

Attitudinal and Awareness Survey Results

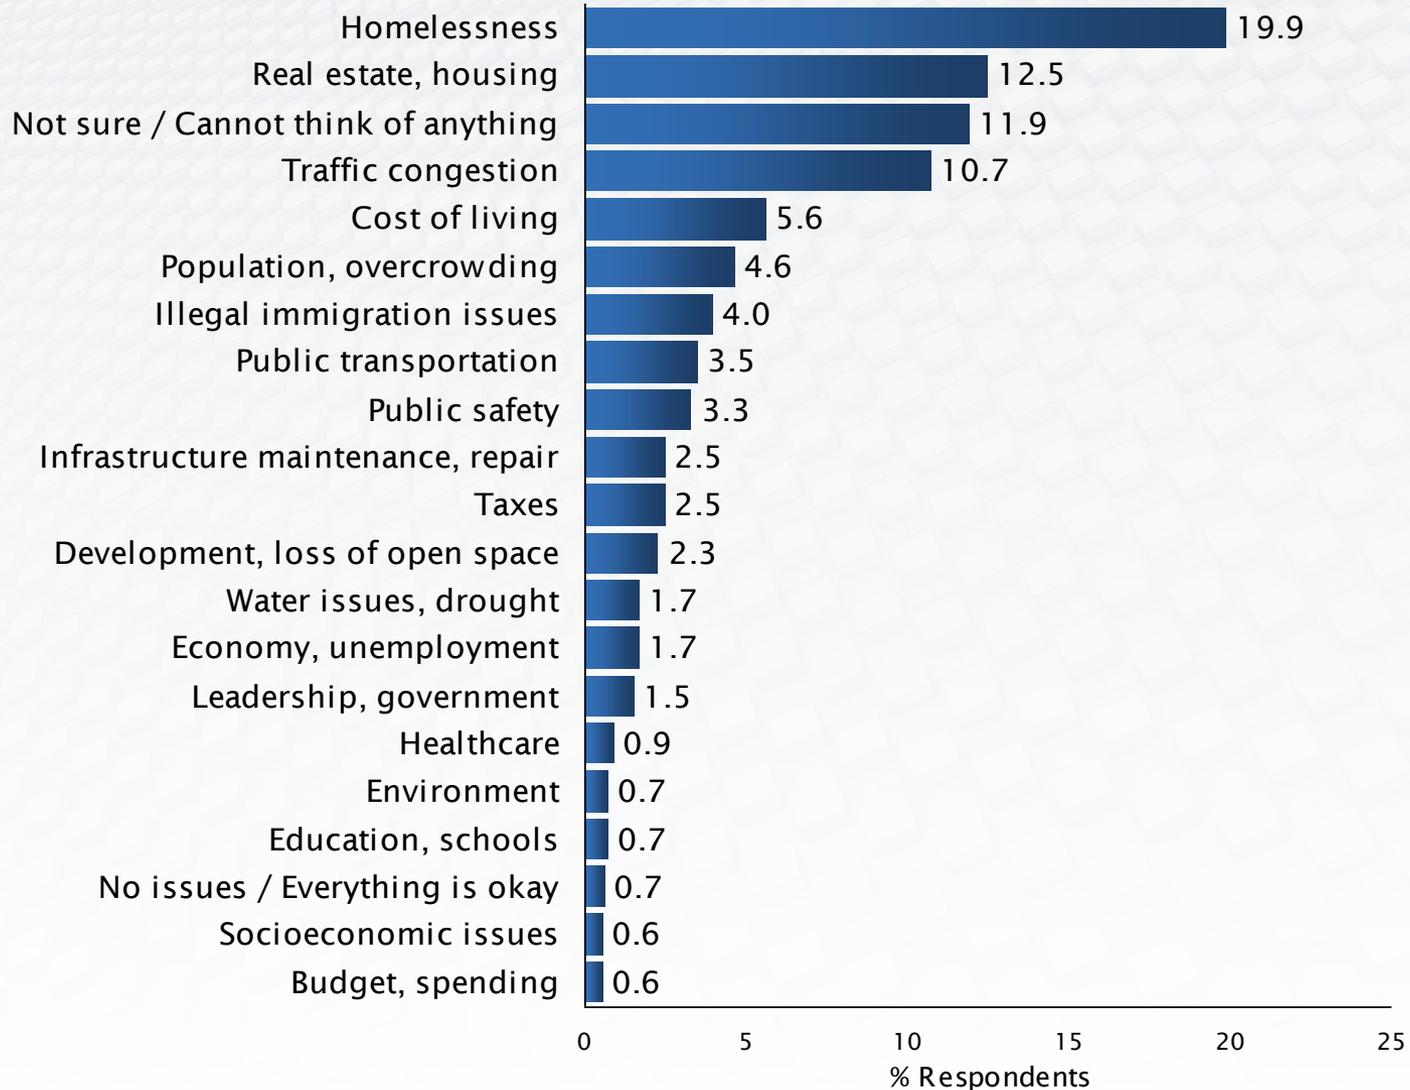

Purpose of Study

- Measure awareness and perceptions of OCTA
- Gather input on priorities and strategies for the Long Range Transportation Plan (LRTP)
- Profile resident use of the transportation system, communications preferences, and relevant demographics/background information

Methodology of Study

- Conducted June 17 to 30, 2018
- Mixed-Methodology Survey
 - Stratified random sample of OC Households
 - Multiple recruiting methods (telephone and email) and data collection options (telephone and online)
 - Completed 2,525 interviews
 - English, Spanish, and Vietnamese
- Overall margin of error: $\pm 1.95\%$

