Construction and Maintenance Agreement with the Union Pacific Railroad and the California Department of Transportation for the Interstate 405 Improvement Project

The Orange County Transportation Authority proposes to enter into a construction and maintenance agreement with the Union Pacific Railroad and the California Department of Transportation for the Interstate 405 Improvement Project. The project proposes to widen the Bolsa overhead freeway bridge over the railroad facility. A construction and maintenance agreement is required to define the specific terms, conditions, and funding responsibilities for the construction and long-term maintenance responsibility for the constructed bridge.

Authorize the Chief Executive Officer to negotiate and execute Construction and Maintenance Agreement No. C-9-1793 with the Union Pacific Railroad and the California Department of Transportation, in an amount not to exceed \$792,055, to define the specific terms, conditions, and funding responsibilities for construction and maintenance, including design and construction parameters, flagging, inspection, temporary construction easement, and permanent property rights for the Interstate 405 Improvement Project.
