

Bristol Street Transit Corridor Study - Draft Alternatives

The Orange County Transportation Authority initiated the Bristol Street Transit Corridor Study in October 2018. The study will identify options for improving transit service in the Bristol Street corridor from 17th Street to the South Coast Metro area and evaluate connections to John Wayne Airport. This staff report presents the six draft conceptual alternatives for Board of Directors' consideration.

- A. Direct staff to offer presentations of the draft conceptual alternatives to the cities and external agencies participating in the study, and conduct a second round of outreach to solicit input from stakeholders and the public.
- B. Direct staff to update the conceptual alternatives based on the input received, perform the technical evaluations, and return to the Board of Directors in spring 2020.
