Amendments to On-Call Traffic Engineering and Intelligent Transportation Systems Services Agreements

On January 13, 2020, the Orange County Transportation Authority Board of Directors approved agreements with four traffic engineering firms to provide consultant services for on-call traffic engineering and intelligent transportation systems services for the Measure M2 Regional Traffic Signal Synchronization Program for five years with two, one-year option terms. Amendments to the existing agreements are necessary for additional on-call services to implement recommendations approved as part of the 2021 Comprehensive Transportation Funding Program competitive call for projects

Authorize the Chief Executive Officer to negotiate and execute amendments between the Orange County Transportation Authority and the following consultants for on-call traffic engineering and intelligent transportation systems services agreements: Agreement No. C-9-1513 with DKS Associates, Inc.; Agreement No. C-9-1810 with AGA Engineers, Inc.; Agreement No. C-9-1811 with KOA Corporation; and Agreement No. C-9-1812 with Iteris, Inc., in a shared amount of \$10,547,425. This will increase the maximum obligation for all the on-call firms for a total combined aggregate contract value of \$15,875,425.
