On January 13, 2020, the Orange County Transportation Authority Board of Directors approved agreements with four traffic engineering firms to provide consultant services for on-call traffic engineering and intelligent transportation systems services for the Measure M2 Regional Traffic Signal Synchronization Program for five years with two, one-year option terms. Amendments to the existing agreements are necessary for additional on-call services to implement recommendations approved as part of the 2021 Comprehensive Transportation Funding Program competitive call for projects
