Active Transportation Program Local Project Prioritization Methodology

On May 16, 2018, the California Transportation Commission adopted the 2019 Active Transportation Program Guidelines and issued a two-tiered call for bicycle and pedestrian projects. The State of California and the Southern California Association of Governments will administer the process. A proposal for the Orange County Transportation Authority to prioritize projects selected through the Southern California Association of Governments selection process is presented for Board of Directors' approval.

Approve the Active Transportation Program local project prioritization methodology for the 2019 Active Transportation Program and future calls for projects.