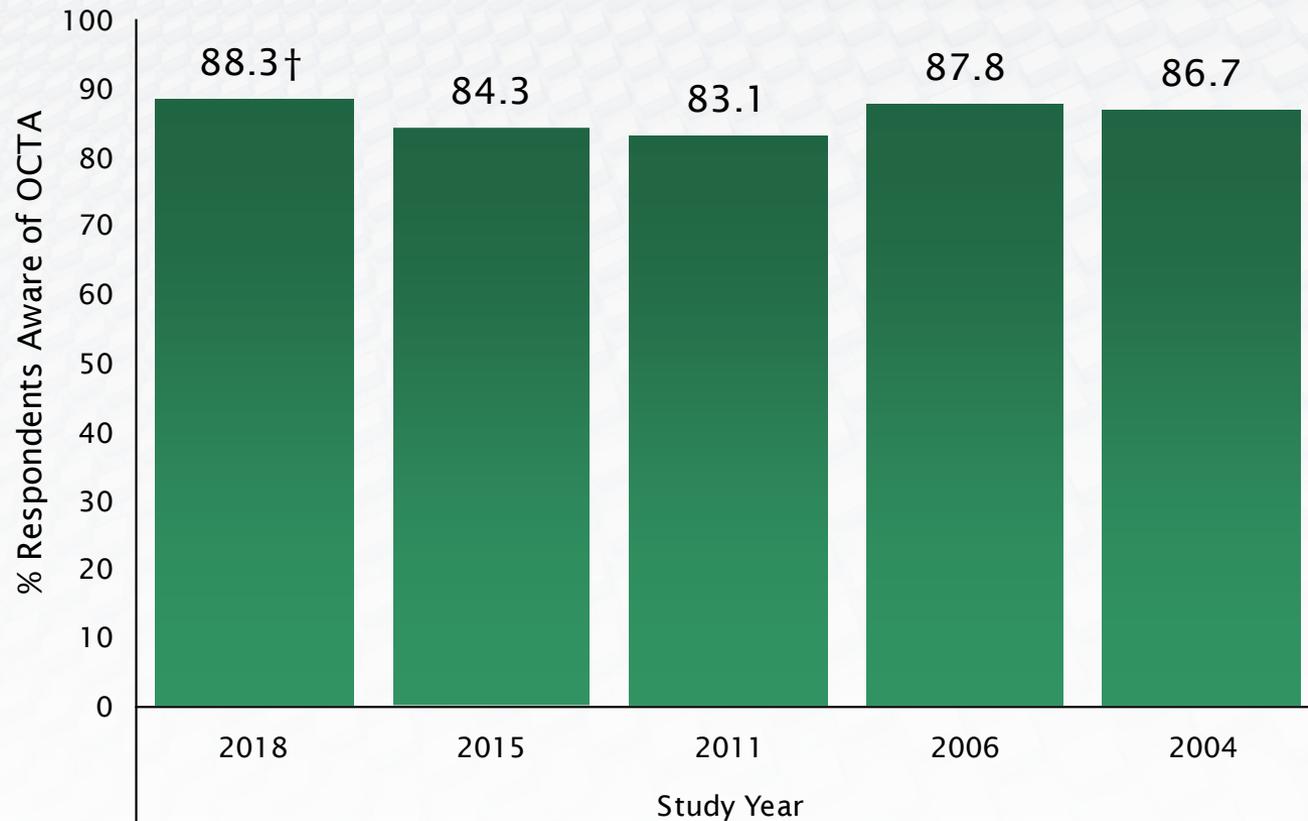

Most Important Issues

Comparison of Issues

	Study Year	
	2018	2015
Homelessness	Water issues, drought	Economy, unemployment
Real estate, housing	Not sure / Can't think of anything	Not sure / Can't think of anything
Not sure / Can't think of anything	Traffic	Education, schools
Traffic congestion	Economy, unemployment	Traffic
Cost of living	Real estate, housing	Public safety / Crime
Population, overcrowding	Cost of living	Budget, spending
Illegal immigration issues	Public safety	Real estate, housing
Public transportation	Population, overcrowding	Transportation infrastructure
Public safety	Education, schools	Population, overcrowding
Infrastructure maintenance, repair	Homelessness	Cost of living

