### Mission of the Internal Audit Department

The mission of the Internal Audit Department (Internal Audit) of the Orange County Transportation Authority (OCTA) is to assist management and the Board of Directors (Board) in the effective discharge of their duty and responsibility to safeguard the assets of OCTA while ensuring those assets are used in an efficient and effective manner. To this end, Internal Audit serves as an independent appraisal function to examine and evaluate OCTA's operations, activities, internal controls, compliance, opportunities, and risks.

### **Internal Audit Department Activities**

Internal Audit is responsible for examining and evaluating financial, administrative, and operational activities of OCTA, and supplying management with information to assist in its control of assets and operations for which it is responsible.

Internal Audit provides a wide range of auditing services including annual financial and compliance audit oversight, operational reviews, compliance reviews, internal control assessments, investigations, pre-award and post-delivery Buy America reviews, and pre-award price reviews. In addition, all audits initiated by entities outside of OCTA are coordinated through Internal Audit.

Internal Audit measures the efficiency of the department by calculating a productivity ratio. The ratio, used broadly throughout the audit industry, measures the amount of time auditors spend on audit projects versus time spent on administrative duties. Productivity goals are established for the professional audit staff and for the department. The department-wide target includes all professional staff and the Executive Director. For fiscal year (FY) 2017-18, Internal Audit set a department-wide target productivity ratio of 75 percent and a professional audit staff productivity ratio of 80 percent. Because the Executive Director is required to regularly participate in non-audit management activities such as executive planning and committee meetings, the department ratio is set lower than that of the professional staff.

The Government Accountability Office (GAO) broadly defines audits as financial, attestation, or performance audits. Financial audits, including financial statement audits, are assessments of, and assurances about, an entity's financial condition, operating results, or other defined financial criteria. Attestation engagements are both financial and non-financial and result in varying degrees of assurances about specific subject matter. Agreed-upon procedures price reviews, performed by Internal Audit, are an example of attestation engagements whereby Internal Audit applies procedures to specific elements of contractor price proposals.

Internal Audit's efforts, however, are focused primarily on the third category of audits, performance audits, as defined by the GAO. Performance audit objectives vary widely and include review of internal controls, assessment of compliance with laws, regulations, policies and procedures, and assessments of program effectiveness, economy, and efficiency. To more accurately define the objectives of these performance audits, Internal Audit categorizes audit projects in a more descriptive manner as indicated below. It is important to note, however, that most audit projects include objectives consistent with one or more of these audit types.

**Compliance** – Compliance reviews are performed to ensure that the terms and conditions of contracts, grants, memorandums of understanding, or other agreements are being followed and that there is compliance with Board-adopted policies and procedures, management policies and procedures, and applicable regulatory requirements.

**Price Review** – Price reviews refer to the agreed-upon procedures reviews performed for architectural and engineering price proposals or sole source proposals to determine if proposed pricing is fair and reasonable. Agreed-upon procedure reviews are also performed on single bid procurements to determine whether the Contracts Administration and Materials Management Department (CAMM) complied with policies and procedures to ensure a fair and competitive process. The procedures performed are the responsibility of CAMM.

**Buy America Review** – Buy America reviews refer to the pre-award and post-delivery agreed-upon procedures reviews of vehicle purchases in accordance with federal Buy America laws. The procedures are performed based on an agreement with CAMM.

*Financial* - Financial audits focus on verification of financial transactions and balances. Financial audits include the financial statement audits of OCTA and related legal entities, as well as other attestation audits performed by an independent certified public accounting firm to ensure compliance with the Measure M2 ordinance or other legally mandated requirements.

*Internal Control* – Internal control reviews are performed to assess whether controls in place are adequate to protect the assets and resources of OCTA and to ensure compliance with laws, regulations, and policies.

**Operational** - An operational audit is performed to evaluate current operating procedures to determine if they provide for an adequate control environment and to assess whether processes are efficient and effective ways to accomplish the goals of the project, program, or activity. Operational audits generally include elements of both an internal control review and a compliance review.

