Zero-Emission Bus Rollout Plan Update

The Orange County Transportation Authority is developing a plan to comply with the California Air Resources Board's Innovative Clean Transit regulation. The regulation requires transit agencies to begin purchasing zero-emission buses in 2023, with the goal of transitioning all transit buses to zero-emission technology by 2040. The regulation also requires transit agencies to adopt a plan to meet the requirements. The plan must be submitted to the state by July 1, 2020.