Awareness of OCTA

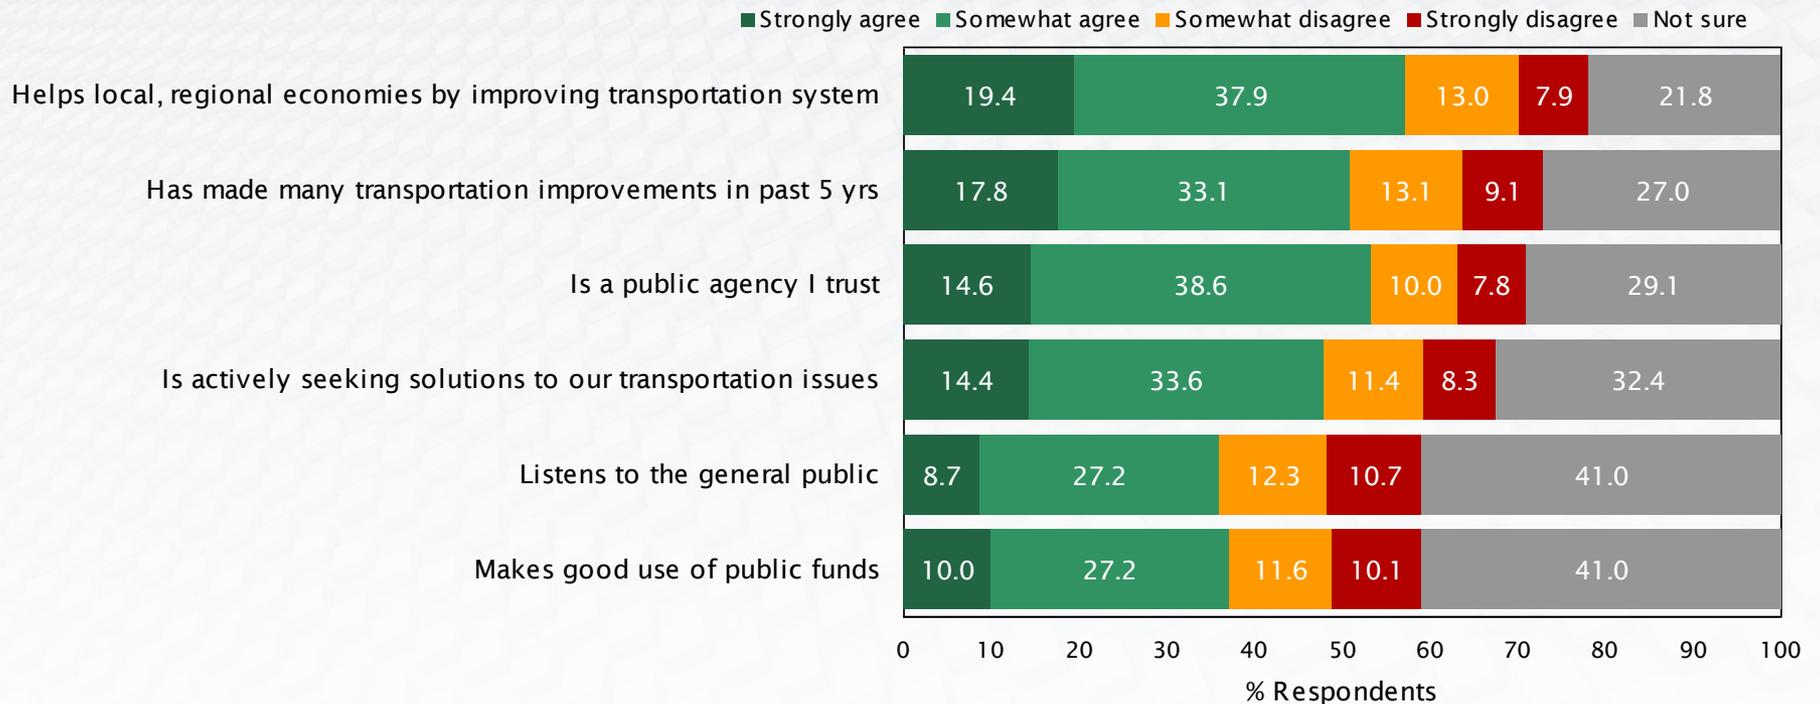

† Statistically significant difference ($p < 0.05$) between the 2015 and 2018 studies.

