team members were discussed, and discussed
19 extensively, and the risks involved with having
20 one set of individuals from one firm versus
21 another.

22 Director Wagner pointed out in the
23 staff report that we didn't highlight any -- or
24 many of the negatives that were raised. We
25 wanted to focus on the positives that were

1 brought to the table by WSP. We have an existing
2 relationship with Cofiroute and TollPlus on the
3 91, and that's a relationship that we've enjoyed
4 for many years. That's been brought up many
5 times.

6 However, when you focus in to the team
7 that is proposed for the 405, and you look at the
8 background of the individuals, and you look at
9 the resumes of the individuals, and the
10 experience that they bring to the table with
11 respect to delivering the 405, the evaluation
12 team felt positive about that group of
13 individuals working together to bring this
14 project to its fruition.

15 With respect to Cofiroute, the staff
16 report did mention that there were a couple
17 individuals that, looking at their background,
18 felt that it was a stretch assignment for some of
19 those to be going into particular areas. One
20 particular individual who serves on the 91 for
21 roadside assistance overview of our traffic
22 operation staffing is now being assigned to a
23 quality assurance role, and this person doesn't
24 have much experience in that particular area.

25 That's just one example, but when you

1 take a look at that, that's what was evaluated,
2 and that's what was discussed. And once again, I
3 can't get into the heads of the individual
4 evaluators, but that was what was really a
5 driving force for the differentials of the
6 scores.

7 DIRECTOR JOSEPH MULLER: So Kirk,
8 that's a really interesting point you brought up.
9 Cofiroute was promoting from within. That is a
10 core value for this organization. We have
11 succession planning, right? I mean, Darrell is
12 working on his successor when he retires. Maybe
13 it's Jennifer. Hopefully it is. I mean, she's
14 fantastic. I'm sure you have a successor in mind
15 for you when you move on to your next position.

16 How is that a negative when it's
17 something that we believe in as an organization
18 we should be doing that Cofiroute is doing the
19 same thing? They're building people up for their
20 next job. And so we bring this person
21 (indiscernible) to stretch, I don't know.
22 Obviously I'm not in the toll business, so I
23 don't understand that. Maybe it is.

24 But to me on the surface, it looks like
25 they should be doing that. This is a person

1 that's grown within the OCTA environment. They
2 worked on 91. They understand what we need.
3 They understand our organization. We should want
4 somebody over that -- like that over on a new
5 project within our organization (indiscernible)
6 will be, Express Lanes will be.

7 I don't see that as a negative. I see
8 that as a positive, quite frankly. But you know,
9 that's neither here nor there. I don't want to
10 belabor that point a little bit, but I think
11 that's important.

12 I do have a question for Dan Baker
13 about the back office, and what Cofiroute did and
14 what WSP did. Is Dan still here?

15 CHAIRMAN ANDREW DO: Yes, he is.

16 DIRECTOR JOSEPH MULLER: Okay. Quick
17 question. WSP in their cost input \$18 million
18 for the back office, correct? I'm just using
19 round numbers.

20 DAN BAKER: Yes.

21 DIRECTOR JOSEPH MULLER: And Cofiroute
22 had 50 million in.

23 DAN BAKER: Yeah, you're talking for
24 the back office -- post-implementation back-
25 office support.

1 DIRECTOR JOSEPH MULLER: Right. So --

2 DAN BAKER: Not the (indiscernible).

3 DIRECTOR JOSEPH MULLER: My question is
4 both of these components are important. Don't
5 you believe the back office is more important?
6 If that system goes down, we no longer have the
7 ability to collect tolls.

8 If the customer service center goes
9 negative, we get some bad press. We get some
10 upset customers. And in my opinion in my past
11 life in sales, an upset customer is an
12 opportunity. You always have an opportunity to
13 to help them out and help them understand and get
14 them on your side.

15 When the back office goes down, we're
16 down. I mean, that creates a fire drill. And
17 how do we -- how do you, you know, evaluate
18 what's more important in terms of where I want my
19 support?

20 DAN BAKER: I'm hesitant to comment
21 because I wasn't on the evaluation committee. I
22 do not -- OCTA has such a firewall between the
23 consultant and the evaluation committee. I did
24 not participate in any of their discussions. I
25 didn't --

1 DIRECTOR JOSEPH MULLER: I'm asking you
2 that question.

3 DAN BAKER: No, I know. I know.

4 DIRECTOR JOSEPH MULLER: I'm asking you
5 that question directly because you went up, and
6 you tore those dollars apart to try to understand
7 how they did things, correct?

8 DAN BAKER: Right.

9 DIRECTOR JOSEPH MULLER: I guess my
10 question is, as a consultant, does WSP have
11 enough money in that back-office system to truly
12 support it?

13 DAN BAKER: Yeah. We -- I saw nothing
14 in their back-office support from a labor
15 standpoint that raised any red flags that they
16 wouldn't be able to support it.

17 This is a system that's completely
18 cloud environment. There's a lot of that typical
19 support that you do within labor yourself that
20 moves to the cloud when you do a pure cloud
21 environment, so you're paying for some of that
22 there.

23 And so I did not see any red flags in
24 their staffing of the back-office system.

25 DIRECTOR JOSEPH MULLER: So how --

1 they've got 18 million in, and Cofiroute's got 50
2 million in. Are you saying then that you think
3 Cofiroute is overstaffed?

4 DAN BAKER: No, I'm not saying that.
5 It's not --

6 DIRECTOR JOSEPH MULLER: I guess the
7 question is -- and I'm waiting on you because
8 you're our consultant on it, and I know you did a
9 one-week -- or a four-week evaluation between
10 these two systems, and we're seeing such a huge
11 differential, and you spent more time looking at
12 those dollars than anybody.

13 I'm just trying to understand why
14 there's such a big disconnect. Or not a
15 disconnect, a discrepancy in between the two. If
16 18 million's enough and Cofiroute's putting 50
17 million in, I'm kind of confused on how that
18 happened.

19 DAN BAKER: Right. So let me explain
20 the pricing a bit. The way the pricing goes in,
21 it's on a per-transaction -- or a per-trip basis
22 that we're paying. We're not paying for certain
23 levels of labor. We're not paying for certain
24 levels -- it's on a per-trip basis. It's on a
25 per-violation basis. It's on a per-account

1 basis.

2 So it really -- that is the basis of
3 the pricing. What we ask them to do to back up
4 that pricing, just for Year 1, is provide
5 additional detail of how did you build that
6 pricing up? And that helps us look for red flags
7 in the way they did their pricing. Okay.

8 And so -- and that only applies to Year
9 1. There's 13 potential more years within the --
10 or 11 more years within the contract we don't --
11 we don't look at. We're just looking for red
12 flags because it really is a service that they're
13 providing for a cost, right? So then we just
14 look for red flags.

15 So I tear it down to look for red
16 flags, and like I said, the areas that we saw
17 things in, we saw wide discrepancy and wide
18 differences in just some escrow and bonding
19 things. I don't question what it costs someone
20 to go out and bond.

21 And then all of them have to put all
22 their profit and overhead into those numbers that
23 they're building up, and I don't control where
24 they put those.

25 So I just want to be clear that we

1 don't -- I don't look at it in the detail to make
2 that type of judgment. I just look at for red
3 flags, and I saw none.

4 But there's individual line items that
5 are greatly different that make sense. Some
6 people pay a lot more for something than others.
7 Some people put a lot more cost into one item
8 than another, but nothing concerns me with the
9 labor -- just the levels of labor, which is just
10 one component of that.

11 DIRECTOR JOSEPH MULLER: Okay. I
12 appreciate that. And the reason I'm kind of
13 asking you these questions -- I know you're the
14 one that did a large part of the evaluation on
15 these systems because you went out and looked at
16 them. That's not something that we were afforded
17 as Board members.

18 So I think that's all I have for right
19 now. I appreciate it.

20 CHAIRMAN ANDREW DO: Thank you. Vice
21 Chair Murphy?

22 VICE CHAIR MARK MURPHY: Thank you, Mr.
23 Chair. The peril of waiting to speak is that the
24 folks in front of you ask the questions that you
25 were going to touch upon, so I'll try and be

1 brief here.

2 I too had some concerns about thinking
3 about a new system may be over scoped for the
4 solution versus one that is a proven commodity.

5 I also have sort of the challenge of
6 having come out of the technology business and
7 being involved in bid and proposal work for a
8 long time, looking at it maybe with slightly
9 different lens than others.

10 But there is no substitute in my
11 opinion for proven experience in these sorts of
12 circumstances when the results affect the bottom-
13 line revenue of the entity that it's looking at,
14 and so while I still look forward to hearing -- I
15 think there's a public comment on this of some
16 sort. My inclination is to stick with people
17 that we've had positive experiences with.

18 And also if there's concerns about the
19 levels of the proposals in terms of the
20 technology or the rest, that's something that
21 would be taken care of in the next round of
22 things in terms of the final analysis and the
23 stipulations.

24 But for me looking at all of it, I
25 think there was some additional award for the

1 initiative of talking about a "new solution" when
2 in fact I think both solutions are very
3 comparable, and one we have experience with and
4 one we don't.

5 And so with that, I'll defer final
6 judgment until I hear public comments and other
7 discussion, but I'm leaning towards going with
8 Cofiroute.

9 CHAIRMAN ANDREW DO: I have two hands
10 raised, Supervisors Chaffee and Wagner. Are
11 those old hands, or did you want to speak again?

12 DIRECTOR DONALD WAGNER: Old on my
13 part, Mr. Chairman.

14 CHAIRMAN ANDREW DO: Okay. So --

15 SUPERVISOR DOUG CHAFFEE: That's my
16 fault. I forgot to take the hand down. Thank
17 you.

18 CHAIRMAN ANDREW DO: Okay. So I don't
19 have anybody else.

20 There was a motion from Director
21 Hennessey to adopt staff's recommendation. I
22 hadn't heard a second.

23 So the motion dies --

24 DIRECTOR BRIAN GOODELL: Goodell will
25 second.

1 CHAIRMAN ANDREW DO: Okay. So there's
2 a second. So then at this point, okay, I don't
3 see any other hands raised, so Madam Clerk,
4 please take the roll call vote on the motion by
5 Director Hennessey.

6 VICE CHAIR MARK MURPHY: Mr. Chair, if
7 I might just for confirmation purposes, did I
8 misunderstand? Was there not a public comment on
9 this item?

10 CHAIRMAN ANDREW DO: Was there? I
11 don't think so, right?

12 CLERK: There was.

13 CHAIRMAN ANDREW DO: Madam Clerk?

14 CLERK: There was.

15 CHAIRMAN ANDREW DO: Huh?

16 CLERK: Yes, there is.

17 CHAIRMAN ANDREW DO: I'm sorry. Okay.

18 CLERK: I can read it into the record.

19 CHAIRMAN ANDREW DO: Go ahead. Call on
20 the people at this time.

21 CLERK: Okay. Chairman Do and Board
22 members, on August 8th, 2021 at 9:11 p.m. OCTA's
23 Clerk of the Board Department received a public
24 comment from Tonya Friend of Cofiroute USA. The
25 comment was e-mailed to the Board of Directors on

1 August 9th at 8:20 a.m. and will be retained as
2 part of the record for today's Board meeting.

3 Chairman Do, that concludes my report.

4 CHAIRMAN ANDREW DO: Thank you. All
5 right. So that's a letter that we all received.

6 VICE CHAIR MARK MURPHY: Oh, okay.
7 Thank you.

8 CHAIRMAN ANDREW DO: Yeah. Okay. So
9 that's it. Now, Madam Clerk, please take roll
10 call vote.

11 CLERK: Chairman Do?

12 CHAIRMAN ANDREW DO: No.

13 CLERK: Vice Chairman Murphy?

14 VICE CHAIR MARK MURPHY: I'm a no.

15 CLERK: Director Bartlett?

16 SUPERVISOR LISA BARTLETT: Yes.

17 CLERK: Director Chaffee?

18 SUPERVISOR DOUG CHAFFEE: No.

19 CLERK: Director Delgleize?

20 DIRECTOR BARBARA DELGLEIZE: Yes.

21 CLERK: Director Foley?

22 DIRECTOR KATRINA FOLEY: No.

23 CLERK: Director Goodell?

24 DIRECTOR BRIAN GOODELL: Yes.

25 CLERK: Director Harper?

1 DIRECTOR PATRICK HARPER: Yes.
2 CLERK: Director Hennessey?
3 DIRECTOR MICHAEL HENNESSEY: Yes.
4 CLERK: Director Hernandez?
5 DIRECTOR GENE HERNANDEZ: Yes.
6 CLERK: Director Jones?
7 DIRECTOR STEVE JONES: Yes.
8 CLERK: Director Muller?
9 DIRECTOR JOSEPH MULLER: No.
10 CLERK: Director Nguyen?
11 DIRECTOR TOM NGUYEN: Yes.
12 CLERK: Director Sarmiento?
13 DIRECTOR VICENTE SARMIENTO: No.
14 CLERK: Director Sidhu?
15 DIRECTOR HARRY SIDHU: No.
16 CLERK: Director Wagner?
17 DIRECTOR DONALD WAGNER: No.
18 CLERK: Mr. Chairman, the motion does
19 not pass.
20 CHAIRMAN ANDREW DO: Okay. I will
21 entertain another motion at this time.
22 VICE CHAIR MARK MURPHY: I'll go ahead
23 and move --
24 CHAIRMAN ANDREW DO: I --
25 VICE CHAIR MARK MURPHY: I'll -- go

1 ahead, Mr. Chair.

2 CHAIRMAN ANDREW DO: No, no. Go ahead
3 Mr. Murphy.

4 VICE CHAIR MARK MURPHY: I was going to
5 move I'll move the selection of Cofiroute for
6 this award.

7 CHAIRMAN ANDREW DO: Second? So motion
8 by Vice Chair Murphy and seconded by me, Chair
9 Do. Any other comments or questions?

10 Madam Clerk, please take roll call
11 vote.

12 CLERK: Chairman Do?

13 CHAIRMAN ANDREW DO: Aye.

14 CLERK: Vice Chairman Murphy?

15 VICE CHAIR MARK MURPHY: Aye.

16 CLERK: Director Bartlett?

17 SUPERVISOR LISA BARTLETT: No.

18 CLERK: Director Chaffee?

19 SUPERVISOR DOUG CHAFFEE: Aye.

20 CLERK: Director Delgleize?

21 DIRECTOR BARBARA DELGLEIZE: No.

22 CLERK: Director Foley?

23 DIRECTOR KATRINA FOLEY: Yes.

24 CLERK: Director Goodell?

25 DIRECTOR BRIAN GOODELL: No.

1 CLERK: Director Harper?
2 DIRECTOR PATRICK HARPER: No.
3 CLERK: Director Hennessey?
4 DIRECTOR MICHAEL HENNESSEY: No.
5 CLERK: Director Hernandez?
6 DIRECTOR GENE HERNANDEZ: No.
7 CLERK: Director Jones?
8 DIRECTOR STEVE JONES: Yes.
9 CLERK: Director Muller?
10 DIRECTOR JOSEPH MULLER: Aye.
11 CLERK: Director Nguyen?
12 DIRECTOR TOM NGUYEN: Yes.
13 CLERK: Director Sarmiento?
14 DIRECTOR VICENTE SARMIENTO: Yes.
15 CLERK: Director Sidhu?
16 DIRECTOR HARRY SIDHU: Yes.
17 CLERK: Director Wagner?
18 DIRECTOR DONALD WAGNER: Yes.
19 CLERK: Mr. Chairman, motion passes for
20 Cofiroute.
21 CHAIRMAN ANDREW DO: Thank you very
22 much.
23 Brief discussion, colleagues. So that
24 wraps up Item Number 16.

Chief Executive Officer

CODE OF CONDUCT POLICY

Policy#: HROD-BOD-101.00CONDUCT Origination Date: 07/13/2009 Revised Date: 11/16/2018

I. PURPOSE

The purpose of this policy is to provide the guidelines and expectations to all Orange County Transportation Authority (OCTA) employees regarding the conduct that is expected both at and away from work. OCTA is a public agency that shall conduct its business with integrity in an honest and ethical manner. Any attempt to evade or circumvent any requirements of this policy or of any rules or laws applicable to OCTA and its employees is improper.

II. ORGANIZATIONAL UNITS AFFECTED

This policy applies to all OCTA employees. For purposes of the Code of Conduct, OCTA employees shall mean and include employees, members of the Board of Directors, and agents of OCTA. OCTA employees shall comply with the letter and spirit of this policy and the law.

The Human Resources Department shall be responsible for the administration of this policy and maintenance of employee acknowledgements of receipt.

III. POLICY

- A. OCTA employees shall conduct OCTA's business in compliance with the law, regulations, OCTA policies, and good judgment based on OCTA's values and goals. OCTA employees shall avoid speech or behavior that is likely to create an appearance of impropriety.
- B. It is up to each OCTA employee to maintain a professional, safe, and productive work environment. OCTA employees shall treat each other professionally and with courtesy at all times. Differences of opinion on work issues should be expressed in a constructive manner that promotes sharing ideas and effective teamwork to resolve problems to meet the challenges of OCTA.

IV. DEFINITIONS

Not applicable

V. PROCEDURE

A. Non-discrimination

No person shall be discriminated against in employment because of race, color, creed, religion, sex, gender (including pregnancy, childbirth, breastfeeding) gender identity, gender expression, genetic information, ancestry, age, national origin, marital status, sexual orientation, military and veteran status, physical or mental

**Human Resources and Organizational Development

disability, or any other status protected by applicable federal or state statutes, except where a bona fide occupational qualification applies.

B. Workplace Harassment

1. No OCTA employee or person associated with OCTA shall engage in sexual harassment. Sexual harassment includes any sexual advances or requests for sexual favors which are unwelcome or where submission to or rejection of such conduct is used as the basis for employment or business decisions. Sexual harassment also includes verbal, visual, and/or physical conduct of a sexual nature, which creates an intimidating, hostile, or offensive working environment.
2. No OCTA employee or person associated with OCTA shall engage in harassment based on race, color, creed, religion, sex, gender (including pregnancy, childbirth, breastfeeding) gender identity, gender expression, genetic information, ancestry, age, national origin, marital status, sexual orientation, military and veteran status, physical or mental disability, or any other status protected by applicable federal or state statutes. Harassment includes verbal, visual, and/or physical conduct. Such conduct constitutes harassment when the submission to the conduct is made an explicit or implicit condition of employment, submission to or rejection of the conduct used as the basis for an employment decision, or the harassment interferes with an employee's work performance, or creates an intimidating hostile or offensive work environment.

C. Relationships With Contractors

OCTA business shall be conducted in a manner above reproach, with impartiality, and without bias. Particularly in relationships with contractors and potential contractors, OCTA employees must avoid any actual or appearance of conflict of interest or impropriety.

D. Use of OCTA Assets

OCTA employees shall not use any OCTA assets for personal gain or for any purpose other than OCTA business. Subject to the restrictions in this section and if permitted by the employee's supervisor, some occasional and limited personal use is allowed so long as it does not interfere with the performance of the employee's duties and does not result in any additional expense to OCTA. However, OCTA telephones, computers, e-mail, or internet access shall not be used for e-mail chain letters, for religious or political advocacy, for excessive personal communications, for personal financial gain, to seek outside employment, for any purpose that could reasonably be viewed as abusive, harassing, hostile, or intimidating to OCTA customers or employees, to access entertainment or sexually explicit sites, or for any use otherwise prohibited by law. OCTA reserves the right to monitor and review all records of usage by OCTA employees of any OCTA assets. No use of OCTA telephones, computers, e-mail or internet access, or any use of any other OCTA asset shall be private to the employee, and no OCTA employee shall be given any basis for an expectation of privacy in any such use.

**Human Resources and Organizational Development
CODE OF CONDUCT POLICY**

Policy#: HROD-BOD-101.00CONDUCT

Origination Date: 07/13/2009

Revised Date: 11/16/2018

E. Confidential Information

OCTA employees shall maintain the confidentiality of any confidential information related to contracts, construction, procurement, litigation strategy, personnel files, employee medical information, or other proprietary information to which they have access through their employment with OCTA. Such confidentiality shall be maintained during and after employment with OCTA. OCTA employees shall not use confidential information for any purpose other than in the performance of their job for the benefit of OCTA. Confidential information shall only be disclosed to authorized persons.

F. Gifts

1. OCTA employees or immediate family members shall neither solicit nor accept gifts, gratuities, favors, or anything of monetary value, except unsolicited items of nominal intrinsic value from any OCTA contractor, subcontractor, bidder, or proposer for an OCTA contract which is federally-funded. A bidder/proposer is a party which has submitted a bid or proposal for an active procurement which has not been awarded or otherwise concluded.
2. Designated OCTA employees may not accept gifts totaling more than \$470 pursuant to Title 2 of California Code of Regulations Section 18940.2, or over the amounts allowed pursuant to Government Code Sections 89502 and 89503 as adjusted biennially in a calendar year from a single source other than one identified in paragraph 1 above.
3. For purposes of this code, a gift shall have the meaning it is defined to have in the California Political Reform Act (Act) and the regulations issued pursuant to the Act.

G. Conflicts of Interest

1. A conflict of interest, or at least an appearance of impropriety, exists when the interests, investments, outside employment or personal enterprises of the employee or a member of his or her immediate family could compromise the employee's duty of loyalty, or otherwise conflict with or appear to conflict with his or her job performance, objectivity, impartiality, or ability to make fair business decisions in the best interest of OCTA. A conflict of interest may arise in any situation in which an OCTA employee is in a position where he or she could use his or her contacts or position in the agency to advance the private business or financial interests of the employee or his or her immediate family, whether or not at the expense of OCTA. An OCTA employee may also have a conflict of interest if called upon to make a decision concerning a person or entity that the employee worked for during the previous 12 months.
2. An OCTA employee who has a conflict of interest shall not participate in the making of any decision or contract in which the employee has a financial interest.

**Human Resources and Organizational Development
CODE OF CONDUCT POLICY**

Policy#: HROD-BOD-101.00CONDUCT Origination Date: 07/13/2009 Revised Date: 11/16/2018

3. Any OCTA employee with such conflict of interest must disqualify himself or herself from making, participating in the making, or in any way attempting to use his or her official position to influence OCTA's decision in which he or she knows, or has reason to know, that he or she has a financial interest. An OCTA employee should also disqualify himself or herself from participating in an OCTA decision where the employee does not have a disqualifying financial interest, but where the making of the decision will have some other significant effect on the employee, or a member of his or her immediate family.
4. Any OCTA employee who may have a conflict of interest as described in paragraphs 1 or 2 relative to a prospective contractor, subcontractor, bidder or contract, or any other OCTA decision or issue, must advise his or her supervisor of the possible conflict of interest at the earliest possible time.
5. Upon request, the General Counsel shall advise an OCTA employee and his or her supervisor regarding whether it is appropriate for an OCTA employee to participate in a decision involving a possible conflict of interest.

H. Incompatible Activities

No OCTA employee shall engage in any outside activity that is inconsistent, incompatible, or that interferes with his or her ability to efficiently and effectively carry out his or her OCTA duties. Incompatible activities include, but are not limited to, any of the following:

1. The use for private gain or advantage of the employee's OCTA time, facilities, equipment or supplies, or the badge or uniform, prestige or influence of the employee's OCTA employment.
2. Receipt or acceptance by the employee of any money or other consideration from anyone other than OCTA for the performance of an act which the employee, if not performing such act, would be required or expected to render in the regular course or hours of OCTA employment or as part of the employee's duties.
3. Time demands from outside activities that would interfere with the ability of the OCTA employee to devote his or her full work time, attention, and efforts to his or her OCTA duties.

I. Duty to Report

Each OCTA employee is obligated to report to his or her supervisor, the Internal Auditor, Labor and Employee Relations staff, the Chief Executive Officer, or the General Counsel any facts made known to the employee which show that an OCTA contractor or OCTA employee has engaged in business practices regarding an OCTA matter which appears to be unethical, or which may violate this policy or any applicable state or federal law.

**Human Resources and Organizational Development
CODE OF CONDUCT POLICY**

Policy#: HROD-BOD-101.00CONDUCT

Origination Date: 07/13/2009

Revised Date: 11/16/2018

J. Whistleblower Protection

OCTA is committed to fair treatment of all its employees and recognizes its responsibility under state and federal law to protect from punishment and harassment any person who reports a potential ethics issue, whether or not the allegation is found to have merit. The report may be made anonymously. OCTA shall not take any act nor threaten any action against any OCTA employee as a reprisal for making a report under state or federal whistleblower laws, unless the report was made, or the information was disclosed with the knowledge that it was false or with willful disregard for its truth or falsity.

K. Ethics Hotline

OCTA shall maintain a telephone Ethics Hotline number for any employee, vendor, or member of the public to anonymously report any suspected fraud, waste, abuse, and illegal or unethical behavior. The report shall be confidential. Reports to the Ethics Hotline will be administered by Internal Audit for review and investigation by the appropriate department. The Ethics Hotline phone number is 877-315-9918.

L. Product Endorsement and Participation in Case Studies

1. Employees, in their capacity as an OCTA employee, shall not endorse a product, service or company or comment upon that product, service or company if it is the intent of the solicitor of the endorsement, or of the vendor or manufacturer of that product or service, to use such comments for purposes of advertisement, marketing or sales, without prior consent of the CEO or designee. OCTA Board members, in their capacity as an OCTA Board member, are discouraged from endorsing a product, service or company for purposes of advertisement, marketing or sales.
2. Employees, in their capacity as an OCTA employee, are not prohibited from responding to inquiries regarding the effectiveness of products or services used by OCTA unless the employee is aware that it is the inquirer's intention to use those comments for purposes of advertisement, marketing or sales.
3. Employees, in their capacity as an OCTA employee, shall not participate in a case study of products or services for advertisement, marketing or sales purposes by any person or organization outside of OCTA, without the consent of their Executive Director.

M. Duty to Cooperate

OCTA employees, in their capacity as an OCTA employee, shall cooperate fully with judicial bodies and courts, and with workplace investigative personnel; appear before them upon request; and answer all questions truthfully, concerning their conduct in office or the performance of their official duties or matters within their knowledge pertaining to the property or affairs of OCTA.

**Human Resources and Organizational Development
CODE OF CONDUCT POLICY**

Policy#: HROD-BOD-101.00CONDUCT Origination Date: 07/13/2009 Revised Date: 11/16/2018

VI. EXCEPTIONS

- A. The provisions of Government Code Section 87406.3 shall apply with equal force and effect to each individual who is appointed as a public member of the OCTA Board of Directors, the same as members of the Board of Directors who are elected officials.
- B. This means that a public member of the Board of Directors shall not, for a period of one year after leaving that office, act as an agent or attorney for or otherwise represent for compensation any other person by communicating with an OCTA employee if the communication is made for the purpose of influencing administrative or legislative action, or proceeding involving the issuance, amendment, awarding, or revocation of a permit, license, grant or contract, or the sale or purchase of goods or property.

VII. PROVISIONS AND CONDITIONS

- A. All OCTA employees have a responsibility to conduct OCTA's business in compliance with this policy. The General Counsel shall investigate alleged violations of this policy. In the event the General Counsel determines that a violation has occurred, the General Counsel's finding shall be reported to the Chief Executive Officer who shall take such action, which may include notification to the Board of Directors, as is appropriate under the circumstances. Any violation of a provision of this policy which is based upon a state or federal law may also be enforced by any appropriate enforcement agency.
- B. A violation of this policy by an OCTA employee may result in the imposition of discipline, up to and including dismissal. The appropriate discipline will be determined by the employee's supervisor in consultation with the division executive director of the organization unit in which the employee works and the Executive Director of Human Resources and Organizational Development. The discipline imposed will depend upon the severity of the violation and may be progressive unless the violation is determined to be so serious as to warrant more severe action initially. The imposition of discipline by OCTA for a violation of this policy, when such violation is also a violation of state or federal law, shall not affect the ability of any appropriate prosecutorial agency to seek the imposition of any penalty allowed by law for such violation.
- C. Acknowledgement of Receipt of Code of Conduct – New OCTA employees will receive a copy of this policy upon commencement of employment and will sign an acknowledgement of receipt. Thereafter, all employees will receive a copy of this policy once every two (2) years, and they will be required to sign an acknowledgement of receipt.

To: Chairman Do and OCTA Board of Directors

Cofiroute USA Comment Submission re: Agenda Item 16 – Contractor Selection for the Back-Office System and Customer Service Center Operations for the 405 Express Lanes in Orange County

Dear Board of Directors:

We are writing this letter to express our concern about potential irregularities in the procurement process that we perceived during and after the Finance Committee meeting on Wednesday, July 28, 2021. Notably, a couple hours after the committee meeting concluded, a consultant from HNTB initiated a phone call with an employee of TollPlus to ask about TollPlus's proposed system – particularly how it used the cloud and Amazon Web Services. We find this call to be concerning on two counts. First, because it seems to be in direct violation of the procurement rules set out in the RFP, and second, because it bolsters our impression that during the committee meeting the system proposed by Cofiroute was not fairly explained.

On the first point, Section I.D (“*Authority Contact*”) of RFP 0-2690 (“*Back Office System and Customer Service Center Operations Services for the 405 Express Lanes in Orange County*”) states that all communications should take place directly through Mr. Robert Webb, Principal Contracts Administrator “unless expressly permitted.” The prohibition on other contacts specifically extends to consultants. However, on July 28, 2021, a key Agency consultant who evaluated proposers’ technology solutions called an employee of our subcontractor – who was not listed anywhere in our proposal – to get information about how the proposed back-office system (“BOS”) operates. Cofiroute is highly concerned about this apparent violation of the stated RFP process.

Secondly, this call was concerning because it seems that the consultant either did not properly review or did not understand Cofiroute’s RFP response, which clearly sets forth how the proposed BOS operates. This suggests that Cofiroute’s proposal was not properly evaluated or was not subject to the proper clarifying questions during the allotted procurement period, which could explain some of the inaccurate information that was provided in the Contractor Selection Memo dated July 14, 2021 and during the July 28, 2021 Finance Committee meeting.

A theme that ran throughout the July 28 committee meeting was that the system proposed by Cofiroute was somehow old or outdated and that the WSP system was newer. For example, at 20:17, Director Hernandez stated that his understanding for why staff chose the more expensive bid was that OCTA was getting “newer technology” with WSP. Similarly, at 21:02, Director Harper remarked on the “bells and whistles” the Agency would get with WSP’s “newer technology.” And while Dan Baker of HNTB did state at 26:32 that neither party’s system was antiquated, there was no attempt by staff to move the committee off the idea that WSP’s solution was technologically superior to Cofiroute’s. In fact, staff reinforced this view shortly before the vote, starting at 48:23, when Director Hernandez had the following conversation with Mr. Avila:

Hernandez: ... But I would say what Cofiroute is using is the 2019 ... technology and I’m going to assume that technology wasn’t cutting edge

Cofiroute USA, LLC

A subsidiary of VINCI

then so it's probably a couple of years older than that. So what I don't want to see happen is that all of a sudden we go with someone using older technology then we get a change order because yeah they recognize trends and we're going to go in that direction and all of a sudden that 8 million gets gobbled up as a change order. So sounds like the material we're getting now is going to be good for the long term and we have enough safeguard in our contract that if there's a failure to perform that we will be covered so is that accurate? Am I stating that point accurately?

Avila: Yes, Director Hernandez.

Hernandez: Thank you Kirk. That's all I got. Thank you.

The approach of consistently agreeing with the Committee's assertions that Cofiroute offered a somehow inferior product is quite different than how staff responded to questions regarding WSP's and ETC's historical performance. For example, in the initial summary of why staff recommended WSP, Kirk Avila said at 13:23 that "The WSP team has teamed up with Electronic Transaction Consultants or ETC, with ETC providing the back-office system. The WSP and ETC team have a large and diverse portfolio of back-office systems on deployment in customer service center operations. These include clients in Colorado, Minnesota, Washington, Texas, Louisiana, Georgia, and Utah." Director Muller followed up on this question at 33:32 and did not receive direct answers:

Muller (33:32) So with ETC ... how have they performed? I heard that they're in multiple states. I think you said 4 or 5 different states, is that correct?

Avila (33:51) They have experience in deploying systems in those states.

Muller (33:55) When you say "deploying systems", is that operating systems or are they acting as consultants to help develop the systems?

Avila (34:00) There are various different levels of activity that they have. In Texas, they have deployed a back-office system. In the State of Washington, they've deployed a back-office system. So it just depends on the state and what experience that they've had. They've had a number of experiences with back-office systems – they've been around for twenty years – some of them are active, some of them have come and gone ...

Director Muller continued, asking at 34:28 whether ETC or WSP had any problems or lost projects because of performance issues. Mr. Avila referenced litigation in Florida in which ETC was successful, but said "other than that, I'm not aware of any other situation that they are encountering at this point." Director Muller then pointed out at

www.cofirouteusa.com

36:20 that a simple web search will provide examples of botched deliveries and penalties, but staff did not seem to have done any research to determine past success or failures of the proposers.

Director Muller also asked at 43:17 whether WSP and ETC had ever successfully implemented the system being proposed for this procurement. Mr. Avila responded that ETC was working with Harris County, Texas on a back-office system. He did not know “if it’s the exact system” but said that “the Harris County is very similar to the 405.” Director Muller followed up at 44:02 with a comment suggesting he’d reached out to Seattle who said they weren’t using the functionality. He asked again: “have they ever implemented an automated system like this? Because it’s not inexpensive and if it doesn’t work, we’re going to have to take it out.” Mr. Avila referred the question to Dan Baker from HNTB who gave some nonresponsive answers about agencies sometimes not being comfortable with high tech bots. Director Muller followed up again at 46:25 that “it doesn’t answer the question: have they ever implemented it?” Mr. Baker said he didn’t know off the top of his head and he’d “have to be very sure of exactly what they put in their proposal.”

All of the answers above regarding Cofiroute’s system and WSP’s system are either inaccurate or incomplete on the basis of facts that were readily available to – and should have been known by – OCTA staff and its consultants. For example, the back-office solution in the Cofiroute system – provided by subcontractor TollPlus – was fully developed in late 2020 using the latest technology with Microservices. This back-office system was successfully tested and deployed in January 2021 and is literally the newest back-office system being offered on the market. Specifically, TollPlus successfully deployed this back-office system for the North Texas Tollway Authority (NTTA), which replaced the legacy back-office system installed by ETC (the back-office system provider for the WSP solution). By way of comparison, ETC has not deployed a new system for some time. In fact, the system in Washington state that was discussed in the Committee meeting was implemented in 2011. And the system in Harris County, Texas that was described as being very similar to the 405 proposal was last updated in 2018. So in response to Director Muller’s repeated questions: either the ETC system is the older technology referenced above or, in the alternative, ETC has proposed future technology for the 405 that has yet to be successfully implemented. Both questions were asked in the Committee meeting, and neither was accurately answered.

These mischaracterizations are compounded by specific errors in the descriptions provided by staff. For example, there were repeated descriptions of how the WSP system would integrate web chat and other forms of modern communication, and the committee focused heavily on that. However, the IVR system contained in the proposed Cofiroute solution also offered all of those features. This information was provided in Cofiroute’s response, and had staff requested backup documentation, Cofiroute could have provided extensive documentation including a Gartner analysis of the IVR systems and patents issued for the system. However, the committee’s misunderstanding of this point was not corrected. At 51:14, immediately before the vote, Director Hernandez said in response to comments from Director Muller regarding the positive aspects of talking to a human that “I really appreciate talking to someone. However, there’s a price to pay when you do that.” And Director Muller agreed, saying that he would support the motion to recommend WSP, suggesting that Cofiroute relies too much on humans. With no comment from staff, the Chairman immediately called for the Committee vote.

Cofiroute understands that analyzing systems and developing recommendations is difficult, painstaking work and we appreciate that not every bid can be successful. But in this instance, it was clear that complete or fully responsive answers to the questions were not presented to the directors. Cofiroute’s proposed solution is a highly proven and

A subsidiary of **VINCI** 

flexible cloud-based BOS and an innovative omni-channel IVR platform that delivers contact management for OCTA's customers via chat, email, phone, and web contacts. The proposed system is state-of-the-art, and our team has experience implementing it successfully. The suggestions by staff, and staff's failure to correct misperceptions by Committee members, that Cofiroute's system was old technology, that it didn't include modern communications tools, and that it was somehow not as automated as the WSP platform, should raise concerns from the Board of Directors.

