**RE: Request to modify the lane configuration on Master Plan of Arterial Highways (MPAH)
Segment – Camino De Los Mares (Camino Del Rio to eastern terminus).**

Dear Mr. Brotcke:

On November 23, 2016 the City received interim approval to reclassify a portion of Camino De Los Mares (from Camino Vera Cruz to Camino Del Rio) from a secondary arterial to a divided collector. The City intended to extend that reclassification request to include the remaining portion of Camino Los Mares from Camino Del Rio to the eastern terminus at the City limit/Prima Deshecha landfill boundary, but inadvertently omitted that section. Traffic volumes on this segment of Camino De Los Mares are even less than for the segment for which reclassification was approved, since that roadway only serves two small residential side streets before ending at the City limit which is also the Prima Deshecha landfill boundary. Therefore, the City requests to also reclassify this segment as follows:

- Camino De Los Mares, from Camino Del Rio to the eastern terminus
- Reclassify from secondary arterial to divided collector

As we have discussed with you and your staff, the City will soon complete a General Plan Amendment (planned for no later than first quarter of calendar 2021) that will incorporate these and several other interim approvals, so that after that time all interim approvals will be made permanent for update on the MPAH. Please contact me if you have any questions.

Sincerely,

Tom Bonigut, P.E.
Public Works Director/City Engineer
