

Central Harbor Boulevard Transit Corridor Study

The Orange County Transportation Authority has prepared the Central Harbor Boulevard Transit Corridor Study to develop and evaluate conceptual transit alternatives for the Harbor Boulevard Corridor. In January 2018, evaluation results for 12 conceptual alternatives were presented to the Orange County Transportation Authority Board of Directors. The results were then presented to each city council in the study area for their review and comment. This report provides a final summary of the feedback received and recommended next steps.

- A. Conclude the Central Harbor Boulevard Transit Corridor Study.
- B. Focus future Central Harbor Boulevard efforts on service speed and amenity improvements for existing bus service.