As stated, Cofiroute's proposal includes a state-of-the-art communications solutions including a cloud-based omni-channel communications platform. And contrary to the understanding of the committee, it is notable that the staff's own presentation to the Finance Committee estimated that Cofiroute's proposal would utilize 61 full-time employees compared to 89 full-time employees for WSP. (See footnote on Slide 6 ("Proposed Costs") of the presentation given by Mr. Avila to the Finance Committee.) A more technically advanced solution should require fewer staff to operate, and it would seem to warrant investigation of why WSP would need almost 50% more full time employees to operate its solution if it is, in fact, technologically superior. This question was not addressed by staff, nor did staff correct the manifestly inaccurate assumptions made by committee members that Cofiroute's proposal somehow relied more on humans than WSP's proposal. It also bears further discussion on whether the \$8 million in additional cost for the WSP system is attributable to its significantly higher employee numbers, rather than to superior technology as some Committee members believed.

Another example is the repeated assertion that WSP's solution was somehow more "customer-centric" than Cofiroute's. While that nebulous designation may be hard to opine against, it should be noted that Cofiroute's proposal included the assembly of a Customer Service Advisory Council to bring an outside perspective to the BOS design and CSC operations "to help us challenge the traditional toll customer service model and further ensure voice of the customer input into operations." To suggest that Cofiroute was somehow not trying to focus on the end-customer is not in keeping with its RFP response.

The risks of choosing WSP are clear. The electronic tolling industry has a significant failure rate for new implementations, even for companies that are household names. Yet it is unclear – and it was not answered by staff even in the face of direct questioning by committee members – whether the system proposed by WSP has been successfully implemented anywhere. And although staff said that OCTA is familiar with WSP as a company, it is not familiar with them in the tolling space. Even more concerning is that WSP has partnered with a back-office system provider with a documented history of delivery issues and litigation with its customers.

The Board is now being asked by staff to approve what appears to be an untested system that will add an additional back-office system and customer service center operator to the region instead of a brand-new state-of-the-art system that was successfully implemented earlier this year and is provided by a company that has partnered with OCTA for the past 18 years. And the Board is not being asked to take this risk to realize the benefit of discounted pricing, but rather to spend \$8 million more for this untested system and associated operations, even though staff cannot provide direct, complete, and accurate answers to fundamental questions that were asked by Finance Committee members.

We hope that this letter helps clarify some of what we believe were mischaracterizations of our proposal and assists the board with exercising its responsibility of public fund management when it is being asked to invest an additional

ETC Corporation and WSDOT Reach Settlement

July 18, 2012 11:45 AM Eastern Daylight Time

RICHARDSON, Texas—(BUSINESS WIRE)—Electronic Transaction Consultants Corporation (ETC Corporation) today stated that it had reached a settlement agreement with the Washington State Department of Transportation (WSDOT) concerning claims of delay in starting toll operations for the bridge on State Route 520. The settlement addresses, among other things, ETC Corporation's claims against WSDOT for changes in scope and schedule delays.

Tim Gallagher, ETC's CEO, stated, "Throughout the project, ETC Corporation has worked as a true partner with WSDOT to deliver one of the industry's most advanced toll systems, going above and beyond the scope of the contract to support WSDOT and its *Good To Go!* program. Now that we have reached this settlement, both ETC Corporation and WSDOT can focus on the future and continuing to provide superior systems and customer service to *Good To Go!* customers."

ETC Corporation is WSDOT's customer service and back office operator. The statewide customer center opened in February 2011 and started processing tolls on WSDOT's existing toll facilities. Tolling operations on the SR 520 bridge began in December 2011.

In addition to ETC Corporation's claims against WSDOT, the settlement resolves WSDOT's claims of additional costs due to schedule delays of the SR 520 tolling system, and dismissed or unprocessed Tacoma Narrows Bridge infractions, many of which were roadside transactions incorrectly sent for processing. In addition, the settlement avoids what could have been significant costs associated with a dispute review process and potential litigation costs.

While there was no cash involved in the settlement, the agreement includes extension of the contract with ETC from 2014 to 2018 (subject to achievement of certain near-term milestones). The four-year extension is valued at \$29 million, for which WSDOT receives a \$2.4 million discount. ETC's original five-year contract with WSDOT was \$23 million. ETC Corporation has further agreed to provide WSDOT with a special software license independently valued at \$4 million supporting the *Good To Go!* systems.

About ETC Corporation: For more than a decade ETC Corporation has delivered innovative solutions to the toll industry that increase mobility, improve operational efficiency, and support high levels of customer service. Today, ETC's solutions collect nearly one-third of the toll transactions in the United States, representing more than \$1 billion in annual revenue on some of the most technically advanced toll facilities in the industry. These solutions enable all-electronic toll collection, dynamic pricing, HOT lanes, interoperability, and open road tolling. ETC's lane-to-back office integrated solutions are supported by an impressive array of operations and maintenance services. ETC offers its solutions and services as both a customer-delivered model as well as through a hosted environment at ETC's state-of-the-art technology and operations centers. For further information, please see www.etcc.com.

carla.kienast@etcc.com

THANK YOU!

Thank you so much for partnering with WSDOT on providing high quality customer service to our **Good To Go!** customers. We have learned a lot together over these many years working side by side.

Best wishes, Patty Rubstello

My sincere thanks to ETCC and especially to all of people who have worked so hard for WSDOT over this last decade. We have accomplished a great many things over the years, and it is incumbent upon all of us to acknowledge that. When we look back I hope we remember the good times and the successes be they on the system side or in the service of **Good to Go!** customers. Best wishes to everyone on the ETCC team.

Ed Barry

Thank you for your years of partnership! I've really enjoyed learning and working with each of you. Hoping our paths will cross again in the future!

Jennifer Charlebois

What a journey! Together, we've: opened four facilities – all unique and challenging, more than doubled our **Good To Go!** accounts and increased toll transactions by more than 50 percent. We've experienced bomb threats at the call center, *extremely* challenging and interesting! customers at the WICs ... and the Russian mafia! Oh, and then a pandemic that caused a very quick transition to a work from home call center. In the words of Ralph Waldo Emerson "Do not go where the path may lead, go instead where there is no path and leave a trail." We are grateful for ETC's partnership breaking trail over the past 10 plus years.

Patricia Michaud

We worked hard together to provide excellent customer service and deliver a great **Good To Go!** Program, didn't we? I appreciate ALL Y'ALL! Thank you...Best wishes and much success to each of you!

Maria Flesher

It feels like we've had this professional relationship since, well, the beginning of time. But alongside the excellent professional relationship I believe I also made quite a few friends. I want to thank you all for your professionalism, for your creativity, your responsiveness, and on top of all, your courtesy. I know I will miss you guys. Special thanks to Junifer, Thamil, Leo, Austin, Keala, Wanda, and Sandra.

**Sincerely,
Amiram Hayardeny**

Will miss working with you.

Marie Rogers

To all my friends and co-workers at ETCC, It's been an honor and a privilege to have worked with so many of you over the years. Knowing all of you truly have the customer in mind when working on sometimes difficult situations, makes me proud to have been a part of all of this and the team work that was involved.

On a personal note, I have and I am going to truly miss our conversations about our families (my wife Helen), sports (ZAGs, DAWGs and Seahawks), movies (make mine Marvel), music (classic rock lives on), statistics and just generally, our personal and professional lives.

**Take good care my friends,
Steve Russo
Customer Advocate Manager**

ETC –

Thanks so much for all of your hard work over the years. You have made an important contribution to transportation funding and your efforts are more than appreciated. You'll will be missed.

**Thank you,
Tyler Patterson**

It's been wonderful working with everyone at ETC over the past couple of years. Everyone has been very friendly, supportive and very responsive, but Sandra in particular has been a total rockstar! She's always gone above and beyond to help me with every random situation that's come up!

Lauren McLaughlin

Thank you to everyone at ETC for all their hard work. Your contributions were invaluable, and you all made working together a pleasure. Good luck and best wishes for your futures!

**Thank you,
James DeRocher**

First and foremost – a huge thank you to Paul and your accounting staff, Michael and Julie. I value the effort you all put in to complete a remarkable number of daily and monthly reconciliations which you submit on time and without errors on a day-to-day, month-to-month basis. I can't even count that high to estimate the number of reconciliations you submitted over your tenures considering the sheer volume; there are 13 daily reconciliations + supporting documents and 44 monthly reconciliations for a total of 300+ each month, which is more than 3,600 per year – much more than anyone wants to contemplate during your ETC history. This doesn't even touch all of the ad hoc reports, queries and analyses you've completed for me over the years. You and your staff have worked really hard to make our transition successful. Thank you for being diligent and vigilant and looking for ways to help identify and correct potential accounting issues. You are an especially adept accounting team and fabulous partners to WSDOT accounting. You three are accounting rock stars!

I also have great respect and appreciation for Vicki and the Inventory staff. These annual events used to be quite messy and approached with dread. But you've worked really hard to make the annual year-end physical inventory process a great success. Thank you for always being prepared and making our jobs fast and efficient, and, dare I say? – even fun! Partnering with you and your team has been a pleasure.

To Sandra and other administrative staff I've worked with – thank you for answering every question and responding to every concern. I really appreciate your "getting the job done" attitude. I love that you absolutely live up to your motto "Together Everyone Achieves More".

I am going to miss working with all of you.

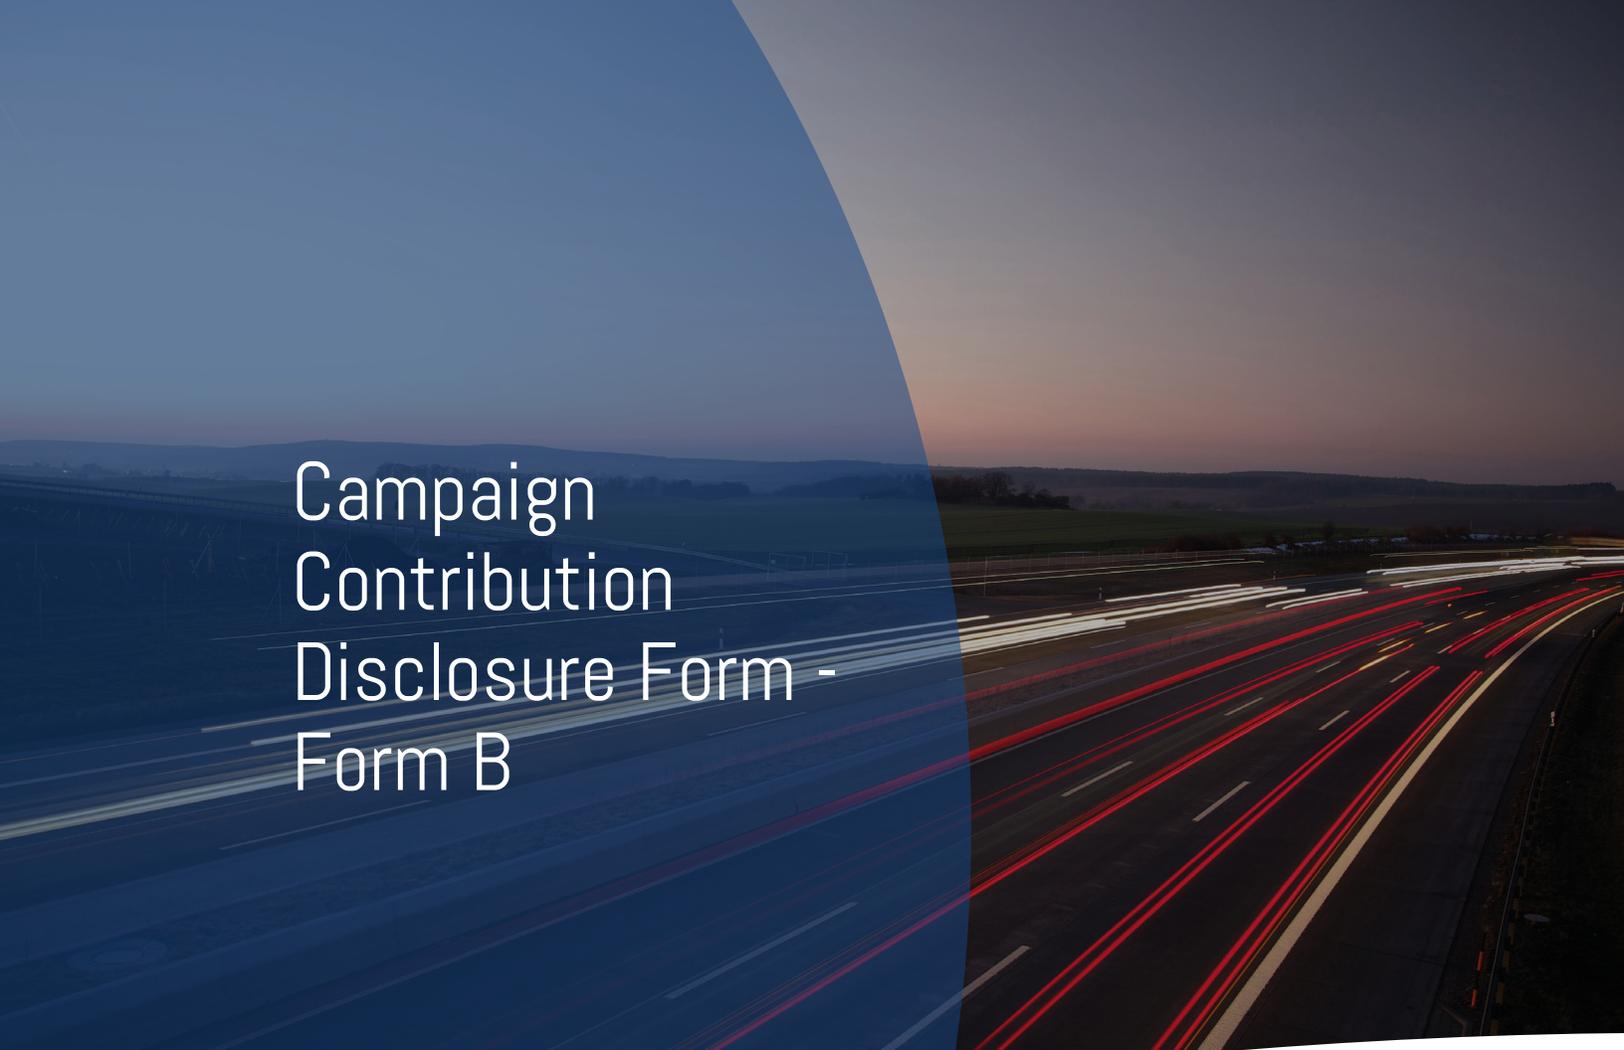

DeeAnn Bacon

It's been a pleasure working with you side by side over the years and you will be missed. I'm grateful for the photos we have taken with staff and the memories we have made over the years. I'm smiling now just thinking of the many customer service weeks and the activities. I will cherish those memories. Thank you for your hard work and dedication to the program. I wish you all many blessings!

Jenny Ugale

Thank you for your dedication over the years to serving our customers. I always appreciated all of the collaboration as we navigated issues together and worked on the best solution for our customers.

**Take care,
Emily Glad**

Contribution
Disclosure Form -
Form B

RFP 0-2690
FORM B

FORM B: CAMPAIGN CONTRIBUTION DISCLOSURE FORM

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Information Sheet

ORANGE COUNTY TRANSPORTATION AUTHORITY

The attached Campaign Contribution Disclosure Form must be completed by applicants for, or persons who are the subject of, any proceeding involving a license, permit, or other entitlement for use pending before the Board of Directors of the OCTA or any of its affiliated agencies. (Please see next page for definitions of these terms.)

IMPORTANT NOTICE

Basic Provisions of Government Code Section 84308

- A. If you are an applicant for, or the subject of, any proceeding involving a license, permit, or other entitlement for use, you are prohibited from making a campaign contribution of more than \$250 to any board member or his or her alternate. This prohibition begins on the date your application is filed or the proceeding is otherwise initiated, and the prohibition ends three months after a final decision is rendered by the Board of Directors. In addition, no board member or alternate may solicit or accept a campaign contribution of more than \$250 from you during this period.
- B. These prohibitions also apply to your agents, and, if you are a closely held corporation, to your majority shareholder as well. These prohibitions also apply to your subcontractor(s), joint venturer(s), and partner(s) in this proceeding. Also included are parent companies and subsidiary companies directed and controlled by you, and political action committees directed and controlled by you.
- C. You must file the attached disclosure form and disclose whether you or your agent(s) have in the aggregate contributed more than \$250 to any board member or his or her alternate during the 12-month period preceding the filing of the application or the initiation of the proceeding.
- D. If you or your agent have in the aggregate contributed more than \$250 to any individual board member or his/or her alternate during the 12 months preceding the decision on the application or proceeding, that board member or alternate must disqualify himself or herself from the decision. However, disqualification is not required if the board member or alternate returns the campaign contribution within 30 days from the time the director knows, or should have known, about both the contribution and the fact that you are a party in the proceeding. The Campaign Contribution Disclosure Form should be completed and filed with your proposal, or with the first written document you file or submit after the proceeding commences.

**RFP 0-2690
FORM B**

1. A proceeding involving "a license, permit, or other entitlement for use" includes all business, professional, trade and land use licenses and permits, and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor or personal employment contracts), and all franchises.
2. Your "agent" is someone who represents you in connection with a proceeding involving a license, permit or other entitlement for use. If an individual acting as an agent is also acting in his or her capacity as an employee or member of a law, architectural, engineering, consulting firm, or similar business entity, both the business entity and the individual are "agents."
3. To determine whether a campaign contribution of more than \$250 has been made by you, campaign contributions made by you within the preceding 12 months must be aggregated with those made by your agent within the preceding 12 months or the period of the agency, whichever is shorter. Contributions made by your majority shareholder (if a closely held corporation), your subcontractor(s), your joint venturer(s), and your partner(s) in this proceeding must also be included as part of the aggregation. Campaign contributions made to different directors or their alternates are not aggregated.
4. A list of the members and alternates of the Board of Directors is attached.

This notice summarizes the major requirements of Government Code Section 84308 of the Political Reform Act and California Code of Regulations, Title 2 Sections 18438-18438.8.

ORANGE COUNTY TRANSPORTATION AUTHORITY
CAMPAIGN CONTRIBUTION DISCLOSURE FORM

RFP Number: 0-2690 RFP Title: BOS & CSC Operations for the 405 Express Lanes

Was a campaign contribution made to any OCTA Board Member within the preceding 12 months, regardless of dollar amount of the contribution by either the proposing firm, proposed Subcontractors and/or agent/lobbyist? Yes No

If no, please sign and date below.

If yes, please provide the following information:

Prime Contractor Firm Name: _____

Contributor or Contributor Firm's Name: _____

Contributor or Contributor Firm's Address: _____

Is Contributor:

- | | | |
|---|------------------------------|-----------------------------|
| <input type="checkbox"/> The Prime Contractor | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| <input type="checkbox"/> Subcontractor | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| <input type="checkbox"/> Agent/Lobbyist hired by Prime to represent the Prime in this RFP | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

Note: Under the State of California Government Code section 84308 and California Code of Regulations, Title 2, Section 18438, campaign contributions made by the Prime Contractor and the Prime Contractor's agent/lobbyist who is representing the Prime Contractor in this RFP must be aggregated together to determine the total campaign contribution made by the Prime Contractor.

Identify the Board Member(s) to whom you, your Subcontractors, and/or agent/lobbyist made campaign contributions, the name of the contributor, the dates of contribution(s) in the preceding 12 months and dollar amount of the contribution. Each date must include the exact month, day, and year of the contribution.

SUBJECT: Request for Proposals (RFP) 0-2690 “Back Office System and Customer Service Center Operations Services for the 405 Express Lanes in Orange County”

Gentlemen/Ladies:

This letter and its Attachments comprise **Addendum No. 10** to the above captioned Request for Proposals (RFP) issued by the Orange County Transportation Authority (herein after “Authority”).

Offerors are advised that the Authority needed to make some changes to the RFP documents as described in the table below. The modifications to this RFP are to be construed as part of the document upon which the Offerors shall prepare their Proposals. Whenever possible, the Authority has provided the modified sections in a redline format (changes tracked).

The Authority has posted the revisions to the RFP referenced in the table below on the CAMM NET website, via this Addendum No. 10.

Items in the table below that are marked “Replace Existing Document(s)” are generally posted in a redline format to show the modifications from the most recent official version of that document. Revisions contained in this addendum are as follows:

RFP Document	Replace Existing Document(s)	Comments
Request for Proposals	Request for Proposals is replaced in its entirety	<p>1. Section I: Instructions to Offerors, D. Authority Contact is updated as follows:</p> <p>Commencing on the date of the issuance of this RFP and continuing until award of the Contract or cancellation of this RFP, no Offeror, Subcontractor, lobbyist or agent hired by the Offeror shall have any contact or communications regarding this RFP with any Authority staff or officers; member of the evaluation committee for this RFP; or any contractor or consultant involved with the procurement, other than the</p>

		<p>Contract Administrator named above or unless expressly permitted by this RFP. Contact includes face-to-face, telephone, electronic mail (e-mail) or formal written communication. Any Offeror, Subcontractor, lobbyist or agent hired by the Offeror that engages in such prohibited communications may result in disqualification of Offeror at the sole discretion of the Authority.</p> <p>This change is made in response to question number 121.</p> <p>2. Form B, Campaign Contribution Disclosure Form, page 4 is updated as follows:</p> <p>ORANGE COUNTY TRANSPORTATION AUTHORITY AND AFFILIATED AGENCIES</p> <p>Board of Directors</p> <p>Steve Jones, Chairman Andrew Do, Vice-Chairman Mark A. Murphy, Vice Chairman Director Lisa A. <p>Exhibit E</p>	<p>Exhibit E is replaced in its entirety</p>	<ol style="list-style-type: none"> 1. Exhibit E, Article 5, paragraph C. has the last sentence updated as follows: <p>C. Extensions Not Constituting Waiver: AUTHORITY's election to extend the Initial Term under Option Term 1 and/or Option Term 2, shall not diminish its right to terminate the AGREEMENT for</p>

		<p>AUTHORITY's convenience or CONTRACTOR's default as provided elsewhere in this AGREEMENT. The maximum Term of this AGREEMENT shall be thirteen (13)<u>fourteen (14)</u> years from the Effective Date.</p> <p>This change is made in response to question number 175.</p> <p>2. Exhibit E, Article 72, paragraph C. has the last sentence updated as follows:</p> <p>CONTRACTOR shall not comment publicly to the press or any other media regarding the Agreement or <u>AUTHORITY's</u>LOCAL AGENCY's actions on the same, except to <u>AUTHORITY's</u>LOCAL AGENCY's staff, CONSULTANT's own personnel involved in the performance of this Agreement, at public hearings, or in response to questions from a Legislative committee.</p> <p>This change is made in response to question number 180.</p>
<p>Form Q Conformance Matrix</p>	<p>Form Q Conformance Matrix is replaced in its entirety</p>	<p>1. Includes updates to Exhibit B requirements.</p>

Offerors are advised that the latest Proposers' Questions and Authority's Responses Log is included as part of this Addendum No. 10.

Offerors are advised that the previous response to Question No. 121 issued with Addendum No. 9 has been revised and a new response to Question No. 121 is included as part of this Addendum No. 10.

February 25, 2021

Page 9

Offerors are advised that the Authority would like to make the following clarification of the Disadvantaged Business Enterprise requirements:

The DBE participation achieved towards the contract DBE goal is based on the value of DBE participation (all tiers) divided by the Prime Contractor's total contract value. DBE commitments at all tiers are combined to get the total value of DBE participation. If a DBE has a contract but then subcontracts a portion of that work out, it would not include the portion of work it is not performing in its DBE participation.

Example: Prime -> Sub 1 Non-DBE \$100 (Tier 1) -> Sub 2 DBE \$40 (Tier 2) -> Sub 3 DBE \$10 (Tier 3), etc.

Based on the above example the total DBE participation would be \$40, the total value of the Tier 2 DBE's self-performed work (\$30) and the Tier 3 DBE's work (\$10). Note: this example assumes that both of these DBE firms are subconsultants allowing them 100% credit for the work they performed. If they were suppliers a 60% factor would be applied:

the total DBE participation would be \$24, the total value of the Tier 2 DBE's self-performed work (\$18) and the Tier 3 DBE's work (\$6).

Offerors are advised that the Authority would like to make the following clarification of the CSC Operations Support for Ramp-Up Customer Services requirements:

The BOS will need to be up and running to support Ramp-Up/Customer Services.

The liquidated damages associated with the Performance Measures will not apply until the Operations and Maintenance Phase begins at Go-Live; however, during Ramp-up/Customer Services the Contractor is expected to staff operations and perform at the level indicated by the Performance Measures.

The Authority does not have anticipated volumes for this period.

Offerors are advised that the Davis-Bacon Act Wage Determination # CA20210024 is included as part of this Addendum No. 10.

February 25, 2021

Page 10

Offerors are advised that the Authority has made available, on its CAMMNET website, a DBE Responsiveness Training which can be found at the following link: <https://cammnet.octa.net/dbe-accordion/>. Offerors are encouraged to visit and benefit from the information provided at the link.

Offerors are reminded to acknowledge receipt of this **Addendum No. 10** in their Letter of Transmittal, which is to accompany the proposal.

Offerors are advised that all changes addressed in this **Addendum No. 10** shall be incorporated into the final Agreement.

Questions regarding this **Addendum No. 10** should be directed to the undersigned at 714-560-5743.

Sincerely,

Bob Webb

Proposers' Questions and Authority's Responses LOG

RFP 0-2690

**Back office System and Customer Service Center Operations Services
for the 405 Express Lanes in Orange County**

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
1.				I am unable to extract the following forms from the main RFP file "RFP 0-2690.pdf". I get the following error: "There was a problem reading this document (15)." Form D-3: Bidders List Form O: Reference Forms Form P: List of Subcontractors Are you able to send these forms out separately so they can be filled in?	Forms D-3: Bidders List, Form O: Reference Forms and Form P: List of Subcontractors are included as separate documents in Addendum No. 6.	
2.				Our primary concern is around the requirement to pre identify the key team personal who we would use to staff. These people would not be hired unless we won the bid. Is this a requirement?	Yes it is a requirement to identify key personnel within your proposal. Please See instructions to identify Key Team Personnel in Section II. A. 4. Proposal Section B – Staffing and Project Organization.	
3.				Can you share any info on why the first bid was not awarded and reissued?	The first procurement was not awarded due to OCTA's desire to increase competition to meet federal funding requirement.	
4.				Is this for the Toll Roads in Irvine on Pacifica?	No, it is not. This Express Lanes facility is for the freeway widening project on the I-405 in Orange County.	
5.				Where is the office?	The customer service center office will be located somewhere along the I-405 project corridor, to be determined in the near future.	
6.				Will there be any requirement for console or technical furniture for the CSC Operations Space being provided by OCTA for the project?	As part of the facility build-out, OCTA will provide the console or technical furniture for the CSC Operations space based on a design developed by OCTA and the selected Offeror. That furniture will not be acquired by the selected Offeror as part of this RFP.	
7.				OCTA is planning on a TSOC. Will that facility be controlling traffic for this project?	The Traffic Operations Center that will monitor the I-405 Express Lanes has been acquired as part of a previous RFP and is planned to be located at the OCTA Bus Yard Building in Santa Ana.	
8.	N/A	Form Q	Conformance Matrix	Please note that Form Q is 'Protected' and we are therefore unable to add input.	Instructions are available in the "Instructions" tab of Form Q and in this addendum. Responses are only allowed for the rows with requirements. Submit a follow up question if this remains an issue.	Added "Instructions for Completing Conformance Matrix" to Form Q: Conformance Matrix, page 57 in the RFP. These instructions are a tab of the Excel file version of the Conformance Matrix included in the RFP zip file, but were not included in the PDF version of the RFP. Addendum No. 6

