October 2021 Bus Service Change

In anticipation of increased demand due to the return of in-person learning for most schools, colleges, and universities, Orange County Transportation Authority implemented a service change on August 15, 2021. The proposed October 2021 bus service change will provide more service to address expected ridership increases related to the return of in-person learning and work trips for most sectors of the economy, including the resurgence of hospitality industry activities.
