Orange County Taxi Administration Program Update

Since 1998, the Orange County Transportation Authority has administered the Orange County Taxi Administration Program on behalf of the County of Orange and its 34 cities. The program, as it is designed today, is no longer financially sustainable. Working through the Orange County City Manager Association for the past eighteen months, a plan to fund the program through June 30, 2018, has been developed. Staff will continue to work with the county and cities to identify solutions that will allow them to continue to meet their statutory obligations for the regulation of the taxi industry.