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
9.	32/1132	Section 4	DBE Program Requirements and forms	Please clarify if Form D-2 (Good Faith Efforts) is required if the DBE goal is met. Conflicting requirement: Form D02 states it must be completed even if the goal is met, whereas, the RFP indicates to include only if the DBE goal wasn't met.	<p>The DBE Information – Good Faith Efforts (Form D-2) is not required if the DBE goal is met with eligible participation on Exhibit 10-01 “Consultant Proposal DBE Commitment Form” (Form D-1) and supported by DBE Letters of Acknowledgement and Commitment from each listed DBE firm.</p> <p>The language on Form D-2 “Proposer should submit the following information even if the “DBE Participation Commitment Form” indicates that the proposer has met the DBE goal.” was included to encourage submission of Form D-2, to protect the proposer’s eligibility for award of the contract if Authority determines that the proposer failed to meet the goal for various reasons, e.g., a DBE firm was not certified at proposal submission, or the proposer made a mathematical error.</p>	
10.	21/1132	Section A.1	Format	Regarding using a single method of fastening, please confirm if a 3-ring binder is acceptable.	Authority confirms that a 3-ring binder an acceptable method of fastening a proposal.	
11.				Is it possible to filter specifically for print/mail house related DBE's? If so, how can the potential Offeror do this?	<p>A few of the NAICS codes associates with printing are as follows:</p> <ul style="list-style-type: none"> • 323111 - Commercial Printing (except Screen and Books) • 323120 Support Activities for Printing • 511199 All Other Publishers <p>A few of the Work Category codes (WCC) associated with printing are as follows:</p> <ul style="list-style-type: none"> • D2750 COMMERCIAL PRINTING • D2790 PRINTING TRADE SERVICES <p>For detailed instructions on searching by a NAICS/WCC please see the attachment to Addendum No. 7 labeled “How to Create a DBE Listing by Location and Scope”.</p>	
12.				Could Authority confirm that Douglas Stewart is not considered a DBE company? From the previous proposal, it seemed as if they were close to becoming one within the next couple of months, so we are curious if you had a more updated list of DBE's?	As of January 29, 2021, this firm was not found in the CUCP database of certified firms when searching by firm name. (See Attachment to Addendum No. 7) The best way to search for a firm's certification is by its Certification Firm ID, if available. For detailed instructions on searching by a Firm ID or name, please see the attachment to Addendum No. 7 labeled “How to Verify if Your Listed DBE Firms are Certified”.	
13.				Please reconfirm the due date for this procurement by providing it in response to answers to questions.	The due date for this procurement is March 22, 2021.	
14.				Why has this bid been released at this time?	The I-405 Express Lanes are brand new and currently not in operation. The solicited services are needed to meet the I-405 Express Lanes opening date.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
15.				Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable.	The I-405 Express Lanes are brand new and currently not in operation.	
16.				Has the current contract gone full term?	The I-405 Express Lanes are brand new and currently not in operation.	
17.				What estimated or actual dollars were paid last year, last month, or last quarter to any incumbent(s)?	The I-405 Express Lanes are brand new and not currently in operation; therefore, current data are not available.	
18.				Please provide a complete list of the means of inbound and outbound communication the call center must accommodate.	<ul style="list-style-type: none"> • Phone • Chat • Email • SMS • Fax • USPS • Walk-in 	
19.				Is previous experience with any specific customer information systems, phone systems, or software required?	The requirements do not dictate the use of specific systems. However, the potential Offeror is required to provide customer information systems, phone systems, and software, as well as other components, to meet the Scope of Work.	
20.				What is the minimum required total call capacity?	Exhibit B, Volume II, Section 1.13.1. Telephony Systems Requirements, Requirement 1311 – The Contractor shall provide sufficient Session Initiation Protocol (SIP), or equivalent, to support 200 percent of anticipated call volumes.	
21.				What is the minimum simultaneous inbound call capacity?	Exhibit B, Volume II, Section 1.13.1. Telephony Systems Requirements, Requirement 1307 – The Contractor shall provide a telephony system including an automated call distributor (ACD) that is fully integrated with the BOS for capable of simultaneously handling inbound/outbound customer calls, all CSC Operations calls and on-site BOS personnel internal calls. The telephony system shall be capable of meeting all current and future capacity Requirements.	
22.				What is the maximum wait time?	There is not a defined maximum wait time. The Operational Performance Measure that must be achieved is 80% of all calls must be answered within 60 seconds.	
23.				What is the maximum hold time?	There is not a defined maximum hold time.	
24.				What percentage of inbound calls must be answered by a live operator?	There is no requirement or performance measure for percentage of inbound calls answered by a live operator.	
25.				What percentage of calls must be resolved without a transfer, second call, or a return call?	There is no requirement or performance measure for the percentage of transfers.	
26.				What is the maximum percentage of calls that can be terminated by the caller without resolution?	There is no requirement or performance measure for the maximum number of calls that can be terminated without resolution.	
27.				Is there a minimum or maximum number of operators and supervisors?	The Offeror is required to use its knowledge and experience to staff the CSC with the correct number of operators and supervisors to consistently meet the performance measures.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
					The number of operators and supervisors must be within the approved price proposal and adhere to the approved staffing plan.	
28.				What are the call center's hours of operation?	The minimum hours of operation can be found in Exhibit B, Volume III, Section 1.1.2.2.1. Hours of Operation and Holidays, Requirement 27 provides the Call Center hours of operation as 8:00am – 6:00pm Monday – Friday, Pacific Time.	
29.				What are the required language options?	Exhibit B, Volume III, Section 1.1.2.3. Serving Customers with Special Needs, Requirement 32. English and Spanish are required onsite and the Contractor shall provide a real-time translation service for all other languages.	
30.				What is the required degree of dedication for the call center?	The call center systems supporting the call center staff is intended to be 100% dedicated to this project.	
31.				What is the required degree of dedication for the operators?	The operators and supervisors will be located at an OCTA provided facility and are intended to be 100% dedicated to this project.	
32.				Are callers required or allowed to connect with a message verification system or pre-recorded message before connecting to a live operator, or must a live operator be the initial contact?	Callers are allowed to connect with an IVR/automated system prior to connecting to a live operator. However, the Operational Performance Measure that must be achieved is 80% of all calls (requesting to speak with a CSR) must be answered (by a CSR) within 60 seconds.	
33.				What are the recording requirements for inbound and outbound phone calls and how long must recordings be maintained?	Exhibit B, Volume I, Section 4.2.17. Records, Requirement 180 requires that customer phone calls shall be online and readily available for a minimum of 2 years after date of recording.	
34.				What are the recording and storage requirements for non-phone communications?	Exhibit B, Volume I, Section 4.2.17. Records, Requirements 179 and 180 provide direction on non-phone communication retention.	
35.				What information is to be included in call logs?	General logging requirements are provided in Exhibit B, Volume II, Section 1.1.2.4. Logging Mechanism. In addition, the Offeror should anticipate that all information collected by the system related to a customer contact will be stored appropriately in the BOS.	
36.				What was your average monthly call volume over the past year?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
37.				What is the current number of seats for operators and supervisors at your existing call center?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
38.				What is the current average wait time for phone calls?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
39.				What is the current average handle time for phone calls and other types of communications?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
40.				What is the current average after-call work time for operators?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
41.				Over the past year, what is the percentage of calls received in English versus non-English?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
42.				Over the past year, what percentage of calls received were in Spanish?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
43.				What time of day, days of the week, or times of the year do calls typically peak?	The I-405 Express Lanes are brand new and currently not in operation; therefore, current data is not available.	
44.	140/1132	Section 7.2.1	Unit Testing	Please clarify the term "Unit Testing" as its definition and scope is unclear and may be referring to a formal FAT (Factory Acceptance Phase). We respectfully ask if "Unit Testing" should be replaced with "System Testing".	Unit Testing will not be replaced with System Testing. System Testing is not a defined term. Please feel free ask a more specific follow-up question regarding Unit Testing requirements or to clarify the scope.	
45.	95/1132	Exhibit B, Volume I, Req 64	ADA Compliance	Please clarify if the ADA compliance is applicable only to the Self Service Web site.	ADA compliance is applicable in areas in addition to the Self Service Website, for example: <ul style="list-style-type: none"> • See Exhibit B, Volume I, Section 2.4. Staff Selection Requirements, Requirement 64 • See Exhibit B, Volume III, Section 1.1.2. I-405 CSC and WIC Facility, Requirement 10, The Contractor shall provide and install all internal workspace signage and name plates that are Americans with Disabilities Act (ADA) compliant. • See Exhibit B, Volume III, Section 1.1.2.3. Serving Customers with Special Needs, in total 	
46.	620/1132	Exhibit C	Preliminary Milestone Schedule	Please clarify what triggers the O&M phase to start. Month 36? Does it start as soon as month 30 when the BOS Acceptance phase is approved or at month 36?	The Operations and Maintenance Phase begins at Go-Live.	
47.	450/1132	Operations KPIs, #'s 7 and 13	KPI's	Operations KPI #'s 7 and 13 appear to be duplicates of each other. Would the agency consider consolidating to one?	Authority will not consider consolidating these. KPI #7 is Speed of Answer for the Call Center. KPI #13 is WIC wait time.	
48.	450/1132	Operations KPI #12	KPI's	Operations KPI #12 regarding first contact resolution. To accurately and completely resolve many issues will require follow up with the customer (i.e. customer providing documentation etc.). Contractor is waiting on customer in order to resolve. These could easily be misidentified as not meeting first contact KPI. Would agency please consider adding language exempting contacts where Contractor is waiting on customer response in order to resolve?	Authority will not consider adding this language. The KPI of 85% allows for 15% of the contacts to be unresolved after the first contact. Customer Survey question(s) for First Contact Resolution will be developed during the Implementation Phase to incorporate potential follow up time for additional customer response	
49.	450/1132	Operations KPI #14	KPI's	Operations KPI #14 regarding case resolution. To accurately and completely resolve many issues will require follow up with the customer (i.e. customer providing documentation etc.). Contractor is waiting on customer in order to resolve. Would agency please consider adding language exempting cases where Contractor is waiting on customer response in order to resolve	Authority will not consider adding this language. The clock for this measure will not count time during which the Contractor is waiting for response from Authority or from the customer. Cases will have dispositions that will indicate waiting on customer or Authority documentation/response which will be agreed upon during the Implementation Phase.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
50.	451/1132	Operations KPI #15	KPI's	Operations KPI #15 regarding monthly case resolution. To accurately and completely resolve many issues will require follow up with the customer (i.e. customer providing documentation etc.). Contractor is waiting on customer in order to resolve. In some cases the customer may never provide promised documentation or complete required action. Would agency please consider adding language exempting contacts where Contractor is waiting on customer response in order to resolve	Authority will not consider adding this language. Cases which will be reviewed for accuracy will be cases which are deemed closed by the Contractor.	
51.	451/1132	Operations KPI #18	KPI's	Operations KPI #18 regarding high priority case resolution. To accurately and completely resolve many issues will require follow up with the customer (i.e. customer providing documentation etc.). Contractor is waiting on customer in order to resolve. Would agency please consider adding language exempting cases where Contractor is waiting on customer response in order to resolve	Authority will not consider adding this language. The clock for this measure will not count time during which the Contractor is waiting for response from Authority or from the customer. Cases will have dispositions that will indicate waiting on customer or Authority documentation/response which will be agreed upon during the Implementation Phase.	
52.	All	Form Q	Conformance Matrix	As a follow-up to the Authority's response to Addendum #6 regarding protected cells, it appears that Column C is greyed out for rows that are requirements, based on the requirement number expressed in Column A. Even so, those rows require a response to the other columns. One example is Volume II, lines 157-166. Please clarify that a response is needed for Column's D - H, even if Column C is greyed out.	A response is required for each requirement. If Column C is greyed out, then provide a response in Columns D – H.	
53.	21/1132	Section II. Proposal Content	Proposal Format and Content	In regards to the double-spacing requirement, we respectfully request something less restrictive, possibly 1.2 - 1.5 spacing.	No change will be made to the RFP requirements.	
54.	49/1132	Exhibit A	Definitions – Merchant Services Provider	The Authority is asking that the Contractor also provide the Merchant Services Provider as part of their overall scope of services. Question: Will the Authority be the Merchant of Record (MOR) and sign any resulting merchant services agreement, or does the Authority expect the Contractor to act as the MOR?	Authority will be the Merchant of Record. Contractor will be the Submitter.	
55.	RFP page 11	I.U	Execution of Contract	The RFP provides that a "Letter of Guaranty" may be required at the Authority's sole discretion. The notion of "Letter of Guaranty" is not defined in the RFP. Question: Given that the RFP already requires the Contractor to provide Performance Bonds, Payment Bonds and Operation and Maintenance Bonds, please confirm that at this time a Letter of Guaranty is not required.	At this time, a Letter of Guarantee is not required in addition to the Payment and Performance bonds.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
56.	, 6 of 10	Exhibit B, Scope of Work, Volume IV Section 1.2	CSC Operations Performance Measurement	<p>KPI #8 Abandon Rate – The Contractor shall ensure incoming calls do not abandon prior to speaking with a CSR.</p> <p>Question: Performance Measure #8 does not specify a reduction related to short abandon calls. Will the Agency consider excluding for short abandon calls (calls less than 30 seconds) from the metric?</p>	No change will be made to the RFP requirements.	
57.	10-11 of 109	Exhibit E, Proposed Agreement, Article 4.C.6	Key Team Personnel	<p>Question: Would the Authority consider amending this clause to require Contractor to provide resume and qualifications of a proposed replacement no later than 30 Business Days after Contractor becomes aware that a Key Team Personnel is no longer available?</p> <p>Question: Would the Authority consider LDs are imposed if Contractor isn't demonstrating consistent reasonable efforts to fill the position?</p>	No change will be made to the RFP requirements.	
58.	15 of 109	Exhibit E, Proposed Agreement, Article 7.D	Start and Phases of Work	<p>Proposer acknowledges that the Authority may change the Go Live date by up to 90 days in either direction. However, such a move will likely impact schedule, planning and costs. Proposer suggests that such a significant schedule change should be subject to the contractual change procedure.</p> <p>Question: Will the Authority please add language providing that the Authority must use the change procedure to change the Go Live date?</p>	No change will be made to the RFP requirements.	
59.	26-28 of 109	Exhibit E, Proposed Agreement, Article 14	Indemnification	<p>Question: Will the Authority consider including a cross-indemnity provision whereby Authority shall defend, indemnify and hold harmless Contractor for negligent acts by the Authority?</p>	No change will be made to the RFP requirements.	
60.	26-28 of 109	Exhibit E Proposed Agreement, Article 14	Indemnification	<p>Question: Please confirm that the obligations of Article 14 only attach to causes of action or IP infringement (or alleged infringement) that occurred during the term of the Agreement (although the obligation itself may still be exercised after the term of the Agreement).</p>	No change will be made to the RFP requirements. Section 14 by its terms is limited to claims "in connection with or arising out of the performance of this Agreement." With respect to IP, indemnity obligations apply during any period in which a claim is made against AUTHORITY for IP infringement.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
61.	26 of 109	Exhibit E, Proposed Agreement, Article 14.A	Indemnification	<p>Question: Please add language clarifying that the intention of the indemnification clause is not to provide an alternative means of dealing with inter-party disputes.</p> <p>For example: "The indemnification requirement set forth in this Section 14.A is intended to provide protection to AUTHORITY with respect to third-party claims. It is not intended to provide AUTHORITY with an alternative cause of action for damages incurred directly by AUTHORITY with respect to any breach of this AGREEMENT."</p>	No change will be made to the RFP requirements. Under California law, Indemnity provisions only relate to third party claims unless the Agreement provides otherwise. See <i>Zalkind v. Ceradyne, Inc.</i> (2011) 194 Cal.App.4 TH 110. The Agreement does not provide otherwise.	
62.	26-28 of 109	Exhibit E, Proposed Agreement, Article 14	Indemnification	<p>Question: Will the Authority consider adding language stating that if the Authority is found to be partially at fault, Contractor is not required to indemnify the Authority from or against the percentage of fault attributable to the Authority?</p>	No change will be made to the RFP requirements.	
63.	34 of 109	Exhibit E, Proposed Agreement, Article 17.A	Disputes	<p>The dispute resolution provision suggests that all decisions, except questions of law, will be decided by the Authority itself and does not provide any opportunity to appeal.</p> <p>Question: Will the Authority consider adding an appeal right?</p>	No change will be made to the RFP requirements. The language specifies that no decision by Authority on a question of law is binding. It does not state all other questions are binding as suggested. The right of appeal is with the superior court or as the parties may otherwise agree.	
64.	34 of 109	Exhibit E, Proposed Agreement, Article 17	Disputes	<p>The dispute resolution provision suggests that all decisions will be made by the CAMM, but proposer suggests that certain matters should be excluded due to their subject matter.</p> <p>Question: Will the Authority consider adding a list of "Excluded Matters" that will be sent directly to Orange County courts or arbitration rather than to the Authority's CAMM? Matters that are customarily excluded from agency decision-making include: (a) disputes involving intellectual property rights, (b) disputes unrelated to Scope of Work, payments, or the Agreement, and (c) disputes about termination other than for cause.</p>	No change will be made to the RFP requirements. See above response. In addition, one of the primary purposes of the administrative dispute resolution process is to avoid litigation no matter what matter be the subject of the dispute	
65.	34 of 109	Exhibit E, Proposed Agreement, Article 17.B	Disputes	<p>The dispute resolution clause says questions of law will be settled in Orange County Courts or the parties may elect mediation or arbitration.</p> <p>Question: Will the Authority consider adding a provision waiving the right to jury trial for questions settled in Orange County Courts?</p> <p>Question: Will the Authority consider adding a provision requiring the use of California law for questions settled by arbitration?</p>	No change will be made to the RFP requirements. The parties can agree to waive a jury trial. To the extent the parties agree to arbitration, the rules therefore can be agreed upon at that time.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
66.	34-38 of 109	Exhibit E, Proposed Agreement, Article 18 & 19	Liquidated Damages/Actual Damages	<p>Question: Will the Authority consider placing a cap on both the Implementation damages and the Operations damages?</p> <p>Question: Will the Authority also consider adding a provision that except for losses under these Articles, neither party will be liable to the other for any special, consequential, punitive or other indirect damages?</p>	No change will be made to the RFP requirements.	
67.	38 of 109	Exhibit E, Proposed Agreement, Article 20.A	Risk of Loss	<p>This section says that Proposer carries risk of loss "except to the extent caused by the sole negligence ... of the Authority". The combination of "to the extent" and "sole negligence" is ambiguous.</p> <p>Question: Will the Authority please delete the word "sole" so that the Authority's intended meaning is clear?</p>	No change will be made to the RFP requirements. Contractor is in the best position to defend against a risk of loss. This provision is to avoid having Contractor shift partial blame to the Authority. These are common contractual terms.	
68.	38-40 of 109	Exhibit E, Proposed Agreement, Article 21.A.1	Event of Default	<p>Question: Please consider adding the following clarifications to defaults:</p> <p>(a): add materiality thresholds for dollar amounts and days delay;</p> <p>(b): make a definitive list, not any Deliverable; if Authority wants more than insurance, bonds and other performance security, please specify;</p> <p>(c): delete – many factors can contribute to a project's failure to strictly adhere to schedule, and other protections are in place for failure to meet terms of agreement;</p> <p>(g): see comment to (a);</p> <p>(i) change to "Contractor takes an action without approval of Authority, where required under this Agreement"; and</p> <p>(k) add materiality threshold.</p>	No change will be made to the RFP requirements.	
69.	40-41 of 109	Exhibit E, Proposed Agreement, Article 21.A.2		<p>To provide certainty in the operation of the Agreement, Proposer requests that the Agreement provide for a minimum period in which to provide requested assurances.</p> <p>Question: Will the Authority please add language stating that the time period to provide requested assurances is not less than 15 days, which would match the cure period in Article 21.B.</p>	No change will be made to the RFP requirements. Unlike 21.B, which is a time period for curing a default, 21.A.2 is not a time period for cure, but rather submission of written documentation that Contractor can perform. Outside of providing a written assurance, the Contractor is not being asked to take any action.	
70.	42 of 109	Exhibit E, Proposed Agreement, Article 21.C.1	Remedies in the Event of Default: Notice of Termination for Cause	<p>Question: Please delete the following from lines 16-19: "including but not limited to all technical specifications, drawings, source code, and object code placed in Escrow. Authority may make such escrowed materials available to third parties, along with third party licenses and Software, and/or procure other materials, plant, tools, Equipment and supplies." Escrow is separately dealt with in Article 27.</p>	No change will be made to the RFP requirements.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
71.	44 of 109	Exhibit E, Proposed Agreement, Article 22.A	Termination for Convenience	<p>Question: Will the Authority please add a 90-day notification period to exercise termination for convenience?</p> <p>Question: Please provide specificity for allowable costs, e.g., costs necessary to affect such termination, including without limitation reasonable costs incurred in performing the obligations under Article 36.</p>	No change will be made to the RFP requirements.	
72.	44 of 109	Exhibit E, Proposed Agreement, Article 22.B	Termination for Convenience	<p>This section broadly claims ownership of all reports, investigations, appraisals, drawings, etc. performed to the date of termination. This is fair insofar as it relates to Authority data and other information belonging to Authority. However, it is too broad because it catches internal notes and studies which may not exclusively relate to the Authority and which may not be intended for the Authority's review or consumption.</p> <p>Moreover, this section is too broad to the extent it claims ownership of any of Contractor's or subcontractor's proprietary information or software (including data reporting tools) which may be included in or used in the preparation of such reports, investigations, etc.</p> <p>Question: Please exclude internal documentation, correspondence, etc. from this Section.</p> <p>Question: Please exclude proprietary information or software (including reporting tools and other IP) from this Section as the IP license terms are provided in Articles 25 and 26.</p> <p><u>See also Article 43 which has similar rights and obligations.</u></p>	<p>Authority has changed the word "work" to capitalize "Work" in Article 22.B to clarify ownership is with respect to documents produced for this Agreement. Authority is entitled to all IP documents, materials and Deliverables (i) created under the Contract; (ii) contain Project IP, CONTRACTOR IP, or 3RD Party IP for which Authority has a license, or (iii) contain Authority data. In no event should Contractor be incorporating information, data or IP (i) not for the purpose of the Agreement or (ii) for which a license has not been properly granted per Article 25.B. No other change will be made.</p>	<p>Exhibit E, Article 22.B. is updated as follows:</p> <p>Upon termination, AUTHORITY shall be entitled to all workWork, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.</p> <p>Addendum No. 9</p>

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
73.	45 of 109	Exhibit E, Proposed Agreement, Article 22.C	Termination for Convenience	<p>This Section provides that the Authority can suspend the Agreement at no additional cost. However, any suspension of the Agreement will incur significant costs, either due to demobilization and remobilization of the project, or in costs for continued employment of personnel and licensing of necessary software. In addition, for anything more than a <i>de minimis</i> suspension, an equitable extension of the contract term should be granted.</p> <p>Question: Please provide language stating that any suspension of the Agreement lasting for more than a <i>de minimis</i> period of time, will be subject to the change control procedure to take into account the duration of the suspension, the cost for demobilization/remobilization, and other necessary costs incurred.</p>	<p>Authority has included the following language in 22.C.: "AUTHORITY may temporarily suspend this Agreement. Upon AUTHORITY providing written notice of such suspension to CONTRACTOR, CONTRACTOR shall immediately suspend all activities under this Agreement; provided that AUTHORITY agrees to reimburse CONTRACTOR only for costs necessarily incurred in ceasing such activities."</p>	<p>Exhibit E, Article 22.C. is updated as follows:</p> <p><u>AUTHORITY may temporarily suspend this Agreement. Upon AUTHORITY providing written notice of such suspension to CONTRACTOR, CONTRACTOR shall immediately suspend all activities under this Agreement; provided that AUTHORITY agrees to reimburse CONTRACTOR only for costs necessarily incurred in ceasing such activities., at no additional cost to AUTHORITY, provided that CONSULTANT is given written notice of temporary suspension. If AUTHORITY gives such notice of temporary suspension, CONTRACTOR shall immediately suspend its activities under this Agreement. A temporary suspension may be issued concurrent with the notice of termination.</u></p> <p>Addendum No. 9</p>
74.	48-49 of 109	Exhibit E, Proposed Agreement, Article 25.A	Intellectual Property	<p>As currently drafted, 25.A limits Contractor's ability to use IP developed in the context of the Project in its future projects or products, which is off market and imposes unreasonable restrictions on Contractor's future product marketing and development.</p> <p>Question: Will the Authority consider negotiating the provisions regarding ownership and licensing of Project Intellectual Property as between the Authority and the Contractors to give the Authority all IP rights necessary to undertake the Project if necessary, while not unduly burdening the Contractor going forward?</p> <p>Note also that the Escrow Agreement should be modified to match the licensing arrangement in Section 25.</p>	<p>No change will be made to the RFP requirements.</p>	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
75.	50 of 109	Exhibit E, Proposed Agreement, Article 25.B	Intellectual Property	<p>Section 25.B is ambiguous about the extent of the license and could be read to extend more broadly than is presumably intended.</p> <p>Question: Will the Authority consider revising Section 25.B to clarify the scope of the license granted to the Authority. For example, providing the license is "to use, distribute, reproduce, adapt and display, and prepare derivative works of the CONTRACTOR Intellectual Property solely for the Project or any Deliverable, Work, service(s), and/or Software, including any Upgrades, Updates or Enhancements <u>thereto solely for the Project.</u>"</p> <p>Note also that the Escrow Agreement should be modified to match the licensing arrangement in Section 25.</p>	<p>Authority has changed the last sentence in 25.A.1. to read:</p> <p>"All rights granted in this Article 25.A.1 only, shall terminate at the expiration of the Term or upon earlier termination subject to Articles 21 or 22." No other changes will be made.</p>	<p>Exhibit E, Article 25.A.1. has the last sentence updated as follows:</p> <p>All rights granted in this Article <u>25.A.1 only</u>, shall terminate at the expiration of the Term or upon earlier termination subject to Articles <u>21 or 22.</u></p> <p>Addendum No. 9</p>
76.	52-53 of 109	Exhibit E, Proposed Agreement, Article 26.B	Intellectual Property Escrow	<p>Intellectual Property Escrows also may include Affiliates as parties and may include deposit of their Intellectual Property.</p> <p>Question: The last sentence mentions "Affiliates," which is undefined. Please consider revising to "third parties whose Third Party Intellectual Property is required to be deposited in escrow pursuant to this Agreement" or similar.</p>	No change will be made to the RFP requirements.	
77.	53 of 109	Exhibit E, Proposed Agreement, Article 26.E	Intellectual Property Escrow	<p>Question: Will the Authority please revise clause 1 to clarify that the escrow release will occur only for termination "for a material breach of the Agreement by Contractor pursuant to Section 21.C.1"?</p> <p>Note also that the Escrow Agreement should be modified to match the revised release conditions in Section 26.E.</p>	No change will be made to the RFP requirements.	
78.	53-54 of 109	Exhibit E, Proposed Agreement, Article 26.F	Intellectual Property Escrow	<p>Question: Will the Authority please revise this section to provide that in the event of release pursuant to Section 26, the Authority can take any action consistent with the license rights set forth in Article 25. The rights under this section should not be broader than the actual license granted.</p>	No change will be made to the RFP requirements.	
79.	58-59 of 109	Exhibit E, Proposed Agreement, Article 28.F	Data Accuracy	<p>Question: Will the Authority consider deleting the final clause "and Contractor agrees to waive any applicable limitation periods consistent with enforcement of this provision."</p>	No change will be made to the RFP requirements.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
80.	62 of 109	Exhibit E, Proposed Agreement, Article 31.E	Coordination with other Contractors	<p>The second sentence of Section 31.E provides "Any damage to Work, persons or property of CONTRACTOR by other contractors shall be the responsibility of other contractor(s) and CONTRACTOR shall have no claim against AUTHORITY or Caltrans."</p> <p>However, damage to Work, persons or property, or unnecessary delays or failure to finish Work within time specified, may impact schedules and require associated efforts.</p> <p>Question: Please consider adding language accounting for such impacts. For example: "In the event of such damages or losses, Contractor may submit a change order with any necessary updates to scheduling or associated efforts."</p>	No change will be made to the RFP requirements.	
81.	71 of 109	Exhibit E, Proposed Agreement, Article 43.A, B, and C	Ownership and Handling of Reports, Documents and Data	<p>This section broadly claims ownership of all reports, investigations, appraisals, drawings, etc. performed to the date of termination. This is fair insofar as it relates to Authority data and other information belonging to Authority. However, it is too broad because it catches internal notes and studies which may not exclusively relate to the Authority and which may not be intended for the Authority's review or consumption.</p> <p>Moreover, this section is also too broad to the extent it claims ownership of any of Contractor's or subcontractor's proprietary information or software (including data reporting tools) which may be included in or used in the preparation of such reports, investigations, etc.</p> <p>Question: Please exclude internal documentation, correspondence, etc. from this Section.</p> <p>Question: Please exclude proprietary information or software (including reporting tools and other IP) from this Section as the IP license terms are provided in Articles 25 and 26.</p> <p><u>See also Section 22.B which has similar rights and obligations.</u></p>	See response to Question 72 above.	
82.	91-91 of 109	Exhibit E, Proposed Agreement, Article 75	Force Majeure	<p>Question: Please clarify that Force Majeure includes stoppages and delays resulting from any emergency declared by a local, state, or federal authority with jurisdiction over the Project and with authority to declare an emergency, regardless of whether such emergency was unforeseen or unforeseeable.</p>	No change will be made to the RFP requirements. There may be instances when a declaration of emergency can be foreseen and a party may have actions within its control that will adequately respond to the emergency and not result in nonperformance or reduce the incidence thereof. To the extent an emergency declaration is unforeseen and arises out of a Force Majeure event, then this article would apply.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
83.	153/1132	Exhibit B & Exhibit C	Section 10 & Preliminary Milestone Schedule	Extensive duration for review and approval cycles will result in not enough time to start the Unit testing Phase (there is only 2 months of gap between design approval & start of unit testing). Not only is this not practical but this will increase the risk to the overall delivery timeline. Are proposers allowed to implement an alternative approach that allows for either reduced times for design and technical document review or alternately compression of "on-site installation and commissioning" period but achieving the go-live date as stated in the RFP?	The Contractor may submit for consideration a Baseline Implementation Schedule with some reduced times for design and technical document reviews and/or an alternative method of compressing the testing and installation time frames.	
84.	36/1132	Section III	Evaluation and Award	Is there is a difference of weightage/distribution assigned to the various cost items specified in the price sheets (variable vs. base/mandatory vs. optional, etc.)? Or will the authority score on the total price from the offeror?	Authority will consider the Offeror's total price in its price evaluation.	
85.	ID No. 279, 301, 302	Form Q	Conformance Matrix	PCI compliance requires only quarterly QSA executed ASV vulnerability scans and annual penetration testing; is requirement to meet PCI compliance frequency or is the stated frequency of penetration testing accurate?	The stated frequency of penetration testing is accurate and may go beyond what is required for PCI compliance.	
86.	140/1132	Exhibit B Volume I, Section 7.2.1	Unit Testing	<p>This is a follow-up question to No. 44 of Addendum 7. Unit testing is part of the development process and will be executed as part of that. However, it is not a witnessed test as it occurs continuously throughout the SDLC. System Testing is a defined term (see diagram). System testing is the e2e testing of the units and components after integration testing and is executed for example in a Factory Release Test prior to the Acceptance Test Phases.</p> <p>Do we assume correctly that unit testing will not be a formal phase that is witnessed, but rather we provide unit testing coverage as a report? Or how is it envisioned to demonstrate unit testing coverage?</p> <p>SYSTEM TESTING is a level of testing that validates the complete and fully integrated software product. The purpose of a system test is to evaluate the end-to-end system specifications. Usually, the software is only one element of a larger computer-based system. Jan 21, 2021</p>	The Unit testing is a test phase, tied to a milestone payment, where the testing of individual software components are witnessed by Authority prior to full System Integration Testing. Authority will consider alternative approaches; however, alternative approaches may delay payment milestones and risk that fully integrated software components need to be reworked at a late stage in development.	
87.	930/1132	Form Q, Section 7.2.1	Req. 300	Could you please clarify what you mean with backend programs and processes testing as described in section 7.2.1 Requirement 300.	Backend programs and processes would cover any dependencies based on the Contractor's design that are not specifically mentioned.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
88.	Various	Exhibit B, Vol. I	Retention Period	Is there a separate retention period for images associated with pre-paid tag transactions? Meaning, could we only store images with tag transactions for a reduced period (e.g. 3 months) instead of the standard retention.	Detailed data retention durations will be determined during the Implementation Phase. All information, other than that prohibited within the Requirements, will be retained for the duration of the Agreement and archived or moved to long-term storage as deemed appropriate during the Implementation Phase to meet all customer and Agency needs for reporting and data access.	
89.	446/1132	Table 1: BOS Performance Measurers and Adjustments,	KPI #6	Is "Posted" to be interpreted as "Processed"? During the trip posting process, transactions may not end up being posted due to rejection rules.	The KPI states "... accurately posted ...", which will include only those transactions that should be posted and will exclude any transactions that should not be posted.	
90.	Page 1 of 109 (PDF page 677/1132)	EXHIBIT E: PROPOSED AGREEMENT	Article 8. Payment	Article 8.L allows OCTA to withhold payment for completed work while requiring the contractor to continue to perform. Would OCTA consider modifications to this article?	No change will be made to the RFP requirements. This provision addresses situations in which Contractor invoices for work which it represents is complete and Authority disagrees or has questions whether the work has in fact been performed.	
91.	(PDF page 676/1132)	EXHIBIT E: PROPOSED AGREEMENT	Not Available	The included agreement does not contain a limit to the contractor's liability. This will result in increased risk for the contractor and increased costs for OCTA. Would OCTA consider the addition of clauses to the agreement to limit the contractor's liability?	No change will be made to the RFP requirements. Proposers need to assess potential liability and plan therefore. Unclear how limiting the Contractor's liability would reduce OCTA's risk.	
92.	Not Available	Not Available	Not Available	If a subcontractor was involved in a court case, should that be disclosed?	Authority cannot provide a response without more information on the specifics of the question; however, RFP Section II A 4, Proposal Section A- Qualifications, Related Experience and References (Item 3) requires that the Offeror identify conditions that may impede the team's ability to complete the Project, such as pending litigation of a major Subcontractor.	
93.	Page 13 (PDF page 21)	Section II A. 1	Proposal Format	Will OCTA allow smaller fonts in headers and footers as well?	As long as all fonts are legible without magnification, smaller fonts may be used for headers and footers.	
94.	Page 10	Section 2.2 Exhibit B Volume I	Key Personnel	Does OCTA expect that all positions regarding Key Personnel to be different individuals for each phase? Example, the Project Manager proposed for Implementation to be the same individual as the O&M Project Manager (assuming qualifications are met).	It is not required that Key Personnel be different for each phase. The example provided is an acceptable approach, assuming required qualifications are met.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
95.	Page 4	Section 1.1.2.3 Exhibit B Volume III	Serving Customers with Special Needs	Is the live translation services (other than Spanish/English) required for the Walk-in?	Yes, translation service should be made available for the walk-in customers at both the CSC WIC and OCTA Store WIC.	Exhibit B Volume III, Section 1.1.2.3. Serving Customers with Special Needs, Requirement 32 updated to: The Contractor shall identify and contract with a real-time translation service to serve customers whose language is other than English and Spanish, and whose language is not spoken by an available Contractor staff person. The service is to be provided on an as-needed basis and be available during all customer service hours <u>for both phone and walk-in customers at both the CSC WIC and OCTA Store WIC.</u> Addendum No. 9
96.	Page 7	Exhibit B Volume IV, Table 2, Metric #17	CSC Operational Performance Measures	What is the definition of "High Priority" as OCTA Identified High Priority Issues?	OCTA will determine "High-Priority" when entering the case into the Case Management system	
97.	Page 7	Exhibit B Volume IV, Table 2, Metric #17	CSC Operational Performance Measures	What are the definitions of categories other than "High Priority" as OCTA Identified Priority Issues?	Priority levels will be defined within the Case Management system.	
98.	Page 7	Exhibit B Volume IV, Table 2, Metric #22	CSC Operational Performance Measures	Please confirm that after research avenues are exhausted and documented, tracked as unidentified funds, this metric is met completely and accurately resolved when completed five (5) Business Days	An unidentified payment is considered complete and timely if the Approved SOPs for documenting that all research avenues have been exhausted have been followed within five (5) Business Days	
99.	Page 5	Exhibit B Volume IV Section 1.2	CSC Operations Performance Measurement	Please confirm that the Contractor would be able to take exception to CSC Operations Performance compliance when the root cause of non-compliance is related to ETTM or BOS(Contractor still liable for damages on BOS performance).	Section 1.6 describes the non-chargeable failures.	
100.	Not Available	Not Available	Not Available	Would OCTA allow for certain amount of work-from-home service agents to be located outside the state of California?	Authority may allow for certain amount of work-from-home service agents to be located outside the state of California if it is deemed in the best interest of Authority and its' customers. Offerors are advised that work-at-home agents are only allowed during Disaster Recovery and Business Continuity events as approved by Authority. See Exhibit B, Volume II, Section 1.2, BOS Maintenance and Support, Requirement 243 and other "work-at-home" requirements.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
101.	Not Available	Not Available	Not Available	<p>Please provide operational data from other OCTA tolling CSC operations (with non-Covid19 periods), included but not limited to:</p> <ul style="list-style-type: none"> - average handle time for - phone calls and all other types of communications provided - average wait time for phone - Calls - percentage of - calls received in English versus non-English - number of seats for CSRs - Ranking of prevailing languages other than English and Spanish - percentage of calls received were in Spanish 	<p>See OCTA 91 BOS and CSC Operations Historical Volumes, which is provided as a reference document only. Authority does not take responsibility for determining whether the reference materials are accurate, complete, pertinent, or of any value to Offerors.</p> <p>Authority will not provide additional data.</p>	
102.	Page 21 of 244 (PDF page 909)	Exhibit B. Volume I. 4.2.11	CSC Operations and Facility Mobilization Plan	The CSC Operations and Facility Mobilization Plan shall address how and where the Contractor will train the staff without disrupting current operations. Given that this is a new operation, please elaborate on the current operations that could be disrupted.	The opportunity to disrupt current operations during training is anticipated to be minimal, and therefore there is not a likely example.	
103.	Page 1 of 35 (pdf page 408)	Exhibit B. Volume III, 1.1.2. I-405 CSC and WIC Facility	Local Area Network	In addition to providing the necessary network cabling, will OCTA also be testing, terminating, labeling and outfitting the network closets with the appropriate power, rack space and patch panels for the contractor's IT to use?	<p>See Exhibit B Scope of Services, Section 1.4, New I-405 CSC Facility. OCTA will provide the "Communication Closets" and "All power and network cabling"; this will include testing, terminating, labeling and outfitting the network closets with the appropriate power, and patch panels.</p> <p>With regards to "rack space", the Contractor shall provide rack space for any specialized network equipment or hardware that is located within a communications closet and are part of the BOS and or required to connect from the facility to the BOS. Allocating space and designing network and power for this type of equipment is the Contractor's responsibility to identify as input to the facility design.</p>	
104.	Page 1 of 35 (pdf page 408)	Exhibit B. Volume III, 1.1.2. I-405 CSC and WIC Facility	Wireless LAN	Will OCTA be cabling for access points in advance of a formal wireless survey that would ultimately identify for proper placement? If not, will the Contractor be required to commission a survey and plan to cable to those locations ourselves?	As required during design, OCTA will provide for a wireless survey (if required) for any Approved wireless design and install the network cabling and provide power to the access points. Any wireless equipment added after the final Design will be the full technical and financial responsibility of the Contractor to gain approval, survey and install supporting infrastructure.	
105.	Page 1 of 35 (pdf page 408)	Exhibit B. Volume III, 1.1.2. I-405 CSC and WIC Facility	CSC Facility Network	Is there a design of the facility that can be shared or at a minimum the estimated square footage, and number of operating floors/ network closets? This will aid the Contractor in scoping the appropriate hardware counts for the project	There is no preliminary design of the facility at this point. To the extent possible quantities should be based on the Contractor's staffing plan.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
106.	Page 1 of 35 (pdf page 408)	Exhibit B. Volume III, 1.1.2. I-405 CSC and WIC Facility	WIC Network	Will the Contractor be required to deploy new network hardware to the WIC site or will existing infrastructure be leveraged?	OCTA will provide the network hardware at the OCTA Store WIC, which may be new or existing equipment.	Exhibit B Volume III, Section 1.1.2.1 OCTA Store WIC is updated as follows: OCTA Store WIC computers, peripherals, <u>network</u> and Equipment will be provided by Authority. Addendum No. 9
107.	Page 1 of 35(pdf page 408)	Exhibit B. Volume III, 1.1.2. I-405 CSC and WIC Facility	WIC Network	Will OCTA be responsible for all OS level management of WIC staff computer hardware?	Yes, OCTA will be responsible for the OS level maintenance and management of the OCTA Store WIC staff computer hardware. The Contractor will operationally support and assist as requested to ensure that the OCTA Store WIC systems are properly configured, have connectivity and that the BOS application is operating properly.	
108.	Pg. 51 of 247 (pdf page 209)	Exhibit B. Volume II, 1.4.1. General Account Management	Web & Mobile App	Is the Contact Center integration requirement for the OCTA website strictly to enable chatbot services or are other media forms/ services required?	Yes, it is anticipated that the integration with the website will be chat services only, see related requirement in Exhibit B Volume II, Section 1.12.1.6 Website – Other Functionality- Req. #1296.	
109.	Pg. 51 of 247 (pdf page 209)	Exhibit B. Volume II, 1.4.1. General Account Management	Web & Mobile App	Are these services currently in production today or will these both be developed net new as part of the project? If so will this be designed, developed and managed by OCTA or a contracted 3 rd party?	The 405 is a new facility and all functionality will be developed by the Contractor. See Exhibit B Volume II, Section 1.12 Customer Portals Requirements.	
110.	Not Available	General Appendix -	Historical Data	Can annual concurrent call volumes be shared for 2018-present?	See OCTA 91 BOS and CSC Operations Historical Volumes, which is provided as a reference document only. Authority does not take responsibility for determining whether the reference materials are accurate, complete, pertinent, or of any value to Offerors. Authority will not provide additional data.	
111.	Pg. 18 of 247 (pdf page 176)	Exhibit B. Volume II, Section 1.1.2.5. BOS Security Standards, PCI-DSS, PII and Best Practices	Security, Audit and Compliance	The RFP states that NIST 800-53 is a requirement for the BOS Host environment, is this same level of compliance required for the Contact Center Host Infrastructure?	Yes, any systems provided by the Contractor are considered to be a part of the BOS.

