San Juan Creek Bridge Replacement Project Update and Authority to Acquire Right-of-Way

The Orange County Transportation Authority is the owner of the Orange subdivision railroad right-of-way in Orange County. The Southern California Regional Rail Authority is currently in the design phase for the San Juan Creek Bridge Replacement project. The project requires acquisition of property from public and private parties to allow the construction of the project. The initiation of the property acquisition process is necessary at this time to maintain the project delivery schedule.

Authorize the Chief Executive Officer, or his designee, to initiate discussions with property owners and utility owners, make offers, and execute agreements for the acquisition of all necessary interests in real property and necessary utility relocations for the San Juan Creek Bridge Replacement project.
