Medical Exams, Internal Audit Report No. 20-508

The Internal Audit Department of the Orange County Transportation Authority has completed an audit of controls in place related to the Federal Motor Carrier Safety Administration regulations, California Department of Motor Vehicle requirements, and policies and procedures for employees required to hold a commercial driver license and a current medical certificate. Based on the audit, controls are adequate to ensure employees obtain required medical exams and certificates, and procedures to ensure compliance with requirements to reimburse costs and time to employees that obtain medical recertification are adequate. Finally, invoice review controls for the contract with the provider, ProCare, are generally adequate.
