

MEMORANDUM

March 13, 2017

To: Members of the Board of Directors

From: Laurena Weinert, Clerk of the Board 

Subject: Central Harbor Boulevard Transit Corridor Study Update

On February 13, 2017, the Board of Directors (Board) were presented with an update on the Central Harbor Boulevard Transit Corridor Study, as a receive and file item. At the February 27, 2017 Board meeting, Director Tait requested that the item be agendaized for the March 13, 2017 Board meeting.

Currently, staff and the consultant team are evaluating the alternatives, briefing city councils, and have scheduled two public workshops in March and April. Staff anticipates returning to the Board with the results of the evaluation and input received in July 2017.

Additionally, on March 6, 2017, the Anaheim City Manager submitted a letter (attached) to formally transmit to the Orange County Transportation (OCTA) Board the Anaheim Council Resolution regarding the Anaheim Rapid Connection Street Car Project which expresses opposition to a streetcar system in the City of Anaheim (City). The letter also requested that as OCTA proceeds with the Central Harbor Boulevard Transit Corridor Study, the City's position be taken into consideration.
