

File #: 19-2190, Version: 1

Approval to Release Request for Proposals for the Procurement of 40-Foot Compressed Natural Gas-Powered Buses

The Orange County Transportation Authority operates a fleet of 462, 40-foot compressed natural gas-powered buses to provide fixed-route service. Based on the Orange County Transportation Authority's Fleet Plan, these vehicles will operate in fixed-route service for up to 18 years. A sub-fleet of 299 buses is nearing the end of its useful life and a request for proposals has been developed to purchase replacement buses. Staff is seeking Board of Directors' approval to release the request for proposals.

- A. Approve the proposed evaluation criteria and weightings for Request for Proposals 9-1836 for the procurement of up to 299, 40-foot compressed natural gas-powered buses.
- B. Approve the release of Request for Proposals 9-1836 for the procurement of up to 299, 40-foot compressed natural gas-powered buses.