No, the Campaign Contribution Form needs to be submitted by the Offeror and all its proposed subcontractors, lobbyists and agents.	
121.	2	Section I. Instructions	<p>D. Authority Contact</p> <p><i>“ . . .no Offeror, Subcontractor, lobbyist or agent hired by the Offeror shall have any contact or communications regarding this RFP with any Authority Staff or officers.....” (p3)</i></p>	Are members of the OCTA Board of Directors considered “Authority Staff or officers” which would preclude Offeror from communicating with them regarding this RFP?	Members of the OCTA Board of Directors are not considered officers, and an Offeror is not precluded from communicating with them. The word officers has been stricken from D. Authority Contact. Yes. Communication with members of the Authority’s Board of Directors is prohibited with regard to this RFP prior to contract award.	<p>Section I: Instructions to Offerors, D. Authority Contact is updated as follows:</p> <p>Commencing on the date of the issuance of this RFP and continuing until award of the Contract or cancellation of this RFP, no Offeror, Subcontractor, lobbyist or agent hired by the Offeror shall have any contact or communications regarding this RFP with any Authority staff or officers; member of the evaluation committee for this RFP; or any contractor or consultant involved with the procurement, other than the Contract Administrator named above or unless expressly permitted by this RFP. Contact includes face-to-face, telephone, electronic mail (e-mail) or formal written communication. Any Offeror, Subcontractor, lobbyist or agent hired by the Offeror that engages in such prohibited communications may result in disqualification of Offeror at the sole discretion of the Authority.</p> <p>Addendum No. 10</p>
122.	28	Section III. Evaluation and Award	<p>Evaluation Criteria;</p> <p>1. Qualifications, Related Experience, and References of the Firm (Proposal Section A)</p>	<p>Question a How will the Authority evaluate “other on-going project commitments and priorities”?</p> <p>Question b What information will the Authority use to determine Offeror priorities?</p>	Response to both Question a and b: Authority will consider all information provided by the Offeror in its Proposal and any follow-up by Authority.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
123.	28 and 12 of 79	Section III. Evaluation and Award and Exhibit B Scope of Services / Volume I: Project Management and Controls	A. Evaluation Criteria; 2. Staffing and Project Organization (Proposal Section B) and Table 2-1: Key Team Personnel	<p>Table 2.1 Key Team Personnel provides the "Time on Site" and "Dedication %" for each position. There seems to be an opportunity to combine some of the roles to create a cost-efficient approach and still meet the requirements.</p> <p>Question a Is the Authority open to combining some of the Key Team Personnel positions to ensure continuity of personnel throughout the program?</p> <p>Question b Will the Authority penalize Offeror proposals if some positions, that don't require full-time coverage over the term of the program, are combined?</p>	<p>Offeror is responsible to demonstrate how their team meets the requirements of the RFP.</p> <p>Please refer to response in Question No. 94.</p>	
124.	30	Section III. Evaluation and Award	Evaluation Procedure	<p>The first paragraph of this section states "A list of top ranked Proposals within a competitive range, will be developed based on..." This statement seems to indicate that pricing is pass/fail given where Offeror pricing falls within the competitive range.</p> <p>Question a Will the Authority please clarify if a Proposal is outside of the competitive range, it will be disqualified?</p> <p>Question b Will the Authority please clarify/provide how the "competitive range" is related to the published budget. For example, the published budget could include scopes of work not included in this RFP thereby making the competitive range less than the published budget.</p>	<p>Response to question a. The competitive range is based on overall scoring and is not based on price only. Proposals outside this range will not be disqualified, rather they will not advance further in the evaluation process.</p> <p>Response to question b. See response to question a. above. The competitive range is not determined related to scopes of work outside of this project.</p>	
125.	31	Section III. Evaluation and Award	Award	<p>Since the Authority may decide to negotiate with multiple Offerors, and to ensure a level playing field and a competitive environment as is a stated goal (please see Addendum 6 question 3), will the Authority please provide the current executed contract for similar scope awarded for the SR 91 Project?</p> <p>NOTE: This will allow all Offerors the opportunity to see what terms the Authority has already accepted without going through the lengthy processes of getting the contract through a public records request. This contract seems relevant given the relationship with the Authority and similarities of the scopes of work.</p>	<p>The contract can be made available upon a public records request submitted to Authority.</p> <p>https://octa.govga.us/WEBAPP/rs/(S(wne1zvyldq5lmzxeslgrorsu))/supporthome.aspx</p>

151.	59 of 79	Exhibit B Scope of Services / Volume I Project Management and Controls	6.1 Operations Mobilization and Facility Coordination Requirement 262; Bullet: <i>"make any required Approved modifications to the facilities (those required beyond the new facility design inputs provided by the Contractor);"</i>	Will the Authority please confirm that any approved modifications to the facility will be reimbursable to the Contractor on a pass-through basis?	Approved work is reimbursable, Please see Exhibit B, Volume III, Section 1.1.2.2, requirement #24. See related addendum.	Exhibit B Volume III, Section 1.1.2.2. New I-405 CSC and Walk-in Center (WIC), Requirement 24 is updated as follows: The Contractor shall make all Authority-directed and Approved improvements to the CSC Facility, if any, as a combination of Additional Work Order, a pass-through cost, or submitted through the weekly accounts payable batch. Addendum No. 9
152.	61 of 79	Exhibit B Scope of Services / Volume I Project Management and Controls	6.4 Acceptance of Operational Readiness Requirement 275; Bullet: <i>"selection, build-out and equipping of all Contractor operated facilities;"</i>	Will the Authority please confirm that selection and build-out are Authority responsibilities?	The requirement is removed. Please see Question No.130 for related addenda.	
153.	67 of 79	Exhibit B Scope of Services / Volume I Project Management and Controls	7.2.3 User Acceptance Testing Requirement 308: <i>"Ten (10) Business Days prior to the commencement of UAT, the Contractor shall train staff from the Authority and the CSC Operations test team selected to perform UAT."</i>	For the purposes of properly estimating the level of effort, will the Authority please provide specific requirements regarding the CSC Operations test team, e.g. employee count, duration, timing (in regard to Go-Live), etc.?	Authority estimates 6 staff members for 2 weeks which equals 480 hours.	
154.	2 of 35	Exhibit B Scope of Services / Volume III CSC Operations	1.1.2 I-405 CSC and WIC Facility Requirement 7: <i>"...(either the Authority will pay directly for the repairs or Authority will request that the Contractor pay and submit for payment through the weekly accounts payable batch process)..."</i>	Will the Authority please provide specific details regarding the weekly accounts payable batch process, e.g. types of expenses, how the process works, etc.?	For payables to CTOC Agencies and Interoperable Agencies, services, repairs and other incidental items, that are not covered by this Scope of Work and Requirements and have been Approved by the Authority, upon Authority's direction, Contractor shall submit for payment to the Authority by entering the vendor and invoice information into the Authority's accounting system. The Contractor shall compile and send to the Authority, the invoices, any corresponding backup documents, and batch logs, for Authority's review and check issuance. Refer to Section 1.10 for examples of Direct Payment Items.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
155.	Not Available	Exhibit B, Attachment B, Historical Volumes	Violations Notices	<p>Question: Regarding the volumes provided for NTEV by the Authority, is that reflective of a ratio of one violation per notice OR is the volume indicative of notices that may have more than one violation per notice?</p> <p>Question: Does the Authority foresee combining violations from the 91 EL program to violations acquired on the 405 EL at some point?</p>	<p>OCTA 91 BOS and CSC Operations Historical Volumes is provided as a reference document only. Authority does not take responsibility for determining whether the reference materials are accurate, complete, pertinent, or of any value to Offerors.</p> <p>For the 91 Express Lanes, NTEV volume is reflective of a ratio of one violation per notice.</p> <p>Authority will not be combining violations from the 91 ELs with violations from the 405 ELs.</p>	
156.	Not Available	Exhibit B, Attachment B, Historical Volumes	DMV Holds and OOS Name Address Inquiries	<p>Question: Are the expected volumes provided by the Authority extrapolated from anticipated volumes on the 405 or taken from what is being experienced on the 91 EL?</p>	<p>OCTA 91 BOS and CSC Operations Historical Volumes is provided as a reference document only. Authority does not take responsibility for determining whether the reference materials are accurate, complete, pertinent, or of any value to Offerors. This reference document has no association to the I-405 Express Lanes.</p> <p>Exhibit B Scope of Work and Requirements, Attachment B, I-405 Annual Transaction Forecast provides estimated annual transaction volumes for the I-405 Express Lanes.</p>	
157.	140/1132	Exhibit B Volume I, 7.2.1 Unit Testing		<p>A unit could be an entire Module, but it is more commonly an individual function or procedure. Unit Testing is the first level of testing and is performed prior to System Integration Testing.</p> <p>Question: The description of the Unit Test in the paragraph is consistent to what is expected, but different requirements are listed in requirement 300. Requirement 300 states,</p> <ul style="list-style-type: none"> • "testing for all functional elements of the BOS for conformance with the Requirements, Approved design, and Business Rules; • testing of 100% of all BOS components and negative testing for controlled systems" <p>This is inconsistent with Section 7.2.1 paragraph and what is expected in a Unit Test. Please clarify the requirements for Unit Testing.</p>	<p>Please see related Addendum No. 9.</p>	<p>Exhibit B Volume I, 7.2.1. Unit Testing, Requirement 300, bullets 1 and 2 are updated as follows:</p> <p>The Contractor shall conduct Unit Testing, including but not limited to:</p> <ul style="list-style-type: none"> • <u>to the extent possible in a Unit Testing configuration</u>, testing for all functional elements of the BOS for conformance with the Requirements, Approved design and Business Rules; • testing of 100% of all BOS components and negative testing (<u>to the extent possible in a Unit Testing configuration</u>) for controlled systems features; <p>Addendum No. 9</p>
158.	205/1132	Exhibit B, Volume II, Section 1.2.6.5	Maintenance Priorities, Response, and Repair	<p>Question: The definition of a malfunction or fault is too broad and too ambiguous, which adds risk to the project's long-term harmony. Please consider revising the language to distinguish a malfunction that causes a complete outage versus a malfunction that only degrades the BOS operations.</p>	<p>Specific examples are provided for each Priority Level and will be used as guidance in determining the appropriate Priority Level for any malfunction. No change will be made.</p>

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
162.		Volume III, Section 1.1.2 and 1.1.2.2.		Section 1.1.2 requires facilitation and coordination on maintenance and provides for payment for maintenance, however Section 1.1.2.2. requires the contractor to provide maintenance. Please clarify/reconcile both statements regarding the contractual responsibility of the Contractor.	See addendum	<p>Exhibit B, Vol III, Sect. 1.1.2. I-405 CSC and WIC Facility, Requirement #7 is updated as follows:</p> <p>The Contractor shall facilitate, coordinate and be the point of contact for all I-405 CSC Facility and Eequipment related Mmaintenance and repairs that are not the fault of the Contractor (either the Authority will pay directly for the <u>maintenance and repairs</u> or Authority will request that the Contractor pay and submit for payment through the weekly accounts payable batch process). All Contractor labor necessary for these services shall be included in the Contractor's Price Proposal and shall not be invoiced or be considered additional Work. Repairs that are the result of Contractor actions shall be handled and paid for by the Contractor alone and the Authority shall be notified and kept informed.</p> <p>Exhibit B, Vol III, Sect 1.1.2.2. New I-405 CSC and Walk-in Center (WIC), Requirement #19 is updated as follows:</p> <p>The Contractor shall provide Maintenance at this Facility and ensure that the Facility is professional in appearance and clean.</p> <p>Addendum No. 10</p>
163.		Volume 1, Section 3.6		The RFP states; The Contractor shall conduct as many meetings, workshops, and submission review cycles as deemed necessary by the Authority to address all design issues to the Authority's satisfaction. – Seems open ended with no criteria/definition on "Authority's satisfaction", suggest replacing with:...address all design issues until the requirements are met.	No change will be made to the RFP requirements	
164.		Volume 1 Section 6.5		The Contractor shall not prevent employees from changing their employment to the successor if the employees wish to do so. Are the Key Personnel excluded from this requirement as some or all may already have non-compete clauses?	<p>In reference to Vol 1, Section 6.5, Req. # 285 which states "The Contractor shall not prevent employees from changing their employment to the successor if the employees wish to do so."</p> <p>For Key Personnel these types of situations will be evaluated by the Authority on a case-by-case basis.</p>	
165.	i.	Notice of Request for Proposals	Notice of Request for Proposals	Is the 405 Express Lanes roadway toll system contractor the same as the Electronic Toll & Traffic Management System Contractor?	Yes, they are the same.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
166.	1 of 8	1.1	Project Timing	What is the status of the Design & Build I-405 Improvement Project contract? Is it on schedule? If there is a delay in completing it, what will the effect be on the BOS & CSC Operations Services RFP?	The current I-405 schedule has commencement of toll collection in October of 2023. Please review Exhibit E, Agreement, Article 7. D, which covers changes in the completion date of the I-405 Improvement Project that also impact the Readiness for Go-Live and the NTP for Ramp-up Customer Services dates. If the delay in completion of the I-405 Improvement Project has affected the Readiness for Go Live and NTP Ramp-up Customer Service Guaranteed Completion Date to the extent that these dates are outside of the window identified in paragraph D, the additional delay would be subject to consideration under the Agreement's Article 16, Changes.	
167.	24	II Proposal Content	Status of Past & Present Contracts – Form C	Should contracts listed here be limited to toll operations?	Offeror shall include all contracts, not just contracts limited to toll operations.	
168.	7 of 8	1.5.2	Exhibit B, Scope of Services	What CSC Facility Maintenance will not be covered by the Authority?	See Exhibit B, Volume III, Section 1.1.2 I-405 CSC and WIC Facility	
169.	7 of 8	1.5.2	Exhibit B, Scope of Services	Is the independent auditor who performs the SSAE 18 Type II Audit supposed to be a subcontractor to the BOS/CSC contractor?	Yes, the SSAE-18 Type II auditor is hired by the Contractor. See, Exhibit B, Volume III, Section 1.2.18.1.1 SSAE-18 Type II Audit	
170.	3 of 10	Table 1	BOS Performance Measurers [sic] and Adjustments	What if Contractor complies with all stated processes and standards and there is still a security breach? Is the Contractor supposed act as an insurer with respect to any unauthorized access to PII or PCI data?	Please see the response to Question 160 Yes, the Contractor is required to carry Privacy and Network Security (Cyber Liability) insurance, see Agreement's Article 15 Insurance, paragraph 5	
171.	6 of 10	Table 2	Table 2: CSC Operations Performance Measures and Non-Compliance Points	What does "OPS" stand for?	OPS is short for Operations. The column is simply used for numbering the Performance Measures.	
172.	6 of 10	OPS # 8	Table 2, CSC Operations Performance Measures and Non-Compliance Points	Does "abandon rate" pertain to abandonment by caller or by CSR?	An Abandoned call is a call that has disconnected prior to being connected to a CSR. This measure pertains to the caller abandoning/disconnecting the call prior to being connected to a CSR.	
173.	7 of 10	OPS # 15	Table 2, CSC Operations Performance Measures and Non-Compliance Points	What if the Customer requests something that is infeasible?	Contractor will provide documentation in the Case Management system why the customer request cannot be resolved completely and accurately.	
174.	7 of 10	OPS # 18	BOS Performance Measurers [sic] and Adjustments	What if the High Priority Issue can't practically be resolved in one business day?	Contractor will provide documentation within the Case Management system to validate extended resolution timeframe.	

Question No.	Page	Section	Section Description	Offeror's Question	Authority Response	Response via Addendum No.
175.	12 of 109	Agreement, Article 5, paragraph C	Term of Agreement	If the Initial Term is up to 9 years, and the two Options are 5 years, shouldn't the maximum term be 14 years?	The maximum term should be 14 years. Please see related Addendum no. 10.	Exhibit E, Article 5, paragraph C. has the last sentence updated as follows: Extensions Not Constituting Waiver: AUTHORITY's election to extend the Initial Term under Option Term 1 and/or Option Term 2, shall not diminish its right to terminate the AGREEMENT for AUTHORITY's convenience or CONTRACTOR's default as provided elsewhere in this AGREEMENT. The maximum Term of this AGREEMENT shall be fourteen (14) years from the Effective Date. Addendum No. 10
176.	19 of 109	Proposed Agreement, Article 8, paragraph L	Payment	Section 7108.5 of the California Business and Professions Code applies to a "work of improvement." Does the AUTHORITY consider the services to be provided under the BOS and CSC RFP a "work of improvement"?	The Contractor is responsible for its own interpretation of the requirements of California law.	
177.	36 of 109	Agreement, Article 18, paragraph C.4	Liquidated Damages, Key Team Personnel	What does "occasion of Unavailability" mean here, per day?	An occasion of Unavailability is a separate occurrence of Unavailability per position and is not assessed on a daily basis.	
178.	54 of 109	Proposed Agreement, Article 27, paragraph E	Escrow Agreement	Is paragraph E saying that the deposit must be repeated even if there is no change in the IP Materials?	Yes, a deposit must be repeated even if there is no change in the IP Materials, at a minimum semi-annually.	
179.	78 of 109	Article 48, paragraph A.2	State Prevailing Wage and Labor Code Requirements	The Davis-Bacon Act applies to construction. Is it applicable to the Services under this RFP?	Certain construction or repairs of the I-405 CSC and WIC Facility may require the Contractor to pay prevailing wages. The Contractor is responsible for its own interpretation of the applicable prevailing wage requirements.	
180.	91 of 109	Article 72, paragraph C	Confidentiality of Data	Should "LOCAL AGENCY's" be changed to "AUTHORITY's"?	Yes, LOCAL AGENCY refers to AUTHORITY.	Exhibit E, Article 72, paragraph C. has the last sentence updated as follows: CONTRACTOR shall not comment publicly to the press or any other media regarding the Agreement or AUTHORITY's LOCAL AGENCY's actions on the same, except to AUTHORITY's LOCAL AGENCY's staff, CONSULTANT's own personnel involved in the performance of this Agreement, at public hearings, or in response to questions from a Legislative committee. NOTICE OF REQUEST FOR PROPOSALS

(RFP): 0-2690 BACK OFFICE SYSTEM AND CUSTOMER SERVICE CENTER OPERATIONS SERVICES FOR THE 405 EXPRESS LANES

TO: ALL OFFERORS

FROM: ORANGE COUNTY TRANSPORTATION AUTHORITY

The Orange County Transportation Authority (“Authority”) invites Proposals from qualified firms to provide Back Office System (BOS) and Customer Service Center (CSC) Operations for the 405 Express Lanes (“405 Express Lanes”).

Required work (“Work”) under this RFP includes the implementation and operations and Maintenance of the BOS and CSC for the 405 Express Lanes. Over the term of the Agreement the Authority may implement other toll facilities that may be added to this Project.

The Agreement will include both firm fixed and variable pricing elements. The Initial Term of the Agreement will be up to nine years, which includes an Implementation Phase and a six-year Operations and Maintenance Phase. Two optional Contract extension periods are included for a total optional extension of up to five years. Option Term 1 is for an extension period of up to three years and Option Term 2 is for an additional extension period of up to two years. Each may be executed at the sole determination of the Authority.

The Authority intends to provide a facility for Contractor’s Customer Service Center Operations, which may also house other Authority contractors. The Contractor must provide space for its data center at another location in accordance with the Scope of Work and Requirements.

Authority’s budget commitment, for the Initial Term of this Agreement, is anticipated to be \$133,876,546.

Close coordination will be required between the Contractor awarded the Contract resulting from this procurement (“the Contractor”) and the 405 Express Lanes roadway toll system contractor.

Offerors are advised that the reference documents provided with this RFP are for the purpose of providing certain information to Offerors. Authority does not take responsibility for determining whether the reference materials are accurate, complete, pertinent, or of any value to Offerors. Reference documents include the following:

- Toll Operating Agreement with California Department of Transportation (Caltrans) for the 405 Express Lanes in Orange County.
- OCTA 91 BOS and CSC Operations Historical Volumes

The Authority has set a three percent (3%) Disadvantaged Business Enterprise (DBE) participation goal for this project, as it is mainly funded with federal funds. Award of this contract is contingent upon Contractor's commitment to meet the DBE attainment requirements including good faith effort to meet the established goal.

Offerors are advised that by signing their Proposal, they are certifying that they and their Subcontractors are not debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency.

The following restrictions/prohibitions apply to this procurement:

- The firm, including all Subcontractors (at any tier), regardless of the level of service provided by said Subcontractor(s), awarded the program management services contract for the Authority's Highway Delivery Department, may not submit a Proposal to this procurement.
- The firm, including all Subcontractors (at any tier), regardless of the level of service provided by said Subcontractor(s), awarded the program management consultant contract for the Authority's I-405 Improvement Project, may not submit a Proposal to this procurement.

The evaluation of Offeror team composition with regards to conflicts of interest will be done on a case-by-case basis.

Proposals must be received in the Authority's office at or before 2:00 p.m. on Monday, March 22, 2021.

Proposals delivered in person or by a means other than the U.S. Postal Service shall be submitted to the following:

**Orange County Transportation Authority
Contracts Administration and Materials Management
600 South Main Street, (Lobby Receptionist)
Orange, California 92868
Attention: Mr. Robert Webb, Principal Contracts Administrator**

Proposals delivered using the U.S. Postal Service shall be addressed as follows:

**Orange County Transportation Authority
 Contracts Administration and Materials Management
 P.O. Box 14184
 Orange, California 92863-1584
 Attention: Mr. Robert Webb, Principal Contracts Administrator**

Proposals and amendments to Proposals received after the date and time specified above will be returned to the Offerors unopened.

All firms interested in responding to this procurement, are required to register their business on-line at CAMM NET. The website can be found at <https://cammnet.octa.net>. From the site menu click on CAMM NET to register.

Offerors are advised that the Authority is now on Facebook, at www.facebook.com/Cammnetconnect. Cammnet Connect was created by the Authority to provide a tool for firms to build business and partnering relationships with other firms interested in business opportunities with the Authority.

Firms interested in obtaining a copy of this Request For Proposals (RFP) may do so by downloading the RFP from CAMM NET at <https://cammnet.octa.net>.

To receive all further information regarding this RFP 0-2690, prime firms and Subcontractors must be registered on CAMM NET with at least one of the following commodity codes for this solicitation selected as part of the vendor's on-line registration profile:

A Pre-Proposal conference will be held on **December 17, 2020**, 9:00 am via Skype.

Prospective Offerors may call-in using the following credentials:

- Call-in number: (714) 560-5666
- Conference ID: 139016

No on-site meeting will be held. A copy of the presentation slides and a pre-proposal registration sheet will be issued via addendum prior to the date of the pre-proposal conference. All prospective Offerors are encouraged to call-in to the pre-proposal conference.

The Authority has established May 19 and 20, 2021, as the dates to conduct interviews. All prospective Offerors must keep these dates available.

Offerors are encouraged to subcontract with small businesses to the maximum extent possible.

All Offerors will be required to comply with all applicable equal opportunity laws and regulations.

The award of this Contract is subject to receipt of federal, state and/or local funds adequate to carry out the provisions of the proposed Agreement including the identified Scope of Work and Requirements.

SECTION I: INSTRUCTIONS TO OFFERORS

SECTION I. INSTRUCTIONS TO OFFERORS

A. PRE-PROPOSAL CONFERENCE

A Pre-Proposal conference will be held via Skype on **December 17, 2020**, beginning at 9:00 a.m. The Pre-Proposal conference is not mandatory; however, all prospective Offerors are encouraged to attend the Pre-Proposal conference.

Prospective Offerors may call-in using the following credentials:

- Call-in number: (714) 560-5666
- Conference ID: 139016

No on-site meeting will be held. A copy of the presentation slides and a pre-proposal registration sheet will be issued via addendum prior to the date of the pre-proposal conference. All prospective Offerors are encouraged to call-in to the pre-proposal conference.

B. EXAMINATION OF PROPOSAL DOCUMENTS

By submitting a Proposal, Offeror represents that it has thoroughly examined and become familiar with the Work required under this RFP (including all exhibits and addenda) and that it is capable of performing quality work to achieve the Authority's objectives. Failure of Offeror to so examine and inform itself shall be at its sole risk, and no relief for discrepancy, deficiency, ambiguity, error, or omission will be provided by the Authority.

C. ADDENDA

The Authority reserves the right to revise the RFP documents. Any changes made by the Authority to the requirements will be made by written addendum to this RFP. Where applicable, written addenda issued pertaining to this RFP shall be incorporated into the terms and conditions of any resulting Agreement. The Authority will not be bound to any modifications to or deviations from the requirements set forth in this RFP as the result of oral or written instructions. Offerors shall acknowledge receipt of all addenda in their Proposals. Failure to acknowledge receipt of addenda may cause the Proposal to be deemed non-responsive to this RFP and be rejected.

D. AUTHORITY CONTACT

All communication and/or contacts with Authority staff regarding this RFP are to be directed to the following Contract Administrator:

Mr. Robert Webb, Principal Contracts Administrator
Contracts Administration and Materials Management Department
600 South Main Street
P.O. Box 14184

Orange, CA 92863-1584
Phone: 714.560.5446743, Fax: 714.560.5792
Email: 405ELBOS-CSC@OCTA.net

Commencing on the date of the issuance of this RFP and continuing until award of the Contract or cancellation of this RFP, no Offeror, Subcontractor, lobbyist or agent hired by the Offeror shall have any contact or communications regarding this RFP with any Authority staff ~~or officers~~; member of the evaluation committee for this RFP; or any contractor or consultant involved with the procurement, other than the Contract Administrator named above or unless expressly permitted by this RFP. Contact includes face-to-face, telephone, electronic mail (e-mail) or formal written communication. Any Offeror, Subcontractor, lobbyist or agent hired by the Offeror that engages in such prohibited communications may result in disqualification of Offeror at the sole discretion of the Authority.

E. CLARIFICATIONS

1. Examination of Documents

Should an Offeror require clarifications of this RFP, the Offeror shall notify the Authority in writing in accordance with Section E.2. below. Should the Authority find in its sole discretion that the point in question is not clearly and fully set forth in the RFP, the Authority will issue a written addendum clarifying the matter which will be sent to all firms registered on CAMM NET under the commodity codes specified in this RFP.

2. Submitting Requests

- a. All questions, including questions that could not be specifically answered at the Pre-Proposal conference must be put in writing, using the attached Form A, Offeror's Questions Form, and must be received by the Authority no later than 5:00 p.m. (local PT) on the dates stated in the Key RFP Dates Table provided on the RFP Cover Sheet. The Authority is not responsible for failure to respond to a request that has not been submitted as such.
- b. Any of the following methods of delivering written requests for clarifications, questions, and comments are acceptable as long as the questions are received no later than the date and time specified above:
 - (1) U.S. Mail: Orange County Transportation Authority, 550 South Main Street, P.O. Box 14184, Orange, California 92863-1584.
 - (2) Personal Delivery: Contracts Administration and Materials Management Department, 600 South Main Street, Lobby Receptionist, Orange, California 92868.
 - (3) Email (preferred method): 405ELBOS-CSC@OCTA.net

3. Authority Responses

Responses from the Authority will be posted on CAMM NET, no later than the dates shown on the Key RFP Dates Table on the RFP cover sheet. Offerors may download responses from CAMM NET at <https://cammnet.octa.net>, or request responses be sent via U.S. Mail by emailing the request to Mr. Robert Webb. To the extent that responses are provided, they will not be considered part of the Contract documents, nor will they be relevant in interpreting the Contract documents, except as expressly set forth therein.

To receive email notification of Authority responses when they are posted on CAMM NET, firms and Subcontractors must be registered on CAMM NET with at least one of the following commodity codes for this solicitation selected as part of the vendor's on-line registration profile:

	Support Services, Computer

Offeror inquiries regarding RFP content or Technical Proposal content will be accepted by the Authority at or before 5:00 p.m. on February 5, 2021. Inquiries regarding these matters will not be responded to after this date and time.

Offeror inquiries regarding Price Proposal and all non-technical matters including forms will be accepted by the Authority at or before 5:00 p.m. on February 19, 2021 no later than 5:00 p.m. (local PT). Inquiries regarding these matters will not be responded to after this date and time.

F. SUBMISSION OF PROPOSALS

1. Date and Time

Both Technical and Price Proposals must be received together, separately packaged as described below, in the Authority's office at or before **2:00 p.m. on March 22, 2021**.

Proposals received after the above-specified date and time will be returned to Offerors unopened.

2. Address

Proposals delivered in person or by a means other than the U.S. Postal Service shall be submitted to the following:

**Orange County Transportation Authority
Contracts Administration and Materials Management (CAMP)
600 South Main Street, (Lobby Receptionist)
Orange, California 92868
Attention: Mr. Robert Webb, Principal Contracts Administrator**

Proposals delivered using the U.S. Postal Services shall be addressed as follows:

**Orange County Transportation Authority
Contracts Administration and Materials Management (CAMP)
P.O. Box 14184
Orange, California 92863-1584
Attention: Mr. Robert Webb, Principal Contracts Administrator**

3. Identification of Proposals

Offeror shall submit **one (1) original, eight (8) hard copies, and one (1) electronic PDF copy (on a flash drive)** of its Technical Proposal in a sealed package, addressed as shown in F.2. Offeror shall include the Excel version of the Conformance Matrix on the flash drive. The outer envelope must show the Offeror's name and address and must be clearly marked with the RFP number.

In accordance with the instructions contained in this RFP, the following forms are to be included in a separate file entitled "Original Proposal Forms" in the electronic PDF copy (on a flash drive) of its Technical Proposal:

1. "Campaign Contribution Disclosure Form" (Form B)
2. "Status of Past and Present Contracts Form" (Form C)
3. "Proposal Exceptions and/or Deviations" (Form F)
4. "Public Records Act Indemnification – Proposal Documents (Form M)

The Price Proposal must be submitted in a sealed envelope, separate from the Technical Proposal package. **One (1) original and one (1) hard copy** are to be submitted, with **one (1) electronic copy on a flash drive**, in Excel file format.

4. Acceptance of Proposals

- a. The Authority reserves the right to accept or reject any and all Proposals, or any item or part thereof, or to waive any informalities or irregularities in Proposals or in the procurement process.
- b. The Authority reserves the right to withdraw or cancel this RFP at any time without prior notice and the Authority make no representations that any contract will be awarded to any Offeror responding to this RFP.
- c. The Authority reserves the right to issue a new RFP for the Project.
- d. The Authority reserves the right to postpone Proposal openings for its own convenience and modify any dates set for the Project in the RFP.
- e. Submitted Proposals are not to be copyrighted, as they are subject to the Public Records Act. Confidential and proprietary materials must be marked as such.
- f. Each Proposal will be received with the understanding that acceptance by the Authority of the Proposal to provide the Work described herein shall constitute a contract between the Offeror and Authority which shall bind the Offeror on its part to furnish and deliver at the prices given and in accordance with conditions of said accepted Proposal and specifications.
- g. The Authority reserves the right to investigate the qualifications of any Offeror, and/or require additional evidence of qualifications to perform the Work.
- h. The Authority reserves the right to approve or disapprove of an Offeror's Key Team Personnel or changes in an Offeror's organization.

G. PRE-CONTRACTUAL EXPENSES

The Authority shall not, in any event, be liable for any pre-contractual expenses incurred by Offeror in the preparation of its Proposal. Offeror shall not include any such expenses as part of its Proposal.

By way of example but not limitation, pre-contractual expenses include expenses incurred by Offeror in:

1. Preparing its Proposal in response to this RFP;
2. Submitting that Proposal to the Authority;
3. Negotiating with the Authority any matter related to this Proposal; or
4. Any other expenses incurred by Offeror prior to Effective Date of Agreement.

H. JOINT OFFERS

Where two or more firms desire to submit a single Proposal in response to this RFP, they should do so on a prime-subcontractor basis rather than as a joint venture. The Authority intends to contract with a single firm and not with multiple firms doing business as a joint venture.

I. TAXES

Offerors' Proposals are subject to State and Local sales taxes. However, the Authority is exempt from the payment of Federal Excise and Transportation Taxes. Offeror is responsible for payment of all taxes for any goods, services, processes and operations incidental to or involved in the Agreement.

J. PROTEST PROCEDURES

The Authority has on file a set of written protest procedures applicable to this solicitation that may be obtained by contacting the Contract Administrator responsible for this procurement. Any protests filed by an Offeror in connection with this RFP must be submitted in accordance with the Authority's written procedures.

K. CONTRACT TYPE

It is anticipated that the Agreement resulting from this solicitation, if awarded, will be an agreement between the Authority and the Contractor, as a fixed and variable price Contract specifying fixed prices for individual Implementation Phase milestones, and variable pricing for portions of the Work during the Operations and Maintenance Phase, as specified in the Scope of Work and Requirements, included in this RFP as Exhibit B and in Exhibit D, Price Proposal and Instructions and in the Agreement, included as Exhibit E.

L. FUNDING

Funding for the Project includes TIFIA, federal, state and local funds, and toll revenues.

M. CONFLICT OF INTEREST

All Offerors responding to this RFP must avoid organizational conflicts of interest which would restrict full and open competition in this procurement. An organizational conflict of interest means that due to other activities, relationships or contracts, Offeror is unable, or potentially unable to render impartial assistance or advice to Authority; Offeror's objectivity in performing the Work identified in the Scope of Work and Requirements is or might be otherwise impaired; Offeror has an unfair competitive advantage, or is engaging in activities that the Authority considers adverse to the 405 Express Lanes. Conflict of interest issues must be fully disclosed in the Offeror's Proposal.

Offeror shall disclose any financial interests it may have in the 405 Express Lanes, and any other financial, business, or other relationship with the Authority that may have an impact upon this Project, or any ensuing Authority planned or current project. Offeror shall also list current clients who may have a financial interest in the outcome of this Project, or any ensuing Authority project, which will follow.

All Offerors must disclose in their Proposal and immediately throughout the course of the evaluation process if they have hired or retained an advocate to lobby Authority staff or the Board of Directors on their behalf.

Offerors hired to perform services for the Authority are prohibited from concurrently acting as an advocate for another firm who is competing for a contract with the Authority, either as a prime or subcontractor.

N. CODE OF CONDUCT

All Offerors agree to comply with the Authority's Code of Conduct, available at www.octa.net, as it relates to third-party contracts which is hereby referenced and by this reference is incorporated herein. All Offerors agree to include these requirements in all of its Subcontracts.

O. DISADVANTAGED BUSINESS ENTERPRISE

The Authority has established a three percent (**3%**) Disadvantaged Business Enterprise (DBE) participation goal for the services required in this solicitation.

In conformance with Title 49 CFR Part 26, "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs," offerors must complete the following forms:

- Consultant Proposal DBE Commitment Form (10-O1)
- Written Confirmation (required from each proposed DBE firm listed on the Consultant Proposal DBE Commitment Form (10-O1).
- DBE Information – Good Faith Efforts (if sufficient participation to meet the DBE goal has not been proposed on the “Consultant Proposal DBE Commitment Form (10-O1).
- Bidders List

P. PROHIBITION

The following restrictions apply to this procurement:

- The firm, including all Subcontractors (at any tier), regardless of the level of service provided by said Subcontractor(s), awarded the program management services contract for the Authority’s Highway Delivery Department, may not submit a Proposal to this procurement.
- The firm, including all Subcontractors (at any tier), regardless of the level of service provided by said Subcontractor(s), awarded the program management consultant contract for the Authority’s I-405 Improvement Project, may not submit a Proposal to this procurement.

The evaluation of Offeror’s team composition with regard to conflict of interest will be done on a case-by-case basis.

Q. NONDISCRIMINATION

The Authority hereby notifies all Offerors that it will affirmatively insure that in any agreement entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, sex, national origin, religion, age, or disability in consideration for an award.

R. PRIME AND LOWER TIER DEBARMENT

Offerors are advised that by signing their Proposal, they are certifying that they and their Subcontractors are not debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency.

S. PREVAILING WAGES

Certain labor categories under this Project are subject to prevailing wages as identified in the State of California Labor Code commencing in Section 1770 et.seq., and all applicable Federal requirements respecting prevailing wages.

It is required that all mechanics and laborers employed or working at the site be paid not less than the basic hourly rates of pay and fringe benefits as shown in the current minimum wage schedules. The Offeror to whom a Contract for the Work is awarded by the Authority shall comply with the provision of the California Labor Code, including, without limitation, the obligation to pay the general prevailing rates of wages in the locality in which the Work is to be performed in accordance with, without limitation, Sections 1773.1, 1774, 1775 and 1776 of the California Labor Code governing employment of apprentices.

Copies of the prevailing rates of per diem wages are on file at the Authority's principal office at 550 S. Main Street, Orange, CA 92868 and are available to any interested party on request.

T. PERMITS AND INSPECTION COSTS

Successful Offeror shall procure all permits and licenses; pay all charges, assessments and fees, as may be required by the ordinances and regulations of the public agency having jurisdiction over the areas in which the Work is located and shall comply with all the terms and conditions thereof and with all lawful orders and regulations of each such public agency relating to construction operations under the jurisdiction of such agency.

U. EXECUTION OF CONTRACT

Within ten (10) Business Days after notification of Contract award from the Authority, the successful Offeror shall submit to the Authority: the required Contract bonds and endorsements shown in Forms I, J and K, and acceptable insurance certificates as required by the proposed Agreement. Failure to sign the Contract and submit applicable bonds, and acceptable insurance certificates within the specified time shall be cause to cancel the award. Transfers of Contract, or of interest in Contracts, are prohibited.

Additionally, at Authority' sole discretion, a letter of guaranty may be requested from Offerors if deemed necessary.

V. LIQUIDATED DAMAGES

Authority reserves the right to assess liquidated damages related to Contractor's performance, Key Team Personnel availability, and delays in Guaranteed Completion Dates for Go-Live, as detailed in the Proposed Agreement included in this RFP as Exhibit E.

W. PUBLIC RECORDS AND INFORMATION

Proposals received by Authority are subject to the California Public Records Act, Government Code section 6250 et seq. (the "Act"), except as otherwise provided in the Act. In no event shall the Authority or any of its agents, representatives, consultants, directors, officers, or employees be liable to an Offeror for the disclosure of any materials or information submitted in response to the RFP. The Offeror must complete the Form M, Public Records Act Indemnification-Proposal Documents and submit with its Proposal.

If a request is received by Authority for the release of information identified by Offeror as propriety, trade secret or confidential, the request will be referred to the Offeror for review and consideration. If Offeror asks that the information be withheld from release, Offeror shall defend and hold harmless Authority from any legal action arising from such withholding, as further detailed in Form M, Public Records Act Indemnification-Proposal Documents.