Internal Audit also performs other activities outlined in the Internal Audit plan as follows:

**Monitoring** – These activities include providing information to the Audit Subcommittee (Subcommittee) of the Taxpayer's Oversight Committee (TOC) to assist in their duty to exercise oversight of the expenditure of Measure M2 (M2) funds, participation in annual Transit Division bus base inspections, and observation of bi-annual capital asset inventory counts. Internal Audit also monitors results of audits issued related to Metrolink activities.

*Follow-Up Activities* – These activities are undertaken to determine whether audit recommendations have been implemented or otherwise satisfactorily addressed.

*Investigations* – Investigative activities that are performed in response to a complaint or allegation, including those received through OCTA's Fraud Hotline.

# Fiscal Year 2016-17 Accomplishments

- Completed 21 agreed-upon procedures reviews of architectural and engineering, sole source, or single bid proposals and provided CAMM with price adjustment recommendations of nearly \$1.2 million.
- Completed an additional 12 audit projects and two Buy America agreed-upon procedures reviews, resulting in 14 recommendations for improvement to policies, procedures and/or internal controls.
- Exceeded both the department-wide productivity goal of 75 percent and the professional audit staff productivity goal of 80 percent.
- Conducted follow-up on implementation of audit recommendations within six months of report issuance or earlier, as directed by the Finance and Administration (F&A) Committee.
- Performed Internal Audit's annual internal quality assurance and self-assessment review, identifying and addressing areas for improvement to processes, policies, and procedures. Completed revisions to clarify and improve policies and procedures to better reflect Government Auditing Standards (Standards) requirements.
- Provided administration of OCTA's Fraud Hotline and reviewed 22 complaints received during the fiscal year. Referred complaints to legal counsel and /or management, or conducted investigations of allegations, as appropriate. Memorandums with three recommendations for improvement resulted from investigations performed.
- Provided assistance to the Subcommittee of the TOC including, but not limited to, design
  of agreed-upon procedures for testing compliance with M2 Local Fair Share, Project U
  Senior Mobility Program, and Senior Non-Emergency Medical Transportation Program
  expenditures, and for testing the M2 status report. Also, reported results of annual audits
  and agreed-upon procedures reviews as they relate to Measure M2.
- Prepared scopes of work and procured two benches of audit firms for use on an on-call basis to provide supplementary general audit and price review services.
- Completed implementation of Auto-Audit, an automated working paper and timekeeping system.

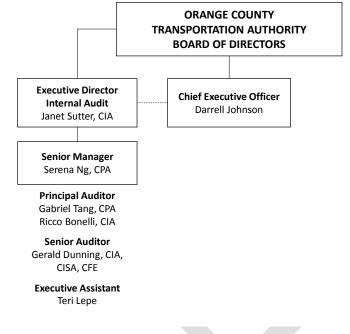

# Fiscal Year 2017-18 Goals

- Achieve a department-wide productivity ratio of at least 75 percent and professional staff productivity ratio of at least 80 percent.
- Initiate investigations of all OCTA Fraud Hotline reports within two business days of receipt.

- Conduct agreed-upon procedures reviews, at the request of CAMM, of all architectural and engineering price proposals exceeding \$150,000, to establish the reasonableness of proposed rates and recommend price adjustments for potential savings. Also, provide for price review of sole source proposals exceeding \$50,000, and agreed-upon procedures reviews of single bid procurements as requested.
- Conduct agreed-upon procedures reviews, at the request of CAMM, of vehicle purchases in accordance with Buy America laws.
- Review audit committee charters of the F&A Committee and the Subcommittee of the TOC and recommend updates based on relevant changes in professional guidance. Both charters should be completed and presented to the respective committee annually.
- Assist the Subcommittee of the TOC with the design and update of agreed-upon procedures for M2-related audits, and provide progress updates and final results of all M2-related audits.
- Conduct follow-up on implementation of audit recommendations within six months of report issuance or earlier, as directed by the F&A Committee, and report the results as part of the quarterly updates to the Internal Audit plan.
- Provide quarterly updates to the F&A committee and the Board on the status of projects and activities included in the annual audit plan. Provide these updates no later than 30 days after quarter-end.
- Improve the effectiveness of Internal Audit by continuing to assess the risk profile of the organization and update the Risk Assessment as appropriate to reflect organizational changes.
- Perform Internal Audit's annual internal Quality Assurance and Self-Assessment review by March 31, 2018, and make any noted improvements to Internal Audit's processes, policies, and procedures.

