Options for Future Express Lane Corridors in Orange County

The Orange County Transportation Authority 2018 Long-Range Transportation Plan's Short-Term Action Plan recommended an Express Lanes Network Study to identify planning and policy positions in response to an initiative by the California Department of Transportation to implement express lanes in Orange County. In May 2019, staff initiated this study, and a status report has been prepared.

Direct staff to return in spring 2020 with draft recommendations on a preferred approach to implementation of express lanes.