SECTION II: PROPOSAL CONTENT

SECTION II. PROPOSAL CONTENT

A. PROPOSAL FORMAT AND CONTENT

1. Format

Proposals should be typed with a standard 12-point font, double-spaced and submitted on 8 1/2" x 11" size paper, using a single method of fastening. Charts, figures, resumes, schedules, and pre-printed materials may contain smaller fonts and line spacing as required. Charts, diagrams and schedules may be included in 11"x17" format. Proposals should not include any unnecessarily elaborate or promotional materials. Proposals should not exceed one-hundred (100) pages in length excluding from the page limits, the cover letter, Executive Summary, all appendices, resumes, project schedule, tabs, title page, table of contents, and required completed forms.

Offer shall complete and submit with the Technical Proposal the following appendices:

1. Preliminary bill of materials for all Equipment, Software and Hardware including manufacturer, model number, and quantities.
2. Product cut sheets.
3. Audited financial statements which may be submitted in electronic PDF format only on a clearly marked flash drive.
4. Resumes and References.
5. Completed Conformance Matrix.
6. Proposed Implementation Schedule.

2. Letter of Transmittal

The Letter of Transmittal shall be addressed to Mr. Reem Hashemobert Webb, and must, at a minimum, contain the following:

- a. Identification of Offeror that will have contractual responsibility with the Authority. Identification shall include legal name of company, corporate address, telephone and fax number, and email address. Include name, title, address, email address, and telephone number of the contact person identified during period of Proposal evaluation. Licensing information, if applicable, such as license number and status of license, must be submitted.

- b. Identification of all proposed Subcontractors including legal name of company, contact person's name and address, phone number and fax number, and email address; role of Subcontractor on Project, and relationship between Offeror and Subcontractors, if applicable. Licensing information, if applicable, such as license number and status of license, must be submitted.
- c. Acknowledgement of receipt of all RFP addenda, if any.
- d. A statement to the effect that the Proposal shall remain valid for a period of not less than 210 days from the date the Proposal was due.
- e. Signature of a person authorized to bind Offeror to the terms of the Proposal.
- f. Signed statement attesting that all information submitted with the Proposal is true and correct.

3. Executive Summary

The Executive Summary shall be a brief overview, not to exceed five (5) pages, summarizing the Technical Proposal, and explaining how the Proposal being offered best addresses the evaluation criteria listed in this RFP. Include summaries of Offeror's understanding of the Authority's needs, and proposed approach to coordinating with the Authority, developing and implementing the BOS and CSC Operations, and providing operations and Maintenance services.

4. Technical Proposal

The Technical Proposal shall include the following sections:

- Qualifications, Related Experience and References
- Staffing and Project Organization
- Implementation Work Plan and Technical Approach
- CSC Operations Work Plan, Operational Startup, and Approach

Offerors must specifically answer all of the following information requests using the lettering sequence provided below. Please place the full lettering/numbering of the information request that is being responded to immediately above your response for each item. If the information request includes sub-parts (such as a, b, c...), please adhere to that format and specifically respond to each sub-part and do not provide any part of the response under the introductory portion of your response; rather, the response shall be provided under the relevant sub-part only.

Proposal Section A - Qualifications, Related Experience and References

This section of the Proposal should establish the Offeror's ability to perform the required Work based on the team's structure, strength and stability of the team, prior experience performing similar work, references and availability of resources. Use diagrams and organizational charts as necessary.

Offeror to:

1. Provide an overview of the team (prime and Subcontractors) and a brief profile of each organization, including the types of services offered; the year founded; form of the organization (corporation, partnership, sole proprietorship); number, size and location of offices; and number of employees. In addition, for each organization provide a primary address, contact person, telephone number, and email address using Form P, List of Subcontractors, for all Subcontractors.
2. Explain the team's (prime and Subcontractors) structure, areas of responsibility, and describe team's experience in working with each other, if applicable.
3. Provide a general description of the prime's and all major Subcontractors' financial condition and identify any conditions (e.g., bankruptcy, pending litigation, planned office closures, impending merger) that may impede the team's ability to complete the Project. The Offeror, primary BOS provider if a Subcontractor, and primary CSC Operations provider, if a Subcontractor, shall provide audited financial statements for the last Fiscal Year in Appendix 3.
4. Provide the team's current and future commitments that will coincide with the Implementation Phase and the Operations and Maintenance Phase.
5. Provide a completed Form N, Offeror Recent Client List.
6. Describe the team's (prime and Subcontractors) experience in performing work of a similar nature to that solicited in this RFP.
7. Using Form O-1 Part 1 (BOS implementation and Maintenance), provide a minimum of two (2) and a maximum of four (4) reference projects for BOS implementation and Maintenance similar in scope to this Project. Include in Appendix 4.
8. Using Form O-1 Part 2 (Operations) provide a minimum of two (2) and a maximum of four (4) reference projects for Customer Service Center planning and operations similar in scope to this Project. Include in Appendix 4.

Proposal Section B - Staffing and Project Organization

This section of the Proposal should establish the method which will be used by the Offeror to manage the Project, as well as identify Key Team Personnel assigned.

Offeror to:

1. Include Project organization charts, including the organization that each staff person works for and their physical location, for each phase:
 - a. Implementation Phase
 - b. CSC Operations during the Operations and Maintenance Phase
 - c. BOS Maintenance during the Operations and Maintenance Phase.
2. Identify Key Team Personnel (see Scope of Work and Requirements Volume 1 for a complete list of Key Team Personnel) proposed to perform the Work. Include the person's name, organization, proposed position for this Project, current location and assignments, level of commitment to his/her current assignments, and how long employed with the organization. Also identify Key Team Personnel proposed locations, availability for Work on this Project and time commitments on the Project.
3. Furnish resumes (not more than two [2] pages each) for all Key Team Personnel, that include the organization they work for, proposed position, education, applicable experience, and applicable professional credentials. Include in Appendix 4.
4. Describe the Offeror's philosophy and approach to training and staffing the CSC Operations to ensure operational readiness.
5. Provide references for Key Team Personnel using Forms P-2 Reference Projects Key Team Personnel Forms. Include in Appendix 4.

Proposal Section C: Implementation Work Plan and Technical Approach to BOS

Offerors shall carefully review Volume II: BOS Technology and Functionality and shall fully complete the required information in the columns of the Requirements Conformance Matrix in accordance with the instructions provided therein. The Conformance Matrix is included as Form Q in Excel format. as part of the RFP forms. The form shall be completed and submitted in searchable PDF format in

Appendix 5 of the Technical Proposal and in Excel format on the flash drive with the Technical Proposal, as directed in Section I, F. 3, Identification of Proposals.

Offerors should provide a narrative and diagrams, which address the Scope of Work and Requirements, and describe the Offeror's approach to the BOS. Offerors should note experience with California Law and the California tolling environment where applicable.

The Proposal shall address the following:

1. Approach to project management of the BOS Implementation Phase.
2. Approach to project management of the BOS during the Operations and Maintenance Phase.
3. Approach to BOS Quality Assurance/Quality Control (QA/QC) during the Implementation Phase.
4. Approach to BOS QA/QC during the Operations and Maintenance Phase.
5. Describe the proposed system and Software architecture including Disaster Recovery (solutions to support at-home agents during Disaster Recovery and Business Continuity events should be described in Proposal Section D: CSC Operations Work Plan, Operational Startup and Approach question No. 12).
6. Discuss generally the BOS Software (including other agencies or customers using the product) that is the genesis of the proposed BOS and what overall level of new development versus customization or configuration is planned (response should align with the detailed information provided in the Conformance Matrix).
7. Approach to developing and efficiently incorporating Authority's Business Rules and policies into the BOS.
8. Approach to the design and development of the BOS and the expected level of Authority interaction and participation.
9. Approach to delivery of all BOS documentation.
10. Approach to testing of the BOS.
11. Approach to complying with all Security Standards.
12. Approach to delivering the BOS in the timeframe described in the Proposal (include a proposed Project Implementation Schedule as Appendix 6).

13. Identify any risks and mitigation strategies related to the delivery of the BOS within the required timeframe.
14. Approach to meeting the requirements in Volume II:
 - a. Account Management
 - b. Image Transfer and Transaction/Trip Processing
 - c. Account Notification
 - d. Payment Processing
 - e. Case Management
 - f. Violation Processing
 - g. Collection and Registration Holds
 - h. Transponder Inventory
 - i. Customer Portals
 - j. Customer communications across all channels
 - k. Financial Requirements
 - l. Reporting
 - m. Performance Management and Monitoring System.
15. Approach to maintaining BOS Software and keeping the Self-Service Website and mobile application (if option executed) current over the Term of the Agreement.
16. Approach to monitoring and reporting on the BOS performance against the Performance Measures.
17. Approach to maintaining and administering the BOS.
18. Approach to refreshing the BOS Hardware CSC Operations Desktop Environment over the Term of the Agreement.
19. Approach to providing BOS support to the CSC Operations and Authority's staff.
20. Approach to selection of Merchant Services Providers and tokenization provider:

- a. Name the provider, discuss the Offeror's experience with Merchant Services Provider #1 and explain why this provider was selected.
- b. Provide a Merchant Services Provider #1 detailed cost table (separate ACH from Credit Card) breaking out the detailed costs, excluding interchange fees assessed by the card brands, and fees related to processing of ACH and Credit Cards. For example there should be separate lines for each cost item such as:
 - Discount rates
 - Transaction fees
 - Gateway fees
 - Tokenization fees
 - Monthly and annual fees
 - Chargeback fees
 - Voice authorization fees
 - Account updater fees
 - Other fees as applicable.
- c. Name the provider, discuss the Offeror's experience with Merchant Services Provider #2, and explain why this provider was selected.
- d. Provide the same cost table for Merchant Services Provider #2 as described in (b) above.

Proposal Section D: CSC Operations Work Plan, Operational Startup and Approach

Offerors should provide a narrative and diagrams, which address the Scope of Work and Requirements, and describe the Offeror's approach to CSC Operations focusing on the Work provided by staff rather than the BOS. The Offeror should note experience with California Law and the California tolling environment where applicable.

The Proposal shall address the following:

1. Approach to project management and planning of CSC Operations during the Implementation Phase.

2. Approach to project management of CSC Operations during the Operations and Maintenance Phase.
3. Approach to CSC Operations QA/QC during the Operations and Maintenance Phase.
4. Approach to providing process improvements through the Term of the Agreement.
5. Approach to incorporating Authority's Business Rules and policies into the CSC Operations.
6. Approach to monitoring and reporting on the CSC Operations performance against the Performance Measures.
7. Describe how operations staff will provide system design input to BOS provider during initial design and after Go-Live.
8. Approach to staffing, hiring and training initial staff. Identify any risks and mitigation strategies related to achieving CSC Operations Readiness (Identify the CSC Operations related major milestones within the Preliminary Implementation Schedule provided as part of Section C).
9. Provide a detailed list of anticipated predecessor tasks required in order to achieve Acceptance of Operational Readiness prior to Go-Live.
10. Approach to properly staffing the CSC Operations during the Operations and Maintenance Phase to ensure that the CSC Operations performance requirements are met.
11. Approach to security and privacy compliance.
12. Approach to Disaster Recovery and Business Continuity. Specifically address proposed handling of events similar to the COVID 19 pandemic, including:
 - a. Describe the plan for shift to work-at-home CSRs and what lessons have been learned in that regard.
 - b. Describe the at-home desktop computing systems and communications methods that will be used while CSRs are working at-home.
 - c. Describe the technical and procedural approaches to protecting PII while CSRs are working at-home.
13. Approach to providing excellent customer service.

14. Approach to effectively managing customer contacts across all channels.
15. Approach to in-bound mail processing and handling of undeliverable mail.
16. Approach to rental car transactions.
17. Approach to violations and the organization of staff to support the process.
18. Approach to Registration Holds.
19. Approach to processing payments and refunds.
20. Approach to financial management.
21. Approach to managing and distributing transponders.
22. Approach to Collections:
 - a. Name the provider and describe the collections approach of Collections Agency #1 and the resulting benefit to the Authority.
 - b. Provide a Collections Agency #1 cost table detailing the rates and fees for collections services in the Scope of Work and Requirements. The table shall separately address Collections Placements that are 1) new placement, but for which the CSC Operations has attempted the initial collection and failed and 2) new placement, for which no previous collection has been attempted. In addition, provide the cost of successful and unsuccessful skip-traces and cost for processing of civil judgements.
 - c. Name the provider and describe the collections approach of Collections Agency #2 and the resulting benefit to the Authority.
 - d. Provide the same cost table as described in (b) above for Collections Agency #2.
23. Approach to initial (pre-Collections Placement) collections attempts by CSC Operations.
24. Approach to postage rate discounts:
 - a. Describe the day-to-day mailing strategies that will be employed to save postage costs while meeting the Requirements.

- b. Provide a detailed Postage Rate Table for all Orange County zip codes for different types and volumes of mailing (the table should be placed in Appendix 7: Postage Rate Table).

5. Exceptions/Deviations

State any technical and/or contractual exceptions and/or deviations from the requirements of this RFP, including the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work and Requirements (Exhibit B) and Proposed Agreement (Exhibit E), using the form entitled "Proposal Exceptions and/or Deviations" (Form F) included in this RFP. This Proposal Exceptions and/or Deviations form must be included in the original Proposal submitted by the Offeror.

If no technical or contractual exceptions and/or deviations are submitted as part of the original Proposal, Offerors are deemed to have accepted the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work and Requirements (Exhibit B) and Proposed Agreement (Exhibit E.) Offerors will not be allowed to submit the Proposal Exceptions and/or Deviations form or any technical and/or contractual exceptions after the Proposal submittal due date identified in the RFP. Exceptions and/or deviations submitted after the Proposal submittal date will not be reviewed by the Authority.

All exceptions and/or deviations will be reviewed by the Authority and will be assigned a "pass" or "fail" status. Exceptions and deviations that "pass" do not mean that the Authority has accepted the change but that it is a potential negotiable issue. Exceptions and deviations that receive a "fail" status means that the requested change is not something that the Authority would consider a potential negotiable issue. Offerors that receive a "fail" status on their exceptions and/or deviations will be notified by the Authority and will be allowed to retract the exception and/or deviation and continue in the evaluation process. Any exceptions and/or deviations that receive a "fail" status and the Offeror cannot or does not retract the requested change may result in the firm being eliminated from further evaluation.

6. Cost and Price Proposal

As part of the cost and Price Proposal ("Price Proposal"), the Offeror shall submit proposed pricing to provide the Work described in the Scope of Work and Requirements (Exhibit B).

The Offeror shall complete the "Price Proposal" form (Exhibit D) included with this RFP and submit in a separately sealed envelope from the Technical Proposal. **The Price Proposal must be completed in its entirety in accordance with the Price Proposal Instructions.**

All boxes, packages, and envelopes containing Price Proposals shall be clearly labeled with Offeror's name, "Price Proposal" and this RFP title and number (along with the package number (e.g., 1 of 1)). The original Price Proposal envelope shall be marked "Original".

Price Proposals shall be submitted in the manner and quantities identified in Section I (paragraph F3). File names shall also be clearly identified with the Offeror's name and contents clearly labeled. In the event of a discrepancy between the signed hard copy Price Proposal and the electronic copy, the signed hard copy submittal will take precedence.

It is anticipated that the Authority will enter into a fixed and variable price Contract specifying fixed prices for Deliverables in the Implementation Phase, as well as variable prices for Work performed during the Operations and Maintenance Phase, as further specified in the Scope of Work and Requirements and the Price Proposal Instructions.

7. Required Appendices

Offerors shall provide the following required appendices in their Proposal as follows:

- Appendix 1: Preliminary bill of materials for all Equipment, Software and Hardware including manufacturer, model number, and quantities.
- Appendix 2: Product Cut sheets.
- Appendix 3: Audited financial statements.
- Appendix 4: Resumes and References.
- Appendix 5: Completed Conformance Matrix.
- Appendix 6: Project Implementation Schedule.
- Appendix 7: Postage Rate Table.

Information considered by Offeror to be pertinent to this Project and which has not been specifically solicited in any of the aforementioned sections may be placed in a separate appendix section labeled Additional Appendices. Offerors are cautioned, however, that this does not constitute an invitation to submit large amounts of extraneous materials. Appendices should be relevant and brief.

B. FORMS

Unless otherwise noted above in Section A, Proposal Format and Content, or in this Section B, completed forms are to be submitted in a separate Technical Proposal section entitled "Forms". The following forms are included in the RFP:

1. Offeror's Questions Form – Form A

Offerors shall use this form to submit any questions they may have with respect to this RFP or any part thereof.

2. Campaign Contribution Disclosure Form – Form B

Offerors shall complete Form B In conformance with the statutory requirements of the State of California Government Code Section 84308, part of the Political Reform Act and Title 2, California Code of Regulations 18438 through 18438.8, regarding campaign contributions to members of appointed boards of directors, Offeror is required to complete and sign the Campaign Contribution Disclosure Form provided in this RFP.

This form **must** be completed regardless of whether a campaign contribution has been made or not and regardless of the amount of the contribution.

The prime Contractor, Subcontractors, lobbyists and agents are required to report all campaign contributions from the Proposal submittal date up and until the Board of Directors makes a selection, which is currently scheduled for July 26, 2021.

Offeror is required to submit only **one** copy of the completed Form B as part of its Proposal and it should be included in only the **original** Technical Proposal.

3. Status of Past and Present Contracts Form – Form C

Offeror shall complete and sign the form entitled "Status of Past and Present Contracts" provided in this RFP. Offeror shall identify the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract. Offeror shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's Proposal.

A separate form must be completed for each identified contract. Each form must be signed by the Offeror confirming that the information provided is true and accurate.

Offeror is required to submit one copy of the completed form(s) as part of its Proposal and it should be included in only the original Technical Proposal.

4. Disadvantaged Business Enterprise Program Requirements and Forms – Form D

Offerors must complete the following forms:

- Consultant Proposal DBE Commitment Form (10-O1)
- Written Confirmation (required from each proposed DBE firm listed on the Consultant Proposal DBE Commitment Form (10-O1).
- DBE Information – Good Faith Efforts (if sufficient participation to meet the DBE goal has not been proposed on the “Consultant Proposal DBE Commitment Form (10-O1).
- Bidders List

5. Certification of Restrictions on Lobbying Form – Form E

As a recipient of federal funds, the Authority is required to certify compliance with the influencing restrictions and efforts of Offeror to influence federal officials regarding specific procurements in excess of \$100,000.00 that must be disclosed pursuant to section 1352, Title 31, U.S. Code.

This RFP includes, under Form E, the following forms: a certification form entitled “Certification of Restrictions on Lobbying,” the office of Management and Budget (OMB) Standard Form E entitled “Disclosure of Lobbying Activities,” and a document entitled “Limitation on Payments to Influence Certain Federal Transactions.”

The Offeror to this solicitation will be required to complete and submit to the Authority in their Technical Proposal, the certification form entitled “Certification of Restrictions on Lobbying” whether or not any lobbying efforts took place. If the Offeror did engage in lobbying activities, then OMB Standard Form E “Disclosure of Lobbying Activities” must also be completed and submitted to the Authority.

6. Proposal Exceptions and/or Deviations Form – Form F

Offerors shall complete the form entitled “Proposal Exceptions and/or Deviations” provided in this RFP and submit it as part of the original Technical Proposal. For each exception and/or deviation, a new form should be used, identifying the exception and/or deviation and the rationale for requesting the change. Exceptions and/or

deviations submitted after the Proposal submittal date will not be reviewed nor considered by the Authority.

7. Surety Commitment Letter – Form G

Offerors shall complete, sign, seal, and submit this Surety Commitment Letter with the Price Proposal.

8. Intellectual Property Escrow Agreement – Form H

This is a sample form of the Intellectual Property Escrow Agreement, to be prepared substantially in the form provided herein at the time of Agreement execution. Offerors *do not* submit this form with the Proposal.

9. Performance Bond – Form I

This is the sample form of Performance Bond, to be prepared substantially in the form provided herein at the time of Agreement execution. Offerors *do not* submit this form with the Proposal.

10. Payment Bond – Form J

This is the sample form of Payment Bond to be prepared substantially in the form provided herein at the time of Agreement execution. Offerors *do not* submit this form with the Proposal.

11. Operations and Maintenance Bond – Form K

This is the sample form of Operations and Maintenance Bond to be prepared substantially in the form provided herein at the time of Agreement execution. Offerors *do not* submit this form with the Proposal.

12. Iran Contracting Act Certification – Form L

Offerors shall complete and submit this Iran Contracting Certification form with the Technical Proposal.

13. Public Records Act Indemnification Proposal Documents – Form M

Offerors shall complete and sign this form with the Technical Proposal.

14. Offeror Recent Client List – Form N

Offerors and Subcontractor(s), if Subcontractor(s) has the primary responsibility for either the implementation and Maintenance Work or the CSC operations Work, shall complete and submit this Recent Client List with the Technical Proposal. Provide a list

of all Offeror's or Subcontractor's (as applicable) contracts in the most recent three years, up to a maximum of 20 contracts.

15. Reference Forms – Form O

Offerors shall complete and submit reference forms O-1, Parts 1 and 2, and O-2 with the Technical Proposal. References must be independent from Offeror's own firm, and must be from third party agencies or companies for which similar work has been performed by Offeror or Key Team Personnel as applicable to the specific form.

A Subcontractor shall complete Form O Part 1 reference(s) if a Subcontractor has the primary responsibility for the implementation and Maintenance Work. A Subcontractor shall complete Form O Part 2 reference(s) if a Subcontractor has primary responsibility for the CSC operations Work.

16. List of Subcontractors – Form P

Offerors shall complete and submit with their Technical Proposal a list of all Subcontractors proposed on this Project, including their role on the Project.

17. Conformance Matrix- Form Q

Offerors shall complete the Conformance Matrix in accordance with the instructions provided in the form and shall submit the PDF version in Appendix 5 and the Excel version of the completed matrix on the flash drive used for the electronic version of the Technical Proposal.

SECTION III: EVALUATION AND AWARD

SECTION III. EVALUATION AND AWARD

A. EVALUATION CRITERIA

The Authority will evaluate the Proposals received based on the following criteria:

1. Qualifications, Related Experience, and References of the Firm (Proposal Section A) 15%

- Overall strength of team.
- Strength of prime and all major Subcontractor's financial condition.
- Experience of the team and relevant project experience in BOS and CSC Operations implementation, as well as operations and maintenance (experience with similar scopes of work, current installations of the BOS, current similar operations).
- Strength and relevance of reference projects.
- Strength and relevance of reference checks.
- Other on-going project commitments and priorities.

2. Staffing and Project Organization (Proposal Section B) 15%

- Strength of team's organization (completeness, clear delineation of communication and reporting relationships of staff and firms).
- Experience of the proposed Project Manager and other Key Team Personnel relative to this Project, including resumes.
- Key Team Personnel Reference projects, including relevance of role and reference check results.
- Commitment to meeting local presence requirements of Key Team Personnel.
- Logic and depth of Implementation Phase organization.
- Logic and depth of Operations and Maintenance Phase organization.
- Demonstrated ability to provide and train CSC Operations staff to meet Operational Readiness requirements.

3. Implementation Work Plan and Technical Approach to BOS (Proposal Section C) 30%

- Demonstrated ability to meet the Authority's schedule requirements.

- Completeness and effectiveness of project management and risk management approach.
- Completeness and effectiveness of QA/QC approach.
- Demonstrated process for developing and efficiently incorporating Authority's Business Rules and policies into the BOS.
- Knowledge of interagency group tolling environments (CTOC or similar).
- Completeness and efficiency of approach to design, development, documentation and testing.
- System architecture logic, configurability, reliability and flexibility.
- Proven success of architecture and software on a similar project.
- Demonstrated ability to comply with the BOS related Security Standards.
- Understanding and approach to delivering technical Requirements in Volume II.
- Demonstrated ability to meet the BOS performance Requirements in Volume IV.
- Commitment to delivering a BOS that emphasizes customer self-service.
- Solution to providing adequate BOS redundancy and Disaster Recovery.
- Demonstrated ability to maintain, administer and Update the BOS to ensure KPI's are met.
- Demonstrated commitment to serving CSC Operations and Authority staff.
- Approach to payment processing through the Merchant Service Provider and controlling processing costs.

4. CSC Operations Work Plan, Operational Startup and Approach (Proposal Section D) 20%

- Demonstrated ability to meet the Authority's schedule requirements.
- Demonstrated process for developing and efficiently incorporating Authority's Business Rules and policies into the CSC Operations.
- Commitment to operations staff involvement in BOS design and testing.
- Commitment to providing and training adequate staff initially and through the Term of the Agreement.
- Commitment to providing excellent customer service.

- Demonstrated ability to meet the CSC Operations performance Requirements in Volume IV.
- Thoroughness of QA/QC program.
- Thorough understanding of tolling related statutes and interagency group tolling environments (CTOC or similar).
- Demonstrated understanding and ability to provide the Work described in Volume III.
- Commitment to providing current customer service best practices resulting in efficient processes, customer self-service and accuracy.
- Demonstrated ability to provide strong financial controls.
- Approach to providing for at-home CSRs during Disaster Recovery and Business Continuity events.
- Demonstrated ability to comply with the CSC Operations related Security Standards.
- Approach to Collections.
- Approach to minimizing postage costs.

5. Cost and Price

20%

Reasonableness of the total price as well as the individual tasks; competitiveness with other offers received; adequacy of data in support of figures quoted.

B. EVALUATION PROCEDURE

An evaluation committee will be appointed to review all Proposals received for this RFP. The committee is comprised of Authority staff and may include outside personnel. The committee members will evaluate the written Proposals using criteria identified in Section III A. The evaluation committee will also be assisted by a technical review committee comprised of subject-matter experts. The technical review committee's role will be to review the technical components of the Proposals and provide their written assessment of their strengths and weaknesses, to assist the evaluation committee in their evaluation of the Proposals. A list of top ranked Proposals within a competitive range, will be developed based upon the totals of each evaluation committee member's score for each Proposal.

During the evaluation period, the Authority may interview some or all of the Offerors. The Authority has established May 19 and 20, 2021, as the dates to conduct interviews. All prospective Offerors are asked to keep these dates available. No other interview dates will be provided, therefore, if an Offeror is unable to attend the interview on this date, its Proposal may be eliminated from further discussion. The Authority will provide an agenda for the interview which will consist of a short presentation by the Offeror after which the evaluation committee will ask questions related to the firm's Proposal and qualifications.

In addition, the Authority may send out questions to some or all of the Offerors to respond to in writing in advance of the interviews. Offeror responses may be subject to discussion at the interview.

At the conclusion of the Proposal evaluations, Offerors remaining within the competitive range may be asked to submit a Best and Final Offer (BAFO). In the BAFO request, the firms may be asked to provide additional information, confirm or clarify issues, and submit a final Price Proposal. A deadline for submission will be stipulated.

At the conclusion of the evaluation process, the evaluation committee will recommend to the Authority's Board Committee, the Offeror with the highest final ranking within the competitive range whose Proposal(s) is most advantageous to the Authority.

C. AWARD

The Board Committee for the Authority will review the evaluation committee's recommendation and forward its decision to the Board of Directors for final action regarding selection. The Authority may also negotiate Contract terms with the selected Offeror prior to award, and expressly reserve the right to negotiate with several Offerors simultaneously and, thereafter, to award a contract to the Offeror offering the most favorable terms to the Authority.

The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the Proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing Work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a Proposal in response to this RFP shall be notified via CAMM NET of the Contract award. Such notification shall be made within three (3) Business Days of the date the Contract is awarded.

Offerors who were not awarded the Contract may obtain a debriefing concerning the strengths and weaknesses of their Proposal. Unsuccessful Offerors, who wish to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) Business Days of notification of the Contract award.

**EXHIBIT G: LEVEL 1 HEALTH, SAFETY AND ENVIRONMENTAL
SPECIFICATIONS**

LEVEL 1 HEALTH, SAFETY AND ENVIRONMENTAL SPECIFICATIONS

PART I – GENERAL

1.1 GENERAL HEALTH, SAFETY & ENVIRONMENTAL REQUIREMENTS

- A. The Contractor, its subcontractors, suppliers, and employees have the obligation to comply with all Authority health, safety and environmental compliance department (HSEC) requirements of this safety specification, project site requirements, bus yard safety rules, as well as all federal, state, and local regulations pertaining to scope of work, contracts or agreements with the Authority. Additionally, manufacturer requirements are considered incorporated by reference as applicable to this scope of work.
- B. Observance of repeated unsafe acts or conditions, serious violation of safety standards, non-conformance of Authority health, safety and environmental compliance department (HSEC) requirements, or disregard for the intent of these safety specifications to protect people and property, by Contractor or its subcontractors may be cause for termination of scope or agreements with the Authority, at the sole discretion of the Authority.
- C. The health, safety, and environmental requirements, and references contained within this scope of work shall not be considered all-inclusive as to the hazards that might be encountered. Safe work practices shall be planned and performed, and safe conditions shall be maintained during the course of this work scope.
- D. The Authority Project Manager shall be responsible to ensure a safety orientation is conducted of known potential hazards and emergency procedures for all Contractor personnel, subcontractors, suppliers, vendors, and new employees assigned to the project prior to commencement of the project.
- E. The Contractor shall ensure that all Contractor vehicles, including those of its subcontractors, suppliers, vendors and employees are parked in designated parking areas, and comply with traffic routes, and posted traffic signs in areas other than the employee parking lots.
- F. California Code of Regulations (CCR) Title 8 Standards are minimum requirements; each Contractor is encouraged to exceed minimum requirements. When the Contractor's safety requirements exceed statutory standards, the more stringent requirements shall be achieved for the safeguard of public and workers.

G. INJURY AND ILLNESS PREVENTION PLAN

The Contractor shall submit to the Authority, a copy of their company Injury and Illness Prevention Plan (IIPP) in accordance with California Code of Regulations (CCR) Title 8, Section 3203. The intent and elements of the IIPP shall be implemented and enforced by the Contractor and its sub-tier contractors, suppliers, and vendors.

H. Contractor shall provide a copy of the Policy or Program of Company's Substance Abuse Prevention Policy that complies with the most recent Drug Free Workplace Act.

1.2 HEAT ILLNESS PREVENTION PROGRAM

A. Contractor shall provide a copy of their company Heat Illness Prevention Program in accordance with CCR Title 8, Section 3395, Heat Illness Prevention.

1.3 HAZARD COMMUNICATION

A. Contractor shall comply with CCR Title 8, Section 5194 Hazard Communication Standard. Prior to use on Authority property and/or project work areas Contractor shall provide the Authority Project Manager copies of MSDS for all applicable products used, if any.

B. All chemicals including paint, solvents, detergents and similar substances shall comply with South Coast Air Quality Management District (SCAQMD) rules 103, 1113, and 1171.

C. The Contractor shall protect property and water resources from fuels and similar products throughout the duration of the contract. Contractor shall comply with Storm Water Pollution Prevention Plan (SWPPP) requirements.

1.4 INCIDENT NOTIFICATION AND INVESTIGATION

A. The Authority shall be promptly notified of any of the following types of incidents:

1. Damage to Authority property (or incidents involving third party property damage);
2. Reportable and/or Recordable injuries (as defined by the U. S. Occupational Safety and Health Administration);
3. Incidents impacting the environment, i.e. spills or releases on Authority property.

B. Notifications shall be made to Authority representatives, employees and/or agents. This includes incidents occurring to contractors, vendors, visitors, or members of the general public that arise from the performance of Authority contract work. An immediate verbal notice followed by a written incident investigation report shall be submitted to Authority's Project Manager within 24 hours of the incident.

C. A final written incident investigative report shall be submitted within seven (7) calendar days, and include the following information. The current status of anyone injured, photos of the incident area, detailed description of what happened, the contributing factors that lead to the incident occurrence, a copy

of the company policy or procedure associated with the incident and evaluation of effectiveness, copy of the task planning documentation, and the corrective action initiated to prevent recurrence. This information shall be considered the minimum elements required for a comprehensive incident report acceptable to OCTA.

1.5 PERSONAL PROTECTIVE EQUIPMENT

- A. The Contractor, its subcontractors, suppliers, and employees are required to comply with applicable personal protective equipment (PPE) requirements while performing work at any Authority project or property. Generally minimum PPE requirements include eye protection; hearing protection, head protection, class 2 safety reflective vests, and appropriate footwear.
- B. The Contractor, its subcontractors, suppliers, and employees are required to provide their own PPE, including eye, head, foot, and hand protection, safety vests, or other PPE required to perform their work safely on Authority projects or property. The Authority requires eye protection on construction projects and work areas that meet ANSI Z-87.1 Standards.

FORM B: CAMPAIGN CONTRIBUTION DISCLOSURE FORM

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Information Sheet

ORANGE COUNTY TRANSPORTATION AUTHORITY

The attached Campaign Contribution Disclosure Form must be completed by applicants for, or persons who are the subject of, any proceeding involving a license, permit, or other entitlement for use pending before the Board of Directors of the OCTA or any of its affiliated agencies. (Please see next page for definitions of these terms.)

IMPORTANT NOTICE

Basic Provisions of Government Code Section 84308

- A. If you are an applicant for, or the subject of, any proceeding involving a license, permit, or other entitlement for use, you are prohibited from making a campaign contribution of more than \$250 to any board member or his or her alternate. This prohibition begins on the date your application is filed or the proceeding is otherwise initiated, and the prohibition ends three months after a final decision is rendered by the Board of Directors. In addition, no board member or alternate may solicit or accept a campaign contribution of more than \$250 from you during this period.
- B. These prohibitions also apply to your agents, and, if you are a closely held corporation, to your majority shareholder as well. These prohibitions also apply to your subcontractor(s), joint venturer(s), and partner(s) in this proceeding. Also included are parent companies and subsidiary companies directed and controlled by you, and political action committees directed and controlled by you.
- C. You must file the attached disclosure form and disclose whether you or your agent(s) have in the aggregate contributed more than \$250 to any board member or his or her alternate during the 12-month period preceding the filing of the application or the initiation of the proceeding.
- D. If you or your agent have in the aggregate contributed more than \$250 to any individual board member or his/or her alternate during the 12 months preceding the decision on the application or proceeding, that board member or alternate must disqualify himself or herself from the decision. However, disqualification is not required if the board member or alternate returns the campaign contribution within 30 days from the time the director knows, or should have known, about both the contribution and the fact that you are a party in the proceeding. The Campaign Contribution Disclosure Form should be completed and filed with your proposal, or with the first written document you file or submit after the proceeding commences.

1. A proceeding involving "a license, permit, or other entitlement for use" includes all business, professional, trade and land use licenses and permits, and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor or personal employment contracts), and all franchises.
2. Your "agent" is someone who represents you in connection with a proceeding involving a license, permit or other entitlement for use. If an individual acting as an agent is also acting in his or her capacity as an employee or member of a law, architectural, engineering, consulting firm, or similar business entity, both the business entity and the individual are "agents."
3. To determine whether a campaign contribution of more than \$250 has been made by you, campaign contributions made by you within the preceding 12 months must be aggregated with those made by your agent within the preceding 12 months or the period of the agency, whichever is shorter. Contributions made by your majority shareholder (if a closely held corporation), your subcontractor(s), your joint venturer(s), and your partner(s) in this proceeding must also be included as part of the aggregation. Campaign contributions made to different directors or their alternates are not aggregated.
4. A list of the members and alternates of the Board of Directors is attached.

This notice summarizes the major requirements of Government Code Section 84308 of the Political Reform Act and California Code of Regulations, Title 2 Sections 18438-18438.8.

FORM C: STATUS OF PAST AND PRESENT CONTRACTS

STATUS OF PAST AND PRESENT CONTRACTS

On the form provided below, Offeror shall list the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract.

A separate form must be completed for each contract. Offeror shall provide an accurate contact name and telephone number for each contract and indicate the term of the contract and the original contract value. Offeror shall also provide a brief summary and the current status of the litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations. If the contract was terminated, list the reason for termination.

Offeror shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's proposal. Each form must be signed by an officer of the Offeror confirming that the information provided is true and accurate.

FORM D: DISADVANTAGED BUSINESS ENTERPRISE PROGRAM
REQUIREMENTS AND FORMS

**DISADVANTAGED BUSINESS ENTERPRISE (DBE) PROGRAM
REQUIREMENTS**

1.0 DBE Goal

To assist proposers in ascertaining DBE availability based on the specific items of work associated with this procurement, the Authority has determined that DBEs are ready, willing and able to compete for subcontracting opportunities on this project. The DBE Goal for this contract is 3%.