# Internal Audit Organization

Standards provide a framework for government auditors in the areas of transparency, independence, accountability, and quality. These Standards require that auditors be independent in both mind and appearance with respect to the entities for which they perform audit services. Internal Audit has established policies and procedures to comply with Standards and OCTA has established an internal audit function that is organizationally independent. As indicated below, Internal Audit reports functionally to the Board, and administratively to the Chief Executive Officer:

# **Risk Assessment Process**

It is the responsibility of OCTA management to identify, assess, and manage risk. It is Internal Audit's responsibility to facilitate the identification and assessment of risk, and to monitor and report on how well risks are being managed by OCTA. All organizations face risks, which are defined as those events, actions, or inactions that could cause key business objectives not to be achieved. To mitigate and manage these risks, an organization typically implements internal controls, anticipates and plans for disruptions, develops risk management programs, and engages in other risk mitigation activities.

The key business objective of OCTA is imbedded in its mission statement to "*Develop and deliver transportation solutions to enhance quality of life and keep Orange County moving.*" Delivering these "*transportation solutions*" are several core business units of OCTA, including Transit, Planning, and Capital Programs Divisions. These business units are supported by administrative functions, and all of these services are delivered through a variety of projects, programs, and activities. With a budget exceeding \$1 billion, OCTA delivers transportation solutions through numerous channels, with a variety of stakeholders, with the assistance of the private sector, and for the benefit of diverse customers.

Recognizing both the enormity of OCTA's projects, programs, and activities, as well as the constraints of Internal Audit resources, Internal Audit maximizes its effectiveness by engaging in an annual risk assessment process to establish the priorities of the department for the upcoming fiscal year.

#### Risk Assessment Methodology

Internal Audit established the architecture of the Risk Assessment by first identifying all OCTA projects, programs, contracts, and functions (auditable entities). Internal Audit then identified six categories of risks and assigned weightings as follows:

*Financial and Compliance Risks (20%)* – The magnitude of financial exposure to OCTA and the degree of regulatory oversight and/or the volume of regulation with substantial fines, penalties, or other sanctions for noncompliance.

**Security and Safety Risks (15%)** – The impact of a security breach to OCTA customers, contractors, employees, or the public, and the degree of severity (catastrophic, significant, moderate, or minimal) resulting from incidents or accidents.

**Operational and Strategic Risks (15%)** – The severity of impact of a disruption in the operation of this OCTA project or program on Orange County travelers, and the significance of this project or program to OCTA's strategic success.

*Image and Reputation Risks (15%)* – The intensity of public interest and awareness, and the visibility of the project, program, or function to the media.

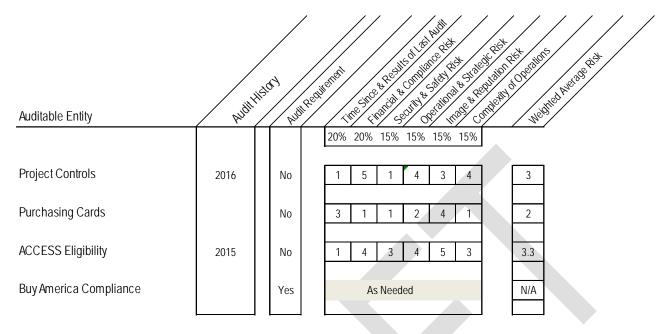

**Complexity of Operations (15%)** – The number of individuals, departments, contractors, information systems, and manual processes involved in the delivery of this project or program, and the degree to which transactions require professional judgment or technical expertise.

*Time Since Last Audit (20%)* – The length of time since the last audit or review was conducted and the results of that review.

