2020 Technical Steering Committee Membership

The Orange County Transportation Authority Technical Advisory Committee provides feedback and input on local streets and roads related items. To accomplish this, the committee relies on a Technical Steering Committee made up of nine representatives from local agencies to provide guidance on major technical items. Technical Steering Committee members serve two-year terms, with the exception of one-year terms for the chair and vice chair. This year, five positions are open for consideration, and proposed 2020 Technical Steering Committee membership recommendations are presented for review and approval.

Approve proposed 2020 Technical Steering Committee membership.
