Agreement for Regional Modeling-Traffic Operations On-Call Support Staffing

Consultant support staffing for traffic engineering services is needed to support the implementation of the Measure M2 Regional Traffic Signal Synchronization Program over the next three years. Proposals have been received and evaluated in accordance with the Orange County Transportation Authority's procurement procedures for professional and technical services. Approval is requested to execute a new agreement for these services.

- A. Approve the selection of W. G. Zimmerman Engineering, Inc., as the firm to provide on-call support staffing on an as-needed basis for regional modeling-traffic operations.
- B. Authorize the Chief Executive Officer to negotiate and execute Agreement No. C-6-1493 between the Orange County Transportation Authority and W. G. Zimmerman Engineering, Inc., in the amount of \$400,000, for a two-year initial term through April 30, 2019, with one, two-year option term to provide on-call support staffing on an as-needed basis for regional modeling-traffic operations.
