Cooperative Agreements for Regional Traffic Signal Synchronization Program Projects

On June 10, 2019, the Orange County Transportation Authority Board of Directors approved programming of funds for projects as part of the 2019 call for projects for the Measure M2 Regional Traffic Signal Synchronization Program. As part of the application process, the Orange County Transportation Authority was requested to be the lead agency on three of the six projects: Aliso Creek Road, Lake Forest Drive, and Red Hill Avenue. Separate cooperative agreements with local agencies are necessary for each of these projects to specify the amount of required local matching funds.

- A. Authorize the Chief Executive Officer to negotiate and execute Cooperative Agreement No. C-9-1419 between the Orange County Transportation Authority and the cities of Aliso Viejo and Laguna Niguel for the Aliso Creek Road Regional Traffic Signal Synchronization Project, with required local matching funds of \$285,994.
- B. Authorize the Chief Executive Officer to negotiate and execute Cooperative Agreement No. C-9-1420 between the Orange County Transportation Authority and the cities of Irvine, Laguna Hills, and Lake Forest for the Lake Forest Drive Regional Traffic Signal Synchronization Project, with required local matching funds of \$360,411.
- C. Authorize the Chief Executive Officer to negotiate and execute Cooperative Agreement No. C-9-1421 between the Orange County Transportation Authority and the cities of Costa Mesa, Irvine, and Tustin for the Red Hill Avenue Regional Traffic Signal Synchronization Project, with required local matching funds of \$419,018.