Overall Opinion of OCTA

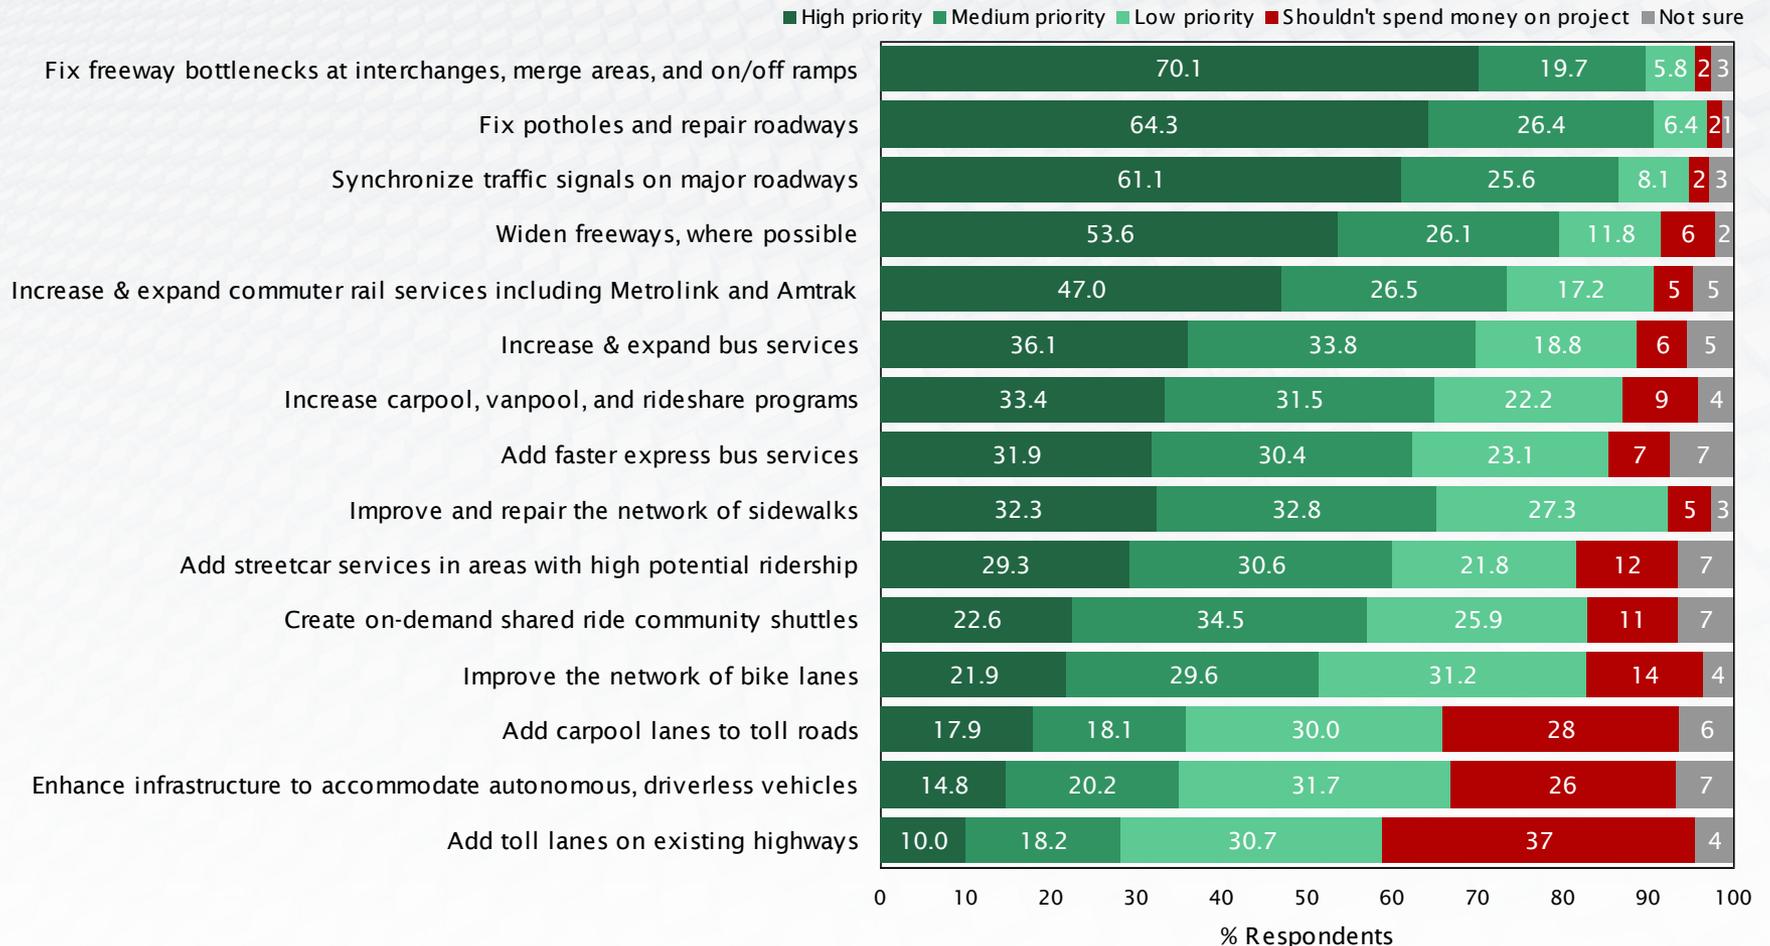

† Statistically significant difference ($p < 0.05$) between the 2015 and 2018 studies.