2.0 DBE Policy and Applicability

In accordance with federal financial assistance agreements with the U.S. Department of Transportation (“U.S. DOT”), the Orange County Transportation Authority (“Authority”) has adopted a Disadvantaged Business Enterprise (“DBE”) Policy and Program, in conformance with Title 49 CFR Part 26, “Participation by Disadvantaged Business Enterprises in Department of Transportation Programs.” The contract is subject to the following stipulated regulations. Pursuant to the intent of these Regulations, it is the policy of the Authority to fulfill the spirit and intent of the DBE Program regulations published under U.S. DOT Title 49 CFR, Part 26, by ensuring that DBEs have an equitable opportunity to compete for and participate in Authority’s U.S. DOT-assisted contracts and subcontracts. The Authority is firmly committed to its DBE Program objectives, which are designed to:

- 2.1 Ensure non-discrimination in the award and administration of Authority’s U.S. DOT-assisted contracts.
- 2.2 Create a level playing field on which DBEs can compete fairly for the Authority’s U.S. DOT-assisted contracts.
- 2.3 Ensure that the DBE Program and Overall Goal are narrowly tailored in accordance with applicable law.
- 2.4 Ensure that only firms that meet 49 CFR, Part 26 eligibility standards are permitted to participate as DBEs in the Authority’s DBE program.
- 2.5 Help remove barriers which impede the participation of DBEs in the Authority’s U.S. DOT-assisted contracts.
- 2.6 Promote the use of DBEs in all types of U.S. DOT-assisted agreements and procurement activities conducted by the Authority.
- 2.7 Provide training and other assistance through our resource partners to address capital, bonding and insurance needs.

- 2.8 Assist in the development of DBE firms that can compete successfully in the marketplace outside the DBE Program; and
- 2.9 Establish and provide opportunities for DBEs by providing flexibility in the implementation of the Authority's DBE Program.

Proposers shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of subcontracts.

Any terms used in this section that are defined in 49 CFR Part 26, or elsewhere in the Regulations, shall have the meaning set forth in the Regulations. In the event of any conflicts or inconsistencies between the Regulations and the Authority's DBE Program with respect to U.S. DOT-assisted contracts, the Regulations shall prevail.

Race-Neutral/Race-Conscious DBE Program Measures

The Authority will utilize both race-neutral and race-conscious means to meet its overall DBE Program goal.

Race-neutral measures include, but are not limited to, conducting outreach, training, providing other resource assistance and assessing proposal delivery schedules to ensure that DBEs interested in proposing for U.S. DOT-assisted solicitations are provided Additional Authority Race-Neutral measures include ensuring that DBEs and other small business are afforded ample opportunity to participate in the Authority's U.S. DOT-assisted solicitations by unbundling large contracts to make them more accessible to small businesses and requiring or encouraging prime consultants to subcontract portions of work that they might, otherwise, perform with their own work forces. Race-neutral participation also includes any time a DBE obtains a Prime Contract through customary competitive procurement procedures or is awarded a subcontract on a prime contract that does not carry a DBE goal.

In conjunction with the race-neutral measures listed above, the Authority will implement race-conscious measures through the use of contract goals and good faith efforts. When a contract-specific goal is assigned to a project, proposers must demonstrate responsiveness by committing to meet the DBE goal or documenting a bona fide good faith effort to do so, as a condition of award. Contract-specific goals are specifically targeted at DBEs certified through the California Unified Certification Program ("CUCP").

3.0 Definitions

The following definitions apply to the terms as used in these provisions:

- 3.1 "Disadvantaged Business Enterprise (DBE)"** means a for-profit small business concern: (a) which is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in the case of a corporation, in which 51 percent of the stock of which is owned by one or more such individuals; and (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.
- 3.2 "Small Business Concern"** means a small business as defined pursuant to Section 3 of the Small Business Act and Small Business Administration (SBA) regulations implementing it (13 CFR Part 121) that also does not exceed the cap on average annual gross receipts specified in §26.65(b).
- 3.3 "Socially and Economically Disadvantaged Individuals"** means any individual who is a citizen (or lawfully admitted permanent resident) of the United States and who has been subjected to racial or ethnic prejudice or cultural bias within American society because of his or her identity as a member of a group and without regard to his or her individual qualities. The social disadvantage must stem from circumstances beyond the individual's control.
- 3.3.1 Any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis. An individual must demonstrate that he or she has held himself or herself out, as a member of a designated group if you require it.
- 3.3.2 Any individual in the following groups, members of which are rebuttably presumed to be socially and economically disadvantaged:
- 3.3.2.1 "Black Americans," which includes persons having origins in any of the Black racial groups of Africa;
- 3.3.2.2 "Hispanic Americans," which includes persons of Mexican, Puerto Rican, Cuban, Dominican, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race;
- 3.3.2.3 "Native Americans," which includes persons who are enrolled members of a federally or State recognized Indian tribe, Alaska Natives, or Native Hawaiians;

- 3.3.2.4 "Asian-Pacific Americans," which includes persons whose origins are from Japan, China, Taiwan, Korea, Burma (Myanmar), Vietnam, Laos, Cambodia (Kampuchea), Thailand, Malaysia, Indonesia, the Philippines, Brunei, Samoa, Guam, the U.S. Trust Territories of the Pacific Islands (Republic of Palau), Republic of the Northern Marianas Islands, Samoa, Macao, Fiji, Tonga, Kirbati, Tuvalu, Nauru, Federated States of Micronesia, or Hong Kong;
 - 3.3.2.5 "Subcontinent Asian Americans," which includes persons whose origins are from India, Pakistan, Bangladesh, Bhutan, the Maldives Islands, Nepal or Sri Lanka;
 - 3.3.2.6 Women; and
 - 3.3.2.7 Any additional groups whose members are designated as socially and economically disadvantaged by the SBA, at such time as the SBA designation becomes effective.
- 3.3.3 Being born in a particular country does not, standing alone, mean that a person is necessarily a member of one of the groups listed in this definition.
- 3.4 "Owned and Controlled"** means a business: (a) which is at least 51 percent owned by one or more "Socially and Economically Disadvantaged Individuals" or in the case of a publicly-owned business, at least 51 percent of the stock of which is owned by one or more "Socially and Economically Disadvantaged Individuals;" and (b) whose management and daily business operations are controlled by one or more such individuals.
- 3.5 "Manufacturer"** means a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the contractor.
- 3.6 "Regular Dealer"** means a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials or supplies required for the performance of the contract are bought, kept in stock, and regularly sold to the public in the usual course of business. The firm must engage in, as its principal business, and in its own name, the purchase and sale of the product in question. A regular dealer in such bulk items as steel, cement, gravel, stone and petroleum products need not keep such products in stock if it owns or operates distribution equipment.
- 3.7 "Fraud"** includes a firm that does not meet the eligibility criteria of being a certified DBE, and that attempts to participate in a U.S. DOT-assisted

program as a DBE on the basis of false, fraudulent, or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty. The Authority may take enforcement action under 49 CFR Part 31, Program Fraud and Civil Remedies, against any participant in the DBE program whose conduct is subject to such action under 49 CFR part 31. The Authority may refer cases of identified fraud to the Department of Justice, for prosecution under 18 U.S.C. 1001, or any other applicable provisions of law. Any person who makes a false or fraudulent statement in connection with participation of a DBE in any U.S. DOT-assisted program or otherwise violates applicable Federal statutes.

3.8 ***"Other Socially and Economically Disadvantaged Individuals"*** means those individuals who are citizens of the United States (or lawfully admitted permanent residents) and who, on a case-by-case basis, are determined by Small Business Administration or the Authority to meet the social and economic disadvantage criteria described below.

3.8.1 Social Disadvantage

3.8.1.1 The individual's social disadvantage must stem from his/her color, national origin, gender, physical handicap, long-term residence in an environment isolated from the mainstream of American society, or other similar cause beyond the individual's control.

3.8.1.2 The individual must demonstrate that he/she has personally suffered social disadvantage.

3.8.1.3 The individual's social disadvantage must be rooted in treatment, which he/she has experienced in American society, not in other countries.

3.8.1.4 The individual's social disadvantage must be chronic, longstanding and substantial; not fleeting or insignificant.

3.8.1.5 The individual's social disadvantage must have negatively affected his/her entry into and/or advancement in the business world.

3.8.1.6 A determination of social disadvantage must be made before proceeding to make a determination of economic disadvantage.

3.8.2 Economic Disadvantage

3.8.2.1 The individual's ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities, as compared to others in the same line of business and competitive market area that are not socially disadvantaged.

3.8.2.2 The following criteria will be considered when determining the degree of diminished credit and capital opportunities of a person claiming social and economic disadvantage:

With respect to the individual:

- availability of financing
- bonding capability
- availability of outside equity capital
- available markets

With respect to the individual and the business concern:

- personal and business assets
- personal and business net worth
- personal and business income and profits

4.0 DBE Proposal Submission Requirements

Proposer must complete and submit the following DBE Exhibit (form) with their proposal:

- DBE Participation Commitment Form
 - Written Confirmation (required from each proposed DBE firm listed on the DBE Participation Commitment Form)

Proposer must complete and submit the following DBE Exhibits (forms) to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date:

- DBE Information - Good Faith Efforts (if sufficient participation to meet the DBE goal has not been proposed on the DBE Participation Commitment Form)
- Bidders List

Required Forms	Submission
DBE Participation Commitment Form	Required at time of proposal
Written Confirmation (for each DBE firm listed on the DBE Participation Commitment Form)	Required at time of proposal
DBE Information – Good Faith Efforts	Required no later than 4:00 p.m. on the 2 nd business day after the proposal due date
Bidders List	Required no later than 4:00 p.m. on the 2 nd business day after the proposal due date

4.1 “DBE Participation Commitment Form” (Form D-1) required at time of Proposal. The Proposer is to provide the following information for each DBE that will participate in the contract:

- 4.1.1 The complete name and address of each DBE who will participate in the contract;
- 4.1.2 Valid DBE Certification ID to confirm eligibility status through the CUCP, in conformance with 49 CFR Part 26;
- 4.1.3 A description of the work that each DBE will perform or provide;
- 4.1.4 The dollar amount of the work to be performed or provided by the DBE;
- 4.1.5 The dollar amount of the work eligible to be credited for each DBE towards the DBE goal (should not include lower-tier participation and should account for the type of work to be performed);
- 4.1.6 The proposer shall also submit, for each DBE to perform under this Agreement, a written confirmation signed and dated from each DBE listed, acknowledging that the DBE is participating in the contract for the specified dollar value and scope of work listed on the DBE Participation Commitment Form. A signed quote or proposal from the DBE firm can be used in lieu of the written confirmation; however, the dollar amount and scope(s) in the quote/proposal, and the amount and scope reflected on the DBE Participation Commitment Form must match identically.

4.2 “DBE Information - Good Faith Efforts” (Form D-2)

To be a responsible and responsive proposer, the proposer must make good faith efforts to meet the goal. The proposer can meet this requirement in two ways. (i) the proposer can meet the goal by documenting commitments for participation by DBE firms sufficient for this purpose; or (ii) the proposer can demonstrate that he/she took all necessary and reasonable steps to achieve the DBE goal or other requirement of this part, which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

If the proposer did not meet or obtain enough DBE participation to meet the DBE goal, the proposer must complete and submit the “DBE Information – Good Faith Efforts,” form demonstrating that the proposer made adequate good faith efforts to meet the goal.

If the proposer has met the DBE goal based on the participation of DBEs listed on the proposer’s “DBE Participation Commitment Form,” it is at the proposer’s discretion (i.e. this is not mandatory) to submit “DBE Information – Good Faith Efforts,” form. However, the submission of good faith efforts documentation can protect the proposer’s eligibility for award of the contract if the Authority determines that the proposer failed to meet the goal for various reasons (e.g. a DBE firm was not certified at proposal submission or the proposer made a mathematical error). Submittal of only the “DBE Information – Good Faith Efforts,” form may not provide sufficient documentation to demonstrate that adequate good faith efforts were made; therefore, the proposer is encouraged to attach additional information and supporting documents as necessary.

Good Faith Efforts documentation must be submitted to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date.

For further guidance, refer to instructions on Exhibit E-2 “DBE Information – Good Faith Efforts,” form and the United States Department of Transportation’s (“U.S. DOT”) DBE Program, Appendix A of Title 49 CFR Part 26 - “Guidance Concerning Good Faith Efforts,” and the DBE Section of the Authority’s Pre-Proposal Power Point.

4.3 “Bidders List” (Form D-3)

The Authority is required by Regulations to create and maintain a “Bidders List,” of all firms proposing or quoting on the Authority’s U.S. DOT-assisted contracts for use in calculating the Authority’s DBE goal(s). Proposers are required to complete and submit the requested information listed on the “Bidders List” form, for all firms (DBE[s] and non-DBE[s]) who submitted a bid, proposal or quote, including firms who were contracted by the prime proposer.

The “Bidders List” must be submitted to the Authority no later than 4:00 p.m. on the 2nd business day after the proposal due date.

FORM E: CERTIFICATION OF RESTRICTIONS ON LOBBYING FORM

CERTIFICATION
LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN
FEDERAL TRANSACTIONS

A. DEFINITIONS

1. **Authority, as used in this clause, means the Orange County Transportation Authority, acting on behalf of the Orange County Transit District.**
2. **Covered Federal action, as used in this clause, means any of the following Federal actions:**
 - a. The awarding of any Federal contract.
 - b. The making of any Federal grant.
 - c. The making of any Federal loan.
 - d. The entering into of any cooperative agreement.
 - e. The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
3. **Indian tribe and tribal organization, as used in this clause, have the meaning provided in Section 450b of the Indian self-determination and Education Assistance Act (25 U.S.C. 450) and include Alaskan Natives.**
4. **Influencing or attempting to influence, as used in this clause, means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.**
5. **Local government, as used in this clause, means a unit of government in a State and, if chartered, established, or other were recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.**
6. **Officer or employee of an agency, as used in this clause, includes the following individuals who are employed by an agency:**
 - a. An individual who is appointed to a position in the Government under title 5, United States code, including a position under a temporary appointment.

- b. A member of the uniformed services, as defined in the subsection 101(3), Title 37, United States Code.
 - c. A special Government employee, as defined in Section 202, Title 18, United States Code.
 - d. An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, Title 5, United States Code, Appendix section 3.
- 7. Person, as used in this clause, means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit, or not for profit. This term excludes an Indian tribe, tribal organization or any other Indian organization with respect to expenditures specifically permitted by other Federal law.**
- 8. Reasonable compensation, as used in this clause, means with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.**
- 9. Reasonable payment, as used in this clause means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.**
- 10. Recipient, as used in this clause, includes the CONSULTANT and all subcontractors. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.**
- 11. Regularly employed, as used in this clause, means, with respect to an officer or employee of a person requesting or receiving by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.**
- 12. State, as used in this clause, means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and a multi-State regional or interstate entity having governmental duties and powers.**

B. PROHIBITIONS

1. **Section 1352 of Title 31, United States Code, among other things, prohibits a recipient of a Federal contract, grant, loan or cooperative agreement from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract; the making of any Federal grant; the making of any Federal loan; the entering into of any cooperative agreement; or, the modification of any Federal contract, grant, loan, or cooperative agreement.**
2. **The Act also requires consultant to furnish a disclosure if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan or cooperative agreement.**
3. **The prohibitions of the Act do not apply under the following conditions:**
 - a. Agency and legislative liaison by own employees.
 - (1) The prohibition on the use of appropriated funds, in subparagraph C.1. of this clause, does not apply in the case of payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.
 - (2) For purposes of paragraph C.3.a.(1) of this clause, providing any information specifically requested by an agency or Congress is permitted at any time.
 - (3) The following agency and legislative liaison activities are permitted any time where they are not related to a specific solicitation for any covered Federal action:

Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities.

Technical discussions and other activities regarding the application of adaptation of the person's products or services for an agency's use.

- (4) The following agency and legislative liaison activities are permitted where they are prior to formal solicitation of any covered Federal action:

Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95-507, and subsequent amendments.

- (5) Only those services expressly authorized by paragraph C.3.a.(1) of this clause are permitted under this clause.

b. Professional and technical services

- (1) The prohibition on the use of appropriated funds, in subparagraph C.1. of this clause, does not apply in the case of:

A payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as condition for receiving that Federal action.

Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission or negotiation of any bid, proposal, or application or that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than

officers or employees of a person requesting or receiving a covered Federal action include contractors and trade associations.

- (2) For purposes of paragraph C.3.a.(1) of this clause, professional and technical services shall be limited to advise and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission, or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission, or negotiation of a covered Federal action.
- (3) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and any other requirements in the actual award documents.
- (4) Only those services expressly authorized by paragraph C.3.a.(1) and (2) of this clause are permitted under this clause.
- (5) The reporting requirements of FAR 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

c. Disclosure

- (1) The consultant who requests or receives from an agency a Federal contract shall file with that agency a disclosure form OMB standard form LLL, Disclosure of Lobbying Activities, (Attachment to the bid package) if such person has made or had agreed to made any payment using non appropriated funds (to include profits from any covered Federal action), which would be prohibited under subparagraph B.1. of this clause, if paid for with appropriated funds.
- (2) The consultant shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under subparagraph II.A. of this clause. An event that materially affects the accuracy of the information reported includes:

A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.
- (3) The consultant shall require the submittal of a certification, and if required, a disclosure form by any person who requests or receives any subcontract exceeding \$100,000 under the Federal contract.
- (4) All subcontractor disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the prime consultant. The prime consultant shall submit all disclosures to the District at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding consultant.

d. Agreement

The consultant agrees not to make any payment prohibited by this clause.

e. Penalties

- (1) Any person who makes an expenditure prohibited under paragraph a) of this clause or who fails to file or amend the disclosure form to be filed or amended by paragraph d) of this clause shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.
- (2) Consultants may relay without liability on the representation made by their subcontractors in the certification and disclosure forms.

f. Cost Allowability:

Nothing in this clause is to be interpreted to make allowable or reasonable any costs, which will otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any other provisions.

**CERTIFICATION OF
RESTRICTIONS ON LOBBYING**

I, _____, hereby certify on behalf (name of offeror) of
_____ that:
(Firm name)

1. No Federal appropriated funds have been paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer of employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds, other than Federal appropriated funds, have been paid or will be paid to any person for making lobbying contacts to an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit the attached Standard Form-LLL, "Disclosure of Lobbying Activities", in accordance with its instructions.
3. If bidder/offeror does not have any reportable activities to disclose, they shall check the box entitled "No Reportable Activities" on the attached Standard Form-LLL "Disclosure of Lobbying Activities" and complete Section 16 of the form. The certifying official shall sign and date the form, print his/her name, title and telephone number.
4. The undersigned shall require that the language of this certification be included in all subcontracts, and that all subcontractors shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance is placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Bidder, _____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Bidder understands and agrees that the provisions of 31 U.S.C. 3801, et seq. apply to this certification and disclosure, if any.

**INSTRUCTIONS FOR COMPLETION OF SF-LLL DISCLOSURE OF LOBBYING
ACTIVITIES**

This DISCLOSURE FORMS SHALL BE COMPLETED BY the reporting entity, whether Subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be a prime or subaward recipient. Identify the tier of the subawardee e.g., the first subawardee of the prime is the first tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee" then enter the full name, address city, state, and zip code of the prime Federal recipient. Include Congressional District.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency, name if known. For example, Department of Transportation, United State Coast Guard.
7. Enter the Federal program name for description of the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g. Request for Proposal (RFP) number, Invitation for Bid (IFB) number, grant announcement number, the contract, grant, or loan award number, the application/ proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state, and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

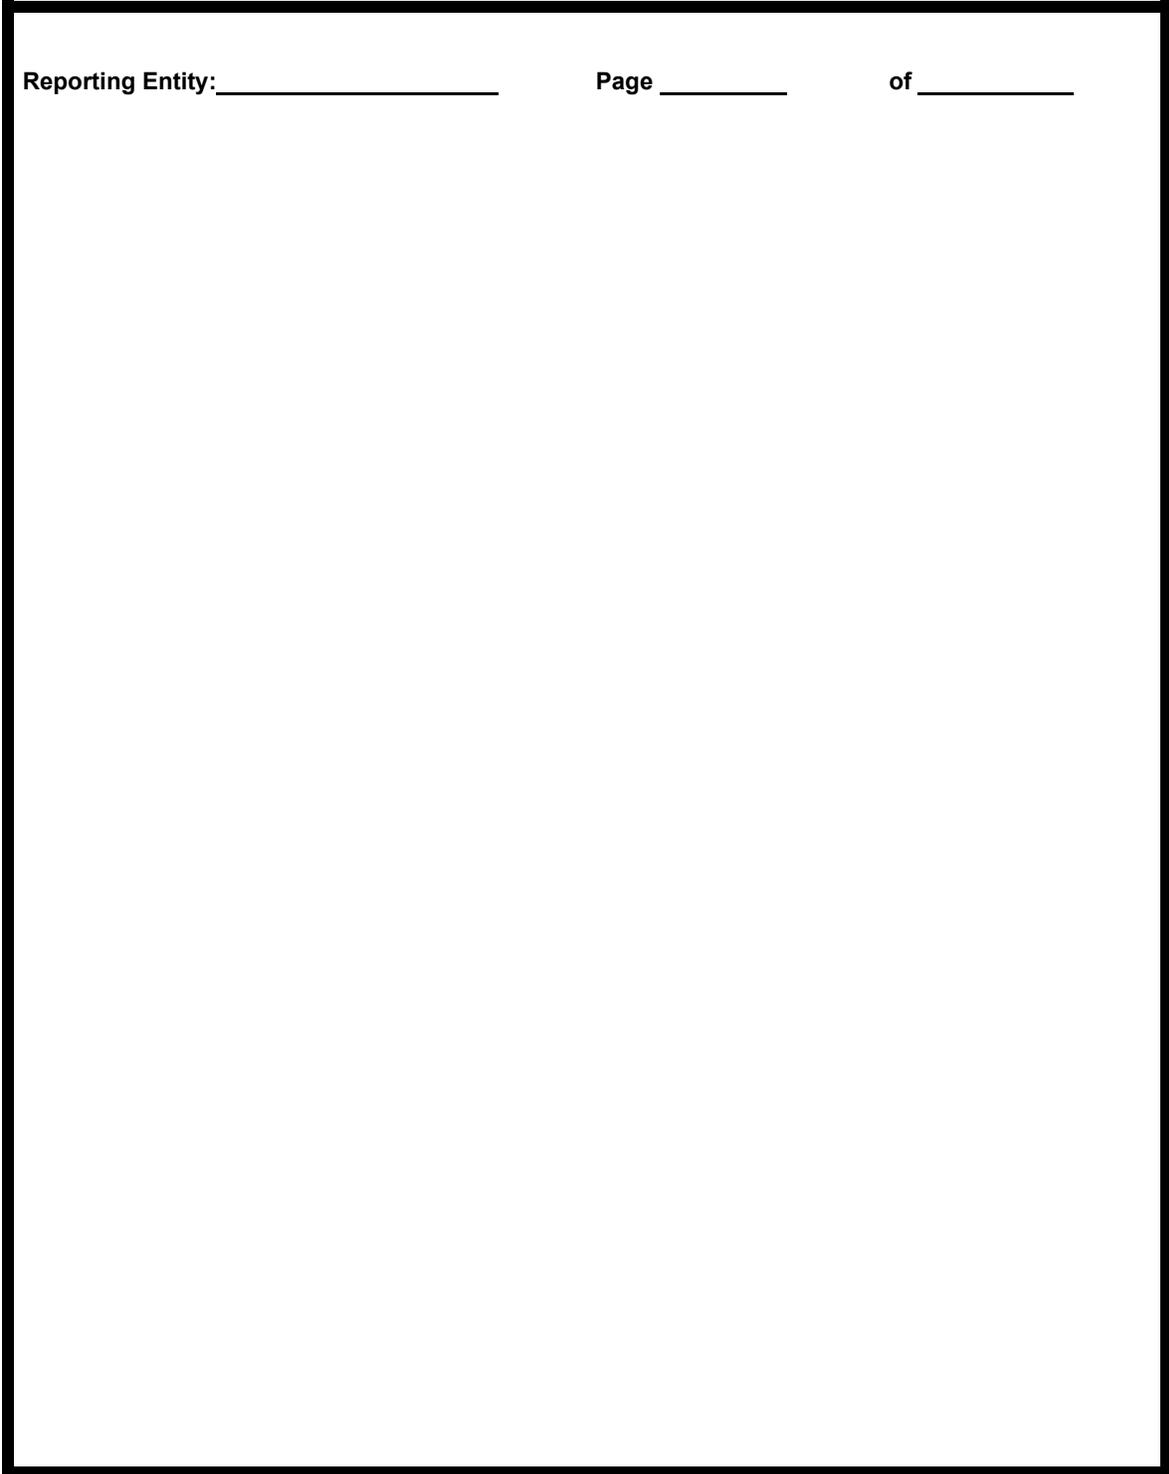

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a.). Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box (es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box (es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Management and Budget Paperwork Reduction Project (0348-0446), Washington, D.C. 20503.

FORM F: PROPOSAL EXCEPTIONS AND/OR DEVIATIONS

PROPOSAL EXCEPTIONS AND/OR DEVIATIONS FORM

The following form shall be completed for each technical and/or contractual exception or deviation that is submitted by Offeror for review and consideration by Authority. The exception and/or deviation must be clearly stated along with the rationale for requesting the exception and/or deviation. If no technical or contractual exceptions or deviations are submitted as part of the original proposal, Offerors are deemed to have accepted Authority' technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit B) and Proposed Agreement (Exhibit E). Offerors will not be allowed to submit this form or any contractual exceptions and/or deviation after the Proposal submittal date identified in the RFP. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

FORM H: INTELLECTUAL PROPERTY ESCROW AGREEMENT

FORM OF INTELLECTUAL PROPERTY ESCROW AGREEMENT

Account Number _____

This Intellectual Property Escrow Agreement (“Escrow Agreement”) is effective _____, 201_ among _____, a _____ corporation (“Escrow Agent”), _____, a _____ corporation (“Depositor”), and the Orange County Transportation Authority and, public entity of the State of California (“OCTA”) together referred to as (“Authority”), who collectively may be referred to in this Escrow Agreement as the parties (“Parties”).

A. Depositor and Authority have entered or will enter into an agreement for Back Office System and Customer Services Center Operations Services for the 405 Express Lanes in Orange County, California (the “AGREEMENT”). Unless the context otherwise requires, capitalized terms used in this Escrow Agreement have the meanings given in the AGREEMENT.

B. Under the AGREEMENT, Depositor has granted Authority licenses to use certain intellectual property, software and supporting materials, and Depositor will from time to time modify, add to, refine, substitute, revise, enhance, update, revise, upgrade and/or correct such software and supporting materials and will submit these updated software development documents on an ongoing basis as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such updates. An initial deposit shall be made by Depositor within 60 Calendar Days of the AGREEMENT’s Effective Date if requested by Authority. Additional deposits shall be made within 10 Calendar Days of Go-Live and BOS Acceptance. Depositor shall make deposits of the complete set of IP Materials current at the time of deposit at least semi-annually if no deposits provided above have occurred within the relevant preceding six-month period.

C. Depositor has agreed in the AGREEMENT to deposit into escrow with Escrow Agent the Intellectual Property and IP Materials including, without limitation, related documentation of Software required to be delivered as part of the AGREEMENT, including Software Source Code in ASCII format, on industry standard media and source code listings in human readable form of the Software as well as paper and electronic copies of the functional specifications and design specifications, code and documentation for tests used by Depositor to verify Software behavior, and user and technical documentation (all of which, together with modifications, additions, enhancements, updates, revisions, upgrades and corrections thereto and thereof, and all other supplementary deposits under Section 1.1 below, being collectively referred to in this Escrow Agreement as the “Software Source Code”).

D. Depositor and/or its Software suppliers desire to avoid disclosure and release of the Software Source Code except under certain limited circumstances.

E. The availability of the IP Materials (including without limitation Software Source Code) to Authority is critical to Authority’ business and, therefore, Authority need access to the IP Materials certain limited circumstances.

F. Depositor and Authority desire to establish an escrow with Escrow Agent to provide for the retention, administration and controlled access of the IP Materials.

G. Escrow Agent has consented to act as Escrow Agent and to receive and hold the current version and any future versions of the IP Materials.

H. The parties desire this Escrow Agreement to be supplementary to the AGREEMENT pursuant to 11 United States Bankruptcy Code, Section 365(n)(1)(B).

NOW, THEREFORE, Depositor and Authority hereby engage Escrow Agent to serve as Escrow Agent for the Intellectual Property and IP Materials, Escrow Agent hereby accepts such engagement, and

the Parties hereby agree to the establishment and administration of an escrow for the IP Materials, on the following terms and conditions.

SOURCE CODE ESCROW AGREEMENT

SECTION 1. DEPOSITS

1.1. Obligation to Make Deposits.

(a) Immediately upon execution of this Escrow Agreement, Depositor shall deposit IP Materials that consist of Pre-Existing Contractor Intellectual Property and Third Party Intellectual Property to be used in connection with the Toll Services with Escrow Agent.

(b) Depositor will submit updated Software development documents on an ongoing basis as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such updates. Notwithstanding the foregoing, additional deposits shall be made within 10 Calendar Days of Go-Live and BOS Acceptance. Depositor shall make deposits of the complete set of IP Materials current at the time of deposit at least semi-annually if no deposits provided above have occurred within the relevant preceding six-month period.

(c) If during any calendar month after the date a Notice of BOS Acceptance is issued by Authority, Depositor completes and installs in or for the BOS Work any modification, addition, Enhancement, Update, revision, Upgrade or correction of or to any of the escrowed Software Source Code, it shall deposit with Escrow Agent, as soon as reasonably practicable and in no event more than 30 Calendar Days from the date of such updates, each such modification, addition, Enhancement, Update, revision, Upgrade and correction, and a modified Attachment A identifying the same. Similarly, if Depositor identifies any additional Intellectual Property or IP Materials to be deposited pursuant to Article 26 of the AGREEMENT, it shall deposit same with Escrow Agent, along with a modified Attachment A identifying the same as soon as reasonably practicable, but in no event more than 30 Calendar Days from the date of such identification.

(d) Each deposit under subsection (d) above shall be added to the existing deposit. Each deposit under subsections (b) or (c) above shall be listed on a modified Attachment A and Depositor shall sign each modified Attachment A. Attachment A and each modified Attachment A shall be held and maintained separately within the escrow account. Escrow Agent shall create an independent record which documents the activity for Attachment A and each modified Attachment A. The processing of all deposits under this Section 1.1 shall be in accordance with Sections 1.2 through 1.6 below.

(e) Notwithstanding any other provision of this Escrow Agreement, Depositor shall have no obligation to deposit with the Escrow Agent any Software Source Code for Off-the-Shelf Software, subject however, to the provisions of Article 26 of the AGREEMENT.

1.2. Identification of Tangible Media. Prior to each delivery of the IP Materials to Escrow Agent, Depositor shall conspicuously label for identification each document, magnetic tape, disk, or other tangible media upon which the Intellectual Property are written or stored. Additionally, with each delivery Depositor shall complete Attachment A to this Escrow Agreement or a modified Attachment A by listing each such tangible media by the item label description, the type of media and the quantity, and the identity of the owner of the Intellectual Property (whether Depositor or a Software Supplier). Depositor shall sign each Attachment A or modified Attachment A and deliver it to Escrow Agent with the IP Materials. Such signature shall constitute Depositor's representation and warranty that Attachment A is true, accurate and complete. Unless and until Depositor makes the initial deposit with Escrow Agent, Escrow Agent shall have no obligation with respect to this Escrow Agreement, except the obligation to notify the parties regarding the status of the account as required in Section 2.2 below.

1.3. Deposit Inspection. Within three Business Days after Escrow Agent receives IP Materials and Attachment A or a modified Attachment A, Escrow Agent shall conduct a deposit inspection by visually matching the labeling of the tangible media containing the Source Code to the item descriptions and quantity listed on Attachment A or modified Attachment A. In addition to the deposit inspection, Authority may elect to cause a verification of the IP Materials at any time in accordance with Section 1.6 below.

1.4. Acceptance of Deposit. Immediately upon completion of each deposit inspection, if Escrow Agent determines that the labeling of the tangible media matches the item descriptions and quantity on Attachment A or the modified Attachment A, Escrow Agent shall date and sign Attachment A or the modified Attachment A and mail a copy thereof to Depositor and Authority. Immediately upon completion of each deposit inspection, if Escrow Agent determines that the labeling does not match the item descriptions or quantity on Attachment A or the modified Attachment A, Escrow Agent shall (a) note the discrepancies in writing on Attachment A or the modified Attachment A; (b) date and sign Attachment A or the modified Attachment A with the exceptions noted; and (c) mail a copy of Attachment A or the modified Attachment A to Depositor and Authority. Escrow Agent's acceptance of the deposit occurs upon the signing of Attachment A or the modified Attachment A by Escrow Agent. Delivery of the signed Attachment A or the modified Attachment A to Authority is Authority's notice that the Software Source Code have been received and accepted by Escrow Agent.

1.5. Depositor's Representations. Depositor represents and warrants to Authority as follows:

(a) Depositor lawfully possesses all of the IP Materials and the Intellectual Property contained therein as deposited with Escrow Agent;

(b) With respect to all of the IP Materials and the Intellectual Property contained therein, Depositor has the right and authority to grant to Escrow Agent and Authority the rights as provided in this Escrow Agreement;

(c) The IP Materials and the Intellectual Property contained therein are not subject to any lien or other encumbrance;

(d) The IP Materials and the Intellectual Property contained therein consist of the proprietary technology and other materials identified either in the AGREEMENT or Attachment A, as applicable; and

(e) The IP Materials are readable and useable in their current form or, if any portion of the IP Materials and the Intellectual Property contained therein is encrypted, the decryption tools and decryption keys have also been deposited.

1.6. Verification. Authority may, at Authority's expense, cause a verification of any IP Materials. Authority shall notify Depositor and Escrow Agent of Authority's request for verification. Depositor shall have the right to be present at the verification. A verification determines, in different levels of detail, the accuracy, completeness, sufficiency and quality of the IP Materials. If a verification is elected after the IP Materials have been delivered to Escrow Agent, then only Escrow Agent, or at Escrow Agent's or Authority's election an independent person or company selected and supervised by Escrow Agent or Authority, may perform the verification. If Authority elects to have an independent person or company perform the verifications, its election and selection shall prevail over any such election by Escrow Agent. The verification shall be conducted in accordance with the verification procedures specified in the completed form of Attachment A accompanying Depositor's deposit of the relevant IP Materials with Escrow Agent. Such verification shall determine the relevance, completeness, currency, accuracy and functionality of the IP Materials and the Intellectual Property contained therein and, specifically as to Software Source Code, whether the deposit is complete. If Escrow Agent or a person or company it selects performs the verification, Escrow Agent shall deliver to Authority a written report detailing the verification not later than 30 days after Authority delivers Notice requesting such verification. Any verification shall take place either at Escrow Agent's location or an agreed upon location during Escrow Agent's regular business hours. If Authority elect to have an independent person or company perform the verification, then such entity shall adhere to the

confidentiality requirements of the AGREEMENT. If Escrow Agent or the independent person performing the verification determine that the verification procedures specified in the completed Attachment A are insufficient to enable verification of the relevant IP Materials and the Intellectual Property contained therein, then upon the request of Escrow Holder or Authority, Depositor shall cooperate in good faith to supplement and/or modify the verification procedures as necessary and appropriate to facilitate such verification.

1.7. Removal of IP Materials. The IP Materials and the Intellectual Property contained therein may be removed and/or exchanged only on written instructions signed by both the Depositor and Authority, or as otherwise provided in this Escrow Agreement.

1.8. Inspection. Authority and Depositor shall be entitled, during normal business hours, to inspect, under the supervision of an officer of Escrow Agent and at Escrow Agent's facilities, the physical and technical status and condition of the IP Materials and the Intellectual Property contained therein. The party undertaking the inspection shall provide Notice of the pending inspection to the other party, five Business Days prior to the scheduled date of the inspection. The party receiving the notice shall have the right to be present at the inspection, but such presence is not a condition precedent to the inspecting party's right to proceed with inspection.