Internal Audit then developed the following assigned ratings for each risk:

| <b>Risk Rating</b> |                       |
|--------------------|-----------------------|
|                    | Description           |
| 4.0 - 5.0          | High Risk             |
| 3.0 – 3.9          | Moderate to High Risk |
| 2.1 – 2.9          | Moderate Risk         |
| 1.6 - 2.0          | Low to Moderate Risk  |
| 1.0 – 1.5          | Low Risk              |

Following are examples of the Risk Assessment results for four different auditable entity types:

Following the risk assessment of each of approximately 275 auditable entities within OCTA, Internal Audit summarized the results on the heat chart in Appendix A. The heat chart translates the numerical risk ratings of each auditable entity into a more visually appealing format. Auditable entities that require an audit, either by regulation or at the direction of the Subcommittee, are not risk rated, and are reflected as "Required".

# **Internal Audit Plan Development**

The Internal Audit Plan for FY 2017-18 (Audit Plan), Appendix B, calls for approximately 8,600 Internal Audit hours, exclusive of vacation, sick, holiday, and continuing professional education hours. Of the 8,600 hours, approximately 2,100 relate to administrative activities, including Board and Committee meeting attendance, Internal Audit staff meetings, and other administrative tasks. The purpose of including these hours is to monitor and measure Internal Audit's productivity.

The Audit Plan includes 435 hours for mandatory audit activities, including hours anticipated to coordinate, review, and report on the results of regulatory agency audits and required financial audits and agreed-upon procedures reviews performed by OCTA's independent public accounting firm, Vavrinek, Trine, Day and Company LLP. Approximately 880 hours are anticipated for internal audit projects and non-audit activities, such as the annual risk assessment and audit planning process, quality assurance and self-assessment activities, upgrades and improvements to Internal Audit's automated working paper system, and, in the coming year, engagement of a firm to conduct an information systems risk assessment of OCTA's environment.

The Audit Plan also includes 1,000 hours for price review services and 250 hours for Buy America review services. Internal Audit anticipates Buy America services will be required for the upcoming procurement of rail cars related to the OC Streetcar project and potential

procurements of buses, pending award of grant funds. While requests for price reviews are unpredictable, Internal Audit anticipates there will continue to be a steady number of requests from CAMM, and this budget is consistent with prior years' experience.

The Risk Assessment developed by Internal Audit is the primary, but not absolute, means by which Internal Audit prioritizes and selects audit projects. There remain other factors that are not taken into account in the Risk Assessment. For example, some high risk auditable entities are not selected because they are projects in their infancy and it would be more suitable to perform an audit after the project is better underway. Other high-risk auditable entities are not selected because of Internal Audit's knowledge of related review activities such as the service organization controls review of Cofiroute, USA (Cofiroute) and the M2 Ten Year Review. Also, a recently completed Federal Emergency Management Agency audit of Transit Security Grant Fund projects. Knowledge of these control review activities reduces the likelihood that audits of Cofiroute operations, the M2 Program Management Office, or certain grant funded projects will be selected. Other subjective factors that enter into the selection of audit projects include knowledge about external or regulatory auditor interest, project or program failures or successes, consideration of the impact to individual departments and/or divisions, and staffing resources.

The Audit Plan includes an audit of oversight controls and contract compliance related to the Interstate 5 Improvement Project from Pacific Coast Highway to San Juan Creek and an audit of the cooperative agreement with Metrolink for design and construction of a control point at 4<sup>th</sup> Street in the City of Santa Ana. Audits of selected Competitive Transportation Funding Program Projects will also be conducted. With regard to internal operations, audits of purchasing cards, warranty administration, and procedures for ensuring compliance with the Brown Act are included in the Audit Plan. Also, audits of contracted ACCESS services and collection activities for the 91 Express Lanes are planned. Each of the planned projects, along with projects carried over from the prior year Audit Plan, is reflected at Appendix A, along with a brief description and the estimated staff hours required for the audit.

# Conclusion

The Audit Plan seeks to align limited audit resources with risk throughout the organization while considering prior audit effort and other factors, as identified in Appendix B. Internal Audit will continue to refine the Risk Assessment to include emerging OCTA projects, programs, contracts, and functions. Internal Audit will also continue to assess the risk ratings and weightings included to most accurately reflect the risk profile of the organization and to allow the greatest coverage of that risk in the annual audit planning process.

| Division<br>Department/Functional Area<br>Project/Program/Function      | RISK<br>ASSESSMENT | 7 Year<br>Audit<br>History |
|---|--------------------|----------------------------|
