

**Orange County Transportation Authority
Adopted Active Transportation Program Project Prioritization Methodology**

On October 8, 2018, the Orange County Transportation Authority (OCTA) Board of Directors (Board) approved a local prioritization methodology to prioritize projects submitted for Active Transportation Program (ATP) funding, consistent with plans adopted by local and regional governments within the county. Prioritization of ATP projects is also consistent with Board direction through the state and federal programming guidelines for bicycle projects that list a project's readiness as a priority for funding. The approved methodology is provided below.

Plan	Approved¹ (Maximum of 20 Points)
A planned bikeway in the Orange County Commuter Bikeways Strategic Plan (or OC Active currently under preparation)	10
Project is included in the Orange County district bikeway strategies	10
Project is included in the OCTA non-motorized Metrolink Accessibility Strategy	10
Project is a sidewalk on the Master Plan of Arterial Highways	5
Project is included in a state or local agency bicycle or pedestrian master plan, active transportation plan, or complete streets plan	5
Project is included in a local Safe Routes to Schools Plan	5
Project is included in a specific plan or corridor plan	2
Project is included in local agency general plan or circulation element	2

The plans that are referenced above were developed consistent with OCTA's mission to develop and implement transportation solutions to enhance the quality of life and keep Orange County moving. The projects included in the plans tend to focus on gap closure and regional bike corridors. Further, they are the most directly relevant plans that have been developed in Orange County, which meet the goals of the state ATP.

OCTA-led projects are eligible for the additional points in the same manner as the local agency projects. The regional plans listed in the methodology were developed in coordination with all the local Orange County agencies. Basing the assignment of points

¹ Per the Southern California Association of Governments guidelines through the 2019 ATP, the maximum points that can be assigned by the county transportation commission is 20 points. These local prioritization points will be added to the score provided by the state.

solely upon a project being included in various regional and local plans that focus on gap closures, community issues, Safe Routes to Schools, and regional bicycle and pedestrian corridors, ensures that projects submitted by OCTA can receive equitable consideration.

Disadvantaged Communities Methodology

To maximize funding for Orange County projects, staff will evaluate the points assigned to each project to confirm that 25 percent of the regional funding goes to projects that will benefit disadvantaged communities as required by SB 99 (Chapter 359, Statutes of 2013). Staff will consider reprioritization of points to projects if the highest scoring projects in Orange County do not meet the requirement.