SECTION 2. CONFIDENTIALITY AND RECORD KEEPING

2.1. Confidentiality. Escrow Agent shall maintain the IP Materials and the Intellectual Property contained therein in a secure, environmentally safe, fireproofed vault or locked facility which is accessible only to authorized representatives of Escrow Agent. Escrow Agent shall have the obligation to reasonably protect the confidentiality of the Intellectual Property. Except as provided in this Escrow Agreement, Escrow Agent shall not disclose, transfer, make available or use the Intellectual Property or any IP Materials. Escrow Agent shall not disclose the content of this Escrow Agreement to any third party. If Escrow Agent receives a subpoena or any other order from a court or other judicial tribunal pertaining to the disclosure or release of the IP Materials and the Intellectual Property contained therein, Escrow Agent shall immediately notify the other Parties unless prohibited by law. It shall be the responsibility of Depositor and/or Authority to challenge any such order; provided, however, that Escrow Agent does not waive its rights to present its position with respect to any such order. Escrow Agent shall not be required to disobey any order from a court or other judicial tribunal. (See Section 7.5 below for notices of requested orders.)

2.2. Status Reports. Escrow Agent shall issue to Depositor and Authority a report profiling the account history at least semi-annually. Escrow Agent may provide copies of the account history pertaining to this Escrow Agreement upon the request of any other Party.

2.3. Audit Rights. During the term of this Escrow Agreement, Depositor and Authority may each inspect the written records of Escrow Agent pertaining to this Escrow Agreement. Any inspection shall be held during normal business hours and following reasonable prior Notice.

SECTION 3. TITLE TO IP MATERIALS

3.1 Title to IP Materials. Title to the IP Materials which embody Intellectual Property is vested in Authority pursuant to Article 25 of the AGREEMENT, but is subject to the provisions of this Escrow Agreement on access to and release of such IP Materials.

3.2 Disclaimer. Escrow Agent hereby disclaims and relinquishes any title to or ownership of Software Source Code deposited with Escrow Agent under this Escrow Agreement.

SECTION 4. RELEASE OF DEPOSIT

4.1. Release Conditions. As used in this Escrow Agreement, "Release Condition" shall mean any of the following:

- (a) The AGREEMENT is terminated for any reason including expiration of the Term;
- (b) A voluntary or involuntary bankruptcy or insolvency of CONTRACTOR occurs;
- (c) CONTRACTOR is dissolved or liquidated;
- (d) CONTRACTOR or any third party, (a) fails or ceases to provide services as necessary to permit continued use of any such Intellectual Property or (b) otherwise ceases to engage in the ordinary course of the business of manufacturing, supplying, maintaining and servicing the IP Materials pursuant to a license or any sublicense thereof.

4.2. Filing For Release. If Authority believes in good faith that a Release Condition has occurred, Authority may provide to Escrow Agent Notice of the occurrence of the Release Condition and a request for the release of the IP Materials and incorporated Intellectual Property. If the Release Condition pertains only to an owner of Third Party Intellectual Property, Authority' Notice shall so indicate. Immediately upon receipt of such Notice, Escrow Agent shall provide a copy of the Notice to Depositor by commercial express mail.

4.3. Contrary Instructions. From the date Escrow Agent mails the Notice requesting release of the IP Materials and incorporated Intellectual Property, Depositor shall have ten days to deliver to Escrow Agent contrary instructions ("Contrary Instructions"). Contrary Instructions shall mean the written representations and warranties, without qualification, exception or condition, by an authorized officer or authorized delegate of Depositor that (a) the person signing for Depositor is an authorized officer or authorized delegate of Depositor and (b) a Release Condition has not occurred or has been cured. Immediately upon receipt of Contrary Instructions within such ten day period, Escrow Agent shall send a copy to Authority by commercial express mail. Additionally, Escrow Agent shall provide Notice to Depositor and Authority that there is a dispute to be resolved pursuant to Section 7.3 of this Escrow Agreement. Subject to Section 5.2 of this Escrow Agreement, Escrow Agent shall continue to store the IP Materials and Intellectual Property without release pending (i) instructions from Depositor and Authority; (ii) dispute resolution pursuant to Section 7.3; or (iii) order of a court. Contrary Instructions received after such ten day period shall be automatically null and void, shall have no force or effect, and shall be disregarded by Escrow Agent.

4.4. Release of Deposit.

(a) If Escrow Agent does not receive Contrary Instructions from the Depositor within such ten day period, Escrow Agent is authorized to, and shall, immediately release the IP Materials and incorporated Intellectual Property to Authority. If the Release Condition pertains only to an owner of Third Party Intellectual Property, then Escrow Agent shall only release the IP Materials that (a) are identified on Attachment A as owned by such owner of Third Party Intellectual Property or (b) lacks identification of ownership on Attachment A. Any copying expense will be chargeable to Depositor. This Escrow Agreement shall terminate upon the release of all the IP Materials and incorporated Intellectual Property held by Escrow Agent.

(b) Escrow Agent shall promptly release all or any part of the IP Materials and incorporated Intellectual Property at any time and from time to time upon receipt of Notice signed by both Depositor and Authority.

(c) Escrow Agent shall also release the IP Materials and incorporated Intellectual Property to Authority at any time as directed or ordered by an arbitration award, by a final judgment of a court of competent jurisdiction, or by other final dispute resolution pursuant to Section 7.3; provided that

Authority provide to Escrow Agent a written opinion of counsel for Authority to the effect that such award, judgment or resolution is final and not appealable. In such event, Escrow Agent shall proceed with release in accordance with the award, judgment or resolution and may rely on such legal opinion.

4.5. Right to Use Following Release. Upon release of the IP Materials in accordance with this Section 4, Authority shall have the right and license to use the released Intellectual Property as provided in the AGREEMENT. Authority shall be obligated to maintain the confidentiality of the released Intellectual Property as provided in the AGREEMENT.

SECTION 5. TERM AND TERMINATION

5.1. Term of Escrow Agreement. The term of this Escrow Agreement shall continue in effect unless and until this Escrow Agreement is terminated in accordance with the terms of this Section 5. This Escrow Agreement shall be terminated in the event (a) Depositor and Authority jointly instruct Escrow Agent in writing that the Escrow Agreement is terminated; or (b) Escrow Agent provides Notice to Depositor and Authority that the Escrow Agreement is terminated for nonpayment in accordance with Section 5.2 or by resignation in accordance with Section 5.3. If the IP Materials and incorporated Intellectual Property are subject to another escrow agreement with Escrow Agent, Escrow Agent reserves the right, after the initial one year term, to adjust the anniversary date of this Escrow Agreement to match the then prevailing anniversary date of such other escrow arrangements.

5.2. Termination for Nonpayment. In the event fees owed to Escrow Agent are not paid when due, Escrow Agent shall provide Notice of delinquency to all Parties. Any Party shall have the right to make the payment to Escrow Agent to cure the default. If the past due payment is not received in full by Escrow Agent within one month of the date of such Notice, then Escrow Agent shall have the right to terminate this Escrow Agreement at any time thereafter by sending Notice of termination to all Parties. Escrow Agent shall have no obligation to take any action under this Escrow Agreement so long as any undisputed payment due to Escrow Agent remains unpaid and delinquent, except action to hold and safeguard the IP Materials and transfer or dispose of the IP Materials following termination as provided in this Section 5.

5.3. Termination by Resignation. Escrow Agent may terminate this Escrow Agreement, for any reason, by providing Depositor and Authority with 90-days' Notice of its intent to terminate this Escrow Agreement. Within the 90-day period, the Depositor and Authority shall use diligent efforts to enter into a substantially similar agreement with another entity willing and able to perform the functions of Escrow Agent under this Escrow Agreement and shall provide Escrow Agent with Notice including instructions authorizing Escrow Agent to forward the IP Materials and incorporated Intellectual Property to another escrow company and/or agent or other designated recipient. Escrow Agent shall transfer and dispose of the IP Materials in accordance with any such Notice. If Escrow Agent does not receive said Notice within 90 days of the date of Escrow Agent's termination Notice, then Escrow Agent shall have no obligation to take any action under this Escrow Agreement, except action to hold and safeguard the Intellectual Property and transfer or dispose of IP Materials following termination as provided in this Section 5.

5.4. Disposition of IP Materials Upon Termination. Upon termination of this Escrow Agreement, Escrow Agent shall destroy, return, or otherwise deliver the IP Materials in accordance with Depositor's and Authority' Notice. If there is no such Notice, Escrow Agent may, commence legal action interpleading Depositor and Authority, deposit the IP Materials with the court in such action and otherwise handle and dispose of the IP Materials in accordance with court order. In no event shall Escrow Agent have the right to destroy the IP Materials or return them to Depositor absent written instructions to such effect or final order of a court of competent jurisdiction.

5.5. Survival of Terms Following Termination. Upon termination of this Escrow Agreement, the following provisions of this Escrow Agreement shall survive:

- (a) Depositor's representations and warranties (Section 1.5);

- (b) The obligations of safekeeping and confidentiality with respect to the IP Materials and incorporated Intellectual Property set forth in Section 2.1;
- (c) The rights granted in the sections entitled Right to Transfer Upon Release (Section 3.3) and Right to Use Following Release (Section 4.5), if a release of the IP Materials has occurred prior to termination;
- (d) The obligation to pay Escrow Agent any fees and expenses due;
- (e) The obligations of Escrow Agent under Section 5.4;
- (f) The provisions of Section 7;
- (g) Any provisions in this Escrow Agreement which specifically state they survive the termination of this Escrow Agreement; and
- (h) All other provisions which by their inherent character or express terms should survive termination of this Escrow Agreement, the expiration of the AGREEMENT.

SECTION 6. IP ESCROW AGENT'S FEES

6.1. Fee Payment and Schedule Escrow Agent is entitled to be paid its standard fees and expenses applicable to the services provided, which shall be the responsibility of Depositor. Escrow Agent shall notify Authority at least 60 days prior to any increase in fees. For any service not listed on Escrow Agent's standard fee schedule, Escrow Agent shall provide a quote prior to rendering the service, if requested.

6.2. Payment Terms. Fees are due 30 days after receipt of an invoice from Escrow Agent detailing the services performed and setting forth fees therefor consistent with the then applicable fee schedule. Escrow Agent may deliver invoices not more frequently than monthly. Except for action to hold and safeguard the Intellectual Property and transfer or dispose of the IP Materials following termination as provided in this Section 6, Escrow Agent shall not be required to perform any service whenever any undisputed outstanding balance owed to Escrow Agent is not paid when due.

SECTION 7. LIABILITY AND DISPUTES

7.1. Right to Rely on Instructions. Escrow Agent may act in reliance upon any instruction, instrument, or signature reasonably believed by Escrow Agent to be genuine. Except with respect to a Contrary Instruction that is not timely delivered or lacks the representation set forth in Section 4.3(a), Escrow Agent may assume that any employee of a party to this Escrow Agreement who gives any Notice, request, or instruction has the authority to do so. Escrow Agent shall not be required to inquire into the truth or evaluate the merit of any statement or representation contained in any Notice, request or instruction. Escrow Agent shall not be responsible for failure to act as a result of causes beyond the reasonable control of Escrow Agent.

7.2. Indemnification. Depositor and Authority each agree to indemnify, defend and hold harmless Escrow Agent from any and all Claims and Losses in connection with this escrow arrangement except to the extent such Liabilities were caused by the negligence or willful misconduct of Escrow Agent or its breach of this Escrow Agreement.

7.3. Dispute Resolution. Any dispute, controversy, claim or difference arising out of, or in connection with, or resulting from this Escrow Agreement, its application or interpretation, a breach thereof, or a Contrary Instruction issued hereunder, which cannot be settled amicably by the Parties, shall be subject to resolution in accordance with the dispute resolution provisions of the AGREEMENT. Escrow Agent agrees to be bound by any such final resolution. Notwithstanding the foregoing, any suit in interpleader brought

by Escrow Agent under Section 5.4 shall not be by arbitration and may be brought by Escrow Agent in any court having jurisdiction.

7.4. Controlling Law. This Escrow Agreement shall be governed by and construed in accordance with the laws of California, without regard to conflict of law principles. The venue of any court, judicial or referee proceeding under this AGREEMENT shall be in Orange County, California, unless changed by the judicial officer.

7.5. Notice of Requested Order. If any Party intends to obtain an order from the arbitrator or any court of competent jurisdiction which may direct Escrow Agent to take, or refrain from taking, any action, that Party shall:

- (a) Give Escrow Agent at least two Business Days' prior Notice of the hearing; and
- (b) Ensure that Escrow Agent not be required to deliver the original (as opposed to a copy) of the IP Materials if Escrow Agent may need to retain the original in its possession to fulfill any of its other duties under this Escrow Agreement.

SECTION 8. GENERAL PROVISIONS

8.1. Escrow Agent Representation. Escrow Agent represents and warrants to Authority and Depositor that (a) to the best knowledge of Escrow Agent neither it nor any of its personnel has been the subject of any investigation or been convicted or indicted for commission of any crime involving misconduct, corruption, bribery or fraud in connection with any public contract in the State of California, or any other jurisdiction, except as has been specifically disclosed in writing to Authority and Depositor, and (b) should any such conviction or indictment be obtained or any such investigation commenced prior to the expiration of the term hereof, regardless of the date of the occurrence giving rise to the subject matter of such conviction, indictment or investigation, Escrow Agent will immediately disclose it in writing to Authority and Depositor.

8.2. Entire Escrow Agreement. This Escrow Agreement (including all Exhibits to this Escrow Agreement) contain the entire understanding of the parties with respect to the subject matter of this Escrow Agreement and supersede all prior agreements, understandings, statements, representations and negotiations between the parties with respect to their subject matter. Escrow Agent is not a party to the AGREEMENT between Depositor and Authority and has no knowledge of any of the terms or provisions of the AGREEMENT. Escrow Agent's only obligations to Depositor or Authority are as set forth in this Escrow Agreement. No amendment or modification of this Escrow Agreement shall be valid or binding unless signed by all the parties, except that Attachment A need not be signed by Authority and Attachment B need not be signed.

8.3. Notices. All notices, invoices, payments, deposits and other documents and communications under this Escrow Agreement shall be sent as provided in Article 11 of the AGREEMENT and given to the parties at the addresses specified in the attached Attachment B. It shall be the responsibility of the parties to notify each other as provided in this Section in the event of a change of address. The parties shall have the right to rely on the last known address of the other parties.

8.4. Severability. In the event any provision of this Escrow Agreement is found to be invalid, voidable or unenforceable, the parties agree that unless it materially affects the entire intent and purpose of this Escrow Agreement, such invalidity, voidability or unenforceability shall affect neither the validity of this Escrow Agreement nor the remaining provisions herein, and the provision in question shall be deemed to be replaced with a valid and enforceable provision most closely reflecting the intent and purpose of the original provision.

8.5. Successors. This Escrow Agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the Parties. However, Escrow Agent shall have no right to assign this Escrow

Agreement or delegate its duties hereunder without the prior written consent of Depositor and Authority; and Escrow Agent shall have no obligation in performing this Escrow Agreement to recognize any successor or assign of Depositor or Authority unless Escrow Agent receives unambiguous and authoritative written evidence of the change of Parties.

8.6. Regulations. Depositor and Authority are responsible for and warrant compliance with all applicable laws, rules and regulations, including but not limited to customs laws, import, export, and re-export laws and government regulations of any country from or to which the Intellectual Property may be delivered in accordance with the provisions of this Escrow Agreement.

8.7. Liability. No member, officer, or employee of Authority, Depositor or Escrow Agent shall be liable personally hereunder or by reason hereof.

8.8. Counterparts. This Escrow Agreement may be executed in any number of counterparts and by the different parties on different counterparts, each of which, when executed, shall be deemed an original, but all of which, taken together, shall constitute one and the same Escrow Agreement.

[signatures on next page]

IN WITNESS WHEREOF, the parties, intending to be legally bound, have executed this Source Code Escrow Agreement as of the date first written above.

FORM I: PERFORMANCE BOND

**FORM OF IMPLEMENTATION PHASE
PERFORMANCE BOND**

Agreement No. _____

Bond No. _____

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, The Orange County Transportation Authority (“AUTHORITY”), a public entity of the State of California, has awarded _____, a corporation organized under the laws of _____ (“Principal”) an agreement to design, implement, operate and maintain a Back Office System and Customer Service Center for the 405 Express Lanes (the “Agreement”);

AND WHEREAS, the AGREEMENT was awarded by AUTHORITY on _____ to provide the Work in accordance with the terms of the AGREEMENT, as therein specified;

AND WHEREAS, it is one of the conditions to execution of the AGREEMENT by AUTHORITY that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”), an admitted surety insurer in the State of California, are firmly bound and held unto AUTHORITY, in the amount of _____ Dollars (\$_____) (“Bonded Sum”) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to AUTHORITY, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. The AGREEMENT is incorporated by reference in this Bond.
2. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.
3. If Principal or its heirs, successors, executors, administrators or assigns shall in all things stand to and abide by and well and truly keep, perform and complete all covenants, conditions, agreements, obligations and Work under the AGREEMENT, including any and all amendments, supplements, and alterations made to the AGREEMENT as therein provided, on Principal's part to be kept and performed at the time and in the manner therein specified, and shall indemnify, defend and save harmless AUTHORITY and all other Indemnified Parties, as therein stipulated, then this obligation shall become null and void; otherwise it shall remain in full force and effect. In case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney's fee to be fixed by the court.
4. The obligations covered by this Bond specifically include the performance of each and every obligation of Principal under the AGREEMENT with respect to the Work required to complete the Implementation Phase, including its liability for Liquidated Damages and warranties as specified in the AGREEMENT, but not to exceed the Bonded Sum. Completion of the Implementation Phase, as used herein, means achievement of Go-Live of Implementation Phase.

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to completion of the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it does hereby waive notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. The Surety (or Co-Sureties) agree(s) that payments made to contractors and suppliers to satisfy claims on the payment bond do not reduce the Surety's legal obligations under this Bond. Payments made to contractors or suppliers under any agreement where the Surety has arranged for completion of the Work to satisfy this Bond will not be considered payment bond claims.

7. Whenever Principal shall be, and is declared by AUTHORITY to be, in default under the AGREEMENT, provided that AUTHORITY is not then in material default thereunder, the Surety (or Co-Sureties) shall promptly, at AUTHORITY' election:

(a) remedy such default, or

(b) complete the Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT, or

(c) select a contractor or contractors to complete all Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT then in effect, using a contractor or contractors approved by AUTHORITY (provided, however, that the Surety may not select Principal or any affiliate of Principal to complete the Work for and on behalf of the Surety without AUTHORITY' express written consent, in its sole discretion), arrange for a contract meeting the requirements of the AGREEMENT between such contractor or contractors and AUTHORITY, and make available as Work progresses (even though there should be a default or a succession of defaults under such contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the unpaid balance of the AGREEMENT Price; but not exceeding, including other costs and damages for which Surety (or Co-Sureties) is (are) liable hereunder, the Bonded Sum.

(d) Shall pay Authority for the Work in an amount not exceeding the Bonded Sum.

8. If Surety does not proceed as provided in Paragraph 7 of this Bond with reasonable promptness, Surety shall be deemed to be in default on this Bond fifteen (15) days after receipt of an additional Notice from the AUTHORITY to Surety demanding that Surety perform its obligations under this Bond, and AUTHORITY shall be entitled to enforce any remedy available to AUTHORITY.

9. The guarantees contained in this Bond shall survive completion of the Implementation Phase with respect to those obligations of Principal which survive Final Acceptance of Implementation Phase.

10. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this at _____

FORM J: PAYMENT BOND

**FORM OF IMPLEMENTATION PHASE
PAYMENT BOND**

Agreement No. _____

Bond No. _____

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, The Orange County Transportation Authority (“AUTHORITY”), a public entity of the State of California, has awarded to _____, a corporation organized under the laws of _____ (“Principal”) an agreement to design, implement, operate and maintain a Back Office System and Customer Service Center for the 405 Express Lanes (the “AGREEMENT”);

AND WHEREAS, AGREEMENT was awarded by AUTHORITY on _____ to provide the Work, as specified and in accordance with the terms of the AGREEMENT;

AND WHEREAS, it is one of the conditions to execution of the AGREEMENT by AUTHORITY that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”), an admitted surety insurer in the State of California, are firmly bound and held unto AUTHORITY, in the sum of _____ Dollars (\$ _____) (“Bonded Sum”) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to AUTHORITY, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. The AGREEMENT is incorporated by reference in this Bond. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.

2. If Principal, its Subcontractors, hires, successors, executors, administrators or assigns shall fail to pay:

(a) any of the persons named in Civil Code section 40500 involved in performance of the Work for the Implementation Phase as provided for under the AGREEMENT;

(b) any amounts due under the Unemployment Insurance Code with respect to the Work for the Implementation Phase;

(c) any amounts required to be deducted, withheld and paid over to 1302 Franchise Tax Board from the wages of employees of the Principal and its Subcontractor pursuant to Revenue and Taxation Code Section 18662 et seq. with respect to such labor; or

(d) anyone required to be paid by law

then Surety shall pay for the same in an amount not to exceed the Bonded Sum; otherwise this obligation shall be null and void; otherwise it shall remain in full force and effect. In

case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney's fee to be fixed by the court.

3. This Bond shall inure to the benefit of any of the persons named in Civil Code Section 40500 or anyone required to be paid by law under the AGREEMENT so as to give a right of action to such persons or their assigns in any suit brought upon this Bond.

4. This Bond covers all of Principal's payment obligations under the AGREEMENT for the Work for the Implementation Phase, as set forth in the AGREEMENT

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it hereby waives notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

7. This bond shall inure to the benefit of the persons named in Civil Code section 40500 so as to give a right of action to such persons and their assigns in any suit brought upon this bond.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this at _____

FORM K: OPERATIONS AND MAINTENANCE BOND

FORM OF OPERATIONS AND MAINTENANCE PERFORMANCE BOND

Agreement No. _____

Bond No. _____

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, The Orange County Transportation Authority (“AUTHORITY”), a public entity of the State of California, has awarded _____, a corporation organized under the laws of _____ (“Principal”) an agreement to design, implement, operate and maintain a Back Office System and Customer Service Center for the 405 Express Lanes (the “AGREEMENT”);

AND WHEREAS, the AGREEMENT was awarded by AUTHORITY on _____ to provide the Work in accordance with the terms of the AGREEMENT, as therein specified;

AND WHEREAS, it is one of the conditions to execution of the AGREEMENT by AUTHORITY that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”), an admitted surety insurer in the State of California, are firmly bound and held unto AUTHORITY, in the amount of _____ Dollars (\$_____) (“Bonded Sum”) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to AUTHORITY, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. The AGREEMENT is incorporated by reference in this Bond.
2. Unless the context otherwise requires, capitalized terms used but not separately defined in this Bond have the meaning given to them in the AGREEMENT.
3. If Principal or its heirs, successors, executors, administrators or assigns shall in all things stand to and abide by and well and truly keep, perform and complete all covenants, conditions, agreements, obligations and Work under the AGREEMENT, including any and all amendments, supplements, and alterations made to the AGREEMENT as therein provided, on Principal’s part to be kept and performed at the time and in the manner therein specified, and shall indemnify, defend and save harmless AUTHORITY and all other Indemnified Parties, as therein stipulated, then this obligation shall become null and void; otherwise it shall remain in full force and effect. In case suit is brought upon this Bond, the Surety (or Co-Sureties) will pay reasonable attorney’s fee to be fixed by the court.
4. The obligations covered by this Bond specifically include the performance of each and every obligation of Principal under the AGREEMENT with respect to the Work required to complete the Implementation Phase, including its liability for Liquidated Damages and warranties as specified in the AGREEMENT, but not to exceed the Bonded Sum.

5. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the AGREEMENT, or in the Work to be performed with respect to completion of the Implementation Phase, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the AGREEMENT, or any rescission or attempted rescission of the AGREEMENT or this Bond, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of AUTHORITY seeking to recover from this Bond, or any fraud practiced by any other person other than AUTHORITY seeking to recover from this Bond, shall in any way affect its obligations on this Bond, and it does hereby waive notice of such changes, extension of time, alterations, additions, omissions or other modifications.

6. The Surety (or Co-Sureties) agree(s) that payments made to contractors and suppliers to satisfy claims on the payment bond do not reduce the Surety's legal obligations under this Bond. Payments made to contractors or suppliers under any agreement where the Surety has arranged for completion of the Work to satisfy this Bond will not be considered payment bond claims.

7. Whenever Principal shall be, and is declared by AUTHORITY to be, in default under the AGREEMENT, provided that AUTHORITY is not then in material default thereunder, the Surety (or Co-Sureties) shall promptly:

(a) remedy such default, or

(b) complete the Work covered by this Bond in accordance with the terms and conditions of the AGREEMENT, or

(c) select a contractor or contractors to complete all work covered by this Bond in accordance with the terms and conditions of the AGREEMENT then in effect, using a contractor or contractors approved by AUTHORITY (provided, however, that the Surety may not select Principal or any affiliate of Principal to complete the Work for and on behalf of the Surety without AUTHORITY' express written consent, in its sole discretion), arrange for a contract meeting the requirements of the AGREEMENT between such contractor or contractors and AUTHORITY, and make available as Work progresses (even though there should be a default or a succession of defaults under such contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the unpaid balance of the AGREEMENT Price; but not exceeding, including other costs and damages for which Surety (or Co-Sureties) is (are) liable hereunder, the Bonded Sum.

8. If Surety does not proceed as provided in Paragraph 7 of this Bond with reasonable promptness, Surety shall be deemed to be in default on this Bond fifteen (15) days after receipt of an additional Notice from the AUTHORITY to Surety demanding that Surety perform its obligations under this Bond, and AUTHORITY shall be entitled to enforce any remedy available to AUTHORITY.

9. The guarantees contained in this Bond shall survive completion of the Implementation Phase with respect to those obligations of Principal which survive Final Acceptance of Implementation Phase.

10. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that AUTHORITY will have no obligation to deal with multiple sureties hereunder. All

correspondence from AUTHORITY to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of Notice (by personal delivery or by certified mail, return receipt requested) to AUTHORITY designating a single new representative, signed by all of the Co-Sureties. The initial representative shall be _____.

FORM L: IRAN CONTRACTING CERTIFICATION

IRAN CONTRACTING ACT CERTIFICATION
(California Public Contract Code Sections 2200, *et seq.*)

The Iran Contracting Act of 2010 (PCC Sections 2200-2208), prohibits bidders who are engaged in investment activities in the energy sector of Iran from bidding on, submitting proposals for, or entering into or renewing contracts with public entities for goods or services of one million dollars (\$1,000,000) or more. At the time of submitting a bid, each bidder must certify that the bidder is not identified on the Department of General Services list of ineligible persons pursuant to PCC Section 2203(b). Each bidder is also required to certify that the bidder is not engaged in investment activities in violation of the Iran Contracting Act of 2010.

A bidder who is engaged in investment activities in the energy sector of Iran is defined as:

1. A person providing goods or services of twenty million dollars (\$20,000,000) or more in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers, or products used to construct or maintain pipelines used to transport oil or liquefied natural gas, for the energy sector of Iran; or
2. A person that is a financial institution that extends twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that person will use the credit to provide goods or services in the energy sector in Iran and is identified on a list created pursuant to PCC Section 2203(b).

A bidder is not required to certify that it is engaged in investment activities in the energy sector of Iran if the bidder is exempt from the certification under PCC Section 2203(c) or (d). If the bidder is exempt from the certification requirement, the bidder will be required to provide documentation demonstrating the exemption.

To comply with the Iran Contracting Act of 2010, the bidder shall complete **one** of the options below. Please note: under PCC Section 2205, false certification of this form may result in civil penalties of \$250,000 or twice the amount of the contract for which false certification was made, termination of the contract, and/or ineligibility to bid on contracts for a period of three years.

Option #1: Certification

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below, and any subcontractor who will perform work or labor or render services to the vendor identified below, is not on the current Department of General Services list identifying persons engaged in investment activities in the energy sector of Iran, and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current Department of General Services list identifying persons engaged in investment activities in the energy sector of Iran.

Vendor/Financial Institution: _____

Signature: _____

Name and Title: _____

Date: _____

Option #2: Exemption

Pursuant to PCC Section 2203(c) and (d), a public entity may permit a bidder or financial institution engaged in investment activities in Iran, on a case-by-case basis, to be eligible for, or to bid on, submit proposals for, or enter into or renew a contract with a public entity for goods or services of one million dollars (\$1,000,000) or more. If the bidder, financial institution, or any subcontractor who will perform work or labor or render services to the bidder has obtained an exemption from the certification requirement, please complete and sign below and attach the documentation demonstrating the exemption approval.

Vendor/Financial Institution: _____

Signature: _____

Name and Title: _____

Date: _____

Option #3: Non-Applicability

Pursuant to PCC Section 2203(b), a bidder or financial institution engaged in investment activities in Iran may not be eligible for, or to bid on, submit proposals for, or enter into or renew a contract with a public entity for goods or services of one million dollars (\$1,000,000) or more. If the contract is not for goods or services of one million dollars (\$1,000,000) or more, please sign below indicating that the contract is not for goods or services of one million dollars (\$1,000,000) or more and thus bidder is not required to certify and does not meet the exemption.

**FORM M: PUBLIC RECORDS ACT INDEMNIFICATION – PROPOSAL
DOCUMENTS**

PUBLIC RECORDS ACT INDEMNIFICATION – PROPOSAL DOCUMENTS

Offeror is required to submit one copy of the completed and signed form as part of its proposal and it should be included only in the original proposal. Offeror shall complete either Option 1 or Option 2 which ever applies.

Option #1: Public Records Act Indemnification Agreement

By signing below, the Offeror agrees as follows regarding its Proposal:

If Authority receives a Public Records Act request (Government Code sections 6250 et seq.) which seeks any portion of Offeror’s proposal that the Offeror has marked as "confidential", "trade secret", "proprietary", "not subject to disclosure", or similar designation (the "PRA Documents"), the Authority will notify the Offeror of the request. The Offeror shall, within three business days of such notification from the Authority, inform the Authority as to whether it desires the PRA Documents to be withheld, and shall thereafter timely provide a legal basis for each such requested withholding. If the Authority determines to withhold the PRA Documents, Offeror shall indemnify and defend Authority from any and all costs or liabilities resulting from such withholding including, but not limited to, attorney fees and court costs.

Offeror shall pay all costs, immediately as they come due, pertaining to any action under the Public Records Act related to any portion of Offeror’s Proposal marked or designated as described above, and withheld by Authority. If the Offeror fails to notify the Authority in writing within three business days, or to timely provide a legal basis for the withholding of documents, Offeror agrees that Authority shall release and disclose Offeror records, notwithstanding any marking or designation of the PRA Documents.

In no case shall Authority be liable for any inadvertent disclosure of any Offeror proposal documents, or any disclosure made by Authority upon a good faith belief that disclosure is required by law, or in the event Offeror has failed to notify the Authority in writing of its desire to withhold the PRA Documents within three business days and/or to timely provide a legal basis for the withholding of documents, regardless of any marking or designation of such PRA Documents, and Offeror waives any claims it may have had related to such disclosure.

--	---

1. INTRODUCTION

The Orange County Transportation Authority (“OCTA” or “Authority”) currently operates the Orange County portion of the Express Lanes on SR 91. The I-405 Express Lanes Back Office System (BOS) and Customer Service Center (CSC) Operations Project (Project) is for the implementation, operations and Maintenance of a new BOS and CSC Operations to support the I-405 Express Lanes, which are scheduled to open to traffic in 2023. This Scope of Work includes the Project’s technical requirements to be performed by the toll systems integrator and customer service operations provider (Contractor).

Kapsch TrafficCom USA (“Kapsch”) is separately contracted but serves as the Electronic Toll and Traffic Management (ETTM) System Contractor for the I-405 Express Lanes. The ETTM System will provide fully formed Transponder and Image-Based Trips to the BOS. Substantial testing and both technical and operational coordination will be required throughout the Term of the Agreement.

A new I-405 CSC and WIC Facility, provided by the Authority, near the I-405 corridor will serve as the main Facility for the Contractor’s direct customer service staff and CSC Operations and will house other OCTA contractors as well. A separate walk-in-center (WIC) supporting both the 91 and I-405 Facilities is located at the existing OCTA Store WIC, which is adjacent to the OCTA offices in the City of Orange and will be staffed by OCTA employees using desktop computers and peripherals provided by OCTA. However, the Contractor will support the initial setup, security, Interface and ongoing Maintenance of the I-405 BOS application on these desktop computers as required.

The Authority will not provide data center space for the I-405 BOS and the Contractor is required to provide a hosted or cloud-based implementation in accordance with the Requirements.

All definitions and acronyms for this Scope of Work and Requirements are included as Exhibit A.

The Requirements are numbered to track Contractual obligations and any changes which may occur during the Project. Many of the Requirements contain underlying lists of specific items and required database fields. The intent of these “including but not limited to” lists is to indicate the intent and scope of the Requirement. During design the naming and number of items and fields will vary; however, all items and fields shall be addressed by the BOS unless the Contractor is formally relieved of the Requirement by the Authority.

1.1. Project Timing

Related tolling projects and timing include:

- OCTA has selected OC 405 Partners to design and build the I-405 Improvement Project, which includes the I-405 Express Lanes. The Project is expected to be open to traffic in 2023.
- OCTA has selected Kapsch to provide the I-405 ETTM System. Kapsch and OC 405 Partners will coordinate the installation and testing of the ETTM prior to the beginning of revenue collection.
- Approximately 120 days prior to the anticipated Go-Live and I-405 revenue operations commencement, the Contractor will receive Notice to Proceed for Ramp-up/Customer Services, and the Contractor must reach several milestones thirty (30) Calendar Days thereafter as detailed in the Requirements, including the provision of portions of the BOS and

the Self-Service Website for account creation, ordering of transponders and customer communications.

- At the Authority’s direction, transponders will be mailed approximately one (1) month prior to anticipated Go-Live and I-405 revenue operations commencement and the Contractor shall be responsible for processing Interoperable transactions and handling other CTOC agency inquiries from that point forward.
- Providing Notice to Proceed for Ramp-up/Customer Services also allows the Contractor guidance on the anticipated Go-Live date for the purposes of mobilizing for CSC Operations and mobilizing within the new CSC Facility.

1.2. I-405 Express Lanes

OCTA in cooperation with the California Department of Transportation (Caltrans) is widening the San Diego Freeway (I-405) between State Route 73 (SR-73) and Interstate 605 (I-605). The project will improve 16 miles of I-405 between the SR-73 freeway in Costa Mesa and I-605 near the Los Angeles County line. The project includes adding one regular lane in each direction between Euclid Street and I-605 and making improvements to freeway entrances, exits and bridges. In addition, the project will add the I-405 Express Lanes, incorporating the existing carpool lanes and a new lane in each direction between SR-73 and I-605. The I-405 Express Lanes will give solo drivers the choice to speed up their commute for a toll and give options for carpoolers to use the lanes for free. When the express lanes open, two-person carpools will pay a toll only during peak hours and carpools of three or more will be free at all times.

Figure 1-1: I-405 Express Lanes Conceptual Tolling Layout identifies the entry/exit, Toll Zone and Toll Read Site locations for the I-405 Express Lanes.

Figure 1-1. I-405 Express Lanes Tolling Layout

1.3. Support of New Toll Facilities

The BOS and CSC Operations shall be designed to support the future, potential addition of new OCTA Toll Facilities, such that the BOS does not require structural or fundamental changes at that time.

1.4. New I-405 CSC Facility

A new I-405 CSC and WIC Facility, provided by the Authority, near the I-405 corridor will serve as the primary Facility for the Contractor's direct customer service staff and CSC Operations and will house other OCTA contractors as well. Immediately after NTP, the Contractor will be responsible for working closely with the Authority in the design of the Facility. With regards to the new Facility, the following will be the responsibility of OCTA:

1. Acquisition of the building;
2. Building design (primary);
3. Building construction permitting;
4. Facility buildout;
5. Cubicles;
6. Furniture, desks and chairs;
7. File cabinets;
8. Walk-in Center furniture;
9. Training room furniture;
10. Storage cabinets and shelves;
11. Space at I-405 CSC Facility for storage of retained and/or sensitive paper-documents;
12. CSC personnel lockers (if required);
13. Communications closets;
14. Conference rooms and tables;
15. Large presentation screens within conference rooms;
16. Breakroom furniture and appliances;
17. All power and network cabling;
18. All uninterruptable power and generators (including any on-going system/software ~~M~~maintenance agreements);
19. Responsibilities as described in Volume II, Section 1.1.1.8 Network, Communications, Telephony, Security and Surveillance;
20. CCTV surveillance ~~E~~equipment (including any on-going system/software ~~M~~maintenance agreements);
21. Physical building security system (including any on-going system/software ~~M~~maintenance agreements);
22. Janitorial services;
23. Trash pickup;
24. Building ~~M~~maintenance;
25. Additional buildout and provision of items above to support growth and
26. Cash safes and cash drawers.