Statements about OCTA

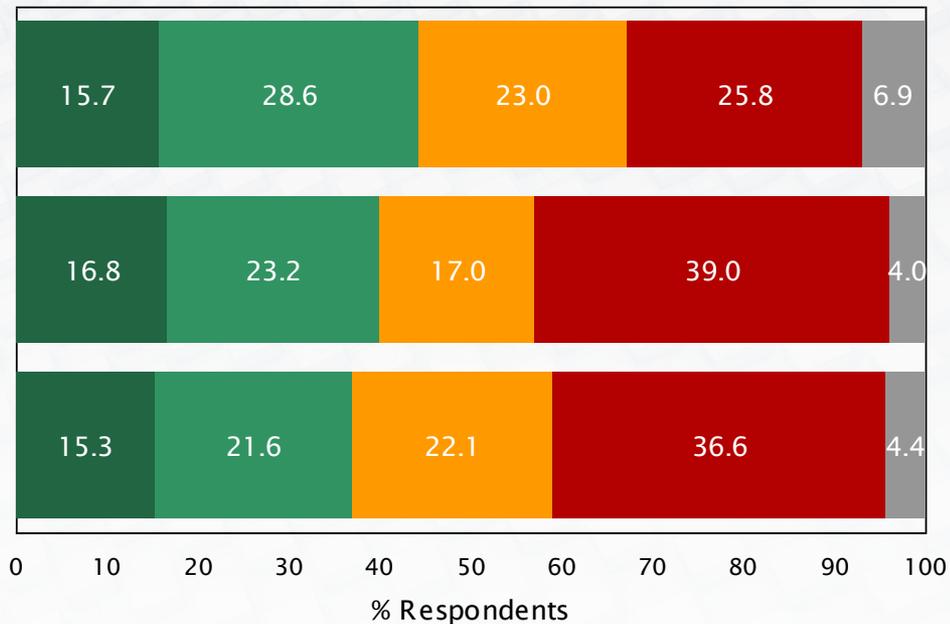

L RTP Priorities

Carpool Lane Strategies

■ Strongly support ■ Somewhat support ■ Somewhat oppose ■ Strongly oppose ■ Not sure

Build additional carpool lanes on freeways, even if it is very expensive, may require purchasing private properties to widen freeway

Key Findings

Public Perceptions of OCTA

- Awareness of OCTA increased in past three years
- Approximately 1/3 have no opinion of OCTA, but among those with an opinion of OCTA, favorable opinions outnumber unfavorable 2.5 to 1
- OCTA receives highest marks for positive impact on economy, trust, actively seeking solutions, and making transportation improvements

Key Findings

L RTP

Majority support for all projects and strategies being considered

- Most projects rated high or medium priority by 60%+ OC residents
- Top priorities
 - Fix freeway bottlenecks at interchanges, merge points, on/off ramps
 - Fix potholes and repair roadways
 - Synchronize traffic signals
 - Widen roadways
 - Increase and expand commuter rail service

Key Findings

L RTP

- Projects with lower priority/less consensus
 - Adding toll lanes to existing freeways
 - Enhancing infrastructure to accommodate autonomous vehicles
 - Adding carpool lanes to toll roads
- Carpool Lane Strategies
 - No approach to reducing peak-period congestion achieved majority support
 - That said, support for building new carpool lanes (even if very expensive and required purchase of private land) was only slightly higher than converting existing carpool lanes to 3 person high-occupancy vehicle (HOV) or 3 person high-occupancy toll (HOT) lanes
