Committee Discussion

At the July 6, 2017 Regional Planning and Highways Committee meeting, Committee Vice Chairman Nelson requested a map showing the combined outcome of recent sub-area regional bike corridors in Orange County. Between 2011 and 2016, the Orange County Transportation Authority completed four sub-area studies covering the entire county; the results of which are depicted on the map (Transmittal Attachment). Project status information on various project development/implementation activities along this network will be included in a future report to the Board of Directors.