Contractor – All items below shall be provided within the Implementation and Operations and Maintenance Phases pricing.

1. Desktop computer environments;
2. All phone systems (internal operations and direct customer support);
3. Desktop computer environments and phone systems for two (2) permanent Authority personnel;
4. All printers (personal and group);

5. All copiers (personal and group);
6. All scanners (handheld, paper, personal and group);
7. Desktop computer environments and phone systems for an additional three (3) Authority-designated oversight personnel during mobilization of the Facility and during Operational and Acceptance Testing;
8. All training room desktop computer environments and Equipment, including presentation screens;
9. All network Equipment (routers, firewalls, switches, hubs, gateways, etc.);
10. Responsibilities as described in Volume II, Section 1.1.1.8 Network, Communications, Telephony, Security and Surveillance;
11. All consumables;
12. Paper shredding services;
13. Point of contact and management of all OCTA provided building **M**aintenance, power and generator **M**aintenance or servicing, trash pickup and janitorial services;
14. Point of contact and coordination of any additional buildout to support growth (at no additional labor costs to the Authority);
15. Physical human security as deemed necessary by the Contractor;
16. Receptionist or Walk-in Center greeter as deemed necessary by the Contractor and
17. Provision of items above to support growth.

1.5. Back Office Systems and CSC Operations Statement of Work

In this Request for Proposals (RFP), the Authority is requesting written technical and Price Proposals from qualified proposing contractors ("Offerors") interested in providing BOS and CSC Operations. The Project includes the design, development, testing, installation, operations and Maintenance of a complete and integrated BOS and CSC Operations that meets the needs of OCTA as specified in the Scope of Work and Requirements.

The BOS functionality which shall be provided, implemented, operated and maintained by the Contractor include but are not limited to the following:

- Account management;
- Self-Service Website;
- Self-Service Mobile Application (Phase II and optional);
- Customer communications and Notifications;
- Case management;
- Payment processing;
- Transponder inventory management;
- Financial management, reconciliation and settlement;
- Initial CSC-based collections;
- Collections Placements;
- Printing and mailing;
- Violation processing;
- Vehicle Registration Hold processing;
- Post-contact customer satisfaction surveys;
- Searches and reporting;
- Data warehouse (Phase II and optional);
- BOS and CSC performance monitoring and reporting;
- Interfaces to all Third-Party Service Providers and

- Interface monitoring and reconciliation.

BOS Hardware, systems and services which shall be provided, implemented, operated and maintained by the Contractor include but are not limited to the following:

- BOS production environment;
- Multiple supporting computing environments;
- Desktop Environments;
- CSC Equipment;
- Customer contact systems;
- Automatic Call Distribution (ACD), Interactive Voice Response (IVR) and telephony systems;
- Network Equipment;
- Network and systems monitoring systems;
- Data center and other identified Equipment;
- Disaster Recovery (DR) and Business Continuity systems;
- Training systems and
- Capability to support work-at-home CSRs and operations and in accordance with the Approved Disaster Recovery and Business Continuity Plans. For example, during an event similar to the COVID-19 outbreak.

Third-Party Service Providers which shall be provided and managed by the Contractor include but are not limited to the following:

- Collections Agencies - two (2);
- Registered Owner Identification (ROV) Lookup Provider;
- Print/Mail House Service Provider (optional at Contractor's discretion);
- Lockbox Service Provider (optional at Contractor's discretion);
- Customer Satisfaction Survey Provider Subcontractor;
- Payment Card Industry (PCI) Qualified Security Assessor Services (or qualified Internal Security Assessor (ISA));
- Merchant Service Providers - two (2) and
- Off-Site Data Storage Provider.

1.5.1. Contractor Implementation Phase Responsibilities

During the BOS and CSC Operations Implementation Phase (from Effective Date until Go-Live of the BOS and CSC Operations) the Contractor shall be responsible for the following, including but not limited to:

- Implementation of BOS server environment at Contractor provided location;
- Design inputs to the new I-405 CSC Facility;
- Support of I-405 BOS access from the current OCTA Store WIC;
- Staffing of all BOS support and CSC Operations;
- Operational planning and mobilization;
- BOS implementation and testing;
- Facilitation and participation in meetings and coordination with the Authority, the ETTM System Contractor and existing and new Third-Party Service Providers;
- Coordination, planning and testing with all Third-Party Service Providers;
- Contractor required additional build-out/fit-out of the Authority-provided Facilities;
- Provision of all additional Contractor required furniture and furnishing required for the CSC;
- Provision of all required CSC office Equipment;
- Development of all plans and documentation described herein;

- Development of all CSC standard operational procedures (SOPs);
- Compliance with all Security Standards;
- Compliance with all Approved plans;
- Development of all training material;
- Conducting training of all Contractor and Authority's staff;
- Learning and adhering to the Authority's processes, procedures, Business Rules and policies relative to Express Lanes operations and financial administration;
- Establishing direct processor agreements with California and other state DMVs;
- Operational Readiness Demonstration and
- Numerous other coordination, planning and preparation activities.

1.5.2. Contractor Operations and Maintenance Phase Services

After commencement of CSC Operations (the "Operations and Maintenance Phase"), the Contractor's Operational responsibilities include but are not limited to:

- Operational activities related to the functional use of the BOS:
 - Account establishment, Maintenance and closures;
 - Customer service, including Violation-related activities, via phone, mail, email, fax, text messaging, chat and in-person;
 - Provision of customer support for problems with customer interfaces;
 - Payment and refund processing;
 - Credit Card processing, including authorizations, refunds and reconciliation;
 - Production of all customer Notifications;
 - Inbound and outbound mail processing;
 - Sending e-blasts to customers through the email system at the direction of the Authority;
 - Return mail processing;
 - Violation payment processing;
 - Case creations and management;
 - Document imaging of incoming work (such as, customer communications) and outgoing work (such as, scanning checks before deposit);
 - Use of skip tracing services to acquire updated mailing addresses;
 - Transponder inventory management, including customer order Fulfillment support, transponder recall and recycling;
 - Customer dispute processing;
 - Coordination and support with resolution of disputed tolls and other issues with Interoperable Agencies;
 - Initial CSC-based collections;
 - Coordination with Collection Agency(ies) pursuing payment of debts owed by individuals or businesses, including payment processing and reporting;
 - Coordination with the DMV(s) for registration suspensions and/or holds, as well as releases once tolls, fees, and other charges are paid;
 - California Franchise Tax Board Tax Intercept support;
 - Bankruptcy support and associated account updates;
 - Investigative Review and hearing support;
 - Financial management and reporting;
 - Reporting for CTOC and the Western Regional Hub;
 - All transaction and financial reconciliation activities;
 - All Interface reconciliation activities;
 - Compliance with all Security Standards;

- BOS performance management and reporting;
- CSC staff and process performance monitoring and reporting;
- Adding/removing/modifying users in the BOS and modifying the user-Configurable elements of the telephony system such as call queue routing and message on-hold selections and
- Toll adjustment implementation.

- Operational activities not directly related to functional use of the BOS:
 - Complete BOS operations and Maintenance and monitoring of all processes and interfaces;
 - Complete network and systems security monitoring and resolution of issues;
 - Compliance with all Security Standards;
 - Compliance with all Security Standards while operating with at-home agents, if required;
 - Complete PCI compliance, monitoring and resolution of issues;
 - Disaster Recovery (DR) and Business Continuity management;
 - Complete BOS Maintenance and Software Support Services;
 - Enhancement and upgrades to the BOS per the Requirements;
 - Enhancements to the BOS at Authority's direction;
 - Onsite technical support for Contractor's staff and Authority's staff;
 - Monitoring and optimization of Registered Owner of Vehicle (ROV) identification processes;
 - Monitoring of incoming and outgoing mail services, including address correction and update;
 - CSC customer service staffing and operational management;
 - CSC Work processing and management;
 - CSC Facility Maintenance not covered by the Authority;
 - On-going recruitment and management of the personnel required to operate the CSC and meet the Requirements of this Agreement;
 - On-going training of all Contractor staff and Authority's staff;
 - Physical security of the operations Facilities, funds, personnel, and Equipment;
 - Payment Card Industry Data Security Standards (PCI DSS) compliance;
 - Provision of audit(s) performed by an independent Qualified Security Assessor or qualified Internal Security Assessor (ISA);
 - Compliance with all National Automated Clearing House Association (NACHA) requirements;
 - Support for the Authority's audits of BOS and CSC Operations;
 - Management of Customer Satisfaction Survey information;
 - Production and distribution of customer materials;
 - Distribution of transponders, mounting strips;
 - Distribution of non-BOS generated customer notifications by mail;
 - Annual SSAE 18 Type II performed by independent auditor;
 - Paper document storage (at I-405 CSC) and destruction and records management;
 - Quality Control (QC) and Quality Assurance (QA) activities for the CSC;
 - Quality review of BOS-generated notifications;
 - Quality review of image processing using the ETTM System-provided tool;
 - Assist with internal/external audits;
 - Assist with data collections/analysis stemming from litigation and
 - Assist with insurance/risk management activities.

1.6. Phase II Services

The following services shall be included in Phase II of the Work which will commence after the BOS Acceptance. Optional items are at the Authority's discretion to implement:

- Self-Service Mobile Application (Phase II and optional);
- Data warehouse and data analytics/business intelligence (Phase II and optional) and
- Collection Agencies direct access to BOS.

1.7. Future Functionality

The following functionality shall not be assumed for the base Agreement, but should be considered as potential future functionality:

- Occupancy Detection System (ODS) integration;
- Integration with Money Services Provider;
- Customer invoicing prior to the Violation process and
- Adherence to national Interoperability.

1.8. Services Not Included

The services procured under this Agreement *does not* include:

- ETTM Systems;
- Trip building;
- Image review services for the purpose of trip building (QA/QC reviews are required) and
- Provision of retail transponder distribution provider.

1.9. Pass Through Costs

The following items and Services shall be provided by the Contractor, with costs passed through to the Authority via invoice:

- Postage (not including any efforts, mail-house costs or other costs required to obtain the postage rate);
- Skip-Tracing and
- Facilities related incidental costs as directed and Approved by the Authority.

1.10. Direct Payment Items

The following items and services shall be entered into the Authority's accounts payable weekly batch by the Contractor for direct payment from the Authority to the vendor and not the paid for by the Contractor:

- Welcome/transponder kits;
- Transponder shipping supplies/materials including envelopes, sealing wafers, special inserts, and stickers;
- Transponder readers and programmers, if pre-approved by the Authority;
- Domain names and Uniform Resource Locators (URLs). Does not include any related software or licenses related to security and/or encryption (for example, secure socket layer certificates) and
- Other items as determined solely by the Authority.

1. SCOPE OF WORK AND REQUIREMENTS

The following subsections describe the Scope of Work and Requirements for the CSC Operations. These Requirements are numbered to track obligations per the Agreement and any changes which may occur during the Project. Many of the Requirements contain underlying lists of specific items and work functions. The intent of these “including but not limited to” lists is to indicate to the proposer the intent and scope of the Requirement.

1.1. Operational Requirements

1.1.1. General Requirements

This section lists the high-level operations Requirements.

1	The Contractor shall provide all management, system Maintenance, supervisory, financial and CSC Operations staff, including qualified management, professional and clerical personnel, to professionally operate and administer the Authority’s CSC Operations in a manner that meets all required Performance Measures.
2	The Contractor shall put in place the organizational structure and headcount required to meet these Requirements.
3	The Contractor shall be responsible for all providing all consumables (other than those explicitly stated to paid for by the Authority). Costs of consumables shall be included in the Contractor’s Price Proposal.
4	At the Authority’s direction, the Contractor shall perform the Work required herein for any new Toll Facilities that may be implemented during the Operations and Maintenance Phase.

1.1.2. I-405 CSC and WIC Facility

The Authority will provide a new primary space for the I-405 CSC and WIC. The Contractor is required to operate these Authority provided Facilities as described in the sections below. The Contractor will have unlimited access to the Facility and may use expanded operational hours as needed to accomplish the Work. There is currently an operational OCTA Store WIC that will provide I-405 customer service that will be operated and staffed by OCTA.

The Contractor will not be charged rent/utilities for the use of Authority provided Facility and furnishings. Although the Facility will house other Authority contractors, the Contractor will be the point-of-contact and coordination point for all **M**aintenance, repair, service and janitorial issues related to the Facility regardless of location or origin,

5	The Contractor shall coordinate and facilitate tours of CSC Operations Facilities and guide tours.
6	The Contractor shall be the custodian of all the Authority’s fixed assets at the I-405 CSC and WIC facility (regardless of provider) and provide tracking and reporting as required.

7	The Contractor shall facilitate, coordinate and be the point of contact for all I-405 CSC Facility and E quipment related M maintenance and repairs that are not the fault of the Contractor (either the Authority will pay directly for the <u>maintenance and</u> repairs or Authority will request that the Contractor pay and submit for payment through the weekly accounts payable batch process). All Contractor labor necessary for these services shall be included in the Contractor's Price Proposal and shall not be invoiced or be considered additional Work. Repairs that are the result of Contractor actions shall be handled and paid for by the Contractor alone and the Authority shall be notified and kept informed.
8	For all third party coordinated work, the Contractor shall receive a minimum of three (3) quotes and submit to Authority for Approval/selection. Upon selection, Contractor shall initiate purchase order with the selected vendor.
9	The Contractor shall provide the coordination and facilitation of various Authority directed meetings in the CSC Operations conference rooms as requested by the Authority, including but not limited to: <ul style="list-style-type: none"> • ensuring conference room is clean and all furniture and Equipment is in working order; • providing meals for meetings (submit for payment through the weekly accounts payable batch process) and • attending meeting.
10	The Contractor shall provide and install all internal workspace signage and name plates that are Americans with Disabilities Act (ADA) compliant.
11	The Contractor shall provide all office supplies and Equipment supplies (for example toner, paper, etc.) required for CSC Operations and staff.
12	Immediately after NTP, the Contractor shall be responsible for working closely with the Authority in the design of the I-405 CSC and WIC Facility, including: <ul style="list-style-type: none"> • any facility design inputs or requests received after the facility design inputs deadline has passed shall be the financial responsibility of the Contractor to incorporate into the design; • any facility design inputs or requests received after the facility design is completed shall be the complete financial responsibility of the Contractor to both incorporate into the design and to build; • any facility design inputs or requests to provide for adherence to PCI requirements are responsibility of the Contractor and • all Contractor facility design inputs and requests made throughout the Term of the Agreement are subject to Authority Approval.

1.1.2.1. OCTA Store WIC

The OCTA Store WIC located in the same building as Authority's offices and is staffed by Authority employees. These Authority employees will be trained by the Contractor and the Contractor shall

also provide escalation and operations support. There is no room for operational activities other than walk-in customer service at this site. OCTA Store WIC computers, peripherals, network and ~~E~~equipment will be provided by the Authority.

Location Name	OCTA Store WIC
Address	600 S. Main Street, Orange CA 92868
Square Footage	N/A
Functionality	WIC

1.1.2.1.1. Hours of Operation and Holidays

13	The Contractor shall train and provide escalation and operations support for the Authority employees and customer relations staff.
14	The OCTA Store WIC shall be open 8 am- 5 pm Monday – Friday, Pacific Time.
15	The OCTA Store WIC shall observe the following Holidays:
	• New Year’s Day;
	• Memorial Day;
	• Independence Day;
	• Labor Day;
	• Thanksgiving Day;
	• Friday after Thanksgiving Day and
	• Christmas Day.
16	For any listed Holiday occurring on Saturday or Sunday, the OCTA Store WIC shall observe the Holiday on the same day as Authority’s other staff.
17	The Authority may close the OCTA Store WIC (for example, for emergency or weather conditions).

1.1.2.2. New I-405 CSC and Walk-in Center (WIC)

The CSC site is the sole Authority provided space for customer contact, CSC Operations and other processing required to meet the Requirements.

Location Name	Customer Service Center (CSC)
Address	Near the I-405 Corridor (exact location is TBD)
Square Footage	TBD
Functionality	All customer service and processing work

The CSC Facility shall meet the requirements below.

18	The Contractor shall staff and operate the CSC.
19	The Contractor shall provide Maintenance at this Facility and ensure that the Facility is professional in appearance and clean.
20	The Contractor shall exercise due care in the use, M aintenance and storage of the Authority-provided Facility, property and assets.
21	The Contractor shall comply with all requirements of the property lease and Facility license agreements (if applicable).
22	The Contractor shall promptly notify the Authority of any weakness in the security at the CSC Facility.
23	The Contractor shall utilize cameras in accordance with PCI/PII requirements and the Contractor's preferred operational and security approach. The Authority shall have access to view and copy the camera footage upon request.
24	The Contractor shall make all Authority-directed and Approved improvements to the CSC Facility, if any, as a combination of Additional Work Order, a pass-through cost, or submitted through the weekly accounts payable batch.
25	The Contractor shall provide a minimum of one Spanish-speaking CSR in the CSC Facility during all the hours of operation.
26	The Contractor shall equip the CSC customer contact center such that customers shall not hear cross talk when contacting the CSC by phone (crosstalk is any phenomenon by which a signal transmitted on one circuit or channel of a transmission system creates an undesired effect in another circuit or channel).

1.1.2.2.1. Hours of Operation and Holidays

The Authority require a high-level of customer service availability. The hours below are the minimum hours which the various elements of the CSC Operation must be staffed and operated.

27	The CSC contact center shall be open for calls, customer contacts and customer interactions from 8 a.m. to 6 p.m. Monday – Friday, Pacific Time.
28	The CSC shall observe the following Holidays:
	<ul style="list-style-type: none"> • New Year's Day;
	<ul style="list-style-type: none"> • Memorial Day;
	<ul style="list-style-type: none"> • Independence Day;
	<ul style="list-style-type: none"> • Labor Day;
	<ul style="list-style-type: none"> • Thanksgiving Day;

	<ul style="list-style-type: none"> • Friday after Thanksgiving Day and
	<ul style="list-style-type: none"> • Christmas Day.
29	For any listed Holiday occurring on Saturday or Sunday, the CSC shall observe the Holiday on the same day as Authority's staff.
30	The Contractor shall close the CSC upon Approval from the Authority (for example, for emergency or weather conditions).

1.1.2.3. *Serving Customers with Special Needs*

The Contractor shall work with the Authority and develop a I-405 CSC and WIC Facility design that meets the latest ADA standards for accessibility for both staff and customers and be of appropriate size to contain the staff, furniture, Equipment and supplies necessary to conduct operations described in this Scope of Work for the duration of the Agreement.

31	The Contractor shall report any Facility-related ADA compliance issues to the Authority immediately.
32	The Contractor shall identify and contract with a real-time translation service to serve customers whose language is other than English and Spanish, and whose language is not spoken by an available Contractor staff person. The service is to be provided on an as-needed basis and be available during all customer service hours for both phone and walk-in customers at both the CSC WIC and OCTA Store WIC.
33	The Contractor shall track the use of the translation service and shall provide tracking and accountability that identifies which account or document is related to each use of the service.
34	The Contractor shall provide and utilize Equipment to serve hearing-impaired customers in accordance with customer service best practices and applicable federal and state statute and requirements.

1.1.2.4. *Security and Facility Access Control*

35	At the CSC, the Contractor shall be responsible for administering the physical security system and the CCTV surveillance systems.
36	The Contractor shall provide and/or coordinate all security badges, parking, and administrative needs to access the building office space and for Authority staff or third-party vendors to work from the CSC location, as needed.
37	The Contractor shall ensure the I-405 CSC Facility are accessed only by authorized personnel with the appropriate privileges, and the Contractor shall ensure security is not breached. The Contractor shall be responsible for establishing procedures and policies and carrying out these procedures and policies for all visitors accessing the I-405 CSC Facility. The policies and procedures shall be Approved by the Authority.

38	The Contractor shall ensure access is limited to those functions required for the employees to perform their jobs while providing an appropriate segregation of access, based on employee responsibilities.
39	The Contractor shall maintain and provide to the Authority as requested an access matrix that lists all personnel with access privileges to the CSC Facilities. The matrix shall identify each employee's position, job functions, Facility access rights, and access rights. Visitors and guests who are not directly working on the Project must be approved by the Authority in advance.
40	The Contractor shall conduct reviews of the access matrix against the actual access for all employees in accordance with all security Requirements. Such reviews shall be conducted no less than quarterly or anytime at the request of the Authority. The Authority shall be invited to witness this review. The schedule for these reviews shall be included in the Operations Plan.
41	The Contractor shall ensure all Facilities used by the Contractor to perform any Work in support of the Agreement shall be established and maintained in compliance with the Security Standards throughout the Term of the Agreement.

1.2. Operational Functions

CSC Operations shall cover all functional areas as summarized below, including any required manual interactions or data entry that may be required of Contractor staff.

1.2.1. Account Management

The Contractor shall provide the following services in an efficient and effective manner that allows customers to establish, manage and monitor their accounts.

42	The Contractor shall process all account opening activities, not otherwise performed by the customer, using the BOS, including but not limited to processing the customer application, customer acceptance of terms and conditions, Account Plan enrollment and qualification verification, payment processing, and transponder Fulfillment.
43	Using the BOS, the Contractor shall be responsible for the Fulfillment of any and all transponder types specified by the Authority.
44	The Contractor shall support the assigning, qualification verification and management of Account Plans, including non-revenue plans in the BOS, as Approved by the Authority,
45	In case of an incorrect or incomplete application, the Contractor shall contact the customer to facilitate successful account creation.
46	The Contractor shall support all activities related to account closing. In the event of closing the Contractor shall ensure that the customer's transponder(s) is changed to the appropriate status in the BOS and that all outstanding balances are paid or handled in accordance with the Business Rules, Operations Plan and SOPs prior to closing the account.
47	The Contractor shall update customer account information based on information received from entities including but not limited to:

• customer or Authorized Designee;
• Registered Owner of Vehicle (ROV) Lookup Provider;
• United States Post Office;
• Skip Trace Service Provider;
• Banks (for replenishment);
• Collection Agencies;
• Print/Mail House Service Provider;
• Lockbox Service Provider (if used by Contractor);
• Credit Card Update Service Provider and
• Merchant Services Providers (MSPs).

1.2.1.1. Payments, Fees and Refunds

Contractor will process payments at the CSC Facilities and over the phone as well as resolve and post any payments where the Lockbox Service Provider (if used by Contractor) was unable to identify the correct account. In addition, the Contractor will assist in the processing of third-party and pass-through payments.

48	The Contractor shall process all payments received from customers either directly or through the services of a Lockbox Service Provider.
49	The Contractor shall resolve and process Lockbox Exceptions if a Lockbox Service Provider is utilized. These exceptions are payments which cannot be readily associated with a customer account. The Contractor shall be responsible for conducting timely research on these payments so that they can be posted to a customer account as quickly as possible. If all research avenues have been exhausted and documented and the payment remains unassociated, the payment shall be tracked as an unidentified funds Case for future resolution.
50	The Contractor shall support processing of payments by Authority staff, customers, Franchise Tax Board, DMV, Interoperable partners and Collection Agencies and reconcile all payments to customer accounts and money deposited in the bank.
51	The Contractor shall apply any fees which require manual application using the BOS in accordance with Business Rules, Operations Plan and SOPs.
52	The Contractor shall research, respond to and process chargebacks.
53	After the pre-established time period determined by the Authority has expired, the Contractor shall issue refunds using the same channel the customer used, if possible, to make the payment, in accordance with the applicable Authority Business Rules, Operations Plan and SOPs.

54	In the case of check refunds, the Contractor shall use Positive Pay to deter check fraud.
55	The Contractor also shall ensure that Credit Card refunds are successfully processed.
56	The Contractor shall process, enter, print and send all refund checks and enter the resulting financial transactions into the Authority's financial accounting systems. The Contractor shall work with the Authority to setup all required accounts and processes to facilitate this entire process.
57	At the direction of the Authority and per the SOPs the Contractor shall enter payments into the Authority's financial accounting systems for direct payments to third parties for issuance by the Authority (for example, payments to third parties contracted directly by the Authority to provide services at the I-405 CSC Facility).
58	At the direction of the Authority and per the SOPs the Contractor shall enter payments into the Authority's financial accounting systems for reimbursement of pass-thru costs submitted by the Contractor for issuance by the Authority.

1.2.1.2. Account Plans

The Authority has several Account Plans. These plans may be assigned at the individual transponder, or account level and each may have only one Account Plan assigned to it.

The Contractor shall be responsible for managing the various Account Plan programs including, enrollment in the program, eligibility verification, program membership renewal, and handling questions from customers regarding how the programs work and questions about specific transactions/trips under the programs. In addition to the Account Plans listed in this section, the Contractor should expect that plans may be added, deleted or modified over the course of the Operations and Maintenance Phase.

59	In accordance with Business Rules, Operations Plan and SOPs, the Contractor shall provide support for all the Account Plans, including new and modified plans.
60	For the Account Plans that require qualification, the Contractor shall verify qualification, scan and attach the qualification documentation prior to adding the plan(s) to the customer account.
61	For Account Plans requiring qualification, the Contractor shall remove the Account Plan and notify the customer if their eligibility requirements are no longer met.
62	For Account Plans which expire and require renewal, the Contractor shall verify qualification prior to renewing the plan on the customer account.
63	For Account Plans requiring payment, the Contractor shall collect appropriate payment from the customer as required by the enrollment process for the specific Account Plan.

1.2.1.3. Non-Revenue Program

The Authority allows for non-revenue passage on qualified users on specific facilities. Non-revenue passage may be assigned at the individual transponder, or account level. The Contractor shall maintain strict control when a transponder is issued to an account with a non-revenue plan and the

reason for issuing it. The Authority must ALWAYS Approve the issuance of any non-revenue transponder.

The Contractor shall be responsible for managing enrollment in the program after obtaining the Authority’s approval, verifying eligibility, handling questions from customers in regard to how the programs work and questions about specific transactions/trips under the programs.

64	In accordance with the Business Rules, Operations Plan and SOPs, the Contractor shall provide support for all of the Authority’s non-revenue programs.
65	Prior to applying a non-revenue plan to a transponder, plate or an account, the Contractor shall obtain Approval from the Authority.
66	The Contractor shall maintain documentation of authorization for each non-revenue plan that has been assigned to a transponder or an account, and this documentation shall be available for review by the Authority at all times.
67	The Contractor shall manage non-revenue account participants certification that the transactions/trips on a non-revenue account are according to the agreement.
68	The Contractor shall perform random checks to confirm the transponder is being used on an authorized plate
69	The Contractor will administer non-revenue accounts that do not have transponders issued when directed by the Authority.

1.2.2. Privacy

Privacy is of utmost concern to the Authority. The Contractor shall adhere to privacy and security Requirements set forth below and in the Security Standards and current law and regulations.

70	The Contractor shall develop and comply with all Approved Security Standards. Security Standards shall be updated to reflect changes in industry requirements, partner agreements and to address detected security weaknesses.
71	The Contractor shall not release information to anyone unless authorized by the Authority. The Contractor shall develop an SOP and approval process for the release of information.
72	The Contractor shall establish reasonable methods to verify the identity of customers prior to the release of any customer account information, and such methods shall be documented in the Operations Plan and SOPs.
73	The Contractor shall validate the identity of the customer prior to release of any image. This may include requiring a photo ID at a WIC.

1.2.3. Rental Cars

The Authority’s customers utilize rental vehicles which create transactions/trips that are initially assigned to a rental agency. The Authority may utilize Rental Car Service Providers and/or other designated entities for processing the rental car trips.

74	The Contractor shall work directly with customers, the Rental Car Service Provider and/or other designated entity to accurately process all rental car trips and resolve rental-related requests.
75	The Contractor shall enter into agreements with a Rental Car Service Provider for the purpose of providing a seamless and cost-effective solution for customers. The Authority shall have the right to review and approve all Rental Car Service Provider Agreements.
76	The Contractor shall provide the capability for a rental customer to post-pay a toll based on the Authority's Business Rules
77	The Contractor shall process affidavits of non-liability for rental/lease vehicles and pursue the named party.
78	The Contractor shall resolve charges by rental agencies for accountholders who incur a charge by rental agencies.

1.2.4. Search Warrants, Subpoenas, Litigation and Public Records Requests

The Authority receives requests for information and assistance from the law enforcement and legal communities as well as public records requests. These requests are highly time-sensitive and required sensitive and skilled handling.

79	The Contractor shall refer all requests, inquiries, subpoenas, search warrants, public records requests and official information requests to the Authority, in accordance with Business Rules, Operations Plan and SOPs.
80	In accordance with the Business Rules, Operations Plan and SOPs for handling and tracking of such requests, the Contractor shall gather and provide the information requested by the search warrant or subpoena upon receiving Approval from the Authority to do so.
81	The Authority may request that the Contractor compile data for subpoenas, search warrants, litigation matters, or other reasons. The Contractor shall respond to all requests from the Authority in a timely manner and in accordance with the Business Rules, Operations Plan and SOPs.
82	The Contractor shall assist the Authority's risk management department as directed in handling all claims and requests.
83	If the research will take longer than two (2) Business Days, the Contractor must advise the Authority.
84	The Contractor shall provide qualified personnel to support litigation, including providing testimony as an expert witness upon request from the Authority.

1.2.5. Image Review Support

Image collection and processing is a fundamental operation of the Authority's transaction/trip processing and Violation enforcement process. Vehicle license plate images are captured by roadside Equipment for all transactions/trips. If a valid FasTrak transponder is not identified, the images associated with that transaction/trip are reviewed by the ETTM System Contractor in a process

called image review. These images and results of the review will be used to determine if a plate is associated with a FasTrak account or is a Violation. These will include rear license plate images as well as Region of Interest images. The ETTM System Contractor will identify the plate number, and Jurisdiction and Plate Type, if applicable, and provide this information to the BOS. The BOS will automatically Post the transaction/trips to the customer accounts, IOP or generate Violation Notices based on the license plate information received from the ETTM System Contractor.

1.2.5.1. Image Review Quality Assurance

The accuracy of the image review process is critical to the successful identification of the ROV. As part of the Quality Assurance (QA) process, the Contractor will conduct an accuracy review and audit process of the manual and automated image review results. Using the ETTM System Contractor’s-provided quality review tool, the Contractor will perform quality reviews on the results from each ETTM System Contractor to ensure that the ETTM System Contractor is accurately identifying a high percentage of license plates.

85	The Contractor shall provide for an adequate number of trained and qualified image review staff to handle the quality review volume.
86	The Contractor shall perform manual image review on a sample of at least 1% of all Image-Based Transactions/Trips per month that were provided by the ETTM System Contractor to determine accuracy of state, Plate Type, plate number and OCR confidence level.
87	The Contractor shall provide a report to the Authority of the audit and findings.
88	The Contractor shall correctly determine for each image set whether the ETTM System Contractor accurately processed the image and if not enter the correct plate information or reject code and provide the findings to the ETTM System Contractor.
89	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.

1.2.5.2. DMV No Registered Owner Information Return Quality Review

Periodically image transactions/trips will be returned from the DMV source with no registered owner information. This can be a result from several factors including a license plate entered incorrectly. Part of the Contractor’s responsibility will be to ensure the transactions/trips with no registered owner information were not caused by an incorrect license plate or improperly formatted DMV submission.

90	The Contractor shall review all image transactions/trips that are returned from the DMV source without registered owner information to ensure license plate entry was accurate.
91	The Contractor shall accurately enter information related to the vehicle identified in each image set, including but not limited to: <ul style="list-style-type: none"> • plate number;

	<ul style="list-style-type: none"> • Plate Type, if applicable and
	<ul style="list-style-type: none"> • Jurisdiction.
92	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.

1.2.5.3. Customer Inquiry Image Error

Quality reviews are required to verify customer-disputed transactions/trips. Customers may contact the CSCs regarding a notification they received that incorrectly identifies them as a user of a Toll Facility. This can be a result from several factors including a license plate entered incorrectly. Part of the Contractor's responsibility will be to ensure the transactions/trips with no registered owner information were not caused by an incorrect license plate.

93	The Contractor shall also research and review images related to customer disputes and correct and reprocess.
94	The Contractor shall accurately enter information related to the vehicle identified in each image set, including but not limited to: <ul style="list-style-type: none"> • plate number; • Plate Type, if applicable and • Jurisdiction.
95	The Contractor shall work with the Authority and ETTM System Contractor to take the necessary steps to correct identified errors from the automated review process so that they do not continue to occur. For example, an ETTM System may be mistaking the letter "E" for the letter "F" for the State of California so the Contractor would communicate the problem to the specific ETTM System Contractor and provide examples of the issue.

1.2.6. Owner Identification

Successful acquisition of accurate ROV information is critical to the success of the Authority's Violation enforcement program. The Contractor shall be completely responsible for establishing and maintaining both technical and operational relationships with the Registered Owner of Vehicle (ROV) Lookup Providers. The Contractor must ensure that the Authority is receiving the optimum number of current and accurate ROV matches.

96	The Contractor shall establish and maintain up-to-date agreements with each Registered Owner of Vehicle (ROV) Lookup Provider.
97	The Contractor shall provide the capability to track and follow the renewal Requirements for each Registered Owner of Vehicle (ROV) Lookup Provider. For example, a state may require that a DMV data access application form be submitted and approved annually.

98	The Contractor shall use online interfaces to the California, Arizona, Oregon and Nevada DMVs and other DMVs as they become available to manually look up individual license plates at the request of the Authority or in order to resolve customer disputes.
99	<p>The Contractor shall provide the following ROV-related activities, including but not limited to:</p> <ul style="list-style-type: none"> • Establish and maintain a relationship with each Registered Owner of Vehicle (ROV) Lookup Provider; • Manage current contracts and service level agreements with each Registered Owner of Vehicle (ROV) Lookup Provider; • Monitor and evaluate the number of successful matches by Jurisdiction; • Monitor and evaluate the number of successful matches by Registered Owner of Vehicle (ROV) Lookup Provider; • Monitor and evaluate the number of successful matches by type of license plate; • Identify issues with manual license plate identification and provide information to allow the ETTM System Contractor to correct the issue, including examples and training material; • Identify issues with automatic license plate identification and provide information to allow the ETTM System Contractor to fix the issue and • Identify areas where the ROV match is lower than the average, investigate potential solutions and provide recommendations to the Authority.
100	The Contractor shall coordinate with the ETTM System Contractor regarding BOS updates required due to any changes in ROV Requirements.
101	The Contractor shall monitor the success of ROV Lookup requests each month and when a change is made by the ETTM System Contractor reporting on the number of requests for which an ROV was obtained (successful lookup) and the number for which a request was not obtained (unsuccessful lookup) by Jurisdiction.
102	The Contractor shall identify Jurisdictions in which the percentage of successful requests decreases by more than five percent (5%) from the prior month and shall work with the appropriate Registered Owner of Vehicle (ROV) Lookup Provider to identify issues and solutions in collaboration with the ETTM System Contractor to ensure images are processed correctly.
103	The Contractor shall develop solutions to increase the ROV Lookup success.
104	The Contractor shall research and then input and manage the BOS Protected Plate data that associates an address with the agency names that are returned from the DMV or ROV Lookup Provider for license plates registered to a customer affiliated with federal, state or local agency that is allowed to shield addresses.
105	The Contractor shall facilitate the Protected Plate process of entering the correct agency address and resending the Violation Notice.

1.2.7. Customer Communications

1.2.7.1. Outgoing Customer Notification

The Contractor is responsible for all necessary customer communication in accordance with the Operations Plan. At its discretion, the Authority will choose to produce some outgoing customer correspondence within its reprographics department.

106	The Contractor shall make contact with customers, by using the Authority's required method of communication about account management, general information, marketing, changes to account and privacy policy.
107	The Contractor shall be responsible for printing, pdf creation, storing and associating with accounts, envelopes, mailing and postage for all communications.
108	The Contractor shall be responsible for acquiring and assembling all materials necessary for the mailing of transponders including, welcome kit, envelopes, sealing wafers, special inserts, stickers and mounting strips. The Contractor shall pay for mounting strips and other items not explicitly included in the pass-through list.
109	When directed by the Authority, the Contractor shall coordinate with the Authority's reprographics department for the production of outgoing correspondence. The Contractor shall be responsible for pick up, assembly and mailing.
110	The Contractor shall utilize the USPS/NCOA database services to validate a customer address prior to mailing correspondence.
111	The Contractor shall provide all postage meters and be responsible for payment of any postage meter fees.
