

Long-Range Transportation Plan Update

The Long-Range Transportation Plan defines a vision for Orange County's transportation system that reflects established plans and policies and responds to forecasted system needs. This vision also guides the Orange County Transportation Authority's input for the Regional Transportation Plan, prepared by the Southern California Association of Governments. Measure M2 and the Orange County Transportation Authority's public transit services are the cornerstones of the Long-Range Transportation Plan. However, consideration of additional strategies is warranted to ensure that the established goals and objectives are addressed.

Direct staff to develop a draft Plan scenario for the Long-Range Transportation Plan that incorporates strategies that address the goals and objectives and public input received to date and return to the Board of Directors for approval.
